

<b>Attachment 1 - Pricing</b>	
<b>Contractor:</b>	Comtech Global, Inc
<b>Contract Number:</b>	PB70466
<b>Lots Awarded:</b>	1A, 1B
<p><b>Authorized Users Please Note the Following:</b></p> <p>A competitive Mini-Bid is required for every transaction under this Centralized Contract. (Section 1.3 of Attachment 16 - How to Use this Contract)</p> <p>The Contractor acknowledges that any mini-bid under this Centralized Contract which includes pricing in excess of the “maximum Not-To-Exceed price” shall be rejected by the Authorized User. (Sections 7.9 of the Contract - Reasonableness of Price)</p> <p>Price increases will only apply to the OGS Centralized Contracts and shall not be applied retroactively to Authorized User Agreements or any Mini-bids already submitted to an Authorized User. (Section 8.5 of the Contract - Pricelist Adjustments)</p> <p>When provided for in the Mini-Bid and resultant Authorized User Agreement, an Authorized User may reimburse travel expenses. All rules and regulations associated with this travel can be found at <a href="http://osc.state.ny.us/agencies/travel/travel.htm">http://osc.state.ny.us/agencies/travel/travel.htm</a>. In no case will any travel reimbursement be paid that exceeds these rates. All travel will be paid only as part of a deliverable specified within the Authorized User Agreement and must be billed with that associated Invoice with receipts attached. (Section 7.12 of the Contract - Travel, Meals and Lodging)</p>	

Comtech Global, Inc Approved Price List			Number of Approved Titles:	29	Last Updated:	6/16/2025
Item Number	SKU	Job Title	Job Description	Minimum Education / Certification Level	Minimum Years of Experience	NYS Contract Price (Not to Exceed Hourly Rate, Exclusive of Travel)
1	COM0001	Project Manager	Serves as project manager and primary point of contact with client. Perform resource allocation and engagement, developing work plan and deliverables. Manage project scope and budget, project standards and deliverables and responsible for proper implementation and performance of the project.	BS	6	\$96.72
2	COM0002	Business Analyst I	Under direct supervision, serves as subject matter expert associated with content, processes and procedures associated with enterprise applications or other information systems. Applies functional knowledge to design and customization of workflow systems that provide seamless integration for client/server applications. Writes functional requirements, develops test plans and works with production issues.	BS	5	\$89.38
3	COM0003	Business Analyst II	Under general supervision, serves as subject matter expert associated with content, processes, and procedures associated with enterprise applications or other information systems. Applies functional knowledge to design and customization of workflow systems that provide seamless integration for client/server applications. Writes functional requirements, develops test plans, and works with production issues.	BS	10	\$107.60
4	COM0004	Database Administrator	Through self-directed activities, applies knowledge of computer science concepts and techniques in the design, development, installation and maintenance of relational databases to satisfy data acquisition and management challenges. Leads, plans, schedules, and controls complex database administration initiatives with customers, support groups, and vendors on concurrent projects. Plans and budgets staff and database resources. When necessary, reallocates resources to maximize benefits. Prepares and delivers presentations on database management systems (DBMS) concepts.	BS	5	\$98.24
5	COM0005	Database Analyst/ Programmer	Under general supervision, designs, implements, and maintains moderately complex databases. Includes maintenance of database dictionaries and integration of systems through database design. Competent to work on most phases of database administration, but may require some instruction and guidance in other phases	BS	7	\$109.47
6	COM0006	Enterprise Architect	Expert in leading activities surrounding design, development, execution, and deployment of an Enterprise Architecture Program. Defines and develops baseline architecture models and identifies and recommends appropriate application of enterprise architecture to meet specific business needs.	BS	10	\$176.84
7	COM0007	ERP Project Manager	The ERP Project Manager leads a segment of an ERP implementation. The manager is in charge of the overall structure of the ERP team, the timetable daily integration of the consulting team with regular client employees. The project manager utilizes a planning tool such as Microsoft Project to monitor each task or subtask to assure compliance with the project milestones. Must have, at a minimum ERP vendor approved certification in 1 or more areas of expertise. Experienced serving as the focal point between the Contractor and the Gov't; communicate effectively at all organizational levels.	BS	10	\$167.43
8	COM0008	Information Assurance Consultant	Under general direction, responsible for all activities relating to information assurance procedures and systems. Develops information systems assurance programs and control guidelines. Confers with and advises subordinates on administrative policies and procedures and resolving technical problems, priorities, and methods. Consults with and advises other sections regarding internal controls and security procedures. Prepares activity and progress reports relating to the information systems audit function.	BS	10	\$147.63
9	COM0009	Program Manager	Under direct supervision, has duties of instructing, directing, and checking the work of other project engineers. Responsible for the completion of assigned engineering projects within budgetary and scheduling guidelines. Leads a group of engineers, analysts, and/or technicians assigned for the duration of a project or may function as ongoing lead within a group of engineers associated with one or more technical areas within the telecom function (such as, but not limited to, network design, engineering, implementation, or operations/user support). Does not have formal supervisory responsibilities, although may provide input for (project) team member performance appraisals.	BS	10	\$152.35
