Global's Certified Products are in compliance with the stringent emission guidelines set by the GREENGUARD Environmental Institute and include all Upholstered Seating. To obtain a GREENGUARD or GREENGUARD Gold Certificate for any product, please go to the Environmental Commitment section on our website www.globalfurnituregroup.com and click on "GREENGUARD".

level™ certification, based on the ANSI/BIFMA e3-2012 furniture sustainability standard, sets furniture manufacturers on a path toward greater sustainability over time. Based on environmental and social criteria set forth in the standard, a product's entire supply chain is assessed.

Certification assessment includes an evaluation of specific corporate policies and guidelines and an assessment of associated company manufacturing facilities. Products must meet quantifiable milestones of environmental and social performance at every step of development.

The quantitative assessment addresses four categories: material use, energy and atmosphere impacts, human and ecosystem health and social responsibility.

Manufacturers earn points in each of the four categories. The level™ brand and its numeric rating of 1, 2 or 3 indicate what threshold of certification a product has achieved. level™ 3 is the highest rating.

All products with this designation are suitable for UPS shipment throughout the United States.

ERGONOMIC FEATURES & BENEFITS

EACH GLOBAL CHAIR IS BUILT WITH FEATURES THAT ARE ERGONOMICALLY DESIGNED TO PROMOTE GOOD POSTURE AND PROVIDE MAXIMUM COMFORT. WHILE FULLY SUPPORTING YOUR BODY, THESE FEATURES SHOULD ALSO ALLOW YOU TO ADJUST YOUR CHAIR TO FIT YOU.

TENSION ADJUSTMENT

Increase or decrease to match body weight. Allows you to rock comfortably, without heavy pushing, reducing muscle fatigue.

CHAIR TILT LOCK

Lock the tilt movement in position(s) to accommodate your working posture. Allows you to lock your chair in a comfortable and supportive position. (Can be either single position or infinite style).

SEAT HEIGHT

Raise or lower to allow your feet to rest flat on the floor. Avoids pressure under your thighs, easing blood flow.

BACK HEIGHT

Raise or lower to position lumbar support in your lumbar area. Reduces likelihood of back pain.

SEAT DEPTH

Change the depth of the seat to accommodate the length of your thighs. Keeps your back in contact with the backrest while avoiding pressure behind your knees.

FORWARD SEAT ANGLE

Allows chair to tilt forward changing the angle of your thighs in relation to the floor. Helps reduce disc pressure during forward leaning tasks.

BACK ANGLE

Adjust to change the angle of your torso in relation to your thighs. Helps reduce disc pressure and relaxes your back muscles.

ARM HEIGHT

Raise or lower to support your forearms. Reduces muscular effort in neck and shoulders, minimizing risk of pain.

KNEE-TILT MOVEMENT

Chair tilt pivot point is toward the front of the seat. Stability is maintained as the user reclines, keeping their feet on the floor and maintaining the same torso to thigh angle.

SYNCHRO-TILT MOVEMENT

The seat pivots at the center point, while the backrest reclines at a faster rate than the seat, increasing the angle between the user's torso and thighs. Enhances comfort and encourages dynamic body movement.

WATERFALL SEAT EDGE

Reduces pressure at the back of the knee, contributing to good blood flow.

CONTOURED CUSHION

Supports the body effectively, allowing you to sit longer without discomfort.

VIBRATING SEAT & BACK

Soothing effect contributes to your relaxation during work breaks.

WIDTH ADJUSTABLE ARMS

Allows outward movement of armrests to match shoulder breadth. Ensures armrests properly support Forearms, reducing muscular efforts in neck and Shoulders.

ARM ROTATION

Rotate armcaps to support your forearms in various positions. Reduces muscular effort in neck and shoulders minimizing risk of pain.

CENTER TILT

Chair tilts at the center point of the seat allowing you to recline while maintaining the same torso to thigh angle. When your feet are well supported, blood flow is enhanced.

SOFT DESCENT PNEUMATIC LIFT

Gently and gradually lowering the seat helps you easily select proper seat height without causing a jerking motion.

LUMBAR DEPTH ADJUSTMENT

Increase or decrease curvature of the back to match the profile of your lower back. Enhances comfort and support in the lower lumber area.

MAXIMIZING YOUR EGRONOMIC SEATING

- Always select a chair that is designed for the type of work you perform and make certain the chair is comfortable for the length of time spent using it.
- Ensure that the seat and back cushions are contoured to fit your body, which will help eliminate pressure points.
- An ergonomically designed chair should allow changing positions easily.
- As you work, reposition yourself throughout the day to reduce strain and stress on specific muscle groups. If you change job functions, adjust your chair to fit the new task.
- Proper ergonomic seating should help eliminate many of the work related injuries that result from poor posture and poorly designed chairs.

