
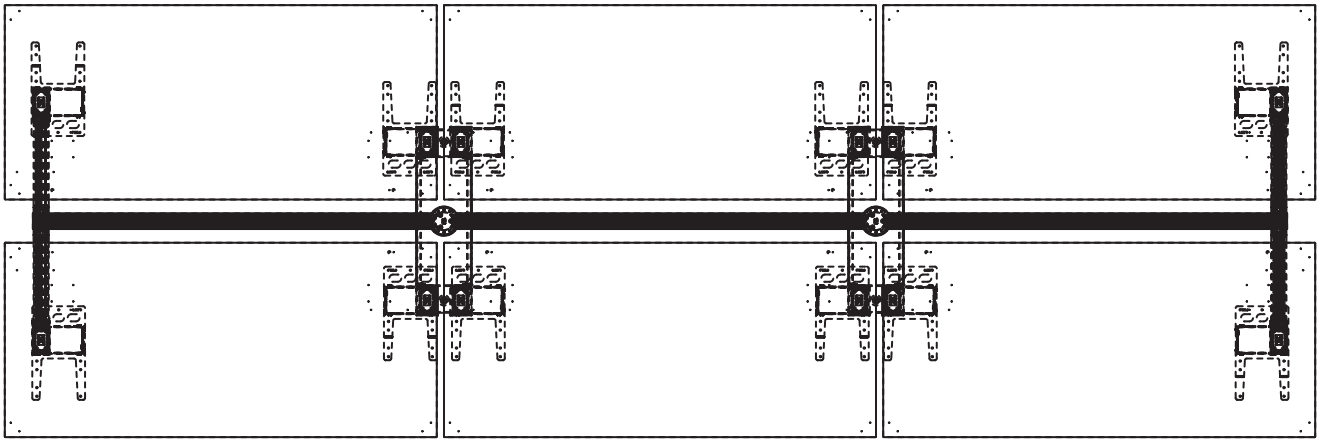
Retrofit Capabilities

For already existing Further setups, retrofitting to Adaptive is an option. Below are examples showing the units needed to convert all current Further tradition bench stations in a cluster into an Adaptive bench. To convert fixed-height linear Adaptive stations to height-adjustable use the retrofit kit on page 104.



6 Station Traditional Bench

Fixed Seated-Height Further					Adaptive Components				
Qty	Model #	Description	List Price	Total	Qty	Model #	Description	List Price	Total
6	U5F2772S	27"D x 72"W Worksurface	$ 889	$ 5334	6	U8HACBKIT	HA Control Box Kit for 2 Legs	$ 553	$ 3318
6	Z5SC72	60"W External Support Channel	$ 122	$ 732	6	Z5SC60	48"W External Support Channel	$ 97	$ 582
2	U6HK2P	2 Beam to Hub Flexible Ported Connector Hub	$ 1346	$ 2692	2	U6MSD4HA	Mid Support - 4 HA Legs	$ 8313	$ 16626
3	UN6B66P	66"W Beam for Dual Sided Power	$ 845	$ 2535					
3	UN6B66F	66"W Beam Trim - Flat	$ 323	$ 969					
8	U6L2FG	Triangular Worksurface Support Leg	$ 325	$ 2600					
2	UN6E2F	Beam End Support Leg	$ 442	$ 884	2	UN6E27D2HA	End Supports - 2 HA Legs	$ 4639	$ 9278
18	U6WBTF	Worksurface Support Bracket	$ 85	$ 1530	1	UN3TBE	Beam End Caps	$ 130	$ 130
								TOTAL	$ 47,210

Shaded components are not utilized once stations are converted.
Electrical components not shown, these will remain the same.

*** These colors are intended to be an inspirational option for the trending market. Product application is limited and color availability is approximately two years to coincide with evolving workplace trends.

Metallic paints, due to varying reflectance, may appear to have less visual color consistency than other paint finishes, even when L/A/B values are exactly the same. (L/A/B — measurable aspects of color — values are maintained within a specified range, to ensure consistent appearance of paint colors.)

Light Rift Cut Oak RF301
Dark Rift Cut Oak RF331
Natural Recon Rift Cut Oak RF896
Phantom Ecru Rift Cut Oak RF912

***SE800 and NE800 are not available on Stride trim.

The beauty of wood is the natural variation of grain patterns and colors that make each piece unique. This variation is also influenced by lighting conditions, orientation of mated parts, and varying acceptance of the finishing process. The varying colors and physical characteristics naturally occur in all wood species but are most pronounced in lighter colored woods, and are especially evident in natural finishes.

GROMMETS ON VENEER WORKSURFACES

Wire management grommets come standard on most veneer worksurfaces. Choose between metal or plastic grommet option. Note: Plastic grommet color is predetermined based on finish selection.

All Maple veneers ..... Muslin EU
All other veneers ..... Black E4

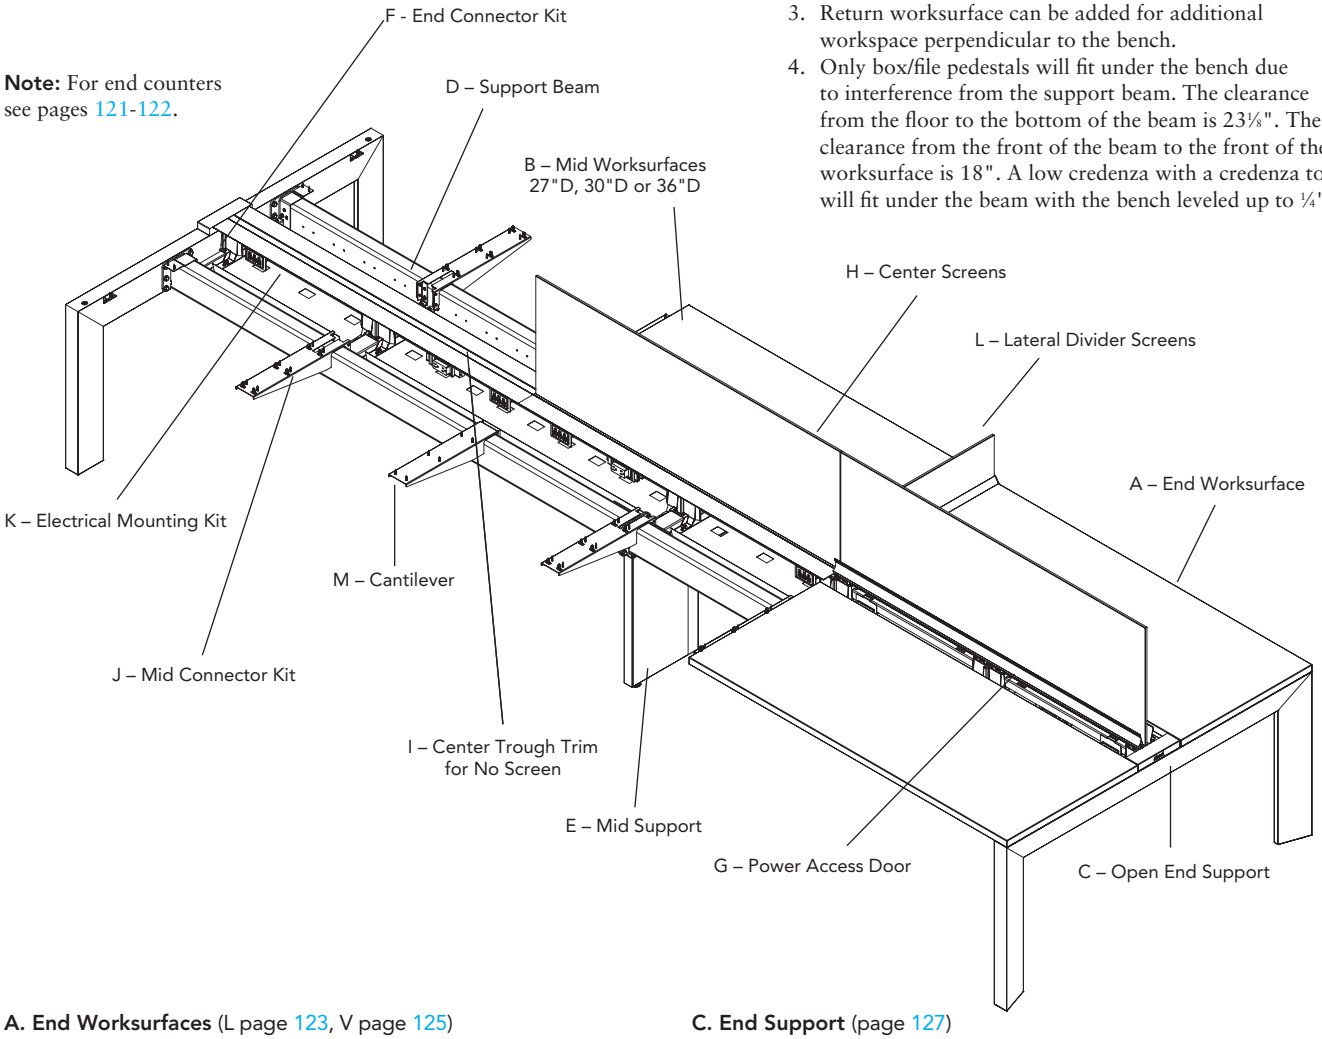
Reference Page

Stride benching offers a fresh and clean aesthetic, easy to understand planning, and comfortable, progressive design. Stride beam-based benching supports long spans up to 15 feet and offers open or closed leg design. The design can utilize cantilever storage designed for fixed-height benching.

Stride Beam-Based Benching Guidelines:

1. The maximum length of a run for a Stride bench is 60 feet. Spans greater than 15 feet require a mid support.
2. End supports create 5" of creep on each bench (2½" per support).
3. Return worksurface can be added for additional workspace perpendicular to the bench.
4. Only box/file pedestals will fit under the bench due to interference from the support beam. The clearance from the floor to the bottom of the beam is 23⅛". The clearance from the front of the beam to the front of the worksurface is 18". A low credenza with a credenza top will fit under the beam with the bench leveled up to ¼".

Note: For end counters see pages 121-122.



A. End Worksurfaces (L page 123, V page 125)

- Required at both ends of a bench run. End worksurfaces are +2½" over nominal to extend over end supports. They are specific to the Stride bench, therefore systems worksurfaces cannot be used.
- End worksurfaces are non-handed.
- Nominal depth is the measurement from user edge to center of bench. Nominal Sizes: 48"W-96"W; 27"D, 30"D, and 36"D. Actual Sizes: 50½"W-98½"W; 22¾"D, 25¾"D, and 31¾"D.
- Finishes: laminate with flat or rabbet edge; veneer with square edge.
- On the underside of end worksurfaces there is a channel for routing of the infeed cable between the beam and underside of surface for use with open leg infeed cover (model ZELNCVR).

B. Mid Worksurfaces (L page 124, V page 126)

- Mid worksurfaces are placed between end worksurfaces to run the length of the bench.
- Mid worksurfaces are specially sized and are specific to the Stride bench, therefore standard systems worksurfaces cannot be used.
- Nominal Sizes: 48"W-96"W; 27"D, 30"D, and 36"D. Actual Sizes: 48"W-96"W; 22¾"D, 25¾"D, and 31¾"D.
- Finishes: laminate with flat or rabbet edge; veneer with square edge.

C. End Support (page 127)

- For use on the end of a bench run. End supports are available in open or closed.
- Width of end support adds 2½" to length of run of the bench.
- Sizes: 54"D, 60"D, and 72"D. For support at 29½"H, leveling glides provide 2¾" of additional adjustment.
- Open End Support Finish: painted metal — P1 or P2.
- Closed End Support Finishes: painted metal — P1 or P2; veneer with painted metal accent trim — P1 or P2.

Open End Supports (page 127)

- An optional infeed cover to conceal electrical infeed is available — order model ZELNCVR separately.
- Open end support painted metal — P1 or P2.

Closed End Supports (page 127)

- Specify paint for metal closed end or veneer finish for veneer closed end. In addition, specify paint for accent trim and interior of end support — each paint option may be a different P1 or P2 color.
- Has a removable access door for data and electrical entry. For a cleaner aesthetic, the door can be flipped to conceal the cut out if not being used for data/electrical entry.

Reference Page

D. Support Beam (page 128)
- The support beam is constructed of high strength steel and provides the foundation of the bench.
- The length of each beam is independent of the worksurfaces and screens mounted atop.
- Two parallel beam assemblies extend between end supports.
- 18" knee space exists between the front of the worksurface and the front of the beam.
- Sizes: 60"W, 72"W, 84"W, 90"W, 96"W.

E. Mid Supports (pages 127, 136)
- Required on spans greater than 15 feet and can be mounted every 6" along the length of beam.
- Sits directly under beams and thus must correspond to end support dimension.
- Mid supports can sit directly under a mid connector kit, but not within 6" on either side of a mid connector kit.
- Cannot be used at end of run in place of an end support.
- Flush to front edges of the beams.
- When using a single-sided, mounted mid support, the bench must be anchored to the floor.
- The freestanding mid support and mounted mid support have a cavity for electrical infeed to pass through. The cavity is accessed by removable panel.
- Infeed enters from the side, not directly beneath support.
- Dual-sided bench sizes: 54"D, 60"D, 72"D

F. End Connector Kit (page 128)
- The end connector kit is used to trim the end of the bench and includes a cross piece, an end connector, and end trim.
- Provides a connection point for screens, trough trim, power access door, and electrical mounting kit.
- Two end connector kits are required to complete every bench.
- Dual-sided bench sizes: 54"D, 60"D, 72"D

G. Power Access Door (page 129)
- Hinged door that provides access to power and data housed within the center trough of the bench.
- Located between the worksurface and center screen of dual-sided bench or back of a single-sided bench.
- There is a ⅛" gap between the power access door and worksurface to allow cords to pass into the trough.
- Must be on-module with electrical mounting kit and mid connector kit.
- Sizes: 24"W-60"W; 3"D

H. Center Screens (pages 140-142)
- Center screens are an optional addition to the bench and run down the center trough along the length of the bench providing privacy between users across the bench.
- Sizes: 13"H (to line up with Stride 42½"H) and 20½"H (to line up with Stride 50"H)
- Materials: Clear or Frosted glass; tackable fabric; tool rail; tool rail with fabric insert (cannot mix materials on same bench).

I. Center Trough Trim for No Screen (page 140)
- Used to finish center of bench when center screens are not used. The center trough trim can span multiple connectors on-module.
- Sizes: 24"W-96"W

J. Mid Connector Kit (page 128)
- The mid connector kit includes everything needed to mount trough components: a cross piece, cantilevers, and mid connectors.
- Screens, power access door, and electrical mounting kit all mount to the mid connector kit.
- Must be on-module with screen and electrical.
- At least one mid connector kit is required to complete every bench.
- Tool rail screens 48"W and greater have a center connection that requires an additional mid connector kit for placement at the center of the screen — this must be ordered separately. Two electrical mounting kits must be ordered for between the mid connector kits. On 48"W tool rail screens — order 2–24"W electrical mounting kits; on 54"W tool rail screens — order 1–24"W and 1–30"W electrical mounting kits; on 60"W tool rail screens — 2–30"W electrical mounting kits.
- Sizes: 54"D, 60"D, and 72"D

K. Electrical Mounting Kit (page 134)
- Includes everything needed to mount 8-wire electrical between mid connector kits in a bench: an electrical mounting bracket, electrical mounting channel, wire management trough, and hardware.
- Must be on-module with power access door and center screen.
- Must match the length of electrical power harness.
- The number of electrical mounting kits determines the number of mid connector kits required.
- Mounts between connectors.
- Sizes: 24"W-60"W.

L. Lateral Divider Screens (page 143)
- Optional addition to the bench that provides space division and privacy between users on the same side of the bench.
- Sizes: 8"H and 13"H
- Materials: Clear or Frosted glass; tackable fabric; writable glass (13"H only)

M. Cantilever (page 128)
- Additional cantilevers are required when mid connectors are greater than 36" apart — order separately as required.

N. Monitor Arms
- Monitor arms cannot be mounted on 27"D Stride Benching applications due to interference of the monitor arm clamp.

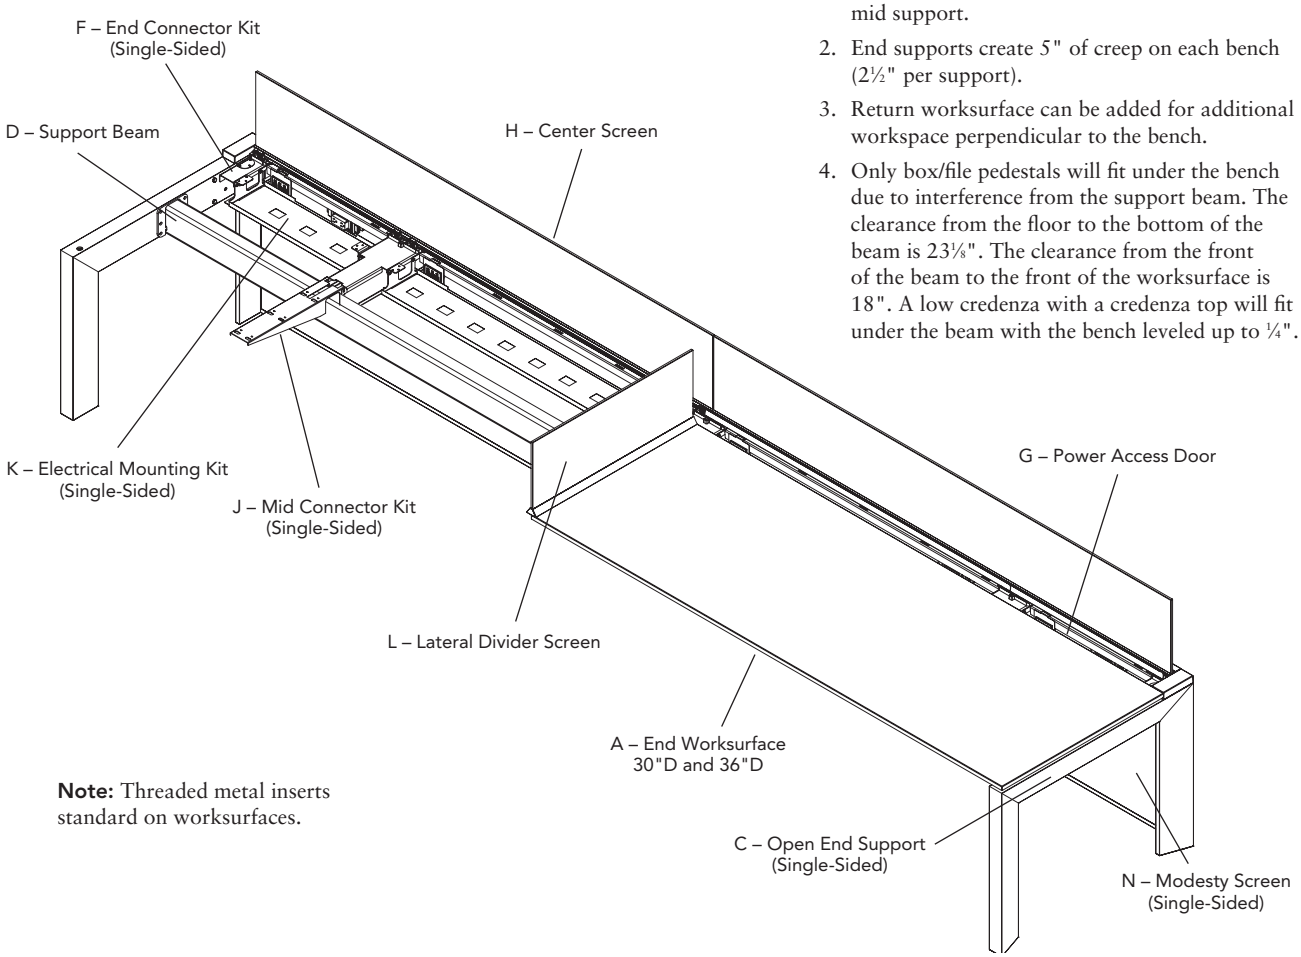
Stride® — Working with Single-Sided Bench

Reference Page

The single-sided bench is ideal for use around the perimeter of a room or other places where only one side of seating is required. Many of the components used for the dual-sided bench are also compatible with the single-sided bench, however, there are some components specific to the single-sided bench — they are designated in the illustration below.

Stride Benching Guidelines:

1. The maximum length of a run for a Stride bench is 60 feet. Spans greater than 15 feet require a mid support.
2. End supports create 5" of creep on each bench (2½" per support).
3. Return worksurface can be added for additional workspace perpendicular to the bench.
4. Only box/file pedestals will fit under the bench due to interference from the support beam. The clearance from the floor to the bottom of the beam is 23⅛". The clearance from the front of the beam to the front of the worksurface is 18". A low credenza with a credenza top will fit under the beam with the bench leveled up to ¼".



Note: Threaded metal inserts standard on worksurfaces.

A. End Worksurfaces (L page 123, V page 125)

- Required at both ends of a bench run. End worksurfaces are sized +2½" over nominal to extend over end supports and they are specific to the Stride bench, therefore standard systems worksurfaces cannot be used.
- End worksurfaces are non-handed.
- Nominal depth is the measurement from user edge to center of bench. Nominal sizes: 48"W-96"W; 30"D and 36"D. Actual Sizes: 50½"W-98½"W; 25¾"D and 31¾"D.
- Finishes: laminate with flat or rabbet edge; veneer with square edge.
- On the underside of end worksurfaces there is a channel for routing of the infeed cable between the beam and underside of surface for use with open leg infeed cover (model ZELNCVR).

B. Mid Worksurfaces (L page 124, V page 126)

- Mid worksurfaces are placed between end worksurfaces to run the length of the bench. Mid worksurfaces are non-handed.
- Mid worksurfaces are specially sized and are specific to the Stride bench, therefore standard systems worksurfaces cannot be used.
- Nominal sizes: 48"W-96"W; 30"D and 36"D. Actual sizes: 48"W-96"W; 25¾"D and 31¾"D.
- Finishes: laminate with flat or rabbet edge; veneer with square edge.

C. End Support (L and V page 127)

- For use on the end of a bench run. End supports are available in open or closed.
- Width of end support adds 2½" to length of run of the bench.
- Sizes: 32"D and 38"D. For 32"D use 30" surfaces; for 38"D use 36"D surfaces.
- For support at 29½"H, leveling glides provide 2¾" of additional adjustment.

Open End Supports (page 127)

- An optional infeed cover to conceal electrical infeed is available — order model ZELNCVR separately.
- Open end support painted metal — P1 or P2.

Closed End Supports (page 127)

- Specify paint for metal closed end or veneer finish for veneer closed end. In addition, specify paint for accent trim and interior of end support — each paint option may be a different P1 or P2 color.
- Has a removable access door for data and electrical entry. For a cleaner aesthetic, the door can be flipped to conceal the cut out if not being used for data/electrical entry.

D. Support Beam (page 128)
- The support beam is constructed of high strength steel and provides the foundation of the bench.
- The length of each beam is independent of the worksurfaces and screens mounted atop.
- Two parallel beam assemblies extend between end supports.
- 18" knee space exists between the front of the worksurface and the front of the beam.
- Sizes: 60"W, 72"W, 84"W, 90"W, 96"W.

E. Freestanding Mid Support and Mounted Mid Support (pages 127 and 136)
- Required on spans greater than 15 feet and can be mounted every 6" along the length of beam, except for +/-6" around the center of connector.
- Sits directly under beams and thus must correspond to end support dimension.
- Mid supports can sit directly under a mid connector kit, but not within 6" on either side of a mid connector kit.
- Cannot be used at end of run in place of an end support.
- Flush to front edges of the beams.
- When using a mounted mid support, the bench must be anchored to the floor.
- The freestanding mid support and mounted mid support have a cavity for electrical infeed to pass through. The cavity is accessed by removable panel.
- Infeed enters from the side, not directly beneath support.
- Single-sided bench sizes: 32"D and 38"D.

F. End Connector Kit (page 128)
- The end connector kit is used to trim the end of the bench and includes a cross piece, an end connector, and end trim.
- Provides a connection point for screens, trough trim, power access door, and electrical mounting kit.
- Two end connector kits are required to complete every bench.
- On a single-sided bench the end connector kit is handed
- Single-sided bench sizes: 32"D and 38"D.

G. Power Access Door (page 129)
- Hinged door that provides access to power and data housed within the center trough of the bench.
- Located between the worksurface and center screen of dual-sided bench or back of a single-sided bench.
- There is a ⅝" gap between the power access door and worksurface to allow cords to pass into the trough.
- Must be on-module with electrical mounting kit and mid connector kit.
- Sizes: 24"W-60"W; 3"D

H. Center Screens (pages 140-142)
- Center screens are an optional addition to the back side on a single-sided bench. They run down the center trough along the length of the bench providing privacy.
- Sizes: 13"H (to line up with Stride 42½"H) and 20½"H (to line up with Stride 50"H)
- Materials: Clear or Frosted glass; tackable fabric; tool rail; tool rail with fabric insert (cannot mix materials on same bench).

I. Center Trough Trim for No Screen (page 140)
- Used to finish center of bench when center screens are not used. The center trough trim can span multiple connectors on-module.
- Sizes: 24"W-60"W

J. Mid Connector Kit (page 128)
- The mid connector kit includes everything needed to mount trough components: a cross piece, cantilevers and mid connectors.
- Screens, power access door, and electrical mounting kit all mount to the mid connector kit.
- Must be on-module with screen and electrical.
- At least one mid connector kit is required to complete every bench.
- Tool rail screens 48"W and greater have a center connection that requires an additional mid connector kit for placement at the center of the screen — this must be ordered separately. Two electrical mounting kits must be ordered for between the mid connector kits: On 48"W tool rail screens — order 2–24"W electrical mounting kits; on 54"W tool rail screens — order 1–24"W and 1–30"W electrical mounting kits; on 60"W tool rail screens — 2–30"W electrical mounting kits.
- Single-sided bench sizes: 32"D and 38"D.

K. Electrical Mounting Kit (page 134)
- Includes everything needed to mount 8-wire electrical between mid connector kits in a bench: an electrical mounting bracket, electrical mounting channel, wire management trough, and hardware.
- Must be on-module with power access door and center screen.
- Must match the length of electrical power harness.
- The number of electrical mounting kits determines the number of mid connector kits required.
- Mounts between connectors.
- Sizes: 24"W-60"W.

L. Lateral Divider Screens (page 143)
- Optional addition to the bench that provides space division and privacy between users on the same side of the bench.
- Sizes: 8"H and 13"H
- Materials: Clear or Frosted glass; tackable fabric; writable glass (13"H only)

M. Cantilever (page 128)
- Additional cantilevers are required when mid connectors are greater than 36" apart — order separately as required.

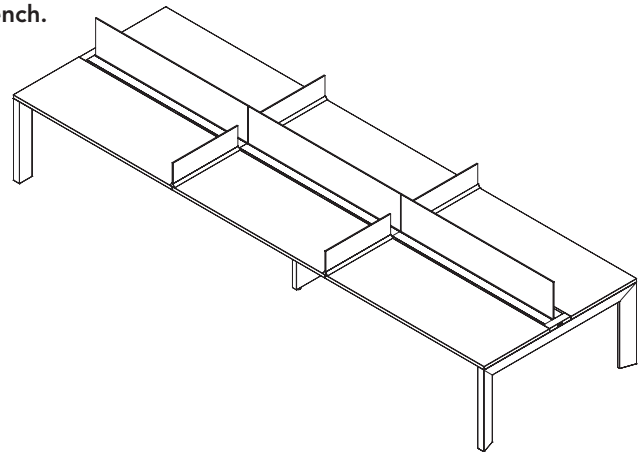
N. Modesty Screens (page 143)
- Used to finish the back side of a single-sided bench. Also recommended for aesthetic purposes when center screen is not specified.
- Sizes: 14"H half-height and 30"H full height.

O. Monitor Arms
- Pivot Clamp mounts can be specified with 60"D (Z660ELN) and 72"D (Z672ELN) Stride benching applications.
- Pivot or other monitor arms cannot be clamp mounted on 54"D Stride benching applications, ZG54ELN, (27"D worksurfaces) due to beam obstruction under the worksurface.

Dual-Sided Bench Typical Matrix

This matrix can be used as a guide for building a dual-sided bench.

Note: There are hundreds of additional combinations possible.



Components are listed based on size selected.

Typicals below are available on our Typicals Gallery and include: laminate flat edge surfaces, painted open ends and all supports, electrical mounting kits, and power access doors. **Items not included but often added** based on needs and/or preferences include the following: screens, electrical harnesses, duplexes, electrical infeeds, and storage.

Bench Length	Bench Width	# Person Bench	Worksurface Widths	End Worksurfaces	Mid Worksurfaces	Beam Length	Qty Beams	End Supports	End Connector Kits	Mid Supports	Mid Connector Kits	Cantilevers	Electrical Mounting Kits	Power Access Doors

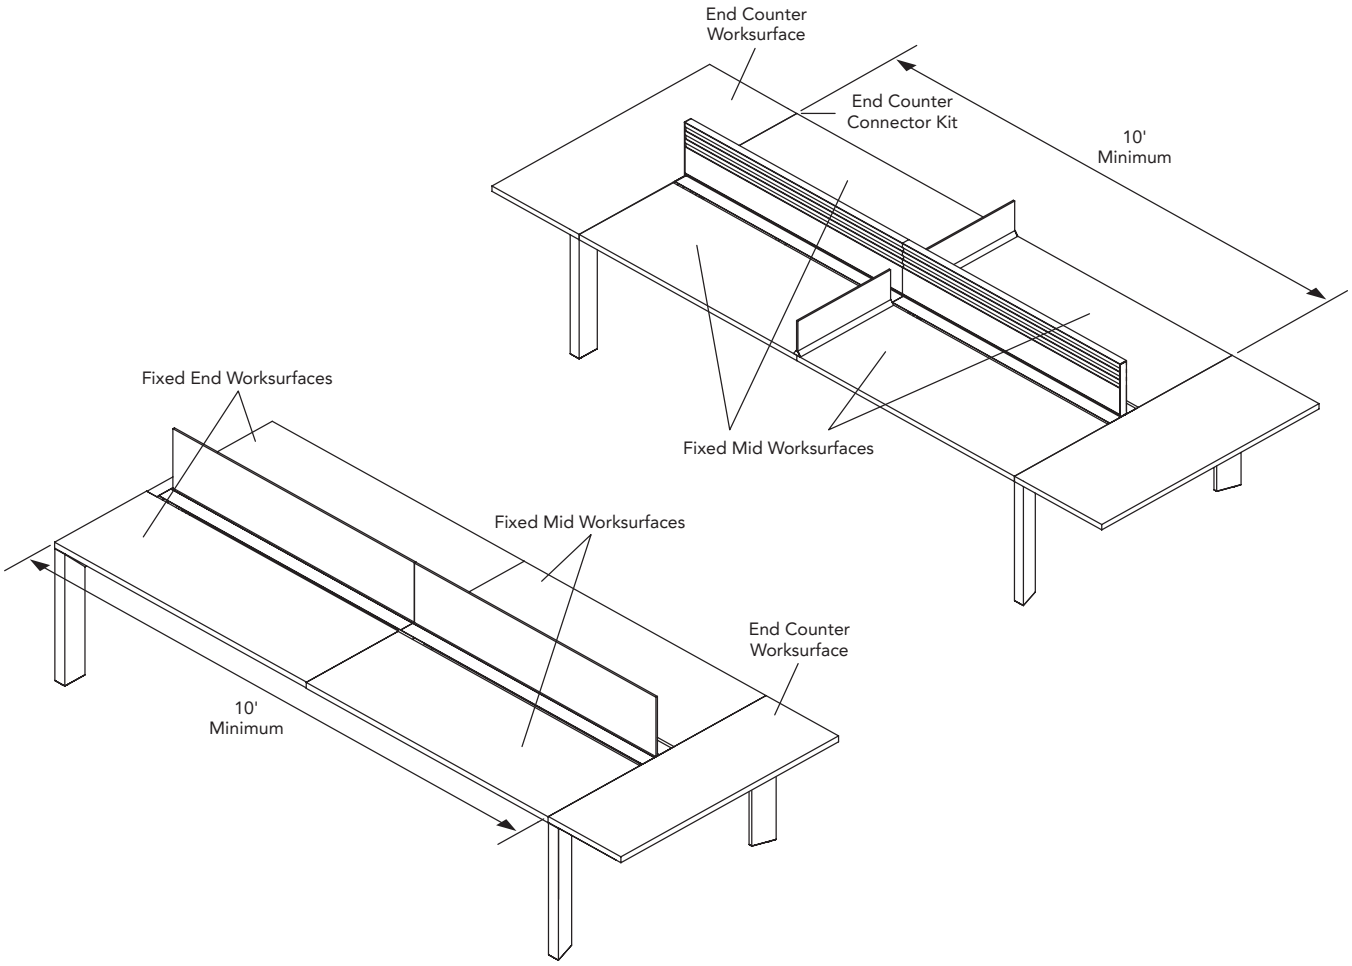
Stride benching now offers an end counter solution for use on beam-based benching. End counters are available in 18"or 24" depths in laminate or veneer for single- or dual-sided beam-based benches.



End Counter Guidelines:

1. End counter is supported using an end counter connector kit mounted on the front side of an open end support.
2. Minimum length of a run for a Stride beam-based bench when utilizing an end counter worksurface is 10'.
3. End counter connector kit will not interfere with existing 24"H floor storage.
4. Mid worksurfaces are to be used at the end of the run when mounting an end counter connector kit. See top view of examples below.
6. End counter connector kits cannot be used with Sit-to-Stand (STS) applications.
7. In STS applications, contact Allsteel Tailored Products Group for a solution.

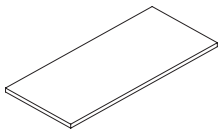
End Counter	Fixed — Mid Worksurface(s) —	Fixed — Mid Worksurface(s) —	End Counter

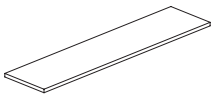
Benching Worksurfaces — Laminate (L) and Veneer (V) with Flat/Square and Rabbet Edge



End Counter Worksurfaces
Depths: 18"D nominal (actual 17½") and 24"D.

Widths: 32"W, 38"W, 54"W, 60"W.

Finishes: Laminate with flat or rabbet edge and veneer with square or rabbet edge



Return Worksurfaces
Depths: 18"D

Rectangular Widths: 36"W, 42"W, 48"W, 54"W, 60"W.

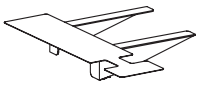
Finishes: Laminate with flat or rabbet edge and veneer with square or rabbet edge

End Counter Worksurfaces (pages L 123, V 125)

- End counters can only be utilized with open end supports on Stride benching.
- Minimum length of a run for a Stride beam-based bench when utilizing an end counter worksurface is 10'.
- Mid worksurfaces are to be used at the end of the run when mounting an end counter kit. See examples on page 121.
- If retrofitting an existing beam-based bench setup, the end worksurface(s) where the end counter will be mounted, need(s) to be replaced with mid worksurface(s).
- Width of end counter is designed to work with an open end support of the same depth. Examples: 32"W end counters are for use with 32"D open end supports and 54"W end counters are for use with 54"D open end supports

Return Worksurfaces (pages L 124, V 126)

- Specified to run perpendicular to bench for additional personal work space.
- Return worksurfaces are non-handed.
- Rectangular in widths from 36"-60" and 18" deep. Existing 24"D worksurfaces. 36"-60"W may also be used.
- Return worksurfaces connect to a bench using two flat brackets (model T612FB).
- Return worksurfaces may be attached anywhere along the length of the bench, but not to the ends, due to the end support.
- The outside ends of return worksurfaces can be supported with fixed height post legs or light scale legs.
- Full desk screens can be mounted to return worksurfaces, and should be specified 12" narrower than the return worksurfaces being mounted to.
- A full desk screen 6" narrower than the return worksurface will have its inside edge flush to the front edge of the bench. To mount a Stride modesty panel to the return worksurface, an external worksurface stiffener must be specified that is the same length as the modesty panel.
- Cannot be used with Sit-to-Stand (STS) worksurfaces.



End Counter Connector Kits (page 128)

- End counter kit can only be utilized with beam-based benching open end support.

Benching

Stride® — Fixed-Height End Worksurfaces

Laminate

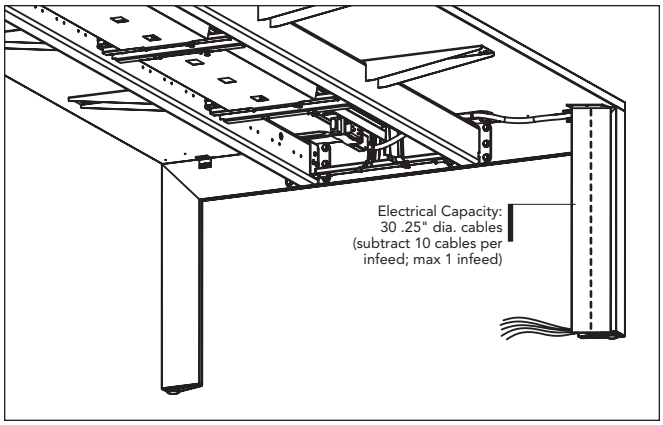
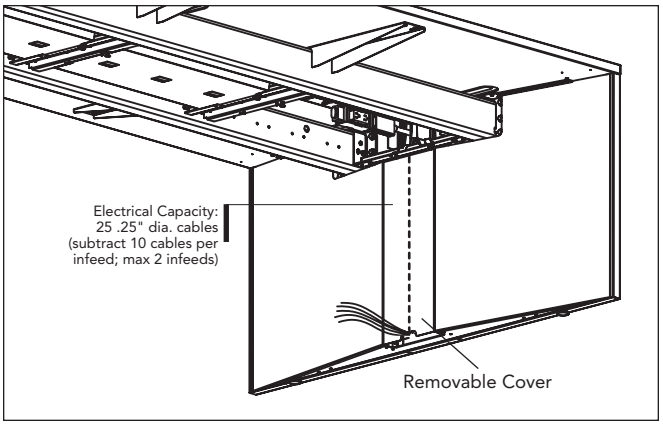
Views from underside of beam-based bench.

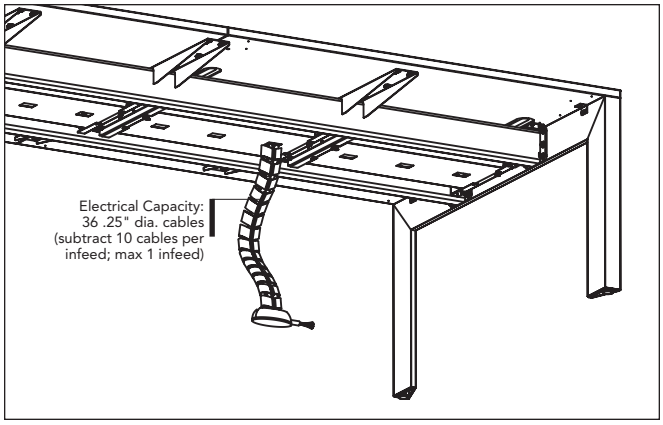
Infeed with Open Leg



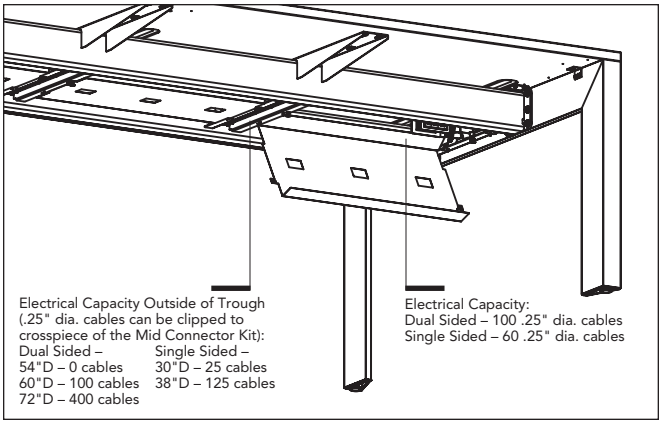
Infeed with Closed Leg



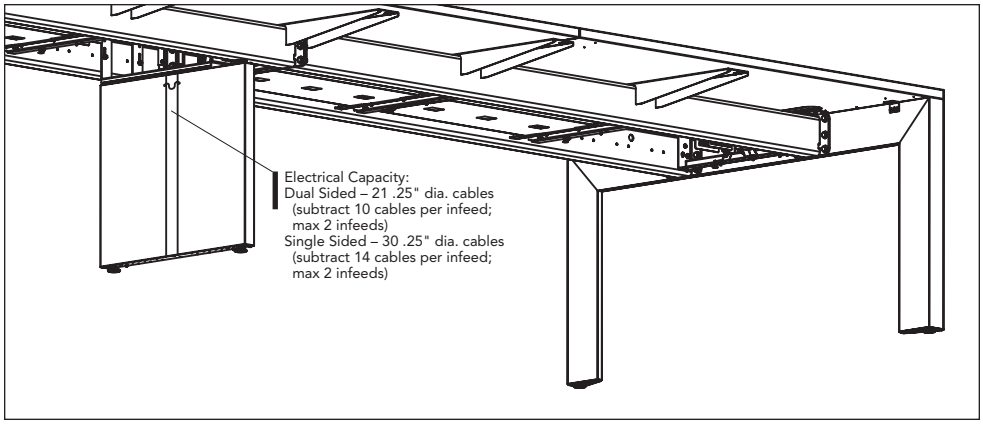
Infeed with Open Leg —
Using Infeed Cover ZSVM



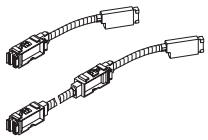
Wire Management Trough —
Included in the electrical mounting kit, it hinges down or is easily removable to provide full access for cleaning or wire management.



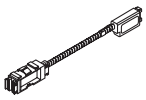
Mid Support —
Has a cavity for electrical infeed to pass through.



Electrical



Electrical Power Harness (page 135)
- Electrical power harnesses distribute power in bench.
- Power harnesses must be on-module with the Electrical mounting kit.
- Harness power blocks snap directly onto brackets.
- Power harnesses accept two duplex receptacles per side; 24"W limited to one.



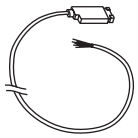
Electrical Pass-Thru Harness (page 135)
- Electrical pass-thru harnesses distribute power in bench.
- Electrical pass-thru harnesses must be on-module with the electrical mounting kit.
- Pass-thru harnesses accept one duplex receptacle per side.

Electrical Pass-Thru cable without Power Block (page 135)
- Electrical pass-thru cables distribute power where receptacles are not required.
- Electrical pass-thru cables must be on-module with the electrical mounting kit.

Duplex Receptacles (page 136)
- Duplex receptacles snap into power blocks of harnesses.
- Ordered separately, receptacles are available in Core colors and are labeled to indicate circuit number: 1, 2, 3, or 4.
- Use Concensys® style duplex receptacles, models A8715XX, due to thinner profile required for bench.

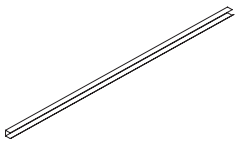
Receptacle Color Recommended to Coordinate with Paint Color

Paint Color	Receptacle Color
Bungalow P7C	Muslin — EU
Carob — P52	Black — E4
Champagne Metallic — PR5	Muslin — EU
Cinder P7Q	Brownstone — EY
Fossil — P28	Flint — E9
Gunmetal Metallic — PR3	Brownstone — EY
Parchment — P93	Muslin — EU
Pebble P8R	Loft — EV
Pewter P8D	Flint — E9
Platinum Metallic — PR2	Loft — EV
Salt P8C	Silver — ES
Titanium P8T	Silver — ES



Power Electrical Infeed Cable (page 136)
- Flexible sealtight power infeed cables deliver power from building to system.
- Select quantity of infeeds depending on individual power requirements. 12' minimum infeed cable required for use with infeed open end support cover.
- Use of a pass-thru cable without power block is recommended to make final tight turn into bench.

Hardwire Power Infeed (New York Code) (page 136)
- Used when local electrical codes require hardwire entry.



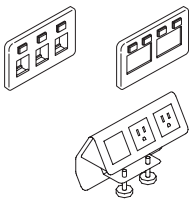
Infeed Cord Manager ZSVM (page 136)
- Manages infeed between trough and floor anywhere in 6" increments along the length of the bench.
- Finish of infeed cord manager is translucent white plastic.

Worksurface Wire Manager (page 124)
- Provides channel to run wires under a return worksurface.
- Extends 1⅛" below the worksurface.

Reference Page

Infeed Open End Support Cover ZELNCVR (page 136)
- Optional for use with open end support.
- Used to conceal and carry infeed up the inside surface of an open end support. The infeed enters the trough between the end worksurface and the support beam.
- 12' minimum infeed cable required.
- For New York code models, see page 136.

Data Mounting Kit (page 137)
- A data mounting kit must be mounted along the length of the trough for data attachment.
- Commercially available modular data faceplates, such as the AMP models ATADF3 and ATADF4 can be snapped into the data mounting kit.
- Data and power receptacle positions are independent of each other.



AMP Data Faceplates (page 137)
- Fit into receptacles and data mounting kit.

Worksurface Power/Data Module (page 137)
- Provides easy access to technology at primary worksurface.
- Mounts between the worksurface and the power access door.

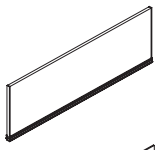
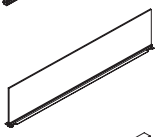
Reference Page

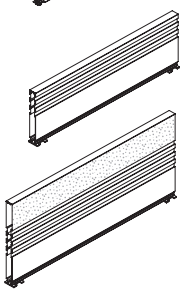
Center Screens (pages 140-141)
- Center Screens are an optional addition to the bench that run along the length of the bench.
- Screens must be specified on-module with power access doors, electrical mounting kit, and mid connector kit.
- There are four types of center screens: tackable fabric, glass, tool rail, and tool rail with top fabric insert.
- Screens of different materials cannot be combined on the same bench. Tool rail and tool rail with top fabric insert can be combined.
- Finished height of bench with screens will align with Stride panels and storage. 13"H mounted screens align with 42½"H panels and storage; 20½"H mounted screens align with 50"H panels and storage.



Tackable Fabric Center Screens (page 140)
- ¾" thick tackable fabric.
- Available in 13"H and 20½"H.
- Screen is framed on vertical sides only.

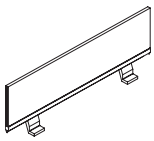


Glass Center Screens (page 140)
- ⅜" thick laminated clear or frosted glass.
- Available 13"H and 20½"H.

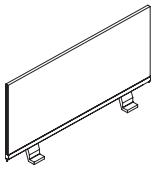


Tool Rail and Tool Rail with Top Fabric Insert Center Screens (page 141)
- 1¾" thick tool rail.
- Tool rail available 13"H and 20½"H.
- Top Fabric insert available 20½"H with a 7½"H tackable fabric tile on top.
- Tool rail can support up to 10 lbs./linear foot.
- Requires tool rail end trim at both ends of run of the tool rail — order separately.
- Tool rail screens 48"W and greater have a center connection that requires an additional mid connector kit for placement at the center of the screen — this must be ordered separately. Two electrical mounting kits must be ordered for between the mid connector kits. On 48"W tool rail screens — order quantity 2–24"W electrical mounting kits; on 54"W tool rail screens — order quantity 1–24"W and quantity 1–30"W electrical mounting kits; on 60"W tool rail screens — order quantity 2–30"W electrical mounting kits.

Personal Shelf (page 141)
- Attaches to tool rail center screen.
- The personal shelf is available in 24"W-48"W and is 6"D.
- Can also be used on all Allsteel tool rails/tiles following standard guidelines.

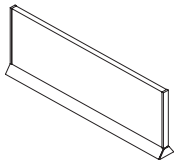


Elevated Table-Mounted Screens for Sit-to-Stand (page 142)
- ¾" thick tackable fabric.
- Available in 13"H and 20½"H for sit-to-stand tables. Screen travels up and down with the worksurface.
- Screen is framed on vertical sides only. Specify end vertical cap (included) paint color and then the horizontal retainer and stanchion pieces.
- Elevated table mounted screens provide 1¼" clearance for routing of cords off the back edge, as well as, monitor arms and power modules to be installed.
- Screen(s) can match width of surface. Attachment brackets require 1½" of clearance on the underside and are designed for use on sit-to-stand applications.

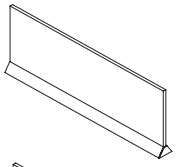


Reference Page

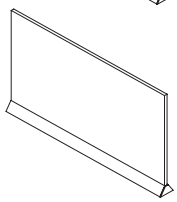
Lateral Divider Screens (page 143)
- Optional addition to the bench that provides space division and privacy. Lateral divider screens run perpendicular to the center trough.
- Lateral divider screens are sized to match worksurface depth, however it is not required that they are used on worksurface of the same depth.
- Standard depth screens will overhang worksurface ½".
- There are three types of lateral divider screens: tackable fabric, Frosted or Clear glass, and writable glass.
- Lateral divider screens attach to the underside on the back of the worksurface anywhere along the length of the bench within 7½" of each end.
- Lateral divider screens do not have to be mounted at the worksurface seam.
- Lateral divider screens may be used on standard systems worksurfaces, however, the screen mounts and aligns with the back edge of the worksurface. Not to be used on standard rabbet edge worksurfaces.
- Specify a shorter depth screen if using a lateral screen on a Stride Sit-to-Stand surface.
- Screens that match surface depths are available through Allsteel Tailored Products.



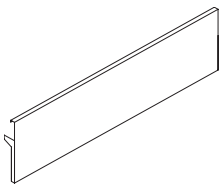
Tackable Fabric Lateral Divider Screens (page 143)
- ¾" thick tackable fabric
- Available 8"H and 13"H.
- Nominal depths are 27", 30", and 36".
- Actual depths are 22¾"D, 25¾"D, and 31¾"D.



Glass Lateral Divider Screens (page 143)
- ⅜" thick laminated clear or frosted glass.
- Available 8"H and 13"H.
- Nominal depths are 27", 30", and 36".
- Actual depths are 22¾"D, 25¾"D, and 31¾"D.



Writable Glass Lateral Divider Screens (page 143)
- ⅜" thick white opaque glass.
- Available 13"H.
- Nominal depths are 27", 30", and 36".
- Actual depths are 22¾"D, 25¾"D, and 31¾"D.



Modesty Screens (page 143)
- Only use on single-sided bench.
- Available in 14"H half-height or 30"H full-height.
- Modesty screens are available in P1 or P2 painted metal.
- Half-height modesty extends 14" from the underside of the worksurface.
- Full-height modesty extends 30" from the underside of the worksurface.
- For aesthetic purposes use of modesty screens is recommended when no center screen is specified.

For specification information see pages 115-120 and 138.
(See page 348 for COM pricing on fabric Grades G-J for Fabric Screens.)

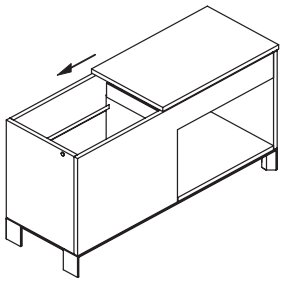
Benching Storage

Benching Storage

Reference Page

Painted Wood Storage and Accessories

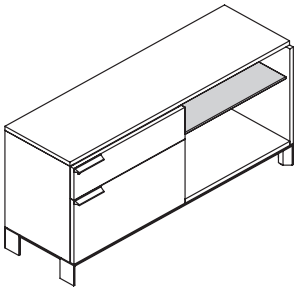
Toybox — 42"W x 15"D
23"H footed/22"H casters



Dimensions

Bin for Hanging Files: accommodates 19½" Filing Volume
Accessory Drawer:
11⅜"W x 14⅛"D x 1⅜"H
Open Cubby:
20¼"W x 14¼"D x 12⅝"H

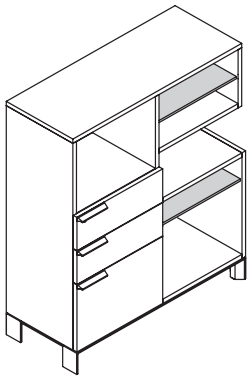
Combination Storage
48"W x 15"D x 22"H



Dimensions

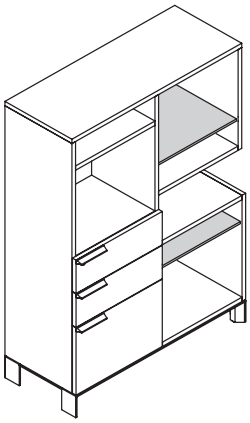
Box Drawer: 20⅞"W x 12"D x 3¼"H
Lateral Drawer: 20⅞"W x 12"D x 9"H
Open Shelf: 22⅞"W x 13⅜"D x 5⅝"H
Open Cubby:
22⅞"W x 13⅜"D x 11¼"H

Single-Sided Cantilever Storage
36"W x 15"D x 42½" or 50"H



42½"H Dimensions

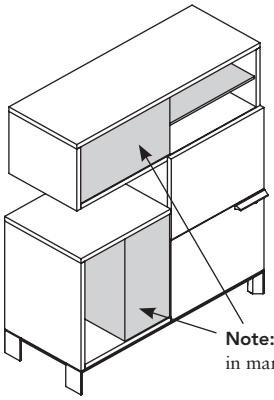
Box Drawers:
14⅞"W x 12"D x 2¾"H
File Drawer: 14⅞"W x 12"D x 9"H
Open Cubby above drawers:
16⅞"W x 13⅜"D x 12¾"H
Bottom Open Cubby:
16⅞"W x 13⅜"D x 13"H
Shelf below worksurface:
16⅞"W x 13⅜"D x 3½"H
Shelves above worksurface:
16⅞"W x 13⅜"D x 4½"H



50"H Dimensions

Box Drawers:
14⅞"W x 12"D x 2¾"H
File Drawer: 14⅞"W x 12"D x 9"H
Open Cubby above drawers:
16⅞"W x 13⅜"D x 15⅛"H
Open Shelf above drawers:
16⅞"W x 13⅜"D x 4⅜"H
Bottom Open Cubby:
16⅞"W x 13⅜"D x 13"H
Shelf below worksurface:
16⅞"W x 13⅜"D x 3½"H
Shelf above worksurface:
16⅞"W x 13⅜"D x 4⅜"H
Cubby above worksurface:
16⅞"W x 13⅜"D x 12"H

Dual-Sided Cantilever Storage —
36"W x 15"D x 42½"H



Note: Metal surfaces (shaded) can be specified in marker board white paint MKP.

Dimensions

File Drawer: 14⅞"W x 12"D X 9"H
Open Top Shelves:
16¾"W x 13⅜"D x 4⅝"H
Bottom Open Cubby:
8'W x 13¾"D x 17¼"H

- Benching storage has a 1¾" leveling capability
- Freestanding; cannot be ganged.
- Storage can be positioned anywhere along the length of the bench, inside of the end supports. There is 18" of depth clearance underneath the bench between edge of worksurface and beam.
- All shelves are non-adjustable.
- Benching storage is designed to be freestanding and does not carry electrical.
- Toybox available as footed or with casters. All other storage units are footed.

Toybox (pages 147-148)
- The top door slides to reveal accessory drawer with hanging files beneath.
- Rails for letter-sized hanging files are provided.
- If installed in-line with a mid support, the toybox will extend 3¾" out from its normal position (back half of unit will be under the bench, front half will be protruding out from the bench).
- Open cubby for binder storage sits beneath bench surface.
- An optional seat cushion may be placed on top for guest seating — order separately.
- Toybox is 42"W x 15"D x 23"H footed/22"H mobile.
- Mobile toybox has four casters — two are locking.

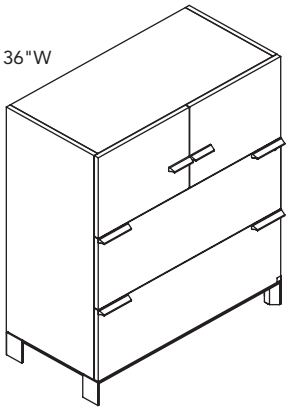
Combination Storage (pages 147-148)
- Has box and lateral drawers, and a cubby for binders, plus one open shelf.
- Rails for letter-sized hanging files are provided.
- An optional seat cushion may be placed on top for guest seating — order separately.
- If installed in-line with a mid support, the combination storage will extend 5⅝" out from its normal position.
- Combination storage is 48"W x 15"D x 22"H.

Single-Sided Cantilever Storage (pages 147-148)
- Has box/box/file drawers, two shelves and two cubbies for binders.
- Tackboard accessory available for back side of unit.
- Single-sided cantilever storage is available 42½"H or 50"H and is 36"W x 15"D.
- Cannot be used with Sit-to-Stand (STS) worksurfaces.

Dual-Sided Cantilever Storage (pages 147-148)
- Intended for use by two users on either side of the storage.
- Each user has one file drawer, two shelves, and one cubby for binders.
- Backs of shelves, backs of binder bins, and adjustable shelves are metal providing a magnetic surface for the user on the opposite side. The second paint option dictates color for all three.
- Metal can be specified in marker board white paint by using paint code MKP.
- On veneer-front model, only the drawer front and false drawer front are veneer.
- Dual-sided cantilever storage is 36"W x 15"D x 42½"H.
- Cannot be used with STS worksurfaces.

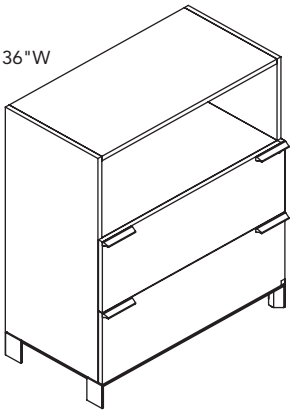
Painted Wood Storage and Accessories — *continued*

Lateral File w/Hinged Doors
36" or 42"W x 18"D x 42½"H



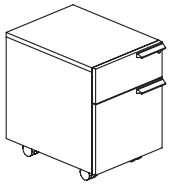
36"W Dimensions
Lateral Drawers:
31⅛"W x 16⅜"D x 12¾"H
Hinged Door Shelf:
34⅜"W x 16⅜"D x 12¾"H

Lateral File w/Open Shelf —
36" or 42"W x 18"D x 42½"H

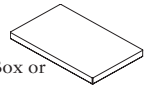


36"W Dimensions
Lateral Drawers:
31⅛"W x 16⅜"D x 12¾"H
Open Shelf:
34⅜"W x 16⅜"D x 12¾"H

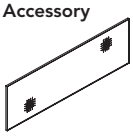
Mobile Pedestal
15⅝"W x 18"D x 22"H
Left shown



Seat Cushions
24"W x 15"D for Toy Box or Combination Storage
15"W x 18"D for Mobile Ped

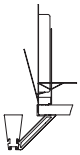


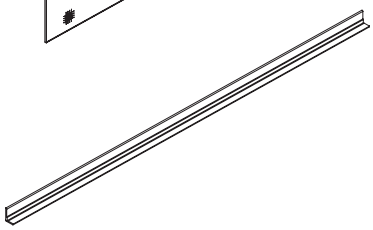
Tackable Cantilever Storage Accessory



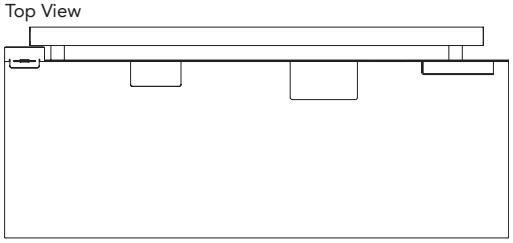
Rail Accessories

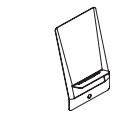
Side View

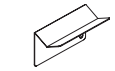


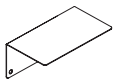


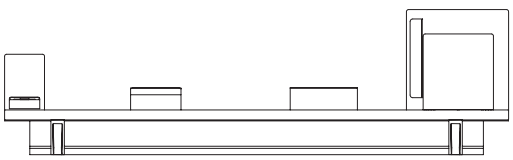
Top View



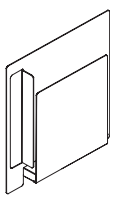








Front View



Lateral File (pages 147-148)
- Top cell is available with hinged doors or an open shelf.
- There are two lateral drawers in the lateral file.
- Rails for letter-sized hanging files are provided.
- Lateral file is available 36"W or 42"W and is 18"D x 42½"H.

Painted Wood Mobile Pedestals (pages 147-148)
- Handedness is determined by user's side, placing the pull on the side closest to the user. Specify a left unit to be on the user's left side (pull will be on the right side of the unit); specify a right unit to be on the user's right side (pull will be on the left side of the unit).
- Mobile pedestals are 22"H. They can be used underneath the bench. Support pedestals do not fit underneath the bench.
- Mobile pedestals have four casters — two are locking.
- Ships with counterweight kit.

Seat Cushion (page 149)
- Can be placed on top of toybox or combination storage to provide quick and convenient seating.
- The seat cushion is not permanently affixed.
- COM yardage for seat cushion is 1 yard.

Tackable Cantilever Storage Accessory (page 149)
- For use on back side of single-sided cantilever storage only.
- Available in two heights to match the height of the storage unit.
- Provides tackable surface on the upper portion on the back side of single-sided cantilever storage unit.

Worksurface Mounted Rail (page 322)
- Aluminum extrusion designed to mount to flat edge worksurfaces. Comes with rail and hardware for mounting.
- Mounted rail extends ¾" on underside of worksurface which may interfere with the mounting of storage.
- Widths available 12" through 96" in 6" increments.
- Passes behind worksurface bracket on tethered applications.
- Can span ganged worksurfaces in tethered applications.
- For freestanding applications rail should be 6" shorter than worksurface (i.e. 54" rail for 60" worksurface).
- Not recommended for use on panel systems due to fit up issues created with worksurface and panel.

Rail Mounted Accessories
Not recommended for use on panel systems due to fit up issues created with worksurface and panel. Adding accessory rail shifts worksurface — 3/16" away from panel along that edge. Forcing worksurface into place crushes fabric tile and with tiles of other material (steel, marker board, etc) is likely to scratch, dent, or otherwise damage tile during installation.

U9TM Phone/Tablet Stand (page 322)
- 6⅝"H x 4¾"W and angles back 1¾".
- Has a ¼" x 1" slot in bottom flange to allow for routing cables. Requires 1¾" space behind worksurface edge in order to be used.

U9TP Pencil Holder (page 322)
- 2⅝"H x 6"W x 3"D.
- Holds approximately twenty #2 pencils.

U9TS Rail Mounted Shelf (page 322)
- 8"W x 4½"D and sits 2⅝" higher than top of worksurface.
- Holds up to 8 pounds.

U9TF Vertical Paper Tray (page 322)
- Sits 12"H x 1½"W x 12"D from back of worksurface.
- Folder front stands 9" high from worksurface top, 1¼" space holds about 280 sheets of copy paper.

Benching Storage

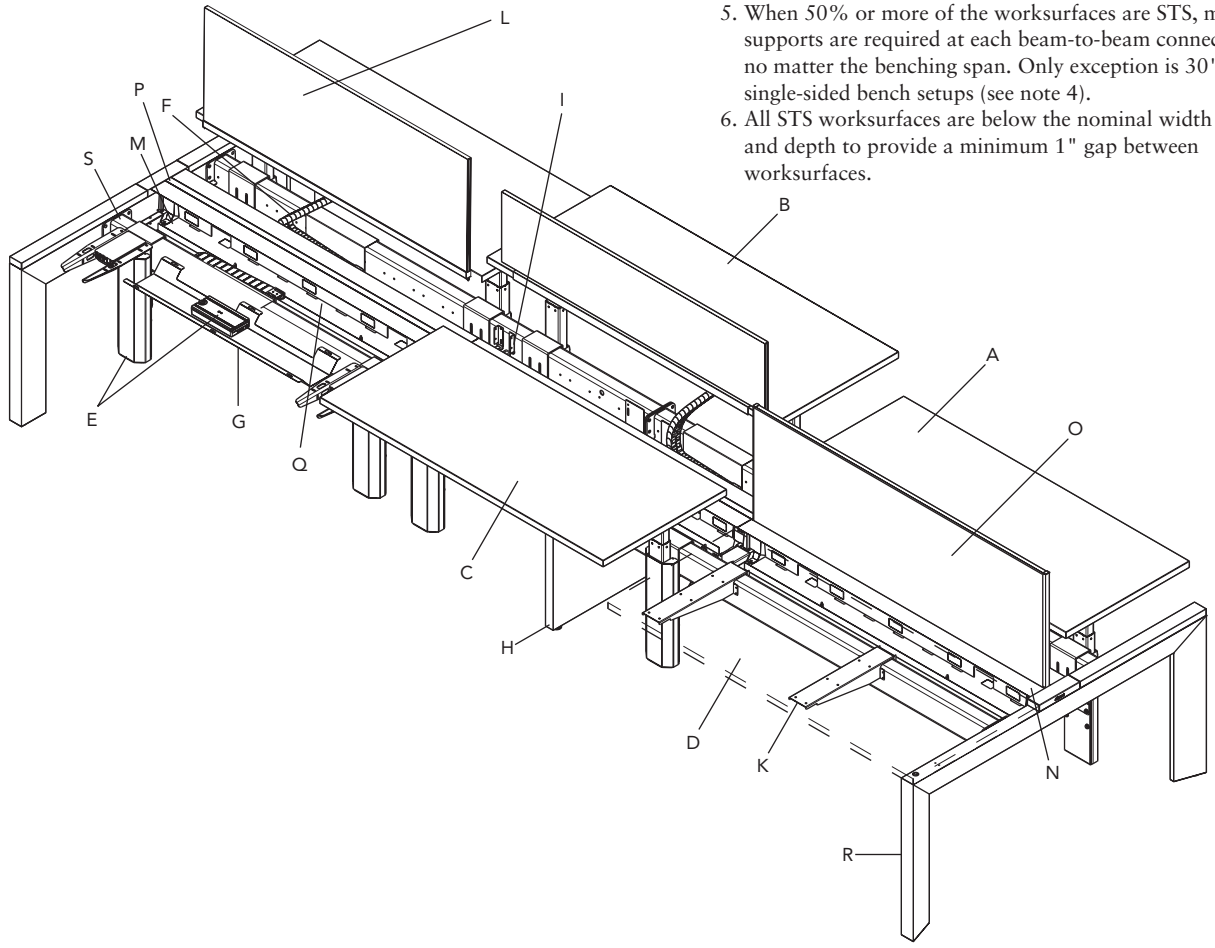
Stride® — Working With Sit-to-Stand Benching

Reference Page

Stride Sit-to-Stand accommodates individuals who want to vary standing and sitting postures while they work, improving health and wellness and worker satisfaction. Height-adjustable surfaces can be added at any time, with the ability to mix height-adjustable and fixed-height surfaces to satisfy each team member's needs while maintaining the same benching footprint.

Stride Sit-to-Stand (STS) Guidelines:

1. All Stride STS benching systems must meet the guidelines of standard Stride Benching shown on page 115, as well as those included in this section.
2. Single-sided bench systems with all worksurfaces being STS must be 15' or less.
3. Single-sided bench applications require the use of modesty screens (refer to pages 117-118).
4. Do not use mid-supports for 30"D single-sided bench setups.
5. When 50% or more of the worksurfaces are STS, mid supports are required at each beam-to-beam connection no matter the benching span. Only exception is 30"D single-sided bench setups (see note 4).
6. All STS worksurfaces are below the nominal width and depth to provide a minimum 1" gap between worksurfaces.



A. STS End Worksurfaces (page 154)

- Required for STS benching worksurfaces between an end support and a mid worksurface that is STS. See examples on page 153.
- Worksurface widths are 1½" less than nominal to create a 1" gap between adjacent worksurfaces and end supports.
- Nominal sizes 48"W-84"W; 27"D, 30"D, and 36"D. Actual sizes: 46½"W-82½"W; 22¼"D, 25¼"D, and 31¼"D.
- End worksurfaces are non-handed.
- When ordering an end worksurface an end leg cover is required.
- Worksurface finishes: laminate or veneer with flat edges only.
- All guidelines for fixed height Stride benching apply to Sit-to-Stand Stride benching.
- When using 84"W worksurfaces, use 2 – Z6UWTRGH17 for wire management.
- Worksurfaces 48"W-72"W require 2-pack legs and 84"W worksurfaces require 3-pack legs.
- Worksurface support channel Z5SC48 recommended when legs are at maximum separation.

B. STS Mid Worksurfaces (page 155)

- Required for STS benching worksurfaces not adjacent to a fixed worksurface or end support. See examples on page 153.
- Worksurface widths are 1" less than nominal to create a 1" gap between adjacent worksurfaces.
- Nominal sizes 48"W-84"W; 27"D, 30"D, and 36"D. Actual sizes: 47"W-83"W; 22¼"D, 25¼"D, and 31¼"D.
- Worksurface finishes: laminate or veneer with flat edges only.
- All guidelines for fixed height Stride benching apply to Sit-to-Stand Stride benching.
- When using 84"W worksurfaces, use 2 – Z6UWTRGH17 for wire management.
- Worksurfaces 48"W-72"W require 2-pack legs, and 84" worksurfaces require 3-pack legs.
- Worksurface support channel Z5SC48 recommended when legs are at maximum separation.

C. STS Fixed-Adjacent Worksurfaces (page 156)
- Required for STS benching worksurfaces adjacent to one or more fixed worksurfaces. See examples on page 153.
- These can be used as mid-worksurfaces or end worksurfaces. These worksurface widths are 2" less than nominal to create a minimum 1" gap between adjacent worksurfaces and/or end supports.
- Nominal sizes 48"W-84"W; 27"D, 30"D, and 36"D. Actual sizes: 46"W-82"W; 22¼"D, 25¼"D, and 31¼"D.
- Worksurface finishes: laminate with flat edges only. Veneer finish available through Allsteel Tailored Products.
- All guidelines for fixed height Stride benching apply to STS Stride benching.
- When using 84"W worksurfaces, use 2 – Z6UWTRGH17 for wire management.
- Worksurface lengths 48"-72" require 2-pack legs and 84" worksurfaces require 3-pack legs.
- Worksurface support channel Z5SC48 recommended when legs are at maximum separation.

D. Fixed Worksurfaces (pages 123-126)
- Cantilevers that overlap fixed worksurfaces and STS worksurfaces are emitted from use; and standalone cantilevers (Z6CB) are used in their place, inset 6" from the edge of the fixed worksurface.
- For retrofit applications, fixed worksurfaces will need to be temporarily removed in order to remove any cantilevers that overlap fixed worksurfaces when they're adjacent to STS worksurfaces.
- Reference standard Stride benching (pages 115-149) for additional guidelines.

E. STS Legs (page 157)

2-Pack
- Support beams have existing holes on the back side to help place the legs in the appropriate locations.
- Used for worksurface sizes 72"W and smaller.
- Reference illustration below for leg restrictions.

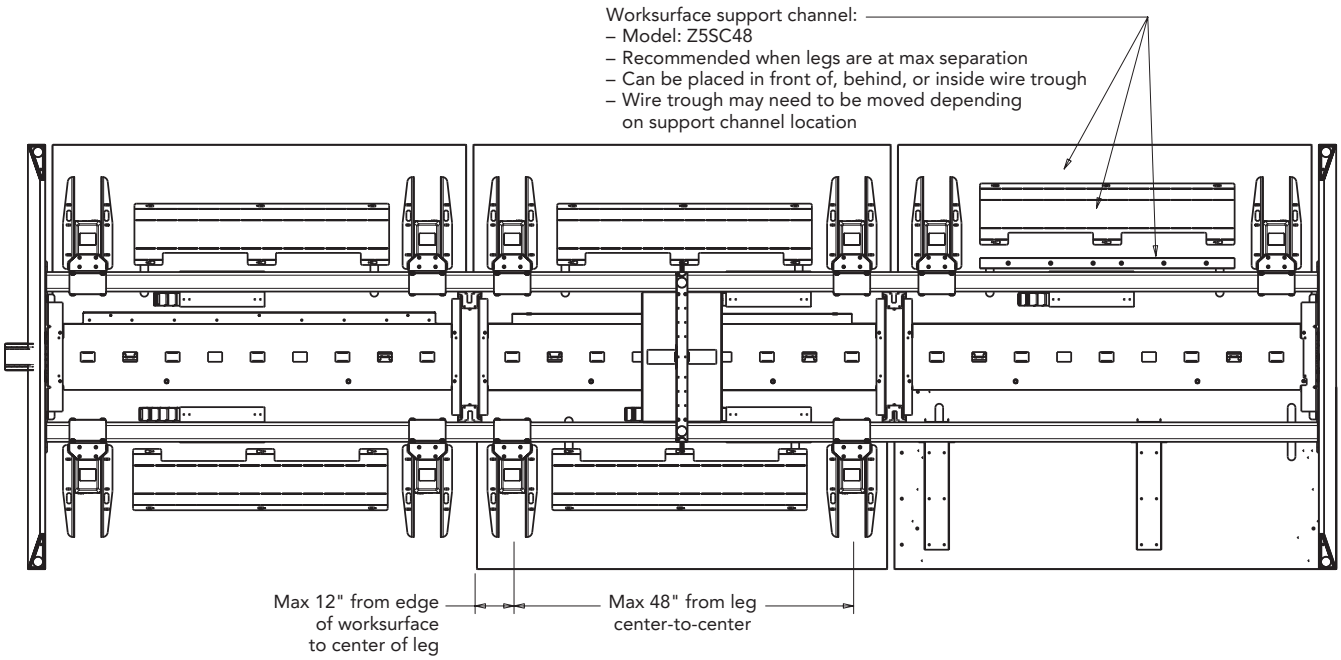
3-Pack
- Support beams have existing holes on the back side to help place the legs in the appropriate locations.
- Used for 84"W worksurfaces.
- Reference illustration below for leg restrictions.

Control Box
- For 2 legs – Reference 300W power on table below.
- For 3 legs – Reference 450W power on table below.

CBD BOX VARIANT	INPUT POWER ON LABEL	INPUT VOLTAGE ON LABEL [V]	INPUT CURRENT [A]
CBD6SH00040A-709 [CBD6SC00030A-709]	450 W	120V 60Hz	3.31 AMPS
CBD6SH00040A-709 [CBD6SC00030A-709]	450 W	230V 50Hz	1.75 AMPS
CBD6SP00020A-009	300 W	230V 50Hz	2.40 AMPS
CBD6SP00020A-109	300 W	120V 60Hz	1.25 AMPS

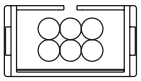
Keypad
- Standard keypad only comes with up/down buttons.
- Optional keypad offers three programmable height settings and digital height display.

Cables
- Connection cables – connect height adjustable legs to the control box. The number of cables should match the number of legs.
- Power cable – Connect control box to power source.
- Connection cables and power cable come with control box.



Reference Page

F. Wire Management Chain (page 158)
- Used to route and conceal power/data cables from the control box to the wire trough.
- Chains are 36" long and can be mounted left, right, or center of a worksurface.
- Able to house 6 cables at .300" diameter. See illustration below.
- Recommended cord length for electrical accessories is 60".
- Made of one plastic "chain" and two plastic brackets; one for each end of the chain.
- Chain comes in three color options — Black, Designer White, and Titanium.
- Ships with sheet metal bracket for mounting.
- Systems are capable of mounting up to two chains per worksurface.



Z9WCN
6 cables (.300" dia.)

G. Under Worksurface Wire Trough (page 158)
- Used to conceal wires and control box below worksurfaces. Trough can be configured at various height/width combinations to meet capacity needs — see illustrations below at right.
- 48"W and 54"W use one 17"W trough. The 54"W have space to use 2 – 17"W, if necessary.
- 60"W, 66"W, and 72"W use the 36" trough.
- 84"W use 2 – 17"W troughs.

H. Mid Supports (page 127)
- Required on unsupported spans greater than 15', except in 30"D single-sided applications.
- Required at beam-to-beam connections for all unsupported spans when 50% or more of the worksurfaces are STS.
- Reference standard Stride benching (pages 115-149) for additional guidelines.

I. STS Mid Connector Kit (page 157)
- No cantilevers included in this STS kit.
- Where a cantilever would normally support the end of a fixed height worksurface, the cantilever can be excluded and a standalone cantilever (Z6CB) can be used inset 6" from the edge of the worksurface.
- Reference standard Stride benching (pages 115-149) for additional guidelines.

