

Attachment 1 - Pricing	
Contractor:	Kyndryl, Inc.
Contract Number:	PB70589
Lots Awarded:	2, 3
<p>Authorized Users Please Note the Following:</p> <p>A competitive Mini-Bid is required for every transaction under this Centralized Contract. (Section 1.3 of Attachment 16 - How to Use this Contract)</p> <p>The Contractor acknowledges that any mini-bid under this Centralized Contract which includes pricing in excess of the “maximum Not-To-Exceed price” shall be rejected by the Authorized User. (Sections 7.9 of the Contract - Reasonableness of Price)</p> <p>Price increases will only apply to the OGS Centralized Contracts and shall not be applied retroactively to Authorized User Agreements or any Mini-bids already submitted to an Authorized User. (Section 8.5 of the Contract - Pricelist Adjustments)</p> <p>When provided for in the Mini-Bid and resultant Authorized User Agreement, an Authorized User may reimburse travel expenses. All rules and regulations associated with this travel can be found at http://osc.state.ny.us/agencies/travel/travel.htm. In no case will any travel reimbursement be paid that exceeds these rates. All travel will be paid only as part of a deliverable specified within the Authorized User Agreement and must be billed with that associated Invoice with receipts attached. (Section 7.12 of the Contract - Travel, Meals and Lodging)</p>

Item Number	SKU	Job Title	Job Description	Minimum Education / Certification Level	Minimum Years of Experience	NYS Contract Price (Not to Exceed Hourly Rate, Exclusive of Travel)
1	ARCI	Architect I	Assists in the design of architectures that include software, hardware, and communications solutions to support the total requirements, provide for present and future cross-functional requirements and interfaces.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	1	\$168.34
2	ARCII	Architect II	Assists in the design of architectures that include software, hardware, and communications solutions to support the total requirements, provide for present and future cross-functional requirements and interfaces.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	3	\$202.57
3	ARCIII	Architect III	Establishes information requirements for largescale information systems, databases, and/or networks. Designs architectures that include software, hardware, and communications solutions to support the total requirements.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	5	\$236.80
4	ARCIV	Architect IV	Establishes information requirements for enterprise-wide or large-scale information systems, databases, and/or networks. Designs architectures that include software, hardware, and communications solutions to support the total requirements, as well as provide for present and future cross-functional requirements and interfaces	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	7	\$286.18
5	ARCV	Architect V	Establishes information requirements for enterprise-wide or large-scale information systems, databases, and/or networks. Designs architectures that include software, hardware, and communications solutions to support the total requirements, as well as provide for present and future cross-functional requirements and interfaces	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	12	\$304.43
6	BA1	Business Analyst I	Provides specialized knowledge of system requirements and programming specifications. Designs solutions based on customer needs and technical considerations. Analyzes job tasks, organizational structure and user requirements to provide system-wide solutions. Applies analytical expertise to assist in defining, analyzing, validating and documenting complex operating environments, states of technology and current processes.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	1	\$134.68
7	BAII	Business Analyst II	Provides specialized knowledge of system requirements and programming specifications. Designs solutions based on customer needs and technical considerations. Analyzes job tasks, organizational structure and user requirements to provide system-wide solutions. Applies analytical expertise to assist in defining, analyzing, validating and documenting complex operating environments, states of technology and current processes.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	3	\$185.72
8	BAIII	Business Analyst III	Provides specialized knowledge of system requirements and programming specifications. Designs solutions based on customer needs and technical considerations. Analyzes job tasks, organizational structure and user requirements to provide system-wide solutions. Applies analytical expertise to assist in defining, analyzing, validating and documenting complex operating environments, states of technology and current processes.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	5	\$236.80
9	BAIV	Business Analyst IV	Provides specialized knowledge of system requirements and programming specifications. Designs solutions based on customer needs and technical considerations. Analyzes job tasks, organizational structure and user requirements to provide system-wide solutions. Applies analytical expertise to assist in defining, analyzing, validating and documenting complex operating environments, states of technology and current processes.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	7	\$286.18
10	BAV	Business Analyst V	Provides specialized knowledge of system requirements and programming specifications. Designs solutions based on customer needs and technical considerations. Analyzes job tasks, organizational structure and user requirements to provide system-wide solutions. Applies analytical expertise to assist in defining, analyzing, validating and documenting complex operating environments, states of technology and current processes.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	12	\$304.43