CHAIR SAFETY TIPS

Common sense guidelines to ensure that your Global chair will provide many years of comfort and service in a safe and productive environment:

- Always read and follow assembly instructions. Make sure that all of the pieces of your Global chair are installed in the proper order to ensure structural integrity.
- Ensure that chair casters are fully inserted into the base of the unit.
- Inspect your chair for loose or worn parts at least once a year.
- Always keep the base of your chair completely on the floor.
- Most Global chairs are equipped with casters for use on carpeted surfaces. Other flooring surfaces may require different casters.
- Speak to your Global Sales Representative or refer to the Casters Section of this Price Book for appropriate custom selections.
- Many Global office chairs are equipped with tilt tension controls on the seating mechanism. The tension control compensates for different body weights and postures. Always ensure that the control is properly adjusted for a smooth and controlled tilt motion. Your Global Sales Representative can demonstrate the proper use of all the adjustments on your office chair.
- Do not stand on your Global chair or sit on the arms of your chair.
- Do not put electrical appliances on chairs. Even fire retardant fabrics can be damaged when exposed to direct heat or flame.
- Choose the right chair for your work environment. Global offers a full line of Intensive Use, Multi-Shift and Specialized chairs for environments with demanding health or safety requirements. Your Global Sales Representative is trained to help you make the right choice for your workplace.

THE ASSOCIATION FOR CONTRACT TEXTILES (ACT) HAS DEVELOPED THE FOLLOWING PERFORMANCE GUIDELINES TO MAKE FABRIC SPECIFICATION EASIER. THE FIVE SYMBOLS GIVE ARCHITECTS, DESIGNERS AND END USERS A VAST AMOUNT OF PERFORMANCE INFORMATION IN A SUCCINCT, VISUAL WAY. THIS CHART LISTS THE REQUIRED TESTS THAT CORRESPOND TO SPECIFIC END USES. AN EXPLANATION OF THE SYMBOL ALSO APPEARS.

FIRE RETARDANCY

Flammability testing determines a fabric's performance and resistance to burning.

APPLICATION	PASSES
Upholstery	California bulletin 117, section E.
Panels and upholstered walls	ASTM E 84-03 Class A or Class 1 (unadhered method).

COLOR FASTNESS TO WET & DRY CROCKING

Color fastness to wet & dry crocking refers to the rubbing off of color from the fabric onto clothing, hands or other materials and can occur under wet or dry conditions.

APPLICATION	PASSES
Upholstery	AATCC 8-2001 Dry crocking. Class 4 minimum. Wet crocking, Class 3 minimum.
Panels and upholstered walls	AATCC 8-2001 E 84 (unadhered method).

COLOR FASTNESS TO LIGHT

Color fastness to light is the degree to which fabric will retain its color when exposed to light.

APPLICATION	PASSES
Upholstery	AATCC option 2-2003 or AATCC - option 3-2003. Class 4 minimum of 40 hours.
Panels and upholstered walls	AATCC option 2-2003 or AATCC - option 3-2003. Class 4 minimum of 40 hours.

PHYSICAL PROPERTIES

Three physical property tests include: 1 - Brush pill test to determine a fabric's pilling (the formation of fuzzy galls of fiber on the surface of a fabric). 2 - Breaking/tensile strength is the ability of a fabric to withstand tension without breaking or tearing. 3 - Seam slippage is the pulling apart of fabrics at the seams.

APPLICATION	PASSES
Upholstery	Brush pill ASTM D3511-02, 3 minimum. Breaking strength ASTM D5034-95 (2001) 50 lbs. minimum in warp & weft. Seam slippage ASTM D4034 25 lbs. minimum in warp & weft.
Panels and upholstered walls	Breaking strength ASTM D5034-95 (2001) (grab test). 35 lbs. minimum in warp & weft.

ABRASION

Abrasion is the ability of a fabric to withstand damage from wear and rubbing. There is a general contract specification as well as a heavy duty specification.

APPLICATION	PASSES
General contract upholstery	ASTM D4157-02 (#10 cotton duck) 15,000 double rubs, Wyzenbeek method. ASTM D4966-98 (12 KPA pressure) 20,000 double rubs, Martindale method.

STANDARD FEATURES

- A comfortable, high-quality, lightweight, stacking chair that is incredibly strong and durable.
- Bakhita is an all polymer chair intended for use indoors or outdoors. Products must be stored inside during extreme and inclement weather. See Global's Outdoor Furniture warranty for additional information.
- Weather resistant, UV and stain resistant, with a modern design.
- Standard height models (6750, 6751) are suitable for use in MRI rooms.

- Armchairs and Armless Chairs are finished with a smooth surface. Bar Stools and Counter Stools are finished with a slightly textured surface.
- Upholstered seats will only fit on a frame made for this purpose, it is not possible to add an upholstered seat onto an existing all plastic chair in the field.
- Upholstered seats are fixed and non-removable.
- Chair legs are equipped with translucent non-marking glides as standard. Suitable for outdoor environments, carpet and hard surface flooring.
- Check textile availability prior to specifying upholstery material.
- All Bakhita products (except upholstered models) are only available through Global's InStock program. Contact CustomerCare for lead times and quotation for quantities beyond InStock inventory.
- For outdoor use Global recommends marine grade vinyls or Sunbrella fabrics with UV resistance.
- Chairs are available in 3 plastic colors: Alloy (**ALY**), Char (**CHA**), and Milk (**MLK**).
- Tables are available in standard or bar height and are suitable for outdoor use.
- Tables are available with a Silver base and Milk (**MLK**) top only.
- Table tops are constructed from technopolymer compounds with high structural, heat and abrasion resistance. Tops are UV, shock and stain resistant.

