DRAWINGS

1. Drawing C-201:
 - a. Delete General Note 5 in its entirety and replace with the following:

“5. Existing footing drains which occur where new footing drains are being provided shall be removed in their entirety. Existing footing drains to be removed should be anticipated along the entire perimeter of the building. All laterals from such footing drains shall be removed to the extent required to complete the work and the remaining portions abandoned in place. A total of twelve (12) laterals should be anticipated; each of which shall also be removed from the storm structure it drains to (assume 12 locations), and capped at both ends (assume 24 caps). All abandoned penetrations in storm structures (assume 12 locations) shall be plugged and patched.”

END OF ADDENDUM

James Dirolf, P.E.
Director of Design
