

Attachment 1 - Pricing	
Contractor:	TEKsystems Global Services, LLC
Contract Number:	PB70760
Lots Awarded:	2
<p>Authorized Users Please Note the Following:</p> <p>A competitive Mini-Bid is required for every transaction under this Centralized Contract. (Section 1.3 of Attachment 16 - How to Use this Contract)</p> <p>The Contractor acknowledges that any mini-bid under this Centralized Contract which includes pricing in excess of the “maximum Not-To-Exceed price” shall be rejected by the Authorized User. (Sections 7.9 of the Contract - Reasonableness of Price)</p> <p>Price increases will only apply to the OGS Centralized Contracts and shall not be applied retroactively to Authorized User Agreements or any Mini-bids already submitted to an Authorized User. (Section 8.5 of the Contract - Pricelist Adjustments)</p> <p>When provided for in the Mini-Bid and resultant Authorized User Agreement, an Authorized User may reimburse travel expenses. All rules and regulations associated with this travel can be found at http://osc.state.ny.us/agencies/travel/travel.htm. In no case will any travel reimbursement be paid that exceeds these rates. All travel will be paid only as part of a deliverable specified within the Authorized User Agreement and must be billed with that associated Invoice with receipts attached. (Section 7.12 of the Contract - Travel, Meals and Lodging)</p>	

TEKsystems Global Services, LLC Approved Price List			Number of Approved Titles:	16	Last Updated:	6/16/2025
Item Number	SKU	Job Title	Job Description	Minimum Education / Certification Level	Minimum Years of Experience	NYS Contract Price (Not to Exceed Hourly Rate, Exclusive of Travel)
1	P00001	Practice Architect	Oversee the optimum technical solution in the context of the technology environment, requirements, and financial resources. Work to ensure a quality design that provides good performance, an effective human machine interface, optimal operational cost, and flexibility for future change using industry standards	BA	7	\$180.00
2	P00002	Active Directory Practice Architect	Maximize the productivity of the project team through design and other technical standards, training team members, and providing advisory and troubleshooting support. Work to ensure that all components of the technical architecture are properly assessed and documented using industry standards.	BA	5	\$180.00
3	P00003	Security and Compliance Architect	Oversee the optimum technical solution in the context of the AD environment, requirements, and financial resources. Work to ensure a quality design that provides good performance, an effective human machine interface, optimal operational cost, and flexibility for future change using industry standards. Maximize the productivity of the project team through design and other technical standards, training team members, and providing advisory and troubleshooting support. Work to ensure that all components of the technical architecture are properly assessed and documented using industry standards.	BA	5	\$180.00
4	P00004	Project Coordinator	Review applicable security and compliance standards, such as CJIS. Oversee the optimum security solution in the context of the technology environment, requirements, and resources. Ensure designs align with documented security and compliance policies. Recommend best practice security and compliance policies.	HS Diploma	5	\$60.00
5	P00005	Customer Success Leader	Schedule migration activities. Assist in drafting, completing, and sending end user communications. Assist Delivery Manager in the planning, scheduling, communications, monitoring, and coordination of next-day support activities. Resolve scheduling issues and maintain a tracking log of all successfully migrated sites. Escalate any issues for resolution. Coordinate with client resources to define and update change windows.	Hs Diploma	5	\$120.00
6	P00006	Senior Engineer (M36f/Azure)	Serves as the single point of contact ("SPOC") for all project activities between TEKsystems and the NYS Project Leadership. Maintain focus on time, cost, and scope while managing the project plan. Facilitate kick-off, status, deliverable review, and closeout meetings. Establish and manage the project schedule, communications, and deliverables. Facilitate change control as needed. Monitor the services budget and invoices. Help personnel identify and manage risk, issues, and escalations.	BA	6	\$170.00
7	P00007	Senior Migration Engineer	Setup and configure Tenant, Security and Compliance centers, Exchange Online, Microsoft Teams, OneDrive, and/or other Microsoft/Office 365 products for migration. Setup and configure migration tool. Resolve any technical issues from failed user migrations. Provide next-day support for user community to troubleshoot and resolve any migration related to user migration. Create PowerShell scripts to automate and report as needed. Resolve scheduling issues and maintain a tracking log of all successfully migrated users. Distribute user and project migration information as needed. Work with project stakeholders, manager/s, and directors to schedule users. Escalate risk or quality issues to the CSL for resolution while mitigating impact on productivity. Provide customer service to all employees and contractors.	BA	6	\$170.00
8	P00008	M365 Engineer	Setup and configuration of migration tool. Create and document AD migration process. Complete validation of migration process to ensure completeness. Provide application SMEs with AD migration support. Assist with resolution of any technical issues from failed user migrations. Provide next-day support for user community to troubleshoot and resolve any migration related to user migration. Create PowerShell scripts to automate and report as needed. Maintain a tracking log of all successfully migrated users. Distribute user and project migration information as needed. Escalate risk or quality issues to the CSL for resolution while mitigating impact on productivity.	BA	6	\$130.00