STANDARD FEATURES

- Features an auto-adjusting comfort back.
- Spring loaded back reacts to body pressure and articulates 12°.
- Multi-purpose models standard with Global's high quality Soft Descent™ pneumatic lift which slowly and gently lowers the seat height of the chair making it easy to obtain the exact seat height you desire.
- Five prong, injection molded, fiberglass reinforced nylon Black base with **C10** dual wheel carpet casters.
- Nesting chairs have a flip up seat allowing chairs to stack horizontally.
- When nesting horizontal nesting chairs, each additional chair adds 10" to depth.
- Nesting chairs are standard with four Black nylon glides, **C1** carpet casters or with two casters at front, two glides at rear.
- Chairs are "Wall Safe". Rear legs hit the baseboard first leaving clearance between the back of the chair and the wall, saving both the chair and the wall from damage.

BRIDGES II COLLABORATIVE SEATING

model BRTSE2424B

model BRTSE6060B

model BRTST2448F

STANDARD FEATURES

- For all Bridges II components, please see the Bridges II section of the Desking Price Book.
- Bridges collaborative seating collection consists of seating, privacy screens, tables, tablets and power.
- It is a versatile modular furniture series which can be configured into many space planning scenarios, including corner, in-line, open concept, traditional reception, as well as secluded seating with high privacy partitions.
- Furniture pieces can be used as stand alone items or can be mechanically linked together to form a variety of seating configurations.
- Seat and backrest can be integrated with Bridges tables.
- Corner tables and in-line 6" table modules double as power delivery centers.
- Dedicated seat backrests feature dual USB charging port.
- Some in line 6" table modules are furnished with grommets to support tablets.
- Legs are available in standard Bridges metal painted finishes and anodized aluminum finish.
- Bridges Collaborative Seating upholstery features a single stitch, thick white thread around the edges. The white, wide stitch along with crisp corners are part of its distinctive personality.
- In order to achieve crisp edges and to minimize "pillow" effect caused by taut fabric, the upholstery material has been applied deliberately loose, which may over time, produce puckering of the upholstery surface material. This can be easily corrected by stretching the fabric by hand or during vacuuming.
- Freestanding 17"h table. Central partition divides space under top surface into two 11" deep compartments.
- In order to efficiently utilize fabric yield, all 60" seats and backs feature a seam in the middle. The double stitch seam is sewn with a thin thread, closely matching the upholstery material in color.
- Some complicated fabric patterns prevent pattern matching and will be upholstered without the seam at the discretion of the factory.
- Should you require no middle seam by cutting into the roll, please specify "NO SEAM" at time of your order.
- Check textile availability prior to specifying upholstery material.

OPTIONAL FEATURES

- Optional Anodized Aluminum Leg on all models. Add $67.
- Models BRTS2406BT and BRTS2406BPT include 9.5" x 14.5" swivel tablet. If top is specified in high pressure laminate, tablet will also be manufactured in high pressure laminate.
- Bridges II tables and tablets are offered in the following laminate finishes: Absolute Acajou (**ACJ**), Asian Night (**ASN**), Avant Cherry (**AWC**), Avant Honey (**AWH**), Black (**BLK**), Brushed Cobalt (**BRC**), Clear Maple (**CMB**), Custom Grey (**CGY**), Dark Espresso (**DES**), Designer White (**DWT**), Hayden Grey (**HGT**), Noce Biondo (**NBL**), Noce Grigio (**NGL**), Noce Leggero (**NEL**), Noce Medio (**NML**), Quartered Mahogany (**QTM**), Storm Grey (**SOG**), Tiger Fruitwood (**TFW**), Tiger Walnut (**TWL**), Walnut Heights (**WHE**), White Chocolate (**WHC**), Willow Grey (**WGY**), and Winter Cherry (**WCR**). Please Specify.

- Legs are equipped with translucent non marking glides as standard. Suitable for both carpet and hard surface flooring.
- Seating features as standard, decorative double stitch detail, which make seams lay flat and add extra seam strength.
- Cushions are highly resilient foam and seats are equipped with a synthetic rubberized sheet webbing suspension system for extra comfort. Cushions are fixed and non-removable.
- Tables are made with a choice of tops: Genuine Wood tops (**W**) with a reverse beveled edge, Thermally Fused Laminate tops (**LP**) with matching PVC edging or High Pressure Laminate top (**HP**) with matching PVC edging. Custom high pressure laminate finishes will be considered upon requested.
- Regardless of top chosen all tables have wood aprons and a unique tapered leg design.
- Some table assembly required, see RTA code with each item below.
- Measurement shown for weight is for one unit, measurement for volume is per carton.
- Check textile availability prior to specifying upholstery material.

OPTIONAL FEATURES

- Optional cushions and arms can have tailored piping details.
- For piping made in fabric matching the rest of the upholstery fabric please use **MP** models (matching piping after the model number). This is no upcharge.
- For contrast piping made in a fabric that does not match the rest of the upholstery fabric, you can specify any grade 1 or 2 upholstery material for this purpose, please see model numbers ending in **CP** which reflect the appropriate upcharge.
- For contrast piping in a fabric higher than grade 2, you must ask for a special quotation. Per unit price will vary depending on the number of units being ordered.
- Seating unit and tables come with a choice of wood legs or a polished cast aluminum. The table leg finishes coordinate with the legs on the soft seating units.
- Seating and tables with polished aluminum legs are shown as separate skus.
- Tops finishes coordinate with the laminate finishes for Global Desking and wood seating finishes. Specify laminate finishes from the Adaptabilities or Zira sections of the price list.