11	CONSULTI	Consultant I	Performs the daily engagement functions necessary for quality, efficiency and effectiveness. Creates work products under guidance of the engagement management team.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	1	\$231.07
12	CONSULTII	Consultant II	Creates work products with minimal guidance from the engagement management team and serves as a subject matter resource for IT consulting services.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	3	\$260.61
13	CONSULTIII	Consultant III	Creates work products with minimal guidance from the engagement management team and serves as a subject matter resource for IT consulting services.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	5	\$275.00

145	CPCIII	Cloud Project Coordinator III	Assit Cloud Project Manager on delegated task related for medium to large scaled Cloud projects, comprised of a medium to large number of deliverables and/or a medium number of projects.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	5	\$129.06
146	CPCII	Cloud Project Coordinator II	Assit Cloud Project Manager on delegated task related for medium scaled Cloud projects, comprised of a small number of deliverables and/or a small to medium number of projects.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	3	\$117.02
147	CPCI	Cloud Project Coordinator I	Assit Cloud Project Manager on delegated task related to Cloud projects, comprised of a small number of deliverables and/or a small number of projects.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	1	\$106.62
148	CPMV	Cloud Project Manager V	Oversees medium to large scaled Cloud projects comprised of sub-projects and distinct deliverables, often comprising a program with multiple work streams; typically coordinates and delegates the assignments for the consultant project staff numbering over 40; focal point of contact for Requesting Agency regarding project status, meetings, reporting requirements, scope changes, and financial, administrative, and technical issues and concerns raised by consultant staff or Requesting Agency.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	12	\$304.43
149	CPMIV	Cloud Project Manager IV	Oversees medium to large scaled Cloud projects comprised of sub-projects and distinct deliverables, often comprising a program with multiple work streams; typically coordinates and delegates the assignments for the consultant project staff numbering over 30; focal point of contact for Requesting Agency regarding project status, meetings, reporting requirements, scope changes, and financial, administrative, and technical issues and concerns raised by consultant staff or Requesting Agency.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	7	\$252.50
150	CPMIII	Cloud Project Manager III	Oversees medium to large scaled Cloud projects comprised of sub-projects and distinct deliverables, often comprising a program with multiple work streams; typically coordinates and delegates the assignments for the consultants project staff numbering over 20; focal point of contact for Requesting Agency regarding project status, meetings, reporting requirements, scope changes, and financial, administrative, and technical issues and concerns raised by consultant staff or Requesting Agency	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	5	\$196.81
151	CPMII	Cloud Project Manager II	Oversees medium scaled Cloud projects comprised of subprojects and distinct deliverables; typically coordinates and delegates the assignments for the consultant project staff numbering over 10; focal point of contact for Requesting Agency regarding project status, meetings, reporting requirements; scope changes, and financial, administrative, and technical issues and concerns raised by consultant staff or Requesting Agency	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	3	\$132.99
152	CPMI	Cloud Project Manager I	Oversees small scaled, non-complex Cloud projects, comprised of a small number of deliverables and/or a small number of phases; typically coordinates and delegates the assignments for the consultant project staff numbering up to 10; focal point of contact for Requesting Agency regarding project status, meetings, reporting requirements, scope changes, and issues and concerns raised by consultant staff or Requesting Agency.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	1	\$130.37
153	CSAV	Cloud Systems Administrator V	oversees the deployment, configuration, and maintenance of cloud infrastructure to ensure the seamless operation of applications and services. They manage virtual servers, storage, and networking components, implementing security measures and optimizing performance for a reliable and scalable cloud environment.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	12	\$227.57
154	CSAIV	Cloud Systems Administrator IV	oversees the deployment, configuration, and maintenance of cloud infrastructure to ensure the seamless operation of applications and services. They manage virtual servers, storage, and networking components, implementing security measures and optimizing performance for a reliable and scalable cloud environment.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	7	\$189.65
155	CSAIII	Cloud Systems Administrator III	oversees the deployment, configuration, and maintenance of cloud infrastructure to ensure the seamless operation of applications and services. They manage virtual servers, storage, and networking components, implementing security measures and optimizing performance for a reliable and scalable cloud environment.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	5	\$166.09
156	CSAII	Cloud Systems Administrator II	oversees the deployment, configuration, and maintenance of cloud infrastructure to ensure the seamless operation of applications and services. They manage virtual servers, storage, and networking components, implementing security measures and optimizing performance for a reliable and scalable cloud environment.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	3	\$150.94