J. Lateral Divider Screens (Not shown in illustration; models listed on page 143)
- Standard lateral screen length will not match worksurface depth
- Creates a ½" overhang in the front, if used
- Special sizes may be requested through Allsteel Tailored Products

K. Cantilever (page 128)
- Where a cantilever would normally support the end of a fixed height worksurface, the cantilever can be excluded and a standalone cantilever (Z6CB) can be used inset 6" from the edge of the worksurface.
- Not used for STS worksurfaces.

L. Worksurface Screens (pages 140-142)
- Elevated table-mounted screens on page 142 provide 1¼" of clearance for routing of cords. Other worksurface screens are possible, but will inhibit cord management.
- 13" or 20" high.
- Worksurface mounted or user-removable (only in 13" high).
- Glass or fabric options for some.
- Elevated table-mounted screens on page 142 can match width of surface. Other screens attached to worksurfaces should be undersized off from nominal. Example: 60"W worksurface should use no larger than a 54"W screen.
- Elevated table-mounted screens on page 142 require 1½" of clearance on the underside for the brackets to be attached. Screen travels up and down with the worksurface.
- Elevated table-mounted screens allow cords to route off the back edge, as well as, monitor arms and power modules to be installed. Screen sits 1¼" off the top of the surface but the overall screen height aligns with other table and beam mounted screens.

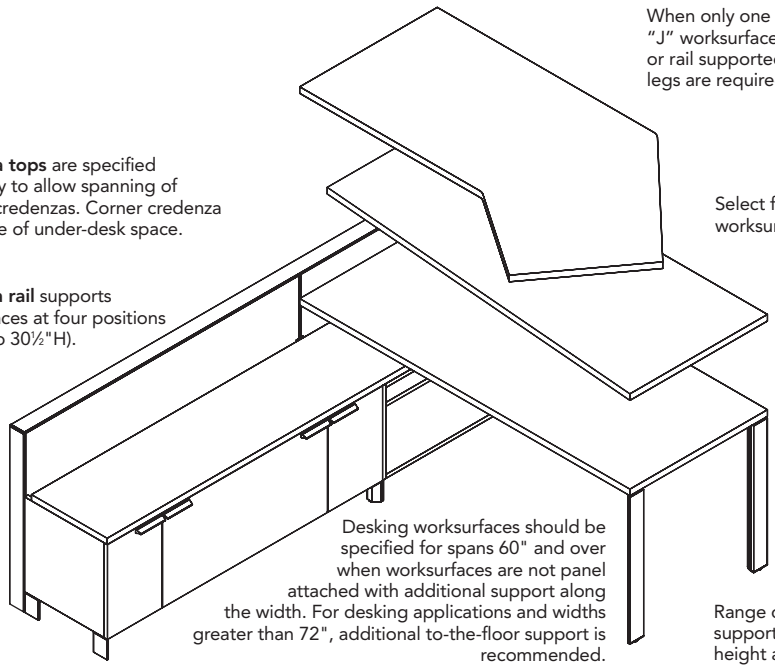
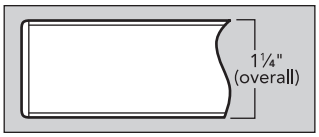
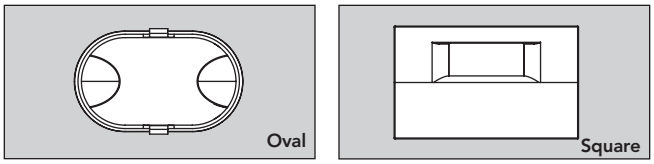
Worksurface Application Versatility



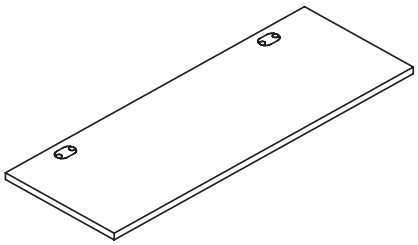
Reference Page

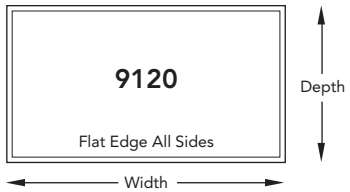


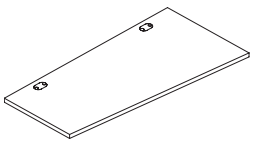
Flat Edge Trim

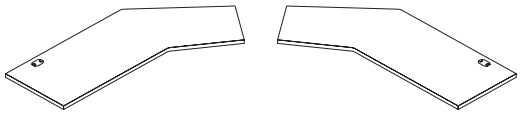


Wire Management Grommets









Worksurfaces

- Laminate (L) worksurfaces are 1¼" thick with particleboard core and with top surfaces finished in laminate. Bottom surfaces are covered with a backer sheet.
- Flat edge trim is available on laminate tops in standard colors (customer specified) to match solid laminates and to complement patterned or woodgrain laminates.
- Veneer (V) worksurfaces have square veneer edge.

Wire management grommets are standard in most worksurfaces and are specified in plastic or metal.

- Metal grommets are available in oval or square (shown at left).
- Grommets on standard systems worksurfaces are located 6$^{5}/_{16}$" from side edges and 3$^{5}/_{16}$" from back edge.
- Add Suffix "N" to a model number for no grommets, no upcharge.

Primary and Desking Worksurfaces (L page 166, V page 174)

- Primary worksurfaces are available in 20", 24", 30", and 36" depths.
- One grommet for widths up to 42", two on widths 48"W and greater.
- Desking worksurfaces should be specified whenever worksurfaces 48"W and wider are not attached to a panel.
- Feature an external worksurface support channel which extends 1¼" below the worksurface and is inset 6" from each end.
- Support channel on desking worksurfaces may interfere with mounting of some CPU holders and keyboard supports.
- Support channel ships separately and is field installed to allow for larger worksurface spans.
- Modesty panels can be mounted on desking worksurface external support channel.
- Pilot holes for post legs are on the corners of desking worksurfaces.
- Grommets on desking worksurfaces are located 8⅝" from side edges and 1½" from back edge.

Non-Standard Worksurface Sizes (L and V on pages 178 and 179)

- The 9120 Program can be used to order laminate and veneer rectangular worksurfaces in any non-standard width and depth in ⅛" increments up to a maximum of 120"W x 36"D.
- Other modification requests should be made through Allsteel Tailored Products Group.

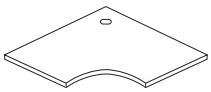
Linear Taper Worksurfaces (L pages 167-168)

- Worksurfaces greater than 60"W require a cantilever bracket for center support in panel mounted applications. Specify 12" cantilever on 12"D, 18" cantilever on 20"D, and 24" cantilever on 24"D and 30"D worksurfaces.

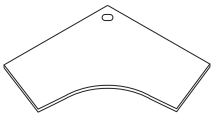
Linear J Desking Worksurfaces (L pages 169-170)

- Ships with an external worksurface support channel which extends 1¼" below the worksurface and is inset 6" from each end. Support channel may interfere with mounting of some CPU holders and keyboard supports. It is installed to allow for larger worksurface spans.
- Modesty panels can be mounted on desking worksurfaces using the external worksurface support channel.
- Pilot holes for post legs are on the corners of desking worksurfaces.
- Grommets on desking worksurfaces are located 8⅝" from side edges and 1½" from back edge.

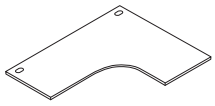
Reference Page

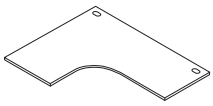


Corner Worksurfaces (L page 171, V page 175)
- One rear corner support bracket included (left-handed). All other support hardware is ordered separately.
- Worksurface bracket kit (order separately) required at junction where a panel is wall-mounted to a permanent wall and wall track stanchion is not positioned in the right-hand corner.
- Corner worksurfaces with woodgrain laminate and veneer have grain direction diagonal to adjacent worksurfaces.
- T-mold is used on the edge of curved worksurfaces. This will have a noticeable visual difference when directly adjacent to straight worksurfaces.



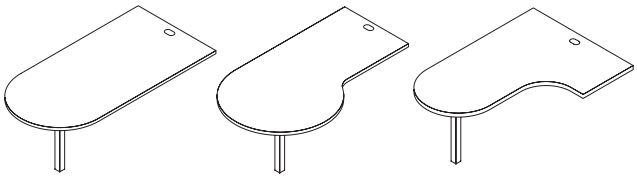
120° Corner Worksurfaces (L page 171, V page 175)
- Standard with one wire management grommet in corner location.
- Rear support bracket included (left-handed).
- Worksurface bracket kit (order separately) required at junction where a panel is wall-mounted to a permanent wall and Wall Track stanchion is not positioned in the right-hand corner.
- T-mold is used on the edge of curved worksurfaces. This will have a noticeable visual difference when directly adjacent to straight worksurfaces.





Corner Cove Worksurfaces (L page 172, V page 176)
- Worksurfaces 60"W or greater require a cantilever bracket for center support in panel mounted applications. Specify 24" cantilever on 24"D and 30"D worksurfaces.
- Rear corner support bracket included (left-handed).
- Worksurface bracket kit (order separately) required at junction where a panel is wall-mounted to a permanent wall and wall track stanchion is not positioned in the right-hand corner.
- T-mold is used on the edge of curved worksurfaces. This will have a noticeable visual difference when directly adjacent to straight worksurfaces.

Support columns shown below ordered separately.

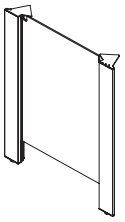


Peninsula, P-Shaped and Jetty Worksurfaces
(L page 173, V page 177)
- Support column ordered separately, column includes panel support brackets T6BK.

STRIDE

End Panels and Panel Brackets

Worksurfaces can be configured at 29½"H with end-panel supports and in-line support panels, or at various heights on 1" increments using specific product configurations.



Freestanding End Panel Legs — Painted Wood (page 180)

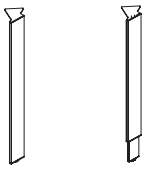
- Available in 29½" height and 24" and 30" depths.
- Freestanding end panel leg includes two post legs, painted wood modesty panel, and attachment hardware.
- Order according to type of worksurface (flat/square or rabbet edge) the end panel leg will support.
- End panel leg will interfere with the grommet location on systems (non-desking) worksurfaces.

Credenza-to-Panel

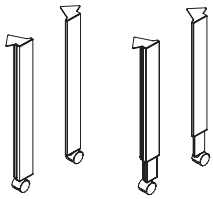
Credenza-to-Panel Brackets (page 221)

- Used to attach the back or side of a credenza to a panel frame to provide stability when used with Stride panel frames.
- Handedness on side-to-panel bracket is determined by side of credenza that attaches to panel when facing panel run.

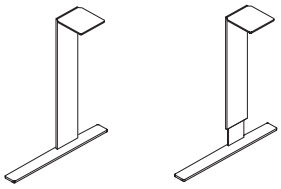
Legs



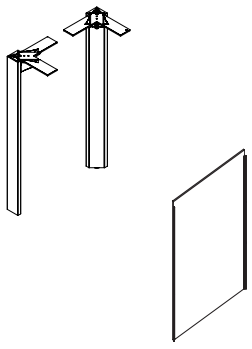
Post Legs (page 181)
- Used to support one corner of a panel attached worksurface. Cannot be used in freestanding applications, use table post legs.
- Fixed height is for support at 29½"H and 40½"H.
- 26½"H to 32½"H height adjustable legs provide a 6" range of adjustment in ½" increments.
- 37½"H to 43½"H height adjustable legs provide a 6" range of adjustment in ½" increments.
- Telescoping legs require common tools to adjust height.
- Leveling glides provide 1" of additional adjustment.
- Attachment hardware included.
- Post leg will interfere with the grommet location on systems (non-desking) worksurfaces.



Freestanding Post Legs (page 181)
- Reinforced post leg with an integrated gusset is used to build a freestanding table.
- For use with Stride desking worksurfaces.
- Fixed height is for support at 29½"H.
- 26½"H to 32½"H height adjustable legs provide a 6" range of adjustment in ½" increments.
- Telescoping legs require common tools to adjust height.
- Leveling glides provide 1" of additional adjustment. Caster version aligns with glide version when glide is fully retracted.
- Attachment hardware included.



C-Legs (page 182)
- Used to support one end of a worksurface or table. Cannot be shared between surfaces.
- Fixed Height is for support at 29½"H.
- 26½"H to 32½"H height adjustable legs provide a 6" range of adjustment in ½" increments.
- Height adjustable C-legs are for use on worksurface spans up to 72"W. Fixed height C-legs must be used if the span is greater than 72"W.
- Telescoping legs require common tools to adjust height.
- Leveling glides provide ½" of additional adjustment.
- Attachment hardware included.

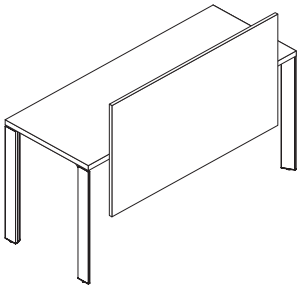


Light-scale Wire Management Table Post Legs (page 182)
- Includes pair of legs (non-handed, mounted to bracket) and attaching hardware. Available for modesty panel or not for modesty.
- Available painted or anodized.

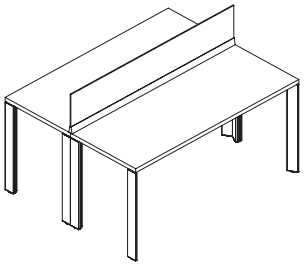
Leg Modesty Panels (page 182)
- Height adjustable table post legs cannot be used with leg modesty panels.
- Available in ¼" thick Landscape™ surface material.

Reference Page

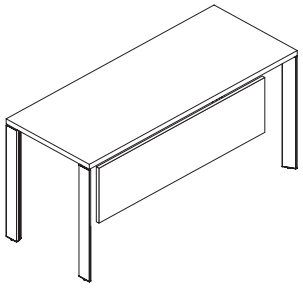
Desk screens and modesty panels provide light-scale space division. There are four options available: full desk screens, shared desk screens, desk modesty panels, and leg modesty panels.



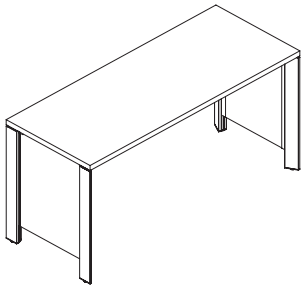
Full desk screens extend above and below the worksurface acting as both a screen and a modesty panel. They are 28"H and available in painted wood or painted wood with fabric Insert. Landscape™ surface material will soon be available as an additional finish option.



Shared desk screens are for use above the worksurface in a back-to-back application for added privacy. They are 13"H and are available in ⅜" Clear or Frosted Glass.

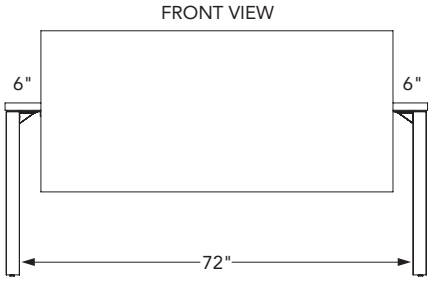


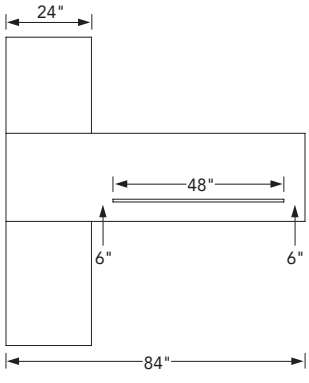
Modesty panels are for use below the worksurface. They must be used with Stride desking worksurfaces or a systems worksurface with an external support channel installed. An optional worksurface wire manager conceals hardware. They are 14"H and available in ¾" thick painted wood or ¼" thick Landscape surface material.



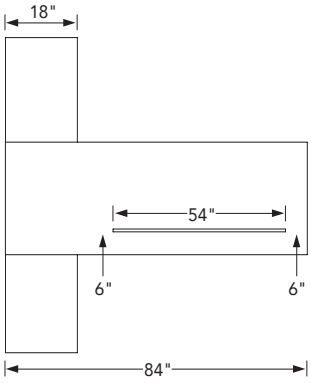
Leg modesty panels are used between two post legs on either a 24"D or a 30"D worksurface. They are 29"H and are available in Landscape surface material.

Specification Rules for Desk-Mounted Screens and Modesty Panels





High Credenzas — TOP VIEW



Low Credenzas — TOP VIEW

Freestanding Table Applications:
Subtract 12" from the size of the table/worksurface to get the recommended screen or modesty widths.

Example for an 72"W table: 72" – 12" = 60"W

Specify a 60"W screen and center-mount on the table.

Credenza-based Layered Applications:

- **High credenzas** — Subtract 24" for the credenza depth and an additional 12" from the width of the worksurface to get the recommended width.

  Example for an 84"W table: 84" – (24" + 12") = 48"W

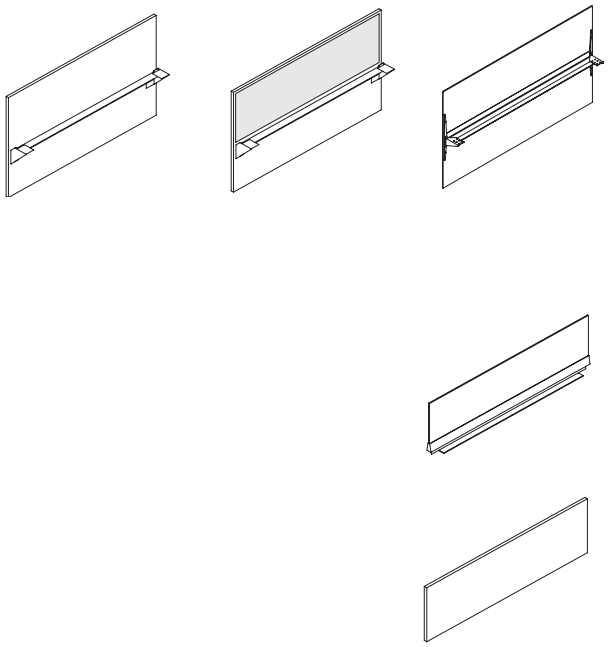
  Specify a 48"W screen and center-mount on the worksurface opening.

- **Low credenzas** — Subtract 18" for the credenza depth and an additional 12" from the width of the worksurface to get to the recommended screen width.

  Example for an 84"W table: 84" – (18" + 12") = 54"W

  Specify a 54"W screen and center-mount on the worksurface opening.

Reference Page



Screens and Modesty Panels

Full Desk Screens (page 184)
- Extend 13" above the worksurface to provide desktop privacy and 14" below the worksurface as a modesty panel.
- Width of full screen must be 12" less than the width of the worksurface. If used on a worksurface attached to a credenza rail, the width of the screen must be 3½" less than the width of the worksurface.
- Painted wood full desk screens are ¾" thick, plus a 1"gap for cord management between worksurface and screen.
- Painted wood with fabric insert screens are ¾" thick painted wood with a tackable fabric insert on the user's side.
- Landscape™ surface screens are ¼" thick Frosted Translucent.

Shared Desk Screens (page 184)
- Provide privacy above the worksurface in back-to-back or side-to-side applications.
- Shared screens extend 13" above the worksurface to align with 42½"H panels and storage.
- Available in ⅜" thick Clear or Frosted glass.

Modesty Panels (page 185)
- Includes attachment hardware.

For specification information see pages 159-165. For non-standard worksurface sizes see page 178.

30"A x 24"B x 66"C	**Z53266JRDP**	**$ 1218**	**$ 1258**	**$ 1296**
30"A x 24"B x 72"C	**Z53272JRDP**	**$ 1248**	**$ 1288**	**$ 1328**
30"A x 24"B x 78"C	**Z53278JRDP**	**$ 1492**	**$ 1539**	**$ 1587**
30"A x 24"B x 84"C	**Z53284JRDP**	**$ 1610**	**$ 1661**	**$ 1712**

Notes:
1) Add Suffix "N" to a model number for no grommets, no upcharge.
2) "D" dimension is equal to "C" minus 24".
3) Desking worksurfaces have an external support channel that extends 1¼" below the worksurface and the grommets are 8⅜" from the side edge and 1½" from the back edge (on non-desking worksurfaces, grommets are 6⁵⁄₁₆" from the side edge and 3⁵⁄₁₆" from the back edge).

ORDERING

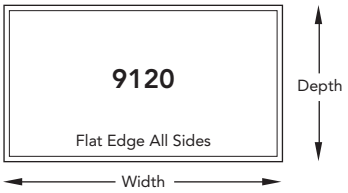
The 9120 Program can be used to order particle board rectangular worksurfaces in any non-standard width and depth in ⅛" increments up to a maximum of 120" W x 36" D.

Specify:

1. **Model Number**
   Specify closest nominal width/depth model (round up).
2. **Grommet Option** (if desired)
   See grommet specification instructions on this page.
3. **Grommet Type:**
   P Plastic
   M Metal (add $11 per grommet for laminate)
4. **Grommet Color:**
   (Metal only)
   EL Matte Silver
   Note: Plastic grommet will match flat edge.
5. **Laminate and Veneer Choices**
   See page 114 for finishes.
6. **Flat Edge Color Choices**
   See edge colors page 114 for laminates.
7. **Exact Size**
   Specify the **exact width** and **exact depth** you require.
   Width and depth is specified in ⅛" increments which is denoted as a single digit following the whole number dimension at the end of the model number string.

⅛"	= 1	⅝"	= 5
¼"	= 2	¾"	= 6
⅜"	= 3	⅞"	= 7
½"	= 4	no extra increment	= 0

For example, when ordering a worksurface that is 34⅜"W x 20½"D, specification should be 345Wx204D.
Example: **9120R3624.G0.TM33.EU.345Wx204D**.



PRODUCT SPECIFICATIONS

- Flat edge on all sides
- 45 lb. particle board
- 1¼" top thickness
- .020 resin impregnated paper backer sheet
- Grommets available
- Maximum width 120" (maximum recommended unsupported span is 42")
- Maximum depth 36"
- Standard Allsteel laminates and veneers
- Quantities of 10 or greater are palletized; less than 10 are individually cartoned.

Note: 9120 worksurface maximum unsupported span is 42". 9120 worksurfaces do not have pre-drilled pilot holes or threaded metal inserts.

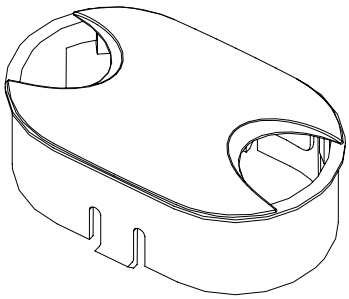
When spanning multiple freestanding storage units with one worksurface, add ⅛" for each additional storage unit. For example, when ordering a worksurface for three 30"W lateral files. 3 units x 30" = 90" + ⅛" + ⅛" = 90¼" worksurface. Do NOT follow this rule if panel wrapping storage units.

CHANGES / CANCELLATIONS

No changes/cancellations for 9120 Program worksurfaces.

GROMMET SPECIFICATIONS

Plastic grommets are made of durable ABS plastic and grommets match edge color on laminate worksurfaces. Metal grommets are only available Matte Silver oval for laminate and square for veneer.



PRICING

See page 179 for laminate and veneer 9120 worksurface pricing.

One Grommet — GC, GL, or GR Position..... $17.00
Two Grommets — G3 or G4 Position..... $34.00
Note: Add $11 per grommet for metal grommets with laminate.

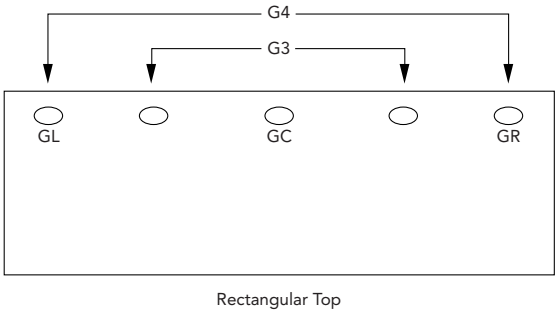
ORDERING

Specify grommet location and color.
Example: **9120R10836.GCP.TM33.EU.1022Wx326D**

Code Grommet Position

GC	Centered side-to-side – 3⅛" from rear to grommet edge; 4½" from rear to grommet center
GL	6⁵⁄₁₆" from left side to grommet edge – 3⅛" from rear to grommet edge; 4½" from rear to grommet center
GR	6⁵⁄₁₆" from right side to grommet edge – 3⅛" from rear to grommet edge; 4½" from rear to grommet center
G3	Pair of grommets each 18" from side edge – 3⅛" from rear to grommet edge; 4½" from rear to grommet center (Position G3 not available on tops 60"W or less.)
G4	Pair of grommets each 6⁵⁄₁₆" from side edge to grommet edge – 3⅛" from rear to grommet edge; 4½" from rear to grommet center
G0	No grommets

Dimensions are from grommet center line to top edge.



Rectangular Top

Grommet positions other than those shown above are considered non-standard.

For specification information see page 178.

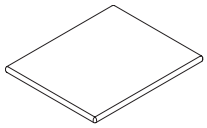
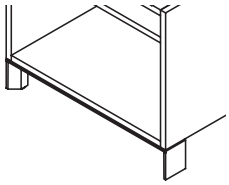
Credenza Top

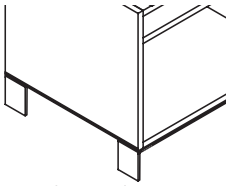
Credenza Rail



Seat Cushion



Credenza Bottom Trim



Credenza Side Trim

Credenzas ship fully assembled except for the credenza top, which must be ordered separately. Credenza tops in laminate or veneer with flat/square or rabbet edge details are available in various depths. Veneer fronts by Gunlocke®.

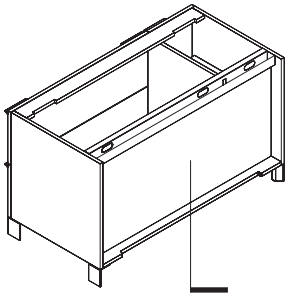
With the addition of a credenzas rail, low credenzas act as a support for height-adjustable run off worksurfaces at 1" increments from 27½"H to 30½"H. Also provides the ability to run power and to support storage.

Laminate credenza tops, a footed base, and aluminum trim along the front edge of the credenza enhance the durability of the credenza.

A relocatable seat cushion can be placed on the credenza top of a low credenza for additional seating.

Credenza bottom trim is standard on the front of all credenzas.

Optional side trim is an aesthetic piece for end of run credenzas and is ordered separately and field installed.



All credenzas have a recessed back with a cavity to support wire management. An optional metal back should be specified separately to finish the credenza in a single-sided application where the back is exposed. Finished back configurations should not utilize rail as the top cap required shows an unfinished top groove.

Relocatable wire trough provides a channel for wire management.

Each credenza ships with one front bracket that can be used to gang (multiple) credenzas in-line.

Credenza top must be ordered separately and can span multiple credenzas.

Corner credenzas with bin when housing a CPU must be used with credenza tops for wire trough or rail (not full depth) to minimize heat buildup.

Credenzas can support panels in certain applications with the addition of a credenza-to-panel bracket, see guidelines on page 191 and bracket on page 194.

Credenzas can be shipped with lock cores removed; cores can be installed after files are in place. Core removable lock feature allows key numbers to be easily changed in the field.

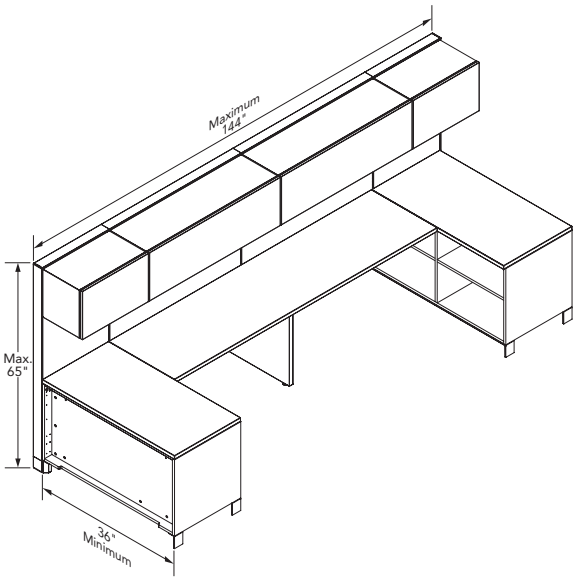
All credenzas feature silver linear pulls. Pulls, feet, and bottom trim are all PR6 Silver finish.

Credenzas are constructed from ¾" thick powder-coated medium density fiberboard with concealed fastener construction.

Credenza feet have sleeves to conceal the leveling glides. Leveling range is 1⅛". The hex-head design of the stem allows leveling to be done even when the credenza is fully loaded.

Credenzas ship with the feet located at the outside corners. Alternate mounting holes are provided for front feet to be inset 4" on mid-run credenzas, during installation.

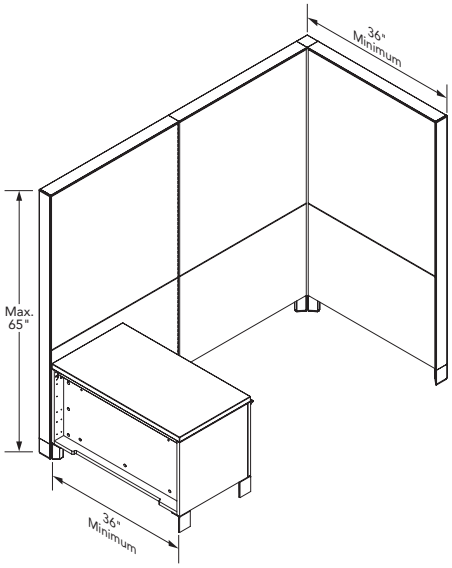
High Credenza Side to Panel Bracket



Side-mounted high credenzas

- The minimum Stride high credenza width is 36"W on each end.
- With a floor support the maximum panel run is 144".
- Without a floor support, the maximum panel run is 96".
- Overheads, shelves, and worksurfaces must be mounted on the same side of the parent run as the credenzas. Stacking frames cannot be used with overheads.
- Panel frame maximum height is 65"H.

Credenza Side to Panel Bracket with Return Panel



Bracket with return panel

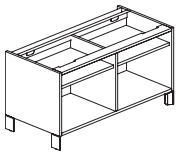
- Minimum Stride credenza width 36".
- With a floor support the maximum panel run is 144".
- Without a floor support, the maximum panel run is 96".
- The minimum size for panel return is 36"W x 35"H.
- Overheads, shelves, and worksurfaces must be mounted on the same side of the parent run as the high credenza.
- Panel frame maximum height is 65"H.

22"H Low Credenzas

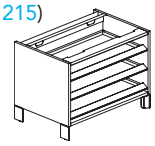
22"H low credenzas *are constructed of painted wood and are available with painted fronts. Low credenzas range from 24"W to 60"W x 22"H (without top; or 23½"H with top) x 18"D.*

Low Credenza Configurations (page 215)
- Open
- Open with Project Shelves#
- Hinged Doors
- Lateral File with Project Drawer#
- Box/File
- Corner Bin#

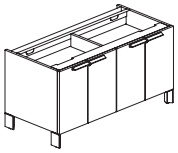
Low Credenza — Open (page 215)
- Low open credenzas have one removable shelf.
- Bottom shelf opening is 12⅛"H and will accommodate binders.
- Top shelf opening is 3⅜"H.



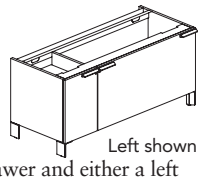
Low Credenza — Open with Project Shelves (page 215)
- Available in 24"-36" widths.
- Units have three pull out shelves at fixed height.
- Shelves have an opening clearance of 4½"H.



Low Credenza — Hinged Doors (page 215)
- 24"-36"W units have two doors with one lock and one adjustable shelf.
- 42"-60"W units have four doors with two locks and a center septum, with one shelf on each side that can be adjusted in 2" increments.



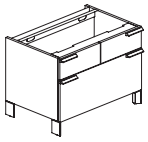
Low Credenza — Lateral File with Project Drawer # (page 215)
- Available in 30"-60"W.
- A 2⅞"H optional pull out project drawer is located behind the lateral file drawer front.
- When used freestanding, counterweight kit model ZD-CW must be specified.
- 30"-36"W are lateral files with one lock.



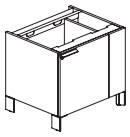
Left shown

- 42-48"W is a combination unit with a lateral drawer and either a left or right 12"W hinged door with an adjustable shelf inside. Unit has two locks.
- 60"W is a combination unit with a lateral drawer and both left and right 12"W hinged doors each with an adjustable shelf. Unit has three locks.

Low Credenza — Box/Box/Lateral # (page 215)
- 30"W box/box/lateral credenza provides a combination of personal and file storage.
- Unit has two locks.



Low Credenza — Corner with Bin # (page 215)
- For use under perpendicular layered worksurfaces.
- Available 24"W or 30"W and are either left or right handed with one lock.
- Handedness on corner credenzas is determined by the location of the credenza in the credenza run, considered when facing the run.



Right shown

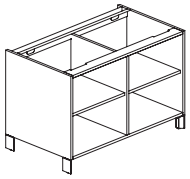
- Corner slide out bin has an open side to allow for easy side access of the stored content, and can be used for storing binders or a CPU (up to 12¼"H).
- There is venting to allow airflow, however, if a CPU is being stored in a corner credenza, a credenza top for wire trough or rail must be used to minimize heat buildup (do not use full depth credenza tops).
- All units have a side panel that provides clearance for modesty panel attachment. It is removable and can be used for cord management and power/data access.
- Side panel is 6"W on 24"W credenzas and 12"W on 30"W credenzas.

28"H High Credenzas

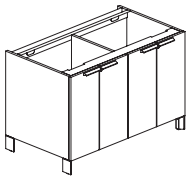
28"H high credenzas *are constructed of painted wood and are available with painted fronts. High Credenzas range from 24"W to 60"W x 28"H (without top; or 29½"H with top) x 24"D.*

High Credenza Configurations (page 216)
- Open
- Hinged Doors
- Lateral File#

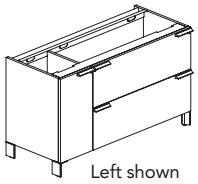
High Credenza — Open (page 216)
- Open credenzas have two fixed shelves.
- Bottom shelf opening is 12⅛"H and will accommodate binders.
- Top shelf opening is 9½"H.
- Open credenzas 42"W-60"W have a center septum.



High Credenza — Hinged Doors (page 216)
- 24"-36"W units have two doors with one lock and one adjustable shelf.
- 42-60"W units have four doors with two locks and a center septum, and one shelf on each side of the center septum that can be adjusted in 2" increments.



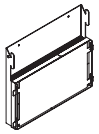
High Credenza — Lateral File (page 216)
Available in 30-60"W.
- 30-36"W are lateral files with one lock.
- 42-48"W is a combination unit with two 36"W lateral drawers and either a left or right 12"W hinged door with an adjustable shelf inside. Unit has two locks.
- 60"W is a combination unit with two 36"W lateral drawers and both left and right 12"W hinged doors each with an adjustable shelf inside. Unit has three locks.



Left shown

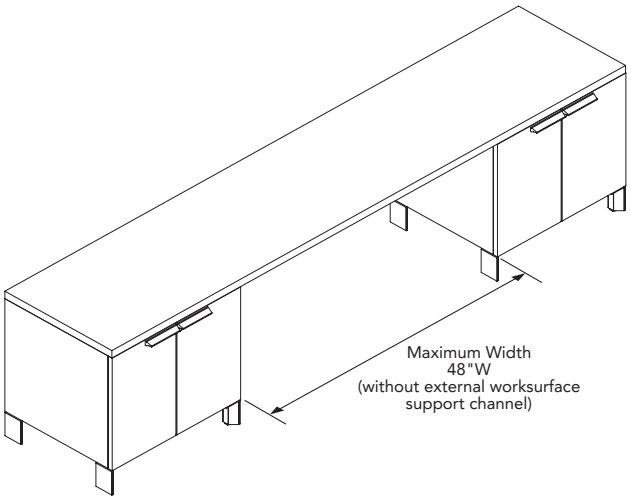
Counterweight Kits for Credenzas

Counterweight Kit (page 221)
- Weight attached to the back of a credenza to inhibit tipping. Must be ordered separately and field installed.
- Counterweight kits required for freestanding low credenzas:
  Open with Project Shelves, all widths.....1 Kit
  Lateral Files, all widths.....2 Kits
  30"W Box/Box/Lateral.....1 Kit
  Corner Credenza, all widths.....1 Kit
- For every 30" of added and ganged credenzas with spanning credenza tops, one counterweight kit can be removed.
- Stability bracket model number Z6CSBK can be used in place of a counterweight kit. See pages 194 and 221.



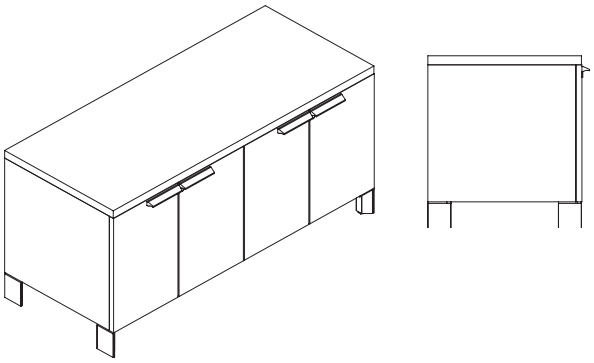
Unit may require counterweight depending on application, see chart above..

Credenza Tops:



Credenza tops are required to finish top surface of low and high credenzas.

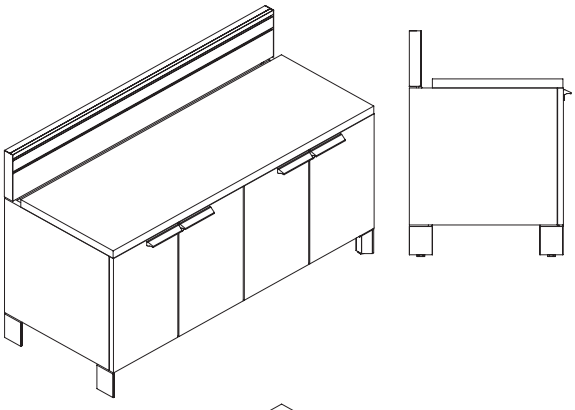
- Credenza tops are 1¼" thick.
- Three types (depths) of credenza tops:
  - Full Depth — to match depth of the credenza.
  - For Rail — 3" less than depth of the credenza, use with credenza rail.
  - For Wire Trough — 1½" less than depth of the credenza, providing access to the wire trough and a channel for wire management when credenza is used along powered panel spine.
- Tops are available in laminate or veneer and with flat/square or rabbet edge detail.
- Veneer credenza tops are by Gunlocke®. Stratawood veneer has a consistent straight-grain pattern.Natural veneer will have cathedrals and as a natural material is subject to nature's quality control with variations in grain pattern and tone.
- Credenza tops have threaded metal inserts at the ends for attachment to credenzas.
- The maximum span of credenza tops is 48". With the addition of an external worksurface support channel the maximum span for credenza tops is 72". Note: The maximum span of standard systems worksurfaces is 60". Grommets on standard systems worksurfaces will interfere with the wire trough on credenzas.



Credenza Top Configurations:

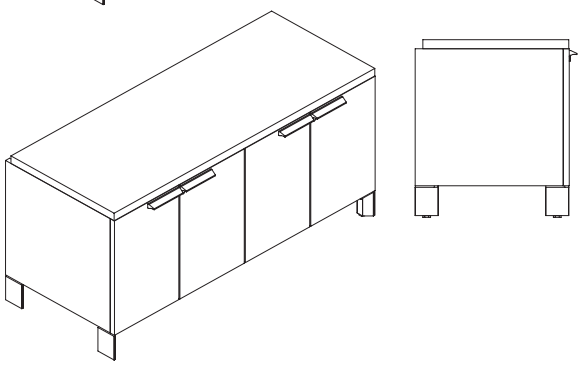
Full Depth Credenza Tops 66"W or greater (pages 218-219)

- Specify when there is no requirement for wire trough accessibility.
- 18"D Top for use on low credenzas.
- 24"D Top for use on high credenzas.



Credenza Tops for Rail (page 218)

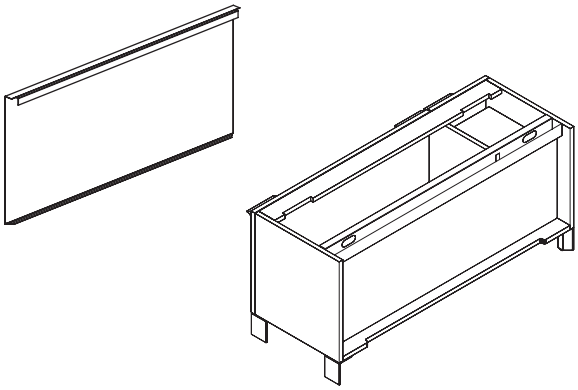
- Provides clearance for mounting credenza rail and access to wire management trough.
- 15"D Top for use on low credenzas.
- 21"D Top for use on high credenzas.
- Veneer tops that accommodate the rail are available through the 9120 Program on page 178.



Credenza Top for Wire Trough (pages 218-219)

- Specify when using credenzas along a powered panel spine or wall if wire management capability is desired.
- 17"D (actual 16½"D) Top for use on low credenzas.
- 23"D (actual 22½"D) Top for use on high credenzas.
- Veneer tops that accommodate wire trough for high credenzas are available through the 9120 Program on page 178.

Credenza Backs

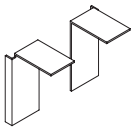


Credenza Backs (page 220)
- Metal credenza backs are optional, and should be specified in single-sided applications where the back side of the credenza will be visible and not using a rail.

Credenza backs can be specified for:
- Low credenza with rail will show an open groove on top cap
- High credenza with rail will show an open groove on top cap
- Low credenza without credenza rail
- High credenza without credenza rail
- Credenza backs cannot be specified with credenzas outfitted with credenza tops for wire trough.
- Credenza backs should be specified to match width of each credenza in the run; backs cannot span multiple credenzas.
- When using credenza back for credenzas with credenza rail, there is an open groove on top cap.
- If working in conjunction with perch cabinet a credenza rail is required for support.

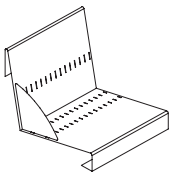
Painted Wood Credenza Accessories

Credenza to Panel Brackets (page 221)
- Attaches credenza to panel run.
- Used to attach credenza to panel frame to provide stability when used with Stride panel frames.
- Handedness is determined by side of credenza that attaches to panel when facing the credenza.
- Back-to-panel bracket kits include left and right brackets.



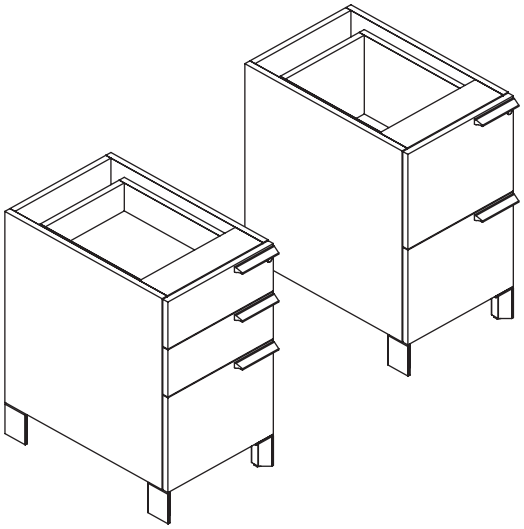
Stability Bracket Kit (page 221)
- Can be used in place of counterweight kit if the freestanding credenza is in front of a panel and one side of the credenza is modular with the panel.

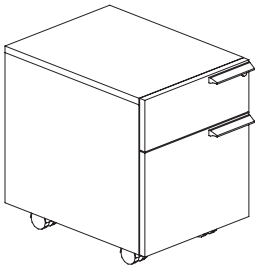
  Note: A credenza is freestanding if it is not ganged to another credenza, is not sharing a credenza top with another credenza, and not attached to a panel. See the Frame & Tile Panel Systems price list pages 128-129 for planning guidelines.



Binder Shelf for Corner Credenzas (page 221)
- Provides easy access and visibility for binders stored in corner bin.

Pedestals





Pedestal Configurations:

- Box/Box/File Support
- File/File Support
- Box/File Mobile
- Pedestals are constructed of ¾" thick powder-coated medium density fiberboard with concealed fasteners.
- All pedestals have asymmetric linear pulls in silver finish. Drawer fronts can be specified with painted wood or veneer. Optional seat cushion can be added.
- Pedestals have one core removable lock.

Pedestals are specified as either left- or right-hand units.

- Handedness is determined by user's side, placing the pull on the side closest to the user. Specify a left unit to be on the user's left side (linear pull will be on the right side of the unit); specify a right unit to be on the user's right side (linear pull will be on the left side of the unit).
- Pedestals come fully assembled with a top and back. Support Pedestals will have pilot holes on the top for mounting under worksurfaces.

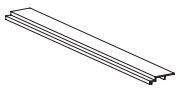
Support Pedestals (page 217)

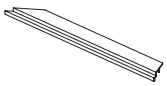
- Support pedestals are 15⅝"W x 24"D x 28"H and are for use under a worksurface or credenza top. Support pedestals have four feet with sleeves to conceal the leveling glides. Bottom trim is standard on all support pedestals.
- Optional side and back trim are aesthetic pieces and are ordered separately and field installed.

Mobile Pedestals (page 217)

- Mobile pedestals are 15⅝"W x 18"D x 20"H, 22" H with optional seat cushion. Mobile pedestals have 4 casters (2 locking). Counterweight kit is included.

Trim for Credenzas, Pedestals, and Towers





Trim for Credenzas, Pedestals, and Towers

Side Trim (page 221)

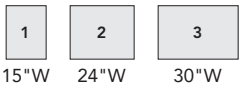
- Side trim is an optional aesthetic piece for credenzas, pedestals, and towers. Used at the end of a run to match standard front bottom trim.

Back Trim (page 221)

- Back trim is an optional aesthetic piece for pedestals and towers. Used to match standard front bottom trim.
- Order to match the width of each component.

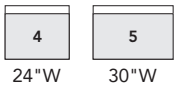
Recommended Seat Cushion Sizes for Mobile Pedestals and Low Credenzas

18"D Cushions for use with Pedestals and Full Depth Credenza Tops



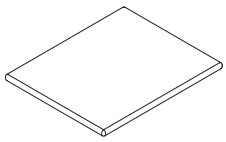
15"W Mobile Pedestal 15"W Cushion	1
24"W Credenza 24"W Cushion	2
30"W Credenza 30"/15"W Cushion	3 or 1
36"W Credenza 15"/24"W Cushion	1 or 2
42"W Credenza 24"W Cushion	2
48"W Credenza 24"W Cushion	2
60"W Credenza 30"W Cushion	3

15"D Cushions for use with Credenza Tops for Rail



24"W Credenza 24"W Cushion	4
30"W Credenza 30"W Cushion	5
36"W Credenza 24"W Cushion	4
42"W Credenza 24"W Cushion	4
48"W Credenza 24"W Cushion	4
60"W Credenza 30"W Cushion	5

Seat Cushions



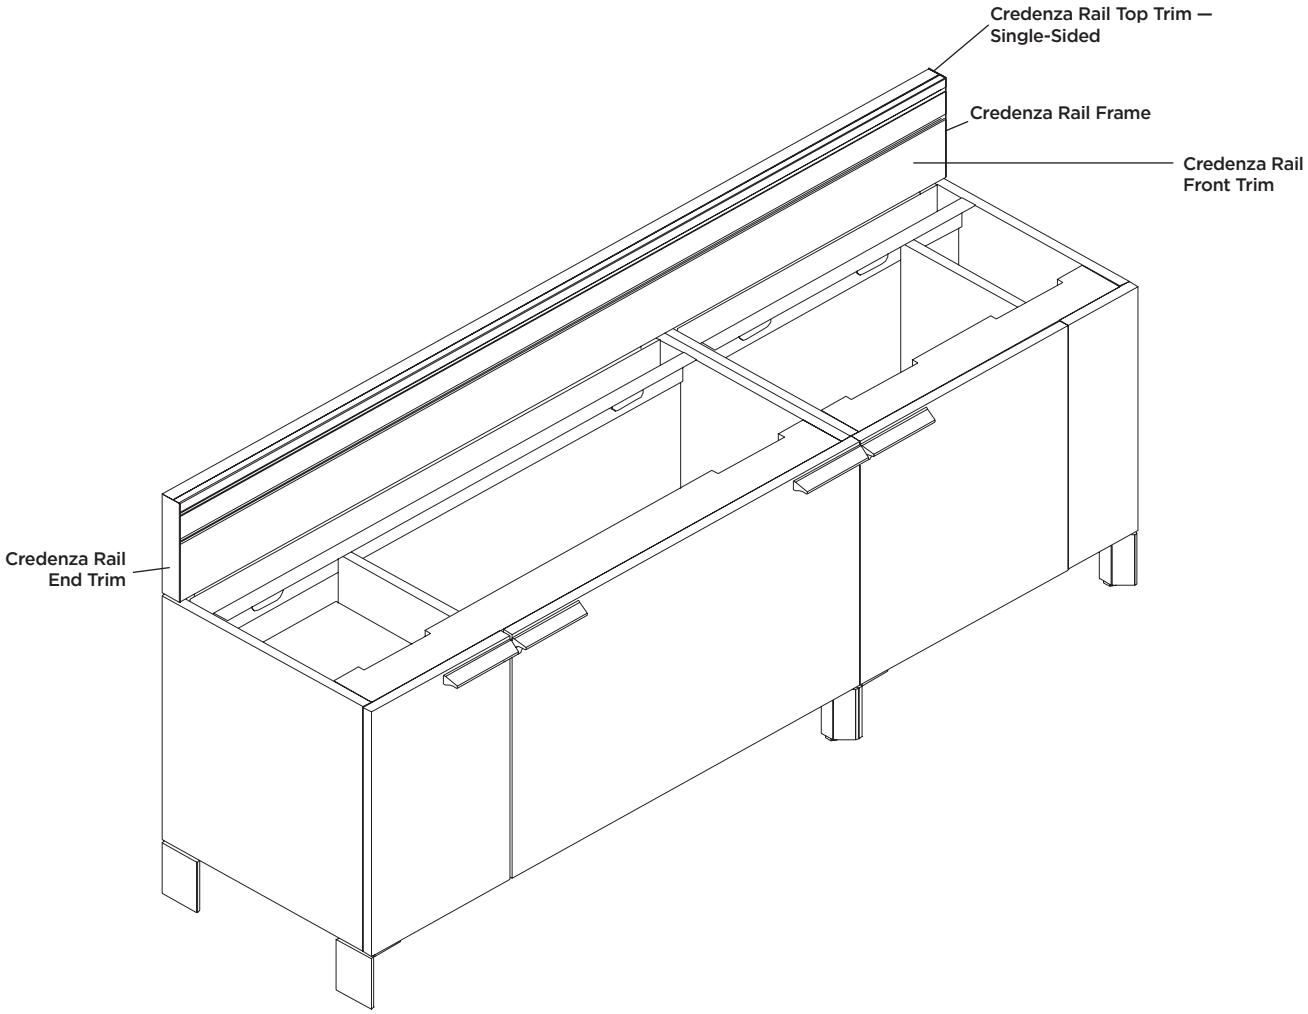
Seat Cushions (page 221)

- Place on top of low credenza tops or mobile pedestal for quick and convenient additional seating.
- For use on low credenzas only.
- Seat cushion must rest on top of credenza top — order separately.
- COM yardage for seat cushion is 1 yard.

*The **credenza rail** is a single-sided 1½" thick frame that can be fitted atop credenza units.*

Credenza Rail (pages 222-223)
- Provides support for perpendicular run-off worksurfaces.
- When used on low credenzas, credenza rail supports a height adjustment range of 27½" to 30½" in 1" increments.
- Channel for power and data.
- Connection point for accessories.
- Will show groove on top of rail if adding a back panel.

Guidelines:
1. The credenza rail may have only one worksurface mounted to each individual rail.
2. The credenza rail can span multiple credenzas, but must stay on-module with credenzas.
3. Credenza rail must be fully supported by a run of credenzas.
4. A worksurface can be mounted off-modular along the rail at four heights — 27½"-30½"H in 1" increments.
5. All components must be specified separately.



Reference Page

All credenza rail components must be ordered separately.

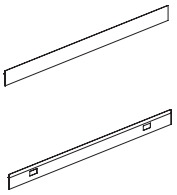
- Credenza rail frame
- Credenza rail front trim
- Credenza rail end trim
- Credenza rail bracket kit
- Credenza rail top trim

Credenza Rail Frame (page 222)

- Available 24"-96" W in 6" increments and can span multiple credenzas. Mounts atop storage credenzas — mounting hardware is included.

Credenza Rail Front Trim (page 222)

- Can be specified ported or non-ported. Ported trim has two openings positioned 6" from the edge and must match the size of the credenza.
- Openings (2.7"W x 1.377"H) must be filled with a duplex receptacle, data port or wire management grommet (TAWG) or there will be visible holes. Non-ported trim is available 24-96"W in 6" increments and can span multiple credenzas.



Credenza Rail End Trim (page 222)

- Specify in an end of run condition to finish an exposed end of the rail. End trim is not required on the end of a credenza rail when adjacent to a tower.

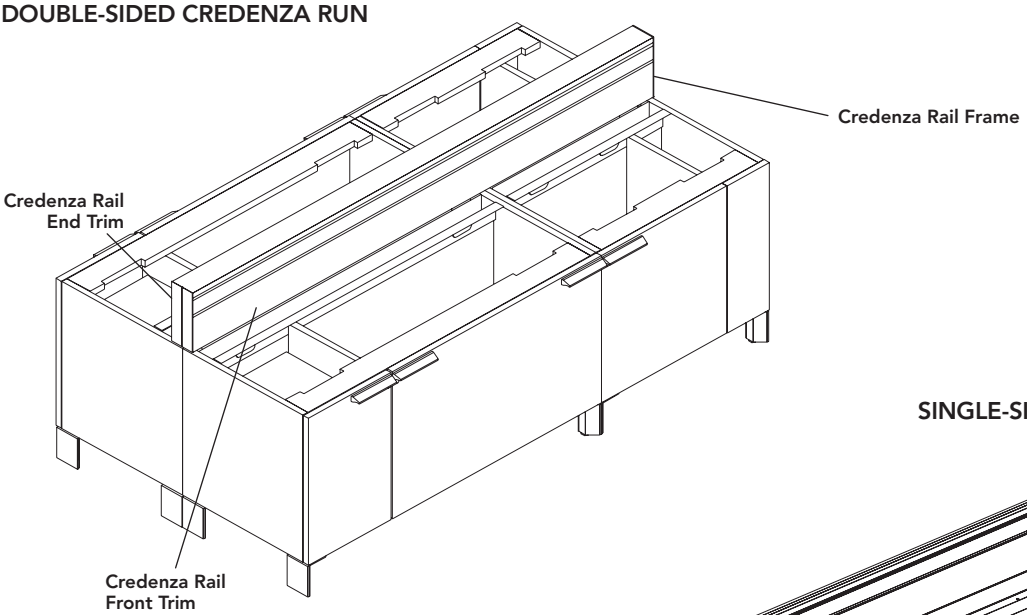
Rail Bracket Kit (page 222)

- Reversible bracket used to mount worksurface on credenza rail.
- Supports height adjustment range from 27½" to 30½".
- Includes two sets of brackets and attachment hardware.

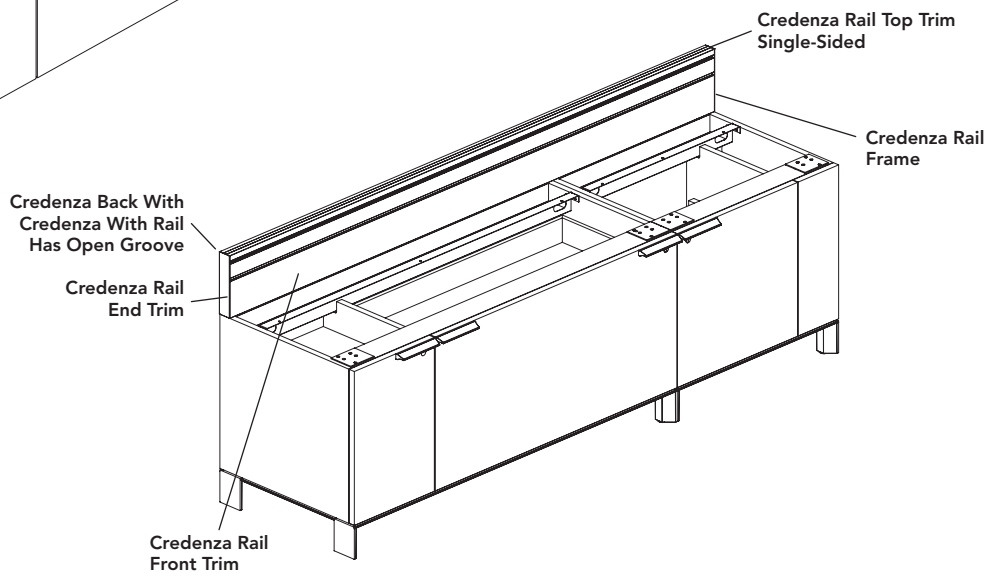
Credenza Rail Top Trim (page 223)

- Available in 24"-96"W in 6" increments and can span multiple credenzas.
- 13"H for overall height of 42½".
- Top trim may be specified off-module to the credenza rail as long as the total length equals the length of the credenza rail frame.

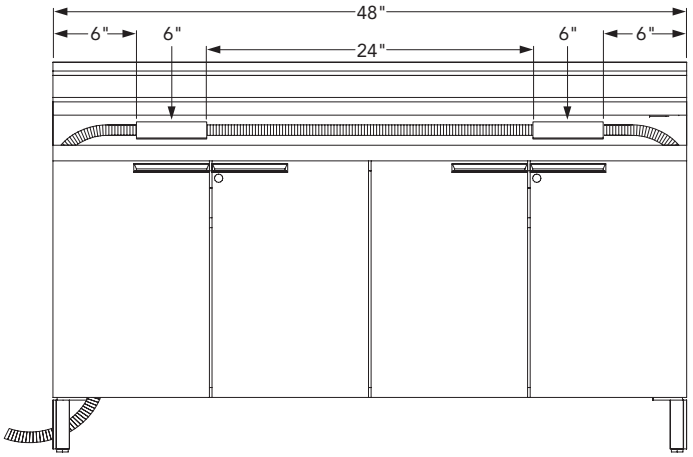
DOUBLE-SIDED CREDENZA RUN



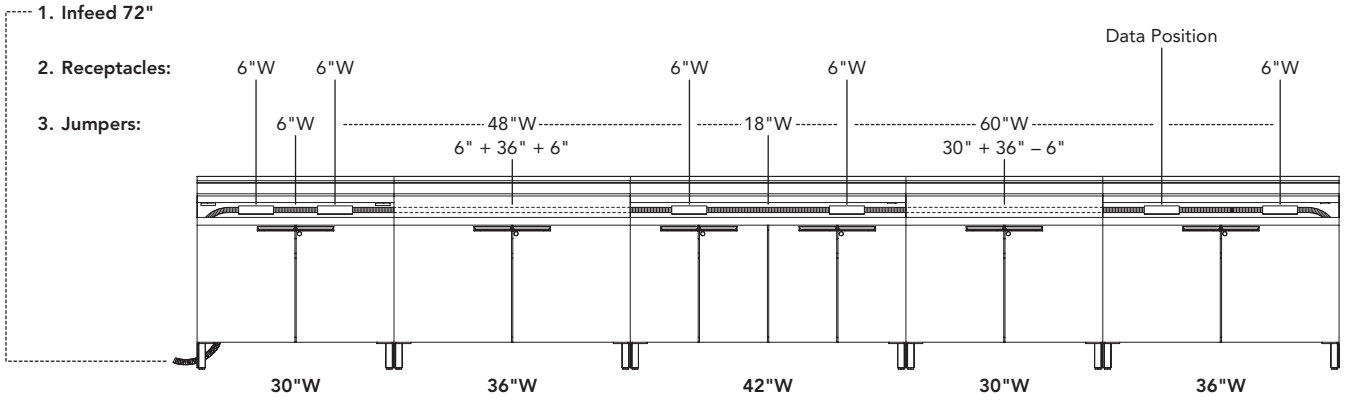
SINGLE-SIDED CREDENZA RUN



STRIDE

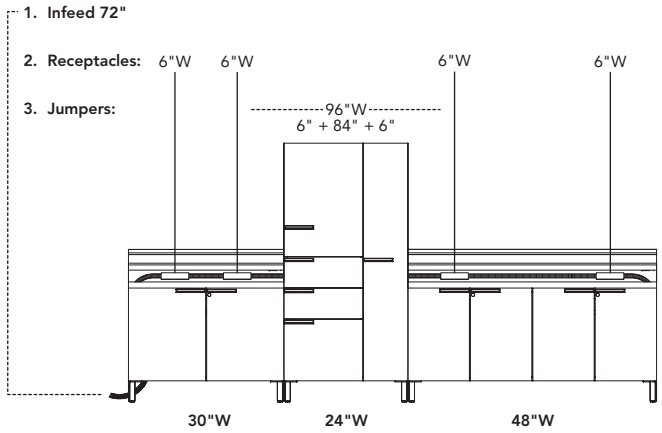


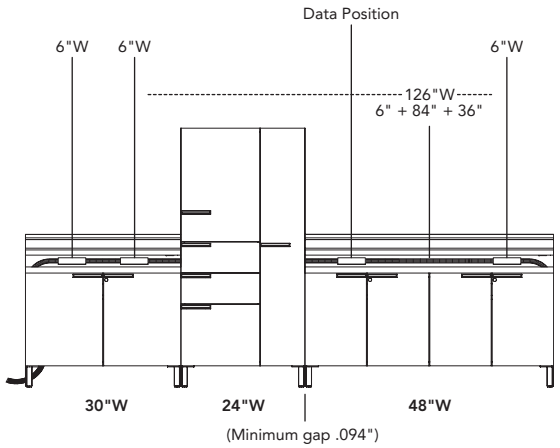
Routing Electrical: Credenzas



Jumper Situation:	Within a credenza	Spanning a credenza	Spanning a credenza with an open position for data.
Formula:	Subtract 24" from width of credenza. 30"W – 24" = 6" Jumper	Add 12" to width of spanned credenza. 36"W + 12" = 48" Jumper	Subtract 6" from total width of middle and end credenzas. (30"W + 36"W) – 6" = 60" Jumper

Routing Electrical: Credenzas with a Tower

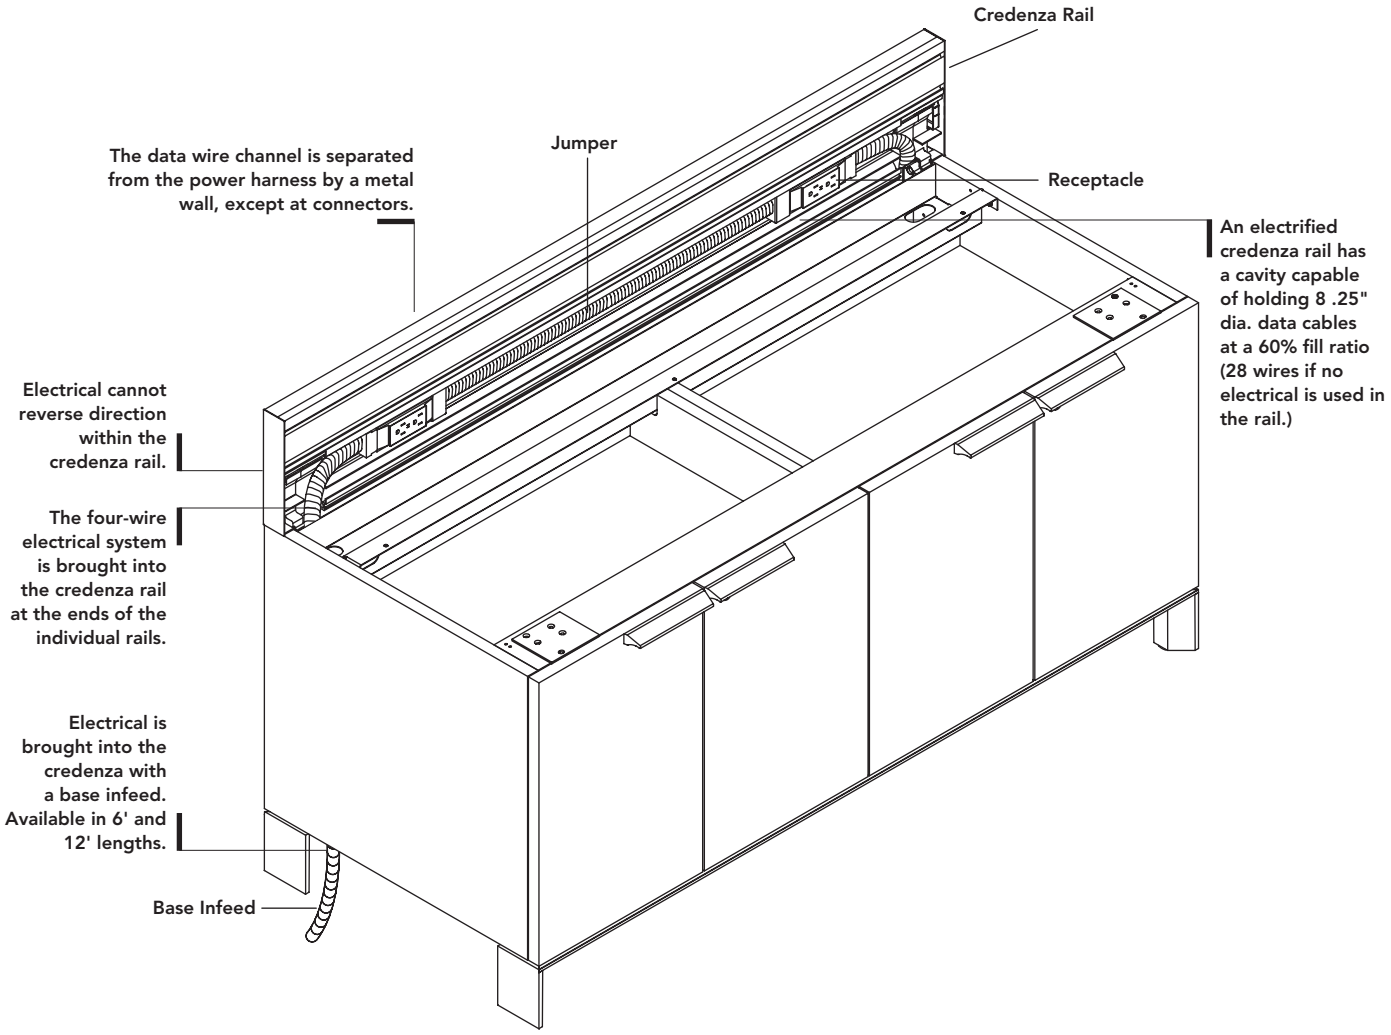




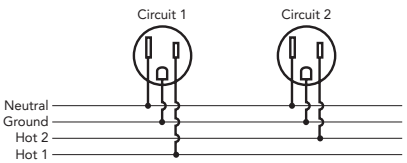
Jumper Situation:	Spanning a tower	Spanning a tower with an open position for data.
Formula:	6" + 84" + 6" = 96" Jumper	6" + 84" + 6" + 6" + 24" = 126" Jumper

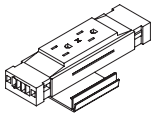
Reference Page

The 4-wire electrical system is a UL183-listed 2 circuit non-dedicated electrical system. The credenza rail supports continuous power and data distribution. With ported trim, the credenza rail provides easy access to power and data. In addition to the standard electrical components, PVC-free components are also available.



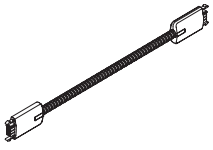
SPECIFICATION INFORMATION





Duplex Receptacle

0"W Desking Power Jumper



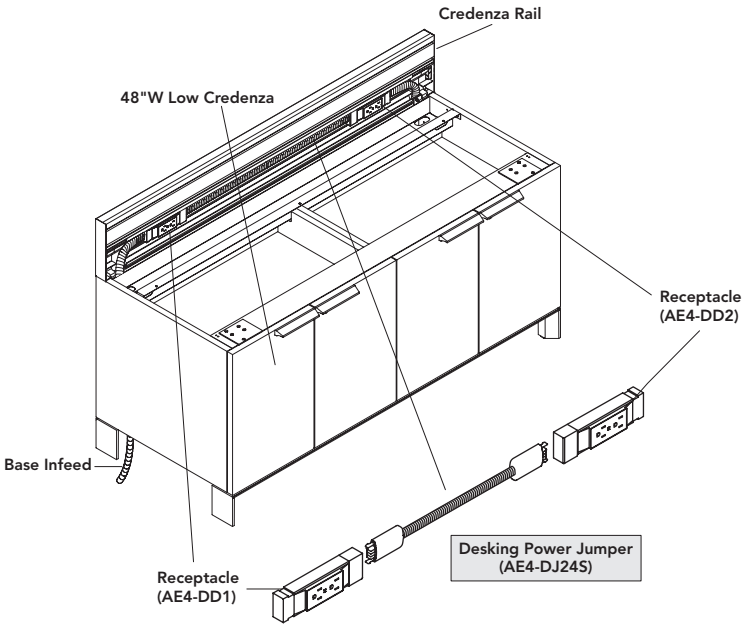
Desking Power Jumper

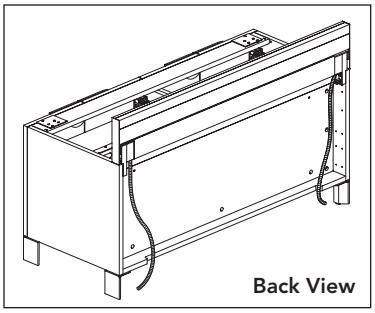
This electrical system has two hot wires, a shared neutral wire, and a shared ground wire. Each circuit is rated at 20 amps. A maximum of 13 duplex receptacles is permitted per circuit. Each receptacle is rated at 15 amps. Consult your electrician to ensure the planned electrical load is within permissible limits.

1. Determine location, quantity, and circuit number for duplex receptacles and power entry.
2. Base electrical infeed delivers power from building to system.
3. Desking power jumpers connect together duplex receptacles or groups of duplex receptacles.

It is the customer's responsibility to ensure that the installation of the electrical components meets all local and national building codes and all other applicable regulations.

A. Routing Electrical: Within Credenza

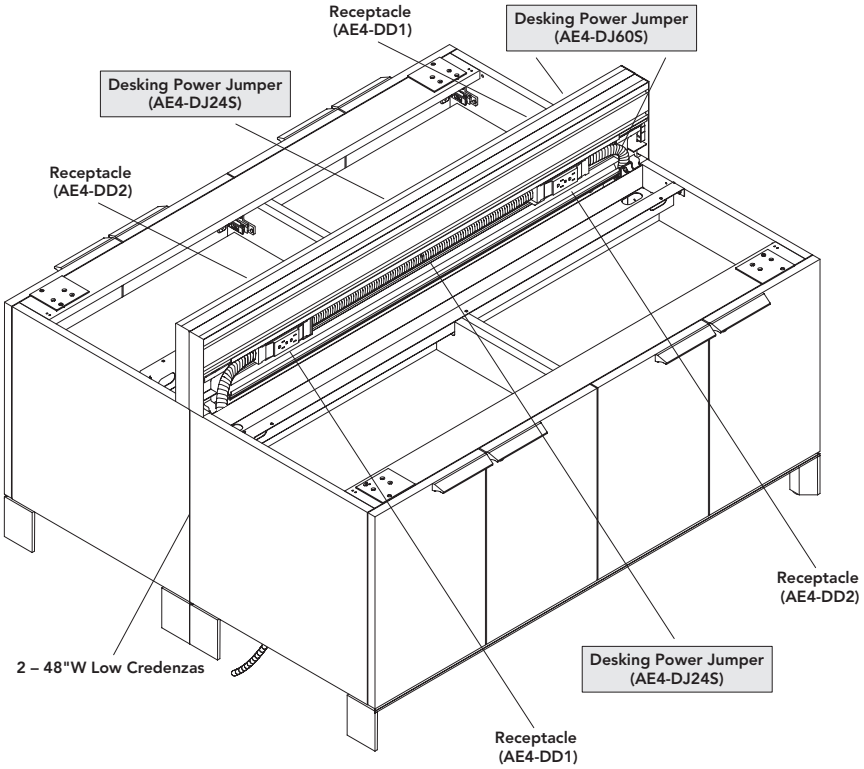




Credenza Width	Jumper Size	Jumper Model
24"	0"	AE4-DJ0S
30"	6"	AE4-DJ6S
36"	12"	AE4-DJ12S
42"	18"	AE4-DJ18S
48"	24"	AE4-DJ24S
60"	36"	AE4-DJ36S

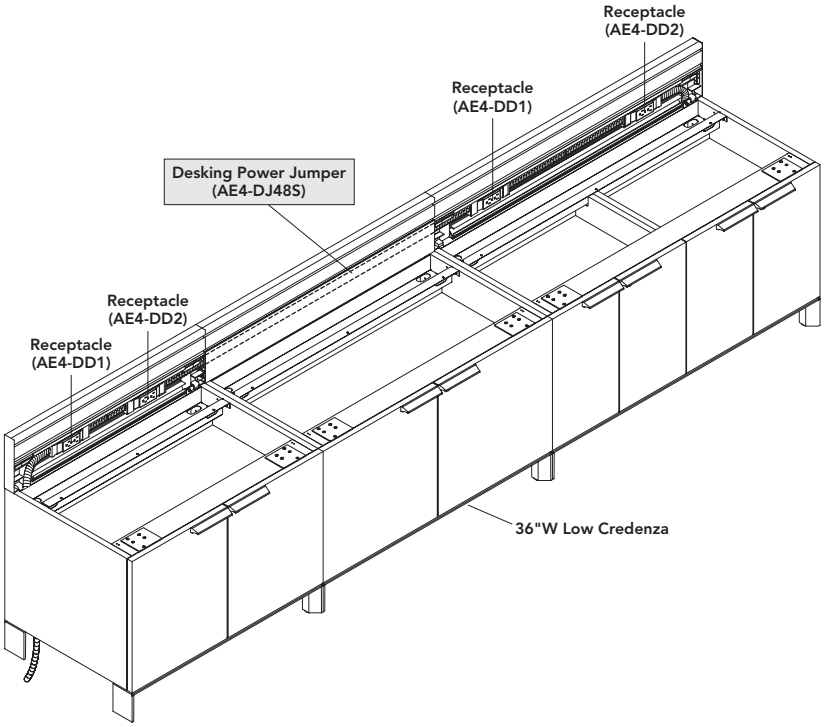
B. Routing Electrical: Within Credenza Back-to-Back

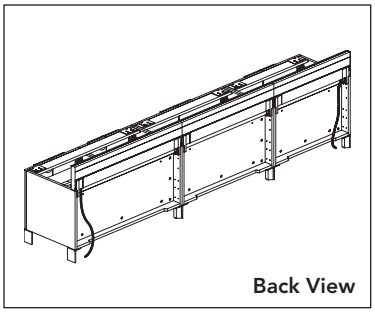
All electrical components must be duplicated in a back-to-back situation. The credenza rail provides power to only one side of the credenza.



When routing from the front side to the back side in back-to-back credenzas use a 60" desking power jumper.

