

Attachment 1 - Pricing	
Contractor:	Guidehouse Inc
Contract Number:	PB70679
Lots Awarded:	2, 3
<p>Authorized Users Please Note the Following:</p> <p>A competitive Mini-Bid is required for every transaction under this Centralized Contract. (Section 1.3 of Attachment 16 - How to Use this Contract)</p> <p>The Contractor acknowledges that any mini-bid under this Centralized Contract which includes pricing in excess of the “maximum Not-To-Exceed price” shall be rejected by the Authorized User. (Sections 7.9 of the Contract - Reasonableness of Price)</p> <p>Price increases will only apply to the OGS Centralized Contracts and shall not be applied retroactively to Authorized User Agreements or any Mini-bids already submitted to an Authorized User. (Section 8.5 of the Contract - Pricelist Adjustments)</p> <p>When provided for in the Mini-Bid and resultant Authorized User Agreement, an Authorized User may reimburse travel expenses. All rules and regulations associated with this travel can be found at http://osc.state.ny.us/agencies/travel/travel.htm. In no case will any travel reimbursement be paid that exceeds these rates. All travel will be paid only as part of a deliverable specified within the Authorized User Agreement and must be billed with that associated Invoice with receipts attached. (Section 7.12 of the Contract - Travel, Meals and Lodging)</p>	

Guidehouse Inc Approved Price List			Number of Approved Titles:	51	Last Updated:	10/22/2025
Item Number	SKU	Job Title	Job Description	Minimum Education / Certification Level	Minimum Years of Experience	NYS Contract Price (Not to Exceed Hourly Rate, Exclusive of Travel)
1	GH001	Partner	The Partner provides primary interface with client management personnel regarding strategic issues. He or she directs the completion of projects within estimated time frames and budget constraints, coordinates parties' efforts on tasks, and reviews work products for completeness and adherence to applicable regulations and customer requirements. The Partner also delivers, presents, and leads strategic level client meetings.	BS/BA	10	\$356.90
2	GH002	Senior Manager	Senior Managers have taken on increasing responsibility in the design, implementation, and management of projects. They interface with the client on project specific issues, direct the completion of projects within estimated time frames and budget constraints, coordinate project specific parties, and review work products for completeness and adherence to applicable regulations and customer requirements.	Undergraduate Degree	8	\$229.43
3	GH003	Manager	The Manager interfaces with the client on a day-to-day basis, directs the completion of project specific tasks within estimated time frames and budget constraints, manages the day-to-day activities of the project team, and reviews work products for quality, completeness, and adherence to applicable regulations and customer requirements. This position ensures the project team's conformance with work standards, and coordinates work effort with involved parties to ensure problem resolution and client satisfaction. The Manager also delivers presentations and leads client meetings	Masters Degree	5	\$245.12
4	GH004	Senior Consultant	Senior Consultants II provide technical knowledge in their area of expertise, work individually and on teams to support the completion of project specific tasks within estimated time frames and budget constraints and interface with the client on a day-to-day basis. In addition, Senior Consultants apply their specific expertise to the practical issues they identify or those presented by the client. They also help to formulate solutions, prepare reports, studies, and documentation, and support presentations and client meetings.	Undergraduate Degree	3	\$173.35
5	GH005	Consultant	Consultants interface with the client on a day-to-day basis, assist in identifying problems, performs technical analysis, and devise feasible solutions, support the completion of project specific tasks within estimated time frames and budget constraints, and support presentations and client meetings.	Undergraduate Degree	2	\$140.24
6	GH006	Administrative Assistant	Interfaces with the consulting staff on a day-to-day basis. Supports the completion of project specific tasks within estimated time frames and budget constraints. Supports presentations and client meetings. Progressive experience in various office automation tools and participating on projects. Knowledgeable in computer based documentation and presentation techniques, technical typing and word processing. Integrates inputs from various sources to create a cohesive product. Prepares both graphical and narrative presentation material.	High School Diploma	2	\$50.09
7	GH007	IT Engagement Director	IT Engagement Director provide technical knowledge in implementing business solutions, applies analytical skills to client IT system and application development efforts. Responsibilities may include executive level management and direction on client engagements; project definition and system analysis; and coordinating multiple projects and teams, or other similar services as required.	Undergraduate Degree	8	\$161.88
8	GH008	IT Functional Manager III	IT Functional Manager III apply their broad management skills and specialized functional and technical expertise to guide project teams in delivering client solutions or to manage the day-to-day operations of projects. They Plan and manage the work of information systems project teams. Conceptual design and development of training curricula. Assist an organization translate its vision and strategy into business processes. Lead clients through streamlining, reengineering and transforming business processes. Develop and execute project budgets, or other similar services as required.	Undergraduate Degree	6	\$167.23