RIVER™

Sample Layout

Sample Layout

STANDARD FEATURES

- A modular seating series that is composed of modular linking units in straight, curved and corner units. Soft seating models are available with standard height, high and extended high backs. All linking units can be used together in any combination to create a wide variety of layouts.
- The unique tapered legs (swaged legs) are made of welded steel, heavy duty construction, with each leg bolted directly to the frame. The extremely robust construction insures trouble free performance in any environment. All units except for the Laptop Tables have the same leg height of 6.5". The leg height makes it easier to clean under the product.
- Each leg is standard with adjustable black leveling glides and are non-marking. Wood legs and casters are not available.
- All cushions are fixed and non-removable (cushions will not migrate). Perimeter seams feature a decorative single stitch detail, which makes seams lay flat and adds extra seam strength.
- Seating frames are heavy duty with interlocking plywood, puzzle box construction, made for rugged active environments. Seats are high density with highly resilient foam and are equipped with a synthetic rubberized webbing suspension system for extra comfort.
- Front edge or face of the seat, angles slightly inward, so feet have freedom of movement and shoe heels don't rub on the seat. This inward slanting matches the inward angles of the back. Benches and connecting end tables also reflect the inward angles on the front and back faces, so all units coordinate in visual appearance.
- For use in high traffic applications as well as 24/7 environments or for models with 600 lb. standard weight capacity, clean out space between seat and back and /or modular arms, please see the River+ series.
- Most units can be ganged together with a quick connect, disconnect feature. Ganging hardware is standard and is factory installed. Ganging hardware swivels out of sight when not in use.

OPTIONAL FEATURES

- Most tables and seating units can be specified with Power/USB terminals, which includes two power outlets, two double USB terminals and a black 60" three-prong power cord. Each Power/USB module is set in predetermined locations, as shown in the electrical illustrations below. Electrical units must be factory installed.
- To add a Power/USB module: From the electrical illustrations below, please specify **J1**, **W1**, **J2**, **W2**, **J3**, **W4**, **J4**, **W4**, **J6** or **W6** after the product model number. Please note on seating units, if both right and left locations are required, add both **J1**/**J3** or **W1**/**W3** to the model number. Add $875 for each module/location required.
- Power/USB modules are available with either Jet Black (**J**) face plate with black Power/USB receptacles or with a White (**W**) face plate with white Power/USB receptacles.
- Tables are made with high pressure laminate and are offered in the following finishes: Absolute Acajou (**ACJ**), Asian Night (**ASN**), Avant Cherry (**AWC**), Avant Honey (**AWH**), Clear Maple (**CMB**), Dark Espresso (**DES**), Designer White (**DWT**), Hayden Grey (**HGT**), Noce Biondo (**NBL**), Noce Grigio (**NGL**), Noce Leggero (**NEL**), Noce Medio (**NML**), Quartered Mahogany (**QTM**), Tiger Walnut (**TWL**), Walnut Heights (**WHE**), White Chocolate (**WHC**) and Winter Cherry (**WCR**). Please Specify. Custom High Pressure laminate finishes will be considered upon request.
- The metal legs are standard in Chrome (**CHR**). Tungsten (**TUN**) and Black (**BLK**) finishes are also available at no up charge. Laptop tables bases are only available in Tungsten (**TUN**) and Black (**BLK**) finishes.
- Check textile availability prior to specifying upholstery material. Leather not available on River series.
- If more than one fabric or a fabric/vinyl combination is required, please fill out a "Seating Multiple Textile" form, specifying each fabric location. Please contact Customer Care for more information.

ELECTRICAL PLACEMENT

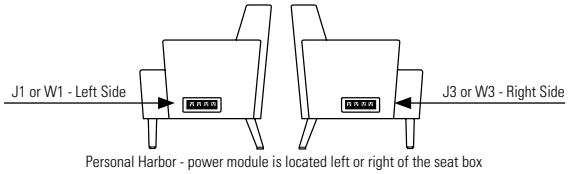
Locations available on left side J1 (black) or W1 (white), right side J3 (black) or W3 (white) or both sides J1/J3 (black) or W1/W3 (white).



Personal Harbor - power module is located left or right of the seat box

STANDARD FEATURES

- River Personal Harbor is a line extension of the popular River modular seating series. For modular series see River price book pages.
- The freestanding soft seating models are available with standard height, high and extended high backs.
- The unique tapered legs (swaged legs) are made of welded steel, heavy duty construction, with each leg bolted directly to the frame. The extremely robust construction insures trouble free performance in any environment. All units have the same leg height of 6.5". The leg height makes it easier to clean under the product.
- Each leg is standard with adjustable black leveling glides and are non-marking. Wood legs and casters are not available.
- All cushions are fixed and non-removable (cushions will not migrate). Perimeter seams feature a decorative single stitch detail, which makes seams lay flat and adds extra seam strength.
- Seating frames are heavy duty with interlocking plywood, puzzle box construction, made for rugged active environments. Seats are high density with highly resilient foam and are equipped with a synthetic rubberized webbing suspension system for extra comfort.
- Front edge or face of the seat, angles slightly inward, so feet have freedom of movement and shoe heels don't rub on the seat. This inward slanting matches the inward angles of the back. Benches and connecting end tables also reflect the inward angles on the front and back faces, so all units coordinate in visual appearance.
- High Traffic (**HT**) units are rated at 350 lbs. active load per seat and 24/7 use. These units have the same puzzle box frame construction except that the framing wood is 1" thick, rotary cut, birch plywood and all arms, seat and back cushions are made with Ultracell Foam.
- High Traffic (**HT**) models are recommend to be specified in textiles that meet or exceed 100,000 double rubs for added abrasion performance.
- Check textile availability prior to specifying upholstery material. Leather not available on River Personal Harbor.