157	CSAI	Cloud Systems Administrator I	oversees the deployment, configuration, and maintenance of cloud infrastructure to ensure the seamless operation of applications and services. They manage virtual servers, storage, and networking components, implementing security measures and optimizing performance for a reliable and scalable cloud environment.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	1	\$135.78
158	CTS-SSV	Cloud Technical Systems and Solutions Specialist V	expertise in designing, implementing, and maintaining complex technical systems and solutions within cloud environments. They leverage their knowledge of cloud technologies to optimize system architecture, ensure seamless integration, and address specific business requirements, contributing to the effective utilization of cloud resources for an organization.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	12	\$292.57
159	CTS-SSIV	Cloud Technical Systems and Solutions Specialist IV	expertise in designing, implementing, and maintaining complex technical systems and solutions within cloud environments. They leverage their knowledge of cloud technologies to optimize system architecture, ensure seamless integration, and address specific business requirements, contributing to the effective utilization of cloud resources for an organization.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	7	\$261.72
160	CTS-SSIII	Cloud Technical Systems and Solutions Specialist III	expertise in designing, implementing, and maintaining complex technical systems and solutions within cloud environments. They leverage their knowledge of cloud technologies to optimize system architecture, ensure seamless integration, and address specific business requirements, contributing to the effective utilization of cloud resources for an organization.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	5	\$236.80
161	CTS-SSII	Cloud Technical Systems and Solutions Specialist II	expertise in designing, implementing, and maintaining complex technical systems and solutions within cloud environments. They leverage their knowledge of cloud technologies to optimize system architecture, ensure seamless integration, and address specific business requirements, contributing to the effective utilization of cloud resources for an organization.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	3	\$185.72
162	CA-SV	Cloud Analyst - Solutions V	specializes in evaluating, analyzing, and optimizing cloud computing resources and services to meet organizational needs. They assess cloud usage, performance, and costs, providing insights and recommendations to enhance efficiency, scalability, and cost-effectiveness in cloud environments.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	12	\$203.42
163	CA-SIV	Cloud Analyst - Solutions IV	specializes in evaluating, analyzing, and optimizing cloud computing resources and services to meet organizational needs. They assess cloud usage, performance, and costs, providing insights and recommendations to enhance efficiency, scalability, and cost-effectiveness in cloud environments.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	7	\$168.34
164	CA-SIII	Cloud Analyst - Solutions III	specializes in evaluating, analyzing, and optimizing cloud computing resources and services to meet organizational needs. They assess cloud usage, performance, and costs, providing insights and recommendations to enhance efficiency, scalability, and cost-effectiveness in cloud environments.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	5	\$151.51
165	CA-SII	Cloud Analyst - Solutions II	specializes in evaluating, analyzing, and optimizing cloud computing resources and services to meet organizational needs. They assess cloud usage, performance, and costs, providing insights and recommendations to enhance efficiency, scalability, and cost-effectiveness in cloud environments.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	3	\$137.49
166	CA-SI	Cloud Analyst - Solutions I	specializes in evaluating, analyzing, and optimizing cloud computing resources and services to meet organizational needs. They assess cloud usage, performance, and costs, providing insights and recommendations to enhance efficiency, scalability, and cost-effectiveness in cloud environments.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	1	\$123.45
167	CSA-S	Cloud Security Analyst - Senior	responsible for ensuring the security of cloud-based systems and data by implementing and monitoring security measures. They assess and mitigate security risks, conduct audits, and develop and enforce security policies to safeguard sensitive information within cloud environments.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	7	\$182.13
168	CSA-I	Cloud Security Analyst - Intermediate	responsible for ensuring the security of cloud-based systems and data by implementing and monitoring security measures. They assess and mitigate security risks, conduct audits, and develop and enforce security policies to safeguard sensitive information within cloud environments.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	5	\$139.37
169	CSA-J	Cloud Security Analyst - Junior	responsible for ensuring the security of cloud-based systems and data by implementing and monitoring security measures. They assess and mitigate security risks, conduct audits, and develop and enforce security policies to safeguard sensitive information within cloud environments.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	1	\$99.37