C. Routing Electrical: Spanning a Credenza





Credenza Width	Jumper Size	Jumper Model
0"	12"	AE4-DJ12S
24"	36"	AE4-DJ36S
30"	42"	AE4-DJ42S

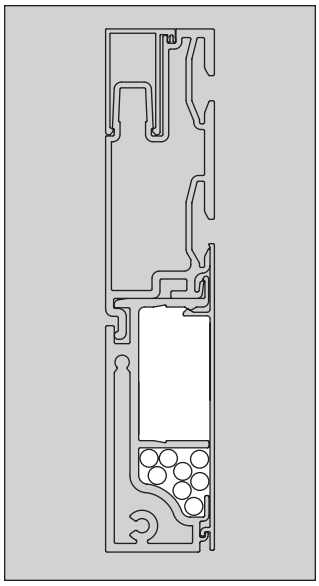
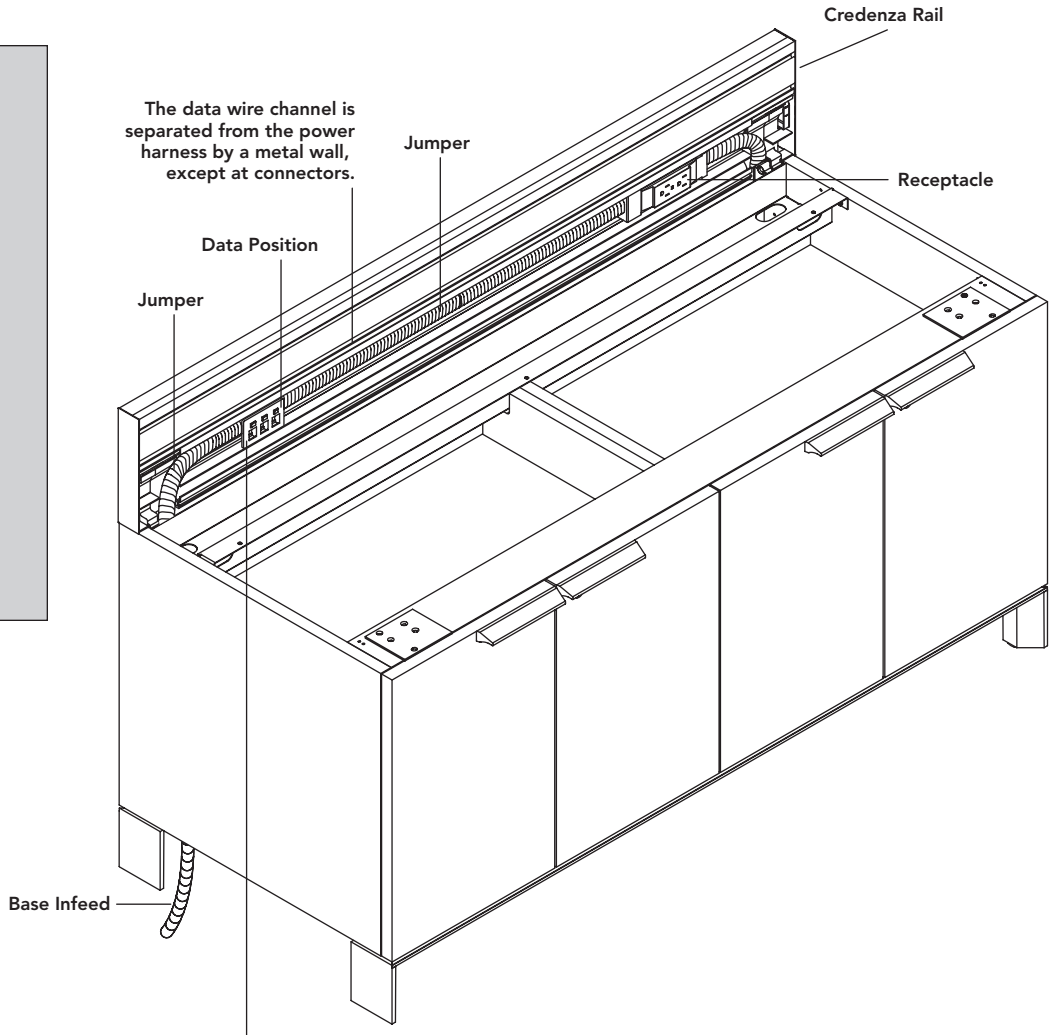
Wood Storage

Reference Page

An electrified credenza rail has a cavity capable of holding 8 .25" dia. cables at 60% fill ratio (28 wires if no electrical is used in the rail).

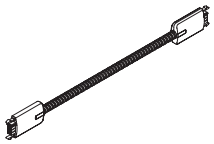




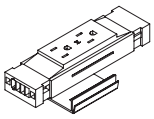
AMP data faceplates (models ATADF3 and ATADF4) and a jack (model ATADJ5) can also be used. An AMP data port extender is needed to install the data faceplate and jack in the credenza rail. The following data port extenders can be ordered from AMP: 1933468-1 (Black), 1993468-2 (Light Almond), and 1933468-4 (Nema Gray).

Reference Page

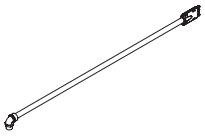
4-Wire Electrical Components for Stride Credenzas



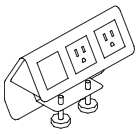
Desking Power Jumpers (page 224)
- UL-listed 4-wire electrical system.
- Ability to conceal power and data receptacles below primary worksurface.
- PVC-free electrical components available.
- Mounting brackets included.
- Cannot reverse direction within credenza rail.
- Length of 4-wire jumper needs to match distance between receptacles as there is not room to loop additional cable.



Duplex Receptacles (page 224)
- 4-wire receptacles are ordered separately for circuit 1 or 2 and are only available in ES Silver.
- 4-wire Infeed cable or jumper plug directly into each end of a 4-wire duplex receptacle.
- 4-wire receptacle adds 6" to length of electrical run.



Base Electrical Infeed Cable (page 224)
- Feed in from floor.
- UL183 listed to be exposed.
- 4-wire infeed can enter from the end of a credenza rail only.
- Credenzas ship with clips under the case for holding infeed off the floor.
- Select quantity of infeed cables depending on individual power requirements.



Worksurface Power/Data Module (page 224)
- Provides easy access to technology at primary worksurface.
- Mounts to edge of a worksurface and requires ⅜" gap. Consider whether ⅜" gap will work with layout.
- Must be mounted at time of initial worksurface installation if mounting between a worksurface and a panel. Maintaining a ⅜" gap may not be possible with worksurfaces that are panel wrapped.

Wood Storage

Reference Page

Configurations
Towers are available in three heights: 42½", 50", and 65"H. Configurations include box/box/file, file/file, file with project drawer. 50" and 65"H towers are available with side access and Landscape™ surface sidelight.

Combination File
Combination files are 65"H and are available either 18"D or 24"D. They can either be specified with a 2 drawer lateral or lateral with a project drawer.

Aesthetic Alignment
Drawer configuration matches across Stride painted wood storage offering and tower heights align with Stride panel segmentation. Towers feature a bottom aesthetic trim piece that provides protection for the bottom edge for the tower.

Painted Wood Construction
¾" thick powder-coated medium density fiberboard with concealed fastener construction.

Veneer Fronts
Optional veneer fronts available. Stratawood veneer has a consistent straight-grain pattern. Natural veneer features variations in grain pattern and tone.

Footed Base
All towers have a metal footed base with concealed leveling glides. Feet on wood storage match style of Stride footed panels.

Four Hex-head Leveling Glides
The hex-head design of the stem allows leveling to be done even when the tower is fully loaded. Range is 1⅛".

Linear Pull Style
Elegant asymmetric pull style matches across wood storage offering.

Suspension
Heavy-duty ball bearing slides.

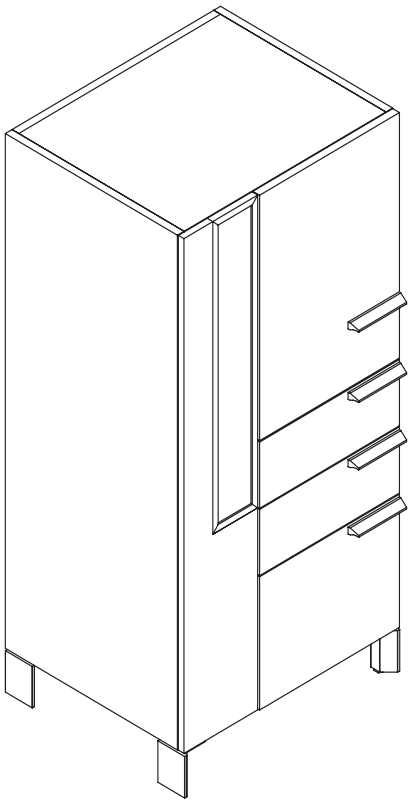
European Hinges
Wardrobe and cabinet door both feature European-style hinged door.

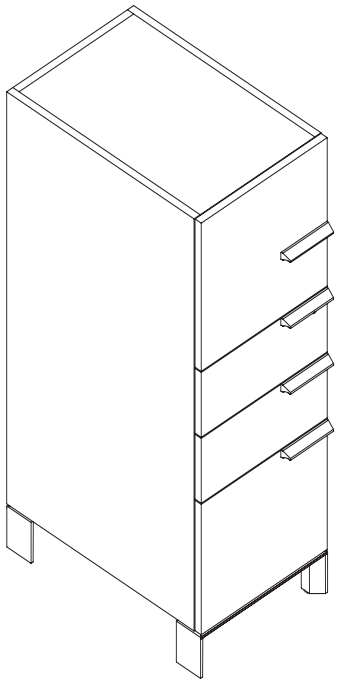
Filing
File drawers can accommodate front-to-back letter filing.

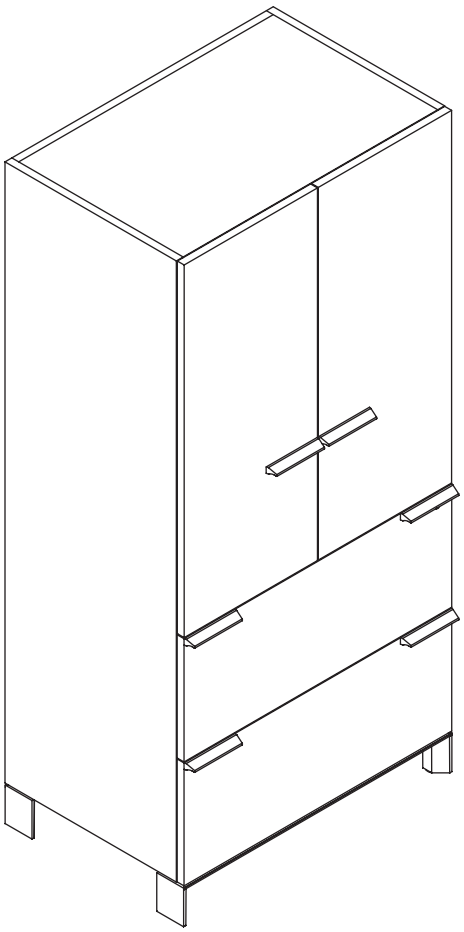
Shelves
Shelves in the cabinet door are adjustable in 2" increments. Shelves in side-access towers are fixed.

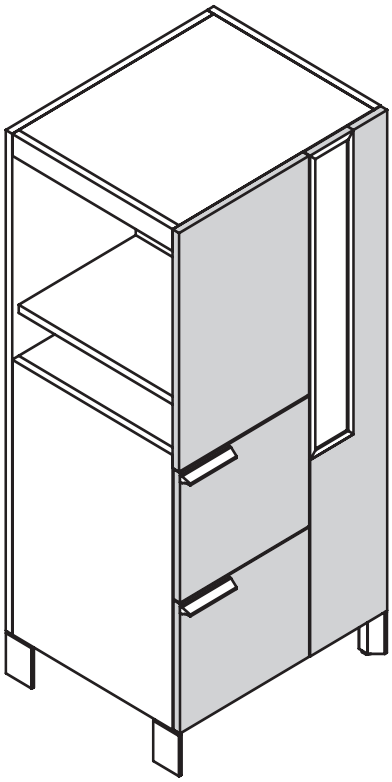
Wardrobe Door
All 24"W towers have wardrobe doors. 24"D with a coat rod; 18"D with a coat hook.

Lock Cores
Towers can be shipped with lock cores removed; cores can then be installed after towers are placed. Core removable lock feature allows key numbers to be easily changed in the field. It also facilitates installation.



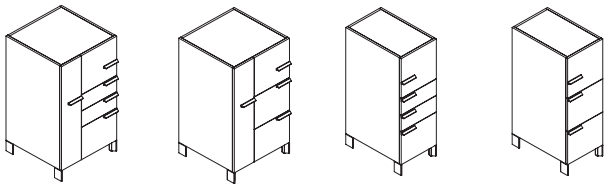




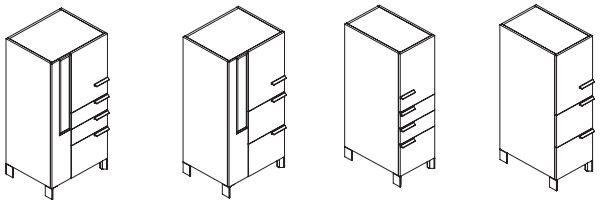


Reference Page

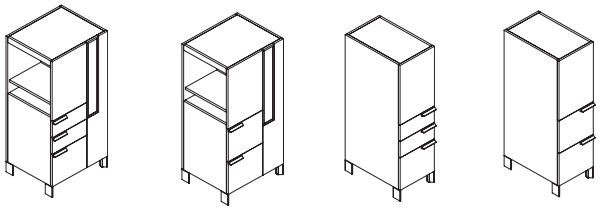
42½"H Personal Towers



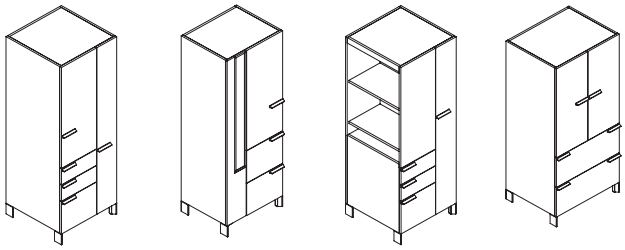
50"H Personal Towers



50"H Personal Side Access Towers



65"H Personal Towers, Side Access Towers, and Combination Files



Landscape™ Surface Sidelight
Optional Landscape surface sidelight ships installed in tower wardrobe door, available in the following materials:

- ***Foundation™***
  Fabric laminated between recyclable PETG resin sheets.
  Available in two finish options: Sand and Pure White.
- ***Quattro***
  Fabric encapsulated between recyclable PETG resin sheets.
  Available in finish option Platinum.

Painted Wood Towers and Combination Files

Personal Towers
- 18"D towers match the depth of low credenzas.
- 24"D towers match the depth of high credenzas.
- 24"W towers have a 7½"W wardrobe door. 24"D with a coat rod; 18"D with a coat hook.
- Towers feature Silver linear pulls.
- Locks — 24"W towers with sidelight, 15⅝"W towers and combination files have one lock to secure drawers. All other towers have two locks. One secures the wardrobe door and the other secures all drawers. Cabinet doors do not lock.

42½"H Personal Towers (page 225)
- 15⅝"W towers must be attached to a worksurface or a credenza top.
- Actual tower height is 37½" with a 5"H footed base. The feet are located at the outside corners of the tower.

50"H Personal Towers (page 225)
- Actual tower height is 45" with a 5"H footed base. The feet are located at the outside corners of the tower.
- 15⅝"W towers and 24"W towers with sidelight have one lock. All other 24"W towers have two independent locks.
- Back and side trim can be ordered separately to match standard front bottom trim.
- Shelves inside the cabinet door are height adjustable in 2" increments.

50"H Personal Side Access Towers (page 226)
- 15⅝"W towers must be attached to a worksurface or a credenza top.
- Actual tower height is 45" with a 5"H footed base. The feet are located at the outside corners of the tower.
- Shelves are fixed and not removable in side access personal towers.
- Back and side trim can be ordered separately to match standard front bottom trim.

65"H Personal Towers (page 227)
- Actual tower height is 60" with a 5"H footed base. The feet are located at the outside corners of the tower.
- 24"W towers with sidelight have one lock. All other 24"W towers have two independent locks.
- Back and side trim can be ordered separately to match standard front bottom trim.
- Cabinet door on 65"H towers has two shelves, adjustable in 2" increments.

65"H Personal Side Access Towers (page 227)
- Actual tower height is 60" with a 5"H footed base. The feet are located at the outside corners of the tower.
- Shelves are fixed and not removable in side access towers.
- Back and side trim can be ordered separately to match standard front bottom trim.

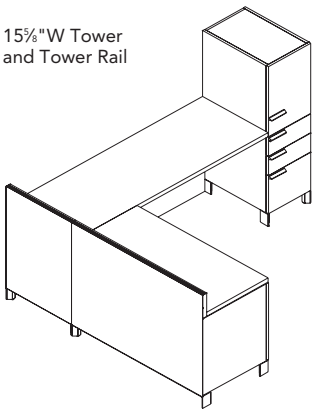
65"H Combination Files (page 228)
- 18"D combination files match the depth of low credenzas.
- 24"D combination files match the depth of high credenzas.
- Combination files feature Silver linear pulls.
- Actual combination file height is 60" with a 5"H footed base. The feet are located at the outside corners of the combination file.
- Each combination file has two shelves, adjustable in 2" increments.
- Combination files have one lock.
- Veneer models with veneer fronts by Gunlocke®.
- Stratawood veneer has a consistent straight-grain pattern.
- Natural veneer will have cathedrals and as a natural material is subject to nature's quality control with variations in grain pattern and tone.

Painted Wood Towers and Combination File Accessories

Worksurface Supports
Tower has pre-drilled pilot holes on pull side of cabinet to accommodate addition of the "L" tower bracket and tower rail.

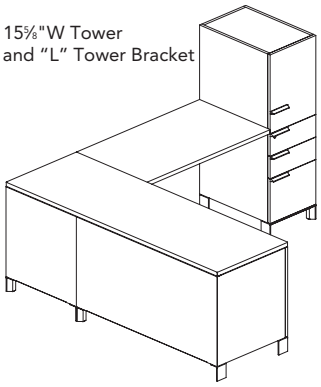
Tower Rail - A tower rail can be ordered separately and fitted to any tower to support worksurfaces at a height range of 27½"H to 30½"H.

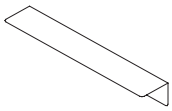
15⅝"W Tower and Tower Rail

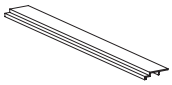


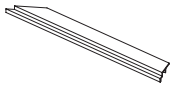
"L" Tower Bracket - An "L" tower bracket can be ordered separately and fitted to any tower to support worksurfaces at 29½"H.

15⅝"W Tower and "L" Tower Bracket









Tower Rail (page 229)
- The tower rail mounts to the user side of personal towers and is used to attach worksurfaces at a height range of 27½"H to 30½"H.
- Attaches using pre-drilled holes inside the tower.
- Requires rail bracket kit for worksurface — order separately.

Rail Bracket Kit for Worksurface (page 229)
- Engages into tower rail and is used to attach worksurfaces at height range of 27½"H to 30½"H.

"L" Tower Bracket (page 229)
- Used to support a worksurface at 29½"H.
- Attaches using pre-drilled holes inside the tower.
- Can be attached to 18"D or 24"D towers.
- When using the "L" tower bracket, the depth of the worksurface and tower should be equal.
  18"D worksurface — 18"D tower
  24"D worksurface — 24"D tower
- "L" tower bracket is for use with laminate and painted wood storage only.

Side Trim for Credenzas, Pedestals, and Towers (page 229)
- Side trim is an optional aesthetic piece for credenzas, pedestals, and towers. Used at the end of a run to match standard front bottom trim.

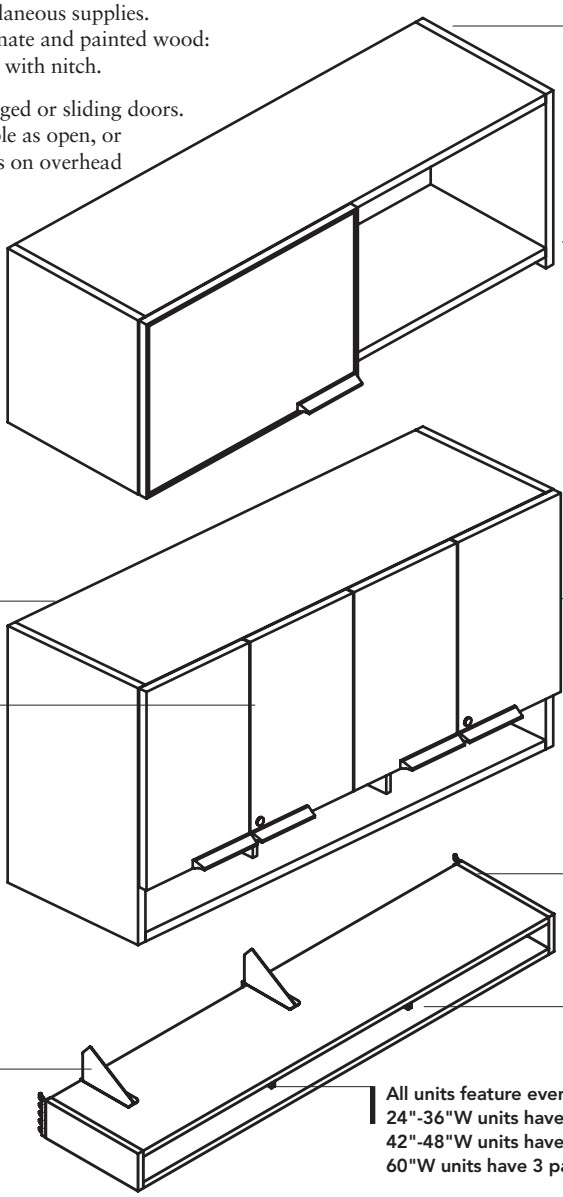
Back Trim for Pedestals and Towers (page 229)
- Back trim is an optional aesthetic piece for pedestals and towers used to match standard front bottom trim.
- Order to match with each individual component.

Wood Storage

Reference Page

Overhead storage components maximize the use of space in the workstation and also provide convenient access to binders, reference materials, software packages, and miscellaneous supplies. There are three options available in laminate and painted wood: overhead, overhead with nitch, and shelf with nitch.

Overhead cabinets are available with hinged or sliding doors. Overhead cabinets with nitch are available as open, or with hinged or sliding doors. Door fronts on overhead storage are available in painted wood, Landscape™ surface material, or veneer.



Overhead storage cabinets can be positioned vertically in 1" increments.

When panel mounting, width of overhead must correspond to width of panel or panels joined without a connector.

Cabinets can be panel-mounted or wall-mounted with horizontal wall mount brackets but cannot be upmounted.

Fully enclosed backs on all units

When panel-mounted, overhead storage cabinets can be positioned vertically in 1" increments.

Core removable locks allow ability to key alike. Omit lock core option available.

Locking Clip feature secures storage cabinets to panel.

Shelf with nitch can be panel or wall-mounted. Wall mounting requires 16"W wall studs.

3⅞"H opening to provide paper management organization.

Two infinitely adjustable dividers allow user to determine configuration.

All units feature evenly spaced partitions.
24"-36"W units have 1 partition;
42"-48"W units have 2 partitions;
60"W units have 3 partitions.

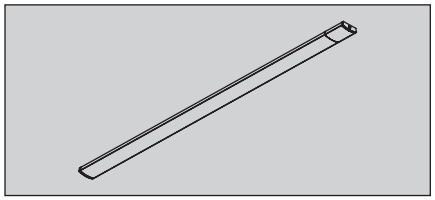
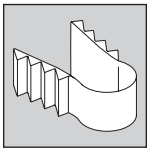
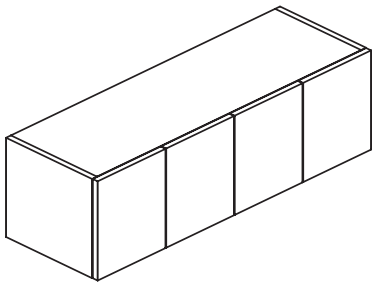
Cabinet Inside height 13⅞"
Nitch Inside height 3⅞"

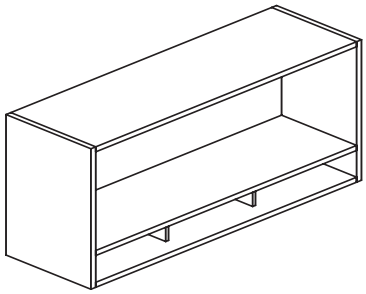
LED undercabinet light can be mounted beneath laminate or painted wood overhead cabinets for a low profile lighting option. (Do not use recessed tasklights with painted wood storage.)

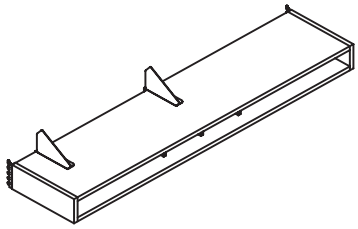


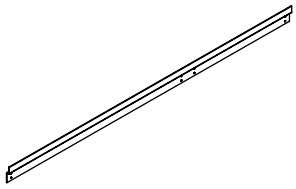
Cord retainer clips fasten into panel slots to anchor power cords. Available in black only. Three clips ship with each LED undercabinet light.

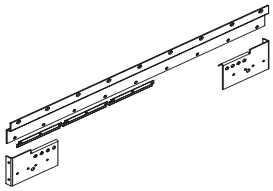


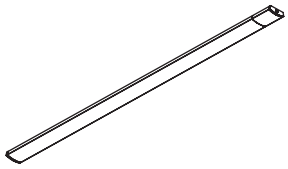


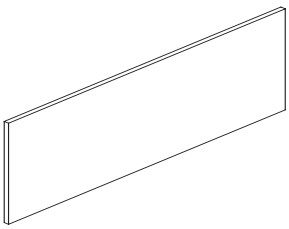


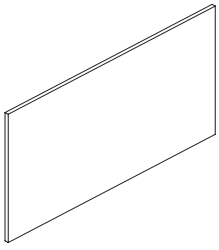












Painted Wood Overheads

Overhead Cabinets (pages 230-231)
- 24"-36"W hinged door cabinets have 2 doors with one lock on the front of the cabinet; 42"-60"W have 4 doors with 2 independent locks on the front of cabinet.
- Overhead cabinets have Silver linear pulls.
- 42"W-60"W overhead cabinets have a center security septum.
- Sliding door overheads have one door with one lock that can only be locked when the door is in the left-hand position.
- Overhead cabinets feature self-engaging safety latch to secure the cabinet to panel.
- Specify low profile LED tasklights.
- Width can correspond with the width of a panel or panel joined without a connector.
- Attachment hardware included for panel-mounting. Cannot be upmounted.
- Order horizontal wall-mount brackets separately. Add for wall-mounted application.
- For locking specification see pages 342-343.
- Overhead cabinets with nitch feature a paper management shelf with a 3⅞"H opening.
- Painted wood case with veneer doors by Gunlocke®.
- Stratawood veneer has a consistent straight-grain pattern.
- Natural veneer will have cathedrals and as a natural material is subject to nature's quality control with variations in grain pattern and tone.

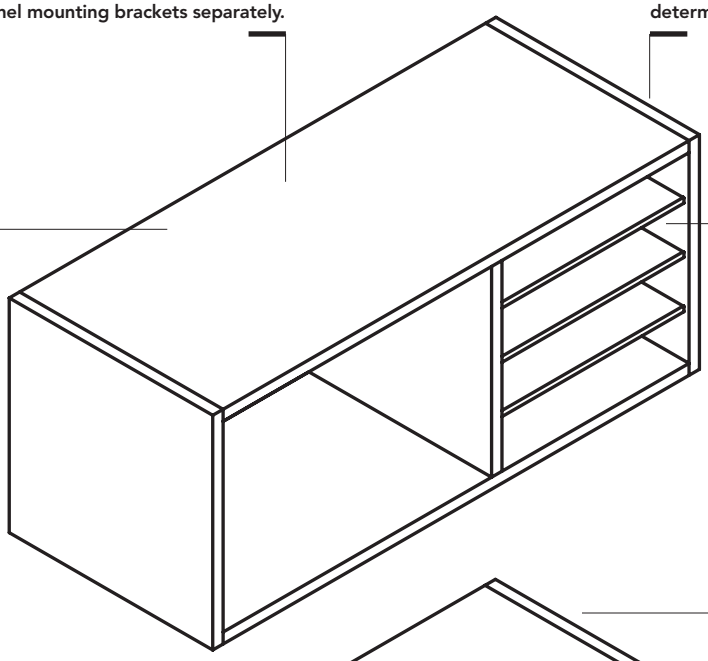
Shelf with Nitch (page 230)
- Painted wood.
- Paper management shelf with a 3½"H opening.
- Ships with attachment hardware for panel-mounting applications.
- Order horizontal wall-mount brackets separately. Add for wall-mounted application, requires 16"W wall studs..
- Shelf with nitch has two metal shelf dividers on top that are infinitely adjustable and removable.

Horizontal Wall-Mount Brackets (page 232)
- Use to attach an overhead directly to wall.
- Attachment hardware not included.

Undercabinet LED Light (page 232)
- Low profile energy-efficient LED tasklight for use with overhead storage cabinets.
- 15W power supply (0.125 amp).
- 3500K color temperature.
- 95 footcandles at 18".
- Magnetic or screw-mount option — attachment hardware included.
- Power drive is attached to plug: allow 1⅞"D space at outlet.
- Includes 3 cord retainer clips.
- For daisy chain capabilities and additional information see page 332.

Tackboards (page 232)
- 15"H tackboards are designed to work with overheads with nitch.
- 20"H tackboards are designed to work with overheads without nitch.
- Wall-mounted tackboards come with brackets to mount to wall. Does not require wall track.

Reference Page

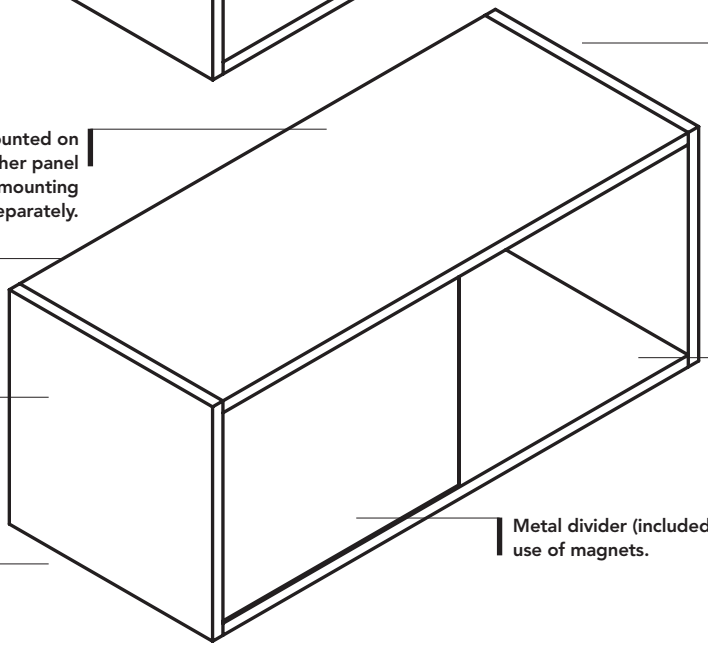


Full-depth horizontal storage can be panel-mounted or hung below the worksurface. Worksurface attachment hardware included. Specify panel mounting brackets separately.

24"W and 36"W units are available left- or right-handed. The side with shelves determines the handedness.

When panel-mounting cabinet must be same width as panel, or panels joined without a connector.

Cabinet is open with removable shelves. 24"W and 36"W cabinets have three shelves and must be specified left or right handed; 30"W cabinets have three shelves that can be positioned on either side; 42"W, 48"W, and 60"W units have six shelves, three on each side.



Shared cabinet splits access between the front and back.

Shared horizontal storage can be mounted on a panel or credenza rail. Specify either panel mounting bracket or credenza rail mounting bracket kits separately.

When mounting on credenza rail, must be mounted on two back-to-back rails.

When panel-mounting, cabinet must be same width as panel, or panels joined without a connector.

When mounted on credenza rail the cabinet can be mounted on or off-module.

Available left or right handed. The open side of the cabinet determines the handedness.

Metal divider (included) allows use of magnets.

Height	15"
Inside height	13½"

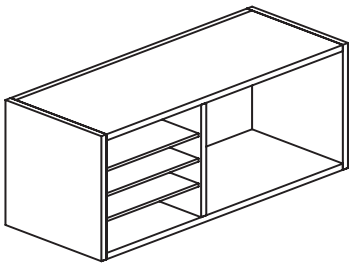
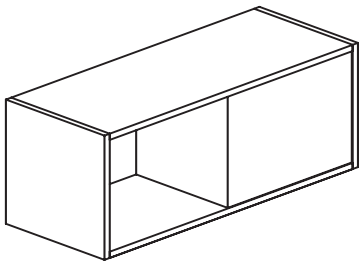
Reference Page

Painted Wood Horizontal Storage & Perch Cabinets



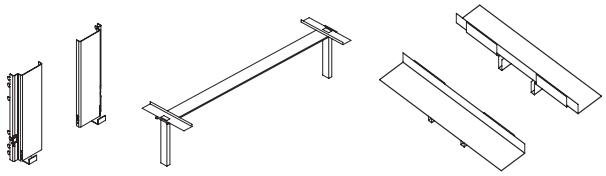
Full Depth Horizontal Storage (page 233)

- Can be panel-mounted with panel mounting kit ZHFPMK specified separately. The width of the unit must match the width of the panels.
- If horizontal storage is mounted under a panel-mounted worksurface, it must be undersized to accommodate supports.
- With overhead storage, floor support is needed within 24" of each side of the horizontal storage cabinet.
- Horizontal storage can be supported using a floor support when overhead storage is not being utilized. The floor support needs to be within 24" of the unit on one side and a cantilever on the opposite side. The cantilever must be within 6" of the horizontal storage, and no more than 48" from the floor support.
- If a 9120 worksurface is used it must have an external worksurface support channel installed and must be a minimum of 24"D to provide clearance for mounting hardware. For worksurfaces less than 24"D a special worksurface with an internal stiffener must be ordered.
- Hardware for wall-mounting is not included.
- Removable shelves included.
- 24"W-36"W units have 3 metal shelves. 42"W-60"W units have a total of six shelves (three on each side.)



Shared Horizontal Storage (page 233)

- Can be mounted atop panels or credenza rails. When mounting on credenza rails, it must be mounted on two back-to-back credenza rails. Mounting hardware ordered separately.
- For panel mounting specify panel mounting kit model ZHSPMKXX.
- For rail mounting specify model ZHSRMK.
- Splits the access between front and back.
- Includes a metal divider which provides a magnetic surface.
- Metal divider can be specified in markerboard paint MKP.
- When panel-mounting, width of unit must match width of panel.
- Cannot be mounted on panels taller than 50".



Horizontal Storage Mounting Kits (page 233)

- Unique mounting kits for: full depth horizontal, shared horizontal based on panel width, and credenza rail mount

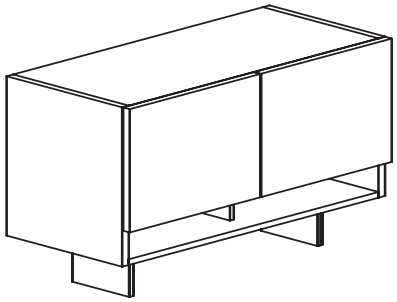
Reference Page



Perch Cabinets (page 234)

- Perch cabinets are attached to the credenza rail.
- Ships with rail attachment bracket and two vertical uprights that rest on on the credenza top.
- Painted wood and veneer front perch cabinets feature Silver linear pulls. Landscape™ front perch cabinets have no pulls.
- The back of the perch cabinet is flush with the back of the credenza rail.
- The credenza rail must have a top trim piece installed where the perch cabinet is installed.
- All perch cabinets are non-locking.

For specification information see pages 186-198.

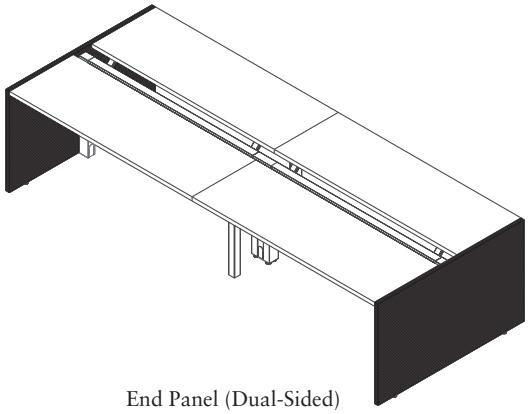
Forest Stewardship Council (FSC) is a non-profit organization devoted to encouraging the responsible management of the world's forests. FSC sets high standards that ensure forestry is practiced in an environmentally responsible, socially beneficial, and economically viable way. Allsteel received its FSC Chain of Custody certification in 2010 and can offer FSC Certified products. Select wood-based products can be ordered as FSC certified, either by choosing the FSC option or selecting an FSC laminate or veneer finish at the time of order. For more information, please contact Customer Support at 888-255-7833. (FSC Trademark license code: FSC-CO14704.)

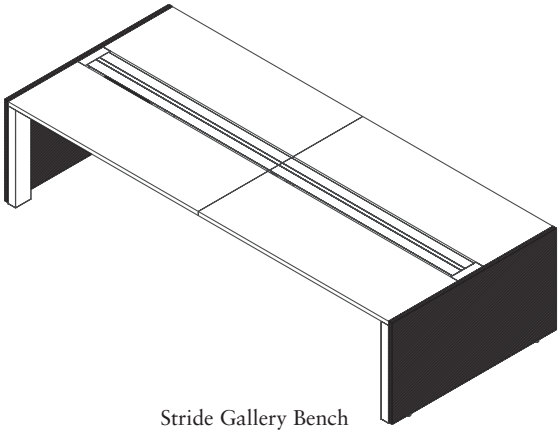
NOTE: Refer to individual product pages for upcharges.

Gallery Panels

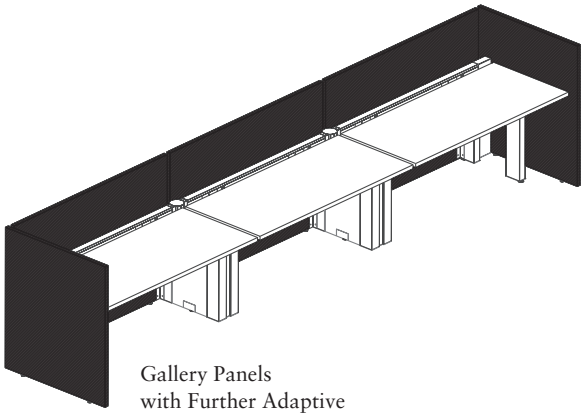
Gallery Panels are ideal for bringing natural wood elements to workstations and providing privacy. Allsteel Gallery Panels are designed to work universally across 4 product platforms. Please follow the product guidelines for proper specification.



End Panel (Dual-Sided)



Stride Gallery Bench



Gallery Panels
with Further Adaptive

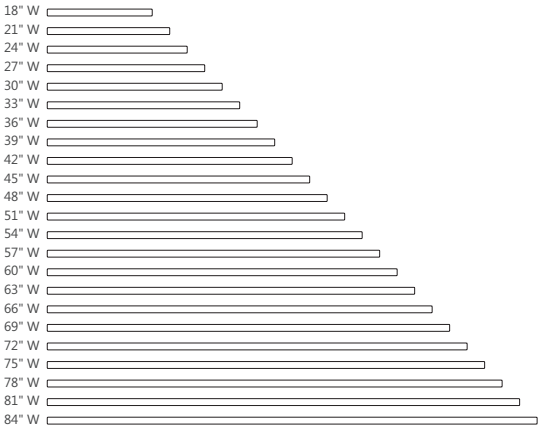
Gallery Panels

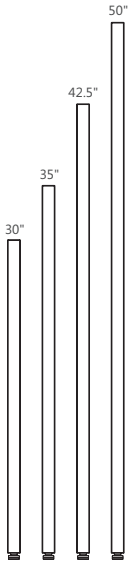
Basic Characteristics

- Available in End configuration.
- Made of 1⅛" board with HPL laminate.
- Use 1⅛" thickness for space planning.
- Can be specified with matching or contrasting edge.
- Edge band is 2mm ABS.
- Available in woodgrain and solid laminates.
- Horizontal laminate available on all sizes. Vertical laminate is available on widths 18"W to 60"W, and 87"W to 117"W.
- Widths are available in 3" increments from 33"W to 87"W.
- Sizes up to 84"W come as a single piece. Sizes 87"W though 147"W are split panels and come in two-pieces.
- Standard benching Gallery Panels are specified in single-piece panels. Contact Allsteel Tailored Products Group for split panels.
- Grain matching is not available on split panels.
- Gallery Panels offer 2½" leveling capability.
- Overall heights line up with adjacent panel or benching systems.
- Gallery Panel widths are true to size.
- Available with and without the integrated glass option.
- Glass is specified separately.
- Gallery Panels for use with glass have separate model numbers.
- Can be used with Single Sided Further adaptive for privacy and stability along the beam.
- All configurations are non-handed and secured using hidden fasteners.
- Please adhere to all standard systems specification guidelines.
- Gallery Panels are constructed of laminated particle board. Because of their nature, such components have a tendency to bow due to humidity and changes in climate.

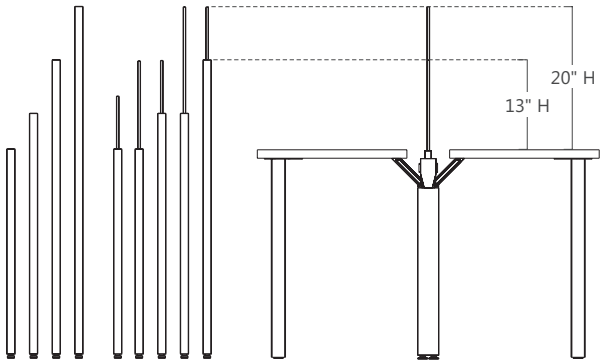
Gallery Panels

Gallery Panel Widths



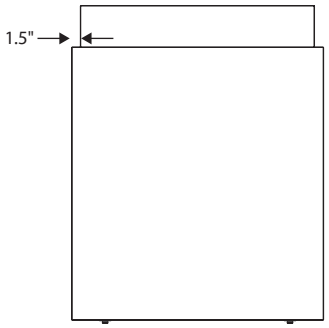


Gallery Panel Heights



Gallery Panels

- Gallery Panels for use with glass offer a routed top edge.
- Glass mounts directly into the Gallery Panel route via a gasket.
- The routing is inset 1½" from each end of the panel.
- Single-piece Gallery Panels for use with integrated glass require glass 3" shorter than the panel width.
- Glass is available in 3 colors: Clear, Frosted, Smoked.
- Glass height is available in 7½"H, 13"H, 15"H.
- Glass is available on all Gallery Panel widths.
- For benching systems, maximum allowable benching height cannot exceed 50"H with or without glass. Overall Gallery Panel height includes the glass.
- Specify glass models separate from Gallery Panel models.
- Glass Panels at 30"W and under are not UL listed.



Single Panel with Glass

Find the Gallery Glass width appropriate for your Gallery Panel width.

Shaded example: For the 18"W Gallery Panel, Gallery Glass should be ordered with width of 15".

Gallery Panel Width \ Gallery Glass Height	7.5"H
	Gallery Glass Order Width
18"W Gallery Panel	15"W

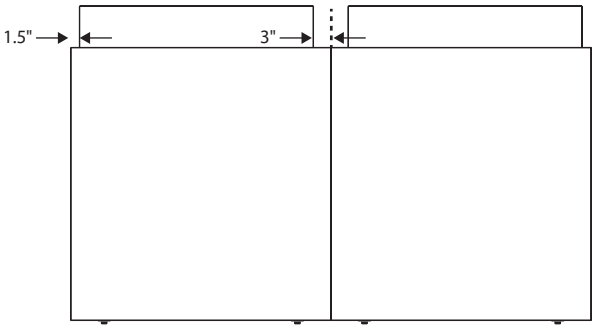
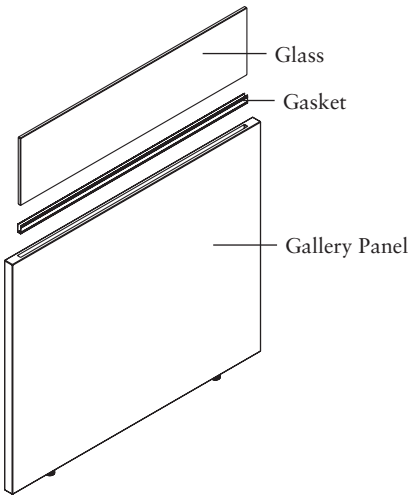
81"W Gallery Panel	78"W
84"W Gallery Panel	81"W



Split Panel with Glass



- Gallery Panels provide support for beam and worksurfaces.
- Provides privacy to one or both ends of the system in a dual-sided application.
- End Panel sizes are available from 48"W to 84"W.
- Maximum overall height is 50"H. Integrated glass is included in overall height.
- All T-configurations connect using one of the following connector kits:
  - GFCKSH - standard-height tethered applications
  - GFCKA - Adaptive or standard-height freestanding beam applications.
  - GFCKLH - low freestanding beam applications
- Connector kits are infeed and data accessible.
- Chicago and NY electrical junction boxes are not compatible with the kits.
- Connector kits do not accept power poles.
- End Panel can be used for off-modular planning, connector kit location must be field-measured.
- In standard height tethered applications, use Z6LB bracket to tie worksurface to Gallery Panel.
- Gallery Panels line up with the edge of the worksurface.
- In tethered applications, the gallery panel must meet or exceed the depth of the worksurfaces.
- In a freestanding application, minimum beam run must total 98"W. This includes connector kit.

Front edge of worksurface is flush to Gallery Panel in End Panel configuration

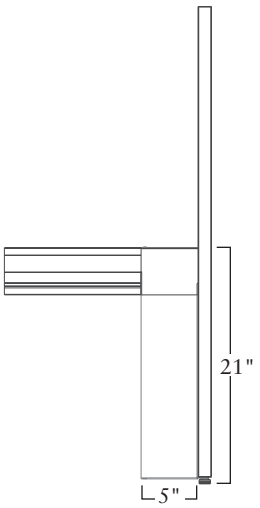
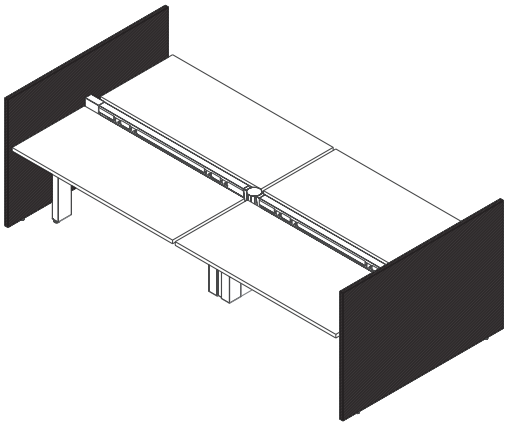
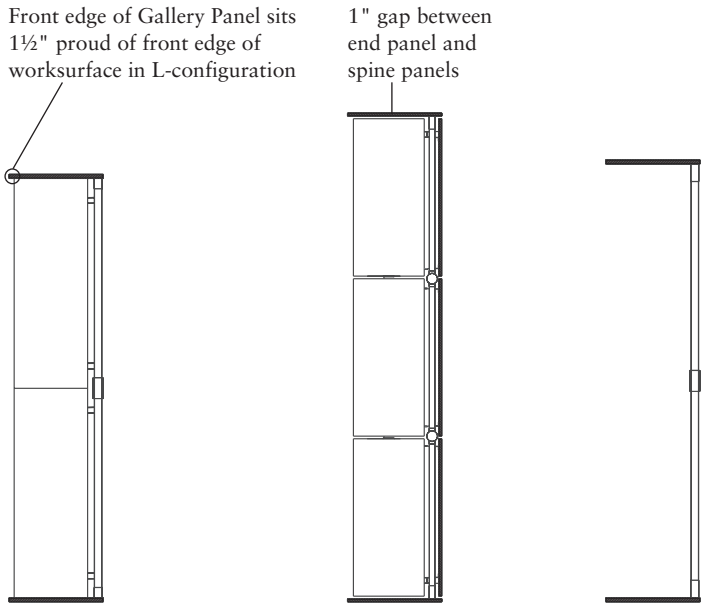
height (GFCKA)



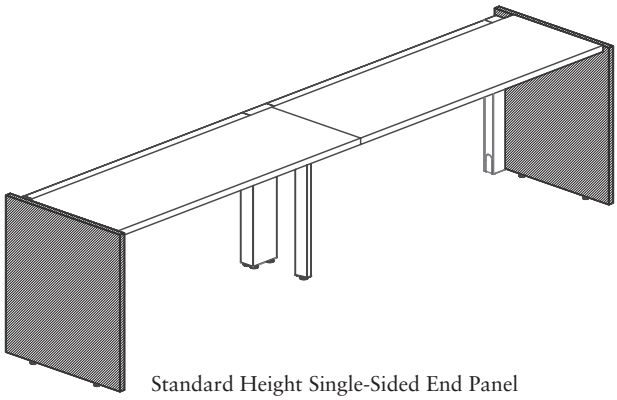
Low Fence
(GFCKLH)



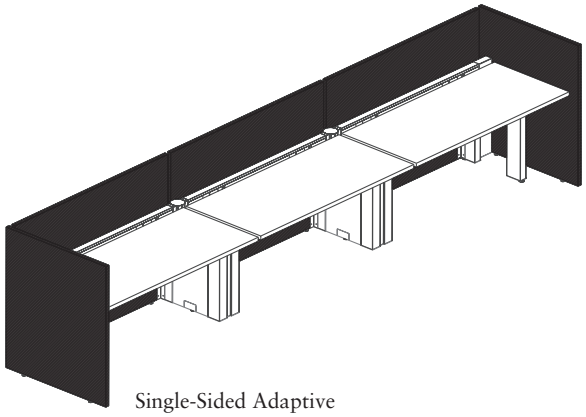
- Gallery Panels provide support for beam and worksurface.
- Provides privacy to one or both ends of the system in a single-sided application.
- Single-Sided End Panel sizes are available from 33"W to 84"W.
- Maximum overall height is 50"H. Integrated glass is included in overall height.
- All Single-Sided End Panels connect using one of the following connector kits:
  - GFCKSH - standard-height tethered applications
  - GFCKA - Adaptive or standard-height freestanding beam applications.
  - GFCKLH - low freestanding beam applications
- Connector kits are infeed and data accessible. Connector kits do not accept power poles.
- Chicago and NY electrical junction boxes are not compatible with the kits.
- In standard height tethered applications, use Z6LB bracket to tie worksurface to Gallery Panel.
- Gallery Panels extend 1½" past front edge of the worksurface. Specify gallery panel 6" longer than the depth of worksurface.
- In tethered applications, the gallery panel must meet or exceed the depth of the worksurfaces.
- In a freestanding application, minimum beam run must total 98"W. This includes connector kit.
- Single-Sided End Panels may not utilize a single beam between two gallery panels.
- Gallery Panel sizes 66"W or greater require storage or worksurface tie in. Please reference storage and worksurface support sections for more details.
- Single-sided Adaptive requires a minimum of 42"H Gallery Panels along the beam run. Panel widths must match worksurface widths.
- One connector kit (U6GPSS) required for each gallery panel – ordered separately.
- Standard specification creates 1" gap between all gallery panels.
- End Gallery Panels may be specified to align with back panels.
- U3SSHAFA used to mount single-sided Adaptive supports to floor if Gallery panels are not desired.
- Kit includes brackets for 2 end supports and 2 mid-supports.
- Hardware for mounting to floor is not included.



Standard | Single-Sided Adaptive | Freestanding



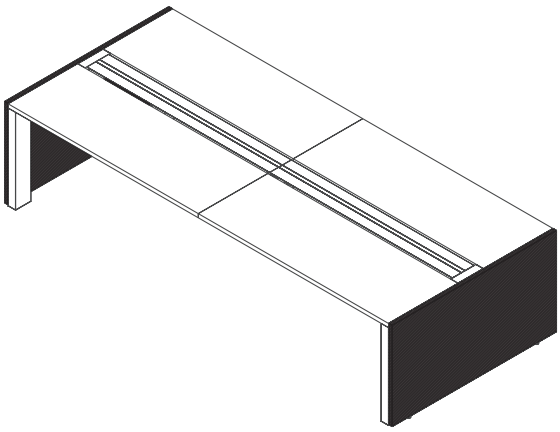
Standard Height Single-Sided End Panel



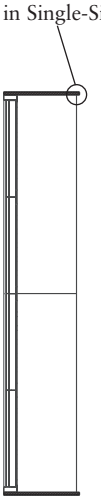
Single-Sided Adaptive

Gallery Panels

- Provides privacy to one or both ends of the system.
- End Panel (Dual-Sided) sizes are available from 54"W to 84"W.
- End Panel (Single-Sided) sizes are available from 33"W to 84"W.
- Maximum overall height is 50"H. Integrated glass is included in overall height.
- Connect using one of the following connector kits:
  - GSBCKO – end connector for open leg
  - GSBCKC – end connector for closed leg

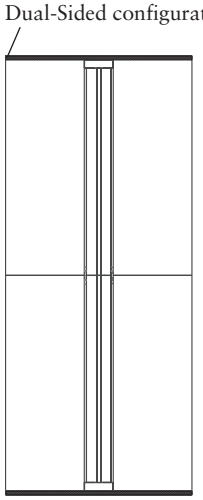


Front edge of panel sits 1¼" proud of worksurface in Single-Sided configuration



Single-Sided

Front edge of worksurface is flush to Gallery Panel in Dual-Sided configuration

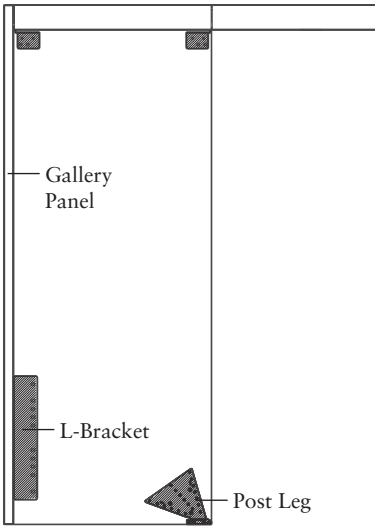


Dual-Sided

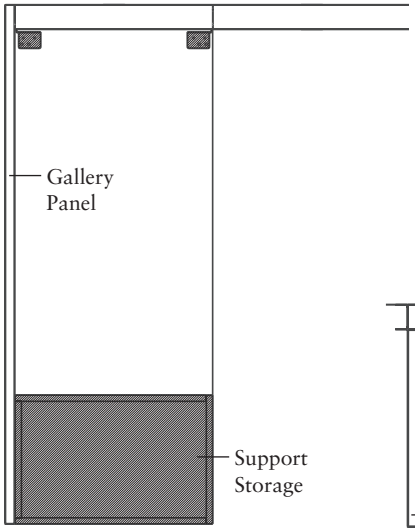
Gallery Panels

- To connect to laminate storage use GSGKL or GSGKM for metal storage.
- To connect to worksurface use Z6LB bracket when used in perpendicular to parent run or use standard systems cantilever brackets when used in parallel to parent run in panel systems.
- Perpendicular surfaces connected to a Gallery Panel over 60"W require (2) Z6LB Brackets.

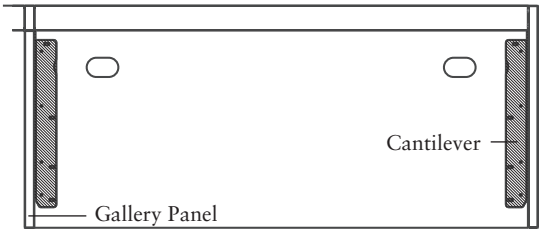
Panel Systems



Perpendicular panel system with L-bracket (Z6LB) and post leg.

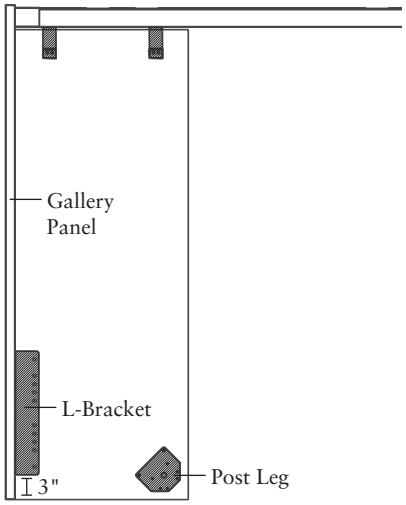


Perpendicular panel system with storage support.

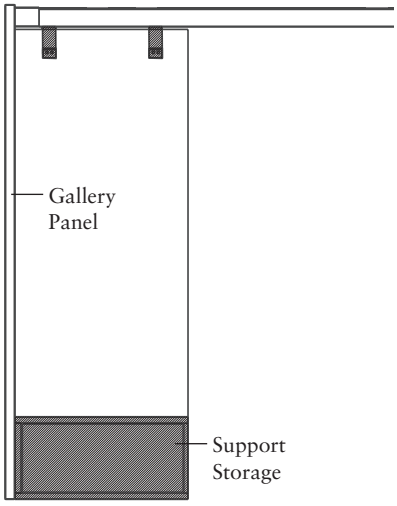


Panel system with cantilever support.

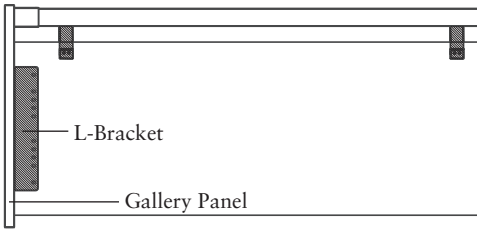
Further System



Further perpendicular with L-bracket (Z6LB), worksurface brackets, and post leg.



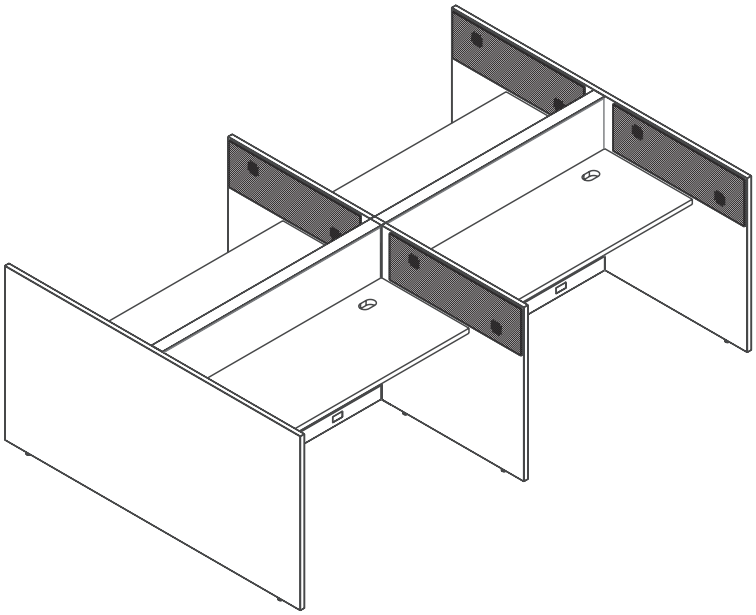
Further perpendicular with storage support and worksurface brackets.



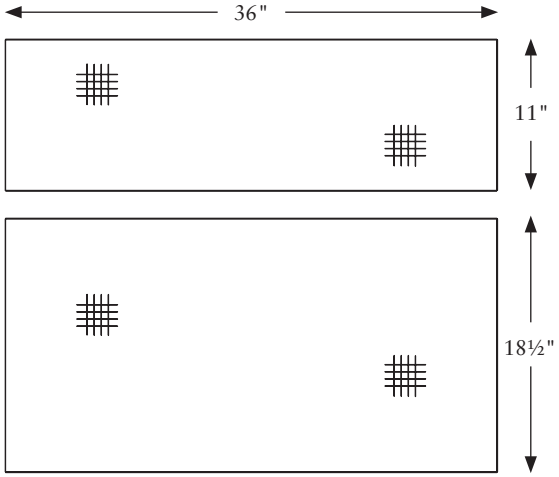
Further perpendicular with L-bracket (Z6LB) and worksurface brackets.

Gallery Panels

- Provides tackable surface
- Comes with steel-painted trim
- Available in 36"W and in two heights: 11"H and 18½"H
- For use with a minimum 39"W Gallery Panel
- Mounts directly to Gallery Panel. Mounting hardware included.



Tackboard Accessory on Mid and End Gallery Panels. Example of the typical is illustrated using a Panel System.



Tackboard Accessory dimensions

Gallery Panel Stiffeners

- Required for single-piece panels 75"W and greater that are used in a wing or single-sided end condition and do not have a horizontally-mounted credenza.
- For panels 75"W and 78"W, order model (GSTFN7578). Stiffener width is 72".
- For panels 81"W and 84"W, order model (GSTFN8184). Stiffener width is 78".
- Attaches directly to one side of the Gallery Panel with a painted metal cover, attachment hardware included.
- Placement on panel face must be at least 18" above the floor but is not restricted to a specific location on the panel.
- Stiffener is 1½" x 1½".
- Available in any Allsteel standard paint color

Metallic paints, due to varying reflectance, may appear to have less visual color consistency than other paint finishes, even when L/A/B values are exactly the same. (L/A/B — measurable aspects of color — values are maintained within a specified range, to ensure consistent appearance of paint colors.)

****These colors are intended to be an inspirational option for the trending market. Product application is limited and color availability is approximately two years to coincide with evolving workplace trends.*

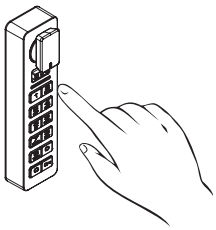
Radii™ Digital Locking

Digital Keypad Lock Specification Information (page 273)



The digital keypad lock options support applications where workstations or storage banks are shared by multiple users. This is an alternative to a standard key lock. This feature facilitates the use of storage by multiple users through eliminating the need to keep and hand-off physical keys. These locks ship in "shared mode" by default; shared mode indicates that the lock will "forget" the paired 4-digit code, allowing the unit to be used by multiple users.

Digital keypad locks:

- Ship factory installed
- Offered in a polished silver finish
- Digital keypad lock requires input of a user-selected 4-digit code
- Digital keypad powered using 2 premium lithium CR2450 batteries
- Battery life is dependent on the frequency of operation but can last up to 5-7 years

Programming Key

- A Programming Key is a device used to initialize locks out of factory default mode and register Manager Keys to the locks.
- Only one Programming Key should be specified per installation site because multiple Programming Keys are not compatible with each other.
- Once a programming key is used with a unit, it is tied to that lock. Another programming key can not be used.
- Add-on digital lock orders should be programmed with the original programming key.

Manager Key

- A Manager Key is used to bypass a locked unit; this operates as the "master" key and it is recommended that building facilitators have at least one Manager Key.
- Up to 6 Manager Keys may be registered to each lock.
- Manager Keys provide external power to locks in case of battery failure.

Manager Key	**YPLDIGMGR**	**$ 242**

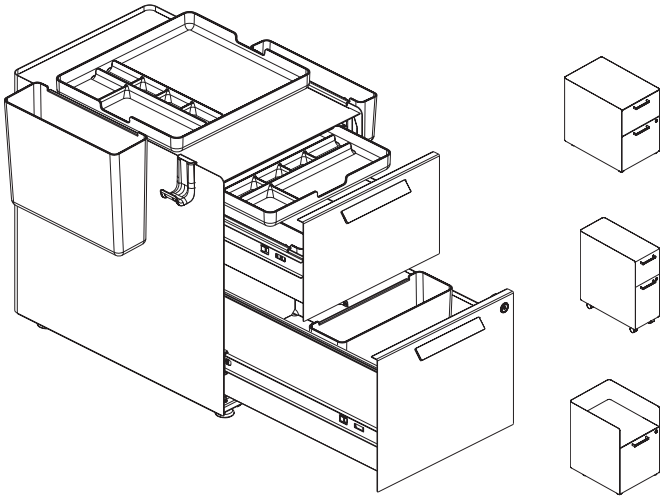
Radii™ — Storage

Pedestal Functionality with Work Tools

Effective May 13, 2022

Radii is a new generation of metal storage pedestals, undermounts, and Work Tools designed to accommodate more personal items and less paper. In the evolving digital age, the need to store paper files dwindles, people archive fewer documents, while the need to stow personal belongings grows. Conventional storage options that were designed for lateral paper filing don't adequately accommodate items employees stow, such as a backpack, purse, gym shoes, office supplies, or other everyday essentials workers want to keep within reach.

The desire for products to do more with less is quickly becoming a necessity. Radii delivers efficiency that is obvious in a solution that succinctly stows today's objects in a user-customizable way.



Pedestal Functionality Represented by
Freestanding Pedestal 21½"H
15"W x 23"D Box with Tray/File.
Additional Work Tools ordered separately.

Pedestals

- Available with casters or glides
- Casters allow clearance for pedestal to straddle Altitude foot.
- Rear casters swivel, front casters are fixed, casters do not lock.
- Freestanding pedestals are not meant to support worksurfaces.
- Drawer slides are not full extension.
- Counterweight installed when required. No additional counterweight is required.
- Case wrapper creates a utility lip at top of case from which Work Tools can hang.
- 15"W pedestals can fit a Hot File Bin sideways in drawer to serve as a space divider.
- Hot File and Side Saddle can hang on inside file drawer lip.
- Alcove unit has a single drawer with open enclosure at top to stow backpack or other personal items.
- Drawers are labeled as "Box"/"Box +" and "File"/"File +"; see dimension table below.
- Drawers labeled as "+" have a taller drawer front and added space above the drawer body that can either accept the hidden Radii accessory tray or allow for the drawer to stow larger items, such as a backpack.
- All pedestals with a drawer marked "+" ship with one accessory tray, additional trays may be purchased separately (20⅜"H unit does not ship with or accept hidden tray).
- Radii pedestals offered with an electronic locking option
- Slim peds (10"W) with electronic locking only accept Square Pull.
- Manager and programming key purchased separately, see page 22 of Casegoods and Storage pricebook.

Drawer Type	Exterior Drawer Height	Accepts Tray	Filing	
			15"W Pedestal	10"W Pedestal
Box	6"	No	No	No
Box +	9"	Yes	No	No
File	12"	No	Front-to-Back Only, Letter Only	Side-to-Side Only, Letter or Legal
File +	15"	Yes	Front-to-Back Only, Letter Only	Side-to-Side Only, Letter or Legal

Drawer Type	Drawer Capacity*	
	15"W Pedestal	10"W Pedestal
Box	4¼"H x 12⅛"W x 17¾"D (19"D Pedestals) or 21¾"D (23"D Pedestals)	4¼"H x 7⅛"W x 21¾"D
Box +	7¼"H x 12⅛"W x 17¾"D (19"D Pedestals) or 21¾"D (23"D Pedestals)	7¼"H x 7⅛"W x 21¾"D
File	10¾"H x 12⅛"W x 17¾"D (19"D Pedestals) or 21¾"D (23"D Pedestals)	10¾"H x 7⅛"W x 21¾"D
File +	13⅝"H x 12⅛"W x 17¾"D (19"D Pedestals) or 21¾"D (23"D Pedestals)	13⅝"H x 7⅛"W x 21¾"D

** If using hidden tray in + drawer, subtract approximately 3" from usable height*

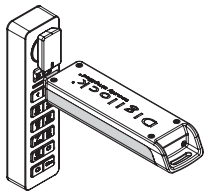
Digital Lock Programming

Locks are shipped with factory default settings (only operates by pressing C 0-9). Each lock must be set up to operate with a Programming Key and Manager Keys.

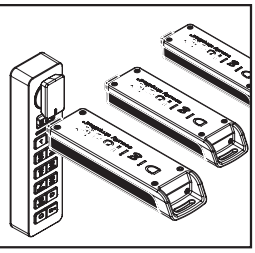
1



Insert the Programming Key.

A two-tone beep will be heard and the LED will flash.

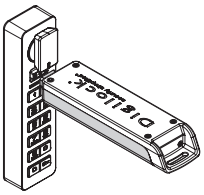
2



While the LED is flashing, insert one Manager Key at a time.

A beep will be heard for each Manager Key programmed.

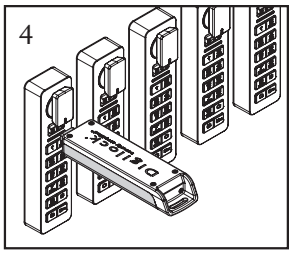
3



Insert the Programming Key.

A two-tone beep will be heard and the LED will turn off.

4



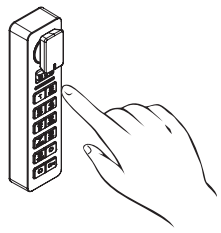
Repeat above steps for each lock or follow instructions to Express Register Manager Keys to setup all locks.

Programming Instructions

Express Register Manager Credentials

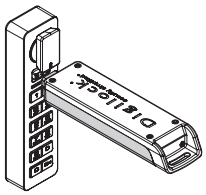
Express Register Manager Keys The Programming Key can quickly program multiple locks to operate with the same Manager Keys.

1



Go to a lock already programmed to operate with the Manager Keys. Press: C 0-9 6 1 0-9. The LED will flash.

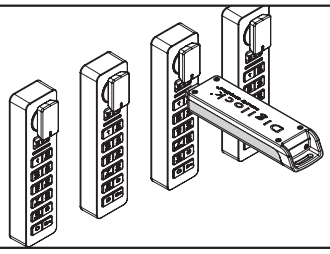
2



While the LED is flashing, insert the Programming Key.

A two-tone beep will be heard and the LED will turn off.

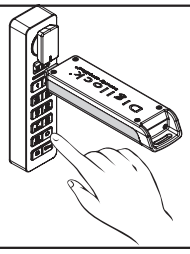
3



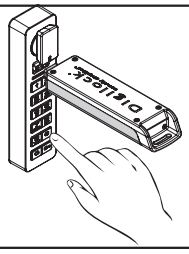
Insert the Programming Key to program each lock to operate with the same Manager Keys.

Two sets of two-tone beeps will be heard and the LED will flash twice to indicate successful programming.

4a



4b



End Express Registration mode.*

Go to any programmed lock.

Press: C 0-9 then insert the Programming Key.

**The Programming Key will continue to function in Express Registration mode until it is used to operate a lock.*

NOTE: For more information on digital lock use, please reference digital lock user guide(s) available on hniproductinstall.com.

See page 273 for manager key and programming key.

 AUFO Open-Flush	 Flush Undermount Open Bin
 AUCL L Shelf-Console	 Console Undermount Open L-Cube
 AUCH RH HD-Console	 Console Undermount RH Hinged Door Bin

Undermounts

- Undermount units can be mounted flush to the left or right edge of the A5 table system when a 30"D worksurface is being used. All other applications require unit to be mounted inset from left or right edge of worksurface dependent on table supports.
- Compatible with all Allsteel benching and desking applications, except where noted.
- Can accommodate 2 Hot File units within interior sitting side-by-side.
- Slim tray fits in the Drawer and Open L units only.
- Ensure weight limit of height adjustable table system is considered before adding undermount storage (see table for unit weight and storage capacity).
- Standard BIFMA loading standards based on open volume of storage area.
- For undermount applications with Altitude tables, see the matrix on page 269.
- Manager and programming key purchased separately, see page 22 of Casegoods and Storage pricebook.
- Radii pedestals offered with an electronic locking option.
- Slim peds (10"W) with electronic locking only accept Square Pull.

Flush Undermounts

- Unit to be mounted under worksurface using hardware supplied with unit.
- Unit mounts flush to front edge of worksurface.
- Open and hinged door units contain side slot which can be used to hang Work Tools.
- Open and hinged door units do not fit Work Tool Trays.
- Drawer unit ships with hangrail to accommodate side-to-side filing.

Console Undermounts

- Open L unit comes with Work Tool Tray, console soft touch pad, and bottom soft touch liner.
- Hinged Door Console Unit comes with console soft touch pad ONLY.
- Unit available with or without USB. Either version ships with soft touch pad for console and contains a perforation for easy cord routing.
- Slots built into upper portion of case for Work Tools Hook to hang from.
- Unit mounts under worksurface with easy locating interface bracket. Bracket screws to worksurface, unit snaps onto bracket.
- Unit protrudes 6" from front of worksurface.

Work Tools

- Side Saddle and Hot File work on Stride and Terrace Tool Tiles and Tool Rails.
- Bag Hook weight limit 20 lbs.

Height-Adjustable Worksurfaces, Bases, and Controls

Height-Adjustable Worksurfaces (page 285)

- Height-adjustable worksurfaces are available in laminate with flat edge and rectangular veneer with matching square edge.
- T-mold is used on the edge of curved worksurfaces. This will have a noticeable visual difference when directly adjacent to straight worksurfaces.
- Worksurface dimensions are nominal. Actual widths are reduced by 2" (1" each side) and worksurface depths are reduced by ¾". Corner cove depth is nominal, actual is 1" less.
- Altitude worksurfaces are pre-drilled with mounting location for bases.
- Rectangular worksurface grommet location is limited to center location due to mounting of worksurface supports at each end of the worksurface.
- A6 Load capacity is 250 lbs for 2-leg models, 375 lbs for 3-leg models, and 350 lbs for Max models. This includes weight of worksurface.

Height-Adjustable Bases (page 282-283)

- Electronic height-adjustable base units are available in six styles: A6-T Base with 2 legs, A6-C Base with 2 legs, A6-T Base with 3 legs, A6-C Base with 3 legs, A6-T Max Base with 2 legs, and A6-C Max Base with 2 legs.
- A5 models travel at 1.5" per second, A6 2-stage 1.2"/sec, A6 3-stage 1.4"/sec, A6 Max .8"/sec. Motor devices have a continuous cycle time of 2 minutes with an 18 minute rest period before it can be cycled again.
- Control box is powered by 110-120V/60Hz/4A. Standby power is < 0.1 Watts. Power cords on A6-T models are 10'.
- Pedestals taller than 24½" for 2-stage models and 19½" for 3-stage models when placed under table will limit range in lowest position.
- Mobile box/file pedestals will clear feet on height adjustable base but will extend past edge of worksurface in that position. See chart on page 279.
- Moving worksurfaces can collide with other components. It is important to ensure free range of motion prior to operating the table.
- All tables have adjustable glides providing ½" adjustment on A6.
- Slide glides offered as a .option and model level. Only available on 2-leg bases.
- 3-Leg bases can accommodate worksurface configurations from 24"D x 48"W x 48"W to 30"D x 72"W x 72"W and 36"D x 48"W x 48"W to 36"D x 72"W x 72"W.
- Casters available on model level for retrofitting on 2-Leg Bases ONLY.
- Altitude A6 tables feature anti-collision, a feature designed to stop table travel when the table detects an obstacle. A5 & A8 tables do not have anti-collision technology.
- Altitude A5 and A6 bases specified with a work surface 60"W and greater require the use of an external stiffener. An external stiffener is included in Altitude work surface models 60"W and greater (all models ending with letter -D). If a non-Altitude work surface is being used, an external stiffener may need to be specified separately.

A6 Control Options (page 320)

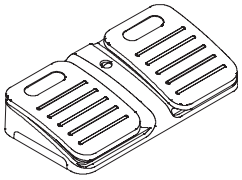
- Memory Controls are now a .option.
- Up/Down: Basic Up/Down control.
- Memory Control: 4 memory pre-set options allow the user to adjust their height to their preferred heights.
- Paddle: Simple, aesthetic control with 1 memory pre-set option and reminder mode.
- Rotating: 3 memory pre-set options and a rotating, dial-like control.
- Foot Control: Basic up/down wireless, hands free control. Can be paired with hand controls for multi-control option.
- Bluetooth Capability: A6 optional Bluetooth capability is sold as accessory model A6BLUETOOTH. Bluetooth is enabled through smartphone app AiDesk. Bluetooth control will only work with 2-leg A6 tables. Bluetooth control will **not** work with 3-leg A6 tables.

Altitude Basic (page 284)

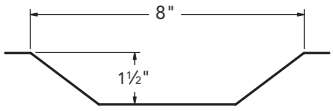
- Altitude Basic can accommodate either 24"D or 30"D work surfaces
- Altitude Basic can accommodate work surfaces ranging from 48"W to 60"W, 60"W is the maximum work surface size for the Altitude Basic
- Supports weight capacity of 180 lbs.
- Control Box: 100-240V, 3.6A, 50/60Hz, 400W
- 9' grounded power cord
- 1⅔"/second travel speed
- Available in silver only
- Available with up/down control only
- Features "easy-to-assemble" installation

Foot Controls

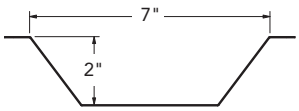
- Available as a .option on A6 and as model.
- Wireless, hands free control.
- Can be paired with hand control for multi-control option.
- Compatible with A6 and A3 tables.
- 2 AAA batteries needed. Batteries not included.



