

Attachment 1 - Pricing	
Contractor:	Protek Information Technology Services
Contract Number:	PB70684
Lots Awarded:	2
<p>Authorized Users Please Note the Following:</p> <p>A competitive Mini-Bid is required for every transaction under this Centralized Contract. (Section 1.3 of Attachment 16 - How to Use this Contract)</p> <p>The Contractor acknowledges that any mini-bid under this Centralized Contract which includes pricing in excess of the “maximum Not-To-Exceed price” shall be rejected by the Authorized User. (Sections 7.9 of the Contract - Reasonableness of Price)</p> <p>Price increases will only apply to the OGS Centralized Contracts and shall not be applied retroactively to Authorized User Agreements or any Mini-bids already submitted to an Authorized User. (Section 8.5 of the Contract - Pricelist Adjustments)</p> <p>When provided for in the Mini-Bid and resultant Authorized User Agreement, an Authorized User may reimburse travel expenses. All rules and regulations associated with this travel can be found at http://osc.state.ny.us/agencies/travel/travel.htm. In no case will any travel reimbursement be paid that exceeds these rates. All travel will be paid only as part of a deliverable specified within the Authorized User Agreement and must be billed with that associated Invoice with receipts attached. (Section 7.12 of the Contract - Travel, Meals and Lodging)</p>	

Protek Information Technology Services Approved Price List			Number of Approved Titles:	33	Last Updated:	6/16/2025
Item Number	SKU	Job Title	Job Description	Minimum Education / Certification Level	Minimum Years of Experience	NYS Contract Price (Not to Exceed Hourly Rate, Exclusive of Travel)
1	PRO00001	Security Analyst I	Proficient in analyzing and assessing vulnerabilities in the infrastructure (software, hardware, networks), investigating available tools and countermeasures to remedy the detected vulnerabilities and recommending solutions as well as best practices. Analyzes and assesses damage to the data/infrastructure as a result of security incidents, examines available recovery tools and processes, and recommends solutions. Tests for compliance with security policies and procedures. May assist in the creation, implementation, and/or management of security solutions.	Minimum of a Bachelor's degree	2	\$165.00
2	PRO00002	Security Analyst III	Expert in analyzing and assessing vulnerabilities in the infrastructure (software, hardware, networks), investigating available tools and countermeasures to remedy the detected vulnerabilities and recommending solutions as well as best practices. Analyzes and assesses damage to the data/infrastructure as a result of security incidents, examines available recovery tools and processes, and recommends solutions. Tests for compliance with security policies and procedures. May assist in the creation, implementation, and/or management of security solutions.	Minimum of a Bachelor's degree	8	\$230.00
3	PRO00003	Security Engineer I	Proficient in engineering, implementing and monitoring security measures for the protection of computer systems, networks and information, identifying and defining system security requirements, designing computer security architecture and developing detailed cyber security designs. Performs security monitoring, security and data/logs analysis, and forensic analysis, in order to detect security incidents and mount incident response. Investigates and utilizes new technologies and processes to enhance security capabilities and implement improvements.	Minimum of a Bachelor's degree	2	\$165.00
4	PRO00004	Security Engineer III	Expert in engineering, implementing and monitoring security measures for the protection of computer systems, networks and information, identifying and defining system security requirements, designing computer security architecture and developing detailed cyber security designs. Performs security monitoring, security and data/logs analysis, and forensic analysis, in order to detect security incidents and mount incident response. Investigates and utilizes new technologies and processes to enhance security capabilities and implement improvements.	Minimum of a Bachelor's degree	8	\$180.00
5	PRO00005	Security Architect I	Proficient in designing a security system or major components of a security system, heading a security design team building a new security system, reviewing current system security measures and recommending and implementing enhancements, conducting regular system tests and ensuring continuous monitoring of network security, developing project timelines for ongoing system upgrades, ensuring all personnel have access to the IT system limited by need and role, establishing disaster recovery procedures and conducting breach-of-security drills, and promptly responding to all security incidents and providing thorough post-event analyses.	Minimum of a Bachelor's degree	2	\$200.00
6	PRO00006	Security Architect III	Expert in designing a security system or major components of a security system, heading a security design team building a new security system, reviewing current system security measures and recommending and implementing enhancements, conducting regular system tests and ensuring continuous monitoring of network security, developing project timelines for ongoing system upgrades, ensuring all personnel have access to the IT system limited by need and role, establishing disaster recovery procedures and conducting breach-of-security drills, and promptly responding to all security incidents and providing thorough post-event analyses.	Minimum of a Bachelor's degree	8	\$250.00