OPTIONAL FEATURES

- Seating units can be specified with Power/USB terminals, which includes two power outlets, two double USB terminals and a black 60" three-prong power cord. Each Power/USB module is set in predetermined locations, as shown in the electrical illustrations below. Electrical units must be factory installed.
- To add a Power/USB module: From the electrical illustrations below, please specify **J1**, **W1**, **J2**, **W2**, **J3**, **W4**, **J4**, **W4**, **J6** or **W6** after the product model number. Please note on seating units, if both right and left locations are required, add both **J1**/**J3** or **W1**/**W3** to the model number. Add $875 for each module/location required.
- Power/USB modules are available with either Jet Black (**J**) face plate with black Power/USB receptacles or with a White (**W**) face plate with white Power/USB receptacles.
- The metal legs are standard in Chrome (CHR). Tungsten (**TUN**) and Black (**BLK**) finishes are also available at no up charge. Laptop tables bases are only available in Tungsten (**TUN**) and Black (**BLK**) finishes.
- If more than one fabric or a fabric/vinyl combination is required, please fill out a "Seating Multiple Textile" form, specifying each fabric location. Please contact Customer Care for more information.

River+ Seating, Benches & Media Hearths

For River+ seating, please see page 332
For River+ benches, please see page 348
For River+ media hearths, please see page 357

STANDARD FEATURES

- A modular series that is composed of straight and curved sections, as well as freestanding units.
- Linking units can be used together in any combination with River+ seating and bench units to create a wide variety of layouts. Ganging hardware is standard and is factory installed. Ganging hardware swivels out of the way when not in use.
- Front and back faces of end (linking) tables angles slightly inwards. This inward slant matches the inward angles of River seating so all units coordinate in visual appearance.
- The standard 6.5", welded steel legs are straight (vertical) as standard. Linking models are optionally available with an angled back leg to visually align with River+ seating units.
- Legs are standard in Chrome with Black, non-marking, height adjustable glides.
- Tables are made with high pressure laminate. Custom high pressure laminate finishes will be considered upon request.
- Laptop tables have 1" thick laminate tops.
- Laptop table painted metal base finishes are available in Black and Tungsten only.

OPTIONAL FEATURES

- Legs of coffee and end (linking) tables are available in 3" (**S3**) and 8" (**S8**) heights. All leg heights are available with fixed-to-floor (**F3**) and (**F8**) options. Add $92.
- To match adjacent lounge seating, straight front and angled back 6.5" or 8" legs are available on linking/end tables. Specify (**SA**). No upcharge.
- Power units are available on all tables except laptop tables. Each unit includes one AC outlet and two USB-a,10 watt charging ports. Add $612 upcharge per unit.
- Power location options include top, front or end. See electrical placement diagrams. Electrical units must be factory installed.
- Power units are available in either Jet Black (**J**) or White (**W**) with 120", three-prong matching cords.
- Products can be weighted to reduce the ease of movement. For additional weight options, specify (**CW**). See each model for available additional weight and upcharge.

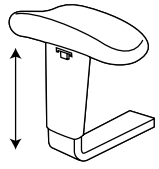
arm and caster options

HOW TO SELECT ARMRESTS

Global has a wide selection of armrest to suit almost every work task. Armrest are an important feature of a chair. They reduce stress an tension on the spine, neck and shoulder muscles by supporting the weight of your arms. This makes you more comfortable and ultimately more productive. Height, width and angle adjustable armrests enable you to position your arms at a comfortable working position, based on the task at hand.

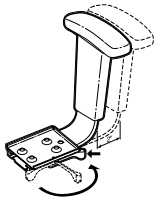
COMFORT TIPS

- Wrists should be in a straight or neutral position - avoid bending your wrists
- When mousing, use whole arm movements instead of flexing your wrist.
- Rest your palm on the mouse pad for support.



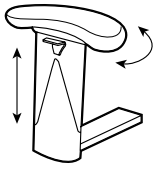
HEIGHT ADJUSTABLE ARMS

- A full range of arms is available with armcaps in self-skinned urethane (SSU).
- Use the features available on Global's adjustable arms to accommodate your ergonomic requirements.



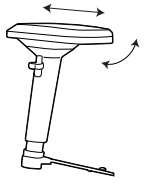
VARI-WIDTH ARM

- Features maximum comfort while enabling you to maintain top productivity levels.
- Easy to use levers enable you to adjust the distance between armrests quickly and simply. An ergonomic feature, Vari-Width maximizes shoulder support as it accommodates the specific width requirements of each user.
- Metal adapter plates provide width adjustability. One adapter plate is attached under each side of the seat. Arms are inserted into the adapter plates.
- Arms extend outward up to 2" on each side. A lever locks each arm in any position.
- Vari-Width is available only with Global's height adjustable arms. The arm chart (on the following pages) specifies all arm options available for the Vari-Width series. Vari-Width is standard on many chairs; they can also be retroactively installed on chairs.
- When ordering, please specify series, arm and (**WA**) ie. Loover 2660-0 (**G5**) and (**WA**). When ordering as retrofit, please specify **2660-0-WA**.