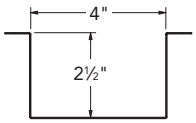
Cross-sectional Area Inside Under Worksurface Troughs



Minimum trough height

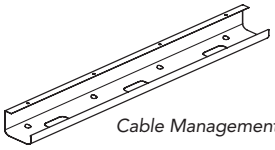


Median trough height

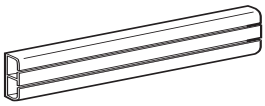


Maximum trough height

Cable & Wire Management



Cable Management Tray



Wire Management Channel

Cable Management Tray (page 287)
- Attaches under the worksurface to contain cables.
- Metal tray shelf is 4" deep. Can hold electrical power strip and/or surge protector.
- 24" and 36" lengths, use multiple units for larger worksurfaces.
- Attachment hardware included, specify paint color.

Wire Management Channel (page 287)
- Self adhesive backing to attach to panels and underside of worksurfaces.
- Flexible strips allow cabling to enter/exit and can be contained inside the 2-cavity profile.
- Each cavity provides space for a maximum of six .22" dia. cables. Total capacity = 1 sq. in.

Cord Management Chain (page 287)
- Works with Approach and Altitude A5 and A3-T units.
- Used to route and conceal power/data cables from control box and other devices. Includes all mounting hardware and a plate to secure to a leveling glide.
- Houses 6 cables @ 0.300" diameter.
- Made of plastic chain with plastic attachment brackets at each end. Only comes in Black finish.

Under Worksurface Trough (page 287)
- Used to conceal wires and control box below worksurfaces. Trough can be configured at various height/width combinations to meet capacity needs — see illustrations below.
- On 48"W and 54"W worksurfaces use one 17"W trough. 54"W has space to use 2 – 17"W, if necessary.
- On 60"W, 66"W, and 72"W worksurfaces use the 36" trough.
- On 84"W worksurface use 2 – 17"W troughs.

Quad Tap (page 287)
- Under surface mounting, used on any worksurface.
- 10' Power cord. UL Listed
- 4 Simplex receptacles.
- May be used in conjunction with hinged trough to reduce the number of cords routed from a worksurface to a beam.

60" Rectangle	3	3"	19¾"	14"	8 lbs	6 lbs
66" Rectangle	3	3"	19¾	17"	8 lbs	7 lbs
72" Rectangle	3	3"	19¾	20"	8 lbs	8 lbs

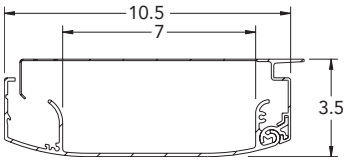
- Height-adjustable worksurfaces are available in laminate with square corners, laminate with round corners, and laminate eased edge with square corners.
- Worksurface dimensions are nominal. Actual widths are reduced by 2" (1" each side) to accommodate screens and height adjustable motion. Actual depths are reduced by 0.75".
- Worksurfaces have pre-drilled alignment holes for bases, utility bay and screen brackets.
- The A8 utility bay acts as an external worksurface support; therefore, no A8 models require external supports.
- Grommet location is limited to center and 5¾" from back due to mounting of utility bay and power module under the worksurface.
- A8 load capacity is 300 pounds, including the weight of the worksurface, utility bay, power module, and screen.
- Electric height-adjustable base units are available in 2-Stage C-Leg.
- Height-adjustable legs travel at 1.5" per second. Motor devices have a continuous cycle time of 2 minutes with an 18 minute rest period before it can be cycled again.
- Control box is powered by 110-120V/60Hz/4A. Standby power is <0.1 Watts. Power cords on models are 10'.
- Pedestals taller than 24½" when placed under table will interfere with utility bay in lowest position.

- Mobile peds can span over A8 foot.
- Mobile peds may extend past the worksurface; see Table 1 for dimensions.
- Moving worksurfaces can collide with other components. It is important to ensure free range of motion prior to operating the table.
- Tables with standard glides or slide-glides have ⅛" of adjustment. Tables with casters will sit 1.3" higher than glided versions.
- All models come standard with up-down height adjustable control. Optional control pad is available to provide app connectivity, Bluetooth, and memory set user heights (page 320)

Caster Option

- See Table 2 for caster-dependent dimensions.
- 24" deep worksurfaces with screens and casters must include surface mounted storage.
- See Storage Specification and Price List for A8 mounting specifications and applications.

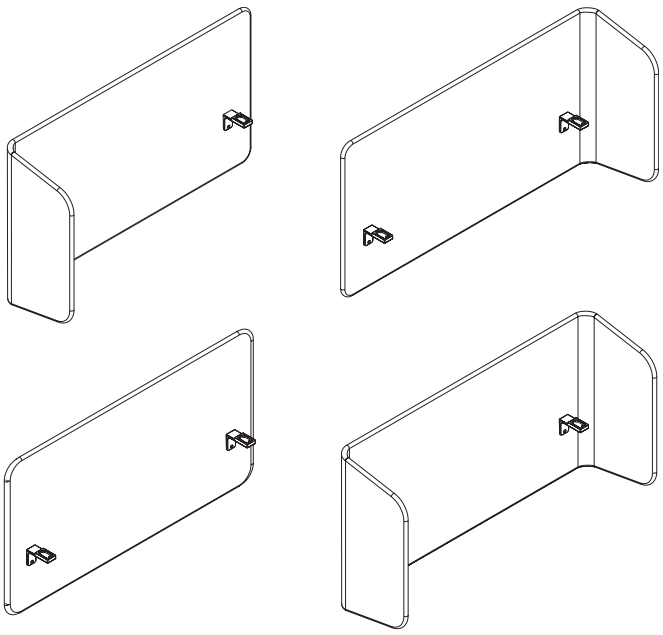
Utility Bay



Utility bay cross-section

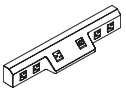
- Utility bay comes standard and attaches under the worksurface to contain cables, control box, and power module.
- See Table 4 for load and size specifications.
- Cord management chain comes standard with each table.
- Wire snake houses 3 cables at 0.300" diameter.
- Wire snake made of plastic links. Color options available are Black, Designer White, and Titanium.

Screens



- See Table 1 for overall table width and depth for each screen shape.
- Adding a screen adds 3" to depth of the table.
- Adding a screen adds 1" to the width of the table per return wing.
- A8 worksurfaces are 2" under nominal width to accommodate screens.
- RH L-screens have return wing on user's right; LH opposite.
- A3 and A5 worksurfaces are sized to accept A8 screens.

Power Module



- Contains 5 simplex outlets and 1 dual USB.
- Available in plastic or metal. Metal power module is required for Chicago code.
- Cord options include straight and curly.
  - Straight cord is 144"
  - Curly cord is 120"

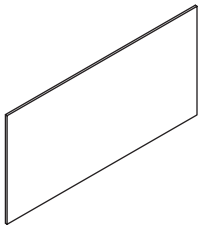
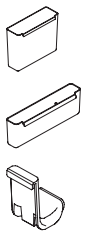
Altitude — Metal Screens (page 312)
- Powder coated magnetic metal privacy screen.
- Metal surfaces can be easily disinfected with cleaners. See cleaning guide for more details at AllsteelOffice.com.
- Available in all standard paint colors.
- Provides 1" gap along the back for accessory mount and cord drop.
- Available in 48"W, 54"W, 60"W, 66"W and 72"W.
- 66"W and 72"W screens include 3rd center bracket.
- Available in Straight, L- and U-shape configurations. Above and Above/Below desk applications.
- L- and U-Shape screens are not compatible with shrouded Height Adjustable Table legs.
- Optional tackable accessories specified separately.
- 66"W tackable accessory comes as a set of (2) 24"W.
- 72"W tackable accessory comes as a set of (2) 20"W.
- Available in standard and extended wings.
- Wings mount flush to the edge of the surface with an L-Bracket.
- 20"W tackable accessory must only be applied to both standard and extended wings without accessory slots.
- Wings are available with accessory slots that accept Radii Hot File, Side Saddle and Coat hook.
- Top slot can accept one Radii accessory.
- Bottom slot can accept a Coat hook and one other accessory.
- Accessories can hang on either side of the wing.
- TIP: If the Hot File is used in the top slot, it will block access for accessories in the bottom slot.
- Do not hang more than 5lbs of weight on wings.
- Screens are compatible with Radii undermount storage.
- Not compatible with standard 120-worksrufaces. Contact Allsteel TPG for custom sizes.

Size Reference Matrix

Tackboards	Wing	48"W	54"W	60"W	66"W	72"W
Actual Dimensions	20"W	30"W	36"W	42"W	20"W	24"W
Set of Tackboards	1	1	1	1	2	2



Accessories — Tackboard (page 313)
- Tackable accessories come with metal frame available in standard paint colors and fabric options.
- Attach to the screen using a dual lock tape (included in hardware).



Accessories — Radii (page 313)
- Wings are available with accessory slots that accept Radii Hot File, Side Saddle and Coat hook.
- Top slot can accept one Radii accessory.
- Bottom slot can accept a Coat hook and one other accessory.
- Accessories can hang on either side of the wing.
- TIP: If the Hot File is used in the top slot, it will block access for accessories in the bottom slot.

Accessories — Further Worksurface Rail Mount (page 141)
- Accessory rail must be field cut to fit between the screen brackets.
- The following accessories are not compatible with screens: U9WTC and U9TM.

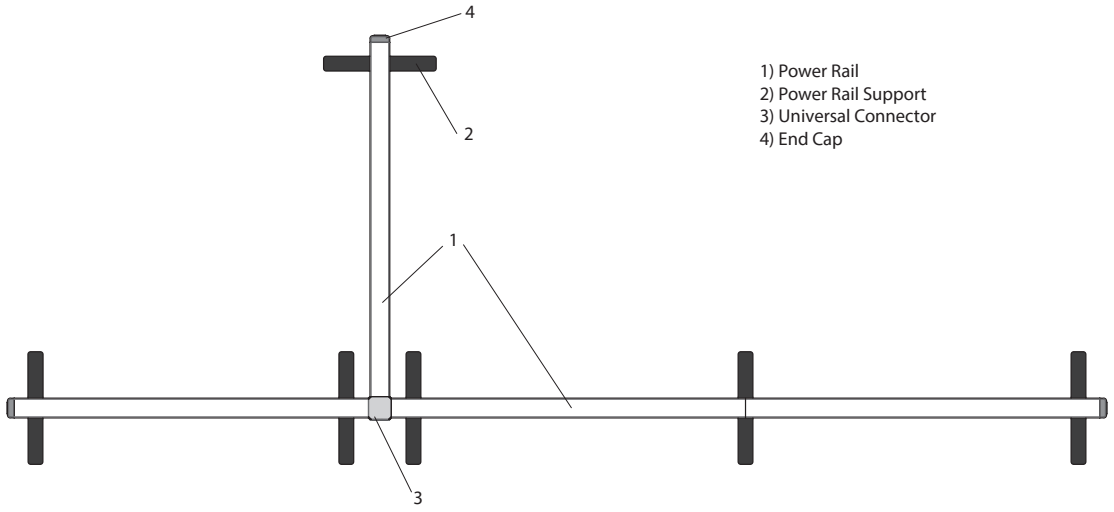
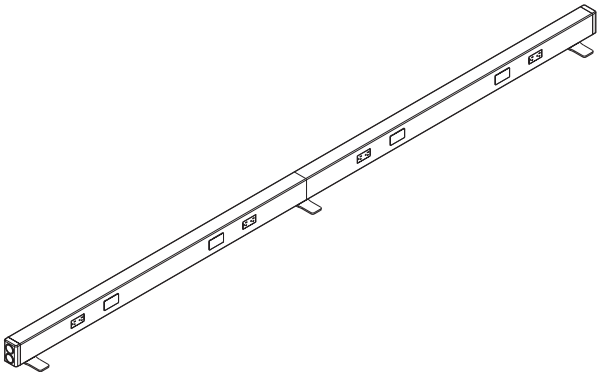
GENERAL OVERVIEW

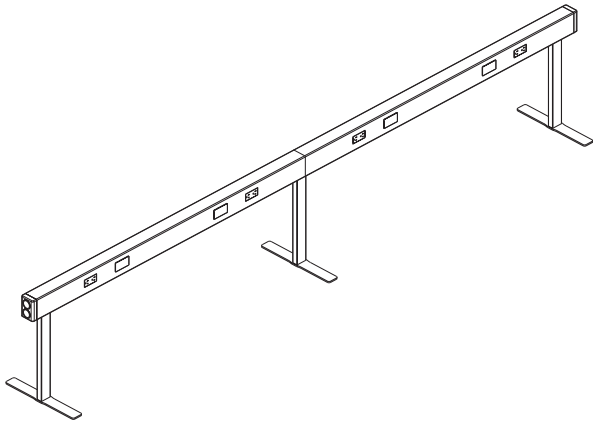
- Accommodates power and lay-in capacity for data cables.
- Available in 48", 54", 60", 66", and 72" lengths.
- Maximum of 2 duplexes and 2 data ports per side of rail.
- Models come equipped with hardware for in-line connections.
- Fiber optic cables can follow 90 degree turns at the intersection of the power rails.
- Power harnesses snap into electrical brackets within the power rail and accept duplex receptacles.
- Electrical power harness accepts up to 2 duplex receptacles per side of rail.
- End caps are required at an end-of-run, unless connected to an end-of-run power pole or a hub.
- Power rail can be set low to the floor using the floor legs or raised off the floor at 20½"H with elevated legs.



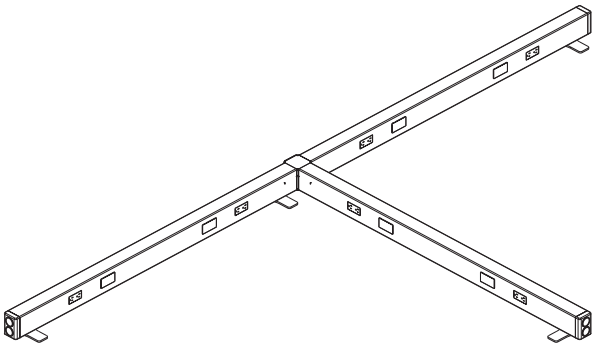
Power Rail Typicals



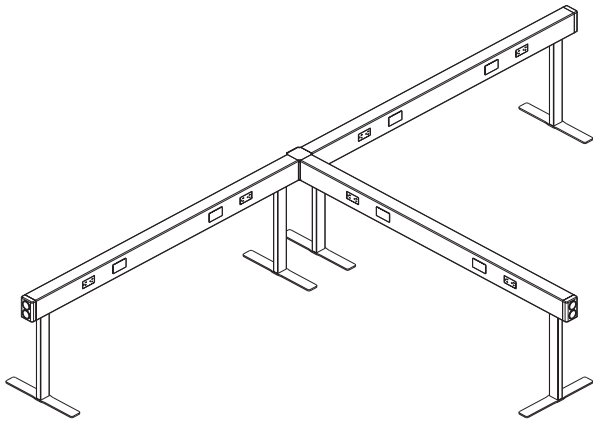
Low Rail, (2) 60"W Rail
Linear Configuration



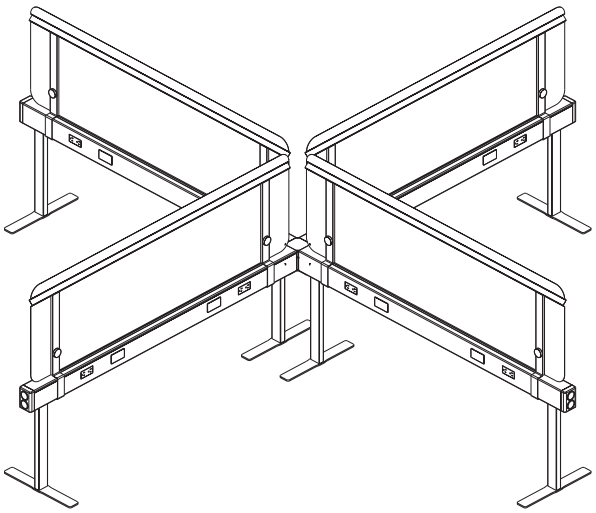
Raised Rail, (2) 60"W Rail
Linear Configuration



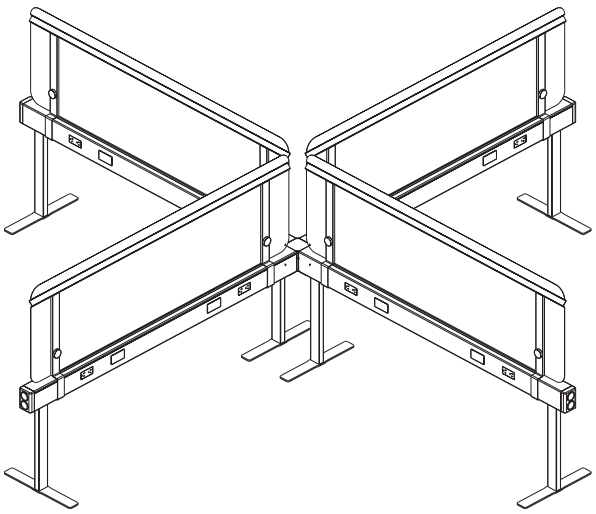
Low Rail, (3) 60"W Rail
T-Configuration



Raised Rail, (3) 60"W Rail
T-Configuration



Raised Rail, (4) 60"W Rail
X-Configuration with Screens



WORKING WITH ALTITUDE POWER RAILS

Low Rail with Floor Legs:

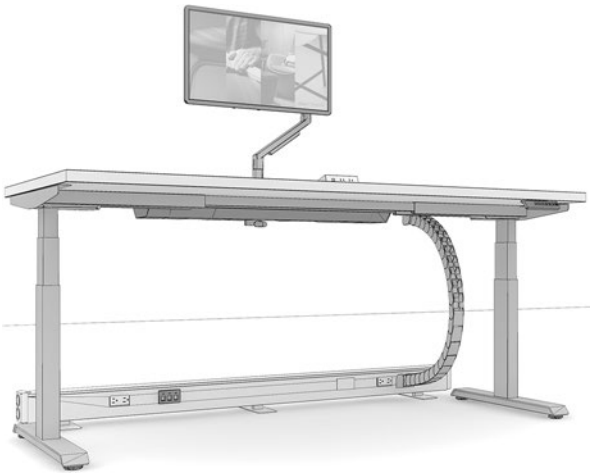
- Each power rail is supported by (2) floor legs.
- Floor legs have a leveling mechanism that can adjust up to 1¼"H.
- Legs are specified separately and come in qty of 1. Each leg is 7¼"D x 2¼"W.
- Leg is inset 2.8" from end of the power rail.
- Universal connector allows “L”, “T” and “X” configurations.
- Can connect directly to another power rail in linear applications without use of the universal connector.
- Cannot mount screens on the low rail.
- Power infeed can access the power rail in multiple ways:
  - through a receptacle position on the power rail (side infeed).
  - through the end cap on to the first power block.
  - through power pole using a power pole connector kit.

Raised Rail

- Power rails can be raised up to 20½"H using Elevated Legs and/or Hubs.
- Elevated Legs and Hubs can be used in conjunction to create the desired capability and aesthetic.
- Can be in Linear, L-, T- or X-configurations using Elevated Legs, Hubs or Universal Connector.
- Supports screens. See screens section for more details.
- Elevated Legs
  - Inset 2.8" from end of the power rail.
  - Can be shared in between the two rails in linear configuration.
  - Cannot route power and/or data.
  - Specified separately and come in qty of 1. Foot is included.
  - Leg is 15¼"D x 2¼"W x 17¾"H.
  - Order RFDRWAB separately to anchor to floor. Appropriate fasteners per floor type sourced locally.
- Support Hubs
  - Connect directly to the power rail.
  - Can be shared in between the two rails.
  - L-, T- and X-hubs can be shared in between power rails.
  - End of Run hub is only specified at end condition.
  - Can route power and/or data.
  - Can integrate power pole. Power Pole connector kit is specified separately and come in qty of 1. Foot is included.

Screens

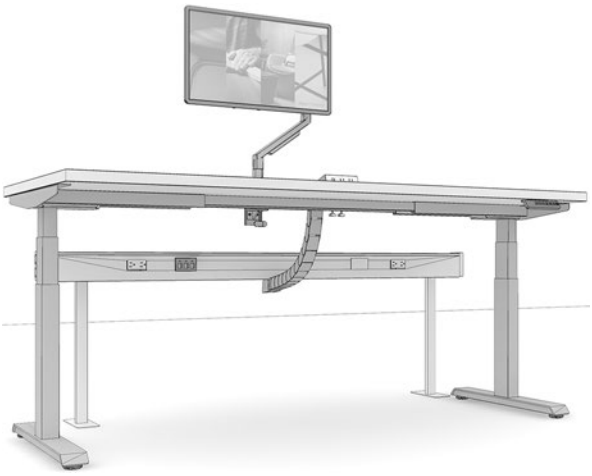
- Constructed of painted steel material.
- Standard Allsteel paint options can be applied.
- Screen height is 20"H, provides overall height of 42"H above fixed floor.
- Painted steel is magnetic and cleanable. Refer to cleaning solutions page at Allsteel Office website.
- Attachment hardware included.



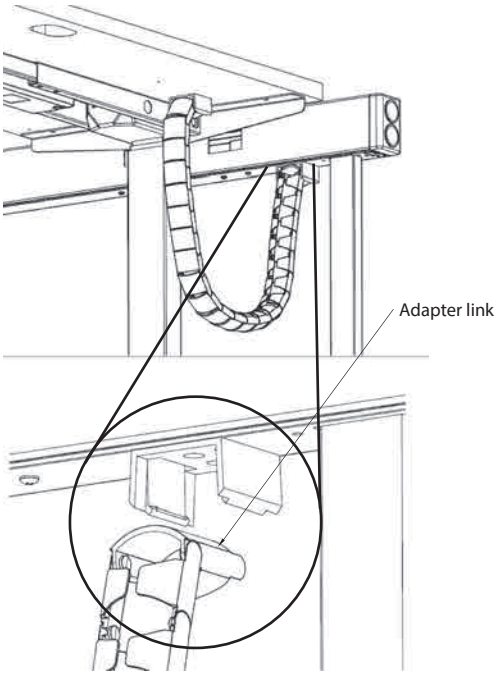
Altitude Desk + 60"W Low Rail + WKSWMC

WORKING WITH CABLE MANAGEMENT

- Used to route and conceal power/data cables from control box and other devices. Includes all mounting hardware.
- Houses 6 cables @ 0.300" diameter.
- Specify WKSWMC for 58" chain. Only comes in Black Finish. Recommended for use with Low Rail.
- Specify A9CLWMC for 36" chain. Comes in Black, White and Silver. Recommended for use with Raised Rail.
- Links the power rail to a height adjustable desk.
- Has two connecting points: Top section connects underneath the Height Adjustable Desk and the bottom section connects underneath the power rail using a double-sided tape. Hardware included.
- When mounting the chain to underneath the rail, an adapter link is required. Included in the hardware.



Altitude Desk + 60"W Raised Rail + A9CLWMC



WORKING WITH POWER RAIL ELECTRICALS

General Notes about Electrical and Circuitry:

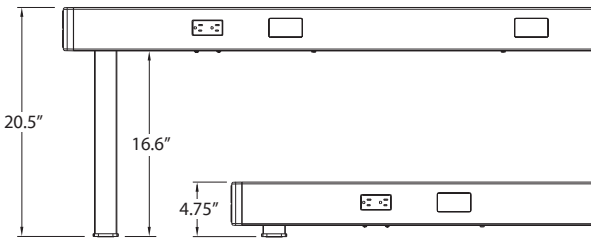
- Power Rail offers a choice of four electrical systems:
  - Four-circuit, 3 + 1
  - Four-circuit, 2 + 2
  - Three-circuit, separate neutrals
  - Eight circuits; two four-circuit systems provided back to back.
  - See Altitude Pricer section “Working with Electrical” for a detailed explanation of each electrical system.
  - All four systems utilize an 8-wire electrical system, rated at 20 amps.
- Per circuit (15 amps Canadian) — 16 amps plannable in U.S.
  - A8 Power Rail and electrical components are UL Listed. Electrical
- Components are also CSA certified.
  - Installation and use of the electrical system, the number of receptacles.
- Used on a given circuit and connections to the building power supply.
- Should follow all local and national electrical codes.

Electrical Infeeds

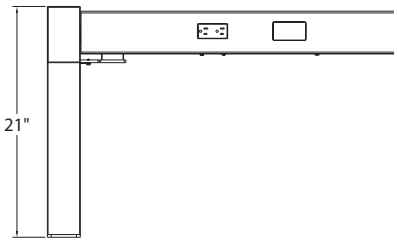
- Power infeed cables deliver power from building to panel's electrical system.
- Infeed cables are housed in conduit to separate electrical system from communications and data lines.
- Select quantity of base or ceiling infeed cables depending on individual power requirements.
- Refer to rail supports for infeed access points.

Routing Power

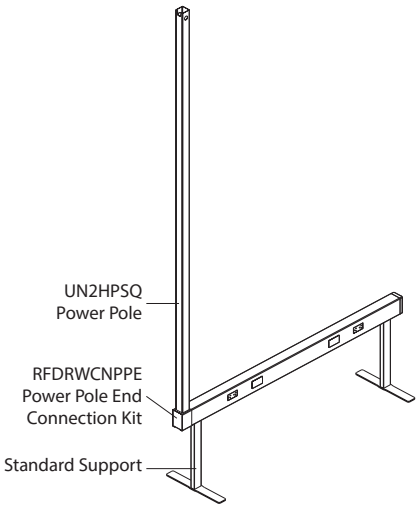
- Power infeed can access the raised power rail in multiple ways:
  - Through power pole using a power pole connector kit.
  - Through Support Hubs.
  - Through the infeed vertebrae.



Raised Rail & Low Rail



End of Run Hub



RFDRWCNPPE + UN2HPSQ
Connected to 60"W Rail

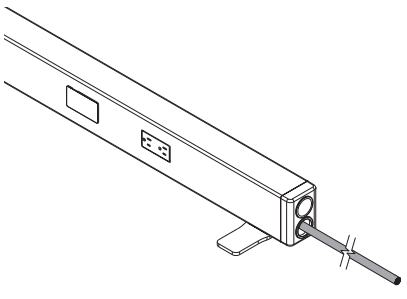
Connected to 60"W Rail through End Cap



A877012 Infeed
Connected to 60"W Rail through End Cap

Electrical Systems

General Notes about Electric, Circuitry, and Chicago Code:

- A8 Power Rail offers a choice of four electrical systems:
  - Four-circuit, 3 + 1
  - Four-circuit, 2 + 2
  - Three-circuit, separate neutrals
  - Eight circuits; two four-circuit systems provided back to back.
- See pages 301-302 for a detailed explanation of each electrical system.
- All four systems utilize an 8-wire electrical system, rated at 20 amps per circuit (15 amps Canadian) — 16 amps plannable in U.S.
- A8 Power Rail and electrical components are UL Listed. Electrical components are also CSA certified.
- Installation and use of the electrical system, the number of receptacles used on a given circuit and connections to the building power supply should be in compliance with all local and national electrical codes.

Caution: Electrical equipment cords or extension cords MUST NOT BE ROUTED through cable openings in frame sides.

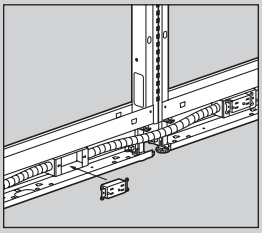
Note: No more than one conduit that is connected to a harness mounted to horizontal can be routed through the same cut out in the same horizontal at beltline. Attempting to use more will cause binding of conduit and may affect reveals on receptacles.

Hardwire New York Code (page 306)

- Hardwire (New York Code) junction box (model A871400) is used when local electrical codes require hardwire entry.
- For use in panels 48"W to 72"W.
- Unit must connect to a power harness.
- Customer to furnish all cabling and wiring from power entry to power source.
- Junction box can be positioned at any duplex receptacle location.
- For NY infeed through the end cap:
  - Order 24" pass-thru harness with power block A871124.
  - Will not have power at first cut-out from infeed.
- For NY infeed through a power rail cut-out:
  - Order 48"-72" pass-thru harness with power block. *Harness width must match power rail width.*
  - Will not have power at cut-out location used for infeed.
- For any power rail not used for infeed, order standard electrical power harness.

Hardwire Chicago Code (page 308)

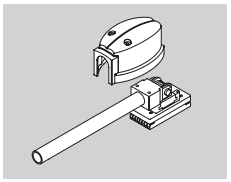
- Wiring harnesses and snap connectors are not allowed in Chicago — base pathways must be comprised of all-metallic components.
- The base pathway, junction box (model 873600) clips directly into receptacle locations and can be used both single- and double-sided.
- Customer must furnish conduit, wiring, and designer-type receptacles for the base pathway and conduit, wiring, designer-type receptacles, and receptacle covers for the beltline.
- Power entry can be routed from the floor into a junction box (model 873600).



Electrical Infeeds

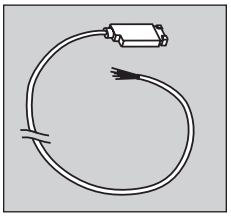
- Power infeed cables deliver power from building to panel's electrical system.
- Infeed cables are housed in conduit to separate electrical system from communications and data lines.
- Select quantity of base or ceiling infeed cables depending on individual power requirements.

Base Infeed (page 307)



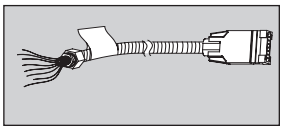
- Sealtight base pathway power infeed mounts into any receptacle position in the base pathway area.
- A heavy rubber sheathing shields conduit, allowing infeed to be exposed.
- A jumper is required to connect base pathway power to beltline.

Sealtight Electrical Infeed (page 307)



- Sealtight electrical infeed cable is used with footed panels.
- Should not be ordered prior to installation to have pre-wired as infeed must be routed from inside of panel out to be connected to power.
- Cannot be connected to power harness in panel frame that infeed is brought into unless additional pass-thru harness without power block is used to feed from below beltline to above beltline.

Power Infeed (page 307)



- Power infeed connects to a prewired electrical harness in the power rail.
- Most codes allow flex conduit to be exposed after installation. Verify code requirements before ordering for exposed application.

To Order:

1. Determine which electrical system you will use after consulting your electrician and computer support personnel:
   - The Four-circuit system (4-Hot/2-Neutral/2-Ground)
     - 3 + 1 option
     - 2 + 2 option
   - The three-circuit system (3-Hot/3-Neutral/2-Ground)
   - The eight-circuit system (back-to-back four-circuit systems)
2. Determine location, quantity, and circuit of duplexes.
3. Determine the appropriate choice and use of isolated, isolated/dedicated, and separate neutrals circuits.
4. Specify appropriate power harnesses* and pass-thru cables.*
5. Determine the location, quantity, and type of power infeed needed.

Reference Page

* Select power harness models (A8712XX), with the last two digits corresponding with the panel width into which the component is to be positioned.
The initial cable length can be stretched approximately 3" to transverse "T", "X", "L", and extended straight connectors.

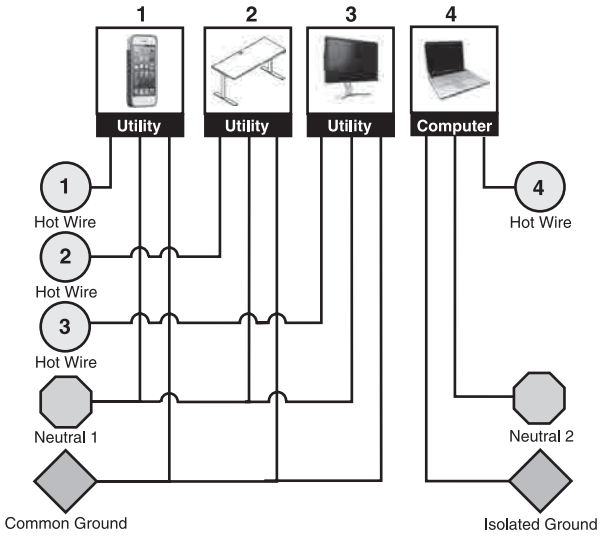
Flexconnect™ Electrical System Options

The four-circuit, eight-wire electrical system is widely specified and trusted by hundreds of thousands of end-users. This proven system delivers four circuits for every power infeed in either a 3 + 1 or 2 + 2 configuration. The isolated/dedicated circuits are ideal for sensitive computing equipment, while the common circuits are suitable for faxes, copiers, task lights and other peripherals. Both the 3 + 1 and 2 + 2 systems use the same pre-wired components, making it easy to adjust as electrical needs change.

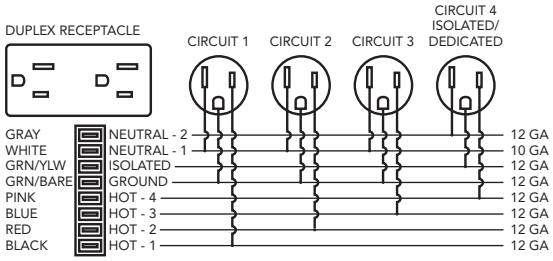
You can also choose a three-circuit, eight-wire system that has a dedicated neutral for every hot circuit. The three-circuit components have model numbers with an “A” suffix and appear in a gray box in this pricer.

All three systems utilize an eight-wire electrical system rated at 20 amps per circuit (15 amps Canadian). Concensys panels and electrical components are UL listed and CSA certified.

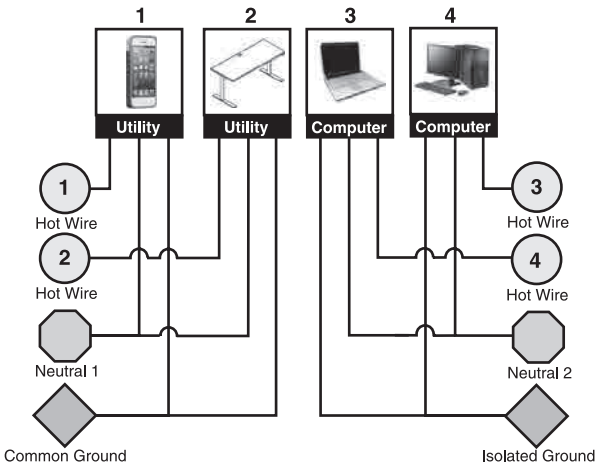
Four-circuit, 3 + 1 Receptacle Option



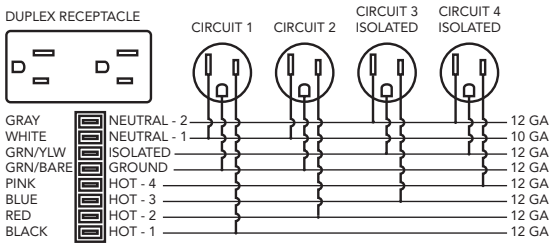
The 3 + 1 option is the electrical standard used on Allsteel systems for many years in most installations. This wiring option provides three utility circuits plus an isolated/dedicated circuit for more sensitive equipment. Circuit 2 (one of the 3 common circuits sharing a neutral wire) cannot be used with single-phase building electrical supply.



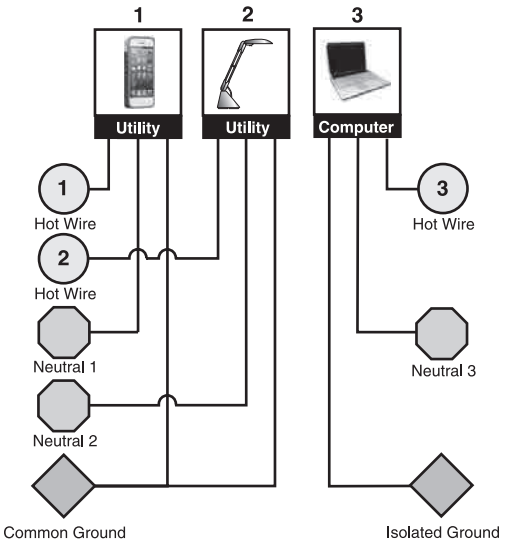
Four-circuit, 2 + 2 Receptacle Option



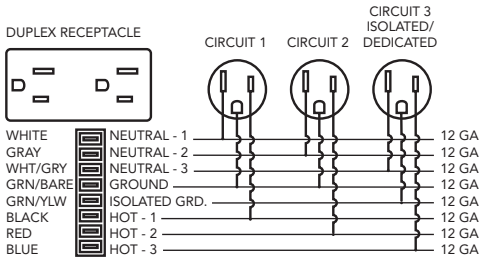
The 2 + 2 option is a wiring option that provides two utility circuits and two isolated circuits for more extensive computer usage applications.



Three-circuit, separate neutrals



The three-circuit, separate neutrals configuration is a wiring option that provides separate neutrals for each of the three circuits. Two circuits share a common ground, and one circuit is isolated/ dedicated. The three-circuit components have model numbers with an "A" suffix.



Altitude System Receptacle Usage

Two 8-wire, 20 amp (15 amp Canadian) electrical systems are offered					
Electrical System	Circuitry	Receptacle Capacity			
Four-circuit 4-Hot/2-Neutral/2-Ground	**3 + 1**	Common Circuit-1 **A873501**	Common Circuit-2 (1) **A873502**	Common C ircuit-3 **A873503**	Iso/Dedicated Circuit-4 **A873504**
	2 + 2	Common Circuit-1 **A873501**	Common Cir- cuit-2 **A873502**	Isolated Circuit-3 **A873506**	Isolated Circuit-4 **A873504**
Three-circuit 3-Hot/3-Neutral/2-Ground	**w/separate neutrals**	Common Circuit-1 **A871501A**	Common Circuit-2 **A871502A**	Iso/Dedicated Circuit-3 **A871503A**	N/A

(1) Circuit 2 (one of the 3 common circuits sharing a neutral wire) cannot be used with a single-phase building electrical supply.

Notes:

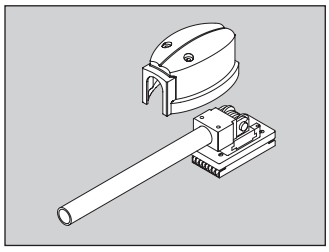
- Four-circuit components and three-circuit components (with suffix "A") cannot be used together.
- Components of the two systems are keyed differently to prevent components of one system being connected to components of another system.
- Allsteel model numbers are printed on the UL labels, and components are color-coded to provide visual identification of the different components.
- Four-circuit components have black plastic parts.
- Three-circuit components have rust-colored terminal ends and receptacle backs are rust-colored.

Duplex Receptacle

15 amp receptacle

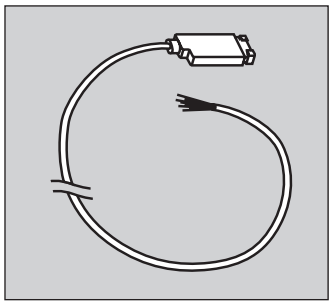
Infeeds

- Power infeed cables deliver power from building to A8 Power Rail's electrical system.
- Infeed cables are housed in conduit to separate electrical system from communications and data lines.
- Select quantity of infeed cables depending on individual power requirements.



Base Infeed:

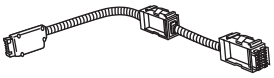
- Sealtight base pathway power infeed mounts into any receptacle position in the power rail housing.
- A heavy rubber sheathing shields conduit, allowing infeed to be exposed.



Sealtight Electrical Infeed:

- Sealtight electrical infeed is used for power entering through the end cap.
- Should not be ordered prior to installation to have pre-wired as infeed must be routed from inside of the power rail out to be connected to power.

Power Harness



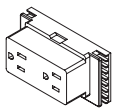
Electrical power harnesses are used to distribute power in the power rail. **Power blocks** on electrical power harness accept duplex receptacles.

- Electrical power harnesses are used to distribute power in A8 Power Rails. Harnesses must be installed in each power rail housing.
- Specify harness length to match rail housing length. Each power harness accepts four duplex receptacles (two on each side of power rail housing).
- Connectors at both ends of power harnesses allow power distribution in either direction.
- Harness power blocks snap directly onto brackets in power rail housing.

Power Blocks

- Power blocks snap directly onto brackets in the power rail and accept receptacles (sold separately) on each side of harness.

Duplexes



Duplex Receptacles

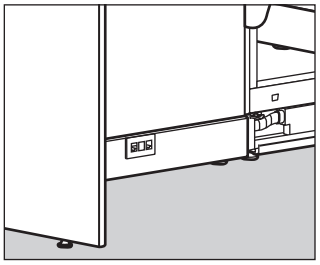
Receptacle Color Recommended to Coordinate with Paint Color

Paint Color	Receptacle Color
Bungalow — P7C	Muslin — EU
Champagne Metallic — PR5	Muslin — EU
Cinder — P7Q	Brownstone — EY
Fossil — P28	Flint — E9
Gunmetal Metallic — PR3	Brownstone — EY
Parchment — P93	Muslin — EU
Pebble — P8R	Loft — EV
Pewter — P8D	Flint — E9
Platinum — PR2	Loft — EV
Platinum Metallic — P42	Silver — E5
Salt — P8C	Silver — E5
Titanium — P8T	Silver — E5

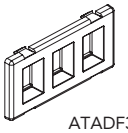
- Duplex receptacles snap into power blocks of power harnesses.
- Duplexes are available in multiple colors. See inside front cover for finishes.
- Each receptacle is labeled to indicate which circuit it will be connected to: 1, 2, 3 or 4.
- Duplexes are model specific to support either 3 + 1 and 2 + 2 electrical infeed; or have an "A" suffix and are designed to support a three-circuit separate neutral electrical infeed.
- At least one duplex must be installed in upper housing side of rail housing assembly (see page 305, "Working with Electrical and Data").

Reference Page

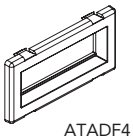
Data



Voice/Data Receptacle



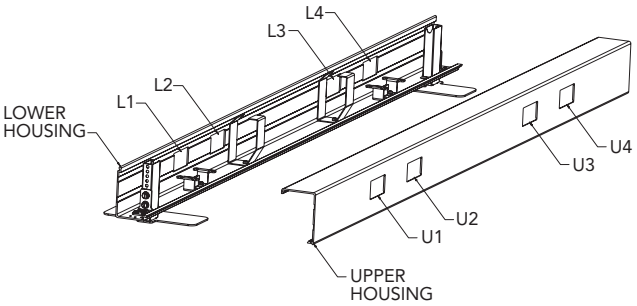
ATADF3



ATADF4

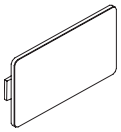
Data Faceplates:

- Fit into data port openings in Power Rail Housing.
- Due to rail housing depth, data modules should not be used back-to-back.



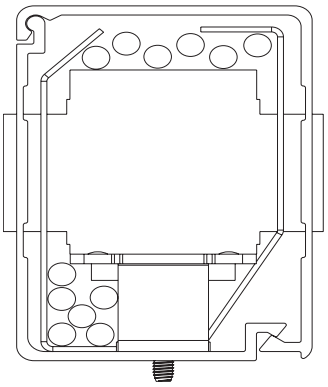
- Ports 1 and 4 accept duplexes, port covers and base infeeds.
- Ports 2 and 3 accept data and port covers.
- Either U1 or U4 must always contain a duplex.
- Data cannot be back-to-back (data in L2 + U2 or L3 + U3 combinations are not permitted).

Port Cover



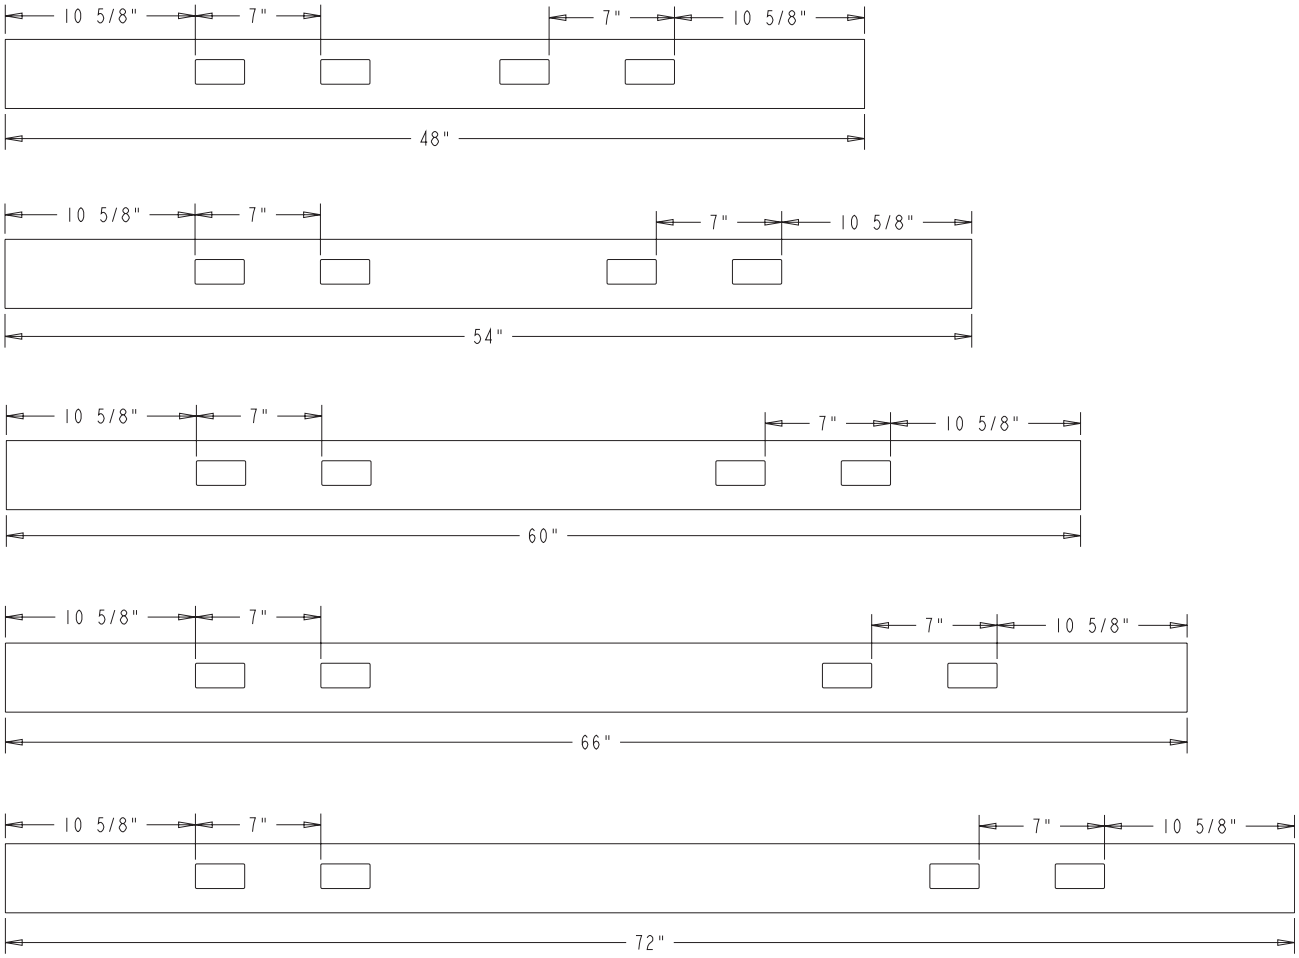
- Port covers must be used where no duplex or data faceplate is present.
- Fits into A8 Power Rail port locations in place of duplex receptacles and data faceplates.
- Does not fit into port sizes of other product lines.

Cable Capacity



- The power rail housing allows continuous voice and data lines to run without interruption.
- Lay-in is provided for environments where systems furniture or cabling are subject to frequent change.
- Lower cavity allows 6 voice/data cables (¼" dia).
- Upper cavity lay-in allows 6 voice/data cables (¼" dia).

Power Rail Receptacle Locations



- For example, in a four-circuit system:
  Circuit 1 — calculators, fans, etc.
  Circuit 2 — task lights (could be wired to wall switch)
  Circuit 3 — CRT or flat screen monitors
  Circuit 4 — CPUs
- Use circuit 4 for power-sensitive electronic equipment.

Placement of pedestals and lateral files may render some duplex locations inaccessible. Pedestal placement may also affect compatibility with pull-up receptacles.

For specification information see page 303.

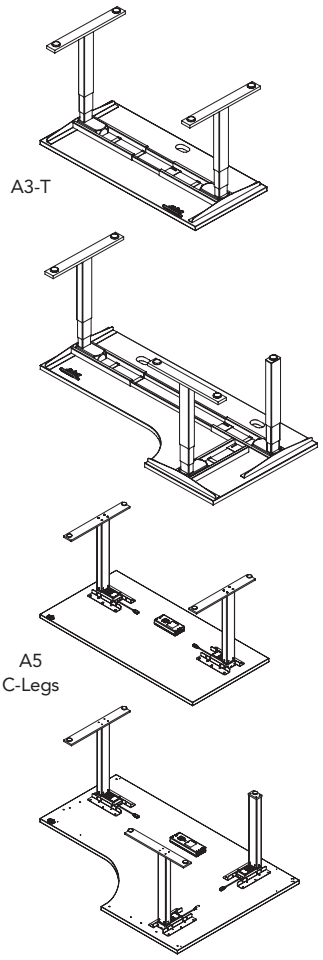
Bottom Views



Note: A3 height adjustable tables discontinue 12/31/20. See Allsteel's new A6 Height-Adjustable table for an updated, comprehensive offering.

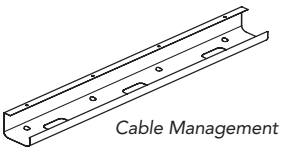
Height-Adjustable Worksurfaces, Bases, and Controls

Height-Adjustable Worksurfaces (page 285)
- Height-adjustable worksurfaces are available in laminate with flat edge and rectangular veneer with matching square edge.
- T-mold is used on the edge of curved worksurfaces. This will have a noticeable visual difference when directly adjacent to straight worksurfaces.
- Worksurface dimensions are nominal. Actual widths are reduced by 2" (1" each side) and worksurface depths are reduced by ¾". Corner cove depth is nominal, actual is 1" less.
- Altitude worksurfaces are pre-drilled with mounting location for bases.
- Any open span 60" and greater requires an external support channel. Altitude corner cove and 66"-72"W rectangular worksurfaces include an external support channel.
- Rectangular worksurface grommet location is limited to center location due to mounting of worksurface supports at each end of the worksurface.
- A5 load capacity is 300 pounds for 2-leg models and 450 pounds for 3-leg model, including weight of worksurface. A3-T load capacity is 250 pounds for 2-leg models and 400 pounds for 3-leg models, including weight of worksurface.

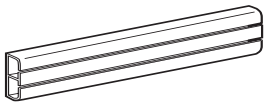
Height-Adjustable Bases (page 320)
- Electric height-adjustable base units are available in four styles: A3-T Base with two legs, A3-T Base with three legs, A5 C-Legs with two legs, or A5 C-Legs with three legs.
- A3-T models travel at 1.4" per second. A5 models travel at 1.5" per second. Motor devices have a continuous cycle time of 2 minutes with an 18 minute rest period before it can be cycled again.
- Control box is powered by 110-120V/60Hz/4A. Standby power is < 0.1 Watts. Power cords on A5 and A3-T models are 10'.
- Pedestals taller than 24½" for 2-stage models and 19½" for 3-stage models when placed under table will limit range in lowest position.
- Mobile box/file pedestals will clear feet on height adjustable base but will extend past edge of worksurface in that position. See chart on page 318.
- Moving worksurfaces can collide with other components. It is important to ensure free range of motion prior to operating the table.
- All tables have adjustable glides providing ⅛" adjustment on A5 and ½" adjustment on A3-T.
- The no crossbar design of the A5 exceeds knee clearance recommendations and provides optimal undersurface mounting capability.
- 3-Leg bases can accommodate worksurface configurations from 24"D x 48"W x 48"W to 30"D x 72"W x 84"W and 36"D x 48"W x 48"W to 36"D x 72"W x 72"W.

Memory Controls (page 320)
- A3-T models come standard with control box with 4 memory set user heights.
- Optional control paddle allows for 4 memory presets, Bluetooth conductivity, and reminder functionality with A5 model.
- ATBCMC is not compatible with A3 tables.

Cable & Wire Management



Cable Management Tray



Wire Management Channel

Cable Management Tray (page 287)
- Attaches under the worksurface to contain cables.
- Metal tray shelf is 4" deep. Can hold electrical power strip and/or surge protector.
- 24" and 36" lengths, use multiple units for larger worksurfaces.
- Attachment hardware included, specify paint color.

Wire Management Channel (page 287)
- Self adhesive backing to attach to panels and underside of worksurfaces.
- Flexible strips allow cabling to enter/exit and can be contained inside the 2-cavity profile.
- Each cavity provides space for a maximum of six .22" dia. cables. Total capacity = 1 sq. in.

Cord Management Chain (page 287)
- Works with Approach and Altitude A5 and A3-T units.
- Used to route and conceal power/data cables from control box and other devices. Includes all mounting hardware and a plate to secure to a leveling glide.
- Houses 6 cables @ 0.300" diameter.
- Made of plastic chain with plastic attachment brackets at each end. Only comes in Black finish.

Under Worksurface Trough (page 287)
- Used to conceal wires and control box below worksurfaces. Trough can be configured at various height/width combinations to meet capacity needs — see illustrations below.
- On 48"W and 54"W worksurfaces use one 17"W trough. 54"W has space to use 2 – 17"W, if necessary.
- On 60"W, 66"W, and 72"W worksurfaces use the 36" trough.
- On 84"W worksurface use 2 – 17"W troughs.

Hinged Trough (page 287)
- Mounts beneath a worksurface. Used to conceal control box kit and extra cord slack.
- May be used in conjunction with quad tap unit UNQTMP to reduce the number of cords routed from a worksurface to a beam.
- Must specify at least 24" shorter than worksurface.
- Trough is user accessible, but may be fastened to worksurface if desired.

Quad Tap (page 287)
- Under surface mounting, used on any worksurface.
- 10' Power cord. UL Listed
- 4 Simplex receptacles.
- May be used in conjunction with hinged trough to reduce the number of cords routed from a worksurface to a beam.

Note: A3 height adjustable tables discontinue 12/31/20. See Allsteel's new A6 Height-Adjustable table for an updated, comprehensive offering.

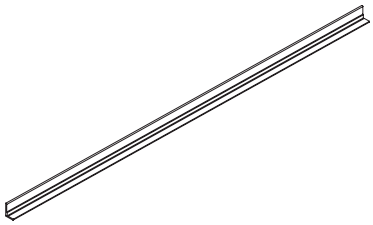
Reference Page

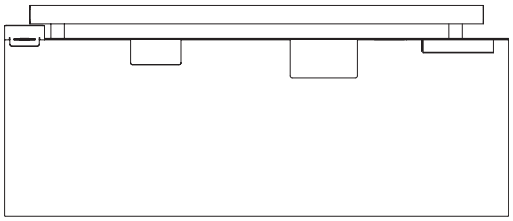


Worksurface Mounted Rail (page 322)
- Aluminum extrusion designed to mount to flat edge worksurfaces. Comes with rail and hardware for mounting.
- Mounted rail extends ¾" on underside of worksurface which may interfere with the mounting of storage and screens.
- Widths available for Altitude tables 12" through 66" in 6" increments. Can pass across seams of ganged worksurfaces in tethered applications.
- Passes behind worksurface bracket on tethered applications.
- For freestanding applications rail should be 6" shorter than worksurface (i.e. 54" rail for 60" worksurface).

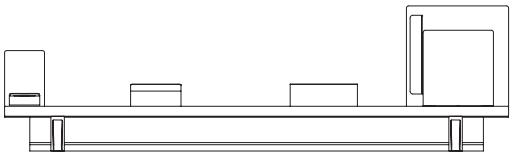
Rail Accessories

Side View

Top View



Phone/ Tablet Stand | Pencil Holder | Rail Mounted Shelf | Vertical Paper Tray



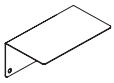
Front View

Rail Mounted Accessories

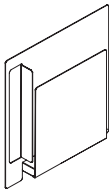
Not recommended for use on panel systems with attached worksurfaces due to fit up issues created with worksurface and panel. Adding accessory rail shifts worksurface — 3/16" away from panel along that edge. Forcing worksurface into place crushes fabric tile and with tiles of other material (steel, marker board, etc) is likely to scratch, dent, or otherwise damage tile during installation.

U9TM Phone/Tablet Stand (page 322)
- 6⅝"H x 4¾"W and angles back 1¾".
- Has a ¼" x 1" slot in bottom flange to allow for routing cables. Requires 1¾" space behind worksurface edge in order to be used.

U9TP Pencil Holder (page 322)
- 2⅝"H x 6"W x 3"D.
- Holds approximately twenty #2 pencils.



U9TS Rail Mounted Shelf (page 322)
- 8"W x 4½"D and sits 2⅜" higher than top of worksurface.
- Holds up to 8 pounds.



U9TF Vertical Paper Tray (page 322)
- Sits 12"H x 1½"W x 12"D from back of worksurface.
- Folder front stands 9" high from worksurface top, 1¼" space holds about 280 sheets of copy paper.

U9WTC Cord Organizer (page 322)
- Can attach to both bottom of worksurface or slides into rail.
- 4"W x ⅞"D, made from sheet metal.
- Top sits flush with worksurface if mounted to worksurface.
- 4 cable cut outs: 2 – .250" diameter and 2 – 0.147" diameter; .250" diameter cut outs are centered between the .147" diameter cut outs.

Universal Hook (page 322)
- Mounts to underside of worksurface and provides storage for bags, coats and purses. Can be used as a horizontal wire manager.

Extensions™

Extensions — Introduction

Extensions accessory line by Allsteel is designed to help you create your own space.

- **Create a unique space**

  Each person is unique, no one person works exactly like another, and different tasks require different tools. Extensions work tools allow each person the ability to create a unique environment that is all their own. Lots of paper to manage? Need active files within arm's reach? Want to maximize your worksurface space? Need light somewhere other than below a cabinet? Whatever the task, we have the tools to accommodate your workstyle.

- **Create a comfortable space**

  With a full line of organization, ergonomic, and illumination tools, Extensions allow you to create a comfortable, ergonomic work area. Organization tools keep important items visible and within your reach. Ergonomic tools help you stay comfortable while working. Illumination tools allow you to put your light where it suits you.

- **Create an organized space**

  Tired of all the piles of paper building up on your worksurface? Organization tools house your materials and keep them in an orderly fashion. With a combination of hanging or freestanding organizational accessories, Extensions let you manage everything from binders to paper clips.

- **Organization tools**

  Work tools are a durable metal construction. Extensions allow you to manage your workspace smartly with tools like the phone caddy to elevate the phone off the worksurface, landscaped mail box trays to minimize worksurface intrusion, folder holders and tool box pencil holders that hang off the slat rail and each other.

  Increase your efficiency with organization!

- **Ergonomic tools**

  Ergonomics is more than just comfort, it's flexibility and safety. The adjustable keyboard options allow users to maintain and vary comfortable wrist and arm positions throughout the day, whether typing or mousing. Monitor Arms offer versatile adjustability while providing optimum comfort for the eyes, neck, and shoulders.

- **Illumination tools**

  Sleek and flexible, our lighting components offer you several choices. Recessed task lights conserve space and feature electronic ballast for longer bulb life and cooler operating temperature. LED tasklights' slim design blends in with its surrounding while utilizing energy-efficient LED technology. The Link light offers award-winning style to a highly versatile and energy efficient light.

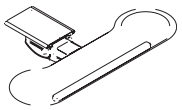
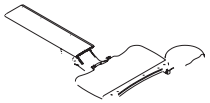
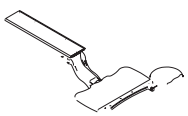
AKTSHORT Keyboard Support (page 325)



- Lift and lock intuitive height adjustment.
- Compatible with Altitude Height Adjustable Tables
- Positive and negative tilt for best ergonomic positioning.
- +10°/-20° tile adjustment and 360° rotation provides support of neutral position of shoulders, arms and wrists while accommodating multiple working postures.
- Surpasses ANSI/BIFMA standards.
- Black powder coat finish.
- Patented secondary slide and unique arm design provide minimal footprint.

AKTMID and AKTLONG Keyboard Support (page 325)





- Lift and lock intuitive height adjustment.
- Positive and negative tilt for the best ergonomic positioning.
- +10°/-20° tilt adjustment and 360° rotation provides support of neutral position of shoulders, arms, and wrists while accommodating multiple working postures.
- Non-handed mouse tray can be moved from right hand to left hand side.
- Surpasses ANSI/BIFMA standards.
- Black powder-coat finish.

Keyboard Spacer Kit (page 325)

- Keyboard Spacer Kit required for mounting under Altitude worksurfaces.
- Kit provides ten spacers and hardware for mounting keyboard supports beneath an external worksurface support channel.
- Spacers are 2⅛"H providing more room beneath surface for mounting.

CPU Hammock (page 325)

- Features 360-degree swivel with an 11" track.
- Load capacity is 75 lbs.
- CPU must be minimum of 3¼"W with maximum dimension of 64" in perimeter.
- Handy adjustment tool stores within unit.
- Safety feature prevents accidental release of straps and straps can be adjusted while CPU is installed.
- Can be used on Height Adjustable Tables as long as it is attached with spacer model AKMH. Take into account required leg room for users.

For specification information see page 324.

How to specify —

Select the Model Number from above.

Examples: **AKMH ACPU1**

S *Shippable by small-package carrier.*

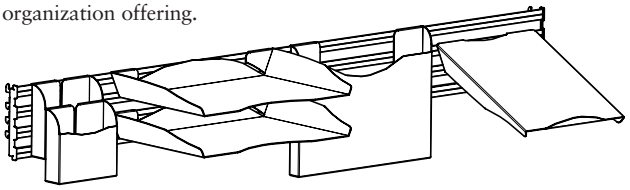
Allsteel's tool rail works in conjunction with a variety of accessories. Modular accessories free up worksurface space and provide orderly storage that is well within reach. Units can be arranged and rearranged to respond to changing workflow. The work tools that attach to the tool rail are:

- Mail Box
- Folder Holder
- Phone Caddy
- Binder Bin
- Tool Box
- Clip Caddy™
- Sidebar™ Personal Shelf
- Paper Wave™
- Gripper Clip

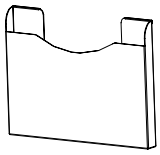
Additional accessories that work with the **tool rail work tools** aesthetically are:

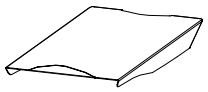
- Bookends
- Freestanding Mail Box

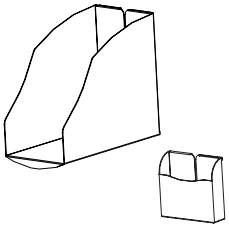
Coat hooks, marker boards and center drawers round out the organization offering.

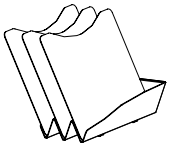


Tool rail, shown above, is height-adjustable in 1" increments using slots in panels or metal hutch. Tool rail shown with two tool boxes, two mail boxes, folder holder, and phone caddy. Folder holders and binder bins extend below a tool rail. Paper Wave and contents extend above a tool rail.









Tool Rails and Work Tools (page 329)
- Sturdy aluminum extrusion with steel support construction.
- Powder coated for durable finish.
- Use to hang Extensions tools. Cannot be used to support monitor arms.
- Suggested weight capacity not to exceed 80 lbs.
- Consideration needs to be given to height of tools and location of worksurfaces.
- For use with Stride®, Terrace®, Concensys®, and Optimize™ systems.
- 5" high rail (widths coordinate with panels).
- Attachment via vertical reveals.
- Can be hung from wall track. Good solution for above copiers.
- Systems tool rail is off-modular — can be used on a panel of equal width or one size smaller.
- May span two panels of appropriate size, i.e., 60"W Tool Rail on two 30"W panels.

Tool Rail for Hutches (page 329)
- Will work on Universal, Terrace, Optimize, and Concensys system hutches produced after July 2, 2000 and Align™ metal hutches.
- Sturdy aluminum extrusion with steel support construction.
- Powder coated for durable finish.
- Use to hang Extensions tools. Cannot be used to support monitor arms.
- Suggested weight capacity not to exceed 80 lbs.
- Consideration needs to be given to height of tools and location of worksurfaces.

Mail Box (page 330)
- Holds standard letter-size paper and inter-office envelopes.
- Minimal horizontal intrusion.

Folder Holder (page 330)
- Holds manila envelopes.
- Is capable of hanging on other folder holders to maximize space.
- Stores vertically for easy access to files.

Phone Caddy (page 330)
- Holds telephone at optimum ergonomic angle.
- Wire management cut-outs.
- Accommodates standard phone sizes.

Binder Bin (page 330)
- Holds folders, binders, and manuals.

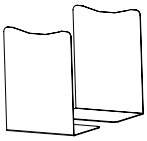
Tool Box (page 330)
- Holds pencils and other writing utensils, large post-it notes, and other desk top accessories.

Clip Caddy™ (page 330)
- Holds paper clips and other small objects.

Sidebar™ Personal Shelf (page 330)
- Holds office supplies and personal effects.

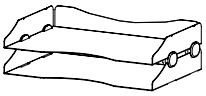
Paper Wave™ (page 330)
- Provides 3 fully divided slots for organizing files.
- Keeps papers from "bowing" at bottom.

Gripper Clip (page 330)
- Binds project papers together.
- Mounts to tool rail or tool tile.



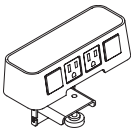
Bookends (page 330)
- Can be used on shelves or in cabinets.
- Used to hold books, binders, and catalogs upright.

Freestanding Mail Box (page 330)
- Incorporates similar aesthetic to mounted Mail Box.
- Mounting brackets allow for free access from front and back.
- Sold in pairs of two; will stack up to eight high.
- Individual mail box dimension = 1¾"H.
- Stacking brackets are black.

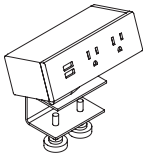


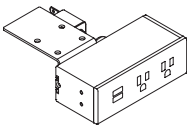
Coat Hook APMC6 (page 330)
- Hangs directly into slotted Stride®, Terrace®, Optimize™, or Concensys® panel frame.
- Use for coat or bag.
- Package of six.
- Available in black only.

Power/Data Modules — Clamp On Worksurface (page 336)
- On-surface mounting option, fits on any worksurface with a 4" overhang.
- 6' Power cord. UL Listed.
- Includes adapters to allow use of commercially available data terminals or blanks to fill unused openings. Many of the AMP, AT&T, Krone, Leviton and most commercial data terminals can be used.



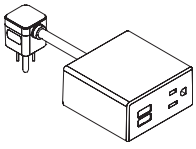
Power/Data Modules — Clamp On Worksurface (page 336)
- Worksurface clamp can be used on any surface with a 2½" overhang.
- Must be installed at time of initial worksurface installation if installing between a worksurface and panel.
- 6' Power cord. UL Listed.
- The USB hub allows simultaneous powering of 2 USB-A devices. The USB hub is a charger only, no ability to connect to a PC. The charging capacity is limited and may not charge all devices.
- Qi compatible wireless charging available on select models.





Power/Data Modules — Under Worksurface (page 336)
- Under surface mounting can be used on any surface with a 5" clearance.
- 6' Power cord. UL Listed.
- Hardware not included.

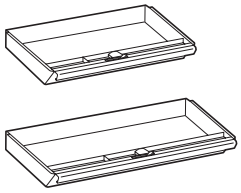
Worksurface Power/Data Module (page 336)
- Provides easy access to technology at primary worksurface.
- Mounts to edge of a worksurface and requires ⅜" gap. Consider whether ⅜" gap will work with layout.
- Must be mounted at time of initial worksurface installation if mounting between a worksurface and a panel. Maintaining ⅜" gap may not be possible with worksurfaces that are panel wrapped.



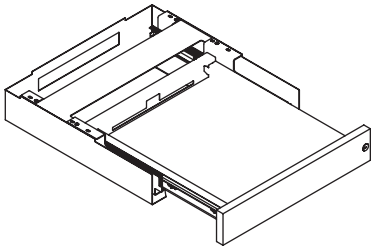
Miki Power Modules (page 336)
- Table top and undermount units.
- Hardware not included on undermount.
- 6' Power cord, UL Listed.
- 1 AC power and 1 dual USB configuration.

Vesta Mobile Power (page 336)
- 3 AC power simplex, 1 dual USB-A, 1 USB-C configuration.
- 10' Retractable power cord, UL Listed.
- Unit weighs 13 lbs.

Reference Page



Metal Center Drawers (page 331)
- All metal center drawers feature pencil trays with three compartments for storage.
- Center drawers will not fit in center of 24"D worksurfaces which are wider than 60" due to location of center support bracket.
- For locking specifications, see pages 342-343.
- Ball-bearing slide suspension.

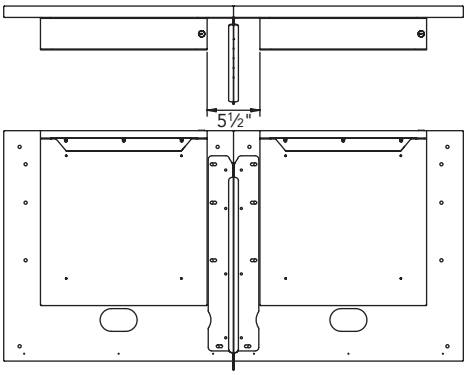


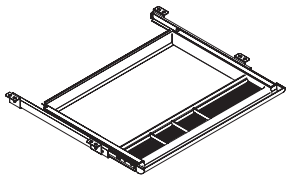
Laptop Drawer — U7WDA (page 331)
- Drawer body made of sheet metal.
- Drawer front made of ¾" particleboard with laminate on both sides and fused laser edge banding.
- Core removable lock is located on right side drawer front
- 17⅝"W x 18"D x 3⅜"H Outside (interior 13"W x 16"D x 1⅞"H)
- Minimum surface depth is 21" for surfaces not using an external stiffener; and 27" for surfaces using an external stiffener.
- Drawer extends 16"
- Maximum load: 45 lbs (functional BIFMA load)
- Drawer assembly and cover have cut out in back to allow for cables to exit drawer.
- Distance from floor to bottom of unit w/glides fully retracted is 24¾".
- Does not interfere with Further leg mounting plates so drawer can be placed directly next to either a system or table leg.
- When being placed next tower storage using the tower ell bracket (Z6LB) to support surface the drawer must be inset 3" to clear the ell bracket.
- Can be placed directly next to any support storage from any Allsteel product line (excluding towers).
- Flat brackets — drawer must be offset 3" from seam between surfaces to clear the bracket. See illustration at left.
- Can be used with rabbet edge worksurface models but there will be a larger reveal between surface and drawer.
- Can be used with knife edge worksurface models but reveal and depth need to be considered.

Flat Brackets

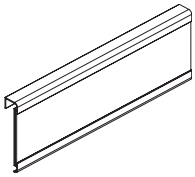
Front View

Top View





Polymer Center Drawer - ACD1 (page 331)
- 20½"W x 17"D x 2"H
- Available in black only
- Made from ABS.
- Minimum clearance for mounting: 23"W x 16¼"D x 2"H.
- Retracts on 16" ball-bearing slides.
- Can be used on worksurfaces with Height Adjustable Bases as long as it is attached with spacer model AKMH.
- Can store up to 25 lbs.



Name Plate (page 330)
- Comes in a 10-pack.
- Metal backer installs under a Terrace or Optimzie top cap, can be used with frameless glass.
- Cover is a transparent polycarbonate insert.
- Full plate is 8½"W x 2⅜"H.

For specification information see pages 326-327.

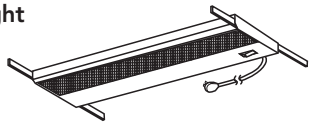
Allsteel Extensions offers Illumination in three styles — Undercabinet LED Light, Wand Light, and Link Light.

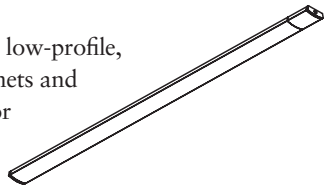
Recessed Undercabinet LED Light



Recessed task lights conserve space and provide an efficient solution for illuminating the workplace. All models are equipped with LED strips.

Recessed task light models mount under storage cabinets or shelves to provide optimal space utilization. Models are available in two styles and three sizes to correspond with the width of the cabinet or shelf. Task lights with a fused plug are available to meet Chicago electrical code.

Undercabinet LED Light

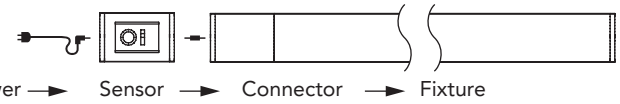


The Undercabinet LED Light is a low-profile, linear solution for overhead cabinets and shelves and is an ideal solution for painted wood storage. It utilizes energy-efficient LED technology which provides a long life. The Undercabinet LED Light provides the opportunity to mount the fixture where light is needed most.

The Undercabinet LED Light features a metal trough reflector with diffuser lens. The light has a sleek ½" thick profile and provides two options for mounting, either magnetically or with hardware. Undercabinet LED Lights can be daisy-chained.

Optional undercabinet occupancy sensor is available which will automatically turn off the fixture after 30 minutes of no detection and back on immediately as the user re-enters the detection range using Passive Infrared (PR) sensor technology. Unit features 360° lens with 90° outward detection angle, providing a 36" coverage diameter at 18". Occupancy sensor comes with connector and is required to be connected in the sequence shown below. Connect occupancy sensor to a light, or first light in daisy chain to control all linked lights.

CONNECTION SEQUENCE*



*Cannot deviate from this sequence

Recessed Task Lights (page 334)

- Black Metal Construction with 9' long black cord attached to right rear corner of the fixture.
- LED strip comes installed within light.
  –50,000 hour life span
  –120V-277V
  –CCT 4000K
  –CRI 80+
- Includes 4 cord retainer clips.
- Shorter width models can be used on wider overheads, shelves and hutches.
- On/Off switch provides individual control of tasklight within the workstation.
- Daisy chain models require a master control model — 10 fixtures maximum.
- RECOMMENDATION: Provide a separate circuit for task lights to ensure proper, long-term operation.

Undercabinet LED Lights (page 334)

- Low profile energy-efficient LED task light for use with overhead storage cabinets and shelves.
- 20W power supply for 10W 17" unit (.166 amps).
- 20W power supply for 20W 31" unit (.166 amps).
- 60W power supply for daisy-chain starter units (.5 amps). Must order one starter unit for each daisy-chain application.

LED Light Combinations Must Not Exceed 60W in Combination	Power Usage
6X 17"	60W
3X 31"	60W
1X 31" + 4X 17"	60W
2X 31" + 2X 17"	60W

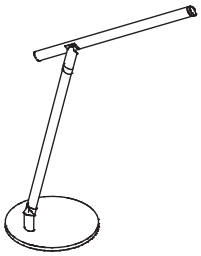
- The combinations that could max out 60W are featured above. *Daisy chained units have a power limit of 60W from one power entry. 17W units use 10W and 31W units use 20W.*
- Specify up to 5 additional 17" interconnect units (ALED17UJMP30) to daisy-chain together with 17" daisy-chain starter fixture (ALED17U60).
  Example: Daisy-chain 4–17" undercabinet LED lights:
  Specify: 1 ALED17U60
  Specify: 3 ALED17UJMP30 with 10" jumper cord
- Specify up to 2 additional 31" interconnect units (ALED31UJMP30) with 10" jumper cords to daisy-chain together with 31" tasklight (ALED31U60); or 17" daisy-chain starter fixture (ALED17U60).
- 3500K color temperature.
- 131 footcandles at 18" on ALED31U; 76 footcandles at 18" on ALED17U.
- Magnetic or screw-mount option — attachment hardware included.
- On 20 watt models, power drive is attached to plug: allow 1⅞"D space at outlet.
- On 60 watt models, power drive brick is in center of cord.
- Includes 3 cord retainer clips.
- Meets California Title 24 Energy Efficiency Standards.
- "Instant On" switch with infinite dimming cycle from 100% to 15% with the last state memory, allowing the user to set their desired level of lighting.
- Fixture automatically turns off after 10 hours of use to reduce unwanted energy use.
- Optional occupancy sensor automatically turns off all interlinked fixtures after 30 minutes of no detection and back on immediately when detection is found.