7	PRO00007	Project Manager I	Proficient in overseeing small scaled, non-complex projects, comprised of a small number of deliverables and/or a small number of phases; typically coordinates and delegates the assignments for the consultant project staff numbering up to 10. Focal point of contact for Issuing Entity regarding project status, meetings, reporting requirements, scope changes/extensions, and issues and concerns raised by consultant staff or Issuing Entity.	Minimum of a Bachelor's degree	2	\$180.00
8	PRO00008	Project Manager II	Adept in overseeing medium scaled projects comprised of sub-projects and distinct deliverables; typically coordinates and delegates the assignments for the consultant project staff numbering over 10. Focal point of contact for Issuing Entity regarding project status, meetings, reporting requirements; scope changes/extensions, and financial, administrative, and technical issues and concerns raised by consultant staff or Issuing Entity.	Minimum of a Bachelor's degree	4	\$220.00
9	PRO00009	Project Manager III	Expert in overseeing medium to large-scaled projects comprised of sub-projects and distinct deliverables; typically coordinates and delegates the assignments for the consultant project staff numbering over 20. Focal point of contact for Issuing Entity regarding project status, meetings, reporting requirements, scope changes/extensions, and financial, administrative, and technical issues and concerns raised by consultant staff or Issuing Entity.	Minimum of a Bachelor's degree	8	\$260.00
10	PRO00010	Program Manager	Expert with at least 8 years of Program Management experience and/or Cyber management experience within the scope of a contract. Able to exercise independent judgement and solve technical, administrative, and managerial problems. Has ultimate responsibility for planning and coordinating staff, and managing costs, quality, and schedule. Manages teams of contract support personnel at multiple locations and maintains and manages the client interface at the senior levels of the client organization. Meets with customer and contractor personnel to formulate and review task plans and deliverable items. Ensures conformance with program task schedules and costs.	Minimum of a Bachelor's degree	8	\$242.89
11	PRO00011	Incident Responder I	Proficient in providing a rapid initial response to security threats, incidents or cyber-attacks using forensic tools to investigate issues as they develop; and restricting damage and providing immediate workarounds and solution or fixes, if possible. May include penetration and vulnerability testing, as well as a role in security audits, risk analysis and network forensics as required.	Minimum of a Bachelor's degree	2	\$185.00
12	PRO00012	Incident Responder II	Adept in providing a rapid initial response to security threats, incidents or cyber-attacks using forensic tools to investigate issues as they develop; and restricting damage and providing immediate workarounds and solution or fixes, if possible. May include penetration and vulnerability testing, as well as a role in security audits, risk analysis and network forensics as required.	Minimum of a Bachelor's degree	4	\$275.00

Item Number	SKU	Job Title	Job Description	Minimum Education / Certification Level	Minimum Years of Experience	NYS Contract Price (Not to Exceed Hourly Rate, Exclusive of Travel)
13	PRO00013	Incident Responder III	Expert in providing a rapid initial response to security threats, incidents or cyber-attacks using forensic tools to investigate issues as they develop; and restricting damage and providing immediate workarounds and solution or fixes, if possible. May include penetration and vulnerability testing, as well as a role in security audits, risk analysis and network forensics as required.	Minimum of a Bachelor's degree	8	\$302.00
14	PRO00014	Security Specialist I	Junior-level specialized security professional such as cryptanalyst, virus technician, etc.	Minimum of a Bachelor's degree	2	\$175.00
15	PRO00015	Security Specialist II	Mid-Level specialized security professional such as cryptanalyst, virus technician, etc.	Minimum of a Bachelor's degree	4	\$275.00
16	PRO00016	Security Specialist III	Senior-Level specialized security professional such as cryptanalyst, virus technician, etc.	Minimum of a Bachelor's degree	8	\$302.00
17	PRO00017	Principal Staff Advisor	Expert with at least 10 years of experience as a Principal Staff Advisor and/or Cybersecurity experience within the scope of a contract. Unique knowledge of one or more fields of specialization with extensive knowledge of customer requirements. A recognized expert in one or more disciplines such as cybersecurity, business, computer science, engineering, mathematics, or the various sciences. Provides Information technology knowledge and analysis of highly specialized applications and operational environments, high-level functional systems analysis, design, integration, documentation and implementation advice on exceptionally complex problems that need extensive knowledge for effective implementation. Able to guide teams, analyze complex problems, propose unique solutions, problem solve and make decisions which impact technical or financial results of cross functional business areas, communicate results, and negotiates actions. Serves often as a prime point of contact for customers in a management or lead position.	Minimum of a Bachelor's degree	10	\$220.39