9	GH009	IT Functional Manager II	IT Functional Manager II apply their broad management skills and specialized functional and technical expertise to guide project teams in delivering client solutions or to manage the day-to-day operations of projects. They Plan and manage the work of information systems project teams. Conceptual design and development of training curricula. Assist an organization translate its vision and strategy into business processes. Lead clients through streamlining, reengineering and transforming business processes, or other similar services as required.	Undergraduate Degree	5	\$165.64
10	GH010	IT Functional Manager I	IT Functional Manager I apply their broad management skills and specialized functional and technical expertise to guide project teams in delivering client solutions or to manage the day-to-day operations of projects. They Plan and manage the work of information systems project teams. Conceptual design and development of training curricula. Assist an organization translate its vision and strategy into business processes. Lead clients through streamlining, reengineering and transforming business processes, or other similar services as required.	Undergraduate Degree	4	\$157.49
11	GH011	Project Manager III	Project Manager III provides technical knowledge in their area of expertise, applies analytical skills to client IT system and application development efforts. Responsibilities may include organizing, directing, coordinating, planning, and executing of all program / technical support activities; direct completion of project tasks within established milestones and budgetary constraints; managing daily activities of the project team; and simultaneously planning and managing the transition of several technical projects, or other similar services as required.	Undergraduate Degree	7	\$187.54
12	GH012	Project Manager II	Project Manager II provides technical knowledge in their area of expertise, applies analytical skills to client IT system and application development efforts. Responsibilities may include organizing, directing, coordinating, planning, and executing of all program / technical support activities; direct completion of project tasks within established milestones and budgetary constraints; managing daily activities of the project team; and simultaneously planning and managing the transition of several technical projects, or other similar services as required.	Undergraduate Degree	5	\$152.22
13	GH013	Project Manager I	Project Manager I provides technical knowledge in their area of expertise, applies analytical skills to client IT system and application development efforts. Responsibilities may include organizing, directing, coordinating, planning, and executing of all program / technical support activities; direct completion of project tasks within established milestones and budgetary constraints; managing daily activities of the project team; and simultaneously planning and managing the transition of several technical projects, or other similar services as required.	Undergraduate Degree	4	\$152.11
14	GH014	Program Management Specialist	Program Management Specialist provide technical knowledge in their area of expertise, applies analytical skills to client IT system and application development efforts. Responsibilities may include supervising projects with background in Information Technology; and overseeing the requirement gathering, designing, development, testing and implementation of IT solutions, or other similar services as required.	Undergraduate Degree	4	\$152.22

Guidehouse Inc Approved Price List			Number of Approved Titles:	51	Last Updated:	10/22/2025
Item Number	SKU	Job Title	Job Description	Minimum Education / Certification Level	Minimum Years of Experience	NYS Contract Price (Not to Exceed Hourly Rate, Exclusive of Travel)
15	GH015	Technical Lead	Technical Lead provides technical knowledge in their area of expertise, applies analytical skills to client IT system and application development efforts. Responsibilities may include performing analysis, development and review of program administrative operating procedures; and project support for all phases of application systems analysis and programming activities, or other similar services as required.	Undergraduate Degree	4	\$147.29
16	GH016	Functional Analyst III	Functional Analyst III provides Functional knowledge in implementing business solutions, applies analytical skills to client IT system and application development efforts. Responsibilities may include identifying and documenting functional requirements for information systems; developing as is and to-be process flows; performing program management support tasks; preparing communication plans; conducting user training sessions; performing workflow analysis;producing database extracts, and other tasks as identified.	Undergraduate Degree	3	\$140.73
17	GH017	Functional Analyst II	Functional Analyst II provides functional knowledge in implementing business solutions, applies analytical skills to client IT system and application development efforts. Responsibilities may include identifying and documenting functional requirements for information systems; performing program management support tasks; preparing communication plans; conducting user training sessions; performing workflow analysis; producing database extracts; and other tasks as identified.	Undergraduate Degree	2	\$121.70
18	GH018	Functional Analyst I	Functional Analyst I provides technical knowledge in implementing business solutions, applies analytical skills to client IT system and application development efforts. Responsibilities may include identifying and documenting functional requirements for information systems; performing program management support tasks; preparing communication plans; conducting user training sessions; performing workflow analysis; designing and managing databases; and other tasks as identified.	Undergraduate Degree	1	\$87.15
19	GH019	Program Analyst III	Program Analyst III interface with the Government client on a daily basis, assist in identifying problems, perform technical analysis and develop solutions, support the completion of project specific tasks within set milestones and budgetary constraints, and support presentations and client meetings, or other similar services as required.	Undergraduate Degree	2	\$127.15
