Please be advised of the following federal excise tax changes and associated pricing adjustments to be made to the pricelists starting 1/1/2026.

Pricing is being revised per section 4.3 Price based on the following:

“After-imposed tax” means any new or increased Federal, State and local excise tax or duty, except social security or other employment taxes, on fuel oil purchased under any Contract to be awarded hereunder which the Contractor is required to pay or bear the burden of as the result of legislative, judicial, or administrative action taking effect after the date of Contract award.

“After-relieved tax” means any amount of Federal, State and local excise tax or duty, except social security or other employment taxes, that would otherwise have been payable on fuel purchased under any Contract to be awarded hereunder which the Contractor is not required to pay or bear the burden of, or for which the Contractor obtains a refund or drawback, as the result of legislative, judicial or administrative action taking effect after the date of Contract award.

1. Superfund Tax

The petroleum Superfund tax rate on domestic crude oil and imported petroleum products has increased from \$.17 per barrel to \$.18 per barrel. The below chart shows tax per gallon of the taxable fuel and was truncated to four decimal places.

Table with 4 columns: Fuel Type, 2025 Superfund, 2026 Superfund, After-imposed tax (Increase). Rows include ULSD 2D Regular, ULSD 2D Premium, and ULSD 2D Bio (B5).

ULSD 2D Bio (B10)	\$ 0.0036	\$ 0.0038	\$ 0.0002
