8	SEA2	Senior Engineer/Analyst II	The Senior Engineer/Analyst II will have the skills requisite to perform the functions described in the Minibid. This may include functioning as a senior information technology professional demonstrating mastery of duties and responsibilities to be performed with minimal additional training. Experience demonstrates a high degree of decision making regarding setting the direction for the development efforts. Work may have involved serving as the IT lead on a complex IT project. Experienced gained in a variety of settings, and could include management of multiple systems; evaluation of new technologies for long-range planning; establishment of operational policies, procedures, and standards; assured compliance with established policies, procedures, and standards; and training of support staff.	B.S. in technical or professional specialty	5 or 3 with M.S.	\$133.32
9	EA3	Engineer/Analyst III	The Engineer/Analyst III will have the skills requisite to perform the functions described in the Minibid. This may include functioning as a senior information technology professional demonstrating a high level of knowledge with the principles of the work to be performed. Experience demonstrates technical proficiency in relevant specialty area(s) requiring a wide range of complex problem solving through the development of solutions. Work may have involved serving as the IT lead on multiple complex IT projects. Experienced gained in a variety of settings, and could include research and investigation of specialized computing options and solutions; development of requirements for unique software that is unavailable in the marketplace; and creation of original innovative designs, templates, and formats for multimedia products.	B.S. in technical or professional specialty	6 or 3 with M.S. or 0 with Ph.D.	\$150.08
10	SEA3	Senior Engineer/Analyst III	The Senior Engineer/Analyst III will have the skills requisite to perform the functions described in the Minibid. This may include functioning as a senior information technology professional demonstrating expertise in the principles of the work to be performed. Experience demonstrates technical mastery in relevant specialty areas with exposure to a wide range of issues, situations, and problems that are relatively uncommon in the industry. Has performed work on systems, networks, etc., comparable with those at client sites and is immediately able to enhance the job performed. Experience gained in a variety of settings, and could include analysis, design, and development of system-level requirements, strategies, and IT solutions of highly complex systems.	B.S. in technical or professional specialty	8 or 3 with M.S. or 0 with Ph.D.	\$161.12
11	EA4	Engineer/Analyst IV	The Engineer/Analyst IV will have the skills requisite to perform the functions described in the Minibid. This may include functioning as a senior information technology professional demonstrating mastery of the principles of the work to be performed. Experience demonstrates a mastery of relevant specialty area(s) serving as the technical lead on complex projects. Has developed or directed the development of solutions to complex problems and projects where innovation is required. Experience gained in a variety of settings, functioning as a thought leader, IT (functional) director, and/or IT luminary.	B.S. in technical or professional specialty	10 or 6 with M.S. or 3 with Ph.D.	\$178.96
12	SEA4	Senior Engineer/Analyst IV	The Senior Engineer/Analyst IV will have the skills requisite to perform the functions described in the Minibid. This may include functioning as a widely recognized "expert" in information technology and related specialty field(s). Experience also demonstrates the individual's ability to provide elite technical advisory services and/or the demonstrated ability to manage a "unit" of information technology professionals engaged in the analysis of state-of-the-art IT systems and services. Experience gained in a variety of settings, functioning as a thought leader, IT director and/or IT luminary.	B.S. in technical or professional specialty	15 or 6 with M.S. or 3 with Ph.D.	\$196.76
13	EA5	Engineer/Analyst V	The Engineer/Analyst V will have the skills requisite to perform the functions described in the Minibid. This may include functioning as a widely recognized "expert" in information technology. Experience demonstrates the individual's proficiency in providing technical advisory services relating to specialty technology area(s) and/or demonstrated ability to manage a "unit" of information technology professionals who have provided state-of-the-art advisory services. Experience would typically reflect functioning as a high-level expert and visionary leader to information technology that has far-reaching impact, and the ability to determine the direction of an innovative information technology program with a staff of subordinates.	B.S. in technical or professional specialty	10 or 10 with M.S. or 6 with Ph.D.	\$207.72
14	EA6	Engineer/Analyst VI	The Engineer/Analyst VI will have the skills requisite to perform the functions described in the Minibid. This may include functioning as a senior information technology professional who has demonstrated mastery of a highly complex specialty field(s). Experience demonstrates mastery (i.e., expert level) in providing technical advisory services relating to specialty technology area(s) and/or the demonstrated ability to manage a "unit" of information technology professionals who have provided state-of-the-art support services. Experience would typically reflect an expert, top-level contributor intrinsically involved in the overall development and direction of unprecedented information technology having industry-wide impact. Experience may have also illustrated the ability to determine the direction of a large, innovative and complex information technology program with a staff of subordinates.	B.S. in technical or professional specialty	10 or 10 with M.S. or 6 with Ph.D.	\$220.08
15	SEM	Senior Engineer/Manager	The Senior Engineer/Manager will have the skills requisite to perform the functions described in the Minibid. This may include functioning as a lead program/project manager who has demonstrated a mastery of experience in the Information Technology field. Experience demonstrates a mastery of relevant specialty area(s) serving as the lead program manager and/or project manager on complex IT projects. May also have experience gained in a variety of settings, functioning as a director or deputy director overseeing the analysis, design, development, procurement, and integration of IT solutions in large-scale complex projects.	B.S. in technical or professional specialty	15 or 10 with M.S. or 8 with Ph.D.	\$231.24
