**NOTE TO AUTHORIZED USERS:**

When placing purchase orders under the contract(s), the authorized user should be familiar with and follow the terms and conditions governing its use which usually appears at the end of this document. The authorized user is accountable and responsible for compliance with the requirements of public procurement processes. The authorized user must periodically sample the results of its procurements to determine its compliance. In sampling its procurements, an authorized user should test for reasonableness of results to ensure that such results can withstand public scrutiny.

The authorized user, when purchasing from OGS contracts, should hold the contractor accountable for contract compliance and meeting the contract terms, conditions, specifications, and other requirements. Also, in recognition of market fluctuations over time, authorized users are encouraged to seek improved pricing whenever possible.

Authorized users have the responsibility to document purchases, particularly when using OGS multiple award contracts for the same or similar product(s)/service(s), which should include:

- a statement of need and associated requirements,
- a summary of the contract alternatives considered for the purchase,
- the reason(s) supporting the resulting purchase (e.g., show the basis for the selection among multiple contracts at the time of purchase was the most practical and economical alternative and was in the best interests of the State).

To All State Agencies and others authorized to use State Contracts:

In response to both Authorized User and Contractor feedback, OGS has updated the Appendix C to:

1. Remove the notary requirement for Appendix C submissions.
2. Allow for electronic submission to the team mailbox for Contractors listed above rather than require a hardcopy submission.
3. Add clarity to the existing language including:
  - a. When to submit an Appendix D.1
  - b. Allowable concurrent request submissions
4. Expand descriptions upon existing processes such as:
  - a. Request to Add a Lot to an Existing Umbrella Contract
  - b. Change To Lot 3 – Cloud Level Of Risk (Minimum Insurance Level)
  - c. Bundle Pricing and how to use the Bundle Worksheet
  - d. Removing products – End Of Life allowable documentation
5. Allow a process under Simple Updates, the Established Category Method, detailed below.

### Established Category Method

This methodology is intended to provide quicker to market access for emerging technology and overall efficiency of product additions. One of the following conditions must be met to qualify for this method:

1. Contractors with existing approved Umbrella pricelists containing **one discount per Lot**, previously proven with Reasonableness of Price, may add products within established categories and discounts by providing their Nationally Published List Price or MSRP. This provision excludes Categories containing a 0% discount.
2. Contractors with existing approved Umbrella pricelists containing **multiple discounts per Lot**, must establish proof, to the satisfaction of OGS, that the category discounts are standardized discounts in relation to their products across government contracts. This burden of proof is solely on the Contractor.

To All State Agencies and others authorized to use State Contracts:

Given the uncertainties surrounding the ongoing pandemic, we offered current Contractors the opportunity to extend their contract for a maximum of 24 months to ensure there are no gaps in service or support to our Authorized Users. We fully intend to move forward in soliciting more vendors via a Second Periodic Recruitment in early 2021 with awards following shortly thereafter. However, the duration of the extension allows for the continuity of the contract in the event of a resurgence of COVID-19 during the winter months that would require Procurement Services' resources to be reallocated to support the State's response.

If you are aware of any companies you would like to see incorporated in the future contract via potential Second Periodic Recruitment award, please submit the company's name and if possible representative contact information, including email address(es), to [MfrUmbrella.AuthorizedUsers@ogs.ny.gov](mailto:MfrUmbrella.AuthorizedUsers@ogs.ny.gov) for inclusion in our outreach communications.

### **ALL STATE AGENCIES AND OTHERS AUTHORIZED TO USE STATE CONTRACTS:**

#### **Intel Chip Shortage:**

Intel Corporation has announced a supply chain shortage of the Intel processor chips offered by many Hardware Manufacturers that are on the Manufacturer Umbrella Contract. This CPU shortage has been ongoing since September 2018 and could potentially affect the delivery of tablets, workstations, desktops, and notebook computers purchased under the Manufacturer Umbrella Contract and the Aggregate Agreement 18-01. Delays related to the shortage should be reported to the OGS Aggregate Buy team at OGS.sm.PS.AggregateBuy@ogs.ny.gov

As state and local agencies near the end of the fiscal year, Authorized Users are advised to take the foregoing information into account when planning procurements, OGS encourages Authorized Users to forecast demand for their agency, and submit single large orders vs. submitting multiple small orders wherever possible.

The OGS Aggregate Buy team is attempting to inventory Authorized Users' forecasted demand through the end of the fiscal year (March 31, 2020) to help facilitate procurement efforts. **If Authorized Users are aware of any large forthcoming purchases (such as those involved in a system refresh), they are strongly advised to share that information with the OGS Aggregate Buy team at OGS.sm.PS.AggregateBuy@ogs.ny.gov.**

Intel Corporation's open letter to their customers and partners can be found on their website.

To All State Agencies and others authorized to use State Contracts:

Procurement Services has recently received feedback from Authorized Users regarding the difficulty in navigating the *Listing of Contractors & Resellers* (an Excel document used to send RFQ's to Contractors and Resellers), that is located on the Umbrella Manufacturer website. In addition to the 70 Contractors awarded in 2015, there is currently a First Periodic Recruitment in progress that is awarding additional Contractors on a continual basis. There are now over 120 Contractors with a large number of new Resellers. All told, there are over 1,500 emails listed in the document and over 650 unique entities listed.

As such, Authorized Users may experience issues when using the document and sending out emails to the contacts due to the size and quantity of recipients. While there are different email systems with different sets of limitations, difficulty has particularly been reported when sending to over 250 recipients. If experiencing difficulty, Procurement Services recommends splitting the recipients and sending out multiple emails.