10	COM0010	Programmer I	Under the direct supervision, maintains one of the specific systems and associated sub-systems. Maintains debugs and configures related software systems. Provides operating systems planning and evaluation for performance analysis, capacity planning and hardware upgrades. Interfaces with other client groups to resolve user problems, setting standards and improving overall efficiency of the operating system. Codes, tests and implements tools for operations automation. Assists in the planning and conversion for new hardware/software products.	BS	5	\$73.41
11	COM011	Programmer II	Under minimal direction, provides specialized expertise within multiple systems, software disciplines, as well as general knowledge of related disciplines, applications implications, and customer areas. Responsible for performing in-depth analysis and technical support of systems software products, including complex problem resolution, design, development, testing, operational integration, and user support. Assists other senior Software SE with customization, installation maintenance, setting of standards, and optimizing product performance.	BS	7	\$80.02
12	COM012	Programmer III	Acts independently or under the most general direction, provides top-level technical expertise, including performing in-depth and complex software systems programming and analysis. Main responsibilities include problem resolution and providing technical leadership for the group. Possesses broad knowledge of internal operating systems, applications implications and customer areas. Leads planning and conversions of new software applications.	BS	10	\$88.88
13	COM013	QA Architect I	Perform various tasks associated with IT professional services contract or project. Responsibilities may include, but are not limited to defining requirements, re-engineering business processes and/or defining and implementing operational procedures in the domain of the project. Activities are conducted under the oversight of a Senior Consultant, Senior Architect, Architect or Project Manager. Per manager direction is involved within the Software Development Lifecycle to test software applications and ensure that they meet specifications. Involved in design, development and execution of test cases, test reports, test plans, test schedules and procedures. Gathers and analyzes quality statistics and documents findings for management.	BS	7	\$101.60

Comtech Global, Inc Approved Price List			Number of Approved Titles:	29	Last Updated:	6/16/2025
Item Number	SKU	Job Title	Job Description	Minimum Education / Certification Level	Minimum Years of Experience	NYS Contract Price (Not to Exceed Hourly Rate, Exclusive of Travel)
14	COM014	QA Architect II	Senior consultant for a contract/order/project. Performs engineering (and/or systems engineering) functions as required for the defined project. These may include producing requirements, possibly including use cases; re-engineering business processes and/or defining and implementing operational procedures in the domain of the project. Ability to test software applications and ensure that they meet specifications. Involved in design, development and execution of test cases, test reports, test plans, test schedules and procedures. Gathers and analyzes quality statistics and documents findings for management. Experience in multiple aspects of the business process and the system development life cycle. Must have demonstrated verbal/written communication skills	BS	10	\$111.34
15	COM015	QA Architect III	Lead consultant for a contract/order/project. May interface to customer and perform some project management functions as well. Performs engineering (and/or systems engineering) functions as required for the defined project. These may include producing requirements, possibly including use cases; re-engineering business processes and/or defining and implementing operational procedures in the domain of the project. A leader within the Software Development Lifecycle to test software applications and ensure that they meet specifications. Involved in design, development and execution of test cases, test reports, test plans, test schedules and procedures. Gathers and analyzes quality statistics and documents findings for management. Experience in multiple aspects of the business process and the system development life cycle. Must have demonstrated verbal/written communication skills	BS	10	\$126.91
16	COM016	Quality Assurance Analyst I	Under direct supervision, carries out procedures to ensure that all information systems products and services meet organization standards and end-user requirements. Assists in the testing of software to ensure proper operation and freedom from defects. Documents and works to resolve basic problems. Reports progress on problem resolution to management. This position is staffed by beginners who have had sufficient educational background and/or experience to qualify them to start in quality assurance analysis.	BS	5	\$65.49
17	COM017	Quality Assurance Analyst II	Under general supervision, carries out procedures to ensure that all information systems products and services meet minimum organization standards and end-user requirements. Thoroughly tests software to ensure proper operation and freedom from defects. Documents and works to resolve all problems. Reports progress on problem resolution to management. Devises improvements to current procedures and develops models of possible future configurations. Performs workflow analysis and recommends quality improvements.	BS	7	\$93.43
18	COM018	Quality Assurance Analyst III	Under general direction, carries out procedures to ensure that all information systems products and services meet organization standards and end-user requirements. Performs and leads tests of software to ensure proper operation and freedom from defects. May create test data for applications. Documents and works to resolve all complex problems. Reports progress on problem resolution to management. Devises improvements to current procedures and develops models of possible future configurations. Acts as information resource about assigned areas to technical writers and other Quality Assurance Analysts. Performs complex workflow analysis and recommends quality improvements.	BS	10	\$130.99