ROTATING ARMCAPS

Rotating armcaps articulate inward and/or outward. This positions the arm to support mousing or keyboarding activities. Rotating armcaps can also be used to narrow the space between the arms for slender people seeking arm support while keyboarding.



SLIDING ARMCAPS

Select arms have sliding armcaps. They can slide over top of the seat to narrow the space between the arms for smaller users. Sliding armcaps also slide forward for arm support for larger users or slide to the rear allowing slender users to sit closer to their worksurface.

EXPLANATION OF VARIOUS INDUSTRIAL APPLICATIONS

This section presents only some of the possibilities that are available.
Please contact your Sales Representative for additional information.

50 - INDUSTRIAL

Designed for heavier duty intensive environments such as those found in factories, assembly lines and dispatch offices. Seating features durable components including heavy gauge steel construction, chromed chip/corrosion/humidity resistant pneumatic lift cylinders and frames, heavy duty bases, weight activated interval safety casters for hard floors or encased levelling glides, wear resistant fabric or easy clean vinyl upholstery.

52 - ELECTROSTATIC DISCHARGE (ESD)

ESD seating is designed to assist in the protection of delicate electronic equipment from the discharge of static electricity. All components of these chairs are designed and manufactured using conductive materials including: special fabric, bases, "lightning bolt" casters, mechanisms, pneumatic lifts and footrings. ESD seating is designed to be used in conjunction with personal wrist straps and ESD controlled floorings or ESD mats. All ESD seating products are tested to and meet the requirements of the ESD Association Standard Test Method ESD STM 12.1 - 1997 Section 5.3.

56 - CLEAN ROOM (CLASS UL #1000)

Class 1000 is the least intensive Clean Room classification used by hospital equipment suppliers and photo finishing/film companies. Workers here usually wear shop coats and gloves. Vinyl applied to the underside of the seat and vinyl or fabric upholstery are designed to prevent dust and other contaminants from entering the environment.

62 - ANTI-MICROBIAL

For hospital areas and labs that require furniture that minimizes bacterial and fungal growth and wipes up easily. Anti-microbial seating inhibits micro organism invasion and growth. Integrated filters allow fabric/vinyl to breath. A Class 1000 cleanroom would not contain more than 1000 particles bigger than half a micron in a cubic foot of air.

64 - WIPE DOWN

Furniture designed for dry food manufacturers, hospitals and forensic labs requiring regular and immediate clean up of dust,dirt or powder. Upholstery of any kind is unacceptable here. Features include comfortable Black self-skinned polyurethane seats and backs, chip/corroionn/humidity resistant pneumatic lift cylinders and frames,safety casters or glides. Some "Wipe Down" products may also be available with ESD.

Care and Cleaning

TEXTILES

Fabrics: To extend the life of your seating upholstered in fabric, regularly dust the chair to prevent airborne particles from penetrating the fabric surface.

For light soiling, use a damp cloth and blot the spot with very slight pressure, taking care never to soak the fabric. Dry with a clean cloth by blotting - never rub fabric. More intense stains can be treated the same way, but with a mild detergent. Always test fabric first in an unseen area before using any cleaning method.

Leather: For regular cleaning, simply use a soft damp cloth, taking care not to soak the leather. For more thorough treatment, soak a soft cloth in mild soap solution and wipe surface in a light circular motion. Repeat with clean water. Allow to dry and polish with a soft dry cloth. Do not use detergents, aerosol sprays or other polishes.

Various Care and Cleaning Methods

- **Water-Based Cleaner:** Spot clean, using the foam only from a water-based cleaning agent, such as a mild detergent or non-solvent upholstery shampoo product. Apply foam with a soft brush in a circular motion. Vacuum when dry. Pretest small area before proceeding.
- **Solvent Cleaner:** Spot clean, using a mild water-free solvent or dry cleaning product. Clean only in a well-ventilated room and avoid any product containing carbon tetrachloride or other toxic materials. Pre-test a small area before proceeding.
- **Water/Solvent Cleaner:** Spot clean with amild solvent, an upholstery shampoo, or the foam from a mild detergent. When using a solvent or dry cleaning product, follow instructions carefully and clean only in a well-ventilated room. Avoid any product that contains carbon tetrachloride or other toxic materials. With either method, pretest a small area before proceeding.
- **Vacuum Only:** Clean this fabric only by vacuuming or light brushing to prevent accumulation of dust and grime. Water-based foam cleaning agents of any kind may cause excessive shrinking, staining, or distortion of the surface pile and therefore, should not be used.
- **Crypton Cleaning:** Generally stains are removed with plain water and powdered enzyme detergent. Upholstery foam shampoo, water-based cleaning products and germicidal detergents can be used. Be sure to remove all residue from cleaning products with clean water. Do not use solvent-based cleaners or dry cleaning products.

HARD SURFACES

Wood Veneer Finishes: Waxing or polishing catalyzed finishes is not recommended because this will give a greasy, cloudy or uneven appearance to the product and could void your warranty. Global's conversion varnish is best cleaned by wiping the surface with a damp cloth, followed by a soft dry cloth in the direction of the grain. If the surfaces are heavily soiled, a gentle product like "Windex" can be used, following the same instructions as above.

Laminate & Painted Metal Finishes: Using a soft cloth, simply wipe the surface with a mild soap solution or glass cleaner. Always use a dry cloth and circular motion to prevent streaks.