Overhead Length	Suggested LED Sizes
24	17
30	17
36	17
42	31
48	17 + 17
60	31 + 17
72	31 + 31
Note: LED lights may need to be positioned along length properly to allow jumping to additional overheads. Suggested sizes above are recommendations for single overheads to provide as much light along length of overhead as possible.	

The suggested sizes factor in 4 inches of room for the power inlet and occupancy sensor (optional).

Reference Page

Wand™ Task Light



Wand freestanding task light offers a clean, simple design along with powerful LED technology to illuminate the workspace. The swivel base and arm tilt allow users to position the light just where they need it. The 7.7 watt LED light offers efficiency and long life, providing up to 25 years of daily use. The slim, sleek design makes it easy to integrate into any workspace. Wand task light is 97% recyclable. Occupancy sensor and/or charging models available.

Wand LED Freestanding Task Light (page 335)

- Available in Silver or White. 9'4" cord is Silver.
- Full range dimming from 100% – 10% with last state memory.
- Uses 5W at highest setting and as low as 1 watt at its lowest setting, providing 75 to 12.7 footcandles of light, respectively (16" above worksurface).
- 7½" round swivel base and 16½"H tilt arm allow versatile positioning of the 13" lampshade.
- Designed for 50,000 hours of life.
- Color Temperature: 3500K. Color Rendering Index (CRI): 80.
- Materials: aluminum arm and lampshade, steel base.
- Weight: 4.4 lbs. 97% recyclable, 76% post-consumer.
- Certifications: UL and CUL. TAA compliant.
- Occupancy sensor available with automatic shut-off after 15 minutes if no motion is detected.
- USB model features USB-A (1), USB-C (1) charging within base of unit.
- USB model also features occupancy sensor. 7.5W (A) & 18W (C) power consumption.

For specification information see pages 332-333.

*Use of APACSM Slider Model will allow for wider monitor capabilities

Pivot Standard Weight Monitor Arms

- Adaptable and adjustable to user preference the Pivot monitor arm offers a slim and refined design coupled with easy fingertip adjustment.
- Multiple points of adjustment including 360 degree swivel with optional 180 degree lockout, 18.75" extension, and 10" of height adjustment.
- Monitor tilts +25/-25 degrees.
- Standard weight arms utilize a tension spring that allows for effortless adjustment of monitors to proper ergonomic positions.
- Tension adjustment at multiple points allows for proper adjustment for monitors weight between 6-17 lbs.
- Model includes grommet and worksurface mounting options.
- Desk clamp mounts require ⅞" –2" thick surfaces; grommet mount requires hole diameter of 3/16" to 2" wide and accommodates up to 2" thick surfaces.
- Integrated cable management included with each model. Black models ship with all black cable management pieces, Silver models ship with grey wire management but optional white pieces ship in the box and can be installed on site.
- Dual monitor arm supports up to 25" wide monitors. Wider monitors may require use of optional slider mount model.
- Pivot Clamp mounts can be specified with 60"D (Z660ELN) and 72"D (Z672ELN) Stride benching applications.
- Pivot or other monitor arms cannot be clamp mounted on 54"D Stride benching applications, ZG54ELN, (27"D worksurfaces) due to beam obstruction under the worksurface.
- Pivot arms are VESA 75mm and 100mm compatible.
- Quick release feature simplifies monitor installation and changes.

Pivot Slider Mount

- Provides 11.8" of horizontal movement.
- Allows for wider monitors to be used on dual monitor arms and sit flush side by side.
- Not compatible with Pivot Heavy Duty Series.

Pivot Heavy Duty Series

- Adaptable and adjustable to user preference the Pivot monitor arm offers a slim and refined design coupled with easy fingertip adjustment.
- Multiple points of adjustment including 360 degree swivel with optional 180 degree lockout, 20.75" extension, and 12" of height adjustment.
- Monitor tilts +25/-25 degrees.
- Tension adjustment at multiple points allows for proper adjustment for monitors weight between 8-35 lbs.
- Model includes grommet and worksurface mounting options.
- Desk clamp mounts require ⅞" –2" thick surfaces; grommet mount requires hole diameter of 3/16" to 2" wide and accommodates up to 2" thick surfaces.
- Integrated cable management included with each model. Black models ship with all black cable management pieces, Silver models ship with grey wire management but optional white pieces ship in the box and can be installed on site.
- Dual monitor arm supports up to 2 monitors weight 4-17.5 lbs each.
- Pivot Clamp mounts can be specified with 60"D (Z660ELN) and 72"D (Z672ELN) Stride benching applications.
- Pivot or other monitor arms cannot be clamp mounted on 54"D Stride benching applications, ZG54ELN, (27"D worksurfaces) due to beam obstruction under the worksurface.
- Pivot arms are VESA 75mm and 100mm compatible.
- Quick release feature simplifies monitor installation and changes.

*Use of APACSM Slider Model will allow for wider monitor capabilities

Pivot Post Series

- Adaptable and adjustable to user preference the Pivot monitor arm offers a slim and refined design coupled with easy fingertip adjustment.
- Multiple points of adjustment including 360 degree swivel with 21" extension and 10.6" of height adjustment.
- Monitor tilts +25/-25 degrees.
- Tension adjustment at multiple points allows for proper adjustment for monitors weight between 6.5-17 lbs per arm.
- Model includes grommet and worksurface mounting options.
- Desk clamp mounts require ⅞" –2" thick surfaces; grommet mount requires hole diameter of 3/16" to 2" wide and accommodates up to 2" thick surfaces.
- Integrated cable management included with each model. Silver color option with grey wire management only.
- Dual monitor arm supports up to 25" wide monitors. Wider monitors may require use of optional slider mount model.
- Single and dual models have a post height of 17.7"; Triple monitor model has a post height of 27.5".
- Monitor arms cannot be clamp mounted on 54"D Stride benching applications, ZG54ELN, (27"D worksurfaces) due to beam obstruction under the worksurface.
- Pivot is compatible with 54"D Stride benching applications when worksurface grommets are specified and Pivot grommet mount is installed.
- Pivot Clamp or Grommet mounts can be specified with 60"D (Z660ELN) and 72"D (Z672ELN) Stride benching applications.
- Pivot arms are VESA 75mm and 100mm compatible.
- Quick release feature simplifies monitor installation and changes.

Pivot Counterweight Kit

- Counterweight Kit to be used with monitors weighing less than 6 lbs.
- Gray color only.
- Counterweight weighs 1 lb. 6 oz.

Pivot Conversion Kits

- Kit allows user to transform single monitor arm (Standard, Heavy Duty, or Post) into Dual Arm configuration
- Available in black and silver, Post arm only available in silver
- Required wire management included
- Once assembled, will aesthetically emulate dual configuration of chosen arm

For specification information see pages 338-339.

Further Laminate Storage

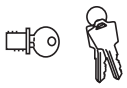
Standard Options

- Random Keying — The factory will assign key(s) arbitrarily using key numbers from chart below.
- Omit Lock Core — The factory will omit lock cores. Removable lock core kits with specific key number must be ordered to facilitate keying alike in the field.

Replacing Lock Cores

- Lock must be in the unlocked position.
- Insert core removal key and pull core straight out.
- Insert new core with core removable key, hold core into lock and withdraw core removal key.
- Retain original core for future use.

	Random Keying	Omit Lock Core	Key Numbers	Lock Core Kit	Master Key
Further Laminate Storage	X	X	101E-225E	ALKF23C	AMKF22



Open Market

Description	Model	List Price
Brushed Chrome Removable Lock Core Kit**	**Key Numbers 101E-225E**	
Used on metal and painted wood casegoods product produced after 2/3/97; A980, A990, and A940 Series Vertical Files; Persona Pedestals produced after 8/22/09; Reach Storage units produced after 10/5/09; and Receding Door Overheads produced after 8/1/10. Includes one core, two keys, one core removal tool, adapter and instructions	**ALKF23C** S	**$ 27**
Master Key		
(One key) Available to authorized dealers only on faxed orders. Will open LKF23C, LKF23CE4, LKF24, LKF25EL, and LKF25E4 locks numbered 101E-225E.	**AMKF22** S	**$ 28**

HOW TO ORDER:

NOTE: Numbers 101E-225E are available. Orders without numbers specified will be keyed at random.

EASY LOCK PROGRAM

The Allsteel Easy Lock Program simplifies the lock-core ordering process when multiple cores are being specified. The Easy Lock cores can be used with Allsteel storage that currently uses the **ALKF23C** cores (all storage except Receding Door Overheads).

To ensure ease of ordering in different situations the Easy Lock cores can be specified in three different ways — Random, Specified or Sequential.

Random Keying

The Random Keying option is provided for instances where there are multiple orders or phases to a project and the offices need to be keyed alike but the key numbering is not required. With the random keying option key numbers are not specified, however, the core kits will be in sequential order from a random starting point.

Example: *There are 15 offices which each have 5 black locks that need to be keyed alike, but the actual key numbers are not important.*

This order would look like: **LKFE5BLK.X.15**

This specifies that 15 5-core kits are needed in black with random key numbers.

Specified Keying

The Specified Keying option is provided for the instances where there is a specific key number desired for all of the cores ordered.

Example: *There are 10 offices which each have 2 silver locks that need to be keyed-alike with key number 202.*

This order would look like: **LKFE2SLV.X202.10**

This specifies that 10 2-core kits are needed in silver with key number 202.

Sequential Keying

Allsteel Sequential Keying option is provided for the instances when there are multiple orders or phases to a project and it is imperative that key numbers are not duplicated.

Example: *A multiple phase project has 60 total offices — 40 offices in Phase I, and 20 offices in Phase II. The project manager has expressed a need to have keyed-alike offices but doesn't want any of the offices to use the same key numbers.*

The first 40 offices have 4 silver locks each that need to be keyed-alike.

This order would look like: **LKFE4SLV.SEQ/101.40**

This specifies that 40 4-core kits are needed in silver and the starting number is 101.

The second set of 20 offices only have 3 silver locks each that need to be keyed-alike; and it is important which key number starts off the sequence to ensure that no key number is duplicated. It is known that the first key range was key numbers 101-140.

The second order would look like: **LKFE3SLV.SEQ/141.20**

This specifies that 20 3-core kits are needed in silver and key sequence has to start at key number 141.

HOW TO ORDER:

Numbers 101-225 are available. Orders without key numbers specified will be keyed at random.

SAMPLE ORDER FOR EXAMPLES GIVEN:

Model	Key Type	Quantity
LKFE5BLK.	X.	15
LKFE2SLV.	X202.	10
LKFE4SLV.	SEQ/101.	40
LKFE3SLV.	SEQ/141.	20

NOTE: Quantity required is last number in model.option string.

Description	Model / Color	List Price
Easy Lock Lock-Core		
Lock Core Kit — 1 core, 2 keys	**LKFE1** ⌊__⌋	$ 27
Lock Core Kit — 2 cores, 2 keys	**LKFE2** ⌊__⌋	$ 56
Lock Core Kit — 3 cores, 2 keys	**LKFE3** ⌊__⌋	$ 83
Lock Core Kit — 4 cores, 2 keys	**LKFE4** ⌊__⌋	$ 111
Lock Core Kit — 5 cores, 2 keys	**LKFE5** ⌊__⌋	$ 139
Lock Core Kit — 6 cores, 2 keys	**LKFE6** ⌊__⌋	$ 167
Lock Core Kit — 7 cores, 2 keys	**LKFE7** ⌊__⌋	$ 195
Lock Core Kit — 8 cores, 2 keys	**LKFE8** ⌊__⌋	$ 223

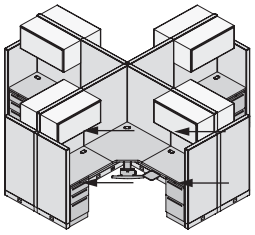
Add color suffix to model: **SLV** Silver, **BLK** Black, **MTS** Matte Silver

Note: One core removal key minimum per order. One additional core removal key per 25 lock-cores will be shipped.

Master Key		
(One key) Available to authorized dealers only on faxed orders.	**AMKF22**	$ 28

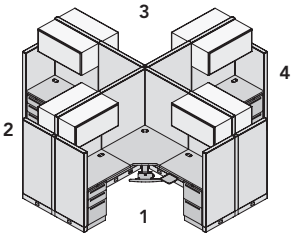
How to specify using Easy Lock Program:

Step 1 — Count the number of lock cores and color required in each workstation that need to be keyed alike.



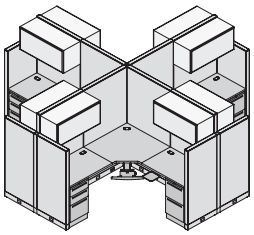
2 overheads with 1 lock-core each = 2
2 pedestals with 1 lock-core each = 2
Total silver lock-cores per station = 4

Step 2 — Count the total number of workstations needing 4 lock-cores.



4 total workstations

Step 3 — Specify model number based on total number of lock-cores in a station and quantity of kits based on number of workstations.



LKFE4SLV.X.4
Lock-Cores per station
Color of Core
Number of workstations

FSC Certified Wood at Allsteel

Allsteel has received FSC Chain of Custody certification from Scientific Certification Systems (SCS) and can now offer FSC certified products. Forest Stewardship Council (FSC) certification is intended to promote the sustainable harvesting of forests worldwide by setting requirements for the forest and everyone who handles the wood from forest to product. Certification provides a Chain of Customer number that we will pass on to customers who are pursuing LEED certification or who want to ensure that materials used to manufacture our wood products come from a well-managed forest. For more information, please contact Customer Support at 888-255-7833.

Casegoods & Storage

Price & Specification Guide 2022

Prices effective May 13, 2022

PDF updated April 21, 2022

Limited Lifetime Warranty

Our unwavering commitment to our customers compels us to care, and our dedication to quality is just one of the ways we show our customers how much they mean to us.

We recognize that keeping up with the pace of change requires having products that work as hard as the people who use them. That's why each of our products is rigorously tested and certified to meet the highest industry standards.

In the unlikely event that any Allsteel product or component covered by the Allsteel Warranty should fail under normal workplace use because of defective material or workmanship, Allsteel promises to fix it. Because taking care of *people* is how Allsteel takes care of business.

For information on Allsteel's warranty coverage, visit AllsteelOffice.com.

Casegoods & Storage

Specification and Price List

Effective May 13, 2022

- Software support packages furnished to the customer, either by Allsteel® or by another source, which support the sale of Allsteel products are superseded by printed price lists.
- Prices are subject to change without notice. All orders are subject to prices in effect at the time of order.
- Please refer to your Allsteel Dealer Sales and Discount Policies for order placement information and terms and conditions.
- Additional copies of this Specification and Price List are available upon request from Allsteel Literature Fulfillment at 1-866-255-7833.
- Ordering information appears at the bottom of each product page complete with examples on how to specify. Fabric and finish pages are referenced at the bottom of product pages.

This publication is available as an interactive or downloadable PDF at www.allsteeloffice.com.

COM Program

Allsteel understands that customers may at times want to specify fabrics outside of Allsteel's standard fabric offering. Our COM program was designed to make specifying COMs on Allsteel products a simpler, friendlier, and hassle-free process. This process is simple and easy to use, and is described below under "Allsteel to Supply (ATS)." If a Dealer wishes to manage the COM process themselves, they can do so by following guidelines under "Dealer to Supply (DTS)". **ATS is the preferred method for all COM fabrics.** With ATS, Company will provide acknowledgment based upon planned date of receipt of COM fabric and manage the entire process. DTS is allowed if it is not a partnership fabric or if Company does not have access to the supplier. **DTS may cause order delays and is strongly discouraged.** Find out more about Allsteel's COM process by emailing our COM Department at **allsteelcomteam@allsteeloffice.com**.

Allsteel to Supply (ATS):

1. Select the fabric you wish to use and check the COM Search on Synergy at: Allsteelsynergy/Design Resources/Textiles & Finishes/COM Search or COM Search quick link. You will need to have the COM supplier's name, fabric pattern name, and color name to search for approved fabrics.
2. If your fabric is listed as an approved fabric, you may place your order directly with Allsteel Customer Support. Please use the fabric code (e.g., S216426XP) from the COM Test Request on your order in the place of the standard fabric code.

   If your fabric is not listed as approved, you will need to select the "Request COM Test" link on the COM Search website. If your fabric is not listed as approved, and it is not a Partnership fabric you may request a "Dealer to Supply" code. Select the "Request COM Test" link on the COM Search website. Your name, company name and email will be prepopulated fields. The secondary email, project name, and bid/contract number are optional information. The supplier, pattern, and color will show a list by clicking in the box and entering the first letter of the name and these are free form text boxes. Once that information is entered click add. (Multiple series can be added to the same request if they are the same supplier, pattern, and color.) Then click submit.
3. An email will be sent to the to the requestor stating the COM Request was successfully submitted. Up to four emails could be received: Testing materials requested, in testing, and final approval/denial with price grade and fabric code. It's rare actual test yardage is required. Testing is mainly done by reviewing the attributes of the fabric. The testing process takes approximately 48 hours. Written COM price quotes hold pricing for 90 days after issue date.
4. Once the fabric has been approved by Allsteel, enter your order directly with Allsteel Customer Support. Allsteel will purchase all COM fabric directly from the COM suppliers and schedule for production.

   In the event that the Dealer decides to cancel a COM fabric order, the Dealer is responsible for the cost of the fabric plus a handling charge that is equal to 10% of the fabric cost.

Dealer to Supply (DTS):

1. Select the fabric you wish to use and check the COM Search on Synergy at: Allsteelsynergy/Design Resources/Textiles & Finishes/COM Search or COM Search quick link. Or call Allsteel Customer Support to see if the fabric you have chosen has already been tested and approved on the product you are interested in.

   You will need to have the COM supplier's name, fabric pattern name, and color name for this inquiry.
2. If your fabric is not listed as approved, and it is not a Partnership fabric you may request a "Dealer to Supply" code. Select the "Request COM Test" link on the COM Search website. Your name, company name and email will be prepopulated fields. The secondary email, project name, and bid/contract number are optional information. The supplier, pattern, and color will show a list by clicking in the box and entering the first letter of the name and these are free form text boxes. Once that information is entered click add. (Multiple series can be added to the same request if they are the same supplier, pattern, and color.) Then click submit.
3. An email will be sent to the to the requestor stating the COM Request was successfully submitted. Up to four emails could be received: Testing materials requested, in testing, and final approval/denial with price grade and fabric code. It's rare actual test yardage is required. Testing is mainly done by reviewing the attributes of the fabric. The testing process takes approximately 48 hours.
4. Make sure to use a "Dealer to Supply" COM code (e.g., S216426ZP) and place your order directly with Allsteel Customer Support.
5. All "Dealer to Supply" orders will be charged Grade 4 pricing for seating, Grade 3 for Gather, and Grade D pricing for panels. Dealers will pay for the COM fabric separately.
6. All "Dealer to Supply" fabric must be sent on a fabric roll. Estimate the yardage required by using the yardage requirements listed in the price list by model. For questions please contact Allsteel Customer Support.
7. Place your fabric order directly with the COM Supplier with instructions for the fabric to be sent on a fabric roll to:

   HNI Textile Distribution Center
   COM Production Yardage — PO Number
   Docks 20-22
   301 Mulberry Avenue
   Muscatine, IA 52761

Information that MUST be included in the packing slip attached to the DTS fabric:

1. Dealer's Purchase Order number to Allsteel
2. Allsteel's Tracking number for the COM fabric
3. Dealer Name
4. Yards of Fabric

If the fabric shipment does not match the correct fabric and yardage, Allsteel will notify the Dealer for resolution.

If Allsteel receives fabric with incorrect labeling or fabric yardage that cannot be linked to an Allsteel furniture order, Allsteel will hold the fabric for up to 4 weeks. After 4 weeks Allsteel will dispose of the fabric. There are no exceptions to this policy.

Specific to DTS orders - The customer should send only the amount needed for the order. Excess yardage, or yardage not attached to an order will be disposed of at Allsteel's discretion.

Any canceled orders are subject to cancellation charges up to the full value of the Allsteel product canceled. Allsteel will determine the actual cancellation charge at the time the cancellation is requested.

8. For additional details on "Dealer to Supply" fabric refer to your Allsteel terms and conditions.

Additional Policy Information:

The company assumes no responsibility for the overall appearance, flammability, normal durability, colorfastness, or any other quality standards. The company reserves the right to reject a COM if the quality of the COM is not satisfactory for the product. Should this occur, the customer will be notified with an explanation when the issue is found.

The company is not responsible for fabric that has become obsolete at the COM supplier, that is of poor quality, or that is delivered late to the manufacturer from the COM supplier.

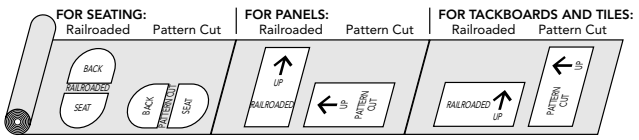
cancellations or changes to COM orders are subject to Company approval. Because of the nature of COM, special fabrics, finishes, and structural modifications, products ordered as specials and then canceled prior to shipment are subject to cancellation costs up to the full value of the product canceled. The company determines the actual cancellation charge at the time the cancellation is requested. Upon approval, a cancellation number is issued to the Customer.

Purchase orders will not be accepted or entered unless the testing process is complete with positive results.

If all testing has been previously completed, re-testing is only necessary if fabric is to be used on a different product, or pattern direction has changed from that previously approved.

Previous test results can be obtained by a customer on the COM Search on Synergy or by calling Allsteel Customer Support.

All COM fabric will be applied to seating and panel systems Pattern Cut unless Railroad Cut is requested and approved on the COM Test Request. Any fabrics approved as a width pass, the dealer is responsible for clarifying Railroad Cut on orders containing items that are too large to support the Pattern Cut of a fabric application (any items larger than 48" high or wide).



Fire Retardant

The Dealer is responsible for ensuring that the COM fabric is certified to meet all flame retardant requirements.

For more information, please contact Allsteel Customer Support.

YARDAGE REQUIREMENTS FOR FABRIC WITH REPEATS — FOR USE ON GATHER™ PRODUCTS

Fabric Width	Plain Fabric	2"– 14" Repeat	15"– 19" Repeat	20"– 27" Repeat	28"– 36" Repeat
54"	0	+15%	+20%	+25%	+30%
53"	+6%	+19%	+24%	+28%	+36%
52"	+13%	+23%	+28%	+33%	+38%
51"	+19%	+26%	+31%	+36%	+41%
50"	+25%	+30%	+35%	+40%	+45%
49"	+30%	+35%	+40%	+45%	+50%
48"	+35%	+40%	+45%	+50%	+55%
47"	+45%	+50%	+55%	+58%	+65%

Depending upon the pattern repeat, it may be necessary to pattern cut the fabric. This will require 10% additional fabric.

To calculate multiple repeats (vertical and horizontal), add each repeat for total yardage required. For example for a fabric width of 54": 7" vertical requires 15%, 15" horizontal requires 20% total additional yardage required equals 35% (15% + 20%). Therefore, if your chair requires 2 yards of fabric, multiply 2 by 35%. Then 2.7 yards will be yardage required.

Special Paint & Stain Policy

Allsteel at its own discretion may modify its standard products with non-standard paint and stain colors to meet specific needs. Dealer is required to submit a special paint or stain request via the COM Search on Synergy. A sample of the non-standard paint or stain color desired will be required for matching. Pricing, lead time, and order information will be provided at the time of approval.

- For each new requested stain or paint, there will be a $500 net fee to cover supplier costs to match the special item.
- For existing, previously-approved stains or paints, there is no $500 matching fee, however, there is a sample chip fee of $175 net for stains and $100 net for paints.
- Samples, preferably at least 3" x 5" chips, of the exact color desired should be sent to the Allsteel Tailored Products Group. Paint matches require (3) sample chips and stain matches require (3) sample chips. Please mail these sample chips to the address below and reference the Special Item Request Number from Tailored Solutions.

  Allsteel Inc.
  Attn: Tailored Products Group
  2210 Second Avenue
  Muscatine, IA 52761

- Allsteel will color match the sample and send control samples to the address provided in the request. Dealer will review Allsteel's color match and approve by signing the back of the sample chip. Send the signed sample back to the Allsteel Tailored Products Group.
- Special paints will be assigned a paint price grade.
- Orders will not be accepted until Allsteel receives the Dealer's written approval on the color match.
- Extended lead times will apply on orders containing special paints or stains.
- Due to manufacturing techniques, materials, and quality issues, some exclusions will apply and some matches may be declined.

Important Notes

- Natural veneer is subject to nature's quality control. Differences in grain and color are naturally occurring variations and cannot be controlled by the manufacturer and cannot be considered as product defects. Natural veneer has the characteristics and beauty of a living organism; with its own variations of grain, growth, and color patterns. For these reasons, Natural veneer is preferred by many for its warmth and personal characteristics.
- Color changes will occur over time when wood is exposed to light. For this reason, when new product is ordered as an addition to existing product, there will be color variances between the old and new product. Please remember when specifying new product that although the species of veneer will be the same, additional product is being manufactured from a different tree. It may take several months for the new furniture to mature to the color level of existing product. Even with this maturation process the additional product will not be an exact match.

Special Laminate Policy

The Company at its own discretion may modify its standard products with non-standard laminates to meet specific needs. Contact the Allsteel Tailored Products Group for pre-approved Wilsonart, Formica, Nevamar and Pionite laminates and pricing for special laminates. When requesting a special laminate please supply manufacturer, along with name and pattern number of laminate.

- Extended lead times will apply on orders containing special laminates.
- Due to manufacturing techniques, materials, and quality issues, some product exclusions will apply and some requests may be declined.

Veneer Care Instructions

Veneer worksurfaces feature the Gunlocke® finishing system. The finishing system is a process that begins with the application of stains, which promote exceptional depth and clarity. Next the worksurface receives a specialized coating that provides exceptional durability and chemical resistance. The remaining surfaces receive a top coat. These finishing processes ensure depth, clarity, color consistency and durability throughout the product.

Veneer worksurfaces have exceptional resistance to:

- Heat and moisture (hot beverages, pizza boxes)
- Chemicals (liquid paper, nail polish)
- Stains (permanent markers)
- Scratches and impact (everyday wear and tear)

Caring for your veneer finish:

- General maintenance procedures entail wiping clean the entire surface with a clean, water dampened soft cloth once per week (be sure to wipe with the grain)
- Murphy's® Oil Soap may be used as a general purpose type cleaner with warm water to clean tops.
- The finish may also be polished with Guardsman® Furniture Polish (contains no waxes or silicones) to provide renewed luster.
- Be sure to wipe up all spills immediately. Do not allow spills to dry.

Wood owes its inherent beauty to variations in color, grain and texture, and therefore, these variations are not considered defects. There may be minor variations from one piece of furniture to the next even though they are finished at the same time. Exposure to light and the aging process will cause a darkening of natural wood products. Light finishes on wood products do not mask the natural characteristics of wood. Allsteel does not guarantee the exact matching of grain, pattern and color.

Everyday Advantage®

New terms and conditions for EDA:

1. Orders must clearly state “Everyday Advantage Order” and include the appropriate Everyday Advantage contract number:
   • Everyday Advantage Std-0125, Everyday Advantage Canada-0127
2. Everyday Advantage orders are not eligible for bid pricing.
3. Program discounting includes the complete Optimize, Further, Terrace, and Stride systems lines, private office solution, Approach and Involve storage. This program also includes Acuity, Access, Evo, Inspire, Lyric, Mimeo, Nimble, Quip, Relate, Seek, and Svelte, seating. Altitude, Aware, and Structure tables are also available, along with Align pedestals, lockers and metal storage and Essentials pedestals, and Radii storage lines. In addition, Extensions ergonomic accessories and lighting are part of the standard offering. All other product not called out is available for order on the contract but will receive standard discounting of 55%–65%.
4. All textiles and finishes except for veneer and some wood finishes are available, depending on quantity and selection, and may have extended lead times.
5. Everyday Advantage orders are not limited to a minimum or maximum.
6. All orders ship based on standard lead times. Large-quantity orders of like products may be subject to longer lead times.
7. Standard freight terms apply.
8. If driver assistance is needed, standard driver assist charges will be added at time of order entry.

Allsteel Inc. reserves the right to amend or terminate this program at anytime with 30 days written notice. Allsteel is not liable for service delays caused by force majeure (circumstances beyond Allsteel's control).

Refer to page 12 for current upholstery availability by model/series.

ALLSTEEL PARTNERSHIP PROGRAM

Allsteel understands that customers may want to specify panel and seating textiles outside of Allsteel's standard offering. Allsteel's Partnership Program consists of on-trend and design-forward patterns that have been tested and approved by Allsteel for use on Allsteel products. A subset of these approved patterns is available on cards in the textile binder, while numerous others are available on our website, allsteeloffice.com.

For memo samples, please contact our partners:

- **Camira, memos@camirafabrics.com 1.616.288.0655**
- **CF Stinson, cfstinson.com 1.800.841.6279**
- **HBF Textiles, hbftextiles.com 1.877.494.5727**
- **Maharam, maharam.com 1.800.645.3943**
- **Ultrafabrics, ultrafabricsinc.com 1.877.309.6648**

The intent of the **Partnership Program** is to offer a wide variety of on-trend textiles to meet your varied needs, but since these textiles are not part of our standard offering they may be subject to extended lead times. Because new materials will be introduced regularly, Allsteel reserves the right to change the offering at any time.

Storage

Reference Page

Storage is an essential part of the productive workplace.

Make storage a matter of personal choice as well as necessity. Choose from metal, laminate, or veneer with features like multiple pull styles, drawer sizes, finishes, and more. It's your workspace. Shouldn't it look like it?

PERSONAL STORAGE

1. **Pedestal.**
   Support, mobile, or suspended, with three drawer sizes.

2. **Personal file.**
   Combines pedestal and lateral storage to create a personal filing solution for letter and legal size documents.

3. **Personal tower.**
   Versatile storage with a small footprint. It's storage that goes up, not out. Combine drawers, personal storage, and wardrobe options for the right solution.

4. **Low credenza.**
   Active storage that creates a layered look in any workspace.

LATERALS AND SHARED STORAGE

5. **Lateral file.**
   The storage workhorse, in multiple heights and widths. Works with systems furniture or by itself.

6. **Combination file.**
   The perfect combination of file storage and shelf storage, with concealed or open shelves.

7. **Storage cabinet.**
   Equipped with hinged, locking doors and adjustable shelves to conceal and secure supplies.

8. **Bookcases.**
   Quick access to information, in depths to match laterals or narrower profiles to stand on their own.

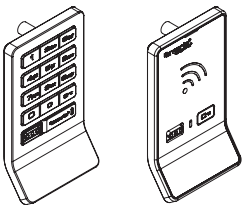
Available on Align Lockers and Wardrobes (pages 70-81)



Keypad lock, left
RFID lock, right

The digital keypad & RFID lock options support applications where workstations or storage banks are shared by multiple users. This is an alternative to a standard key lock. This feature facilitates the use of storage by multiple users through eliminating the need to keep and hand-off physical keys. These locks ship in “shared mode” by default; shared mode indicates that the lock will “forget” the paired 4-digit code or RFID badge after the lock is opened, allowing the unit to be used by multiple users.

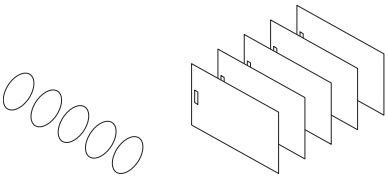
Digital keypad & RFID locks:

- Offered on Align™ lockers and wardrobes
- Ship factory installed
- Offered in a polished silver finish
- Digital keypad lock requires input of a user-selected 4-digit code
- RFID lock requires a compatible RFID card or sticker
- Digital keypad and RFID locks are powered using 4 premium AA batteries.
- Battery life is dependent on the frequency of operation but can last up to 5-7 years
- To order Align wardrobes or lockers with a digital lock option, add "E" suffix to base model number. The digital lock has an integrated pull, so no pull will be specified.

RFID locks require user to present a compatible RFID card or sticker to the lock in order to gain access. This is the same technology as “badge” systems that allows employers to grant employee with cards that can be scanned to gain access to entrances and buildings. Allsteel locks *may or may not be* compatible with these existing badge systems.

- For existing RFID badge system compatibility, badges must operate on a 13.56 MHz frequency with both iClass (ISO 15693) and Mifare (ISO 14443).
- If existing badge system is not compatible with 13.56 MHz frequency, compatible RFID badges or RFID stickers are sold separately as an accessory model.

Additional information about setup and common troubleshooting problems can be found here: Digital Lock Overview.



Digital Lock Accessory Models (page 81)

- RFID-compatible cards and stickers are sold as accessory models in increments of 5, 25, or 100.
- RFID cards are plain white and have a lanyard cut in them.
- RFID stickers are plain white, approximately 1" in diameter, and may be added to the back of an existing badge or employee identification card.
- **Every digital keypad or RFID installation site will require *one* Programming Key and *at least one* Manager Key, sold separately.**

Programming Key

- A Programming Key is a device used to initialize locks out of factory default mode and register Manager Keys to the locks.
- Only one Programming Key should be specified per installation site because multiple Programming Keys are not compatible with each other.
- Once a programming key is used with a unit, it is tied to that lock. Another programming key can not be used.
- Add-on digital lock orders should be programmed with the original programming key.

Manager Key

- A Manager Key is used to bypass a locked unit; this operates as the “master” key and it is recommended that building facilitators have at least one Manager Key.
- Up to 6 Manager Keys may be registered to each lock.
- Manager Keys provide external power to locks in case of battery failure.

Description	Model	List Price
Digital Lock Keys and Accessories		
Programming Key	**YPLDIGPRG**	**$ 314**
Manager Key	**YPLDIGMGR**	**$ 242**
5pk RFID Stickers	**YPLRFID5S**	**$ 103**
5pk RFID Cards	**YPLRFID5C**	**$ 208**

Metallic paints, due to varying reflectance, may appear to have less visual color consistency than other paint finishes, even when L/A/B values are exactly the same. (L/A/B — measurable aspects of color — values are maintained within a specified range, to ensure consistent appearance of paint colors.)

****These colors are intended to be an inspirational option for the trending market. Product application is limited and color availability is approximately two years to coincide with evolving workplace trends.*

The beauty of wood is the natural variation of grain patterns and colors that make each piece unique. This variation is also influenced by lighting conditions, orientation of mated parts, and varying acceptance of the finishing process. The varying colors and physical characteristics naturally occur in all wood species but are most pronounced in lighter colored woods, and are especially evident in natural finishes.

GROMMETS ON VENEER WORKSURFACES

Wire management grommets come standard on most veneer worksurfaces. Choose between metal or plastic grommet option. Note: Plastic grommet color is predetermined based on finish selection.

All other veneers ..... Black E4

LOCKS

Black E4
Chrome ..... ordered by base model
Matte Silver ..... EL

NOTE: Refer to individual product pages for upcharges.

"O" Frame Construction
Heavy duty outer shell and front and rear perimeter frames provides significant strength; helps keep the cabinet true to square.

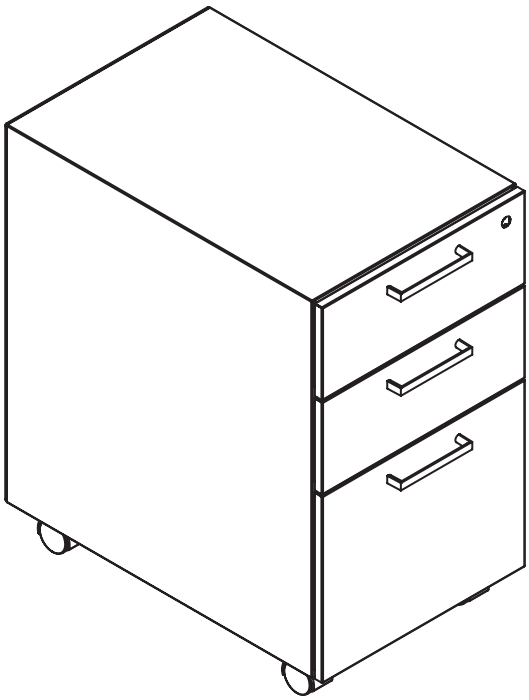
File and Box Drawers
Full extension file and box drawers glide easily on steel ball-bearing suspensions; allows complete access to drawer contents with a quiet drawer motion.

Filing
File drawers can accommodate front-to-back and side-to-side filing. Order hanging frames separately.

Full Front Drawer Design
Drawer front is square and extends fully across the case.

Counterweight
Counterweights (standard on mobile pedestal units) inhibit tipping when drawers are opened. Optional counterweight kits.

Aesthetic Alignment
Drawer alignment matches across Align storage offering. Base height matches Stride® and Terrace® panel base.



Locking System
Robust lock system for security and reliability.

Core Removable Locks
Master-keyed core removable lock feature allows key numbers to be easily changed in the field and facilitates one-key access.

Omit Lock Core
Units can be shipped with lock cores removed; cores can then be installed after units are placed. Different storage components can be keyed alike within a workstation.

Mobile Pedestals
Mobile pedestals provide flexible storage and can be nested under worksurfaces. (Take into consideration when planning offices which may have uneven floors.)

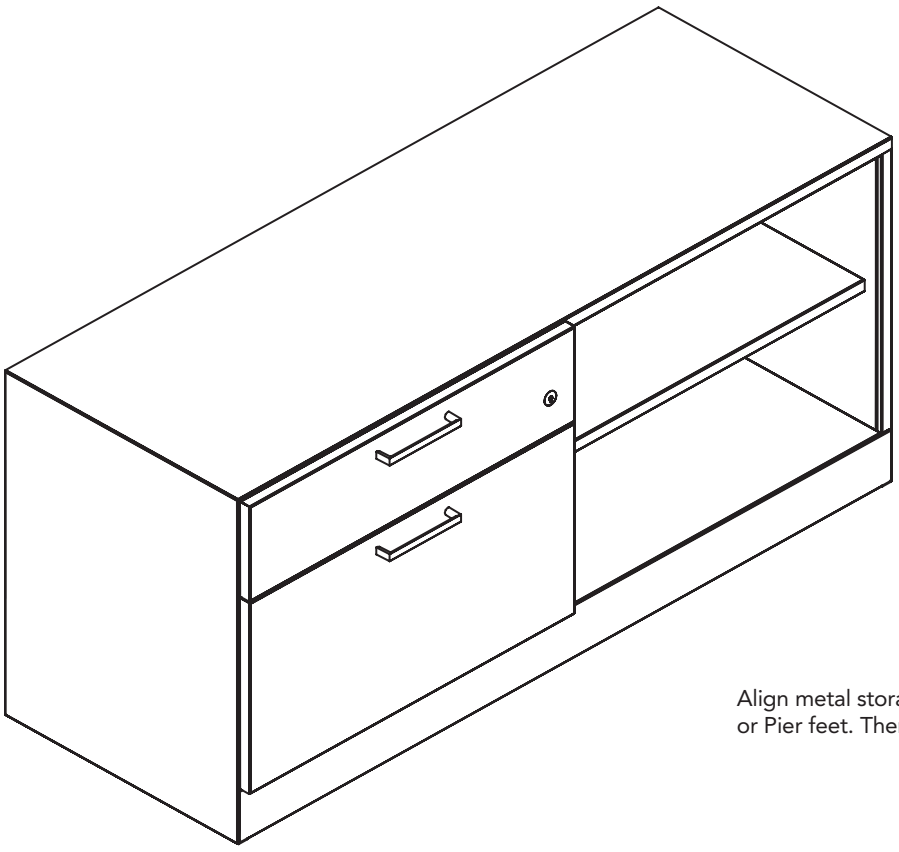
Support Pedestals
Support pedestals can support one end of a panel-attached worksurface, in lieu of other worksurface supports, and can be used to support worksurfaces in desking applications. Drawers align with laterals.

Freestanding Pedestals
Freestanding pedestal drawers align with credenzas.

Depth
Pedestals are 18", 23¼", and 29¼"D, and credenzas are 18" and 24"D, both can be used with systems worksurfaces. Placement may affect access to receptacles in base pathway and worksurface grommets.

Pull Styles
Choice of pull styles, available on pedestals, credenzas, towers, and laterals, allows for total design coordination on projects.

Veneer and Landscape Fronts
Contact Allsteel Tailored Products Group for availability.



Align metal storage models are available with Terrace, Stride, or Pier feet. There is also a laminate front option.

Seven-formation Front Post Design
Steel front posts are formed with seven formations to provide unparalleled stability and strength. This unique design allows unmatched longevity for Allsteel files.

Dual-side Locking
Drawers and doors lock on both sides to prevent being pried open. The locking system is enclosed within the case to hide mechanisms which can snag and scratch. This feature is not found on most other manufacturers' files.

Dual Interlock
This mechanism inhibits roll out of more than one drawer, either sequentially or simultaneously.

Adjustable Drawer Backs
Backs are adjustable to three depths to accommodate letter, A4, and legal documents side to side without the need for extra components.

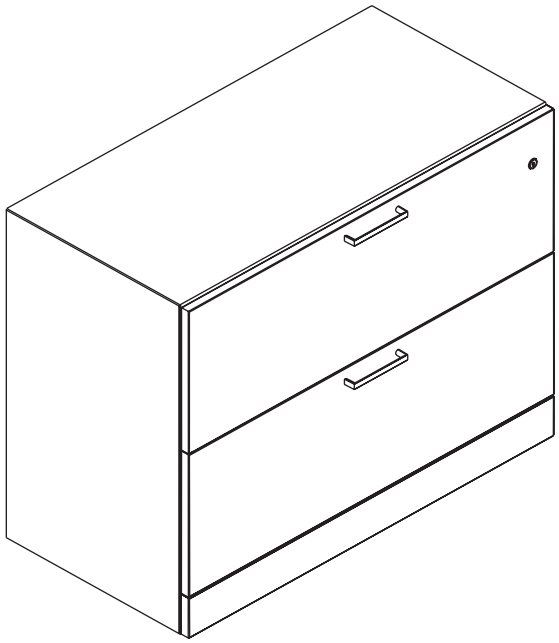
Infinitely Adjustable Divider
This Allsteel exclusive design allows the divider to also function as a compressor in that it can be located where it is needed versus being limited to pre-set positions.

Offset Construction
As a result of the back and the top of the case sides being offset, the file case has a finished appearance with smooth seams and no overlaps.

Fully Enclosed Bottom
Unlike many files, the Allsteel file features a fully enclosed steel bottom to help prevent moisture and dust from affecting the filed documents. Double bottoms are welded into all files for added rigidity.

Side Knockouts
Files have two knockouts on each side to allow easy ganging of freestanding units to inhibit tipping.

Four Hex-head Leveling Glides
Leveling glides can be adjusted from outside or inside the case. Because of the hex-head design of the stem, leveling can be done even when the file is fully loaded. Range is 1½".



Suspension
Extra heavy-duty, telescoping, ball-bearing slides.

Hanging Frames
Front-to-back and side-to-side are both standard. For front-to-back filing, backs should be set on rear position for maximum storage capacity.

Core Removable Lock
Core removable lock feature allows key numbers to be easily changed in the field. It also facilitates installation.

Omit Lock Core
Files can be shipped with lock cores removed; cores can then be installed after files are placed. Laterals can be keyed alike with pedestals, laterals, credenzas, towers, and overhead cabinets.

Full Front Drawer Style
Features core removable lock located in top drawer on the right.

Front Drawer Options
Optional veneer and Landscape™ fronts available on laterals, contact Allsteel Tailored Products Group.

Pull Styles
Choice of pull styles, available on pedestals, credenzas, towers, lockers, wardrobes and laterals, allows for total design coordination on projects.

Double-wall Drawer Front Construction
Drawer fronts are fully lined to reduce noise and to prevent damage from drawer contents.

Counterweight Kit
The unique design of the counterweight allows easy installation because, unlike some files, the drawers and shelves in Allsteel files do not have to be removed to install the required counterweights.

Drawer Interiors
Painted same color as case.

Paint Finish
Durable baked enamel finish is applied over rust-inhibiting phosphate pre-treatment.

Four Hex-head Leveling Glides
Hex-head design of the stem allows leveling to be done even when the cabinet is fully loaded (plinth units only). Plinth units include leveling glides that can be adjusted 1½" from outside or inside the case. Footed units include leveling glides that can be adjusted 2⁹⁄₁₀" from outside the case only.

Aesthetic Alignment
Drawer alignment matches other Align storage.

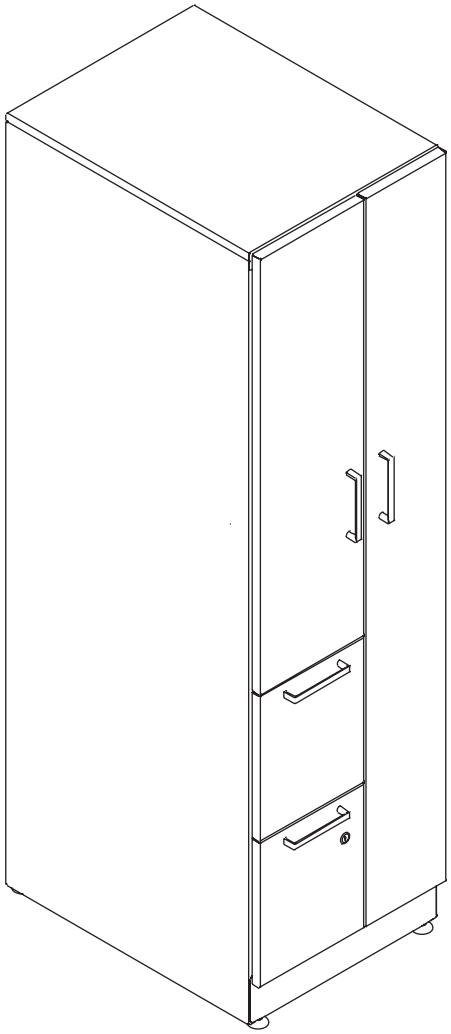
Full Front Design
Drawer and door fronts extend fully across the case.

Pull Styles
Choice of pull styles, available on pedestals, credenzas, towers, lockers, wardrobes and laterals, allows for total design coordination on projects.

Suspension
Heavy-duty, telescoping ball-bearing slides.

Omit Lock Core
Units can be shipped with lock cores removed; cores can then be installed after storage units are placed. Laterals can be keyed alike with pedestals, towers, and overhead cabinets.

Core Removable Locks
Core removable lock feature allows key numbers to be easily changed in the field. It also facilitates installation.



Locking
All door & drawer locks are controlled by one lock core located on the top drawer. Standard core removable locks, see page 54.

European Hinges
Wardrobe and cabinet door both contain European-style hinged door.

Filing
File drawers in 24"W towers accommodate front-to-back and side-to-side filing. Order file rails for side-to-side separately. File drawers in 18"W slim towers accommodate side-to-side filing only, hang rails are included.

Counterweight
Towers are factory-installed with counterweights to allow them to be freestanding.

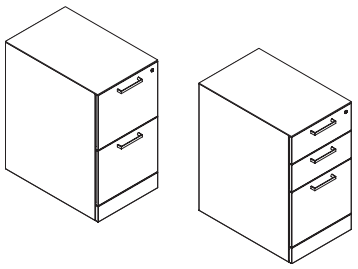
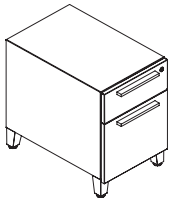
Align™			
Opening Height	**30" Wide**	**36" Wide**	**42" Wide**
12"	87 lbs. (Metal)	107 lbs. (Metal)	126 lbs.

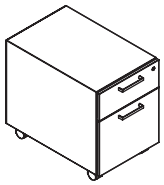
ANSI/BIFMA Standards

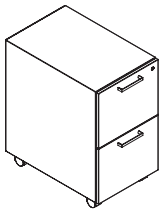
Allsteel lateral files, incorporating the **required counterweights** in freestanding situations, meet or exceed the applicable ANSI/BIFMA Storage Unit Test Standards X5.9-2012.

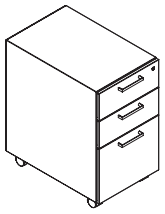
Align Metal Support, Freestanding, and Mobile Pedestals











- Heavy-duty steel O-frame.
- Steel, ball-bearing slide suspension with full-extension drawers.
- Support pedestals are available with flush or recessed plinth base, and Terrace, Stride, or Pier feet.
- Full front drawers are available as metal or laminate.
- Box drawers have an adjustable divider.
- Standard core removable locks, see page 54.
- For locking specification, see pages 384-386.

Align Metal Support Pedestals (pages 44-48)

- Support pedestals have fully enclosed top.
- Support pedestals not used to support a worksurface require a pedestal top model (ASPT-XXXX) and counterweight kit (2282).
- Available as box/box/file or file/file drawers.
- Pencil trays included — one per pedestal with a box drawer.
- File drawer front reveals of support pedestals will align with Align metal laterals, towers, and credenzas.
- Leveling glides standard on freestanding pedestals.
- Hardware for attaching pedestal to worksurface is included
- 28⅛"H pedestals can be used to support worksurface at 29½"H.
- Align metal support pedestals are available with flush or recessed base, and Terrace, Stride, or Pier feet.

Align Metal Freestanding Pedestals (page 46)

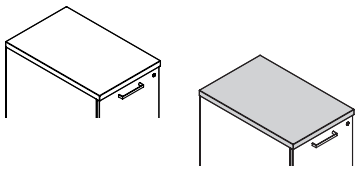
- Available as box/file drawers.
- Pencil tray included in box drawer.
- Drawer reveals of freestanding pedestals will align with Align credenzas.
- Leveling glides standard on freestanding pedestals.
- Align metal freestanding pedestals are available with Terrace, Stride, or Pier feet.

Align Metal Mobile Pedestals (pages 44-48)

- Available as box/file, box/box/file or file/file drawers.
- To allow clearance under worksurfaces, an Align mobile pedestal is 1½" shorter than an equivalent Align support pedestal . This, combined with the leveling range of Align support pedestals, personal files, towers, laterals, and credenzas will result in an offset of horizontal drawer reveals of 1½" to 3".
- Counterweight is standard in mobile pedestals.
- Four casters.
- Pencil trays included — one per pedestal with a box drawer.

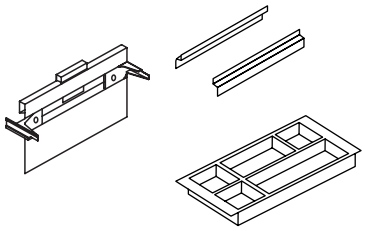
NEW models launching October 2021 as part of a model logic update. The new model logic will allow future flexibility to add additional pull and foot options. Existing models will discontinue November 1, 2021.

Align Metal Support and Mobile Pedestal Tops and Accessories



Align Pedestal Tops (page 48)
Field installed tops create additional storage and work areas on metal support or mobile pedestals.

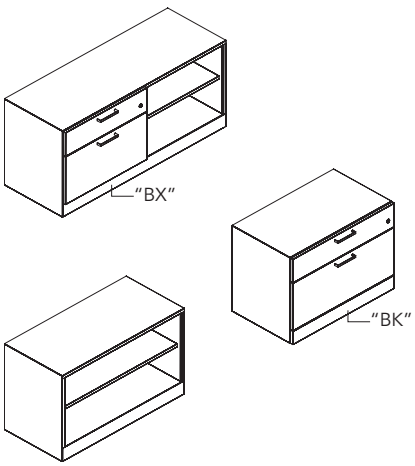
- Laminate and veneer tops are 1¼" thick.
- Seat cushion provides quick and convenient additional seating on box/file pedestals.
- Seat cushion adds approximately 2"H to pedestal.
- YPPA prefix models have stitched corners and bumpers on bottom.
- Seat cushion to be used on steel (mobile) pedestal top only.
- COM yardage for seat cushion is 0.9 yards.

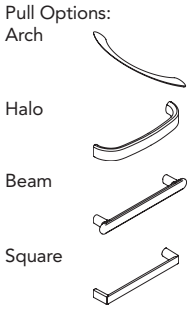


Align Pedestal Accessories (page 48)

- Accessories are for use with Align metal: pedestals, personal files, and personal towers.

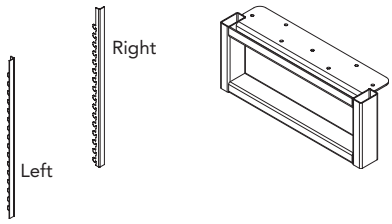
Reference Page

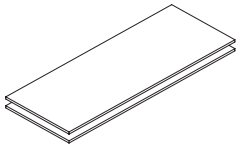


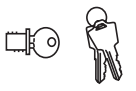


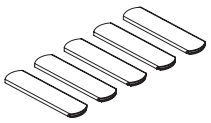
Load Capacities (per current ANSI/BIFMA standards)

Align 22"H Credenzas	24" Wide	30" Wide	36" Wide
3⅞"H Box Drawer	19 lbs.	24 lbs.	30 lbs.
10½"H Box Drawer	50 lbs.	64 lbs.	78 lbs.









Credenzas (pages 49-55)
- Full metal construction with finished top and back.
- Welded case with "O" frame construction for added strength.
- Full front design with proud, double wall drawer fronts.
- Units are 18"D or 24"D, 17¼"D or 23¼"D on open bookcases.
- Interlock and full extension ball bearing slides on all drawers.
- Enclosed bottom pan on open bookcase and on box/lateral/open units.
- Available with Terrace, Stride, or Pier feet. Also available with plinth base, either flush or recessed.
- Drawer fronts are available as metal or laminate.
- Plinth base option on drawer only units: recessed or flush.
- Leveling glides can be extended 1½".
- Side-to-side filing bar included. Front-to-back filing with optional filing bar. Two rows of front to back letter filing on drawers 30"W or wider drawers, order 2 filing bars. See page 33.
- Accessories include: seat cushions, laminate tops.
- Planning: requires panel bracket, worksurface stanchion, or counterweight (sold separately) for units with drawers. See page 39 for specification examples.

Storage-to-Panel Bracket (page 53)
- Used to attach the back or side of storage to a panel frame to provide stability when used with Stride, Terrace, or Optimize panel frames.
- Handedness is determined by side of storage that attaches to panel when facing panel run.

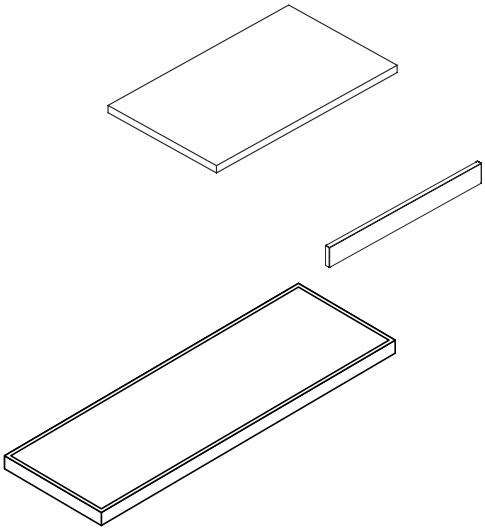
Worksurface Support Stanchions (page 53)
- Worksurface stanchions are PR6 Silver and made of aluminum.
- Use 5"H stanchions for 22"H Align credenza with worksurface, or 6"H stanchions for credenza without a worksurface.
- Available in depths of 12" and 18". 12" is designed to work with 18"D worksurfaces and 18" with 24"D worksurfaces. Use two stanchions when mounting a 30"D or deeper worksurface.
- Stanchion orientation should run perpendicular to the length of the worksurface it is supporting.

Front-to-Back Filing Bar (page 54)
- Front-to-back filing bar can be positioned to accommodate letter, A4, or legal size documents. 30"W and wider drawers can accommodate two rows requiring two bars. See page 33.

Counterweight Kits for 22"H Credenzas (page 54)
- Metal weight attached to back of freestanding files to inhibit tipping; field installed only. The use of a a storage-to-panel bracket and worksurface stanchion may eliminate the need for counterweight, see page 39.
- Counterweight kit required for freestanding files:
  42"W and 48"W Credenzas..... 25 LB kit
  24"W, 60"W, and 72"W Credenzas..... 35 LB kit
  30"W and 36"W Credenzas..... 50 LB kit

Matte Silver Removable Lock Core Kit (page 54)
- Matte Silver used on Align credenzas with drawers. Includes one core, two keys, one core removal tool, adapter and instructions.
- The Allsteel Easy Lock Program simplifies the lock-core ordering process when multiple cores are being specified. To ensure ease of ordering in different situations the Easy Lock cores can be specified in three different ways — Random, Specified or Sequential. See page 386 for complete details and examples on the Allsteel Easy Lock program.

Magnetic Label Holder - Available July 2021 (page 54)
- 5 pack of magnetic label holders.



Reference Page

Credenza Cushions (page 55)
- Cushions are for use on 22"H Align credenzas to create additional seating.
- Cushions can be placed directly on metal top of unit or on laminate top.
- Freestanding applications require counterweights — see page 37.

Base Kick Plates for Align Credenzas (page 55)
- Allows field conversion of recessed plinth base unit to be flush with drawer front.

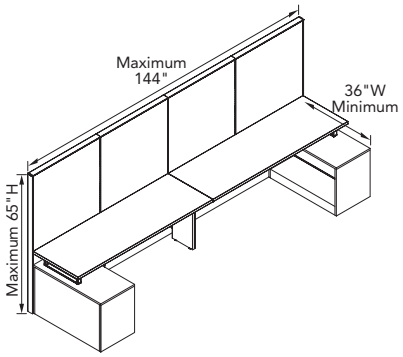
Laminate and Veneer Tops for Align Credenzas (page 57)
- Tops are 1¼" thick and are field installed. For use in freestanding or layered applications.
- When 54", 60", 66", 72" and 84" tops span two credenzas, add "S2" suffix to add ⅛" to nominal width of top for freestanding or layered applications.
- For use on 18" and 24" deep Align credenzas. 36"D tops are available for 18"D credenzas placed back-to-back.

Plinth Base models available.

Reference Page

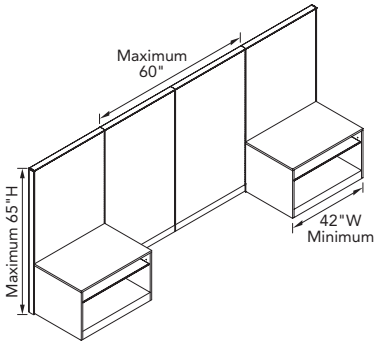
Side-mounted Credenzas

Use 1 storage-to-panel bracket per Credenza — 1 LH and 1 RH.
The minimum credenza size is 22"H x 36"W x 18"D or 24"D.
With a mid-run floor support, the maximum panel run is 144".
Without a mid-run floor support, the maximum panel run is 96".
Overheads and shelves cannot be used with 22"H side mounted credenzas.
Worksurfaces (if specified) must be mounted on the same side of the parent run as the credenzas.
Panel frame maximum height is 65".
Counterweight is required.



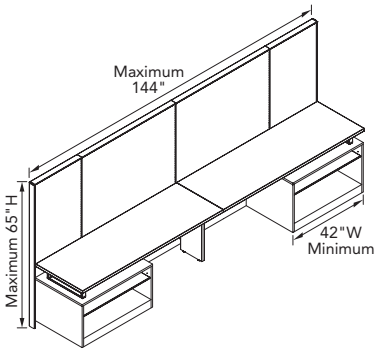
Back-mounted Credenzas — Modular

Use 2 storage-to-panel brackets per Credenza — 2 LH and 2 RH.
The minimum Credenza size is 22"H x 42"W x 18"D or 24"D.
The maximum panel run between back-mounted Credenzas is 60".
Overheads and shelves cannot be used with 22"H back mounted Credenzas.
Worksurfaces (if specified) must be mounted on the same side of the parent run as the Credenzas.
Panel frame maximum height is 65".



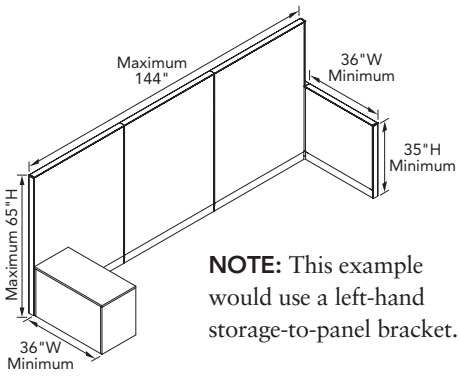
Back-mounted Credenzas — Off-Modular Ends

Use 1 storage-to-panel bracket per Credenza — 1 LH and 1 RH.
The minimum Credenza size is 22"H x 42"W x 18"D or 24"D.
With a mid-run floor support, the maximum panel run is 144"
Without a mid-run floor support, the maximum panel run is 96".
Overheads and shelves cannot be used with 22"H back mounted Credenzas.
Worksurfaces (if specified) must be mounted on the same side of the parent run as the Credenzas.
Panel frame maximum height is 65".



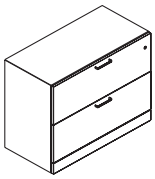
Side-mounted Credenzas — with Return Panel

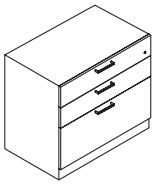
Use 1 storage-to-panel bracket on Credenza.
The minimum Credenza size is 22"H x 36"W x 18"D or 24"D.
The minimum size for panel return is 35"H x 36"W.
With a mid-run floor support, the maximum panel run is 144"
Without a mid-run floor support, the maximum panel run is 96".
Overheads and shelves cannot be used with 22"H side mounted Credenzas.
Worksurfaces (if specified) must be mounted on the same side of the parent run as the Credenzas.
Panel frame maximum height is 65".
Counterweight is required.



NOTE: This example would use a left-hand storage-to-panel bracket.

Align Lateral Files, Personal Files, and Accessories

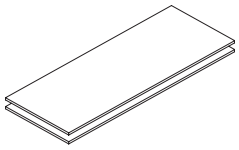




28"H Align Lateral Files, Personal Files, and Bookcases (page 56)

- Square edge full front.
- Beam, Halo, Square, and Arch metal pulls are customer installed.
- All files are 18"D.
- Files ship with glides fully recessed. Extend glides on 2-high files ¾" to align with support pedestals.
- Hanging frames and dividers installed on-site.
- 2-high units have one lock.
- For locking specifications, see pages 384-386.
- Tops are available — order separately.
- 28"H Bookcases include one adjustable shelf.
- Adjustable shelf has 3 locations in 3.75" increments:
  - Bottom shelf location is 6.9" from bottom of case.
  - Middle shelf location is centered in case.
  - Top shelf location is 6.9" from top of case.
- Lateral Files come with file bars to accommodate either front-to-back or side-to-side filing. Personal files come with file bars to accommodate side-to-side filing only; front-to-back filing bars may be purchased separately.

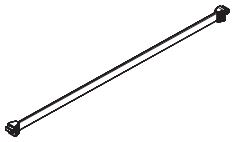
Note: Counterweight kits are required for freestanding lateral files (i.e., files that are not positioned under a worksurface, ganged to an adjacent file, or bolted to the floor or wall.)



Align Accessories

Counterweight kit(s) for 28"H Credenzas (page 55)

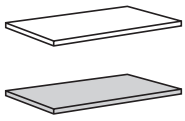
- Counterweight kit(s) required for freestanding files:
  2-high 30"W file.....50 lbs.
  2-high 36"W files .....57½ lbs.
  2-high 42"W files .....70 lbs.
- Metal weight placed in bottom of freestanding files to inhibit tipping; field installed only.



Front-to-back Filing Bar (page 54)

- Front-to-back filing bar can be positioned to accommodate letter, A4, legal or EDP size documents. See pge 34 for complete filing information. Front-to-back filing bar must be used with side-to-side hanging frame.
- For 12"H interiors.

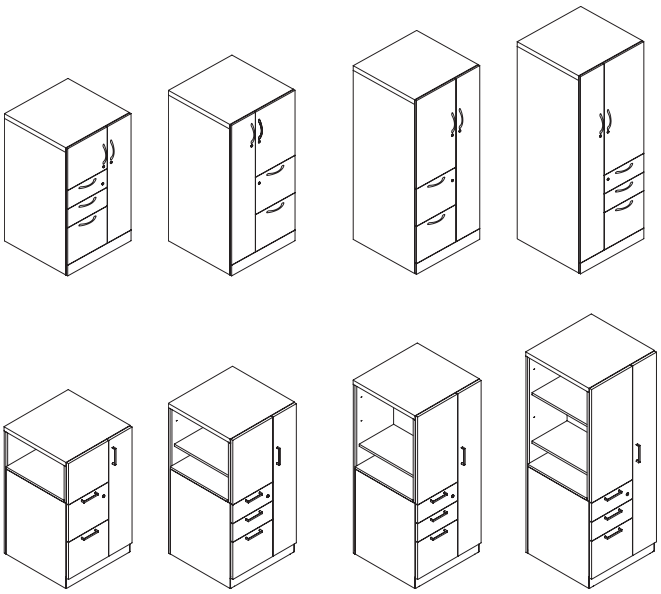
Align Tops for Metal Storage



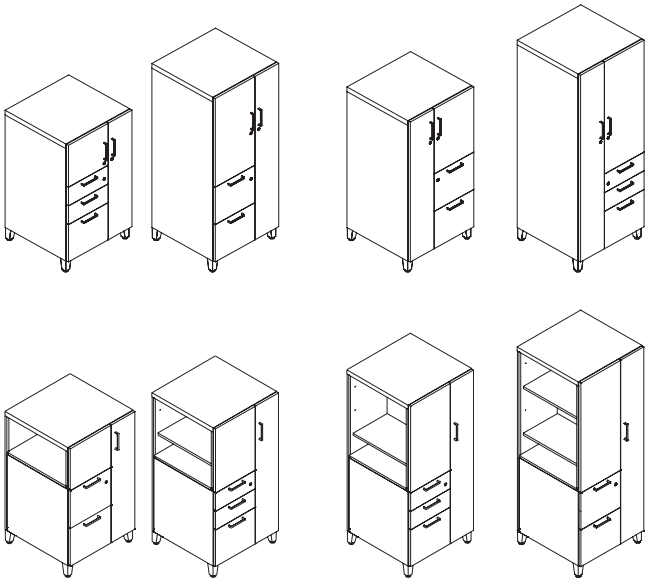
Metal Storage Laminate and Veneer Tops (page 57)

- Tops are field installed.
- 60", 66" and 72" tops span two lateral files. Add "S2" suffix to add ⅛" to nominal width of top for freestanding applications.
- 18"D tops are for 18"D lateral files, personal files, and credenzas. 24"D tops are for 24"D credenzas. 36"D tops are available for 18"D storage placed back-to-back.
- Veneer lateral file tops by Gunlocke®.
- Tops are 1¼" thick.
- Stratawood veneer has a consistent straight-grain pattern. Natural veneer will have cathedrals with variations in grain pattern and tone.
- Recommended to complement any veneer or laminate flat edge worksurfaces.

Plinth Base – Flush or Recessed



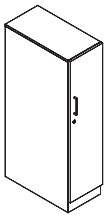
Foot Base – Stride®, Pier or Terrace DNA®

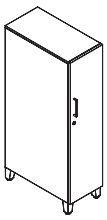


NEW & IMPROVED 18"W and 24"W Align Metal Towers
(pages 58-69)
This specification information is for Align tower models with the new model logic, ordered & produced after March 2020.

- Front-access personal towers include locking cabinet section, locking wardrobe section, and locking drawered section. Side-access personal towers include open side access bookcase, locking wardrobe section, and locking drawered section.
- 24"W towers offer the option of box/box/file or file/file drawer configuration. 18"W tower offers file/file drawer configuration only.
- Available with Terrace, Stride, or Pier feet. Also available with plinth base, either flush or recessed. Plinth is approximately 3.35"H and matches other Align storage. 18"W tower is also available as a mobile tower with casters.
- 18"W Mobile towers have two locking casters (in front) and two non-locking casters.
- Full front drawers and doors are available as metal or laminate. Laminate fronts have grain running vertically and are grain-matched.
- Optional markerboard finish is available only on side-access units with metal fronts. Only the front panel of the side-access portion will be finished with markerboard paint, the remaining drawer and door fronts will be painted to match the chassis. Markerboard finish is white.
- 24"W tower wardrobe portion is approximately 9"W. 18"W tower wardrobe portion is approximately 8⅓"W.
- The wardrobe portion of each tower comes installed with a rod accessory to accept clothing hanger(s) or a Radii work tool coat hook can be added. Radii coat hook is sold separately.
- Units can be shipped with lock cores removed; cores can then be installed after storage units are placed. Towers can be keyed alike with pedestals, credenzas, laterals, and overhead cabinets.
- Towers can be used to support a work surface. In order to bracket a work surface to a tower, order bracket model YPWTAWSBKT24.
- All drawers use heavy-duty, telescoping ball-bearing slides. All drawers feature 100% drawer extension.
- Case has a finished appearance with smooth seams and no overlaps.
- Drawer alignment matches other Align storage.
- 24"W tower is available with all pull styles. 18"W tower is available only with arch and square pull styles due to slim width of drawer.
- Cabinet door on 50"H and 57½"H units include one adjustable shelf. 65"H units include two adjustable shelves in this area. 42½"H unit does not include an adjustable shelf in the cabinet section.
- Side access portion door on 50"H and 57½"H units include one adjustable shelf. 65"H units include two adjustable shelves in this area. 42½"H unit does not include an adjustable shelf in the side-access portion.

Plinth or Foot Base — 12"W Wardrobe / Locker





NEW & IMPROVED 12"W Align Metal Wardrobe/Single Door Locker (pages 70-72)

This specification information is for Align wardrobe models with the new model logic, ordered & produced after March 2020.

- Available in 42½", 50", and 65"H. Available in 18" or 24"D.
- Available with Terrace, Stride, or Pier feet. Also available with plinth base, either flush or recessed. Plinth is approximately 3.35"H and matches other Align storage.
- Full front doors are available as metal or laminate. Laminate fronts have grain running vertically.
- 18"D Wardrobes: 42"H and 50"H plinth wardrobes can be freestanding. 18" D footed units must be attached to a panel, worksurface, or ganged to another unit.
- 24"D Wardrobes: 42"H and 50"H plinth and footed wardrobes can be freestanding.
- 65"H wardrobes: 18"D and 24"D wardrobes must be attached to a panel, worksurface, or ganged to another unit.
- To attach wardrobes to a panel, use brackets AP22PBKLH or AP22PBKRH.
- Wardrobes can be used to support a work surface. In order to bracket a work surface to a tower, order bracket model YPWTAWSBKT18 or YPWTAWSBKT24.
- Wardrobes come installed with a rod accessory to accept clothing hanger(s) or a Radii work tool coat hook can be added. Radii coat hook is sold separately.
- Wardrobes have slots cut into the inner liner that allow the user to hang Radii work tool accessories inside the unit. 42"H wardrobes have 2 slots, 50"H and 65"H wardrobes have 4 slots.
- Wardrobes are shipped with one adjustable shelf. 42"H and 50"H wardrobes have 3 shelf locations; 65"H wardrobes have 6 shelf locations.
- Units can be shipped with lock cores removed; cores can then be installed after storage units are placed. Towers can be keyed alike with pedestals, credenzas, laterals, and overhead cabinets.
- Wardrobes are also offered with a digital locking option. Digital lock replaces the pull. For digital lock specification information, see page 22.

Reference Page

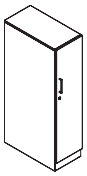
Align lockers provide a comprehensive solution of secure storage outside the primary workstation. Whether you're minimizing the overall workstation footprint or have mobile workers needing a place for their personal belongings, lockers provide the right amount of storage.

Align lockers include single, double, and quad locker variations, as well as an additional cubby solution. Designers have the freedom to select from a variety of aesthetic options including plinth or footed based, painted and laminate fronts, and a variety of pull options, to reflect any company culture.

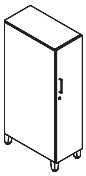
NEW & IMPROVED Align Lockers (pages 70-80)
This specification information is for Align locker models with the new model logic, ordered & produced after March 2020.

Align Lockers (pages 70-80)
- Available in 42½", 50", and 65"H. Available in 18"D.
- Available with Terrace, Stride, or Pier feet. Also available with plinth base, either flush or recessed. Plinth is approximately 3.35"H and matches other Align storage.
- Full front doors are available as metal or laminate. Laminate fronts have grain running vertically and are grain-matched.
- Units can be shipped with lock cores removed; cores can then be installed after storage units are placed. Towers can be keyed alike with pedestals, credenzas, laterals, and overhead cabinets.
- Lockers can be ganged either side-to-side or back-to-back.
- "Double" and "Quad" lockers include two double coat hooks in each compartment.
- **42"H x 12"W** and **50"H x 12"W plinth** lockers can be freestanding. **65"H x 12"W plinth** lockers and all heights of **12"W footed** lockers must be attached to a panel, worksurface, or ganged to another unit.

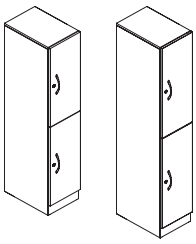
SINGLE LOCKERS
Plinth Base – Flush or Recessed



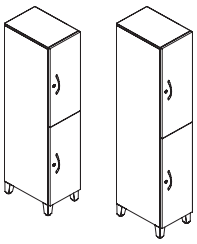
Foot Base – Stride, Terrace, or Pier



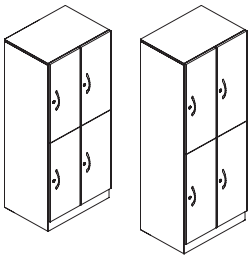
DOUBLE LOCKERS
Plinth Base – Flush or Recessed



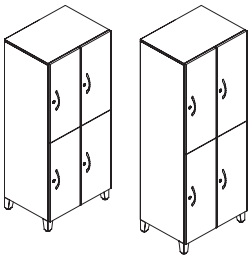
Foot Base – Stride, Terrace, or Pier



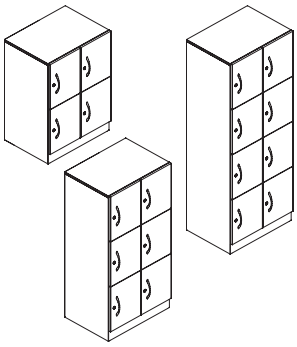
QUAD LOCKERS
Plinth Base – Flush or Recessed



Foot Base – Stride, Terrace, or Pier



CUBBY LOCKERS
Plinth Base – Flush or Recessed



Foot Base – Stride, Terrace, or Pier

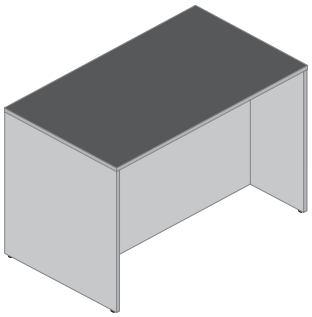
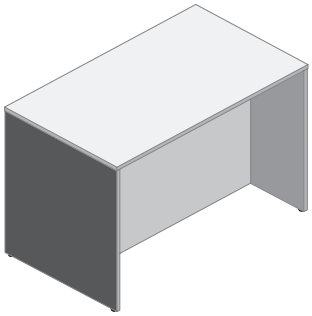
Storage Islands are a new application for Align and Essentials Storage Lines.

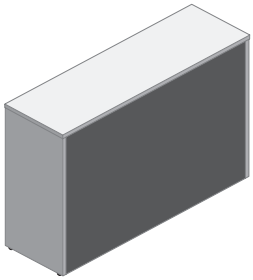
***Essentials 3H Storage and Align 42½"H Lockers and Wardrobes**



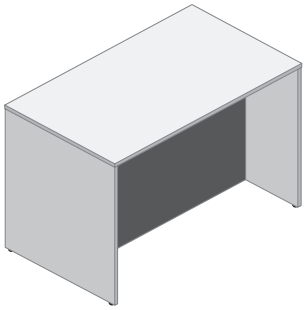
Top: (pages 86-89)
- Available in 18"D and 36"D.
- Tops made of 1¼" particle board with 2mm edgeband, High Pressure laminate on one side and paper back on the other. Grain direction on all tops runs horizontal.
- Tops specified specific to the application.
  Example: Storage island tops with end panels will have proper pilot holes in the top to accept attachment hardware.
- External Support Channel should be used in applications where +48"W tops are unsupported.

