

List of Previously-Approved* Design and Testing Consultants - 7/8/13

* This list is provided as a convenience to emergency-contracting vendors for the NYS Office of General Services (OGS) and other government entities involved in disaster relief or reconstruction efforts. It consists of design and testing consultants who have previously worked on jobs for OGS and who were approved from a vendor-responsibility standpoint. Their current MBE or WBE certification status is shown. Inclusion on the list does not imply endorsement of the firm by OGS. For OGS consultants, the existing procedures for consultants to submit subconsultants for vendor-responsibility review must be followed and a BDC 329 is required for approval and payment purposes.