NOTES

TERMS & CONDITIONS

This illustrated price list has been designed to facilitate fast reference and easy use. All products are categorized into "seating", "desks", "files", "panels", "tables" and "modular furniture", and are listed numerically within their categories. The line drawings match actual photographs (where possible) to aid in instant recognition of the total range within a series.

Sales of Global-The Total Office ("Global") products are made only on Global's standard terms and conditions of sale which are contained in this Price Book. These standard terms and conditions may be modified or supplemented only by a separately written document signed by Global's authorized personnel at its head office in Marlton, NJ. Any term or condition contained in any purchase order or other form used by dealer/purchaser to order goods (including standard, printed language) which is different from, in addition to, or in any way inconsistent with Global's standard terms and conditions shall be of no force or effect whatsoever.

All illustrations, specifications and prices in this book are based on the latest product information available at the time of publication. Global reserves the right to make changes, at any time and without prior notice, to prices, colors, materials, specifications and models offered.

Description
Each product shown or described in this price list is standard Global product. Variations are noted at the beginning of each series. Any variations from what is standard may require additional delivery time and cost and may affect the warranty given. Sizes and weights shown are approximate and are subject to slight changes from time to time.

Prices and Payment
The prices shown in this book, as well as those quoted by Global, are in United States dollars for orders shipped to destinations in the U.S. and Mexico.

If shipping date requested is more than 90 days from date of order, Global shall have the right to use published list prices effective at the time of shipment.

Orders are invoiced at the time of shipment. Terms of payment are net 30 days from date of invoice (1% 15 days) unless otherwise stated. The customer agrees that Global shall have the right to enforce a charge amounting to 1.5% per month (18% per year) on invoices outstanding more than 30 days.

If dealer/purchaser's most recent annual net volume is less than $5,000.00, payment must be made in advance.

Any products sold by Global shall remain the personal property of Global until fully paid.

Prices are suggested list prices only and are subject to change without notice. Global will, however, attempt to keep dealer/purchasers up-to-date on all developments including price changes.

Taxes
All prices shown in this book are exclusive of sales, use, excise and other applicable taxes and are the dealer/purchaser's responsibility as per the invoice issued by Global. If dealer/purchaser claims an exemption from such taxes, it shall be the dealer/purchaser's responsibility to furnish Global with an appropriate exemption certificate at time of order.

Ordering Information
To avoid errors and/or duplication Global requires that all orders be submitted in writing. All orders submitted to Global in writing will be acknowledged on Global's acknowledgement forms governing the transaction. The details appearing on this acknowledgement will describe the items to be shipped and the approximate shipping date. It is the dealer/purchaser's responsibility to determine that the information in the acknowledgment is correct. In the event of an error, the dealer/purchaser must notify Global immediately by telephone followed by written confirmation. Shipping dates are assigned to orders based on the item having the longest manufacturing lead time.

When ordering, please provide the following information:

1) Account number (if possible)
2) P.O. number
3) "Bill to" and "ship to" name and address
4) Complete model number
5) Description
6) Options:

   b. Color of paint finish, laminate or wood (if applicable)
   c. Trim options (frame)
   d. Arms
   e. Base, Casters
   f. Mechanism
   g. Accessories

Dealer/purchaser is responsible for providing correct information when placing an order. Orders with incorrect information (finish, etc.) will be scheduled for manufacturing upon receipt of complete information.

All phone orders must be confirmed in writing by the customer within 7 days.

To prevent a delay in processing orders, please specify delivery routing.

Changes and Cancellations
After the date of Global's acknowledgment of a dealer/purchaser's order, the order may not be changed or cancelled by dealer/purchaser without the written consent of Global. Special order items, C.O.M. and fabric-covered items already in production are not subject to change or cancellation under any circumstances. Fabric-covered items are considered to be in production once the fabric is scheduled for cutting. Other standard items already in production are subject to a minimum 35% cancellation charge.

Errors and Omissions
All quotations, acknowledgements and invoices are subject to corrections for any errors and omissions.

FINISHES
Seating Finishes
Where painted frames are not a standard color, there is a one time charge of $613 list price per-order for custom wood staining/color matching. Restrictions may apply. The customer must provide a 3" x 3" color chip/sample. Non-standard finishes must be approved by Global prior to acceptance of order.

File Finishes
All non-standard finishes must be approved by Global prior to acceptance of order and may be subject to an upcharge.

Laminated Tops - Pricing for all non-standard finishes and sizes must be provided by Global Customer Service and may be subject to an upcharge.

Desk Finishes
Because the distinctive characteristics and the nature of wood products cause variations, exact matches are not always possible.

Global has launched a finishes program between marketing companies within the Global Group to match products as best as possible when same finishes are specified.

C.O.M. (Customers Own Material)
Use of Customer's Own Material must be approved by Global prior to acceptance of order. Please refer to page page 431 of the Price Book and fill out the Authorization Request Form. Photocopy and use this form as often as necessary. The customer must provide a 12" x 12" fabric sample and advise how the fabric is to be applied. **Fabric yardage requirement will be advised by the factory, and additional yardage may be required if pattern requires matching.** Yardage shown in the List Price Book does not allow for pattern repeat/matching. Send to the address provided on shipping document upon approval from Global. If C.O.M. is difficult to apply or if product shall be modified, extra charges shall be made. Global reserves the right to cancel an order at any time if C.O.M. is inadequate for any reason. Customer's Own Material must be shipped freight and duties paid to our factory. Such shipment must be fully identified with purchaser's order number, RGA # provided by Global, and the item for which material is intended. Performance of C.O.M. when applied to product is the sole responsibility of the purchaser. Global's standard product warranty shall not apply to C.O.M. Use of C.O.M. will not reduce the published list price.