20	GH020	Program Analyst II	Program Analyst II interface with the Government client on a daily basis, assist in identifying problems, perform technical analysis and develop solutions, support the completion of project specific tasks within set milestones and budgetary constraints, and support presentations and client meetings, or other similar services as required.	Undergraduate Degree	1	\$96.10
21	GH021	Program Analyst I	Program Analyst I interface with the Government client on a daily basis, assist in identifying problems, perform technical analysis and develop solutions, support the completion of project specific tasks within set milestones and budgetary constraints, and support presentations and client meetings, or other similar services as required.	Undergraduate Degree	<1	\$77.65
22	GH022	Senior Functional Area Analyst	IT Team Member provides technical knowledge in implementing technical solutions, applies analytical skills to client IT system and application development efforts. Responsibilities may include system analysis and design; documentation of business processes, system evaluation, test system applications under supervision of other team members; analyzing data; or other similar services as required.	Undergraduate Degree	2	\$127.15
23	GH023	Junior Functional Area Analyst	IT Team Member I provides technical knowledge in implementing technical solutions, applies analytical skills to client IT system and application development efforts. Responsibilities may include system analysis and design; documentation of business processes, system evaluation, test system applications under supervision of other team members; analyzing data; or other similar services as required.	Undergraduate Degree	<1	\$96.10
24	GH024	Applications Systems Developer	Applications Systems Developer provide technical knowledge in their area of expertise, applies analytical skills to client IT system and application development efforts. Responsibilities may include planning and coordinating the installation, testing, operation, troubleshooting and maintenance of hardware and software systems; analysis, design, documentation, implementation and maintenance of applications, or other similar services as required.	Undergraduate Degree	<1	\$89.52
25	GH025	ETL Developer	ETL Developer provides technical knowledge in designing, implementing and maintaining Extract Transform Load (ETL) solutions. Responsibilities may include converting specifications into design and converting design into deliverables; design, documentation, development, modification, testing, installation, implementation, and support of new or existing ETL application software; planning, development, implementation, administration of systems for the acquisition, storage and retrieval of data, or other similar services as required.	Undergraduate Degree in CS	2	\$139.31
26	GH026	Developer III	Developer III provide technical knowledge in their area of expertise, applies analytical skills to client IT system and application development efforts. Responsibilities may include analysis, design, documentation, testing, implementation, maintenance and integration of applications; and develop models for use in designing and building software and database management systems, or other similar services as required.	Undergraduate Degree	2	\$116.70
27	GH027	Developer II	Developer II provide technical knowledge in their area of expertise, applies analytical skills to client IT system and application development efforts. Responsibilities may include analysis, design, documentation, testing, implementation, maintenance and integration of applications; and develop models for use in designing and building software and database management systems, or other similar services as required.	Undergraduate Degree	1	\$99.62
28	GH028	Developer I	Developer I provide technical knowledge in their area of expertise, applies analytical skills to client IT system and application development efforts. Responsibilities may include analysis, design, documentation, testing, implementation, maintenance and integration of applications; and develop models for use in designing and building software and database management systems, or other similar services as required.	Undergraduate Degree	<1	\$96.27
29	GH029	Database Architect Engineer II	Database Architect Engineer II provides technical knowledge in their area of expertise, applies analytical skills to client IT system and application development efforts. Responsibilities may include planning, designing, developing and implementing of interactive electronic applications; establishing system information requirements in the development of information systems; evaluating analytically and systemically problems of workflows organizations and planning and developing appropriate corrective actions; and designing architecture and ensuring systems are compatible, or other similar services as required.	Undergraduate Degree	4	\$128.18
30	GH030	Database Architect Engineer I	Database Architect Engineer I provides technical knowledge in their area of expertise, applies analytical skills to client IT system and application development efforts. Responsibilities may include planning, designing, developing and implementing of interactive electronic applications; establishing system information requirements in the development of information systems; evaluating analytically and systemically problems of workflows organizations and planning and developing appropriate corrective actions; and designing architecture and ensuring systems are compatible, or other similar services as required.	Undergraduate Degree	2	\$99.62

Item Number	SKU	Job Title	Job Description	Minimum Education / Certification Level	Minimum Years of Experience	NYS Contract Price (Not to Exceed Hourly Rate, Exclusive of Travel)