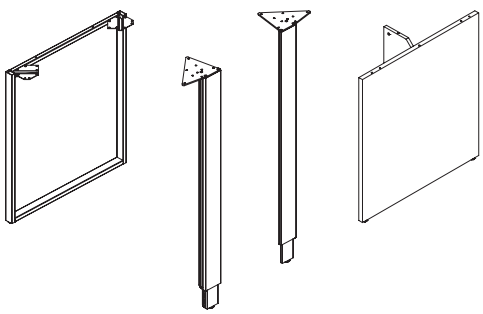


End Panel: (page 90)
- Panels made of 1¼" particle board with 2mm edgeband and High-Pressure Laminate on both sides.
- Grain direction on all End Panels runs vertical.
- End Panels are shipped with mounting hardware.
- All 36"D End Panels and Tops accept a septum, however, it is not necessary to put one in for all applications.



Back/Septum: (page 90)
- Model is considered a back when used in 18"D configurations to encase back of storage units.
- Model is considered septum when used in 36"D configurations to create division down the center of 36"D top.
- Backs/septums are made of ¾" particle board with 0.5mm edgeband and High-Pressure Laminate on both sides.
- Grain direction on all backs/septums runs horizontal.
- Ship with mounting hardware.
- The width and number of units spanned on the septum must match the width and number of units spanned on the top.





End of Run Supports: (pages 91-92)
- O-legs installed in peninsula application are centered front to back on the worksurface. The O-leg will be ½" inset from the edge of the worksurface.
- When specifying a peninsula application, at least one side of the open worksurface span must be supported with undersurface storage. Island tops cannot be specified with only O-leg, Stride Post Legs, or Laminate Return Panel supports.
- Stride Legs are height-adjustable and able to be used with Align or Essentials platforming.
- End of Run laminate supports can be specified as a "waterfall" return on peninsula applications.

Working with Storage Islands

Top Sizes: (pages 86-89)
Top models are decided by what is needed in the application. If a storage island is specifying end panels, a different top model is needed than when a non-paneled island is configured. Storage Island Tops for use with End Panels are dimensionally larger to accommodate the needed attachment. The below chart highlights how the depth changes when panels and backs are specified.

	Depths
18"D No Back, No End panels	18.190
18"D No Back, With End panels	18.440
18"D Back and End Panels	19.455
36"D No Back, No End Panels	36.690
36"D End Panels	

End Panel sizes: (pages 90-92)
Storage islands can be designed using Essentials and Align. These storage platforms have a 2" variance making storage island dimensions different depending on storage platform used. See the chart to the right for dimensions of end panels.

*Recommend usage of panels when top is specified and storage sides are exposed. Storage will have gap between back-to-back units if top is flush with storage units.

	Depths	Height
18"D No Back, Align	18.190	40.8
18"D No Back, Essentials		38.8
18"D With Back, Align	19.204	40.8
18"D With Back, Essentials		38.8
36"D End Panels, Align	36.440	40.8
36"D End Panels, Essentials		38.8

As the storage island configuration grows, the top width also increases. The below chart outlines how to calculate these dimensions when considering how many units are spanned and if end panels are specified. When specifying your model for the storage island top, the model will end with the correlating span. These spanning guidelines assume all storage units are the same model and does not take into account mixing and matching of units. When mixing and matching of storage units, use the below chart to find required top dimensions and pick top model with this information. Spanning indicated on model may not be indicative of configuration when mixing and matching.

	Width Sizes						
	Span 1	Span 2	Span 3	Span 4	Span 5	Span 6	Span 7
No End Panels	Listed Model Dimensions	Span 1 + 0.125	Span 1 + 0.25	Span 1 + 0.375	Span 1 + 0.5	Span 1 + 0.625	Span 1 + 0.75
1 End Panel	Listed Model Dimensions + 1.372						
2 End Panels	Listed Model Dimensions + 2.744						

Span 1 tops indicate it will only cover a single storage unit. Start with the span 1 number displayed in the table above. Depending on your Islands configuration, the top width increases accordingly based on the 2 factors below.

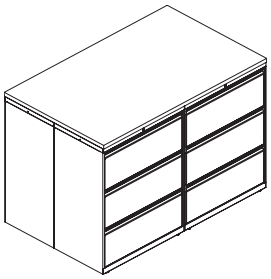
1). The number of end panels you attach to the worksurface. As you add end panels, 1.372" is also added to the top dimensions per end panel specified.
2). The number of side-to-side storage units the surface spans. The spanning from one unit to another takes into account .125" gap between each storage unit.

**Be sure to use the width of the worksurface you select. Models correspond to the correct surface width.*
**Span represents the total number of side-to-side units. Front-to-back units do not factor into number of units spanned.*

Example: *Two 24"W laterals are specified side-to-side. The top will span across two units making it a "S2." The configuration will also include two end panels, so the overall width of the configuration is 48" + 2.744" + .125" = 50.869"W.*

Working with Storage Islands

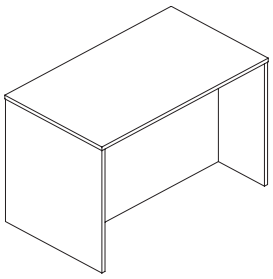
Application Overview

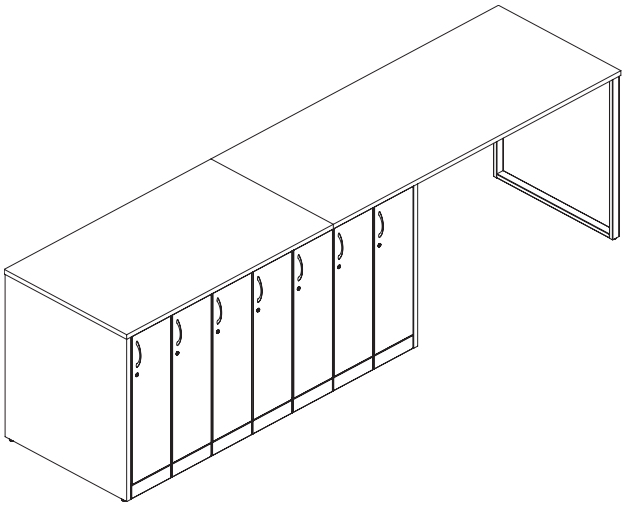


Simple Storage Island:
Simple Storage Islands only consist of adding a top to Align or Essentials storage configurations. Simple Storage Islands allow users to flex storage spaces into usable spaces.

Fully Shrouded Storage Island:
Fully Shrouded Storage Islands consist of adding a top, back/septum, and end panels. Single- (18"D top) or double-sided (36"D top) applications can be specified as fully shrouded. By adding these additional parts and pieces to Essentials or Align Storage platforms users can create more permanent and visually appealing storage spaces.

- When specifying like applications, both end panels must be specified with the back. The back piece cannot connect to another back.
- In a counter top application, the unsupported 18"D surface will require an external stiffener based on the unsupported width.





Collaborative Storage Peninsula:
Collaborative Storage Peninsulas consist of tops, septum, end panels, and end of run supports. Peninsulas create usable storage spaces and collaborative work areas all in one configuration.

- Peninsula applications can only be completed with 36"D worksurfaces and end panels.
- Back to back storage specified without an end panel will result in a ~⅜"gap between storage units.
- In a peninsula application, one end of the worksurface must be supported by undersurface storage. The opposing end can be supported with an O-leg, Stride Post Legs, or laminate return panel.

For specification information see pages 83-85.

Metallic paints, due to varying reflectance, may appear to have less visual color consistency than other paint finishes, even when L/A/B values are exactly the same. (L/A/B — measurable aspects of color — values are maintained within a specified range, to ensure consistent appearance of paint colors.)

****These colors are intended to be an inspirational option for the trending market. Product application is limited and color availability is approximately two years to coincide with evolving workplace trends.*

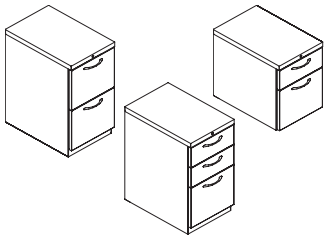
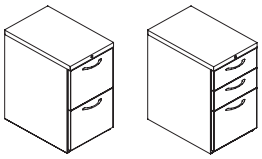
ESSENTIALS METAL

Reference Page

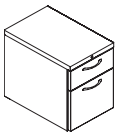


Essentials Pedestals

- File drawers can accommodate front-to-back filing on all models, and side-to-side filing on 22⅞"D and 28⅞"D models.
- Support pedestals of a maximum depth, relative to the worksurface depth, result in one panel receptacle position being inaccessible.
- 22⅞"D units cannot be used with 24"D Concensys® Freestanding.
- 28⅞"D units cannot be used with any 30"D Concensys Freestanding or any 24"D panel-hung worksurface.
- For locking specifications, see pages 384-386.
- Leveling capacity is 2" on 28"H pedestals.



Support pedestals can support one end of a panel-attached worksurface, in lieu of other worksurface supports by using a 28"H support pedestal but cannot be used to support freestanding desking without an end panel.



Suspended pedestals mount to the underside of the worksurface using keyhole slots in top of pedestals. Do not mount suspended pedestals on bridges or peninsulas. Always mount suspended pedestals at end of worksurfaces.

When using suspended units on systems, a return panel should extend 18" minimum beyond leading edge of worksurface on which unit(s) is mounted.

Mobile Pedestals can be used to provide flexible storage. The nominal height of a mobile pedestal is equal to that of a freestanding pedestal of equivalent design. There is no need to add extra height for the casters.

Both 26⅞"H and 28"H mobile pedestals can be nested under worksurfaces mounted at 29½"H. If using 28"H Essentials mobile pedestals underneath a panel mounted worksurface on Stride®, Terrace®, or Optimize™ the panel glides will need to be extended a minimum of ¾" to allow for the mobile pedestals to slide underneath the worksurface.

Mobile pedestals cannot be leveled. Take this into consideration when planning offices which may have uneven floors.

Pedestal Compatibility with Cadence® Desking and Systems Worksurfaces

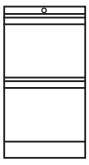
	Freestanding		Systems Panel-hung Worksurfaces	
Pedestal Depth	24" Deep	30" Deep	24" Deep	30" Deep
18"	Yes	Yes	Yes	Yes
19⅞"	Yes*	Yes	Yes*	Yes
22⅞"		Yes	Yes*	Yes
28⅞"				Yes*

*Wire management grommet is blocked in these applications.

Note: Pedestal placement may affect access to receptacles in base pathway.

Essentials storage pedestals are available in 5 styles:

28"H



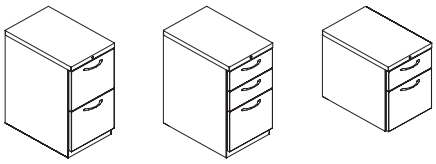
Worksurface height mobile and worksurface supporting pedestals have a taller base plate, resulting in a taller overall cabinet height. Consideration must be made to ensure that units align visually with each other and with selected Essentials lateral files. The accompanying chart will help you select the correct pedestal for your application.

Essentials Pedestal Model begins with	Style	Overall Height	Base Height	Spacer required below worksurface	Units align with these Essentials Lateral Models begin with
xx11	Seat height	22½"	2"	N/A	N/A
xx14	Suspended	19½"	N/A	N/A	N/A
xx18, xx38	Worksurface height mobile	28"**	3⅛"	N/A	**ELF8** (2-high only)
xx19, xx39	Worksurface supporting*	28"	3⅛"	**No**	**ELF8** (2-high only)

*Units will support conventional 29½" high worksurfaces.

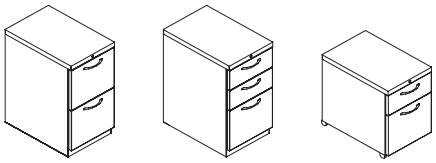
**When using 28"H Essentials mobile pedestals underneath a panel mounted worksurface on Stride or Terrace, the panel glides need to be extended a minimum of ¾" to allow for the mobile pedestals to slide underneath the worksurface.

Essentials™ Pedestals



Essentials Support and Suspended Pedestals (page 102)

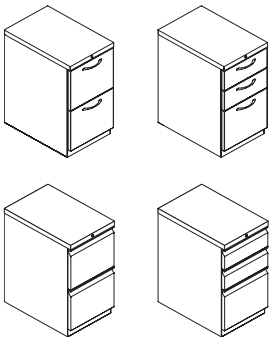
- Steel, ball-bearing slide suspension with full-extension on file drawers.
- File drawer has high sides to allow front-to-back filing.
- Side-to-side filing utilizes follower block and cross rail.
- Follower block (APFB80) sold separately.
- Cross rail is standard in all pedestals.
- Pencil tray included — one per pedestal with box drawers.
- For improved aesthetics on 28"H pedestals, order flush mount kick plates.
- Support units have four leveling glides.
- Counterweight is standard in mobile pedestals.
- Support pedestals not used to support a worksurface require a counterweight kit — order separately.
- Box drawers have adjustable divider.
- Caster package available to field convert support pedestals to mobile.
- Standard core removable locks.



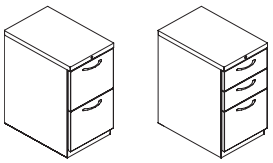
Essentials Mobile Pedestals (page 102)

- Steel, ball-bearing slide suspension with full-extension on file drawers.
- File drawer has high sides to allow front-to-back filing.
- Side-to-side filing utilizes follower block and cross rail.
- Follower block (APFB80) sold separately.
- Cross rail is standard in all pedestals.
- Pencil tray included — one per pedestal with box drawers.
- Counterweight is standard in mobile pedestals.
- Box drawers have adjustable divider.
- Rear casters swivel, front casters are fixed.
- Standard core removable locks.
- If using 28"H Essentials mobile pedestals underneath a panel mounted worksurface on Stride®, Terrace®, or Optimize™ the panel glides will need to be extended a minimum of ¾" to allow for the mobile pedestals to slide underneath the worksurface.
- Adjustable glide kit available to field convert mobile pedestals to freestanding.
- Casters on box/file mobile pedestal require installation.
- For improved aesthetics on 28"H pedestals, order flush mount kick plates.

Essentials™ Pedestals



Essentials Basic Support Pedestals (page 103)
- Support pedestals have fully enclosed tops.
- Steel, ball-bearing slide suspension with full extension.
- Follower block (APFB80), pencil tray (A2280-000), and adjustable divider (PD80) for box drawers sold separately.
- Side-to-side filing utilizes two cross rails (AP519495) sold separately.
- File drawer has high sides to allow front-to-back filing.
- Support pedestals not used to support a worksurface require a counterweight kit sold separately.
- Caster package available to field convert support pedestals to mobile.
- Standard core removable locks.
- Adjustable Glide Kit available to field convert mobile pedestals to freestanding.
- For improved aesthetics on 28"H pedestals, order flush mount kick plates.



Essentials Basic Mobile Pedestals (page 103)
- Steel, ball-bearing slide suspension with full extension.
- Follower Block (APFB80), pencil tray (A2280-000), and adjustable divider (PD80) for box drawers sold separately.
- Side-to-side filing utilizes two cross rails (AP519495) sold separately.

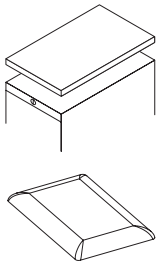
- Standard core removable locks.
- If using 28"H Essentials mobile pedestals underneath a panel mounted worksurface on Stride®, Terrace®, or Optimize™ the panel glides will need to be extended a minimum of ¾" to allow for the mobile pedestals to slide underneath the worksurface.
- Adjustable glide kit available to field convert 26⅞"H – 28"H mobile pedestals to freestanding.
- For improved aesthetics on 28"H pedestals, order flush mount kick plates.



ASPT-24SC

Essentials Seat Cushion (page 104)
- Seat cushion provides quick and convenient additional seating.
- Seat cushion adds approximately 2"H to pedestal.
- YPPA prefix models have stitched corners and bumpers on bottom.
- ASPT prefix models have wrap around corners and attach with double-sided tape.
- COM yardage for seat cushion is ⅔ yard.

Dual-side Locking
Drawers and doors lock on both sides to prevent being pried open.

Interlock System
This mechanism inhibits roll-out of more than one drawer or shelf, either sequentially or simultaneously.

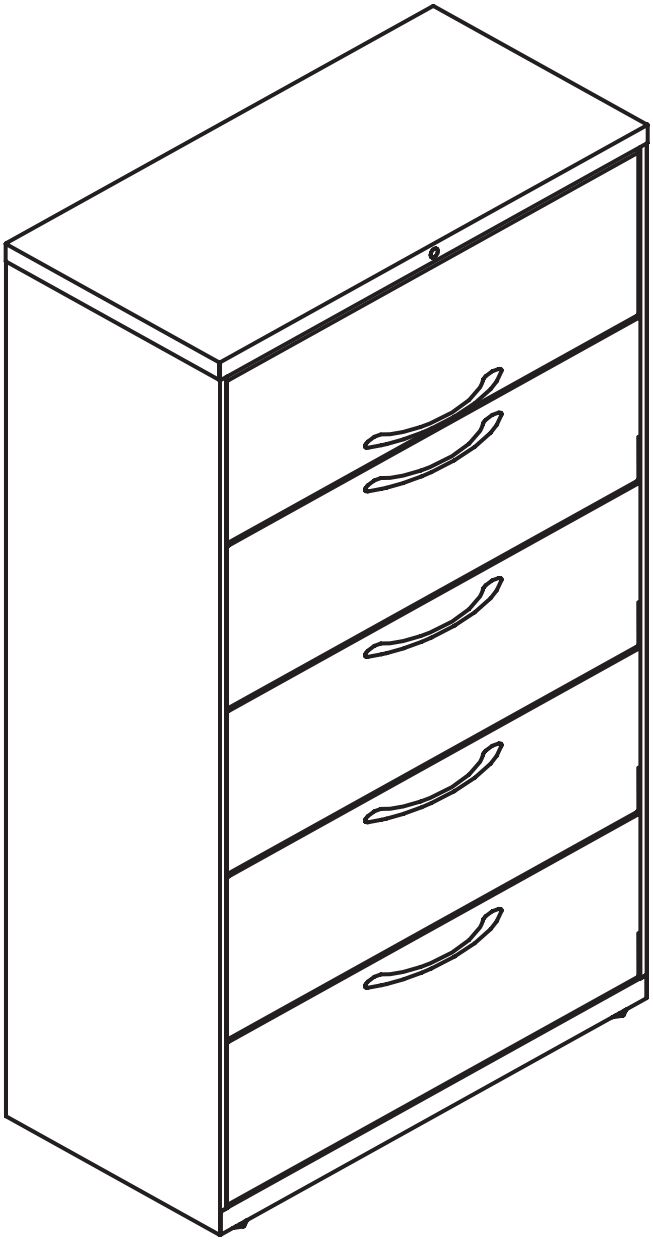
Fully Enclosed Bottom
Double bottoms are welded into all files for added rigidity.

Four Hex-head Leveling Glides
Leveling glides can be adjusted from outside or inside the case. Because of the hex-head design of the stem, leveling can be done even when the file is fully loaded. Range is 1".

Suspension
Telescoping, ball-bearing slides.

Core Removable Locks
Core removable lock feature allows key numbers to be easily changed in the field which facilitates installation.

Omit Lock Core
Files can be shipped with lock cores removed; cores can then be installed after files are placed. Laterals can be keyed alike with pedestals and overhead cabinets.



Four Pull Styles
Choice of four pull styles, also available on Essentials pedestals, allows for total design coordination on projects.

Side Knockouts
Files have knockouts on each side to allow easy ganging of freestanding units to inhibit tipping.

Inset Drawer Design
Drawers are inset inside the case. Base plate is flush with drawer fronts.

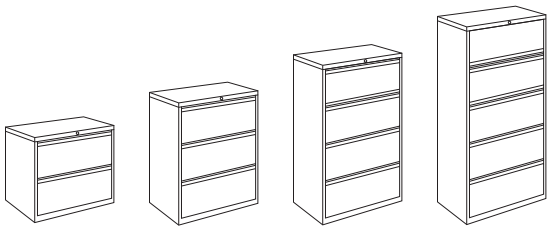
Paint Finish
Durable baked enamel finish is applied over rust-inhibiting phosphate pre-treatment.

Hanging Frames
Side-to-side come standard. Front-to-back filing option — hang rails are required.

Counterweights
Counterweights included and factory installed as required.

Drawer Interiors
Interiors and all accessories painted gray.

Essentials Lateral Files and Combination Files

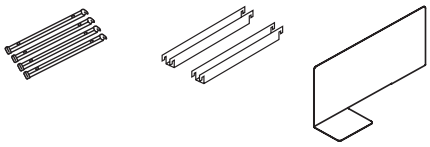


Essentials Lateral Files (page 105)

- Available in four pull options — arch, square, integral, and beveled pulls.
- Load capacities per 12" opening per current ANSI/BIFMA Standards:
  30"W..... 86 lbs.
  36"W..... 105 lbs.
  42"W..... 124 lbs.
- Clearance Dimensions – H x W 30 / 36 / 42" x D
  Roll-out drawer..... 11¼" x 27⅞" / 33⅞" / 39⅞" x 16½"
  Roll-out shelf..... 10½" x 27⅞" / 33⅞" / 39⅞" x 16½"
- For locking specifications, see pages 384-386.
- All files are 18" deep.
- Laminate and veneer tops are available — order separately.
- Support-only 2H Lateral does not include a counterweight and must be positioned under a panel-attached worksurface, ganged to an adjacent file, bracketed to a panel, or bolted to the floor or wall. It may not be used in a freestanding manner.

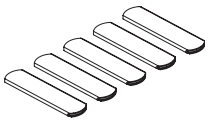
Note: Counterweights are included and factory installed as required except in the case of the 2H support-only lateral.

- Starting in July — Magnetic Label Holders available as an accessory model. Units will no longer include label holders.



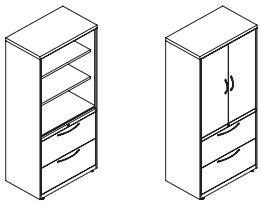
Essentials Accessories (page 105)

- All accessories are gray.
- Model L919491 used for front-to-back filing of all paper sizes in all drawer sizes except — letter in a 42"W case.
- Model L919492 for use in 42"W case for front-to-back filing of letter paper size



Magnetic Label Holder - Available July 2021 (page 105)

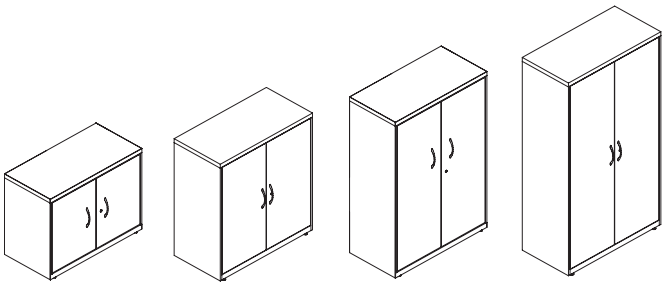
- 5 pack of magnetic label holders.



Essentials Combination Files (page 106)

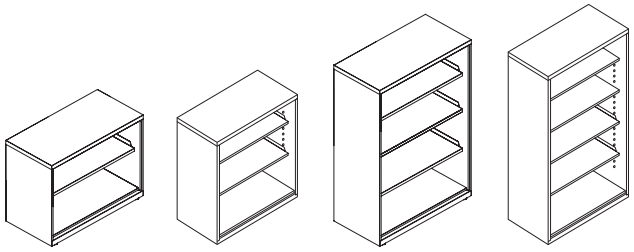
- Combination cabinets match height of Essentials 5H laterals and storage cabinets.
- Combination cabinets are 30"W or 36"W and available as open shelves or hinged doors.
- Shelves are adjustable in 2" increments and are 15¼"D.
- Available in four pull styles — arch, square, integral, and beveled pulls.
- 64¼" combination cabinet has one fixed shelf and two adjustable shelves.
- Cabinets are fully assembled.
- Drawers feature three-part, telescoping, steel ball-bearing slides.
- Mechanical interlock inhibits opening more than one drawer at a time.
- For locking specifications, see pages 384-386.

Essentials Storage Cabinets and Bookcases



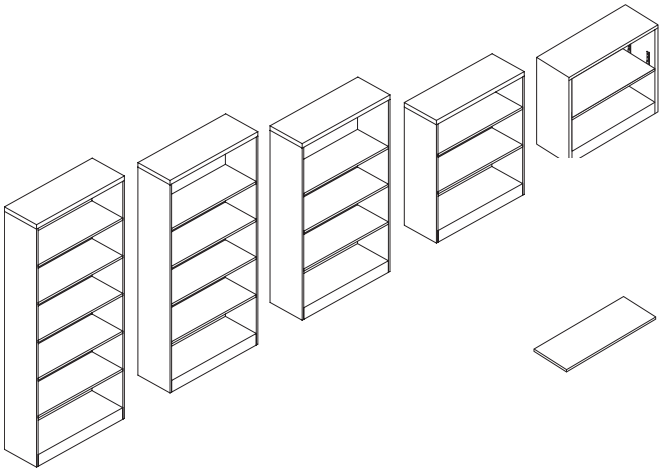
Essentials Storage Cabinets (page 107)

- Storage cabinet matches height of Essentials laterals and combination files.
- Cabinets are 30"W or 36"W and are available in four heights.
- Shelves are adjustable in 2" increments and are 15¼"D.
- Available in four pull styles — arch, square, integral, and beveled pulls.
- Storage cabinets have the following number of adjustable shelves:
  27¼"H.....1 52½"H.....3
  39⅛"H.....2 64¼"H.....4
- Cabinets are fully assembled.
- For locking specifications, see pages 384-386.



Essentials 18"D Bookcases (page 108)

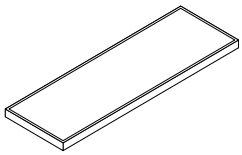
- Essentials 18"D bookcases are same height as 2H, 3H, 4H, or 5H Essentials laterals and storage cabinets.
- Essentials 18"D Bookcases are 30"W or 36"W with open shelves.
- Shelves are 1" thick. Interior height 34½"H or 59"H.
- Shelves adjust in 2" increments. Shelf load capacity 107 lbs.
- 27¼"H units have 1 adjustable shelf. 39⅛"H units have 2 adjustable shelves. 52½"H units have 3 adjustable shelves. 64¼"H units have 4 adjustable shelves.
- Inside shelf dimension 34½"W x 15⅛"D.
- Bookcases are fully assembled.
- Bookcases include leveling glides with 1" of adjustment.



Essentials 12⅝"D Bookcases (page 108)

- Available in five heights from 29" to 81".
- All units case dimensions are 33⅞"W x 12⅝"D.
- Inside shelf dimension depth is 12⅛"D.
- Shelves adjust in ½" increments. Shelf load capacity 114 lbs.
- Bookcases have the following number of adjustable shelves:
  29" high .....1 71" high 4
  41" high .....2 81" high 4
  59" high 3
- Shelves are ¾" thick. Interior 4¼" less than height.
- Meets or exceeds ANSI/BIFMA and ISTA performance standards.
- Bookcases do not include leveling glides.

Essentials Accessories



Metal Storage Tops — Laminate or Veneer (page 109)

- Tops are 1¼" thick. 18" or 36" deep.
- 60", 72" and 84" tops span two lateral files. Add "S2" suffix to add ⅛" to nominal width of top for freestanding applications.
- For use on 18" deep laterals, overfiles, bookcases, and cabinets.
- Veneer lateral file tops by Gunlocke®.
- Stratawood veneer has a consistent straight-grain pattern.
- Natural veneer will have cathedrals and as a natural material is subject to nature's quality control with variations in grain pattern and tone.
- Tops are field installed.
- 36"D tops are to be used for lateral files placed back-to-back.
- These tops will work with: Align metal case credenzas, Align lateral files, Essentials personal files, Essentials laterals, Essentials overfiles, and Essentials 18"D bookcases.
- Recommended to complement: veneer or flat edge laminate system worksurfaces.

For specification information see pages 95-97.

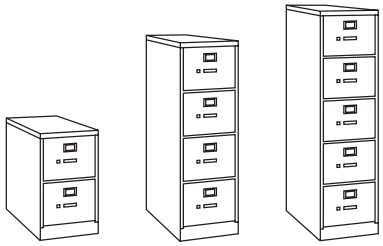
Vertical File Specification Information

Reference Page

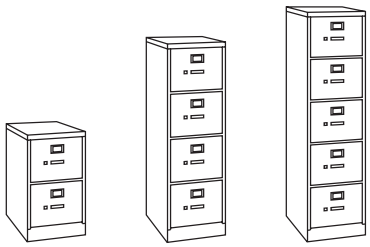
Vertical Files

The A990 and A940 vertical files offer two contemporary solutions to your filing needs. Both series are built to handle the demands of today's busy office. From rugged, full-extension, ball-bearing suspensions, to reinforced frames and kickplates, these files set the standard for reliability, efficiency, and durability. Whisper-like drawer action is quiet testimony to the three-part telescoping, ball-bearing slide suspension, which generate almost effortless movement. Locks can be keyed alike (optional). See pages 384-386.



A990 Series Vertical Files (page 114)

- High capacity files with heavy-duty suspensions.
- 28½"D case depth with 27 front-to-back filing inches per drawer.
- Letter or legal sizes available.
- Three-part telescoping, ball-bearing slide suspension.
- Bright aluminum drawer pulls, label holders, and thumb latch.
- Standard interchangeable core removable locks.
- Accepts hanging files. High drawer sides hold hanging file folders without use of hangrails.
- Adjustable follower block.
- 7-point case reinforcement (6 vertical uprights, plus kickplate).
- Baked enamel finish over rust-inhibiting phosphate pre-treatment.
- Models meet or exceed ANSI/BIFMA 5.3-2012 and ISTA performance standards.



A940 Series Vertical Files (page 114)

- Files with heavy-duty suspensions.
- 26½"D case depth with 25 front-to-back filing inches per drawer.
- Letter or legal sizes available.
- Three-part telescoping, ball-bearing slide suspension.
- Bright aluminum drawer pulls, label holders, and thumb latch.
- Baked enamel finish over rust-inhibiting phosphate pre-treatment.
- Models meet or exceed ANSI/BIFMA 5.3-2012 and ISTA performance standards.
- Standard interchangeable core removable locks.
- Accepts hanging files. High drawer sides hold hanging file folders without use of hangrails.
- Adjustable follower block.
- 5-point case reinforcement (4 vertical uprights, plus kickplate).

Metallic paints, due to varying reflectance, may appear to have less visual color consistency than other paint finishes, even when L/A/B values are exactly the same. (L/A/B — measurable aspects of color — values are maintained within a specified range, to ensure consistent appearance of paint colors.)

****These colors are intended to be an inspirational option for the trending market. Product application is limited and color availability is approximately two years to coincide with evolving workplace trends.*

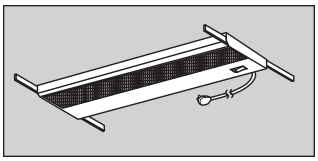
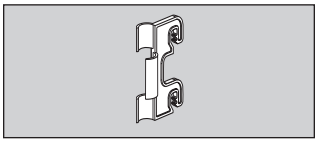
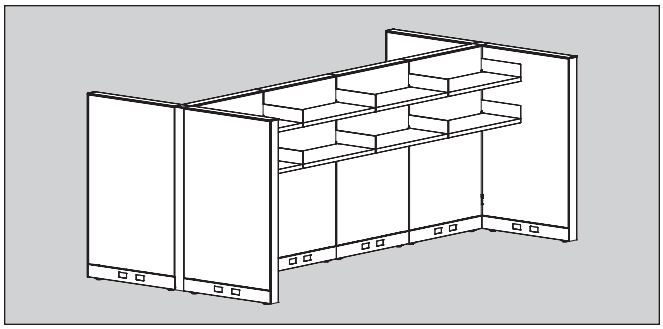
Height	4⅝" RTA models 5⅝"

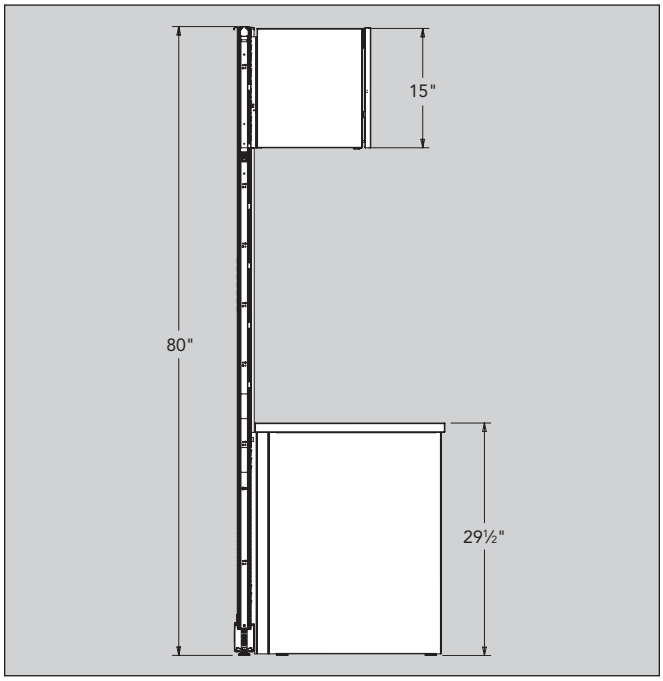


- **Task lights** can be mounted beneath storage shelves and overhead storage cabinets.
- Additional panel hung and freestanding lighting options are available.



- **Cord retainer clips** fasten into panel slots to anchor power cords.
- Available in black only.
- Clips are provided with under-shelf mounted task lights. Additional clips can be purchased separately.



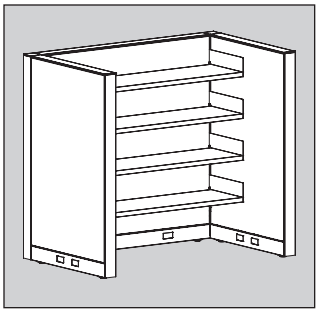


Specification Guidelines

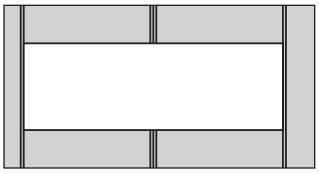
- In a panel run, only two overhead storage cabinets or open storage shelves are recommended per panel side.
- Do not suspend more than one overhead storage unit per side from panels in a panel run which is mounted, at one or both ends, with an off-module connector kit.
- Overhead storage cabinets and open storage shelves can be mounted on Terrace structural and stacking panels to a maximum height of 80"H.
- When mounting an overhead on a 57½"H base panel frame, select the option for Z57 bracket.
- For all other base panel frame and base panel frames with stacking frames the YZ bracket should be selected.
- Base panel frames with stacking frames that have an overall height of 57½" also use the YZ bracket.

When overhead storage units are suspended from stacking frames, the following guidelines should be adhered to:

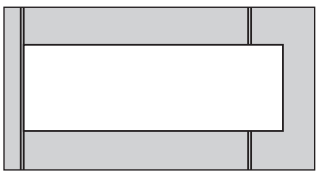
- Stacking frames should be added to all the parent run panels, and to, at least the first panel of each return-panel run. Stacking panels added to return panel must match the parent run configuration.
- A maximum of two overhead storage units should be suspended from each side of stacking frames on any given panel.
- With Terrace, a full height panel end cover is required for adequate stability when using overhead storage on the end of a run, or on a return panel.



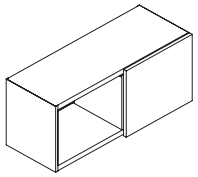
- No limitation to the number of units on structural frames when run is supported with return panels on each side of storage shelves or overhead storage cabinets.



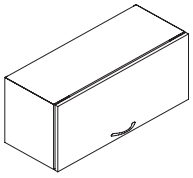
- **Storage shelf, receding door overhead, RTA overhead, and RTA shelf width** must correspond with width of panel(s).
- It is possible to span two panels when combined panel width equals cabinet or shelf width.



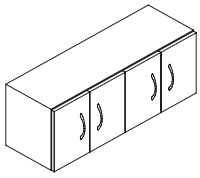
- **Terrace assembled metal overhead cabinets** can be mounted on a panel equal to or up to 18" narrower than cabinet using provided panel attachment brackets. Overhead cabinets can also be mounted on panels wider than the overhead cabinet when using off-module kit **Z2MN**. One side of overhead must be held on-module.



Sliding Door Overhead



Flipper Door Overhead



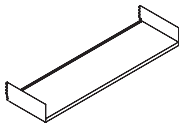
Hinged Door Overhead

Overhead Storage Cabinet (page 121)

- Steel cabinet with backstop.
- Available with sliding, hinged, or flipper door(s).
- Easy-Assist flipper door optional — requires minimal assistance in opening and closing. Not available on 60"W cabinets, specify 2–30"W cabinets with Easy-Assist.
- Self-engaging safety latch to secure cabinet to panel.
- Width can correspond with width of panel, or 2 panels joined without a connector.
- Arch or square pull optional on flipper and hinged doors.
- 60"W flipper door cabinet has 2–30"W doors with 2 independent locks.
- 24"-36"W hinged door cabinets have 1 lock and 2 optional pulls, 42"-48"W have 2 locks and 4 optional pulls.
- Accommodates recessed task lighting (specified separately).
- For locking specifications, see pages 384-386.
- Cabinets are 14¼"D x 15"H.
- 15"H cabinets can also be mounted on a panel equal to or up to 18"narrower than cabinet using provided panel attachment brackets.
- Sliding doors have a built in pull.
- Sliding, hinged, and flipper door overhead weight limits:

24"W	59 lbs.	42"W	105 lbs.
30"W	74 lbs.	48"W	121 lbs.
36"W	90 lbs.	60"W	152 lbs.

- When mounting an overhead on a 57½"H base panel frame, select the option for Z57 bracket. For all other base panel frame and base panel frames with stacking frames the YZ bracket should be selected. Base panel frames with stacking frames that have an overall height of 57½"H also use the YZ bracket.

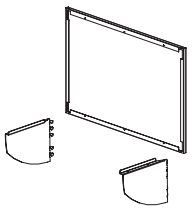


Open Shelf

Open Shelf (page 121)

- Metal shelf with back stop.
- Locking clips (2) standard.
- Will accommodate recessed task lighting — ordered separately.
- Weight Limits:

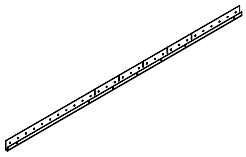
24"W	61 lbs.	42"W	108 lbs.
30"W	77 lbs.	48"W	124 lbs.
36"W	93 lbs.	60"W	155 lbs.



Upmount Kit for Overhead Cabinets

Upmount Kits for Assembled Overhead Cabinets (page 121)

- Consists of two upmount brackets, full back panel and required installation hardware.
- Allows mounting of an assembled overhead cabinet up to 15" above height of panel.
- Specify "Z2" prefix model number upmount kits with 15"H, 30"H, 35"H, 50"H, or 65"H frames; and "Z4" prefix model numbers for use with 22½"H, 42½"H, or 57½"H frames.
- Brackets require a clearance of 6½"below bottom of overhead cabinet.
- Width must correspond with width of panel frame or 2 panel frames joined directly in-line.
- Full back panel adds ½" to depth of overhead case. Full back panel only used when upmounting cabinet.
- Cannot be used with RTA models.

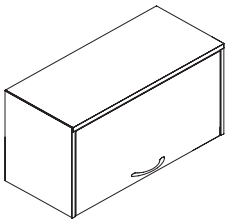


Horizontal Wall Track

Horizontal Wall Track (page 121)

- Allows mounting overheads on permanent wall structures only.
- Cannot be used with RTA models.
- Track is 60"W and notched at 6" intervals as a guide for field cutting.
- For use with 15"H sliding door overhead, field modification is necessary.
- Available in Black only.
- Attachment hardware not included.

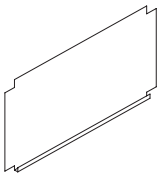
Reference Page



Receding Door Overhead

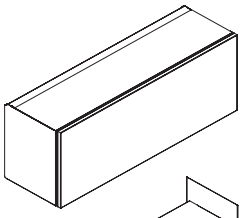
Receding Door Overhead Storage Cabinet (page 122)
- Steel cabinet with open back. Optional back can be ordered separately.
- Arch or Square pull optional.
- 60"W cabinet has 2 30"W doors with 2 independent locks.
- Accommodates recessed task lighting — ordered separately.
- For locking specifications, see pages 384-386.
- Cabinets are 13¼"D x 15"H. When door is recessed, interior dimensions are 12⅛"D x 11⅝"H.
- Weight Limits:

30"W.....70 lbs.	48"W.....110 lbs.
36"W.....85 lbs.	60"W.....138 lbs.
42"W.....100 lbs.	

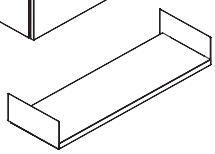


Receding Door Overhead Back

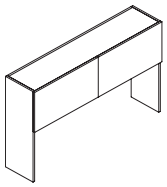
Receding Door Overhead Back (page 122)
- Optional for use with receding door overhead.
- Order width to match overhead cabinet.



Ready to Assemble (RTA) Flipper Door Overhead (page 122)
- Steel cabinet with open back.
- 60"W and 72"W cabinets have 2 doors with independent locks.
- Accommodates recessed task lighting — ordered separately.
- Random keying, for locking specifications see pages 384-386.
- Cabinets are 12"D x 15"H. Interior dimensions 11⅝"D x 12¾"H.

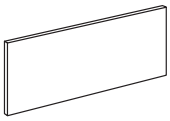


Ready to Assemble (RTA) Shelf (page 122)
- Metal shelf with locking clips.
- Accommodates recessed task lighting — ordered separately.



Stack-On Hutch

Stack-on Hutch (page 123)
- Have flipper doors with square horizontal edges.
- Universal model can be converted to open hutch.
- Doors are standard with a core removable lock (60"W, 66"W and 72"W have two doors and two locks.)
- Attachment tape provided.
- Order hutch to match width of worksurface(s) it covers.
- Hutches have clearance of 19¾" for computers, etc.
- Ship easy to assemble.
- Depth dimensions shown includes thickness of door.
- Universal model inside depth dimension is 12¾"
- Stack-on hutches accommodate recessed task lighting.
- For locking specification see pages 384-386.
- Chicago task light cords cannot be routed through the Hutch end panels, due to the large size of the fused plugs.

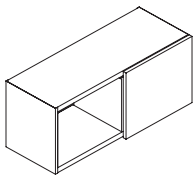


Tackboards for Hutches

Tackboards (page 123)
- Use tackboard to close the back of stack-on or hutch below storage unit.
- Due to width of fabric roll, 72"W tackboards are available in railroad cut only.
- Back of tackboard is painted steel, a finished surface.

Metal Overheads

For specification information see pages 117-120.



Description	Model	P1 Paint List Price	P2 Paint List Price	P3 Paint List Price
15"H x 14¼"D Sliding Single Door Overhead Cabinets				
24"W	**OH1524SD**	$ 926	$ 995	$ 1064
30"W	**OH1530SD**	$ 947	$ 1016	$ 1085

Metallic paints, due to varying reflectance, may appear to have less visual color consistency than other paint finishes, even when L/A/B values are exactly the same. (L/A/B — measurable aspects of color — values are maintained within a specified range, to ensure consistent appearance of paint colors.)

****These colors are intended to be an inspirational option for the trending market. Product application is limited and color availability is approximately two years to coincide with evolving workplace trends.*

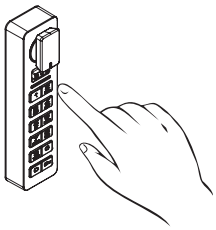
Digital Keypad Lock

Available on Align (Pedestals, Credenzas, Towers) and Radii Products



The digital keypad lock options support applications where workstations or storage banks are shared by multiple users. This is an alternative to a standard key lock. This feature facilitates the use of storage by multiple users through eliminating the need to keep and hand-off physical keys. These locks ship in "shared mode" by default; shared mode indicates that the lock will "forget" the paired 4-digit code, allowing the unit to be used by multiple users.

Digital keypad locks:

- Ship factory installed
- Offered in a polished silver finish
- Digital keypad lock requires input of a user-selected 4-digit code
- Digital keypad powered using 2 premium lithium CR2450 batteries
- Battery life is dependent on the frequency of operation but can last up to 5-7 years
- Digital keypad locks are installed horizontally on Align pedestals, credenzas, and towers

Additional information about setup and common troubleshooting problems can be found here: Digital Lock Overview.

Programming Key

- A Programming Key is a device used to initialize locks out of factory default mode and register Manager Keys to the locks.
- Only one Programming Key should be specified per installation site because multiple Programming Keys are not compatible with each other.
- Once a programming key is used with a unit, it is tied to that lock. Another programming key can not be used.
- Add-on digital lock orders should be programmed with the original programming key.

Manager Key

- A Manager Key is used to bypass a locked unit; this operates as the "master" key and it is recommended that building facilitators have at least one Manager Key.
- Up to 6 Manager Keys may be registered to each lock.
- Manager Keys provide external power to locks in case of battery failure.

Description	Model	List Price
Digital Lock Keys and Accessories		
Programming Key	**YPLDIGPRG**	**$ 314**
Manager Key	**YPLDIGMGR**	**$ 242**

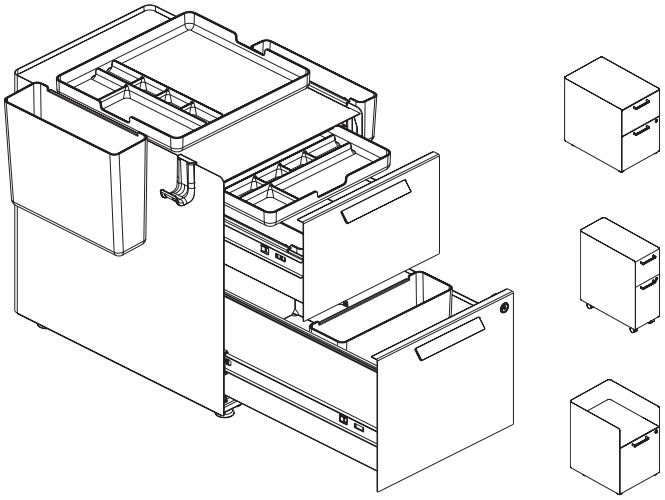
*Digital Lock users must purchase a programming key to operate. Programming keys and manager keys are purchased separately from locks.

Pedestal Functionality with Work Tools

Effective May 13, 2022

Radii is a new generation of metal storage pedestals, undermounts, and Work Tools designed to accommodate more personal items and less paper. In the evolving digital age, the need to store paper files dwindles, people archive fewer documents, while the need to stow personal belongings grows. Conventional storage options that were designed for lateral paper filing don't adequately accommodate items employees stow, such as a backpack, purse, gym shoes, office supplies, or other everyday essentials workers want to keep within reach.

The desire for products to do more with less is quickly becoming a necessity. Radii delivers efficiency that is obvious in a solution that succinctly stows today's objects in a user-customizable way.



Pedestal Functionality Represented by
Freestanding Pedestal 21½"H
15"W x 23"D Box with Tray/File.
Additional Work Tools ordered separately.

Pedestals

- Available with casters or glides
- Casters allow clearance for pedestal to straddle Altitude foot.
- Rear casters swivel, front casters are fixed, casters do not lock.
- Freestanding pedestals are not meant to support worksurfaces.
- Drawer slides are not full extension.
- Counterweight installed when required. No additional counterweight is required.
- Case wrapper creates a utility lip at top of case from which Work Tools can hang.
- 15"W pedestals can fit a Hot File Bin sideways in drawer to serve as a space divider.
- Hot File and Side Saddle can hang on inside file drawer lip.
- Alcove unit has a single drawer with open enclosure at top to stow backpack or other personal items.
- Drawers are labeled as "Box"/"Box +" and "File"/"File +"; see dimension table below.
- Drawers labeled as "+" have a taller drawer front and added space above the drawer body that can either accept the hidden Radii accessory tray or allow for the drawer to stow larger items, such as a backpack.
- All pedestals with a drawer marked "+" ship with one accessory tray, additional trays may be purchased separately (20⅜"H unit does not ship with or accept hidden tray).
- Radii pedestals offered with a digital locking option
- Slim peds (10"W) with digital locking only accept Square Pull.
- Manager and programming key purchased separately, see page 22.

Drawer Type	Exterior Drawer Height	Accepts Tray	Filing	
			15"W Pedestal	10"W Pedestal
Box	6"	No	No	No
Box +	9"	Yes	No	No

Undermounts

- Undermount units can be mounted flush to the left or right edge of the A5 table system when a 30"D worksurface is being used. All other applications require unit to be mounted inset from left or right edge of worksurface dependent on table supports.
- Compatible with all Allsteel benching and desking applications, except where noted.
- Can accommodate 2 Hot File units within interior sitting side-by-side.
- Slim tray fits in the Drawer and Open L units only.
- Ensure weight limit of height adjustable table system is considered before adding undermount storage (see table for unit weight and storage capacity).
- Standard BIFMA loading standards based on open volume of storage area.
- For undermount applications with Altitude tables, see the matrix on page 135.
- Manager and programming key purchased separately, see page 127.
- Radii pedestals offered with a digital locking option.
- Slim peds (10"W) with digital locking only accept Square Pull.

Flush Undermounts

- Unit to be mounted under worksurface using hardware supplied with unit.
- Unit mounts flush to front edge of worksurface.
- Open and hinged door units contain side slot which can be used to hang Work Tools.
- Open and hinged door units do not fit Work Tool Trays.
- Drawer unit ships with hangrail to accommodate side-to-side filing.

Console Undermounts

- Open L unit comes with Work Tool Tray, console soft touch pad, and bottom soft touch liner.
- Hinged Door Console Unit comes with console soft touch pad ONLY.
- Unit available with or without USB. Either version ships with soft touch pad for console and contains a perforation for easy cord routing.
- Slots built into upper portion of case for Work Tools Hook to hang from.
- Unit mounts under worksurface with easy locating interface bracket. Bracket screws to worksurface, unit snaps onto bracket.
- Unit protrudes 6" from front of worksurface.

Work Tools

- Side Saddle and Hot File work on Stride and Terrace Tool Tiles and Tool Rails.
- Bag Hook weight limit 20 lbs.

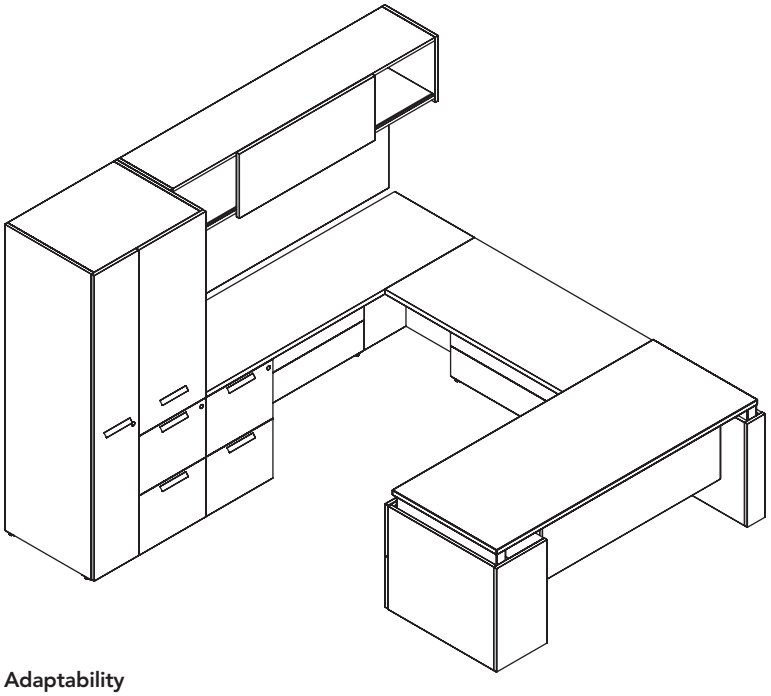
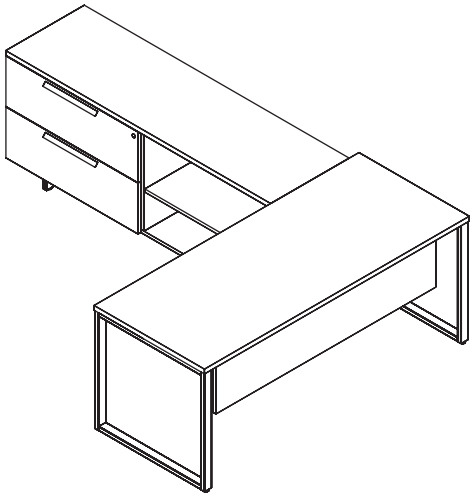
A new way to optimize the private office.

Many executives spend more time outside their offices than in them. When they do touch down for focused work, they want to feel like they've reached home base. An office for the way they work. Confidential files stored securely, coffee mug in its rightful place.

Offices may be getting smaller, but they can't be less functional. Approach provides a portfolio of modular options that inspires you to rethink how the private office can be designed to address today's needs, change over time, and even serve more than one purpose.

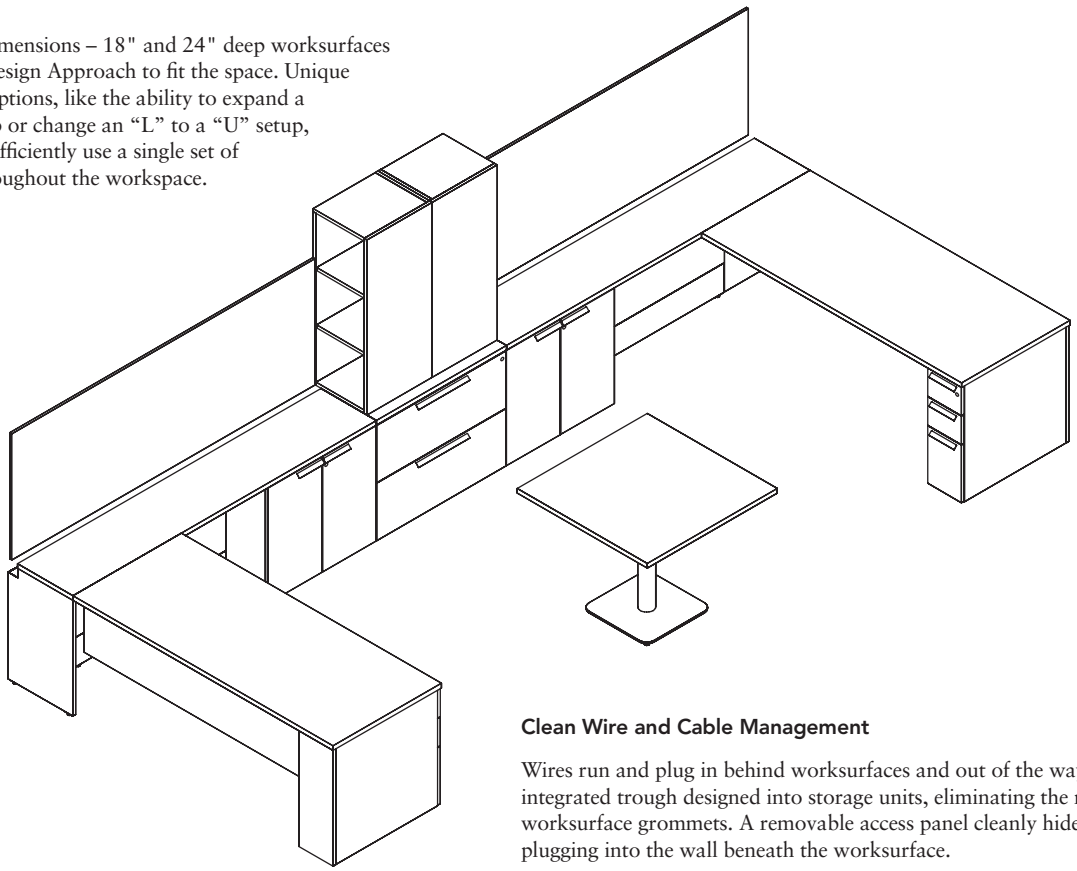
Approach complements Allsteel's open-plan solutions for a cohesive aesthetic throughout the space.





Adaptability

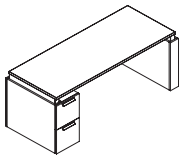
Two planning dimensions – 18" and 24" deep worksurfaces – allow you to design Approach to fit the space. Unique configurability options, like the ability to expand a simple "L" setup or change an "L" to a "U" setup, make it easy to efficiently use a single set of components throughout the workspace.



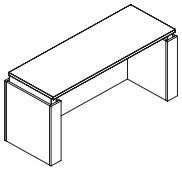
Clean Wire and Cable Management

Wires run and plug in behind worksurfaces and out of the way in an integrated trough designed into storage units, eliminating the need for worksurface grommets. A removable access panel cleanly hides cords plugging into the wall beneath the worksurface.

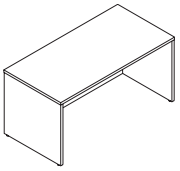
Approach Pre-configured Desks & Tables — height-adjustable 27¾"-47⅜"H, fixed height 29½"H, left and right configurations



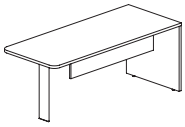
Height-Adjustable w/Storage
72", 66"W x 36", 30"D



Height-Adjustable w/ and w/o Modesty
72"-48"W x 36", 30"D



Shell Desk
60, 66, 72"W x 30"D



Racetrack Top w/Column, End Panel, and Modesty

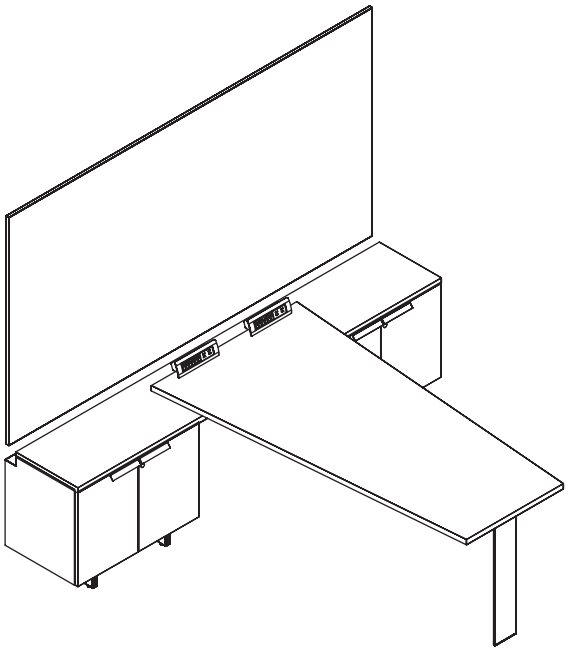
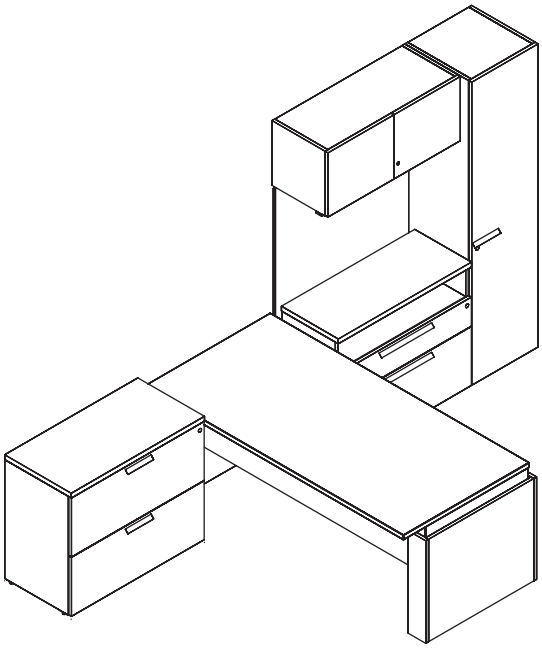
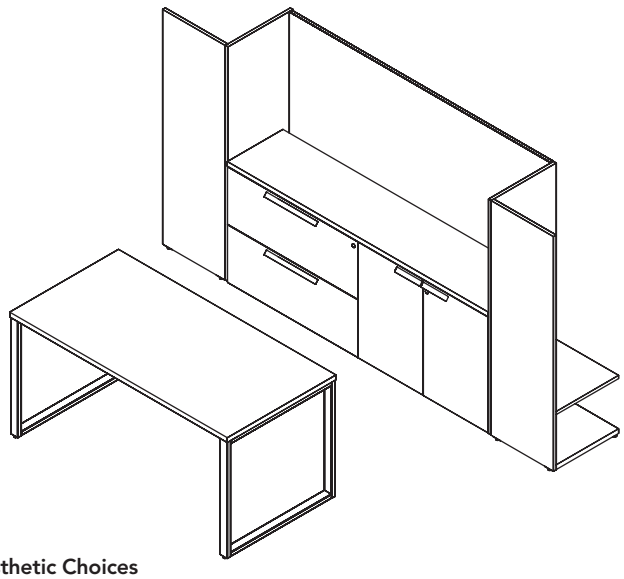
Functional Design

Sit-to-stand worksurfaces enable users to vary their posture throughout the day, while promoting wellness in the workplace. Height-adjustable legs are concealed within a shroud or pedestal storage. Smart storage, like a side-access tower, credenzas in multiple configurations at two heights, stack-ons and wall-mounted overheads with marker board fronts, and a slim pedestal, provide options for any storage need.

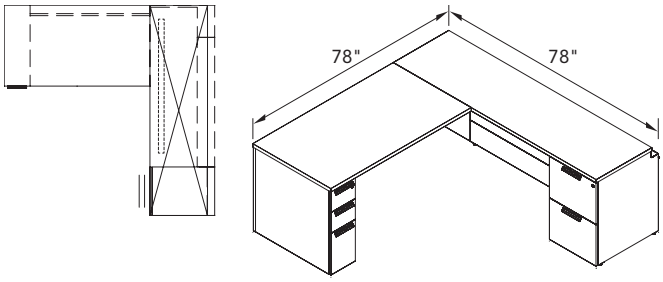






Aesthetic Choices

Approach offers a to-the-floor base or a lighter-scale footed design. Choose from eight solid and woodgrain laminate colors, numerous fabrics for tackboards and pedestal seat cushions, and five storage pull styles. Approach offers a mix of materials to support the design vision.



Traditional L — Desking Runoff & Ped 78" x 78"

Line Item	Product Description	Model Number		List Price

CREDENZAS

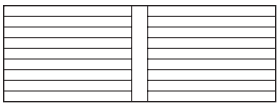
30"W or 60" W (2-30"W columns)

36"W or 72"W (2-36"W columns)

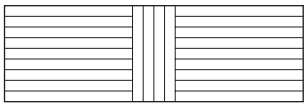
Front-to-Back Filing*

Outside tabs of folders rest on drawer sides.
Inside tabs of folders rest on filing bars included with unit.

Letter Size Hanging File Folders
(8½ x 11" documents)

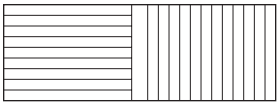


18"D Units – 24" of letter filing.
24"D Units – 30" of letter filing.

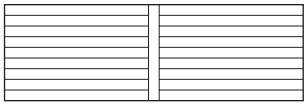


18"D Units – 24" of letter front-to-back filing, plus 8" of letter side-to-side filing.
24"D Units – 30" of letter front-to-back filing, plus 8" of legal side-to-side filing.

Legal Size Hanging File Folders
(8½ x 14" documents)



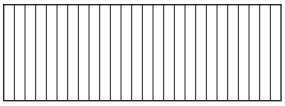
18"D Units – 12" of legal filing, plus 11" of letter side-to-side filing.
24"D Units – 26" of legal filing both front-to-back and side-to-side.



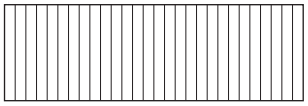
18"D Units – 24" of legal filing.
24"D Units – 30" of legal filing.

Side-to-Side Filing

Front folder tabs rest on drawer front. Back folder tabs rest on back of drawer on 18"D units for letter and 24"D units for legal; letter filing on 24"D, tabs rest on 2-12" filing bars resting on front-to-back bars (all 4 filing bars included with unit).



18"D Units – 26⅜"of letter filing.
24"D Units – 24" of letter or 26⅜" of legal filing.



18"D Units – 32⅜"of letter filing.
24"D Units – 24" of letter or 32⅜" of legal filing.

*Column, End Cap, Foot, and Leg models are only available in these three colors.

*** These colors are intended to be an inspirational option for the trending market. Product application is limited and color availability is approximately two years to coincide with evolving workplace trends.

Metallic paints, due to varying reflectance, may appear to have less visual color consistency than other paint finishes, even when L/A/B values are exactly the same. (L/A/B — measurable aspects of color — values are maintained within a specified range, to ensure consistent appearance of paint colors.)

WORKING WITH LAMINATE BRACKETS		
Product Line	**Brackets Which Work with All Laminate and Wood Storage**	**Model:**
Involve	Panel mounting kit – Compatible with all laminate storage with inset back	K6_ _PBK_
Involve	O-Leg to Panel bracket – Compatible any 28"H O-Legs	KOLGBRK_FT
Terrace 	Flat Bracket 12D, 24D, or 30D – Compatible with all laminate storage	T6_ _FB

Product Line	**Brackets Which Potentially Work with Multiple Lines**	**Model:**
Stride 	"L" Bracket for Worksurface connections – Stride & Further have pilot holes, theoretically could be used with all laminate storage.	Z6LB
Gallery 	Storage to Gallery Panel ganging kit – Involve finished back units have pilot holes, theoretically could be used with all finished back laminate storage.	GSGKL

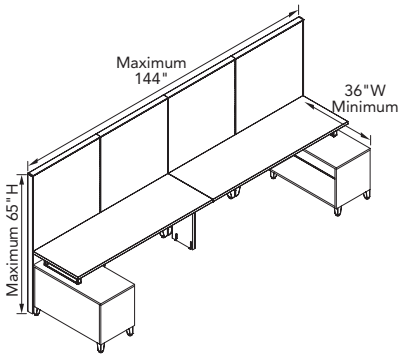
Product Line	**Brackets Which Work with All Laminate and Wood Storage**	**Model:**
Involve	Involve Tower to Overhead kit – Involve and Stride overheads as they have flat base panels, not Approach as it has a recessed bottom for integrated lighting.	K6TBK
Approach 	Approach mini tap bracket – Made for use with Approach Mini Tap – could be used to attach the Mini Tap to other storage products. *Note:* Any other storage units do not have pilot holes.	WKMTMB
	Individual pull packs include 2 or 3 pulls and hardware compatible with Approach, Involve, Further, Align, and Radii.	YPPULL2/3

Leg or plinth base models available. Leg base units are shown below.

Reference Page

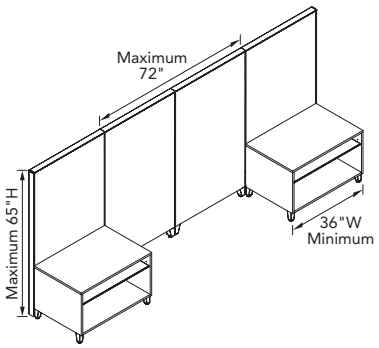
Side-mounted Credenzas

Use 1 storage-to-panel bracket per credenza — 1 LH and 1 RH.
The minimum credenza size is 24"H x 36"W x 18"D.
With a mid-run floor support, the maximum panel run is 144".
Without a mid-run floor support, the maximum panel run is 96".
Overheads and shelves cannot be used with 24"H side mounted credenzas.
Worksurfaces (if specified) must be mounted on the same side of the parent run as the credenzas.
Panel frame maximum height is 65".



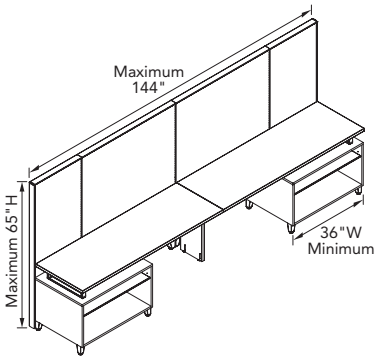
Back-mounted Credenzas — Modular

Use 2 storage-to-panel brackets per credenza — 1 LH and 1 RH.
The minimum credenza size is 24"H x 36"W x 24"D.
The maximum panel run between back-mounted credenzas is 72".
Overheads and shelves cannot be used with 24"H back mounted credenzas.
Worksurfaces (if specified) must be mounted on the same side of the parent run as the credenzas.
Panel frame maximum height is 65".

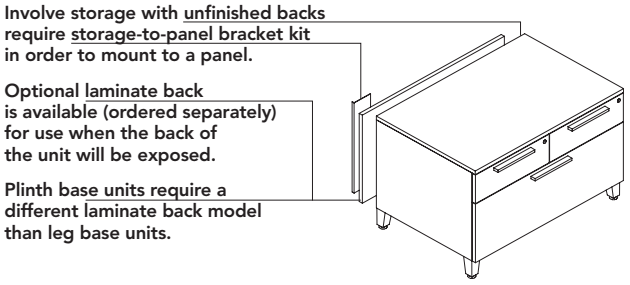


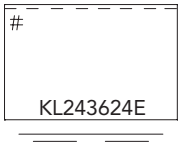
Back-mounted Credenzas — Off-Modular Ends

Use 1 storage-to-panel bracket per credenza — 1 LH and 1 RH.
The minimum credenza size is 24"H x 36"W x 24"D.
With a mid-run floor support, the maximum panel run is 144"
Without a mid-run floor support, the maximum panel run is 96".
Overheads and shelves cannot be used with 24"H back mounted credenzas.
Worksurfaces (if specified) must be mounted on the same side of the parent run as the credenzas.
Panel frame maximum height is 65".



Note: Storage with unfinished metal backs require storage-to-panel bracket kit in order to mount to a panel. Left- or right-handed storage-to-panel bracket is determined by slots on panel — left-handed bracket required when attaching to left panel slots and right-handed bracket required when attaching to right panel slots.





An example of a 2D CAD symbol for Involve is shown at left. Note the dashed line that represents the unfinished metal back. The pound sign indicates that counterweight kits may need to be added depending on the application. *See page 260 for counterweight specification rules.*

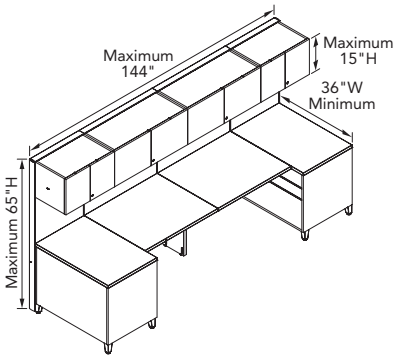
Approach and Involve Laminate Wood Storage Storage with Panel Frames

Reference Page

Leg or Plinth Base models available. Leg base units are shown below.

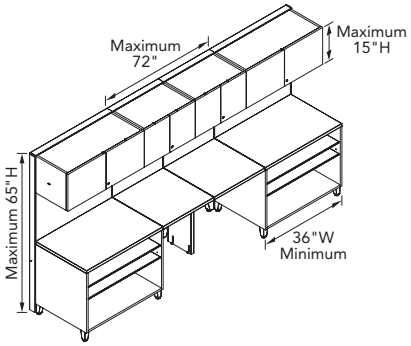
Side-mounted Credenzas — Modular for Overheads and Worksurfaces

Use 2 storage-to-panel brackets per credenza — 1 LH and 1 RH.
The minimum credenza size is 28"H x 36"W x 24"D.
28"H side mounted credenzas must be mounted modular when using overheads and worksurfaces on panels.
With a mid-run floor support, the maximum panel run is 144".
Without a mid-run floor support, the maximum panel run is 96".
Overheads, shelves, and worksurfaces must be mounted on the same side of the parent run as the credenzas.
Maximum overhead height is 15".
Panel frame maximum height is 65".



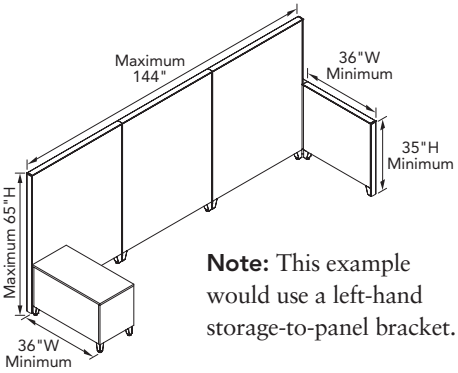
Back-mounted Credenzas — Modular for Overheads and Worksurfaces

Use 2 storage-to-panel brackets per credenza — 1 LH and 1 RH.
The minimum credenza size is 28"H x 36"W x 24"D.
Full back units without trough due to stability, only troughless Approach or Involve allowed.
With a mid-run floor support, the maximum panel run is 144".
Without a mid-run floor support, the maximum panel run is 96".
The maximum panel run between back-mounted credenzas is 72".
Overheads, shelves, and worksurfaces must be mounted on the same side of the parent run as the credenzas.
Maximum overhead height is 15".
Panel frame maximum height is 65".



Side-mounted Credenzas — with Return Panel

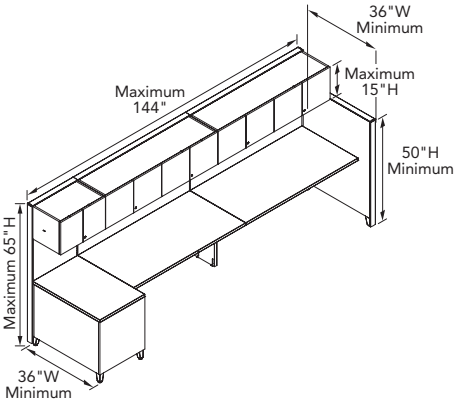
Use 1 storage-to-panel bracket on credenza.
The minimum credenza size is 24"H x 36"W x 18"D.
The minimum size for panel return is 35"H x 36"W.
With a mid-run floor support, the maximum panel run is 144"
Without a mid-run floor support, the maximum panel run is 96".
Overheads and shelves cannot be used with 24"H side mounted credenzas.
Worksurfaces (if specified) must be mounted on the same side of the parent run as the credenzas.
Panel frame maximum height is 65".

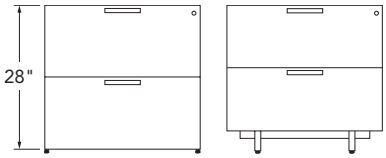


Note: This example would use a left-hand storage-to-panel bracket.

Side-mounted Credenzas — Modular for Overheads and Worksurfaces

Use 2 storage-to-panel brackets per credenza — 1 LH and 1 RH.
The minimum credenza size is 28"H x 36"W x 24"D.
The minimum size for panel return is 50"H x 36"W.
28"H side mounted credenzas must be mounted modular when using overheads and worksurfaces on panels.
With a mid-run floor support, the maximum panel run is 144"
Without a mid-run floor support, the maximum panel run is 72".
Overheads, shelves, and worksurfaces must be mounted on the same side of the parent run as the credenzas.
Maximum overhead height is 15".
Panel frame maximum height is 65".





Approach components utilize Involve storage to panel brackets to tie storage into panel slotted standards. (Will not attach to Concensys panel system.)