170	CNDANA-S	Cloud Computer Network Defense (CND) Analyst - Senior	specializes in safeguarding cloud-based networks and systems from cyber threats. They monitor, analyze, and respond to security incidents, implement preventive measures, and collaborate with teams to ensure the resilience and security of cloud infrastructure against potential cyberattacks.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	7	\$194.74
171	CNDANA-I	Cloud Computer Network Defense (CND) Analyst - Intermediate	specializes in safeguarding cloud-based networks and systems from cyber threats. They monitor, analyze, and respond to security incidents, implement preventive measures, and collaborate with teams to ensure the resilience and security of cloud infrastructure against potential cyberattacks.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	5	\$151.97
172	CNDANA-J	Cloud Computer Network Defense (CND) Analyst - Junior	specializes in safeguarding cloud-based networks and systems from cyber threats. They monitor, analyze, and respond to security incidents, implement preventive measures, and collaborate with teams to ensure the resilience and security of cloud infrastructure against potential cyberattacks.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	1	\$111.98
173	CSARC-S	Cloud Security Architect - Senior	responsible for designing and implementing robust security measures within cloud environments to protect sensitive data and ensure the integrity of cloud-based systems. They develop security strategies, design secure architectures, and collaborate with cross-functional teams to establish and maintain a secure foundation for cloud-based applications and services.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	7	\$239.76
174	CSARC-I	Cloud Security Architect - Intermediate	responsible for designing and implementing robust security measures within cloud environments to protect sensitive data and ensure the integrity of cloud-based systems. They develop security strategies, design secure architectures, and collaborate with cross-functional teams to establish and maintain a secure foundation for cloud-based applications and services.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	5	\$196.98
175	CIAA-S	Cloud Information Assurance Analyst - Senior	focuses on ensuring the security and compliance of cloud-based information systems. They assess and manage risks, implement security controls, and monitor for compliance with information assurance policies, contributing to the overall security posture and integrity of data within cloud environments.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	7	\$210.63
176	CIAA-I	Cloud Information Assurance Analyst - Intermediate	focuses on ensuring the security and compliance of cloud-based information systems. They assess and manage risks, implement security controls, and monitor for compliance with information assurance policies, contributing to the overall security posture and integrity of data within cloud environments.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	5	\$173.80
177	CIAA-J	Cloud Information Assurance Analyst - Junior	focuses on ensuring the security and compliance of cloud-based information systems. They assess and manage risks, implement security controls, and monitor for compliance with information assurance policies, contributing to the overall security posture and integrity of data within cloud environments.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	1	\$133.80
178	CPT-S	Cloud Penetration Tester - Senior	specializes in simulating cyberattacks on cloud-based systems to identify vulnerabilities and weaknesses. They conduct thorough assessments, exploit potential security flaws, and provide recommendations to enhance the overall security posture of cloud environments, helping organizations proactively defend against potential threats.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	6	\$184.91
179	CPTI	Cloud Penetration Tester - Intermediate	specializes in simulating cyberattacks on cloud-based systems to identify vulnerabilities and weaknesses. They conduct thorough assessments, exploit potential security flaws, and provide recommendations to enhance the overall security posture of cloud environments, helping organizations proactively defend against potential threats.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	3	\$165.03
180	CCYE-S	Cloud Cybersecurity Engineer - Senior	responsible for designing, implementing, and maintaining security measures to protect cloud-based systems and data from cyber threats. They work on deploying advanced security solutions, monitoring for potential breaches, and responding to incidents to ensure the overall security and resilience of an organization's cloud infrastructure.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	7	\$186.93
181	CCYE-I	Cloud Cybersecurity Engineer - Intermediate	responsible for designing, implementing, and maintaining security measures to protect cloud-based systems and data from cyber threats. They work on deploying advanced security solutions, monitoring for potential breaches, and responding to incidents to ensure the overall security and resilience of an organization's cloud infrastructure.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	5	\$144.16
182	CCYE-J	Cloud Cybersecurity Engineer - Junior	responsible for designing, implementing, and maintaining security measures to protect cloud-based systems and data from cyber threats. They work on deploying advanced security solutions, monitoring for potential breaches, and responding to incidents to ensure the overall security and resilience of an organization's cloud infrastructure.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	1	\$104.17

183	CCYTW-I	Cloud Cybersecurity Technical Writer -Intermediate	specializes in creating clear and comprehensive documentation for cybersecurity processes, policies, and technologies. They play a crucial role in translating complex technical information into accessible documentation, producing manuals, guides, and materials to assist users and IT professionals in understanding and implementing effective cybersecurity practices.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	5	\$134.57
