

Attachment 1 - Pricing	
Contractor:	AmmaluIT Corp
Contract Number:	PB70547
Lots Awarded:	1A, 1B
<p>Authorized Users Please Note the Following:</p> <p>A competitive Mini-Bid is required for every transaction under this Centralized Contract. (Section 1.3 of Attachment 16 - How to Use this Contract)</p> <p>The Contractor acknowledges that any mini-bid under this Centralized Contract which includes pricing in excess of the “maximum Not-To-Exceed price” shall be rejected by the Authorized User. (Sections 7.9 of the Contract - Reasonableness of Price)</p> <p>Price increases will only apply to the OGS Centralized Contracts and shall not be applied retroactively to Authorized User Agreements or any Mini-bids already submitted to an Authorized User. (Section 8.5 of the Contract - Pricelist Adjustments)</p> <p>When provided for in the Mini-Bid and resultant Authorized User Agreement, an Authorized User may reimburse travel expenses. All rules and regulations associated with this travel can be found at http://osc.state.ny.us/agencies/travel/travel.htm. In no case will any travel reimbursement be paid that exceeds these rates. All travel will be paid only as part of a deliverable specified within the Authorized User Agreement and must be billed with that associated Invoice with receipts attached. (Section 7.12 of the Contract - Travel, Meals and Lodging)</p>	

AmmaluIT Corp Approved Price List			Number of Approved Titles:	5	Last Updated:	6/16/2025
Item Number	SKU	Job Title	Job Description	Minimum Education / Certification Level	Minimum Years of Experience	NYS Contract Price (Not to Exceed Hourly Rate, Exclusive of Travel)
1	AIT-ETL-001	ETL Architect	Experience in enterprise data architecture, database design, and data modeling Specialize in data-related technologies, including proficiency with big data tools and database management systems Strong knowledge of data integration tools and ETL processes Solid understanding of data warehousing principles and best practices Proficient in database management systems, particularly SQL Server Competence in utilizing reporting tools such as Reporting Services and Excel, along with proficiency in data visualization tools like Tableau and PowerBI	Bachelors or Masters	12	\$98.00
2	ATL-LNX-001	Linux Engineer	Engineering and administration of Veritas products including Cluster Server, Volume Manager, File System / other clustering & replication technologies. Execute Unix performance related utilities. Engineering and administration of SUN/UNIX/ Linux based systems. Subject matter expert for mission critical Public Safety applications and deployments on SUN/UNIX/Linux based systems. Engineering and administration of SAN storage infrastructure in relations to SUN/UNIX/ Linux based systems. Administration of SUN/UNIX/ Linux based systems on physical and virtual servers as well as software. Administration of servers (experience with Red Hat Linux, Solaris & AIX).	Red Hat Linux certification RHEL, Virtualization, Automation Bachelors or Masters	10	\$87.80
3	ATL-DE-001	Desktop Engineer	Maintain the organization's desktop infrastructure, including operating system updates, security patches, and software deployments. Collaborate with the IT team to develop and enforce desktop policies, security protocols, and standard operating procedures. Provide advanced technical support and troubleshooting for desktop related issues, resolving problems in a timely and efficient manner.	Bachelors or Masters	10	\$87.80
4	AIT-SrNE-025	Network Engineer	Responsible for the design and implementation of large data communications or telecommunications networks. Plans and monitors the installation of communications circuits. Manage and monitor local area networks and associated equipment (e.g., bridges, routers, modem pools, and gateways) Conducts short and long-term plan to meet c communications requirements. Responsible for the design and implementation of LANs/WANs using hub switching and router technology. Performs hardware/software analyses to provide comparative data of performance characteristics and suitability within the existing systems environment. Prepares tradeoff studies and evaluations for vendor equipment. Generates network monitoring/performance report, for LAN/WAN utilization studies. Recommends network design changes/enhancements for improved system availability and performance.	A Bachelor's degree from an accredited college or university with a major in Computer Science, Information Systems, Engineering or other related scientific or technical discipline. If applicable, shall be certified as network engineer for the specific network operating system as defined in the State task request.	9	\$125.00
5	AIT-CS-001	Security Engineer	Bachelor's degree in related business or technical areas, or an equivalency of education and work experience 10 – 15 years of experience in Systems Engineering or Network Engineering Minimum of 10 years of experiences in IT Security or Cybersecurity Engineering Analyze, design and implement security solutions with Security and Infrastructure architects Manage and mitigate the organizations vulnerability risks Certificate management (Request, Deploy, Revoke) High understanding of firewalls, routers, and switches High understanding of DNS and DHCP	Security certifications is a plus (CISSP, CISM, GSEC) PCNSA, PCNSE, or CCNA a plus Bachelors or Masters	12	\$130.00
