

Attachment 1 - Pricing	
Contractor:	RK Software Inc
Contract Number:	PB70468
Lots:	1A, 1B
<p>Authorized Users Please Note the Following:</p> <p>A competitive Mini-Bid is required for every transaction under this Centralized Contract. (Section 1.3 of Attachment 16 - How to Use this Contract)</p> <p>The Contractor acknowledges that any mini-bid under this Centralized Contract which includes pricing in excess of the “maximum Not-To-Exceed price” shall be rejected by the Authorized User. (Sections 7.9 of the Contract - Reasonableness of Price)</p> <p>Price increases will only apply to the OGS Centralized Contracts and shall not be applied retroactively to Authorized User Agreements or any Mini-bids already submitted to an Authorized User. (Section 8.5 of the Contract - Pricelist Adjustments)</p> <p>When provided for in the Mini-Bid and resultant Authorized User Agreement, an Authorized User may reimburse travel expenses. All rules and regulations associated with this travel can be found at http://osc.state.ny.us/agencies/travel/travel.htm. In no case will any travel reimbursement be paid that exceeds these rates. All travel will be paid only as part of a deliverable specified within the Authorized User Agreement and must be billed with that associated Invoice with receipts attached. (Section 7.12 of the Contract - Travel, Meals and Lodging)</p>	

RK Software Inc Approved Price List			Number of Approved Titles:	29	Last Updated:	6/16/2025
Item Number	SKU	Job Title	Job Description	Minimum Education / Certification Level	Minimum Years of Experience	NYS Contract Price (Not to Exceed Hourly Rate, Exclusive of Travel)
1	PBITS1	Software Development Lead	Analyze requirement specifications, determine type of software, determine software architecture, and create a process diagram and define each process along with the input and output.	AA/AS	4	\$ 93.66
2	PBITS2	Software Development	Code the functional modules, create the framework for each process in the process diagram after analysis, identify the common functions and embed them into the dynamic link libraries, document the modules coded, and perform programmer level testing of the modules coded	AA/AS	4	\$ 80.61
3	PBITS3	Web Software Developer	Provide expert assistance in subject matter related to the task order, provide essential guidance and technology suggestions in crucial architecture development, and provide subject matter expertise in enterprise level web applications	AA/AS	6	\$ 154.52
4	PBITS4	Database Manager	Ability to create a database by analysing the requirement specification document, normalize the database, design the database, and manage and co-coordinate between the programmers/developers and incorporating the necessary changes to the database design.	AA/AS	4	\$ 93.66
5	PBITS5	Database Analyst	Create a database by analysing the requirement specification document, normalize the database, and design the database.	AA/AS	4	\$ 80.61
6	PBITS6	System Analyst and Design	Analyze the existing system, determine the different scenarios to interact with other systems required to run the different business processes, analyze the requirement specifications and discuss the needs to incorporate various measures to automate the business processes, manage a team	AA/AS	6	\$ 101.78
7	PBITS7	Network Planning Analyst	Plan the whole architecture of a network by understanding the requirement specification, manage network administrators, analyze the implementation needs for security	AA/AS	4	\$ 75.57
8	PBITS8	Network Engineer	Research on different components of the network to improve efficiency and security, manage a team of network engineers	AA/AS	4	\$ 80.61
9	PBITS9	Network Administrator	Provide network related expert assistance	AA/AS	8	\$ 164.84
10	PBITS10	Web Project Manager	Research different components on the network to make the network more efficient and secure, manage the web project scope and change requests, approve the project schedule, communicate project goals to all management levels, escalate issues and project scope changes.	AA/AS	4	\$ 83.64
11	PBITS11	Business Process Consultant	Analyze each process in a business to check for improvement and optimization; make/suggest necessary changes to improve productivity; escalate issues and project scope changes	AA/AS	2	\$ 60.46
12	PBITS12	PC LAN Management Analyst	Research on different components of the network to improve efficiency and security, manage a team of network engineers	AA/AS	4	\$ 93.66
13	PBITS13	Web Security Specialist	Research different security flaws and identify the potential threat to the web project; ensure all the security aspects of the web-based project; implement firewall/wb-server based security; administration of the web server to implement various security measures.	AA/AS	4	\$ 75.57
14	PBITS14	Security Engineer	Provide expert assistance in subject matter related to the task order, provide essential guidance on network and application security, and provide subject matter expertise in enterprise level web applications	AA/AS	6	\$ 149.39
15	PBITS15	Data Migration Specialist	Identify the database level changes and various measures to migrate data from one database to another; research on the factors affecting the migration	AA/AS	4	\$ 93.66
16	PBITS16	Business System Specialist	Analyze each process in a business to check for improvement and optimization; make/suggest necessary changes to improve productivity; communicate their understanding of the business and system processes; provide business expertise on the system functionality related to job functions	AA/AS	4	\$ 75.57
17	PBITS17	Business Process Modeler / Trainer	Defines and implements business processes and systems; provides expertise in subject matter related to the task order.	AA/AS	8	\$ 181.60
18	PBITS18	Data Architect	Knowledge of business operations; justify the use of various types of data used in tables; make/suggest changes to the management to improve productivity; identify the issue for maintaining the data in the archive and ways to make it extractable faster; define various types of indexing to improve speed and efficiency.	AA/AS	4	\$ 93.66
19	PBITS19	Data Scientist	Collecting data through analysis of business results or by setting up and managing new studies; transferring data into a new format to make it more appropriate for analysis; creating new experimental frameworks to collect data.	AA/AS	8	\$ 185.44

20	PBITS20	Help Desk Manager	Customer support; feedback to the tech team about frequent problems; manage a help desk team	AA/AS	4	\$ 75.57
21	PBITS21	Project Manager	Create business requirements documents; determine the type of software interface needed; determine the software architecture; create a detailed process diagram; create a detailed project plan; determine the proper integration method for connecting systems	AA/AS	8	\$ 174.99
22	PBITS22	ePayment Application Programmer	Responsible for planning, developing, testing, and deploying web sites and ePayment solutions; works directly with clients to determine the project scope and specifications; manages resources and ensures the overall quality of completed web suite.	AA/AS	4	\$ 94.15
23	PBITS23	Enterprise Resource Planning (ERP) Package Developer	Responsible for implementation of a large enterprise resource planning package; task management; business analysis; data mapping and migration; software design and modification involved in the implementation of an ERP package; perform enterprise-wide horizontal integration planning and interfaces to other functional systems	AA/AS	6	\$ 154.54
24	PBITS24	Solution Architect	Establishes system information requirements to develop large scale information systems; designs architecture to include the software, hardware, and communications; ensures compatibility, compliance, and regulatory requirements; evaluates work flows, organization, and planning; develops corrective action when necessary.	AA/AS	8	\$ 204.04
25	PBITS25	Subject Matter Expert (SME)	Provides expert assistance in subject matter related to the task order.	AA/AS	6	\$ 132.00
26	PBITS26	Web UX/UI Designer	Brand design; design websites; create user journeys	AA/AS	6	\$ 130.00
27	PBITS27	Data migration specialist	Identify the database level changes and various measures to migrate data from one database to another; research on the factors affecting the migration	AA/AS	6	\$ 110.00
28	PBITS28	Business Analyst	Communicate their in-depth understanding of the business and system processes; provide business expertise on the system functionality related to their job functions, participate actively in all phases of the project including planning and analysis, design, development, testing and implementation;	AA/AS	6	\$ 140.00
29	PBITS29	Technical Project Manager	Oversee the project, lead meetings, write business documents including the those outlining the work for the project.	AA/AS	6	\$ 120.00