184	CCYTW-J	Cloud Cybersecurity Technical Writer - Junior	specializes in creating clear and comprehensive documentation for cybersecurity processes, policies, and technologies. They play a crucial role in translating complex technical information into accessible documentation, producing manuals, guides, and materials to assist users and IT professionals in understanding and implementing effective cybersecurity practices.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	1	\$94.57
185	CCYAAA-S	Cloud CyberSecurity Assessment and Authorization Analyst - Senior	focuses on evaluating and ensuring the compliance of cloud-based information systems with security standards and regulations. They conduct comprehensive assessments, collaborate with stakeholders, and implement security controls to authorize and maintain the security posture of cloud environments, addressing potential risks and vulnerabilities.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	7	\$205.48
186	CCYAAA-I	Cloud CyberSecurity Assessment and Authorization (A&A) Analyst - Intermediate	focuses on evaluating and ensuring the compliance of cloud-based information systems with security standards and regulations. They conduct comprehensive assessments, collaborate with stakeholders, and implement security controls to authorize and maintain the security posture of cloud environments, addressing potential risks and vulnerabilities.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	5	\$162.72
187	CISA-DP-I	Cloud Information Security Analyst (Data Protection) - Intermediate	specializes in safeguarding the information security of cloud-based systems and data. They assess vulnerabilities, enforce security policies, and implement measures such as encryption and access controls to ensure the confidentiality, integrity, and availability of critical information within cloud environments.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	5	\$203.46
188	CVMA-S	Cloud Vulnerability Management Analyst - Senior	responsible for identifying, assessing, and mitigating security vulnerabilities within cloud environments. They analyze scan results, prioritize vulnerabilities based on risk, and collaborate with IT teams to implement patches and remediation strategies, ensuring a proactive approach to maintaining a secure and resilient cloud infrastructure.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	7	\$240.67
189	CVMA-I	Cloud Vulnerability Management Analyst - Intermediate	responsible for identifying, assessing, and mitigating security vulnerabilities within cloud environments. They analyze scan results, prioritize vulnerabilities based on risk, and collaborate with IT teams to implement patches and remediation strategies, ensuring a proactive approach to maintaining a secure and resilient cloud infrastructure.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	5	\$197.92
190	CVMA-J	Cloud Vulnerability Management Analyst - Junior	responsible for identifying, assessing, and mitigating security vulnerabilities within cloud environments. They analyze scan results, prioritize vulnerabilities based on risk, and collaborate with IT teams to implement patches and remediation strategies, ensuring a proactive approach to maintaining a secure and resilient cloud infrastructure.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	1	\$157.92
191	CCSS-SME-S	Cloud Computing Security Specialist (CCSS)-Subject Matter Expert (SME) - Senior	focused on implementing and maintaining security measures within cloud environments to protect sensitive data and ensure the integrity of cloud-based systems. They specialize in addressing unique security challenges associated with cloud computing, such as identity management, data encryption, and access controls, to establish and maintain a secure cloud infrastructure.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	7	\$295.00
192	COTSE-S	Cloud Operational Technology Security Engineer - Senior	specializes in securing industrial control systems and operational technology within cloud environments. They assess and implement security measures to protect critical infrastructure, ensuring the reliability and safety of operational processes that leverage cloud-based technologies.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	7	\$231.16
193	COTSE-I	Cloud Operational Technology Security Engineer - Intermediate	specializes in securing industrial control systems and operational technology within cloud environments. They assess and implement security measures to protect critical infrastructure, ensuring the reliability and safety of operational processes that leverage cloud-based technologies.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	5	\$188.39
194	COTSE-J	Cloud Operational Technology Security Engineer - Junior	specializes in securing industrial control systems and operational technology within cloud environments. They assess and implement security measures to protect critical infrastructure, ensuring the reliability and safety of operational processes that leverage cloud-based technologies.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	1	\$148.40
195	DIR-GEN	Director - General	oversees the overall technology strategy and operations for an organization, leading initiatives to align IT infrastructure with business goals. They are responsible for ensuring the efficiency, security, and innovation of the entire IT ecosystem, often playing a crucial role in decision-making at the executive level.	Kyndryl does not require a minimum education or certification level. We base the Job Level on a combination of applicable Experience and Skills	N/A	\$312.90