31	GH031	Sr. Database Engineer	Sr. Database Engineer performs activities related to database design, implementation and maintenance. Maintains data dictionaries and central data repository. Supports application system development life cycle. May develop policies and procedures relating to database management, security, maintenance and utilization. May be responsible for database backup and recovery procedures, access security and database integrity, physical data storage design and data storage management, or other similar services as required.	Undergraduate Degree	3	\$133.06
32	GH032	Database Engineer	Database Engineer Performs activities related to database design, implementation and maintenance. Maintains data dictionaries and central data repository. Supports application system development life cycle. May develop policies and procedures relating to database management, security, maintenance and utilization. May be responsible for database backup and recovery procedures, access security and database integrity, physical data storage design and data storage management, or other similar services as required.	Undergraduate Degree	1	\$98.15
33	GH033	Database Administrator	Database Administrator performs activities related to database design, implementation and maintenance. Maintains data dictionaries and central data repository. Supports application system development life cycle. May develop policies and procedures relating to database management, security, maintenance and utilization. May be responsible for database backup and recovery procedures, access security and database integrity, physical data storage design and data storage management, or other similar services as required.	Undergraduate Degree	1	\$101.72
34	GH034	Systems Engineer III	Systems Engineer III provides technical knowledge in implementing business solutions, applies analytical skills to client IT system and application development efforts. Responsibilities may include planning, design, development and implementation of electronic applications; design and development of user interface features; analyzing and understanding business requirements and translating into multimedia or web applications, or other similar services as required.	Undergraduate Degree	5	\$142.76
35	GH035	Systems Engineer II	Systems Engineer II provides technical knowledge in implementing business solutions, applies analytical skills to client IT system and application development efforts. Responsibilities may include planning, design, development and implementation of electronic applications; design and development of user interface features; analyzing and understanding business requirements and translating into multimedia or web applications, or other similar services as required.	Undergraduate Degree	3	\$133.02
36	GH036	Systems Engineer I	Systems Engineer I provides technical knowledge in implementing business solutions, applies analytical skills to client IT system and application development efforts. Responsibilities may include planning, design, development and implementation of electronic applications; design and development of user interface features; analyzing and understanding business requirements and translating into multimedia or web applications, or other similar services as required.	Undergraduate Degree	1	\$98.19
37	GH037	Systems Architect	Systems Architect establishes system information requirements using analysis of the information engineer(s) in the development of enterprise-wide or large-scale information systems. Designs architecture to include the software, hardware, and communications to support the total requirements as well as provide for present and future cross-functional requirements and interfaces, or other similar services as required.	Undergraduate Degree	3	\$129.61
38	GH038	Solutions Architect	Solution Architect establishes system information requirements in the development of enterprise-wide or large-scale solutions. May design architecture to include the software, hardware, and communications to support the total requirements as well as provide for present and future cross-functional requirements. Researches and track new technologies in order to provide technical expertise in developing application solutions, or other similar services as required.	Undergraduate Degree	6	\$163.23
39	GH039	System Administrator	System Administrator provides technical knowledge in implementing business solutions, applies analytical skills to client IT system and application development efforts. Responsibilities may include performing logical and physical design of systems; supporting application system development life cycle, or other similar services as required.	Undergraduate Degree	3	\$101.97
40	GH040	Cybersecurity Partner/Principal	The Partner provides primary interface with client management personnel regarding strategic issues. This position directs the completion of Cybersecurity projects within estimated time frames and budget constraints, coordinates parties' efforts on tasks, and reviews work products for completeness and adherence to applicable regulations and customer requirements. The Partner also delivers, presents, and leads strategic level client meetings.	BS/BA	10	\$326.56
41	GH041	Cybersecurity SME	Provides guidance to the Cybersecurity project team to support/meet organizational goals. Participates in strategy sessions, strategic assessments, and design reviews to validate approach and associated work products. Provides guidance and direction to other professionals, acts in a consulting and/or advisory capacity; coordinates resolution of highly complex problems and tasks. Recognized for strong expertise in industry issues and trends.	Undergraduate Degree	8	\$214.15
42	GH042	Cybersecurity Sr. Manager	Takes increasing responsibility for the design, implementation, and management of Cybersecurity projects. Interfaces with the client on project-specific issues, directs the completion of projects within estimated time frames and budget constraints, coordinates project specific parties, and reviews work products for completeness and adherence to applicable regulations and customer requirements. In general, work complexity and responsibility will be greater at higher levels.	Undergraduate Degree	9	\$271.73