9	P00009	Infrastructure Engineer	Assist setup and configure Tenant, Security and Compliance centers, Exchange Online, and/or other Microsoft/Office 365 products for migration. Assist with setup and configuration of migration tool as needed. Complete validation after migration of data to ensure completeness. Assist with resolution of any technical issues from failed user migrations. Provide next-day support for user community to troubleshoot and resolve any migration related to user migration. Create PowerShell scripts to automate and report as needed. Resolve scheduling issues and maintain a tracking log of all successfully migrated users. Distribute user and project migration information as needed. Work with project stakeholders, manager/s, and directors to schedule users.	BA	7	\$150.00
10	P000010	Sharepoint enigneer/developer	Design, build-out, and configuration of certificate authority services, and server back-up solutions. Assist in design and migration process definition for file servers and share data. Setup/Stage file server and share data migration. Execution of workstation, server, and share data migration processes. Complete validation after migration of data to ensure completeness. Assist with resolution of any technical issues from failed user migrations. Provide next-day support for user community to troubleshoot and resolve issues related to user migrations. Assist with resolving scheduling issues and maintain a tracking log of all successfully migrated users. Distribute user and project migration information as needed. Work with project stakeholders, manager/s, and directors to assist with scheduling of users.	BA	5	\$160.00
11	P000011	Cloud Practice Architect	Setup and configure ShareGate for Archive/Migration sites. Perform full validation after archive of site data to ensure completeness. Resolve any technical issues from failed site Archive/Migrations. Archive/Migrate scheduled sites. Provide next-day support for user community to troubleshoot and resolve any migration related to site Archive/Migration. Distribute site migration information as needed. Work with project stakeholders, manager, and directors to schedule activities. Escalate any risk or quality issues to the Delivery Manager for resolution while mitigating the impact of these issues on productivity. Provide process improvement feedback to continually improve deployment activities.	BA	8	\$180.00
12	P000012	Front End Developer	Oversee the optimum technical solution in the context of establishing virtual servers such as domain controllers in the Azure environment. Work to ensure a quality design that provides good performance, an effective human machine interface, optimal operational cost, and flexibility for future change using industry standards. Maximize the productivity of the project team through design and other technical standards, training team members, and providing advisory and troubleshooting support. Work to ensure that all components of the cloud technical architecture are properly assessed and documented using industry standards.	Ba	5	\$200.00
13	P000013	Back End Developer	Use markup languages like HTML to create user-friendly web pages. Maintain and improve website. Optimize applications for maximum speed. Design mobile-based features. Collaborate with back-end developers and web designers to improve usability. Get feedback from, and build solutions for, users and customers. Write functional requirement documents and guides. Create quality mockups and prototypes. Help back-end developers with coding and troubleshooting. Ensure high quality graphic standards and brand consistency.	BA	5	\$200.00
14	P000014	Full Stack Developer	Write code and tests, build prototypes, resolve issues, and profile and analyze bottlenecks. Design robust APIs to support mobile and desktop clients. Manage and optimize scalable distributed systems in the cloud. Optimize web applications for performance and scalability. Develop automated tests to ensure business needs are met, and allow for regression testing.	BA	5	\$215.00