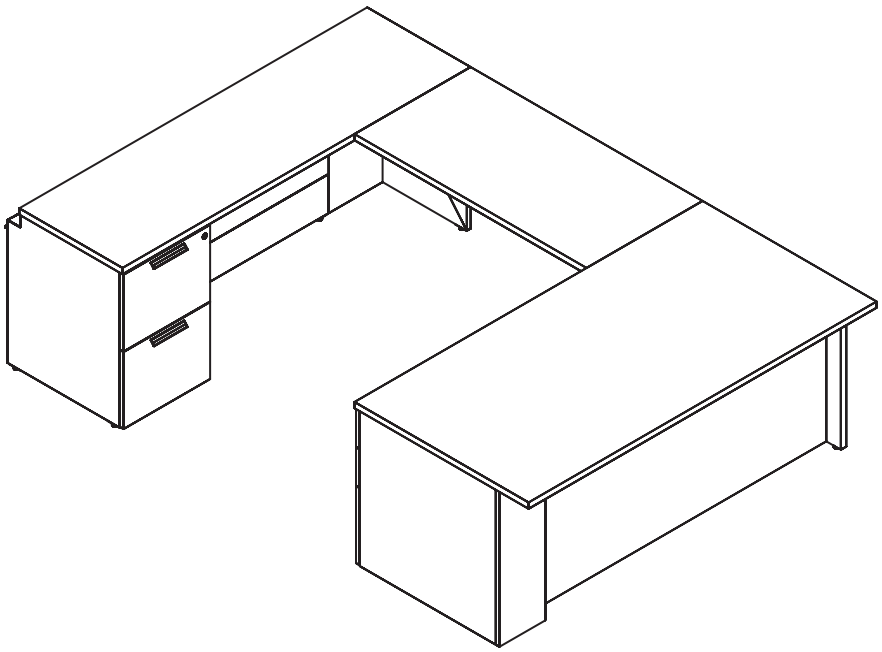
Approach General Construction

- Cases are made of ¾" particle board with 0.5mm edgeband. Worksurfaces and end supports are made of 1¼" particle board with 2mm edgeband and laminate on both sides of all surfaces.
- Matching laminate fronts — all vertically stacked sets have grain matched parts. Horizontally adjacent units do not match.
- Box and file drawers are miter fold, ½" thick particle board.
- All Drawers lock
  - Lock is located in the top right corner of upper drawer on credenzas, desks, and skinny peds. Drawer locks all drawers in the vertical stack.
  - Mobile ped lock is in upper right corner of bottom drawer.
  - Omit core and keyed alike options. Omit core option ships with standard lock cores installed, customer is credited to order keyed alike cores to be replaced at installation.
  - Lock core color is Matte Silver.
- For door-locking, see product categories for details.
- All drawer units have holes drilled for pulls
  - User selects pull choice of beam, halo, square, arch, or bar. Beam and Halo available in Designer White, Silver, Pyrite, and Solar Black. Square pull available in Designer White, Flint, Loft, Matte Silver, Pyrite, and Solar Black. Bar pull available in Designer White, Silver, or Black.
  - Pulls are 1" to hole center from top of drawer.
  - Drawer bodies are light woodgrain finish with Black hangrails.
- Adjustable shelves are ¾" laminate and have 3 hole adjustable positions with 1¼" (32mm) hole spacing. One above and one below location specified in internal dimensioning table.
- Left-hand (LH) hinged units have hinges located on the left of the unit, right-hand (RH) hinged units have hinges on the right.
- Case end panels are the same depth regardless if fronts are assembled.
- Some models require counterweight — see specification table on pages 172-173.



Reference Page

Counterweights

Counterweight(s) may need to be added to Approach credenzas and storage depending on configuration and usage. Models that may require counterweights are flagged with a number sign # following the model number in the pricing section. Reference model and intended usage column in chart below. Some models require two counterweights. Open shelf and hinged door models do not require counterweights and are not listed.

Approach Counterweight Kits — See page 237

Model	Description	List Price
WKCACW25	25 lb. Counterweight Kit	$ 278

* Freestanding unit is considered a unit only in contact with the floor via the glides/feet

** Freestanding with worksurface is considered a freestanding unit with a worksurface the same width and depth as the unit itself. (i.e., 30W x 24D unit with a 30W x 24D credenza worksurface applied to the top.

*** Connected by worksurface refers to a 30/36W credenza unit, connected to another credenza unit that is non-drawered via properly installed worksurface.

 # For No-Trough Units (WKCSTXXXXXXX-XXXX and WKCUTXXXXXXX-XXXX), reduce counterweights by 25 lbs. Round up to closest counterweight set if needed, unless zero. Troughless 42" - 48" wide credenzas do not require counterweight.

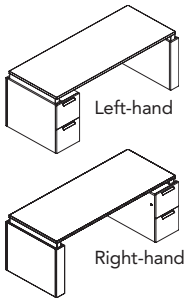
* Freestanding unit is considered a unit only in contact with the floor via the glides/feet

** Freestanding with worksurface is considered a freestanding unit with a worksurface the same width and depth as the unit itself. (i.e., 30W x 24D unit with a 30W x 24D credenza worksurface applied to the top.

*** Connected by worksurface refers to a 30/36W credenza unit, connected to another credenza unit that is non-drawered via properly installed worksurface.

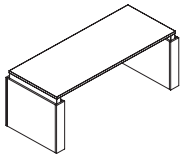
 # For No-Trough Units (WKCSTXXXXXXX-XXXX and WKCUTXXXXXXX-XXXX), reduce counterweights by 25 lbs. Round up to closest counterweight set if needed, unless zero. Troughless 42" - 48" wide credenzas do not require counterweight.

Reference Page



Pedestal/Shroud Height-Adjustable Desk (page 195)

- New models available April 2021 for A6 2 stage compatibility, see specification page for model transition.
- Available in RH and LH orientations, hand is determined by location of ped, RH Ped = RH Desk.
- 72"W x 36"D, 72"W x 30"D, and 66"W x 30"D desks available.
- Both depths include same 30"D support shroud and RH or LH pedestal shroud.
- Desk footprint dimensions are nominal. Example: 72"W x 30"D required for space planning. Worksurfaces are undersized by 1" on all sides to prevent pinch points when raising and lowering worksurface.
- Load capacity is 300 pounds, including the worksurface and metal shrouds.
- Laminate finish options include top, chassis, and front.
- User can specify grommet locations (L Left, R Right, B Both, C Centered, X None). See page 178.
- No slide glide option due to application.
- Single order desk models include HAT bases which are PR6 silver.
- Laminate shroud remains on the ground with 2" of leveling.
- Metal shroud, available in standard paint colors, attaches to and rises with worksurface.
- Laminate File/File ped is fixed with ¾" of leveling.
- Both drawers lock via side lock.
- Height-adjustable mechanism provides 27¾"-47⅜" min/max adjustability.
- Height-adjustable mechanism is same as used on A6 Altitude® tables. Reference the Altitude series in Desking and Tables price list for additional specification information.
- Standard up/down control shipped with unit.
- Memory Controls are now a .option.
- Up/Down: Basic Up/Down control.
- Memory Control: 4 memory pre-set options allow the user to adjust their height to their preferred heights.
- Paddle: Simple, aesthetic control with 1 memory pre-set option and reminder mode.
- Rotating: 3 memory pre-set options and a rotating, dial-like control.
- Foot Control: Basic up/down wireless, hands free control. Can be paired with hand controls for multi-control option.
- Ships flat in multiple cartons for field assembly.
- Specify optional floating worksurface modesty panel 24" shorter than worksurface width.
- Modesties are non-handed and mount to the external stiffener included with the unit.
- Anti collision available on desking models April 2021.

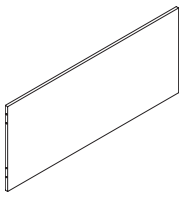


Double Shroud Height-Adjustable Desk (page 195)

- New models available April 2021 for A6 2 stage compatibility, see specification page for model transition.
- 72"W x 36"D, 72"W x 30"D, and 66"W x 30"D desks available.
- Both depths use same 30"D support shroud.
- Desk footprint dimensions are nominal. Example: 72"W x 30"D required for space planning. Worksurfaces are undersized by 1" on all sides to prevent pinch points when raising and lowering worksurface.
- Laminate finish options include top, chassis, and front.
- User can specify grommet locations (L Left, R Right, B Both, C Centered, X None). See page 178.
- Laminate shroud is fixed with 2" of leveling.
- Metal shrouds available in standard paint colors, attach to and rise with worksurface.
- Height-adjustable mechanism provides 27¾"-47⅜" min/max adjustability.
- Height-adjustable mechanism is same as used on A6 Altitude® tables. Reference the Altitude series in Tables and Desking price list for additional specification information.
- Standard up/down control shipped with unit.
- Memory Controls are now a .option.
- Up/Down: Basic Up/Down control.

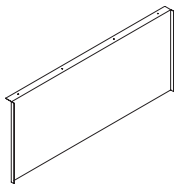
Reference Page

- Memory Control: 4 memory pre-set options allow the user to adjust their height to their preferred heights.
- Paddle: Simple, aesthetic control with 1 memory pre-set option and reminder mode.
- Rotating: 3 memory pre-set options and a rotating, dial-like control.
- Foot Control: Basic up/down wireless, hands free control. Can be paired with hand controls for multi-control option.
- Ships flat in multiple cartons for field assembly.
- Specify optional floating worksurface modesty panel 12" shorter than worksurface width.
- Modesties are non-handed and mount to the external stiffener included with the unit.
- Anti collision available on desking models April 2021.



Fixed Layered Height Modesty For Height Adjustable Desks:

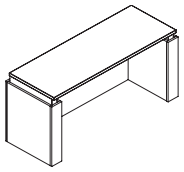
- Fixed laminate modesty for height adjustable table (24"H AFF) and metal hanging backdrop modesty compatible with double shroud height adjustable desks.
- Fixed laminate modesty for height adjustable tables is inset 3" between standard shrouds with a bracket visible under the work surface on the user side.
- Connection bracket is available in Allsteel standard paints.



Metal Hanging Modesty for Height Adjustable Desks:

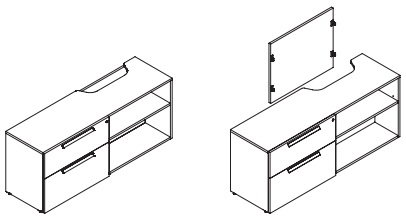
- Metal hanging modesty (offered in Flint) mounts to the worksurface nested to the stiffener and has 1" distance from fixed laminate modesty.
- Metal hanging modesty is 8¼" less in width than the worksurface to avoid interference has reveal on each side between shroud metal and metal modesty.
- Metal modesty has bent side folds for a clean curved aesthetic from the guest side.

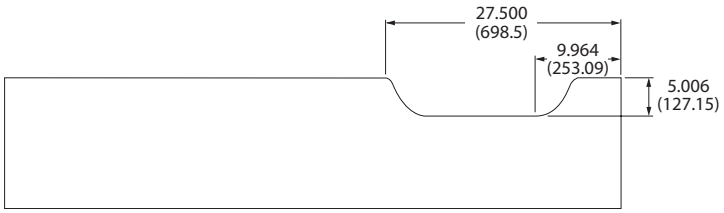
Reference Page



24"D Height-Adjustable Work Wall Desk with Full-Height Modesty Panel (page 195)

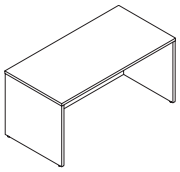
- New models available April 2021 for A6 2 stage compatibility, see specification page for model transition.
- Specifically designed for wall facing application to keep cords hidden from sight.
- True shroud depth of 22" and worksurface depth of 21".
- 48", 54", 60", 66", and 72"W desks available.
- Desk footprint dimensions are nominal. Example: 72"W x 24"D required for space planning. Worksurfaces are undersized by 1" on all sides to prevent pinch points when raising and lowering worksurface.
- Laminate finish options include top, chassis, and front.
- User can specify grommet locations (L Left, R Right, B Both, C Centered, X None). See page 178.
- Includes laminate shrouds fixed with 2" of leveling.
- Metal shrouds available in all standard Allsteel paint colors attach to and rise with worksurface.
- Laminate modesty ties into the laminate shrouds and remains on the ground. Modesty has unfinished back and is intended to be used against a wall.
- Metal modesty (Flint only) attaches and rises with the worksurface.
- Height-adjustable mechanism provides 27¾"-47⅜" min/max adjustability.
- Height-adjustable mechanism is same as used on A6 Altitude® tables. Reference the Altitude series in Desking and Benching price list for additional specification information.
- Standard up/down control shipped with unit.
- Memory Controls are now a .option.
- Up/Down: Basic Up/Down control.
- Memory Control: 4 memory pre-set options allow the user to adjust their height to their preferred heights.
- Paddle: Simple, aesthetic control with 1 memory pre-set option and reminder mode.
- Rotating: 3 memory pre-set options and a rotating, dial-like control.
- Foot Control: Basic up/down wireless, hands free control. Can be paired with hand controls for multi-control option.
- Ships flat in multiple cartons for field assembly.
- Anti collision available on desking models April 2021.



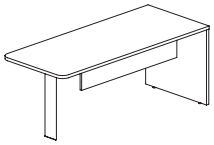


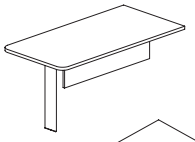
Credenza for Integrated Height Adjustable Table (page 200)

- 60"W and 72"W x 18"D and 24"D sizes available.
- Laminate finish options include top, chassis, and front.
- Credenzas for HAT are non-handed and configurable at installation. The three units included in these Credenzas are shipped separately (open credenza, box/file credenza, and top).
- User can adjust credenza orientation by reversing top and credenzas of base model at install. Example: Top scallop and open file on right side or top scallop and open file on left side.
- Credenzas for HAT compatible with 2-stage C and T base HAT tables to be ordered separately.
- Height-adjustable mechanism chosen should provide 27¾" as it's minimum.
- Altitude tables height-adjustable mechanism is compatible. Reference the Altitude series in Tables price list for additional specification information.
- Credenzas for HAT are non-footed with finished backs and no trough.
- Drawer stacked units have mechanical interlock, allowing only one drawer to open at a time.
- Shortest distance from edge of scallop is consistent across all tops. Scallop dimensions the same across all HAT tops. Depth of Scallop is 5".
- Compatible with A6, but if shroud is needed use A5 base
- Not compatible with A8 tables

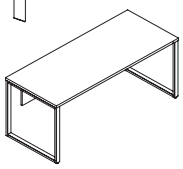


Shell Desks (page 196)
- Units ship knocked down for field assembly.
- Units are 29"H x 30"D, available in 60", 66" and 72"W.
- Laminate finish is the same for top, end panels and modesty.
- Only full-height modesty options available.
- Standard worksurface grommet options and placement.
- Full height laminate modesty is inset 3½" on guest side.

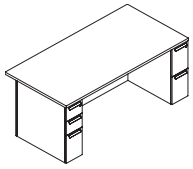




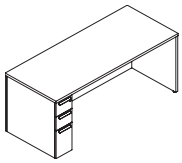
Racetrack Top Desks with End Panel, Half-Height Modesty, and Column Base (page 196)
- 30"D, non-handed.
- 72" and 66"W models have end panel support, 29½"H support column, and bracket to attach to a worksurface or desk.
- 48", 54", and 60"W models have 29½"H support column.
- Column support end has 3" round corners.
- Racetrack modesty is 18" shorter than worksurface length.
- Ships flat in multiple cartons for field assembly.



O-leg Table Desks (page 196)
- 30"D x 66" or 72"W.
- A variety of standard Allsteel paint colors.
- User can specify grommet locations (L Left, R Right, B Both, C Centered, X None). See page 178.
- O-legs installed on both ends of worksurface are inset ¼" from end of worksurface.
- See notes on O-leg for leveling and dimensions.
- 14"H half-height modesty is 12" shorter than worksurface width. Attaches to external stiffener on worksurface.
- Ships flat in multiple cartons for field assembly.

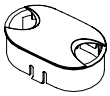


Double Ped Desk (page 197)
- 36"D x 72"W, ped base is 29¾"D.
- Laminate finish options include top, chassis, and front.
- User can specify grommet locations (L Left, R Right, B Both, C Centered, X None). See page 178.
- Box/Box/File on left and File/File on right from main user view.
- Full height modesty, ties into both ped end panels 9" from back of worksurface. Modesties go to the floor and match end panel height.



Single Ped Desks (page 197)
- Right- and left-hand versions
- RH = ped on right side from main user view
- LH = ped on left side from main user view
- Laminate finish options include top, chassis, and front.
- User can specify grommet locations (L Left, R Right, B Both, C Centered, X None). See page 178.
- Ped Desks available with 9"W and 15"W Ped Options.
- Box/Box/File only — slim peds (9½" width), see notes on slim peds for dimensions and leveling.
- Box/Box/File and File/File configurations available for the 15"W Pedestal.
- Panel base (1⅛" thick) is opposite the storage.
- 14"H half- or full-height modesty panel options, designated by dot option. Modesty panel ties into both end panel and pedestal.
- 30"D x 60", 66", or 72"W
  - Ped and panel base are both 29¾" in depth.
  - Modesty panel is 3" from back of worksurface.
- 36"D x 72"W
  - 36"D X 72"W available with 9"W Ped ONLY.
  - Ped base is 29¾" deep. Panel base is 35¾" deep.
  - Modesty panel is 9" from back of worksurface.

GROMMET SPECIFICATIONS



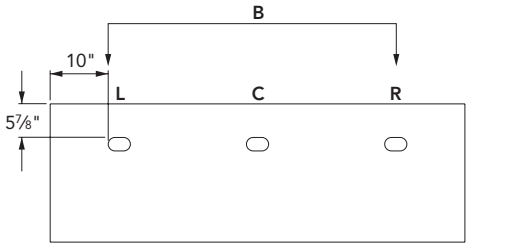
Grommets

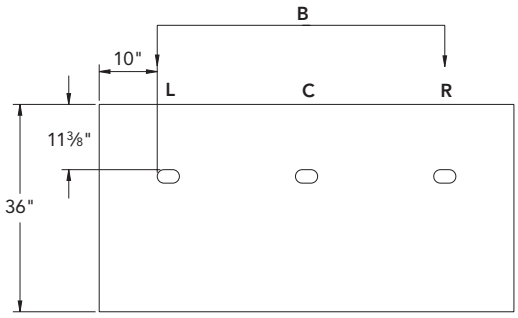
Plastic grommets are made of durable ABS plastic and match edge color of laminate worksurfaces. Metal grommets are available in oval or square in Matte Silver.

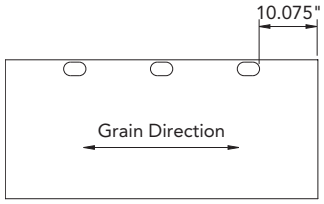
Grommet Position Option Codes

B Both Left and Right — Pair of grommets each 10" from side edge – 5⅞" from approach side to grommet edge; 7¼" from rear to grommet center.
C Centered Side-to-Side — One grommet 5⅞" from approach side to grommet edge; 7¼" from approach side to grommet center.
L 10" from Left Side — 5⅞" from approach side to grommet edge; 7¼" from approach side to grommet center.
R 10" from Right Side — 5⅞" from approach side to grommet edge; 7¼" from approach side to grommet center.
X No grommet.

Note: On 36"D tops, approach side to grommets is 11⅜". See 36"D illustration below.



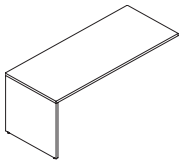




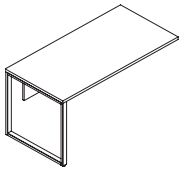
Credenza Top

Grommet positions other than those shown above are considered non-standard. Location allows ease of install for offered support, i.e. O-Leg, Column, and Panel.

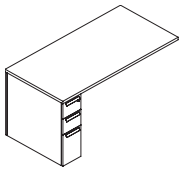
Reference Page



Support Panel Run-off Desks (page 196)
- 30"D x 48", 54", 60", 66", and 72"W
- Right- and left-hand models.
- Laminate finish options include top and chassis.
- User can specify grommet locations (L Left, R Right, B Both, C Centered, X None). See page 178.
- Support Panel is 1⅛" thick.
- 14"H half-height modesty attaches to end panel, 3" from back of worksurface. Modesty is ¼" short on opposite end of support.
- Run-off desks are able to attach to existing single ped desk or racetrack top desk with end panel.
- Ships flat in multiple cartons for field assembly.

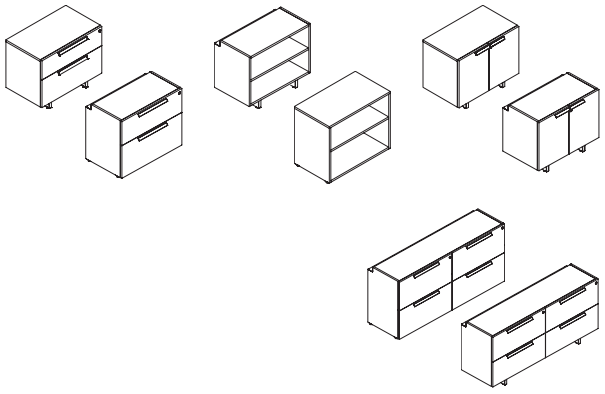


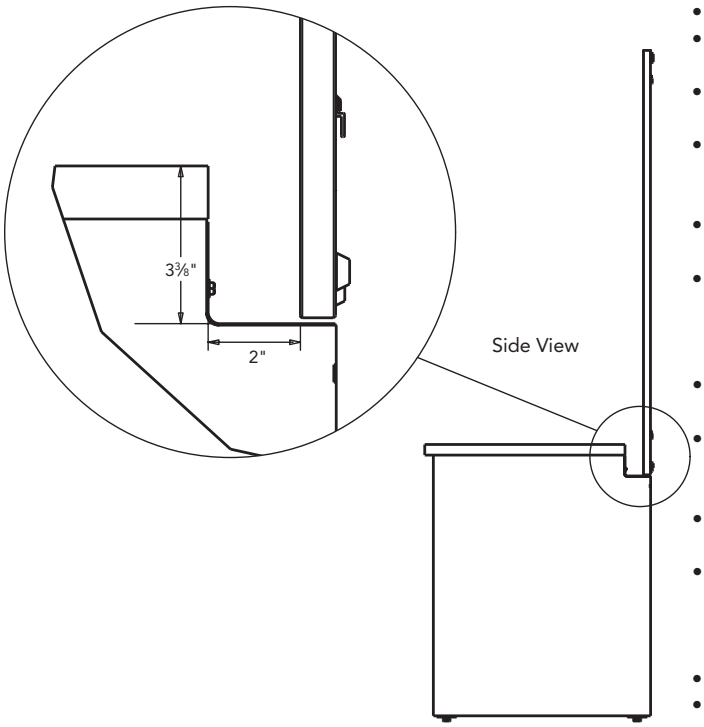
O-leg Run-off Desks (page 196)
- 30"D x 48", 54", 60", 66", 72", 78", and 84"W
- Non-handed, O-leg can be installed on either side of worksurface.
- Laminate finish options include top and chassis.
- User can specify grommet locations (L Left, R Right, B Both, C Centered, X None). See page 178.
- See notes on O-leg for leveling and dimensions.
- 14"H half-height modesty is 12" shorter than worksurface width. Attaches to external stiffener included with worksurface.
- Ships flat in multiple cartons for field assembly.



Pedestal Run-off Desks (page 197)
- 30"D x 48", 54", 60", 66", or 72"W
- Right- and left-hand models.
- Laminate finish options include top, chassis, and front.
- User can specify grommet locations (L Left, R Right, B Both, C Centered, X None). See page 178.
- Box/Box/File only — slim peds (9½" width), see notes on slim peds for dimensions and leveling.
- 14"H half-height modesty panel attaches to ped end of panel 3" in from back of worksurface. Modesty is ¼" short on opposite end of support.
- Run-off desk can attach to existing single ped desk or racetrack top desk with end panel.

Reference Page





Credenzas (pages 200-208)

- 30"W and 36"W units contain single column of drawers, open cavity or hinged doors. 42", 48", 60", and 72"W units contain two columns of drawers, open cavities, hinged doors, or a combination of both.
- Full height 28⅜"H, footed and non-footed, 18"D and 24"D. 29½"H with added credenza worksurface.
- Layered height 24¾"H, footed and non-footed, 18"D. 25⅞"H with added credenza worksurface.
- Trough credenzas have inset top construction where no-trough credenzas have top over construction.
- Laminate finish options include chassis and front.
- Multi File units feature a cubby at the top left of the top project drawer with lateral drawer front. This allows for many applications and concealed storage.
- All credenza units contain 1½" adjustable glides
- All units can be standalone with or without credenza top.
- Full extension file drawers extend 13¼" on 18"D models, and 17¼" on 24"D models.
- Some models require counterweight – see specification table on pages 172-173.
- Vertically stacked units have mechanical interlock, allowing only one drawer to open at a time. Exception is Box/Box/File which allows bottom file drawer and top box drawers to open at the same time.
- Trough available for power application and no-trough available for open plan applications.
- Wire management trough
  - Trough is 2"D x 3⅜"H with tackboard, see illustration at left.
  - Accessories available (ordered separately): Byrne mini tap, monitor arm, clamp style, light.
- No-trough credenzas have top over construction and have finished backs.
- Finish height is consistent across both trough and no-trough units, example both troughed and no-trough 28"H units are the same height.
- All other credenza models have a finished back option available for order. See page 211.
- Two styles of feet are available, post and blade feet.
  - Blade Feet are receded 6" in from each side on 30" and 36" units, and 8½"-9½" in from each side on 42"-72" units.
  - Post feet are inset 1⅛" from each side of unit across all units.
- Center stability foot is included on units 60"W and larger.
- No ganging option available.
- Unit's ship assembled except for feet and pulls.

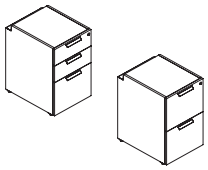
Mobile Pedestal (page 198)

- 21½"H x 15¾"W x 20"D.
- Laminate finish options include chassis and front.
- Box/File drawer configuration.
- Front-to-back filing capable without use of rails.
- Side-to-side filing available with use of file hangrails (included).
- Casters are recessed to provide clean aesthetic.
- Units ship assembled except casters and pulls.

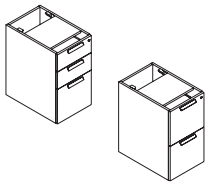
24"H Pedestal (page 198)

- 24¾"H x 18"W x 18"D.
- 25⅞"H with added laminate worksurface.
- Laminate finish options include chassis and front.
- Box/File drawer configuration.
- Front-to-back letter filing capable with use of file hangrail (included).
- Side-to-side letter filing available without use of rails.
- No interlock between drawers.
- Counterweight may be needed. See pages 172-173.
- Finished backs available, see page 211.
- Units ship assembled except pulls.

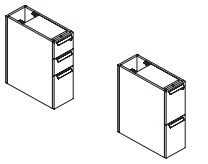
Reference Page



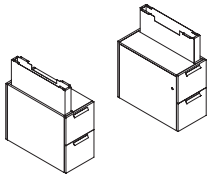
Support Pedestals (page 198)
- 28⅜"H x 18"W x 18" or 24"D.
- Box/Box/File and File/File drawer configurations.
- Laminate finish options include chassis and front.
- Same construction as credenza units.
- Support Pedestals with wire management trough do not have back panels.
- No interlock between drawers.
- Counterweight may be needed. See pages 172-173.
- Finished backs available, see page 211.
- Units ship assembled except pulls.



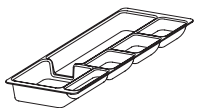
15"W Support Pedestal (page 199)
- 28⅜"H x 15"W x 24" or 30"D.
- Box/Box/File or File/File configurations available.
- Laminate finish options include chassis & front.
- Units must be mounted under worksurface, hardware included.
- Units have finished backs.
- Footed & Non-Footed configurations available. Overall Heights remain the same.
- No interlock between drawers.
- Glides provide 1½" adjustment.
- Units Ship assembled except pulls.



Slim Pedestals for Freestanding Desks (page 198)
- 28⅜"H x 9½"W x 24" or 30"D.
- Box/Box/File and File/File drawer configurations.
- Laminate finish options include chassis and front.
- Units must be mounted under worksurface, hardware included.
- Support Pedestals without wire management trough have back panels.
- Side-to-side filing available with hangrail (included). Narrow width does not permit front-to-back filing.
- Glides provide ¾" of adjustment
- Units ship assembled except pulls.



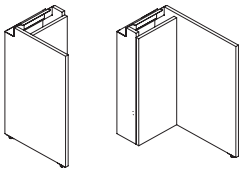
Slim Pedestal Shroud Kits (page 198)
- New models available April 2021 for A6 2 stage compatibility, see specification page for model transition.
- File/File only drawer configuration, available in left- and right-hand options determined from the primary user perspective.
- Both drawers lock via side lock.
- Includes laminate pedestal that remains on the ground and metal shroud, available in all standard Allsteel paint colors, that rises with the worksurface. Requires Altitude® 2-stage, A5 C-leg, A6 C-leg or A6 T-leg electric powered base purchased separately, see page 239.
- Pedestal is 14¼"W x 30"D x 24"H with ¾" of leveling.
- Metal shroud elevates with worksurface 27¾"–47⅜"H.
- Can be used in any combination of supports: Open T-Leg, C-Leg, Laminate Shroud, Slim Pedestal Shroud.
- The shroud fits over the height-adjustable leg of a 2" x 3" column.



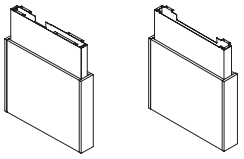
15W Box Drawer Pedestals and Accessory (page 199)
- Box drawers do not include pencil tray.
- Order pencil tray separately - A2280-000

APPROACH

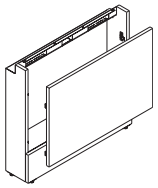
Reference Page



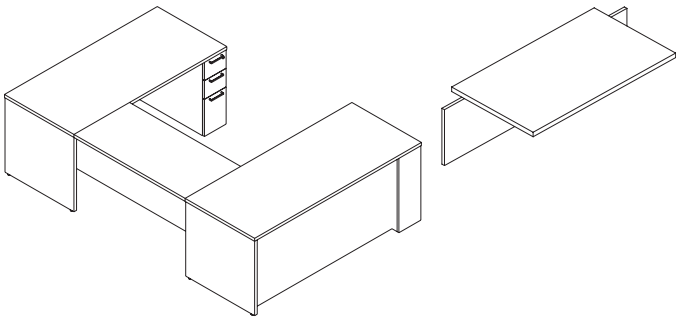
False Ped (page 214)
- 12"W x 28⅜"H
- End panel depth is 14", 18", or 24"D.
- LH and RH options.
- Designed to be used adjacent to wall access panel.
- Aligns with wall access panel.
- Used to continue wire trough and to support the end of credenza top.
- 14"D false ped worksurface must be supported on opposite end by a full-depth support.
- Maximum unsupported worksurface span is 48" with 14"D models, and 72" with 18"D and 24"D models.
- Metal wire trough ships separately and attaches directly to worksurface.



Height-Adjustable Shroud Kits (page 239)
- New models available April 2021 for A6 2 stage compatibility, see specification page for model transition.
- Available in non-handed for simple specification and optimal reconfigurability.
- Includes laminate shroud that remains on the ground and metal shroud, available in standard Allsteel paints, that rises with the worksurface. Requires Altitude® 2-stage, A5 C-leg, A6 C-leg or A6 T-leg electric powered base purchased separately, see page 239.
- Laminate shroud is 5⅜" x 30"D x 24"H with 2" of leveling.
- Metal shroud elevates with worksurface 27¾"–47⅜"H.
- Can be used in any combination of supports: Open T-Leg, C-Leg, Laminate Shroud, Slim Pedestal Shroud.
- The shroud fits over the height-adjustable leg of a 2" x 3" column purchased separately.
- Models available April 2021 for A6 height adjustable 2-stage bases.

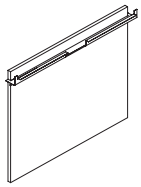


Wall Access Panel (page 214)
- Designed to be used adjacent to false ped or supported by another unit such as tower or credenza and is non-handed.
- 18-48"W x 6½"D x 28⅜"H.
- ¾" removable front.
- Metal wire trough ships separately and attaches directly to worksurface.



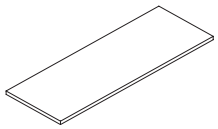
Bridge (page 214)
- 24"D x 42"W or 48"W.
- 48"W bridge ships with external support stiffener.
- Comes with 14"H half-height modesty panel, which is 12" wider than the worksurface.
- Flat brackets onto both sides of fixed height adjacent units.
- To mount, use a flat bracket on both sides fixed to an adjacent unit. Flat brackets are included for ease of installation.

Reference Page



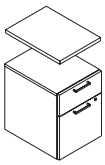
Back Panels (page 211)

- All credenzas have a finished back option available for order, see page 211.
  - All back panels are inset of credenza end panels.
  - Back panels include a filler piece for a clean back. Specify color options at time of order entry (colors are Black, Designer White and Silver to match pull or feet colors).
- 3 Heights available.
  - 20" is used on 24"H footed models, ex: **WKCSFY243018-BF**
  - 24" is used on 24"H non-footed models, ex: **WKCSFN243018-BF**
  - 24" is used on 28"H footed models, ex: **WKCSFY283624-LF**
  - 28" is used on 28"H non-footed models, ex: **WKCSFN283624-LF**



Credenza and Pedestal Tops (page 209)

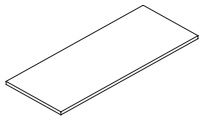
- Tops are 1¼" thick with 2mm Edgeband.
- Tops ship with double sided tape supplied in hardware packs.
- Double sided tape attach tops to top of credenza and pedestal units.
- Tops must cover at least one storage unit and may span multiple.
- External stiffeners need to be added to credenza tops if they are spanning a distance greater than 60".
- Shortened Tops for Trough Units
  - Depth is shortened by 2½" less than listed to accommodate wire management trough.
  - 18"D models are 15½"D (2½" less than actual).
  - 24"D models are 21½"D (2½" less than actual).
- Full Depth Tops
  - Width & Depth is nominal to size, (example 24"–24.0").
  - Optional Grommet locations allow user access to the trough.
  - 18"–36"W tops have center grommet option only.
  - 42"–96"W tops can specify grommet locations (L Left, R Right, B Both, C Center, X None).
  - Grommets available in Oval plastic, Square Metal, or Oval Metal.
  - Use for covering trough or top for troughless units.



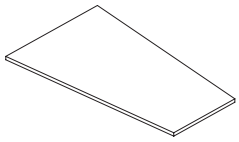
Credenza and Pedestal Cushions (page 209)

- A seat cushion can be placed on top of credenzas or 20"D mobile pedestals.
- Designed to fit flush with front of drawer fronts.
- Credenza cushions are undersized by 3" in depth to accommodate wire management trough, 18"D are actually 15"D.
- Seat cushion adds approximately 2"H to credenza or pedestal.

Reference Page



Primary Worksurfaces (page 217)
- All Worksurfaces are 1¼" thick with 2MM edgeband.
- Width and depth are nominal to size, (example 24"W or 24"D = 24.000").
- Units 48"W or greater ship with external support stiffener.
- User can specify grommet locations (L Left, R Right, B Both, C Centered, X None). See page 178.
- User can specify grommet material (Plastic Oval, Metal Oval, Metal Rectangular).
- Plastic oval grommets automatically match worksurface edgeband selection.
- Includes pilot holes for standard supports and modesty panel locations.



Double Sightline Surfaces (page 216)
- Double Sightline Surfaces: 6 sizes, measure as (Width, Depth 1, Depth 2).
- Reference the table base specifications in Seating, Collaboration & Tables price list for applicable models and size limitations
- Utilized mainly in team spaces, collaboration touch points, and/or a useful space division in the workplace if set with O-Leg or end-panel supports from a storage support.

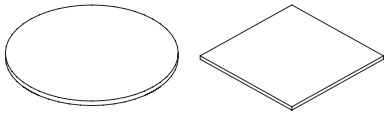


Table Top Worksurfaces (page 215)
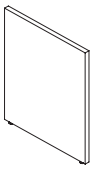
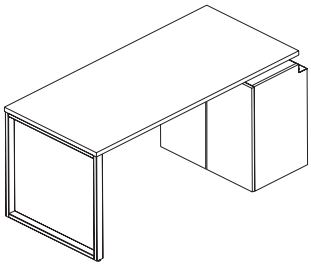
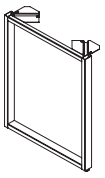
- All Worksurfaces are 1¼" thick with 2MM Edgeband
- Reference table base specifications in Seating, Collaboration & Tables price list for applicable models and size limitations
- Square Surfaces: 36", 42", and 48" available.
- Round Surfaces: 36", 42", and 48" available.
- Approved with splay legs.

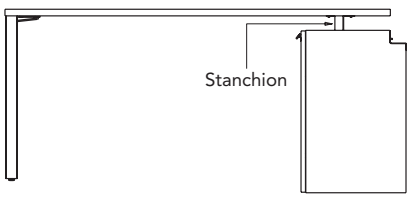


End Panels (page 220)
- 1⅛" particleboard with laminate on both surfaces.
- 2MM edge band on all edges.
- End panels are used to create run-off set-ups.
- 14", 24", 30", and 36" depths. Actual depths are 13¾", 23¾", 29¾", and 35¾"D.
- RH and LH options used separately. Model supports one side of a worksurface, not both unless using a full height modesty.
- 14"D end panels can only be used with 24"D primary worksurfaces.
- 24"D, 30"D and 36" end panels require primary worksurface depths to match the end panel.
- Maximum worksurface length is 48" with 14" end panel, and 72" with 24", 30" and 36" end panels.
- Attaches to worksurface with cam/pin/dowel mechanical fastener, providing strength and stability to desking application.
- Must order same hand modesty panel to tie into support and worksurface.

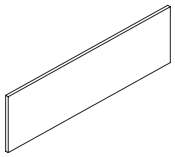




O-legs (page 218)
- 28⅜"H x 24"D or 30"D.
- 1" x 2" steel tube construction welded to mounting brackets.
- Leveling glides with 2" of adjustability.
- Actual Depth is 23¾" and 29¾".
- Mounting plate width is 6", visual width is 2".



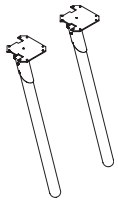
Stanchions (page 219)
- 12" and 18"D in two heights:
  - 24"D worksurface uses 12"D stanchion.
  - 30"D worksurface uses 18"D stanchion.
  - 36"D worksurface uses 2–12"D stanchions.
  - 4"H — credenza to primary worksurface
  - 3"H — credenza with top to primary worksurface
- Formed sheet metal construction, P02 Flint only.
- Attaches to upper worksurface with screws and industrial VHB tape to lower worksurface/credenza. See illustration at left. Stanchion is centered on credenza and when paired with a blade foot gives a floating aesthetic.



Modesty Panels (page 220)
- Horizontal Grain Direction:
  - 14"H x 30", 36", 42", 48", 54", 60", 66", and 72"W.
  - 28"H x 48", 54", 60", 66", 72"W.
  - 14"H Modular, RH modesty panel and LH modesty panel version for laminate end panel, non-handed 14"H modesties used in all other applications.
  - 14"H Modular mounts to worksurface stiffener with worksurface.
  - RH and LH modesty panels must attach to RH or LH laminate end panel. Specify same hand as end panel.
  - 28"H Modular, non-handed modesty panel version for laminate left and right end panel.

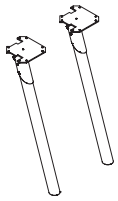
Splay Legs

Wood Splay Legs (page 218)

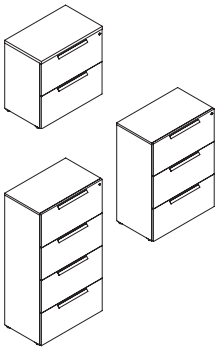


- Includes pair of legs (non-handed, mounted to top plate) and attaching hardware.
- Available in oak and walnut toned wood.
- Natural wood has variance between color and wood grain which is not the same visual as woodgrain laminate. Allsteel does not guarantee the exact matching of grain, pattern or color.
- Shroud available in standard paint selection.
- Used to support one corner of a worksurface or table.
- Standard worksurface support height
- Height adjustable legs provide a 1⅞" range of adjustment.
- Splay legs are for use on worksurface spans up to 72"W.
- Height adjustable leveling feature requires common tools to adjust height.
- Optional push-pin glide and felt pad included in hardware pack.

Metal Splay Legs (page 218)

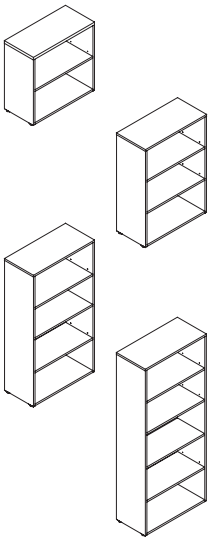


- Includes pair of legs (non-handed, mounted to top plate) and attaching hardware.
- Standard paint finish options include leg and shroud.
- Used to support one corner of a worksurface or table.
- Standard worksurface support height.
- Height adjustable legs provide a 1⅞" range of adjustment.
- Splay legs are for use on worksurface spans up to 72"W.
- Height adjustable leveling feature requires common tools to adjust height.
- Floor protection provides ½" of additional adjustment.
- Approved for runoff or freestanding applications up to 72"W.

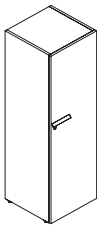


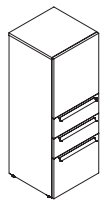
Freestanding Laterals (page 212)
- Laminate finish options include chassis and front.
- Ships assembled except for pulls.
- No footed option available.
- Outside overall dimensions:
  - Heights: 2H = 29½"H, 3H = 42¼"H, 4H = 56⅝"H
  - Widths and Depths: 30"W and 36"W; 18"D and 24"D with the exception of 2H which is 18⅛"D and 24⅛"D.
- 2H has 1¼" top built-in to case construction. Cannot be used under a spanning top workwall of 28"H units.
- All units include interlock drawers.
- Inner drawer dimensions and filing configurations are the same as credenzas. See page 164.
- Full extension file drawers: 13¼"D on 18"D, and 17¼"D on 24"D models.
- Drawer unit ships with hangrail to accommodate side-to-side filing.

Reference Page



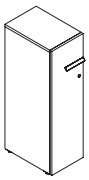
Freestanding Bookcase (page 213)
- Laminate finish options include chassis.
- Outside overall dimensions:
  - Width is nominal to dimension (i.e. 30"W = 30") with the exception of 2H which is 30.04"W
  - Heights: 2H = 29½"H, 3H = 42¼"H, 4H = 56⅝"H, 5H = 71⅛"H.
  - Depth: 15"D = 14¼"D actual.
- Shelves:
  - 2H – 1 adjustable shelf
  - 3H – 2 adjustable shelves
  - 4H – 2 adjustable, 1 fixed shelf at worksurface height
  - 5H – 3 adjustable, 1 fixed shelf at worksurface height
  - Internal shelves are ¾" laminate and adjustable to three levels.
- 2H bookcase has built-in 1¼" top. Cannot be used under a spanning top workwall of 28"H units.
- 1½" adjustable glides
- Pin-and-cam fasteners visible from the front are covered with cam covers.
- No footed option available for bookcases.



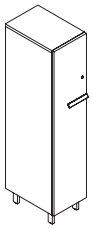


Left

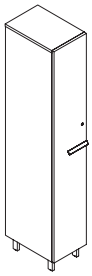
All Towers (page 230)
- Laminate finish options include chassis and front.
- Ships assembled except for pulls and side access towers which are assembled in field.
- 1½" adjustable glides on all except Open Access which have ½" adjustment.
- Footed and Non Footed Options Available.
  - Tower/Wardrobe models ending in HDL/H-HDL/CFL are available without feet only.
- All tower units must be attached to an adjacent unit.
  - Use included attachment hardware pack to attach through adjoining end panels utilizing the pilot holes underneath bottom-most shelf of wardrobe tower.
  - See instruction manual for installation steps.



Left

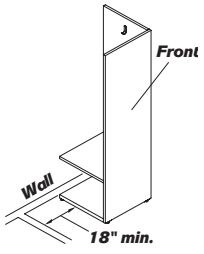


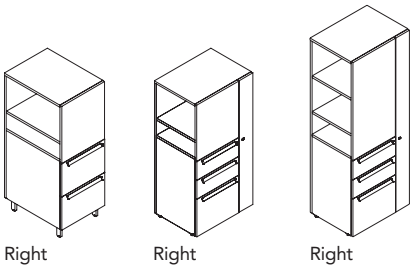
Left

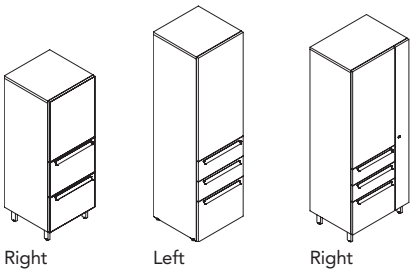


Left

- Hinged door
  - Sizes Available:
    Heights – 42½", 50", 57½", 65½", 72"
    Widths – 12", 18" & 24"
    Depths – 18" & 24"
  - 18"D Towers have 2 coat hooks in unit
    24"D Towers have a coat rod in unit, except models ending in HDL
  - 12" & 18" Wide have RH and LH configurations
    12" & 18" Wide towers have single door, 24" Wide has two doors non-handed
  - Shelving:
    42½" & 50" – 1 adjustable, 1 fixed
    57½" – 2 adjustable, 1 fixed
    65" & 72" – 3 adjustable, 1 fixed
  - Refer to page 156 for interior dimensions.
- Open Access
  - Sizes:
    Height – 57½", 72"
    Width – 18"
    Depth – 18", 24"
  - 2 coat hooks
  - Available in right-hand and left-hand (shown) configurations
  - Shelves:
    Fixed only
  - Refer to page 158 for interior dimensions.
  - Unit requires 18" minimum clearance on open side to access shelves and hooks. See illustration at left.





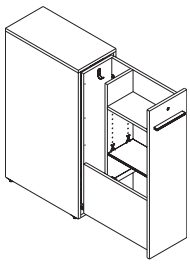


Towers—continued (page 230)

- Personal Combination and Side Access
  - Sizes:
    Heights – 50", 57½", 65½", 72"
    Widths – 18", 24"
    Depths – 18", 24"
  - Personal combination and side access towers 24"W coat hanging options under fixed shelf are two coat hooks in 18"D models and a coat rod in 24"D units for hangers.
  - Available in right-hand and left-hand configurations
  - Push latch wardrobe door on 18 and 24 wide combo and side access units
  - Side access opening is at 29½" to line up with worksurface
  - 2 adjustable shelves behind hinged door
  - Shelving behind hinged door or in open cavity:
    50" & 57½" – 1 Shelf
    65½" & 72" – 2 shelves
  - Refer to pages 157-158 for interior dimensions.
  - Combo Towers have hinged door on front of unit
    Side Access Towers have open shelving on side of unit
  - File drawer interior dimensions and filing are the same as 18"W ped
  - Box/Box/File and File/File configurations available
    30"W Combo tower has File/File configuration only with pulls on all doors and drawers
  - Interior Dimensions for Box/Box/File and File/File are the same as 18"W Ped
- 30"W Wardrobe
  - 5H only
  - Depth: 24"D.
  - Shelves:
  - 3 adjustable, 1 fixed
  - Refer to page 156 for interior dimensions.

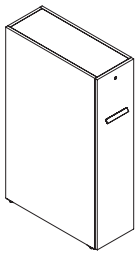
Cubby Storage (page 226)

- 7"H x 14"D x 18", 24", or 30"W.
- Installs under a worksurface, hardware included.
- Ships flat for field assembly.

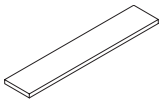


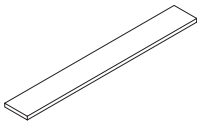
Pullout Towers (page 221)

- Tower ships fully assembled.
- Laminate finish options include chassis, front, and drawer.
  - Drawer finish options limited to Loft, Flint, and Designer White
- Sizes Available:
  - Heights – 42½", 50"
  - Widths – 12"
  - Depths – 24", 30"
- LH & RH configurations available.
- Tower Drawer contains two coat hooks.
- Shelving (See page 159 for specifications):
  - 42½"H – 1 adjustable & 1 fixed shelf
  - Adjustable shelf has 2½" height adjustment
  - 50"H – 2 adjustable & 1 fixed shelf
  - Bottom adjustable shelf has 4⅝" adjustment
  - Top adjustable shelf has 2½" adjustment
- Tower Drawer contains file capabilities (See page 155 for specifications).
- Case height contains 1½" adjustable glides.
- Tower Drawer contains 1½" adjustable caster.

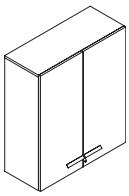


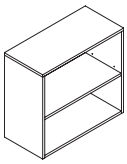
Reference Page



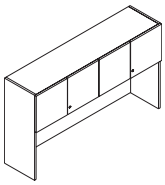


Floating Shelf (page 232)
- 30"–78" Widths available.
- Shelf is 8" in depth.
- Brackets ship with shelf.
- Maximum 10 lbs. per linear foot load capacity. Shelf can be mounted to any surface. Hardware to mount shelf not included and specified by contractor.



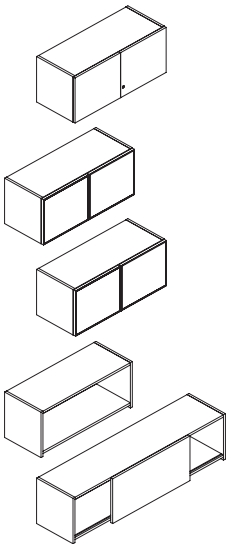


Stack-On Storage (pages 232-234)
- Ships assembled except for pulls.
- Outside overall dimensions:
  - Width is nominal to dimension (i.e. 18"W = 18")
  - Heights: 4H = 29⅛", 5H = 42⅛"
  - Depths: 15"D = 15" from drawer front to rear edge of end panel. Open shelf units subtract ¾" for front thickness.
- Laminate finish options include chassis and front on hinged door units and chassis on open and side access units.
- Shelves:
  - 4H = 1 adjustable
  - 5H = 2 adjustable
- Pin-and-cam fasteners visible from the front are covered with cam covers
- 18"W hinged door available in right- and left-hand configurations.
- Side access available in right- and left-hand configurations.
- Writable front models available.
- Units must be placed on top of 1¼" thick worksurface and are attached with industrial VHB tape.
- Stack-on storage to be placed on credenzas work wall unit(s). Intended to cover trough, trough end cap ships with unit and covers trough opening under unit.
- Unit's ship with trough end cap (branded Allsteel), this is shipped with every stack-on, and intended to be used in an end condition.



Hutches (page 234)
- Sizes:
  - Height – 35"
  - Width – 48", 60", 66", 72", 78"
  - Depth – 14"
- Fully enclosed back; includes a 1¼", full width pass-through for 3-prong electrical plugs; facilitates routing cords and reaching wall electrical outlets.
- Lower back panel can be attached with cord pass-through at bottom next to the worksurface or at top for close proximity to task light cord.
- Lower back panel can be removed to facilitate collaboration in teaming configurations.
- Valence hides task light.
- Vertical clearance for computer monitor is 20".
- Available with laminate or frosted glass/silver doors.
- Units are equipped with self-closing, adjustable hinges.
- Laminate hinged door units are available with or without a lock.
- For tackboards, see page 234.
- For task lights, see page 378.
- Units attach to worksurface using double sided tape.

Overheads (page 231)
- Ship fully assembled.
- Laminate finish options include chassis and front.
- Wall mounted – standard – ships with hardware for unit connection to bracket. Hardware for bracket connection to wall is not included.
- Outside overall dimensions:
  - Widths: 30"W = 29⅞", 36"W = 35⅞", 60"W = 59⅞", 72"W = 71⅞".



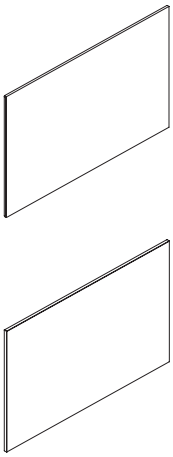
- Heights: 15"H = 15⅛"
- Depths: 15"H = 15⅛" open case depth; 15⅞" for overheads with doors.

- Pin-and-cam fasteners visible from the front are covered with cam covers
- Hinged door — laminate
  - 30"W, 36"W and 42"W (2 doors, 1 lock)
  - 48"W (3 doors, 1 lock)
  - 60"W, 66"W, 72"W and 78"W (4 doors, 2 locks)
  - Locking — standard, omit, and non-locking options.
- Writable front hinged doors
  - 30"W and 36"W (2 doors)
  - 60"W and 72"W (4 doors)
  - Non-locking
- Hinged door with frosted glass
  - 30"W, 36"W and 42"W (2 doors)
  - 48"W (3 doors)
  - 60"W, 66"W, 72"W and 78"W (4 doors)
  - Non-locking
- Open
  - 30"W and 36"W
- Sliding door — one half-width laminate door
  - 48"W, 60"W, 66"W, 72"W, and 78"W cabinets.
  - Locking on left side only.
- Specify low profile LED task lights to mount beneath laminate overhead cabinets. See pages 375-378.

Overhead Mounting Kit for Beyond Walls (page 231)

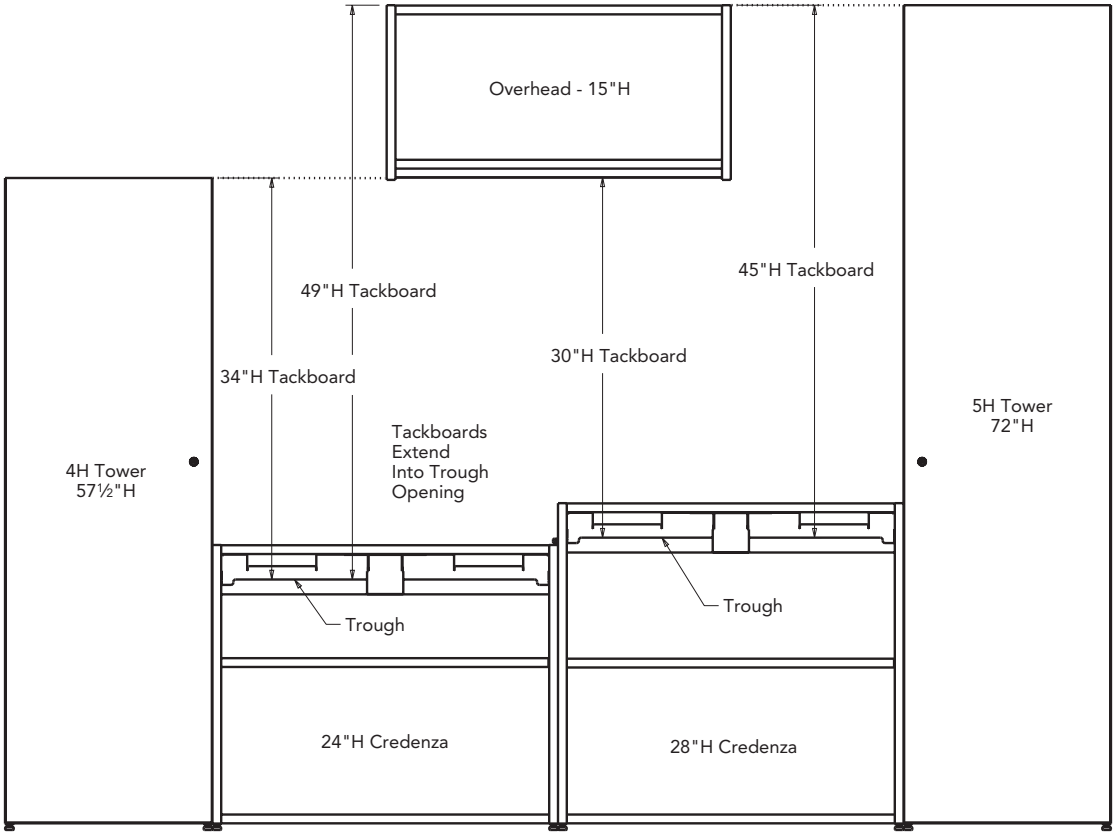
- Able to mount Approach overheads onto beyond frame wall.
- Need to order beyond slotted standard bracket, model **BFSFHB.L**.
- Able to mount off-modular, maximum 6" total for 30"–48"W units, and 12" total for 60"–78"W overheads.
- WKOHBW30AK includes 2 brackets.
- WKOHBW60AK includes 3 brackets. Required for 78" overheads and any setup that spans 2 or more glass sections.

Reference Page

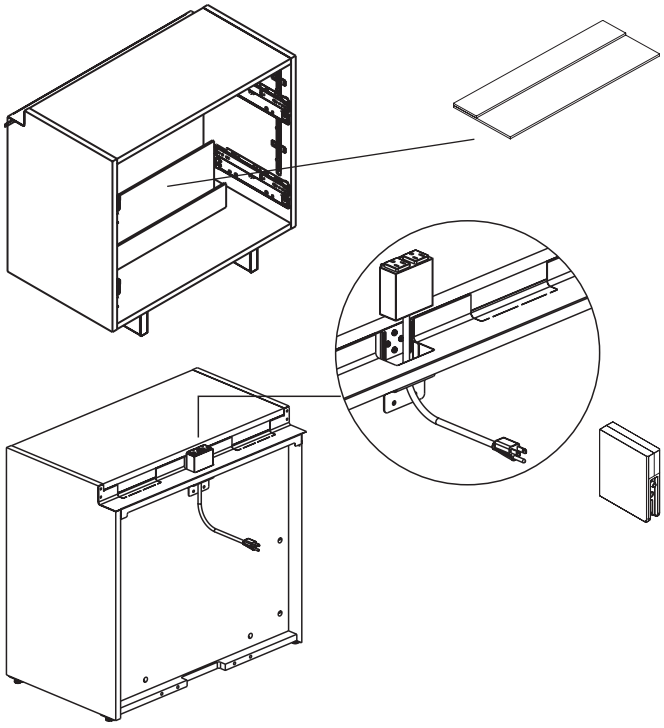


Tackboards and Writable Boards (pages 235-236)

- Available in upholstered tackboards and writable surface boards.
- Available to match 4H and 5H storage heights at layered and full height applications.
- Available 30"W - 96"W at 6" increments.
- Models greater than 60"W consist of multiple segments.
- If 4H tower unit is specified then use 4H board. Select height based on layered or full height credenza. See illustration at bottom.
- If 5H tower unit is specified then use 5H board. Select height based on layered or full height credenza. See illustration at bottom.
- If 5H tower unit is specified with an overhead unit then use 4H board. Select height based on layered or full height credenza. See illustration at bottom.
- Units are wall mounted using 'Z-Mounting' bracket.
- Tackboards and writable surface boards are not meant to be used with finished back credenza kits.
- Tackboards and writable board heights are in alignment with Trough heights.
- Troughless units are for open plan/workstations and will need tackboard to raise 3" or set behind credenza. Or contact tailored products group.



Reference Page



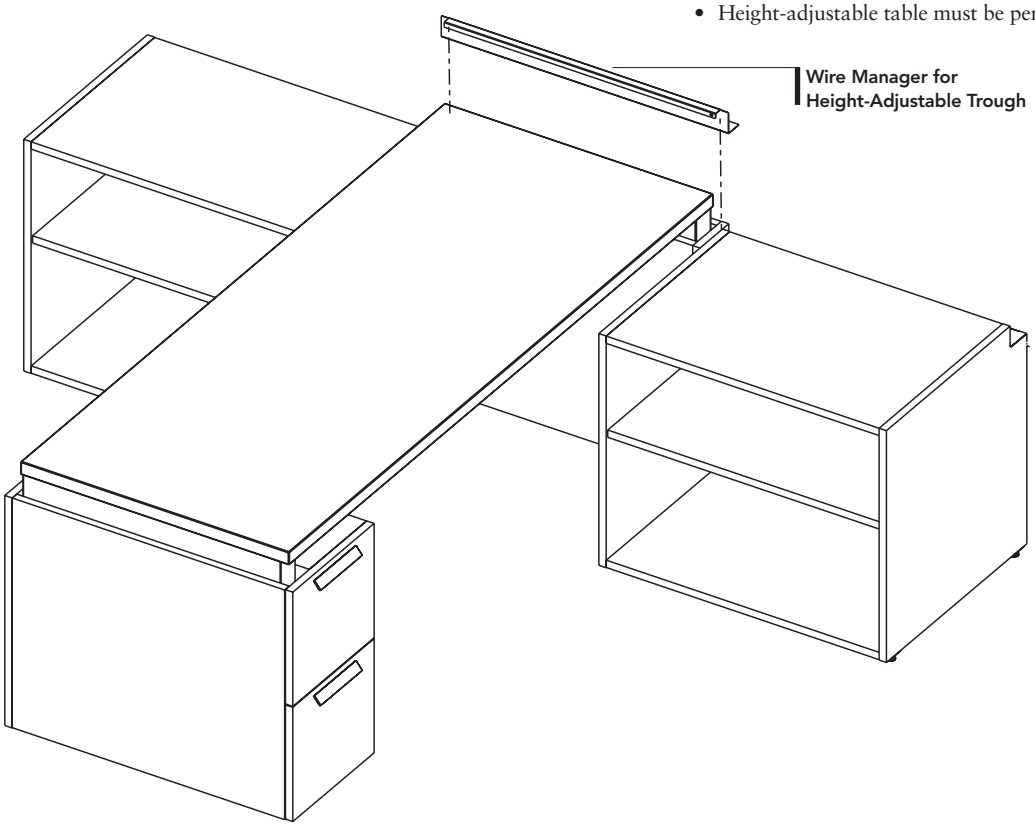
Counterweight Kits (page 237)
- Counterweight is attached to the back of a pedestal or credenza to inhibit tipping. See illustration at left.
- Kits must be ordered separately (see pages 172-173) based on type and depth of unit and are field-installed.
- Units that may require counterweight kits, depending on how they are configured, are flagged with a pound sign # after the model number listing on pages 198 and 206.

Mini-tap Power (page 237)
- Installs into back bracket of unit on 18"D models. See illustration at left. Includes 6' black power cord.
- Units available as 2 Power or 1 Power/1 USB.
- Requires additional mounting bracket WKMTMB (ordered separately) on 24"D models and wall access panels.
- 12"W, 18"W, 24"W, 30"W, and 36"W units have 1 knockout; 42"W, 48"W, 60"W, and 72"W units have 2 knockouts for mini-tap power modules.

End Cap (page 237)
- Used to finish trough at end of run.
- Branded with Allsteel Logo.
- Available in Black, Designer White, and Silver.
- Specify Full Height or Enclosed Height end caps based on top specified.
- **Credenza Top is required.**
- For Open Trough Tops specify Full Height End Caps.
- For Closed Trough Tops specify enclosed Shortened Height End Caps.

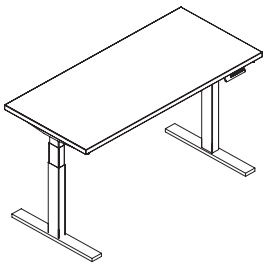
*Note: Top will cover top of end cap.

Wire Manager for Height-Adjustable Trough (page 237)
- 30"W, Flint only.
- Installs onto height-adjustable laminate shroud. See below.
- Spans two credenzas on either end of height-adjustable desk.
- Height-adjustable table must be perpendicular to wall.



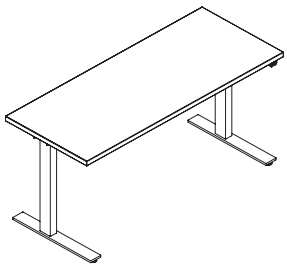
Reference Page

Altitude height-adjustable bases are available in two styles for Approach:



A6 T & C Electric Base with Rectangular Worksurface

Compatible with Credenza for Integrated leg new shroud models available April 2021



2-Stage Electric A5 C-Leg Base with Rectangular Worksurface

Compatible with Shroud kit and pedestal ending in -HS

Height-Adjustable Worksurfaces, Bases, and Controls

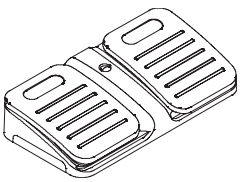
Height-Adjustable Worksurfaces (page 238)
- Height-adjustable worksurfaces are available in laminate with flat edge and rectangular veneer with matching square edge.
- Worksurface dimensions are nominal. Actual widths are reduced by 2" (1" each side). Corner cove depth is nominal, actual is 1" less.
- Altitude worksurfaces are pre-drilled with mounting location for bases.
- Any open span 60" and greater requires an external support channel. Altitude 66"-72"W rectangular worksurfaces include an external support channel.
- Rectangular worksurface grommet location is limited to center location due to mounting of worksurface supports at each end of the worksurface.
- C-Leg load capacity is 300 pounds for 2-leg model including weight of worksurface. A3-T load capacity is 250 pounds for 2-leg model including weight of worksurface.

Height-Adjustable Bases (page 239)
- Electric height-adjustable base units are available in two styles for Approach: A3-T with T-Leg or A5 with C-Legs.
- A3-T model is available in Black (P71), Nickel (P8L), and White (PD8). A5-C is available in Black, Designer White, or Silver.
- A3-T model travels at 1.4" per second. 2-Stage model travels at 1.5" per second. Motor devices have a continuous cycle time of 2 minutes with an 18 minute rest period before it can be cycled again.
- Control box is powered by 110-120V/60Hz/4A. Standby power is < 0.1 Watts. Power cords are 10'. Memory control ordered separately on C-Leg model.
- Pedestals taller than 24½" for A5-C models and 19½" for A3-T model when placed under table will limit range in lowest position.
- Mobile box/file pedestals will clear feet on height adjustable base but will extend past edge of worksurface in that position. See chart on page 155.
- Moving worksurfaces can collide with other components. It is important to ensure free range of motion prior to operating the table.
- All tables have adjustable glides providing ¼" adjustment on A5-C and ½" adjustment on A3-T.
- The no crossbar design of the A5-C-Leg exceeds knee clearance recommendations and provides optimal undersurface mounting capability.

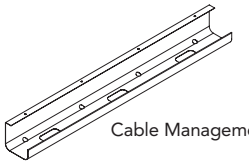
Memory Controls (page 239)
- Optional keypad allows for 3 memory set user heights with A5-C model. A3-T model comes standard with control box with 4 memory set user heights.
- ATBCMC is not compatible with A3 tables.

Foot Controls

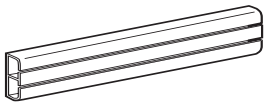
- Available as a .option on A6 and as model.
- Wireless, hands free control.
- Can be paired with hand control for multi-control option.
- Compatible with A6 and A3 tables.
- 2 AAA batteries needed. Batteries not included.



Cable & Wire Management



Cable Management Tray

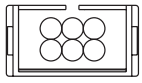


Wire Management Channel

Cable Management Tray (page 238)
- Attaches under the worksurface to contain cables.
- Metal tray shelf is 4" deep. Can hold electrical power strip and/or surge protector.
- 24" and 36" lengths, use multiple units for larger worksurfaces.
- Attachment hardware included, specify paint color.

Wire Management Channel (page 238)
- Self adhesive backing to attach to panels and underside of worksurfaces.
- Flexible strips allow cabling to enter/exit and can be contained inside the 2-cavity profile.
- Each cavity provides space for a maximum of six .22" dia. cables. Total capacity = 1 sq. in.

Cord Management Chain (page 238)
- Works with Approach and Altitude A3 and A5-Series product.
- Used to route and conceal power/data cables from control box and other devices. Includes all mounting hardware and a plate to secure to a leveling glide.
- Houses 6 cables @ 0.300" diameter.
- Made of plastic chain with plastic attachment brackets at each end. Only comes in Black finish.



6 cables (.300" dia.)

Under Worksurface Trough (page 238)
- Used to conceal wires and control box below worksurfaces. Trough can be configured at various height/width combinations to meet capacity needs — see illustrations below.
- On 48"W and 54"W worksurfaces use one 17"W trough. 54"W has space to use 2 – 17"W, if necessary.
- On 60"W, 66"W, and 72"W worksurfaces use the 36" trough.
- On 84"W worksurface use 2 – 17"W troughs.

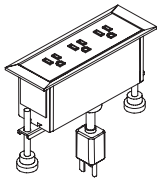
Collaborative Height-Adjustable Tables (page 241)

- Available in 3 sizes of double sightline worksurfaces: 78" x 60" x 48", 78" x 54" x 42", and 72" x 42" x 30".
- Shrouds are centered and 30" wide. Storage can, align with laminate shroud, only 24"H storage can be used.
- Narrow end of shroud can be installed flush, or 12" inset from edge.
- Laminate shroud remains on floor.
- Unit has 2" of leveling capability.
- Height-adjustable mechanism provides 27¾"–47⅜" of adjustability.
- Load capacity is 600 pounds including the weight of the worksurface and metal shrouds.
- Finish options for top and laminate shrouds, metal shrouds are Flint only.
- Cutout locations for large end, narrow end, both, or none. Cutouts centered along depth and 16" from end(s).
- Cutout uses WKPWDP2SM or WKPWDP3SM power modules.
- Standard up/down control ships with unit. Optional programmable 3-position control ordered separately. See page 239.
- Ships flat in multiple cartons for field assembly



Power Modules for Collaborative Height-Adjustable Tables (page 241)

- Modules are only used with double sightline height-adjustable models. Unit mounts into specified cut-out in worksurface.
- Modules available as 2-AC/1-USB or 3-AC in SNW Snow or STRM Storm.
- Power cord is 10' in length.

For specification information see pages 174-179.

Metallic paints, due to varying reflectance, may appear to have less visual color consistency than other paint finishes, even when L/A/B values are exactly the same. (L/A/B — measurable aspects of color — values are maintained within a specified range, to ensure consistent appearance of paint colors.)

****These colors are intended to be an inspirational option for the trending market. Product application is limited and color availability is approximately two years to coincide with evolving workplace trends.*

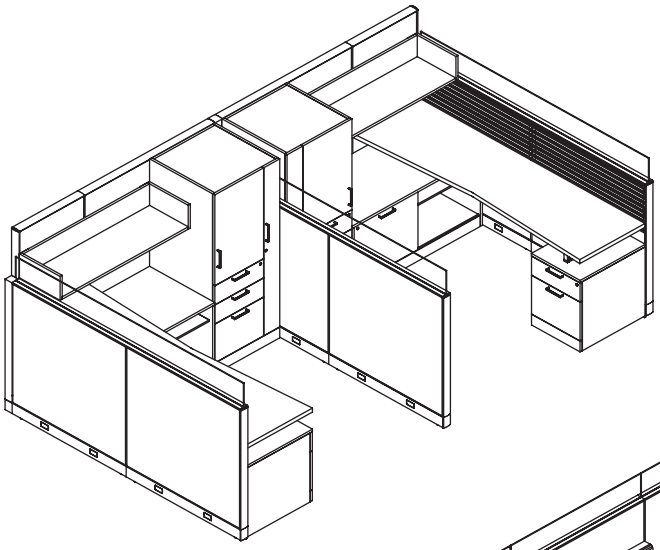
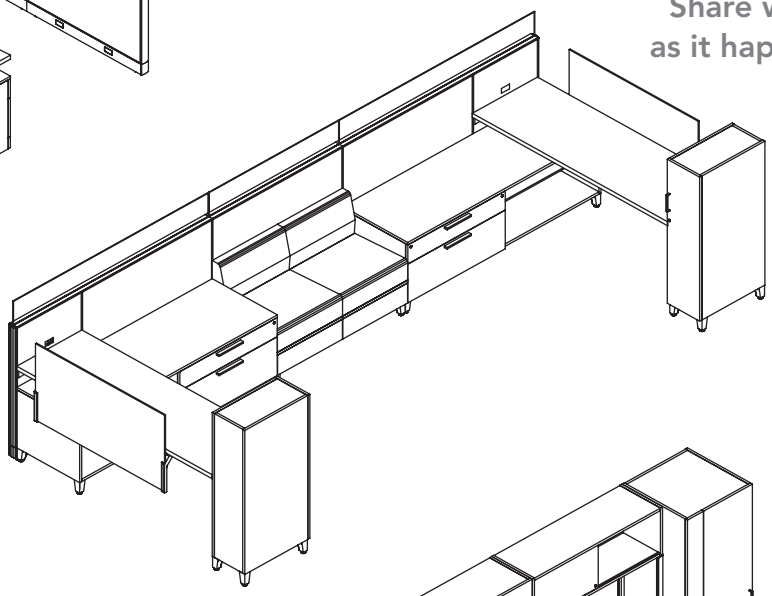
Where, how, and even what defines work is changing constantly. It's obvious that businesses are trying to understand what it means to successfully change with the culture and trends.

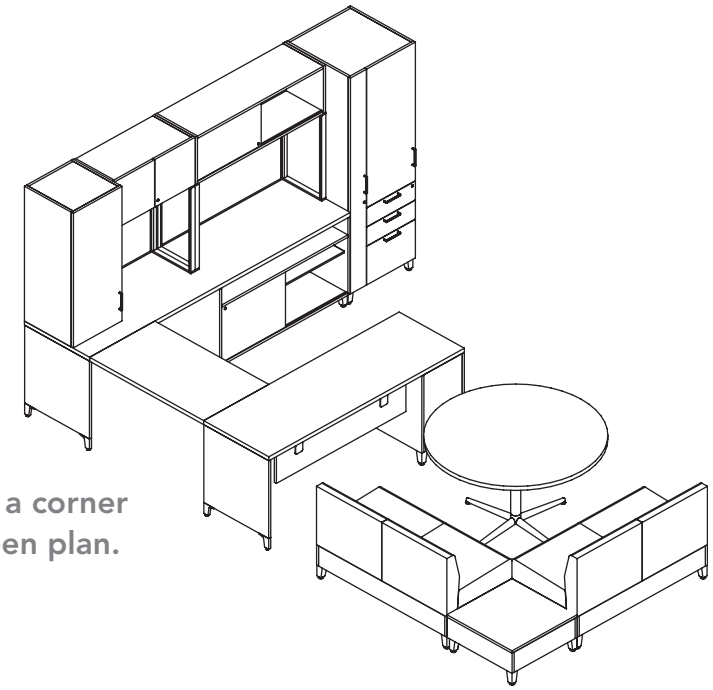
With Involve, we set out to discover how furniture can be used today as an impetus to an organizations change and yet perform well into the future as the organization continues to evolve.

Involve… one solution for all your needs.



Share work as it happens.





Involve is as comfortable in a corner or shared office as in an open plan.

A Fresh Approach

Furniture needs to work today with a fresh approach and innovative features. But support of tomorrow's needs is vitally important.

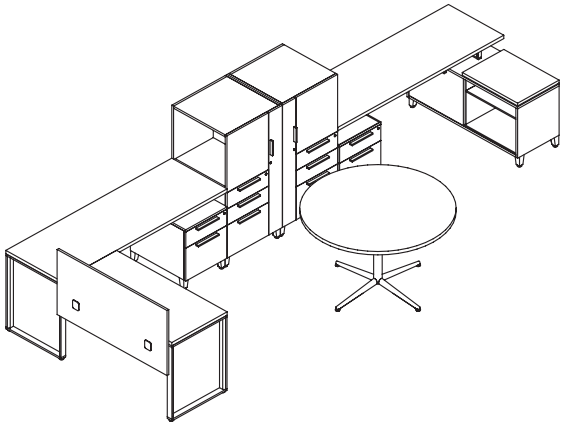
- Expand functionality of systems furniture, energize existing installs, and support changing work styles with Involve. Take existing investment and add functionality and relevance by changing out a few key pieces.
- The soft seating can be used within panel walls or pulled into freestanding or huddle room applications. The same casegoods work in private office or open plan configurations.
- Modularity of components allows for flexing of product application into the future. Involve lets you design for collaboration now while building in opportunity for future head count growth.

Changing Work Styles

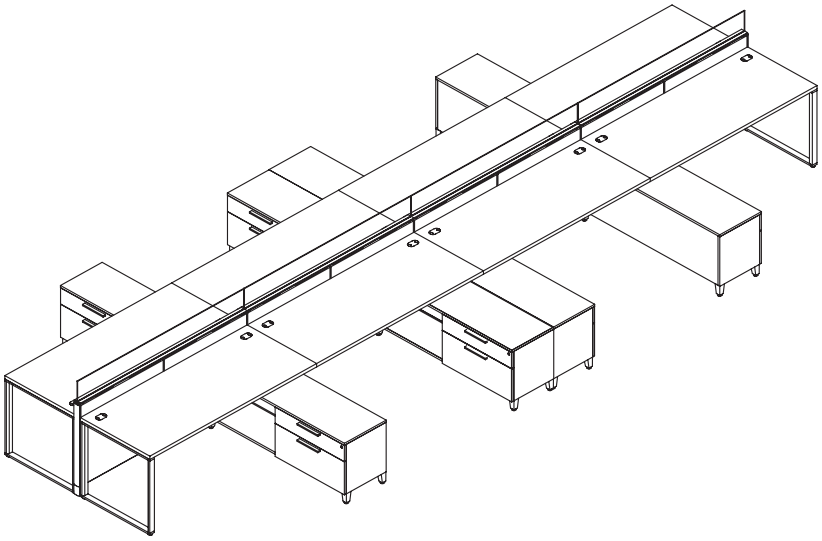
From editing to brainstorming, number crunching to researching, today's work doesn't just happen in a task chair pulled up to a desk surface.