43	GH043	Cybersecurity New Sr. Manager	Takes increasing responsibility for the design, implementation, and management of Cybersecurity projects. Interfaces with the client on project-specific issues, directs the completion of projects within estimated time frames and budget constraints, coordinates project specific parties, and reviews work products for completeness and adherence to applicable regulations and customer requirements. In general, work complexity and responsibility will be greater at higher levels.	Undergraduate Degree	8	\$240.46
44	GH044	Cybersecurity Experienced Manager	Interfaces with the client on a day-to-day basis, directs the completion of Cybersecurity project-specific tasks within estimated time frames and budget constraints, manages the day-to-day activities of the project team, and reviews work products for quality, completeness, and adherence to applicable regulations and customer requirements. This position ensures the project team's conformance with work standards, and coordinates work effort with involved parties to ensure problem resolution and client satisfaction. The Manager also delivers presentations and leads client meetings. In general, work complexity and responsibility will be greater at higher levels.	Masters Degree	7	\$223.21

45	GH045	Cybersecurity Manager	The Manager interfaces with the client on a day-to-day basis, directs the completion of Cybersecurity project-specific tasks within estimated time frames and budget constraints, manages the day-to-day activities of the project team, and reviews work products for quality, completeness, and adherence to applicable regulations and customer requirements. This position ensures the project team's conformance with work standards, and coordinates work effort with involved parties to ensure problem resolution and client satisfaction. The Manager also delivers presentations and leads client meetings. In general, work complexity and responsibility will be greater at higher levels.	Masters Degree	6	\$214.23
46	GH046	Cybersecurity New Manager	The Manager interfaces with the client on a day-to-day basis, directs the completion of Cybersecurity project-specific tasks within estimated time frames and budget constraints, manages the day-to-day activities of the project team, and reviews work products for quality, completeness, and adherence to applicable regulations and customer requirements. This position ensures the project team's conformance with work standards, and coordinates work effort with involved parties to ensure problem resolution and client satisfaction. The Manager also delivers presentations and leads client meetings. In general, work complexity and responsibility will be greater at higher levels.	Masters Degree	5	\$216.82
47	GH047	Cybersecurity Senior Associate III	Senior Associates provide technical knowledge in their area of expertise, work individually and on teams to support the completion of project-specific Cybersecurity tasks within estimated time frames and budget constraints and interface with the client on a day-to-day basis. In addition, Senior Associates apply their specific expertise to the practical issues they identify or those presented by the client. They also help to formulate solutions; prepare reports, studies, and documentation; and support presentations and client meetings for Cybersecurity projects. In general, work complexity and responsibility will be greater at higher levels.	Undergraduate Degree	5	\$167.40
48	GH048	Cybersecurity Senior Associate II	Senior Associates provide technical knowledge in their area of expertise, work individually and on teams to support the completion of Cybersecurity tasks within estimated time frames and budget constraints and interface with the client on a day-to-day basis. In addition, Senior Associates apply their specific expertise to the practical issues they identify or those presented by the client. They also help to formulate solutions; prepare reports, studies, and documentation; and support presentations and client meetings for Cybersecurity projects. In general, work complexity and responsibility will be greater at higher levels.	Undergraduate Degree	4	\$154.65
49	GH049	Cybersecurity Senior Associate I	Senior Associates provide technical knowledge in their area of expertise, work individually and on teams to support the completion of Cybersecurity tasks within estimated time frames and budget constraints and interface with the client on a day-to-day basis. In addition, Senior Associates apply their specific expertise to the practical issues they identify or those presented by the client. They also help to formulate solutions; prepare reports, studies, and documentation; and support presentations and client meetings for Cybersecurity projects. In general, work complexity and responsibility will be greater at higher levels.	Undergraduate Degree	3	\$131.12
50	GH050	Cybersecurity Associate II	Associates interface with the client on a day-to-day basis, assist in identifying problems, performs technical analysis, and devise feasible solutions, support the completion of Cybersecurity tasks within estimated time frames and budget constraints, and support presentations and client meetings. In general, work complexity and responsibility will be greater at higher levels.	Undergraduate Degree	1	\$114.44
51	GH051	Cybersecurity Associate I	Interfaces with the client on a day-to-day basis, assists in identifying problems, performs technical analysis, devises feasible solutions, and supports the completion of project specific Cybersecurity tasks within estimated time frames and budget constraints. Supports presentations and client meetings. In general, work complexity and responsibility will be greater at higher levels.	Undergraduate Degree	1	\$95.29