18	PRO00018	Project Manager	Required to have at least 4 years of Project Manager experience and/or Cybersecurity experience within the scope of the contract. Must be able to exercise independent judgement and solve technical, administrative, and managerial problems. Has responsibility for planning and coordinating staff, and managing costs, quality, and schedule. Provides applications systems analysis and programming activities for a Government site, facility or multiple locations. Prepares long and short-range plans for Cybersecurity activities and for necessary support resources. Oversees all aspects of projects including day-to-day management of overall contract support operations	Minimum of a Bachelor's degree	4	\$225.95
19	PRO00019	Cybersecurity Engineer (Associate)	Proficient in application of technical standards, principles, theories, concepts and techniques spanning a variety of security domains whether it be physical, cyber, information or system. Provides solutions to a variety of technical problems of moderate scope and complexity. Works under general supervision. Follows established procedures. Contributes to the completion of milestones associated with specific projects.	Minimum of a Bachelor's degree	2	\$220.37
20	PRO00020	Cybersecurity Engineer (Intermediate)	Adept at applying extensive technical expertise and has full knowledge of other related disciplines across a variety of security domains whether it be physical, cyber, information or system. Develops technical solutions to complex problems that require the regular use of ingenuity and creativity. Work is performed without appreciable direction. Exercises considerable latitude in determining technical objectives of assignment. Interacts with senior external personnel on significant technical matters often requiring coordination between organizations.	Minimum of a Bachelor's degree	6	\$286.50
21	PRO00021	Cybersecurity Engineer (Advanced)	Accomplished at applying extensive technical knowledge and has full knowledge of other related disciplines across a variety of security domains whether it be physical, cyber, information or system. Develops technical solutions to complex problems that require the regular use of ingenuity and creativity. Work is performed without appreciable direction. Exercises considerable latitude in determining technical objectives of assignment. Interacts with senior external personnel on significant technical matters often requiring coordination between organizations.	Minimum of a Bachelor's degree	8	\$329.48
22	PRO00022	Cybersecurity Engineer (Expert)	Expert at applying extensive technical knowledge and has full knowledge of other related disciplines across a variety of security domains whether it be physical, cyber, information or system. Develops technical solutions to complex problems that require the regular use of ingenuity and creativity. Work is performed without appreciable direction. Exercises considerable latitude in determining technical objectives of assignment. Interacts with senior external personnel on significant technical matters often requiring coordination between organizations.	Minimum of a Bachelor's degree	10	\$378.90
23	PRO00023	Configuration Mgmt. Specialist	Adept as a Configuration Management Specialist and/or Cybersecurity product and related software professional. Experience in establishing overall requirements, developing plans, implementing directives, and establishing and maintaining disciplined environment to ensure configuration control. Provides configuration management planning, and describes provisions for configuration identification, change control, configuration status accounting, and configuration audits. Regulates the change process so that only approved and validated changes are incorporated into product documents and related software.	Minimum of a Bachelor's degree	4	\$145.15
24	PRO00024	Data Manager	Proficient at carrying out data management functions. Duties include but are not limited to activities involved in the receipt, development, storage, control, and distribution of all Cybersecurity project related data.	Minimum of a Bachelor's degree	4	\$139.72
25	PRO00025	Financial Analyst	Adept Financial Analyst who is experienced in all financial management and administrative activities such as budgeting, staffing, and resource planning, and financial reporting. Duties include but are not limited to developing work breakdown structures, preparing charts, tables, graphs, and diagrams to assist in analyzing resources and market. May provide support in the areas of budget, billing, reporting, and financial management for Cybersecurity initiatives.	Minimum of a Bachelor's degree	4	\$89.13
26	PRO00026	Cybersecurity Programmer/Analyst (Associate)	Proficient developer who performs routine design, coding, and documentation of application programs for computers in related equipment used for Cybersecurity projects.	Minimum of a Bachelor's degree	2	\$132.73
27	PRO00027	Workstream Lead (PM)	Manages the internal team on a day-to-day basis to ensure delivery to the workstream's committed deliverables and timeframe. Responsible for overall workstream management, including risk and issue management, timelines, and resources	Minimum of a Bachelor's degree	8	\$273
28	PRO00028	Technical Process/Data Engineer (EMC Developer)	Provides information about process-level data structures and flows, as well as implements source system improvements.	Minimum of a Bachelor's degree	8	\$238