19	COM019	Software Consultant	The Software Consultant of the ERP implementation team performs a variety of tasks as assigned by the functional or technical consultants. A software consultant does not have vendor approved certification, they work under the supervision of ERP functional and technical consultants in the following areas: Preparation of documentation, Development of training materials, Analysis of reports and data to assure compliance with the goals of configuration, Conduct user surveys. The Software Consultant is familiar with doing analysis work and utilizing computer tools to present graphic representations of solutions	BS	5	\$59.09
20	COM020	Solutions Architect I	Under general supervision, can manage activities surrounding the technical design of initiatives that solve specific business needs, specializes in component-based architecture and reuse, defines and recommends initiative blueprints and validates system architectures to ensure they leverage deployment of technologies that are proven, stable, interoperable, portable, secure, and scalable.	BS	10	\$146.49
21	COM021	Senior Solutions Architect	Top-level expert in leading activities surrounding technical design of initiatives that solve specific business solution, specializes in component-based architecture, defines conceptualization, recommends and validates solutions to leverage current technologies. Performs highly complex assignments with considerable latitude and interfaces with customer to provide high level recommendation and guidance.	BS	15	\$172.73
22	COM022	System Test Analyst I	Perform various testing tasks associated with IT professional services contract or project. Responsibilities may include, but are not limited to defining requirements, re-engineering business processes and/or defining and implementing operational procedures in the domain of the project. Activities are conducted under the oversight of a Senior Consultant, Senior Architect, Architect or Project Manager	BS	5	\$69.01
23	COM023	System Test Analyst II	Senior consultant for testing all aspects of a project. Performs engineering (and/or systems engineering) function testing as required for the defined project. These may include producing requirements, possibly including use cases; re-engineering business processes and/or defining and implementing operational procedures in the domain of the project. Experience in multiple aspects of the business process and the system development life cycle. Must have demonstrated verbal/written communication skills	BS	7	\$83.55
24	COM024	System Test Analyst III	Lead testing consultant for a contract/order/project. May interface to customer and perform some project management functions as well as leading the testing efforts of the project. Performs engineering (and/or systems engineering) functions as required for the defined project and testing efforts for the project life cycle. These may include producing requirements, possibly including use cases; re-engineering business processes and/or defining and implementing operational procedures in the domain of the project. Experience in multiple aspects of the business process and the system development life cycle. Must have demonstrated verbal/written communication skills	BS	10	\$85.90

Item Number	SKU	Job Title	Job Description	Minimum Education / Certification Level	Minimum Years of Experience	NYS Contract Price (Not to Exceed Hourly Rate, Exclusive of Travel)
25	COM025	System Administrator	Under general supervision, responsible for installing, configuring, and maintaining operating system workstations and servers, including web servers, in support of business processing requirements. Performs software installations and upgrades to operating systems and layered software packages. Schedules installations and upgrades and maintains them in accordance with established IT policies and procedures. Monitors and tunes the system to achieve optimum performance levels. Ensures workstation/server data integrity by evaluating, implementing, and managing appropriate software and hardware solutions. Ensures data/media recoverability by implementing a schedule of system backups and database archive operations. Supports media management through internal methods and procedures or through offsite storage and retrieval services. Develops and promotes standard operating procedures. Conducts routine hardware and software audits of workstations and servers to ensure compliance with established standards, policies, and configuration guidelines. Develops and maintains a comprehensive operating system hardware and software configuration database/library of all supporting documentation..	BS	7	\$116.86
26	COM026	System Analyst I	Under immediate supervision, assists in research and fact-finding to develop or modify information systems. Assists in preparing detailed specifications from which programs will be written. Analyzes and revises existing system logic difficulties and documentation as necessary. May use CASE tools.	BS	5	\$82.81
27	COM027	System Analyst II	Under general supervision, formulates and defines system scope and objectives through research and fact-finding to develop or modify moderately complex information systems. Prepares detailed specifications from which programs will be written. Analyzes and revises existing system logic difficulties and documentation as necessary. Competent to work on most phases of applications systems analysis activities, but requires instruction and guidance in other phases. May use CASE tools.	BS	7	\$126.91
28	COM028	System Analyst III	Under general direction, formulates/defines system scope and objectives based on user needs. Devises or modifies procedures to solve complex problems considering computer equipment capacity and limitations, operating time and form of desired results. Prepares detailed specifications from which programs will be written. Analyzes and revises existing system logic difficulties and documentation as necessary. Competent to work at the highest technical level of all phases of applications systems analysis activities. May use CASE tools.	BS	10	\$153.65
29	COM029	Training Manager	Responsible for all activities associated with education programs. Advises on administrative policies and procedures, technical problems, priorities, and methods. Assigns personnel to the various training tasks and directs their activities, reviews and evaluates their work, conducts performance appraisals and makes decisions on personnel.	BS	7	\$116.96