Textile Grading
All products are priced according to their standard fabric and fabric grade. Lower grade fabrics are available (unless otherwise specified) at same price as standard.

The listing of prices for each model indicates the prices for higher upholstery grades. Prices are based on yardage in imperial measurements.

Any claims made against Global for apparent defects, errors or shortages must be made by the dealer/purchaser, in writing, within 15 working days after any delivery. Failure by the dealer/purchaser to make any claim against Global within 15 days shall constitute acceptance of the goods and a waiver of any apparent defects, errors or shortages.

Suspension
In the event that the dealer/purchaser defaults in the payment of any sum due to Global, or in the event the dealer/purchaser's financial condition becomes unsatisfactory to Global, Global shall have the right to defer or discontinue shipment of any goods until such time as the default is cured or the dealer/purchaser provides assurance of payment to Global.

To obtain a GREENGUARD Certificate for any product, please go to the product page on our website www.globalfurnituregroup.com and click on "View GREENGUARD Certificate".

level™ certification, based on the ANSI/BIFMA e3-2012 furniture sustainability standard, sets furniture manufacturers on a path toward greater sustainability over time. Based on environmental and social criteria set forth in the standard, a product's entire supply chain is assessed.

Certification assessment includes an evaluation of specific corporate policies and guidelines and an assessment of associated company manufacturing facilities. Products must meet quantifiable milestones of environmental and social performance at every step of development.

The quantitative assessment addresses four categories: material use, energy and atmosphere impacts, human and ecosystem health and social responsibility.

Manufacturers earn points in each of the four categories. The level™ brand and its numeric rating of 1, 2 or 3 indicate what threshold of certification a product has achieved. level™ 3 is the highest rating.

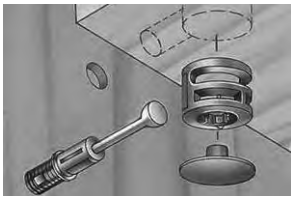
How do I buy a desk?

Choose a non-reflective surface. Global uses colors that reduce glare to make your work easier to read while reducing eye strain.

Get a desk that lets you look ahead. A modular desk is easy to set up initially and then reorganize or reconfigure later to adapt to future needs.



Look for European connectors if you're buying ready-to-assemble furniture. Global makes assembly easy - all you need is a screwdriver.

Give your business an edge. Each Global desk comes with its own attractive edge design.

Avoid tangles. Make sure your desk has at least one grommet hole to keep computer and telephone wires out of the way.

A hutch should have a sweep that manages computer and telephone wires.

Island worksurfaces let you meet with more than two people at once with ample leg room for all.

Choose one of Global's height/angle adjustable keyboard trays to go with your desk. Your arms can maintain a comfortable position, reducing shoulder, back and neck strain.

How do I select the right workstation?

When searching for the right workstation it is important to consider its purpose which will be decided by the nature of your tasks. It is best to look for products that have been designed and engineered to help make your workspace more productive.

This can be achieved in a variety of ways. As a guide, observe how your work flows through your office in a typical day. It is likely that you'll uncover a number of distinctive and repetitive task patterns.

Once these patterns have been identified, organize them according to their intended use and frequency of their use. Now you are ready to investigate the pertinent factors that will determine the workspace you eventually select.

Lighting - Protect yourself

- If you have to setup near a window make sure your computer sits perpendicular to it, minimize eye-strain inducing glare on sunny days.
- If you have fluorescent lights, try to position your set up between the lights.
- Use "Parabolic louvers" to reduce the glare from fluorescent lights
- Use window blinds to control the light source through the day
- Panels or screens may be used to control glare
- Protect your eyes from Ultraviolet A (UVA) and Ultraviolet B (UVB) by using an anti-glare screen

Noise

- Try to set up your office in a separate room if possible and away from the rest of the house

Chair

- Comfort is personal but should be part of the selection
- Seat pan design; deep and wide enough
- Rounded front edge (waterfall)
- Adjustable slope seat
- Able to adjust your chair, to obtain appropriate height
- Sit back in your chair, with your thighs parallel to the floor
- Place feet flat on the floor, a footrocker may be required

Footrocker

- A footrocker helps to prevent possible discomfort resulting from outstretched feet
- The rocking motion creates light activity in the legs and feet and will help stimulate muscles to improve overall circulation

Keyboard

- Has a palm rest
- Easily adjusts the angle of the keyboard
- Easily adjusts the keyboard height

Document Holder

- A curved back document holder reduces glare
- Position document holder in line with the monitor to reduce eyestrain

Monitor

- There should be a direct line from the center of monitor to the, "J" key on your keyboard which should line up with your belt buckle
- Position the monitor at arm's length
- Make sure that the top of your monitor screen is slightly below eye level
- A monitor stand may be used to achieve the desired height

Workstation

- Adequate space beneath the worksurface for your legs
- Depth of the worksurface depends on the task and equipment used to perform this responsibility
- Try to place tasks that are performed regularly within arm's reach
- Avoid unnecessary reaching and bending which leads to fatigue and possible muscle strains and can reduce efficiency
- Keep in mind other related tasks in your planning
- Establish your workflow then design the essential elements to meet your requirements