Procurement Services is aware of the issue and will continue to look for ways to make the process as effective and efficient as possible.

This Purchasing Memorandum is intended to clarify the ability and the process for contractors to submit, and Authorized Users to review, additional terms and conditions in response to an Authorized User RFQ in accordance with Section 28, Modification of Contract Terms, Appendix B, General Specifications, which states as follows:

Section 28, Modification of Contract Terms, Appendix B, General Specifications, provides as follows:

## 28. MODIFICATION OF CONTRACT TERMS

The terms and conditions set forth in the Contract shall govern all transactions by Authorized User(s) under this Contract. The Contract may be modified or amended only upon mutual written agreement of the Commissioner and Contractor.

Notwithstanding the foregoing, the Contractor may, however, offer an Authorized User for a particular RFQ procurement: (1) better and more advantageous pricing; (2) better and more advantageous payment terms; or (3) better and more advantageous delivery terms, and the Authorized User may accept such terms without OGS approval. If the Authorized User accepts such terms, the Authorized User shall furnish a copy of such terms to OGS for informational purposes at the time of issuance of the Authorized User's tentative award notification.

Other than where such terms related to pricing, payment or delivery are more advantageous for the Authorized User(s) than those set forth in the Contract, no alteration or modification of the terms of the Contract, including substitution of Product, shall be valid or binding against Authorized User(s). No such alteration or modification shall be made by unilaterally affixing such terms to Product upon delivery (including, but not limited to, attachment or inclusion of standard pre-printed order forms, product literature, "shrink wrap" terms accompanying software upon delivery, or other documents) or by incorporating such terms onto order forms, purchase orders or other documents forwarded by the Contractor for payment, notwithstanding Authorized User's subsequent acceptance of Product, or that Authorized User has subsequently processed such document for approval or payment.

Additional terms and conditions relating to areas other than pricing, payment or delivery may be allowed as part of Contractor's response to an Authorized User RFQ/SOW and incorporated into the Authorized User Agreement provided that all of the following conditions are met:

- 1) The Contractor identifies such terms and conditions in Contractor's response to the Authorized User's RFQ/SOW; and
- 2) Such terms and conditions do not contradict or violate any of the terms and conditions of the Contract, and/or are more advantageous to the Authorized User and the State than those set forth in the Contract; and
- 3) Such terms place no additional liability or responsibility on the Authorized User or State; and
- 4) The Authorized User accepts such additional terms and conditions.

Authorized Users are responsible for determining whether to accept or reject such additional terms and conditions. Authorized Users are encouraged to contact the OGS personnel listed above with any questions regarding the process under Section 28. For assistance in using the Umbrella Contracts please access the following link to OGS' IT Contract Training:

<https://nyspro.ogs.ny.gov/content/find-training>

Also see, Section 2.7, Authorized User Terms and Conditions, of the How to Use the Manufacturer Umbrella Contract, which provides as follows:

#### §2.7 AUTHORIZED USER TERMS AND CONDITIONS

In accordance with Appendix B, Section 28, Modification of Contract Terms, an Authorized User may add additional required terms and conditions to the RFQ and resultant Authorized User Agreement if they are more favorable to the Authorized User and do not conflict with or supersede the OGS Centralized Contract terms and conditions. Examples of additional terms and conditions include:

- Inclusion of the NYS Department of Labor Prevailing Rate Schedule when utilizing a telecommunications worker to install cable;
- Expedited delivery timeframe;
- Additional incentives, such as discount for expedited payment/Procurement Card use; and
- Any additional requirements imposed by the funding source.

CONTRACT NO.: Various CONTRACTOR: Various

To All State Agencies and others authorized to use State Contracts:

Please be advised that in the near future, OGS will process an amendment to all Contracts which will substitute a revised Appendix B for the Appendix B originally incorporated as part of each Contract. Attached is a track changes version of the revised Appendix B.

In addition, the amendment will include the following revisions to sections 2.31.2 and 2.60 of the Contract:

2.31.2 - Maintenance/Support of Product

~~Where Authorized User elects Maintenance/support services, Contractor shall perform Maintenance/support of Product so as to provide Authorized User with the ability to utilize the Product without interruption, delay, or significant functional downtime to the Authorized User's ongoing business operations during the Maintenance/support term in accordance with the terms and conditions of the applicable service descriptions. Contractor shall fully disclose all terms and conditions of maintenance available to Licensee, including the extent to which updates, upgrades, revisions, and new releases are included in maintenance.~~

2.60 ADDITIONAL CONTRACTOR TERMS AND CONDITIONS WITHIN AN AUTHORIZED USER AGREEMENT

~~As part of Contractor's response to an Authorized User RFQ/SOW, a Contractor may propose additional terms and conditions which do not contradict or violate any of the terms and conditions of this Contract, are more advantageous to the Authorized User, and place no additional liability or responsibility on the Authorized User. Such additional terms and conditions may be allowed and incorporated into the Authorized User Agreement, provided the Contractor identifies such terms and conditions in Contractor's response to the Authorized User's RFQ/SOW and the Authorized User accepts such additional terms and conditions. Additional Contractor Terms and Conditions may become part of an Authorized User Agreement in accordance with section 28 of Appendix B.~~

These changes are being included in all contracts currently being sent out to tentative awardees and will be provided to all existing Manufacturer Based Umbrella contractors by means of a contract amendment.

Ability to bid on Authorized User RFQs is not affected by this notice.