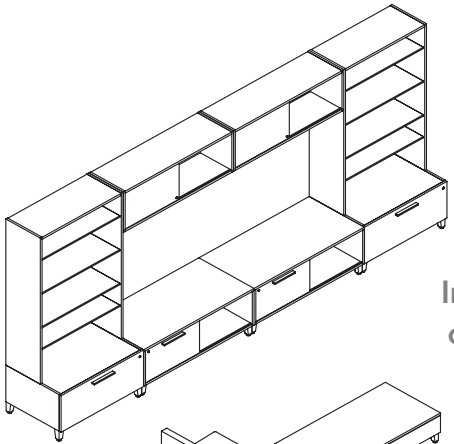
- Tired of the stodgy cubicle, users should be inspired by a fresh approach with innovative features that feel like furniture and less like a system.
- A task chair works for one job function and lounge seating works better for another. Involve supports the preferred posture for these activities while maintaining the desired home base for individuals.
- Untethered from the primary workstation, sharing of information can happen spontaneously around a screen or face to face. Involve components can be used across the floorplan offering the user multiple places to go as they work.

Get inspired by Involve.



Involve's modular design accommodates all the different ways work gets done.





Involve moves out of dedicated user spaces to create comfortable, functional meeting areas.

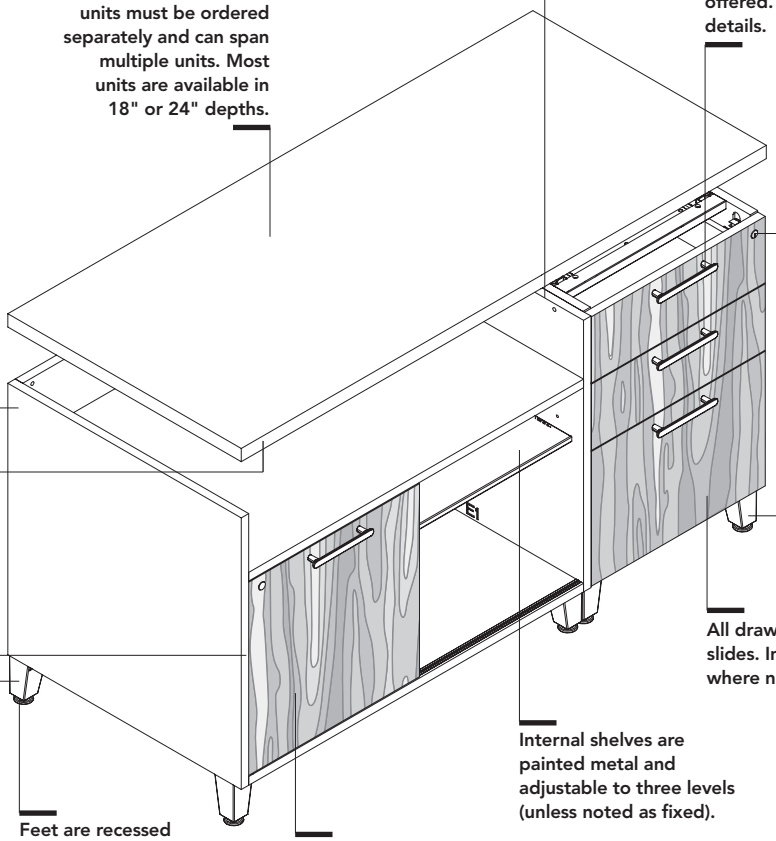
Credenzas and pedestals ship fully assembled except for tops on 28"H and 42"H units are ordered separately to allow one surface to span multiple credenzas and pedestals. Tops are available in laminate with flat edge detail.



Optional ganging bracket can be used to gang credenzas or pedestals in line.

Various pull options are offered. See below for details.

Tops for 28"H and 42"H units must be ordered separately and can span multiple units. Most units are available in 18" or 24" depths.

Available in solid and woodgrain laminate colors. On units with fronts, you can select one laminate for the case and a second laminate for the drawers fronts and doors.

Units can be shipped with lock cores removed; cores can be installed after units are in place. Core removable lock feature allows key numbers to be easily changed in the field.

Units are constructed from ¾" thick laminated particleboard with edge banding and European cam-and-pin construction.

Stride feet for Involve have sleeves to conceal the leveling glides which have a 1½" leveling range. Terrace feet have a leveling range 2¼". The hex-head design of the stem allows leveling to be done even when the unit is fully loaded.

On two-tone casegoods, the credenza top including front "header" is the same color as the case on all credenzas that ship with a top. *Example:* Units with frosty white case and charcoal walnut front has a frosty white top and header.

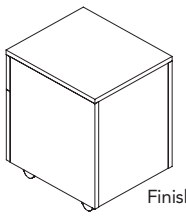
All drawers use full extension slides. Interlocks are used where needed for stability.

Choose footed design or plinth base for storage that sits on the floor.

Internal shelves are painted metal and adjustable to three levels (unless noted as fixed).

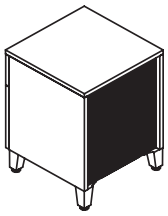
Feet are recessed ¾" from the front, 1/16" from the sides, and are flush to the back. On dual-access units feet are recessed ¾" on front and back.

Single sided sliding door units are non-handed; open half depends on door position. Doors lock in either position.



Finished back

Open and partially open units come assembled with a finished laminate back.

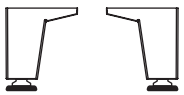


Units with drawers or doors come with an unfinished back that is recessed. A laminate back is available for units up to 28"H (ordered separately) for use when the back of the unit will be exposed.

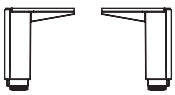
Available pull styles:

Arch Halo Beam Square

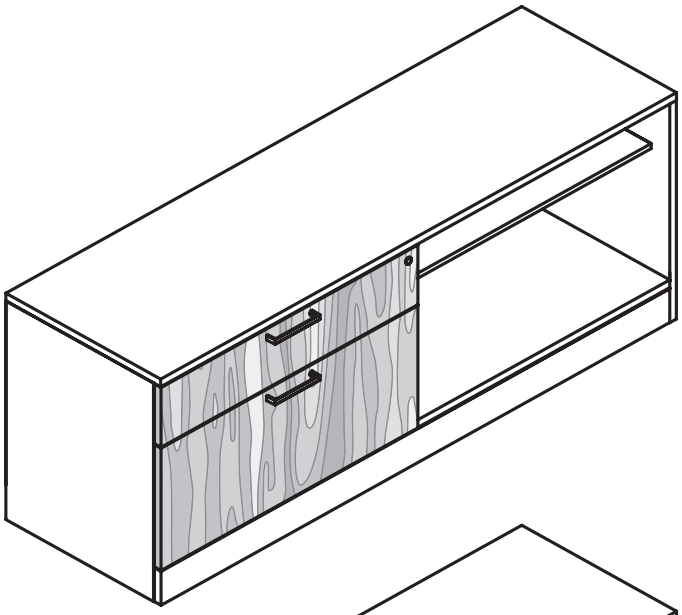
Storage that sits on the floor is available with plinth base or feet. Footed design provides increased air flow. **Two feet options** are available to integrate with Terrace or Stride Systems. Units ship assembled except for feet and pulls.



Terrace

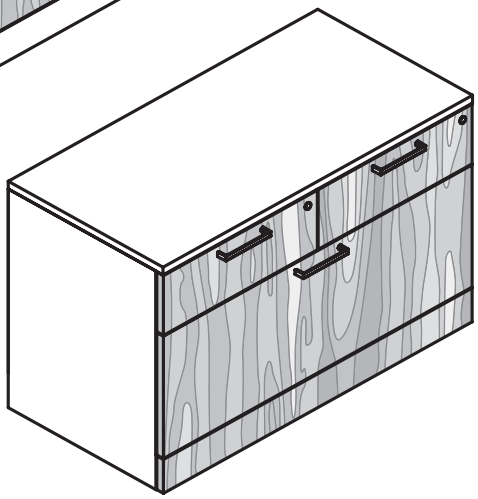


Stride



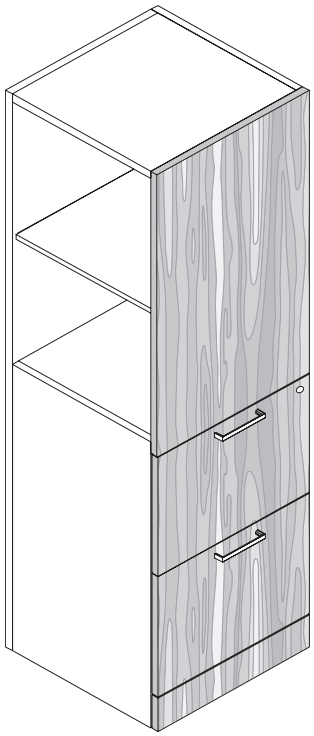
Two Tone Combo Credenzas

- Chassis, top, and plinth base will match. See illustration at left.
- Door/drawer fronts will match.



Two Tone Credenza (non-combo unit)

- Chassis and top will match. See illustration at left.
- Drawer fronts and plinth base will match.
- For best aesthetics avoid placing aside of a two-tone combo unit.

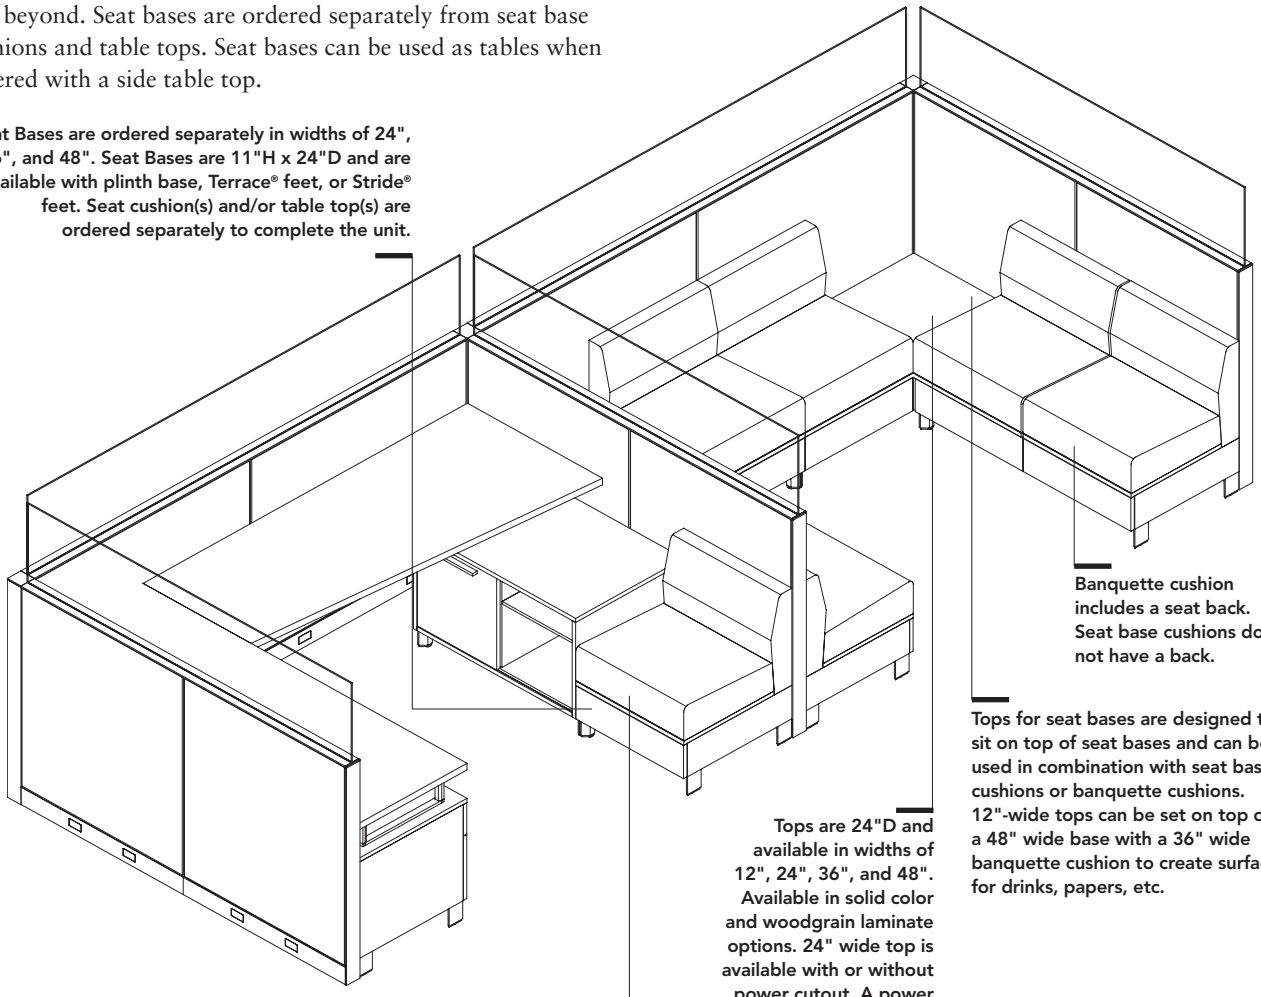


Two Tone Tower and Wardrobe Plinth

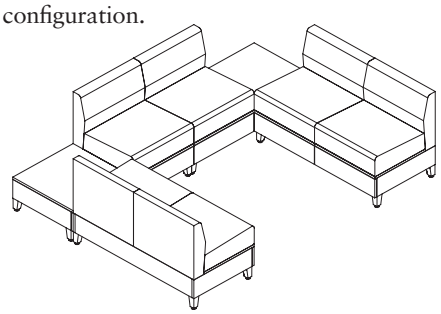
- Units have matched front and kickplate as shown here.

Note: Plinth base follows front laminate on non-combo units, and chassis & top on combo units. For best aesthetics avoid placing a two-tone combo along side of a two-tone non-combo unit.

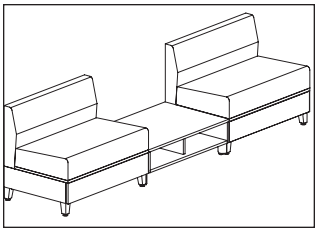
A seat cushion can be placed on the credenza or pedestal top for additional seating. **Soft seating units** are also available for use within the private office, open plan, reception areas, and beyond. Seat bases are ordered separately from seat base cushions and table tops. Seat bases can be used as tables when ordered with a side table top.



Seat base offering includes: with drawer or open. 48"W seat base with drawer has two drawers; design allows access to outbound drawers in corner applications. See illustration below showing four 48"W seat bases with 24"W cushions and tops in a U-shape configuration.

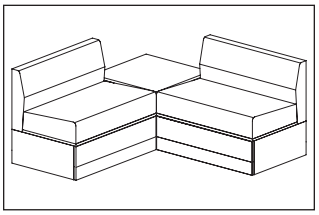


Seat bases are available in solid or woodgrain laminate options. Seat base with drawer can have a different laminate color on the drawer front than the case.



Open table is 11" high and is open at the front and back. Available in widths of 36" or 48" and depths of 18" and 24". Tables can be used to support electronics with back open for cord passage or can be used as a coffee table. 48" wide unit has a septum in the middle of the unit.

Corner table is used in a soft seating application. Corner table is 17½" high, 24" wide, and 24" deep. Illustration below is shown using plinth base units.



Aesthetic Alignment
Tower heights align with Stride® and Terrace® panel segmentation.

Construction and Options
See page 254 for Involve storage construction details; and base, pull, and finish options.

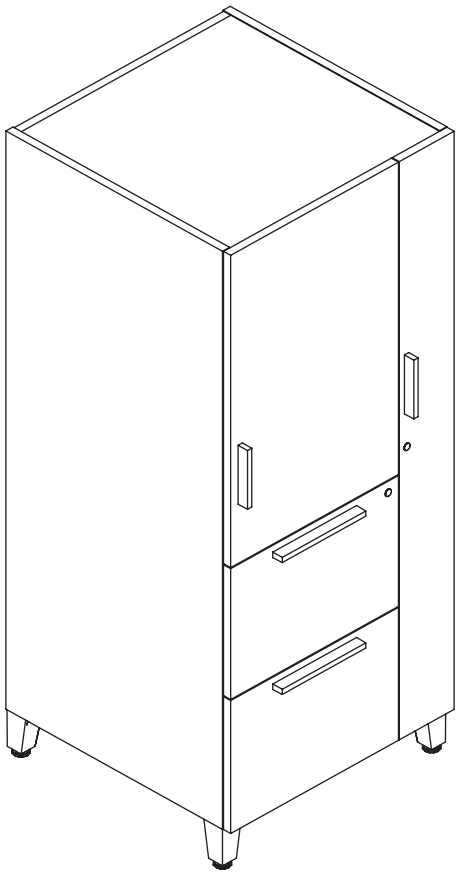
Shelves
Internal shelves are painted metal and adjustable to three levels.

Filing
File drawers can accommodate front-to-back letter filing.

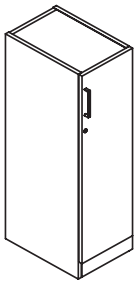
Wardrobe Door
All 24"W towers have full-height wardrobe doors with a coat hook.

Core Removable Locks
Towers can be shipped with lock cores removed; cores can then be installed after towers are placed. Core removable lock feature allows key numbers to be easily changed in the field. It also facilitates installation.

Quantity of Lock Cores
Wardrobes with shelves, 18"W towers, and 12"W towers have one lock to secure door. All other towers have two locks — one secures the wardrobe door and the other secures all drawers.



Configurations
Towers are available in five heights: 42½", 50", 57½" 65" and 72½"H. Drawer configurations include box/box/file and file/file with portion above drawers being a hinged door; 50"H and 57½"H units offer a side access option in place of front facing hinged door. All 24"W units with drawers have a full-height 6"W wardrobe; 18"W units do not. Full wardrobes with 2 adjustable shelves and a coat hook are available in 65"H and 72½"H. 12"W units include 2 coat hooks and must be panel mounted or attached to a credenza or worksurface. Left- and right-handed units available for all configurations. Units ship assembled except for feet and pulls.



Worksurface Support
Tower can accommodate addition of an "L" tower bracket or tower rail.

An "L" tower bracket can be ordered separately and fitted to any tower to support worksurfaces at 29½"H.

A tower rail can be ordered separately and fitted to any tower to support worksurfaces at a height range of 27½"H to 30½"H.

See page 336 for visuals of a "L" tower bracket and a tower rail.

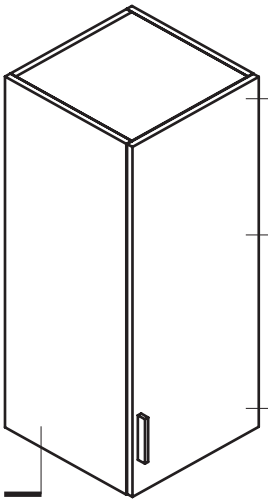
Number of Adjustable Shelves in Tower

Unit Height	Sides Access	Front Access	12" Wide
42½"H	N/A	N/A	1
50"H	1	0*	2
57½"H	1	1	2
65"H	N/A	2	2
72½"H	N/A	2	N/A

*Shelf can be ordered separately on pages 277 and 278.

Reference Page

Stacking storage ships fully assembled. Units are designed to be placed on top of a worksurface or credenza and are attached with double-sided tape. Units line up on-module with Stride® and Terrace® elevations when mounted atop everything except a 24" high credenza. Units are available with hinged doors and open configurations.



Available in solid, wood grain and two-tone laminate colors on units with fronts.

Internal shelves are painted metal and adjustable.

Units feature three styles of pull options — arch, square or straight.

Constructed from ¾" laminated particleboard with edge banding and concealed fastener construction.

Inside Height 13⅜"

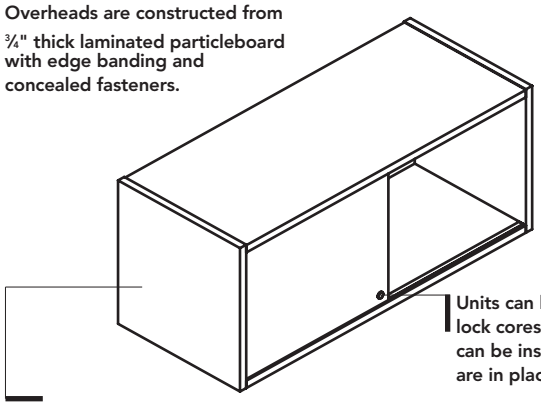
Overhead storage components maximize the use of space in the workstation and provide convenient access to binders, reference materials, software packages, and miscellaneous supplies. Overhead cabinets are available with sliding doors, hinged doors, open, and dual access with sliding door or open. Laminate selection includes solid color, woodgrain, or two-tone (case/doors).

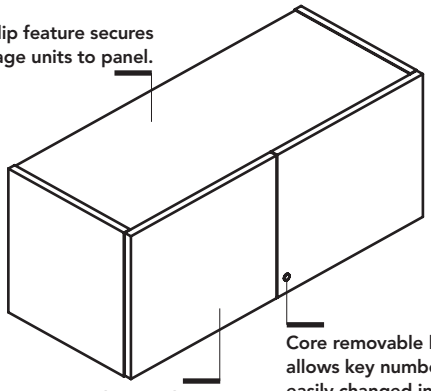
Overheads are constructed from ¾" thick laminated particleboard with edge banding and concealed fasteners.



Units can be shipped with lock cores removed; cores can be installed after units are in place.

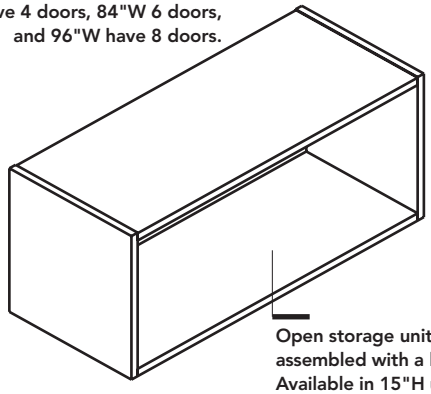
15"H cabinets can be panel-mounted on module on Stride or Terrace Systems (order brackets separately) and 15"H or 22½"H units can be wall-mounted with horizontal wall track; dual access cabinets can be upmounted.

Locking clip feature secures storage units to panel.



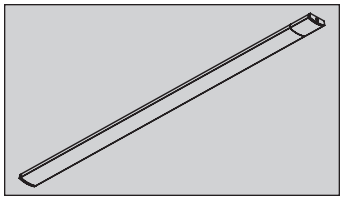
Core removable lock feature allows key numbers to be easily changed in the field.

24", 30"W, 36"W have 2 doors, 42"W 3 doors, and 48"W, 60"W, and 72"W have 4 doors, 84"W 6 doors, and 96"W have 8 doors.



Open storage units come assembled with a laminate back. Available in 15"H units.

LED undercabinet light can be mounted beneath laminate overhead cabinets for a low profile lighting option. (Recessed tasklights not recommended as bottom of laminate wood storage is not recessed.)



Reference Page

Wood Storage — Floor Based
- Plinth base or footed design with choice of feet that coordinate with either Stride® or Terrace®. (Unless unit is mobile.)
- Units ship assembled except for feet and pulls.
- Three pull options: arch, square, or straight.
- ¾" thick laminated particleboard with edge banding and European cam-and-pin construction.
- Available laminates: solid, woodgrain, or two-tone (case one laminate / front (door or drawer) a different laminate).
- 72"W units require Solid color laminate case, front can be woodgrain or solid.
- Doors and drawers lock except for stacking storage units and hinged cupboard doors on towers.
- Single sided sliding door units are non-handed; open half depends on door position. Door locks in either position.
- Some models require counterweights, wood backs, or ganging — see page 260.
- File drawers 30"W and wider accommodate legal size documents.

Mobile Pedestal (Plinth base or footed page 267)
- Box/file drawers; 24"H x 15⅝"W x 18"D.
- Has a top and finished back. Ships with counterweight.

Freestanding Pedestals (Plinth base or footed page 267)
- Box/file drawers; 24"H x 18"W x 18"D or 24"D.
- Have a top and unfinished back.
- Requires counterweight (order separately) if freestanding — see page 260.
- Units ship assembled except for feet and pulls.

Support Pedestals (Plinth base or footed page 267)
- Support pedestals include box/box/file, file/file, or open with one adjustable metal shelf.
- Support pedestals are 15⅝"W or 18"W; 18"D, 24"D and 30"D; and 28"H. They are meant to support worksurfaces; optional tops are available. With a top they are 29½"H.
- 30"D pedestals are designed to support 30"D worksurfaces; drawer depths are the same as 24"D pedestals.
- Open w/shelf models have finished laminate backs; backs on other models are open with spanner bar with optional laminate back ordered separately if back is exposed.

17½"H Credenzas (Plinth base or footed page 268)
- 18"D or 24"D; includes tops. Some models require counterweights or ganging — see page 260.
- Single lateral has one drawer, 30"W or 36"W. Requires counterweights. Optional laminate back ordered separately.
- Single lateral w/open side cubby is handed — drawer, left, or right; 48"W, 60"W, or 72"W.
- Table (closed base) units are 24"W x 24"D.
- Units ship assembled except for feet and pulls.

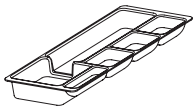
24"H Credenzas (Plinth base or footed pages 269-270)
- 18"D or 24"D with tops.
- Box/lateral is 30"W and box/box/lateral is 36"W. Optional laminate back ordered separately.
- Box/lateral w/open side are handed — drawer, left, or right; 48"W, 60"W, or 72"W.
- Sliding door w/adjustable metal shelf; 36"W or 48"W.
- Open binder units have an adjustable metal shelf; 18"W, 24"W, 30"W, or 36"W.
- Units ship assembled except for feet and pulls.

28"H Support Credenzas (Plinth Base or footed pages 271-272)
- 18"D or 24"D without tops.
- Units are designed to support worksurfaces; tops must be ordered separately. With top, credenzas are 29½"H.
- Box/box/lateral are 24"W or 30"W. box/box/project drawer/ lateral is 36"W. Optional laminate back ordered separately.
- Lateral/laterals are 30"W or 36"W. May require counterweights — see page 260. Optional laminate back ordered separately.
- Sliding door units w/adjustable metal shelf and an open top shelf; non-handed, 36"W or 48"W.
- Open cubby models have an adjustable metal shelf; 24"W, 30"W, or 36"W.
- Units ship assembled except for feet and pulls.

42"H Credenzas (Plinth base or footed page 273)
- Units are 18"D and designed to support worksurfaces; tops must be ordered separately. With worksurface, credenzas are 43½"H.
- 3-drawer lateral has a laminate back with seams and is 36"W. Aesthetic should be considered in applications where back is visible.
- Units ship assembled except for feet and pulls.

Cam Cover Kits (page 276)
- 17½"H, 24"H, and 28"H credenzas ship without cam covers. Cam cover kits can be ordered separately. 20 cam covers in each kit.

15W Box Drawer Pedestals and Accessory (page 268)
- Box drawers do not include pencil tray.
- Order pencil tray separately - A2280-000



Reference Page

Bookcases and Bookcases with Lateral File (Plinth base or footed page 274)
- Open bookcases are 15"D. 65"H have 2 adjustable and 1 fixed shelves. 72½"H have 2 adjustable and 2 fixed shelves.
- Bookcases w/lateral are 24"D with 15"D upper bookcase. 65"H have 2 fixed shelves. 72½"H have 1 fixed and 2 adjustable shelves.
- Pin-and-cam fasteners visible from the front are covered with cam covers.
- Backs of all units have exposed pin-and-cam fasteners. Optional cam covers are available to order. Aesthetic should be considered in applications where back is visible.
- Units ship assembled except for feet and pulls.

Tops and Cushions for Pedestals and Credenzas (page 275)
- Laminate tops are 1¼" thick and 18"D or 24"D, for use on storage without tops in freestanding applications. Certain freestanding applications require counterweights or ganging — see below.
- Cushions are for use on 17½"H and 24"H storage with tops to create additional seating.

Counterweight Kits (page 276)
- Counterweight is attached to the bottom of a credenza to inhibit tipping.
- Kits must be ordered separately (see page 276) based on type and depth of unit and field-installed.
- Units designated to be ganged must be ganged to at minimum a 36"W unit with non extendable elements (i.e. KL243618N).
- Counterweight kits required for freestanding pedestals and credenzas:

HEIGHT / WIDTH	DEPTH	REQUIRED KITS
24"H Pedestals		
18"W	18"D	2 Kits & Wood Back
	24"D	2 Kits*
	30"D	0 Kits
28"H Pedestals		
15"W or 18"W	18"D	2 Kits & Wood Back
	24"D	2 Kits
	30"D	0 Kits
17"H Single Lateral Credenzas		
30"W or 36"W	18"D	2 Kits & Ganged*
	24"D	0 Kits & Ganged
17"H Single Lateral w/Open Side Credenzas		
48"W, 60"W, or 72"W	18"D	1 Kit
	24"D	0 Kits
24"H Lateral w/Box Drawer(s) Credenzas		
30"W or 36"W	18"D	4 Kits & Ganged*
	24"D	4 Kits & Ganged*
24"H Lateral w/Open Side Credenzas		
48"W, 60"W, or 72"W	18"D	3 Kits
	24"D	0 Kits
28"H Lateral w/Box Drawers Credenzas		
24"W	18"D	2 Kits & Ganged*
	24"D	2 Kits & Ganged*
30"W or 36"W	18"D	4 Kits, Wood Back, & Ganged
	24"D	1 Kit & Ganged*
28"H Lateral/Lateral Credenzas		
30"W or 36"W	18"D	3 Kits & Wood Back
	24"D	3 Kits*

Units designated with an '' may have 1 counterweight kit removed if a finished wood back is installed.

- Counterweight kit(s) and/or wood backs are not required if ganged back-to-back.
- One counterweight kit can be removed for each additional 36" width of ganged storage to units with non extendable elements.

Example: (1) 28"H x 36"W x 24"D Lateral/Lateral Credenza
+ (2) 28"H x 36"W x 24"D Open Credenzas
(3) kits - (2) kits for 72" ganged = **(1) total kit required**

Ganging Brackets (page 276)
- Ganging brackets attach to underside of Credenzas.
- Can be used in place of Counterweight Kits based on counterweight requirements above.
- Unique ganging bracket models for footed and plinth base models.

Metal Shelves (pages 277-278)
- Pullout shelves have a 50 lb. weight capacity and are field-installed using supplied template.
- Pullout shelves are 2"H x 18"W, 24"W, 30"W, or 36"W; and 12"D, 18"D or 24"D in P1, P2, and P3 paint colors.
- Pullout shelves can be used in open cubby space with box/lateral credenzas with septum (exception of sliding door credenzas with septum).
- Additional metal shelves with pins in dimensions for open units are available in P1, P2, and P3 paint colors.

Soft Seating — Bases/Tops/Cushions and Tables
(Plinth base or footed pages 279-280)
- Bases, either plinth base or leg base units, are ordered separately from seat cushions and table tops. 11"H x 24"D seat base comes with drawer(s) or open shelves; unfinished back and no top. 24"W, 36"W or 48"W.
- Order seat base top(s) 12"W, 24"W, 36"W, or 48"W; or 24"W seat base cushion(s); or banquette cushion(s) (24"W or 36"W) separately to fill entire width of seat base.
- 24"W seat base top is available with power module cutout. Power modules ordered separately with USB, iPod, or Ports.
- Seat base drawer fronts have finger pocket on underside.
- Low open table with top is 11"H and can be used in a soft seating application; 36"W or 48"W and 18"D or 24"D.
- Corner table w/top is closed on all sides; 17½"H x 24" x 24".
- When creating a 90° setup using three seat bases, use of ganging bracket replaces front visible foot on corner seat base.

Reference Page

Personal Towers (Plinth base or footed pages 281-285)
- Available in heights of 42½", 50", 57½", 65", and 72½".
- Available in right-hand and left-hand configurations. Box/box/file and file/file — front hinged door or side access models with or without 6" wide full-height wardrobe.
- 12"W towers must be attached to a panel, worksurface, or credenza.
- 18"W towers must be attached to a worksurface with Z6LB or a credenza with an inset back using bracket KLGK.
- Pilot holes in case to use "L" tower bracket or tower rail.
- Shelves in hinged door models are adjustable.
- Shelves in side access models are adjustable.
- Full width wardrobe 18"W or 24"W with 2 adjustable metal shelves on 65"H or 72½"H. 24"D have hanging rod; 18"D have double-hook.
- Pin-and-cam fasteners visible from the front and behind a door are covered with cam covers.

"L" Tower Bracket (page 285)
- Used to support a worksurface at 29½"H.
- Attaches using pre-drilled holes inside the tower.
- For use with laminate and painted wood storage only.
- The depth of the worksurface and tower should be equal.

Tower Rail (page 285)
- The tower rail mounts to the user side of towers and is used to attach worksurfaces at a height range of 27½"H to 30½"H.
- Attaches using pre-drilled holes inside the tower.
- Requires rail bracket kit for worksurface — order separately.

Stacking Storage (page 286)
- Units are 18" deep; 20", 27½", 35", and 42½"H. Open units 18"W or 24"W and hinged door units 18"W. 24"W hinged door with 6"W side display available 20"H or 27½"H.
- Units are non-locking and designed to be attached with double-sided tape on top of a 28"H properly supported storage unit worksurface and align with Stride®, Terrace® or Optimize™ elevations.
- Stacking Storage units can not be stacked on each other.
- 42½"H units have two adjustable-height metal shelves; 27½"H and 35"H units have one adjustable shelf.
- Pin-and-cam fasteners visible from the front and behind a door are covered with cam covers.

Overhead Storage (pages 287-288)
- Units include: hinged door, sliding door, dual-access, and open.
- 15"H units are designed to mount on module to a panel (Terrace or Stride — order panel mount brackets separately) or mount atop stanchions — ordered separately. 15"H and 22½"H units mount to a hard wall using horizontal wall-mount bracket — ordered separately. 22½"H have fixed metal shelf and can only be wall mounted. *See page 256 for panel mounting rules*.
- No double stacking of laminate overheads.
- 24"-36"W hinged door cabinets have 2 doors with one lock on the front of the cabinet; 42"W 3 doors with two locks; 48"W, 60"W, and 72"W have 4 doors with a center security septum and two locks; 84"W 6 doors, two septums, and three locks; 96"W 8 doors, three septums, and four locks.
- Sliding door overheads have one door with one lock that can only be locked when the door is in the left-hand position.
- Back side of single sided units are not meant to be exposed.
- Dual-access units are 18"D and designed to be used between two stations with Terrace panel system. Open units are 36"W, 48"W or 60"W.
- Overhead cabinets feature self-engaging safety latch to secure the cabinet to panel.
- Specify low profile LED tasklights. See page 289.
- Pin-and-cam fasteners visible from the front, bottom, and behind a door are covered with cam covers.
- Overheads 72"W or greater cannot be panel mounted. For stanchion mounting and wall mounting only.
- When stanchion mounting 72"W or greater overheads, a taskpanel kit is required on one or both sides.
- A mid stanchion is required with overheads 72"W and wider.
- A taskpanel kit is required when attaching 72"W and wider overheads to a single adjacent tower using the tower-to-overhead bracket kit.
- Taskpanel kits are not required when attaching 72"W and wider overheads to two towers using the tower-to-overhead bracket kits.
- When wall mounting overheads 72"W and wider use two brackets: 2–36"W for 72"W, 2–42"W for 84"W, and 2–48"W for 96"W.
- When ordering a two-tone option for overheads 72"W or greater, the case must always be a solid laminate color.
- Woodgrain laminate option limited to doors for overheads 72"W or greater. Case must be a solid laminate color.

Reference Page

Laminate Shelf, Book Shelf, and Open Box (page 288)
- Units are designed to mount on module to a panel (Optimize®, Terrace® or Stride® — brackets provided).
- Must conform to specific panel system rules for Overhead mounting
- Cannot be wall-mounted.
- Ship with panel mount brackets installed.
- Capacity not to exceed 50 lbs. on laminate shelf.

Overhead Stanchions (page 289)
- Aluminum, mid, and non-handed; 5", 11", 12", 18", 19¼", 26", and 27"H.
- 15"D used with single sided overheads, 18"D with dual access.
- Stanchions for 24"H credenzas with tops aligns unit with panel or storage: 11" stanchions align with 35"H; 18"H aligns with 42½"H; 26" aligns with 50"H.
- Stanchions for 28"H credenzas on 29½"H surface aligns unit with panel or storage: 5" stanchions align with 50"H; 12"H aligns with 57½"H; 19¼" aligns with 65"H; 27"H aligns with 72½"H.
- Overheads 72"W and wider require a mid overhead stanchion.
- Unfinished back may be exposed in freestanding application.
- Overhead stanchions are not recommended to be used on freestanding desks.

Tower-to-Overhead Bracket (page 289)
- Used when stanchion mounting 72"W, 84"W, or 96"W overheads to an adjacent tower.

Horizontal Wall-Mount Brackets (page 289)
- Use to attach an overhead directly to wall.
- Attachment hardware not included.

LED Undercabinet Light (page 289)
- Low profile energy-efficient LED tasklight for use with Involve overhead storage cabinets. Attachment hardware included.
- 95 footcandles at 18"; 3500K color temperature.
- 15W power supply is attached to plug: allow 1⅞"D space at outlet. Includes 3 cord retainer clips.

Hutches (page 291)
- Units include: hinged door, sliding door, and open.
- Designed for use on top of 28"H credenzas with a worksurface of same or greater width — 35"H align with 65"H and 42½"H with 72½"H elevation.
- Laminate hutches are not recommended to be used on freestanding open gable desks.
- Laminate hutches ship fully assembled and attach to a worksurface with double sided tape.
- When ordering a two-tone hutch with a woodgrain case 66"W and wider, the woodgrain direction on the lower back runs horizontal (tackboard recommended). The upper back woodgrain runs in a vertical direction.
- 48"-72"W hinged door cabinets have 4 doors with two locks on the front of the cabinet and a center security septum, 84"W has 6 doors with three locks and two security septums.
- 48"-66"W sliding door overheads have one door with one lock. 72" and 84"W have 2 doors with two locks and two security septums. Doors can only be locked when the door is in the left-hand position.
- 35"H have 19¾" of clearance and 42½"H have 27¼".
- Specify low profile LED task lights.
- Pin-and-cam fasteners visible from the front, bottom, and behind a door are covered with cam covers.

Tackboards for Hutches (page 292)
- Use tackboards to finish the back of a hutch.
- Tackboards are recommended on woodgrain laminate hutches since woodgrain runs horizontal as opposed to vertical.
- Specify paint color for metal frame and panel fabric.
- 66"W, 72"W, and 84"W ship as two tackboards and a center splicer for routing cables.

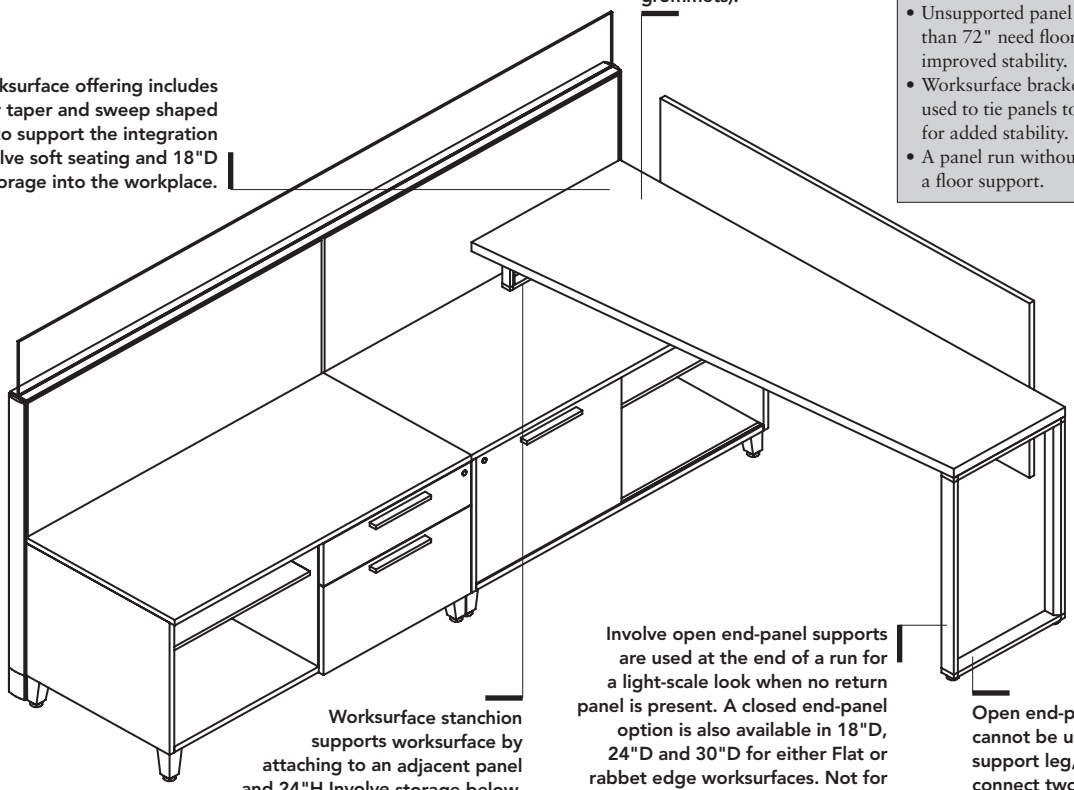
Primary Center Grommet Worksurfaces for use with Hutches (page 293)
- For use with Involve laminate hutches (72"W and 84"W) when a grommet or scallop is needed in the center of the worksurface which the hutch is sitting on.
- Rectangular only, in 72"W and 84"W — laminate with flat or rabbet edge and veneer with square or rabbet edge.
- Always includes center grommet position; left, right, or left and right additional grommet positions are optional.
- Oval plastic grommets are standard; metal grommet(s) are optional.

Involve® Worksurfaces

Reference Page

Laminate worksurfaces are 1¼" thick with particle board core and with top surfaces finished in high-pressure laminate. Bottom surfaces are covered with a backer sheet.

Support Guidelines
- Unsupported panel runs greater than 72" need floor support for improved stability.
- Worksurface bracket kit should be used to tie panels to worksurface for added stability.
- A panel run without a return needs a floor support.



Primary worksurfaces are available in 18", 24", and 30" depths. Nominal worksurface width is equal to nominal panel width. Unsupported worksurface spans of 60"W-84"W require an external worksurface support channel. It is recommended for spans 48"W-59"W. See pages 264 and 296. Support hardware is ordered separately.

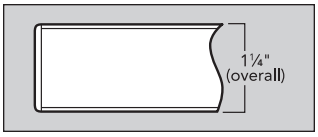
Corner worksurfaces with woodgrain laminate and veneer have grain direction diagonal to adjacent worksurfaces. One rear center support bracket is included. All other support hardware is ordered separately.

Secondary worksurfaces are available in 12", 18", and 24" depths. Support hardware is ordered separately.

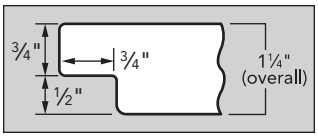
Credenza and pedestal tops are specified separately for 28"H and 42"H units to allow the spanning of multiple peds or credenzas.

Threaded-metal inserts are standard for ease of installation and a positive fit. Worksurfaces can be panel hung or used in freestanding applications.

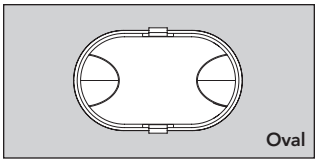
Worksurface stanchions are used to support worksurface when mounted atop a 24" high Involve credenza. Worksurface stanchions are 5¼"H and made of aluminum. They are available in depths of 12" and 18" and used to support surfaces 18", 24", and 30" deep.

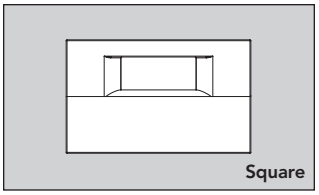


Flat Edge trim is available on laminate tops in eleven standard colors (customer specified) to match solid laminates and to complement patterned or in fourteen woodgrain edges color matched to the woodgrain laminates. Veneer worksurfaces have veneer edge.



Rabbet Edge trim is available on select laminate and veneer tops. These worksurfaces and credenza tops have rabbet edge detail on all sides.





Wire management grommets are standard in most worksurfaces and are specified in plastic or metal. **Metal grommets** are available in oval or square (shown above).

Reference Page

Primary, Linear Taper, and Sweep Worksurfaces (pages 293-294)
- Wire management grommets standard, one for widths up to 42", two on widths 48"W and greater. Add "N" suffix for no grommets.
- Worksurfaces 66" and over require a cantilever bracket for center support in panel mounted applications. Specify 18" cantilever on 24"D, and 24" cantilever on 30"D worksurfaces.
- Desking worksurfaces should be specified for spans 60" and over when worksurfaces are not panel-attached with additional support along the width. For desking applications and widths greater than 72", additional to-the-floor support is recommended.
- Laminate flat edge worksurfaces can be specified with scallop wire management detail with no upcharge by adding suffix "S" to the model number.

Primary and Sweep Desking Worksurfaces (pages 293-294)
- Ships with an external worksurface support channel which extends 1½" below the worksurface and is inset 6" from each end. Support channel is field installed to allow for larger worksurface spans and ships separately.
- Wire management grommets standard, one for widths up to 42", two on widths 48"W and greater. Add "N" suffix for no grommets.
- Laminate flat edge worksurfaces can be specified with scallop wire management detail with no upcharge by adding suffix "S" to the model number.

EZ View Transition Worksurfaces (page 293)
- Surface is non-handed, with one wire management grommet centered on the 36"D end. Add "N" suffix for no grommets.

External Worksurface Support Channel (page 296)
- Extends 1½" below the worksurface. Installs 7" from user's edge.
- Is required on a systems worksurface for additional support for spans greater than 60"; or if a full depth horizontal storage unit is installed under the worksurface.
- Required when mounting a Stride® modesty panel.
- When using Involve supports, specify a standard worksurface and an external support channel of a smaller size. The size of the external support channel will depend on the distance between supports.

Freestanding O-Leg Supports - Metal (page 296)
- Available 29½"H and 18"D, 24"D, 30"D, and 36"D. Non-handed.
- Will work on both flat- and rabbet-edge worksurfaces.
- Can be used to build a free-standing table.
- Adjustable glides have a leveling range of 2".

Panel-Mounted Brackets for O-Leg (page 296)
- Available in left- or right-handed.
- Brackets are optional and are used to tie to a Stride, Terrace, or Optimize panel.

Freestanding Closed End Panel Supports — Laminate (page 295)
- Available 29½"H and 18"D, 24"D and 30"D. Non-handed.
- Can be used to build a freestanding desk or console table if specified with a full height modesty panel. See chart on page 297.
- Can not be used with rabbet edge worksurfaces.
- Includes laminate end-panel, attaching hardware and adjustable glides.
- Adjustable glides have a leveling range of 2¾".

Panel-Mounted Closed End Panel Supports — Laminate (page 295)
- Available 29½"H and 18"D, 24"D and 30"D. Non-handed.
- Can not be used with rabbet edge worksurfaces.
- May not be used to build a freestanding table.
- Includes laminate end-panel, panel mount bracket (non-handed), attaching hardware and adjustable glides.
- Adjustable glides have a leveling range of 2¾".
- Includes hardware to convert freestanding end-panel to panel mount. 24"H or 30"H and left- or right-handed.

Storage-to-Panel Brackets (page 295)
- Used to attach the back or side of storage to a panel frame to provide stability when used with Stride, Terrace, or Optimize frames.
- Handedness is determined by side of storage that attaches to panel when facing panel run.

Post Leg (page 296)
- Used to support worksurfaces at 29½"H.
- Adjustable glides have a leveling range of 2¾".

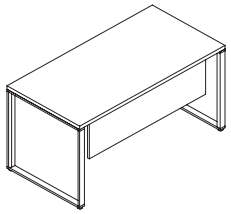
Worksurface Stanchion (page 296)
- Worksurface stanchions are 5¼"H for Involve credenza and made of aluminum.
- Used to support worksurface when mounted atop a 24"H Involve credenza. (4"H designed for 22"H Stride credenza.)
- Stanchions are field located on 24"H storage, either centered or offset 3" from edge to create additional piling space between storage and worksurface.
- Available in depths of 12" and 18". 12" is designed to work with 18"D worksurfaces and 18" with 24"D worksurfaces. Use two stanchions when mounting a 30"D or deeper worksurface. Stanchion orientation should run parallel to the length of the worksurface it is supporting.

"L" Tower Bracket (page 296)
- Used to support a worksurface at 29½"H.
- Attaches using pre-drilled holes inside the tower.
- For use with laminate and painted wood storage only.
- The depth of the worksurface and tower should be equal.

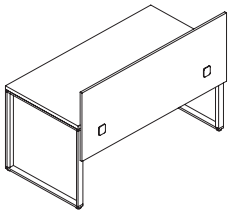
Tower Rail (page 296)
- The tower rail mounts to the user side of towers and is used to attach worksurfaces at a height range of 27½"H to 30½"H.
- Attaches using pre-drilled holes inside the Tower.
- Requires rail bracket kit for worksurface — order separately.

Reference Page

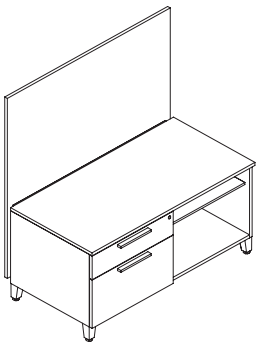
Light-scale screens provide space division. There are four options available: surface mounted modesties, privacy panels, divider panels, and taskpanels.



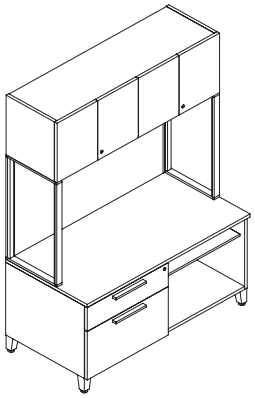
Surface mounted modesties are mounted to the underside of the desking worksurface or worksurface with external support channel. They are 11"H and available in laminate or frosted glass. Single or shared (laminate only) mounting models are available. Laminate models include a wire tray on one side of single units and on both sides of shared models. There is an optional wire tray available for glass units.



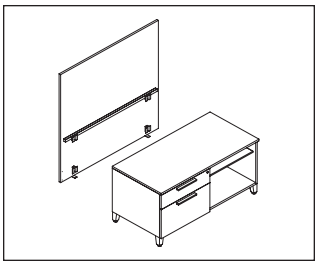
Privacy panels extend above and below the desking worksurface acting as both a screen and a modesty panel. They are 25"H and available in laminate or glass (frosted or writable). Single or shared (laminate only) mounting models are available. Laminate models include a wire tray on one side of single units and on both sides of shared models. There is an optional wire tray available for glass units.

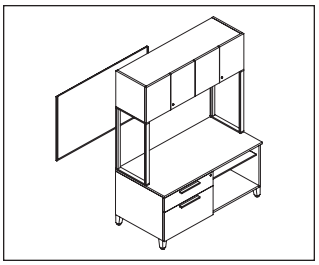


Divider panels attach to laminate back of credenza to provide space division between workstations. They are available in laminate in a 50" height.



Taskpanels mount between stanchions under overhead storage cabinets. They are available as tackable, marker board, or laminate in 12", 18", 19", 26", or 27" heights.





Specification Rules for Modesties and Privacy Panels

When mounting a modesty panel or a privacy panel use a desking worksurface or worksurface with an external support channel added. When mounting a modesty flush to the edge of a worksurface supported by O-Legs the modesty is to be 7" in from the front edge, the modesty must be 14" narrower than worksurface width.

When using a power/data module between a privacy panel and a worksurface, the privacy panel must be mounted 1" away from edge of the worksurface. Privacy panel can be mounted flush to the edge of the worksurface if power/data module is not used.

When using a power/data module with a surface mounted modesty panel, the modesty panel must be inset a minimum of 2" in from the edge of the worksurface.

Privacy panel width can be same width as worksurface. *Example:* 60"W privacy panel can be used on a 30"D x 60"W worksurface. Width of panel is undersized by ¼" providing a ⅛" gap when centered. Placement or use of a modesty must be 12" narrower than worksurface width when using Involve open and closed gable ends.

When using modesty with a Stride post leg, the width of the modesty can be the same as the worksurface, but must be mounted 8" or more in from the front edge of the worksurface.

Freestanding Table Applications:
Privacy panels require a minimum worksurface depth of 30" for freestanding applications. Surface mounted modesties can be used with any depth freestanding application.

Panel Applications:
When using a privacy panel in a back-to-back application the adjacent panel run requires an extended straight connector to compensate for depth of shared privacy panel.

Reference Page

Full-Height Modesty Panels (page 297)
- Full height modesty panels are designed to create a desk. A desk can be created with a modesty panel, worksurface, and storage or gable ends on each side — see chart on page 297.
- Available in solid and woodgrain laminate color options. Modesties 61" wide or larger are limited to solid laminate colors only.
- It is recommended to recess the modesty in from the edge of the worksurface. When using with a 24"D surface, recess modesty 6". When using a 30"D surface, recess modesty 6" or 12".
- If attaching desk to a panel on one side, use a storage-to-panel bracket kit.

Surface Mounted Modesties (page 298)
- Laminate and glass models available for single use only.
- Surface mounted modesties mount to underside of surface to provide privacy below worksurface height.
- Surface mounted modesties are 11" high and ¾" thick laminate or ⅜" thick frosted glass.
- Single modesties mount on a single worksurface with two brackets. Laminate models have a single wire tray.
- When a laminate surface mounted modesty is specified under a worksurface supported on one end with an open or closed gable end support, the width of the laminate modesty should be a minimum of 3" shorter than the worksurface.
- When a surface mounted modesty panel is installed under a table with gable end legs on both sides, the modesty must be 12" narrower than the table.
- Glass modesties must always be 12" narrower than worksurface. When mounting a glass modesty to a worksurface the modesty must be centered.
- When using a glass modesty underneath a worksurface with electrical grommet cutouts on both corners, the modesty must be inset at least 8 inches from the front edge of the worksurface.

Privacy Panels (page 299)
- Laminate and glass models available for single use only.
- Privacy panels mount to the back side of worksurface(s) and extend above and below the worksurface(s) acting as both a screen and a modesty panel.
- Privacy panels are 25"H and ¾" thick laminate or ⅜" thick glass (frosted or writable).
- Single privacy panels mount on a single worksurface with two brackets. Laminate models have a single wire tray.
- Inset mounting bracket design provides mounting room for legs or open end panel support allowing the width of laminate privacy panels to match width of worksurface.
- Glass screen do not ship with wire channel. If wire channel is needed, use Stride® desking wire channel.
- Glass privacy panels must always be 12" narrower than worksurface. When mounting a glass privacy panel to a worksurface the modesty must be centered.
- When using a worksurface with electrical grommet cutouts the corner of the mounting bracket will be slightly visible from opening of the grommet.

Divider Panels (page 299)
- Divider panels can be attached to the back of 24"H credenzas to provide space division between workstations.
- Offered in laminate in widths to attach to 30"W, 36"W, 48"W, and 60"W credenzas; and height to align with 50"H modules.
- Mounting brackets provide a 1" cord drop space between edge of worksurface and the ¾" thick divider panel.
- A cableway is provided on the inside of the divider panel to facilitate the passage of wires.
- Mounting brackets and cableway are available in black only.
- The mounting of the divider panel is designed to center the ¾" thick panel within the lateral space created by adding an extended straight connector in a panel spine.
- When specifying a divider panel to be attached to a credenza with an unfinished back, a laminate credenza back must also be specified for attachment of the divider panel brackets.
- Divider panel cannot span two credenzas side-to-side.
- Divider panels are designed to be used in single-sided application.
- Divider panel lines up with bottom of credenza case.
- Counterweight kits are still required in credenzas as rules state on page 260.

Taskpanels (page 300)
- Taskpanels are available in tackable material and attach between stanchions supporting and overhead storage cabinet.
- Taskpanels are available in 30"W, 36"W, 42"W, 48"W, 60"W, 72"W, 84"W, and 96"W. 72"W and wider consist of two panels. Nominal width of taskpanel should match width of overhead storage cabinet.
- Taskpanels are available 18"H or 26"H for use with 24"H credenzas; and 12"H, 19"H, or 27"H for use with 28"H credenzas. Nominal height of taskpanel should match stanchion height.
- Laminate and tackable taskpanels are encapsulated in a painted metal pan on sides and bottom.
- Back of unit has exposed fasteners. Aesthetic should be considered in applications where back is visible.

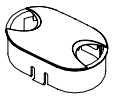
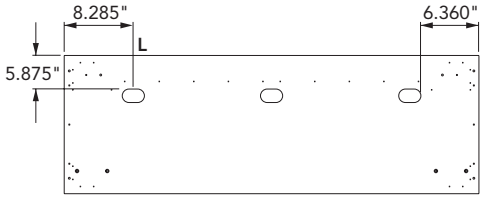
Notes: 1) Add Suffix "N" to a model number for no grommets, no upcharge. *Examples:* **K518602488N, KR518602484N**



Grommets

Plastic grommets are made of durable ABS plastic and match edge color of laminate worksurfaces. Metal grommets are available in oval or square in Matte Silver.



Rectangular Top

Grommet positions other than those shown above are considered non-standard.

***These colors are intended to be an inspirational option for the trending market. Product application is limited and color availability is approximately two years to coincide with evolving workplace trends.

Metallic paints, due to varying reflectance, may appear to have less visual color consistency than other paint finishes, even when L/A/B values are exactly the same. (L/A/B — measurable aspects of color — values are maintained within a specified range, to ensure consistent appearance of paint colors.)

All Storage

- All storage is made from ¾" thick with particleboard core with top and bottom surfaces finished in laminate. Horizontal storage sides and back are painted steel.
- Edge band is made of 1mm thick ABS plastic — flat edge trim only.
- Cam and pin construction. Storage is plinth base only unless unit is mobile.
- Available in solid and woodgrain laminates, models with doors or drawers are available with a two-tone option.
- Pull options: arch, square, linear, straight. All standard in PR6 Silver.
- Locks have a silver finish.

Horizontal Storage (pages 308-309)

- Available in open and sliding door models, as single sided or dual sided.
- Top and bottom are laminate, sides and back are painted steel.
- Beam mounting top cap must be used, length must match length of beam.
- Horizontal storage cannot be panel or wall mounted.
- Units cannot be mounted directly on worksurface, requires stanchion kit ordered separately. Kit includes stanchions and installation hardware.
- Laterally mounted storage can overhang worksurface a maximum of 12". Worksurface stanchion is flush to edge of the worksurface when storage is overhanging worksurface, and is 8½" from edge of worksurface when storage is not overhanging worksurface.
- Beam mounted lateral stanchion kit (4-pack) U7HSK2 is used for single standard mounted storage or for dual laterally mounted storage. Kit includes ganging bracket for dual mounted storage units. See illustration and matrix at left.
- Beam mounted stanchion (2-pack) U7HSB2 is used for mounting a laminate shelf to beam. See illustrations and matrix on page 305.

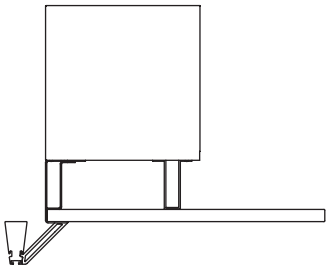
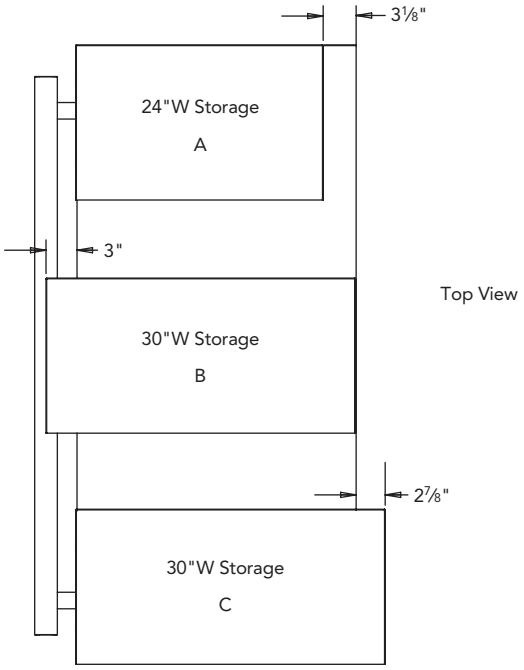
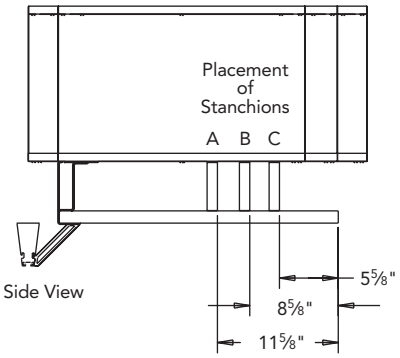
Front View



Side View



Top View



Side View

Worksurface Storage Stanchion Kit — U7HSK1 (page 308)

- Allows for use with beam mounted screens in conjunction with horizontal storage.
- Works with single sided applications such as aisle ways or up against a wall.
- Back stanchions mount to underside of worksurface — no pilot holes on surface.
- Back stanchions are made of 10 gauge steel.
- Front stanchion rests on worksurface top.
- Front stanchion is aluminum extrusion.
- Storage unit can be mounted such that back of unit is flush with back edge of worksurface or such that back of unit is centered on beam.
- When locating flush to back edge of worksurface uses pilot holes on bottom of horizontal storage to locate stanchions for proper support; no pilot holes for when mounting on beam centerline.
- Extending storage unit beyond beam centerline is not recommended — should be using standard beam mounted stanchion kit U7HSK2.
- Can be used to mount horizontal storage either parallel with beam or perpendicular to beam.
- Can be used with 7½"H or 15"H storage
  - 7½"H aligns to 13½"H Further/Stride screens/42½"H towers
  - 15"H aligns to Further/Stride 20"H screens/50"H towers
- Recommended for use only on tethered set ups.

Reference Page

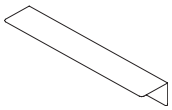
Open Support Pedestals (page 310)
- Constructed of laminate, shelves are painted steel.
- Open Support Pedestals may be used to add additional stability — see Further Stability Requirements in the Desking & Benching Price List on page 40.
- Support pedestals may be used to create freestanding desks, storage depth must match worksurface depth.
- 27"D models have a coat/bag hook located in back of unit.

Pull-Out Drawer Support Pedestal (page 310)
- Case is constructed of laminate and painted steel.
- Box and file drawers are miter fold, ½" thick particle board, polypropylene wrapped.
- Configuration is box/box/file and one shelf at top of unit.
- Shelf is not adjustable but can be removed.
- All drawers hidden behind single laminate front.
- Straight , linear, arch and square pulls available as options.
- 1⅝" leveling.
- Cannot be used as a freestanding, standalone unit.
- Outside overall dimensions: 15⅝"W and 21" or 27"D
- Box drawers extend 16" for both model depths.
- File drawers extend 16" on 21"D models and 20" on 27"D models.
- Front to back filing, standard letter size
- One lock, located in upper right hand corner of drawer front.
- Two-tone laminate option for drawer fronts
- Can be used to make a freestanding desk.

Mobile Credenza (page 310)
- Constructed of laminate, shelf is painted steel.
- Mobile credenza has a hinged door with lock, no pull.
- Front casters are locking, back casters are non-locking.

Side Access Towers (page 311)
- Top and sides are laminate, shelves are painted steel.
- Side Access Towers may be used to add additional stability — see Further Stability Requirements in the Desking & Benching Price List on page 40.
- 12" wide towers must be attached to a worksurface.
- Z6LB tower "L" bracket required when supporting a worksurface with a tower — storage depth must match worksurface depth.
- Tower drawers do not extend fully — 27"D towers have a 25"D drawer with 20" travel slides; 21"D towers have a 19"D drawer with 16" travel slides.
- 27"D models have a coat/bag hook located in back of drawer.

"L" Tower Bracket (page 311)
- Z6LB tower "L" bracket required when supporting a worksurface with a tower.
- Storage depth must match worksurface depth.



For specification information see pages 304-307.

Shaded surfaces — sides, back, and nitch septum are metal.

*** These colors are intended to be an inspirational option for the trending market. Product application is limited and color availability is approximately two years to coincide with evolving workplace trends.

Metallic paints, due to varying reflectance, may appear to have less visual color consistency than other paint finishes, even when L/A/B values are exactly the same. (L/A/B — measurable aspects of color — values are maintained within a specified range, to ensure consistent appearance of paint colors.)

***SE800 and NE800 are not available on Stride trim.

The beauty of wood is the natural variation of grain patterns and colors that make each piece unique. This variation is also influenced by lighting conditions, orientation of mated parts, and varying acceptance of the finishing process. The varying colors and physical characteristics naturally occur in all wood species but are most pronounced in lighter colored woods, and are especially evident in natural finishes.

GROMMETS ON VENEER WORKSURFACES

Wire management grommets come standard on most veneer worksurfaces. Choose between metal or plastic grommet option. Note: Plastic grommet color is predetermined based on finish selection.

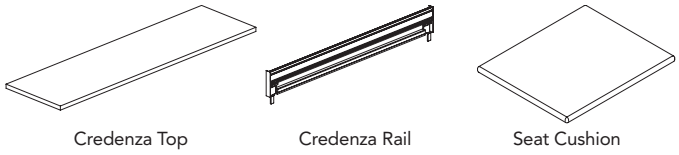
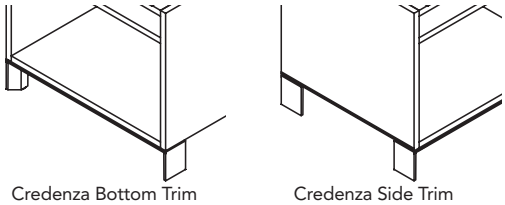
Stride® — Working with Credenzas

Reference Page



Credenza Top | Credenza Rail | Seat Cushion



Credenza Bottom Trim | Credenza Side Trim

Credenzas ship fully assembled except for the credenza top, which must be ordered separately. Credenza tops in laminate with flat/square or rabbet edge details are available in various depths.

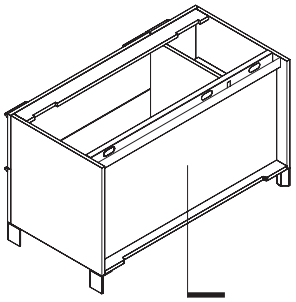
With the addition of a credenzas rail, low credenzas act as a support for height-adjustable run off worksurfaces at 1" increments from 27½"H to 30½"H. Also provides the ability to run power and to support storage.

Laminate credenza tops, a footed base, and aluminum trim along the front edge of the credenza enhance the durability of the credenza.

A relocatable seat cushion can be placed on the credenza top of a low credenza for additional seating.

Credenza bottom trim is standard on the front of all credenzas.

Optional side trim is an aesthetic piece for end of run credenzas and is ordered separately and field installed.



All credenzas have a recessed back with a cavity to support wire management. An optional metal back should be specified separately to finish the credenza in a single-sided application where the back is exposed. Finished back configurations should not utilize rail as the top cap required shows an unfinished top groove.

Relocatable wire trough provides a channel for wire management.

Each credenza ships with one front bracket that can be used to gang (multiple) credenzas in-line.

Credenza top must be ordered separately and can span multiple credenzas.

Corner credenzas with bin when housing a CPU must be used with credenza tops for wire trough or rail (not full depth) to minimize heat buildup.

Credenzas can support panels in certain applications with the addition of a credenza-to-panel bracket, see guidelines in the Frame & Tile Panel Systems Price List pages 128-129 and bracket on page 322.

Credenzas can be shipped with lock cores removed; cores can be installed after files are in place. Core removable lock feature allows key numbers to be easily changed in the field.

All credenzas feature silver linear pulls. Pulls, feet, and bottom trim are all PR6 Silver finish.

Credenzas are constructed from ¾" thick powder-coated medium density fiberboard with concealed fastener construction.

Credenza feet have sleeves to conceal the leveling glides. Leveling range is 1⅛". The hex-head design of the stem allows leveling to be done even when the credenza is fully loaded.

Credenzas ship with the feet located at the outside corners. Alternate mounting holes are provided for front feet to be inset 4" on mid-run credenzas, during installation.

22"H Low Credenzas

22"H low credenzas *are constructed of painted wood and are available with painted fronts. Low credenzas range from 24"W to 60"W x 22"H (without top; or 23½"H with top) x 18"D.*

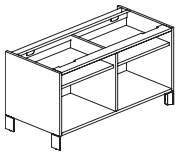
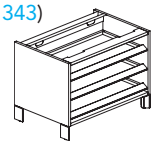
- Corner Bin#

Low Credenza — Open (page 343)



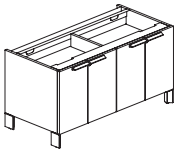
- Low open credenzas have one removable shelf.
- Bottom shelf opening is 12⅛"H and will accommodate binders.
- Top shelf opening is 3⅜"H.

Low Credenza — Open with Project Shelves (page 343)



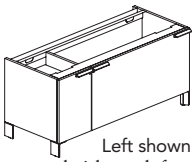
- Available in 24"-36" widths.
- Units have three pull out shelves at fixed height.
- Shelves have an opening clearance of 4½"H.

Low Credenza — Hinged Doors (pages 343)



- 24"-36"W units have two doors with one lock and one adjustable shelf.
- 42"-60"W units have four doors with two locks and a center septum, with one shelf on each side that can be adjusted in 2" increments.

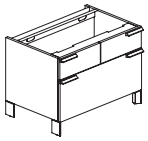
Low Credenza — Lateral File with Project Drawer # (pages 343)



Left shown

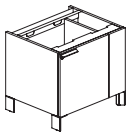
- Available in 30"-60"W.
- A 2⅞"H optional pull out project drawer is located behind the lateral file drawer front.
- When used freestanding, counterweight kit model ZD-CW must be specified.
- 30"-36"W are lateral files with one lock.
- 42-48"W is a combination unit with a lateral drawer and either a left or right 12"W hinged door with an adjustable shelf inside. Unit has two locks.
- 60"W is a combination unit with a lateral drawer and both left and right 12"W hinged doors each with an adjustable shelf. Unit has three locks.

Low Credenza — Box/Box/Lateral # (pages 343)



- 30"W box/box/lateral credenza provides a combination of personal and file storage.
- Unit has two locks.

Low Credenza — Corner with Bin # (pages 343)



Right shown

- For use under perpendicular layered worksurfaces.
- Available 24"W or 30"W and are either left or right handed with one lock.
- Handedness on corner credenzas is determined by the location of the credenza in the credenza run, considered when facing the run.
- Corner slide out bin has an open side to allow for easy side access of the stored content, and can be used for storing binders or a CPU (up to 12¼"H).
- There is venting to allow airflow, however, if a CPU is being stored in a corner credenza, a credenza top for wire trough or rail must be used to minimize heat buildup (do not use full depth credenza tops).
- All units have a side panel that provides clearance for modesty panel attachment. It is removable and can be used for cord management and power/data access.
- Side panel is 6"W on 24"W credenzas and 12"W on 30"W credenzas.

Unit may require counterweight depending on application, see chart above..

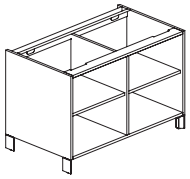
28"H High Credenzas

28"H high credenzas *are constructed of painted wood and are available with painted fronts. High Credenzas range from 24"W to 60"W x 28"H (without top; or 29½"H with top) x 24"D.*

High Credenza Configurations (page 344)

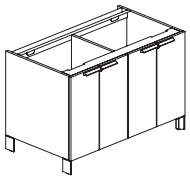
- Open
- Hinged Doors
- Lateral File#

High Credenza — Open (page 344)



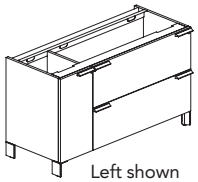
- Open credenzas have two fixed shelves.
- Bottom shelf opening is 12⅛"H and will accommodate binders.
- Top shelf opening is 9½"H.
- Open credenzas 42"W-60"W have a center septum.

High Credenza — Hinged Doors (page 344)



- 24"-36"W units have two doors with one lock and one adjustable shelf.
- 42-60"W units have four doors with two locks and a center septum, and one shelf on each side of the center septum that can be adjusted in 2" increments.

High Credenza — Lateral File (page 344)



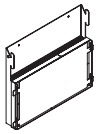
Left shown

Available in 30-60"W.

- 30-36"W are lateral files with one lock.
- 42-48"W is a combination unit with two 36"W lateral drawers and either a left or right 12"W hinged door with an adjustable shelf inside. Unit has two locks.
- 60"W is a combination unit with two 36"W lateral drawers and both left and right 12"W hinged doors each with an adjustable shelf inside. Unit has three locks.

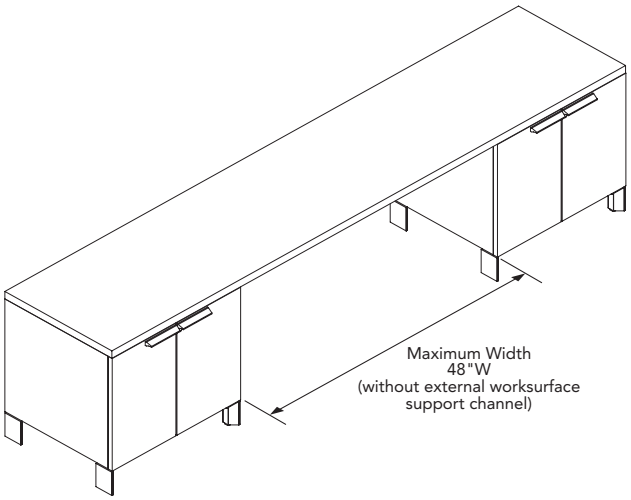
Counterweight Kits for Credenzas

Counterweight Kit (page 349)



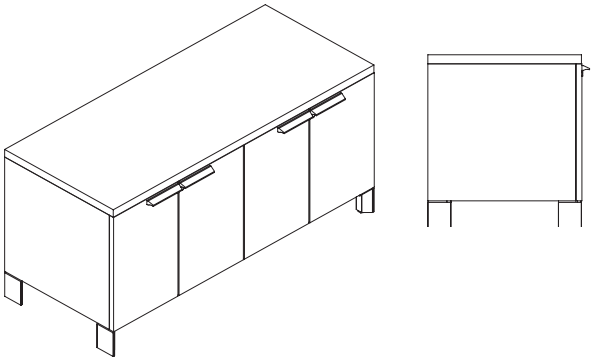
- Weight attached to the back of a credenza to inhibit tipping. Must be ordered separately and field installed.
- Counterweight kits required for freestanding low credenzas:
  Open with Project Shelves, all widths.....1 Kit
  Lateral Files, all widths.....2 Kits
  30"W Box/Box/Lateral.....1 Kit
  Corner Credenza, all widths.....1 Kit
- For every 30" of added and ganged credenzas with spanning credenza tops, one counterweight kit can be removed.
- Stability bracket model number Z6CSBK can be used in place of a counterweight kit. See page 349.

Credenza Tops:



Credenza tops are required to finish top surface of low and high credenzas.

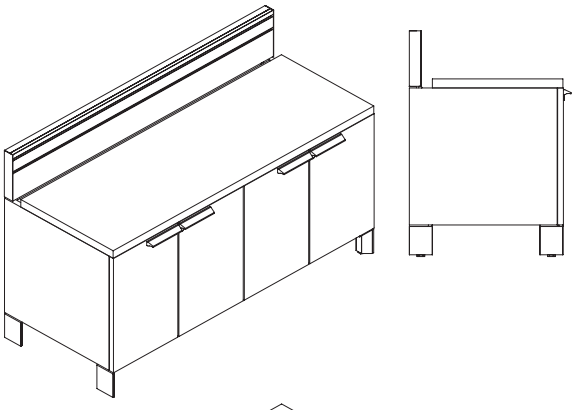
- Credenza tops are 1¼" thick.
- Three types (depths) of credenza tops:
  - Full Depth — to match depth of the credenza.
  - For Rail — 3" less than depth of the credenza, use with credenza rail.
  - For Wire Trough — 1½" less than depth of the credenza, providing access to the wire trough and a channel for wire management when credenza is used along powered panel spine.
- Tops are available in laminate or veneer and with flat/square or rabbet edge detail.
- Veneer credenza tops are by Gunlocke®. Stratawood veneer has a consistent straight-grain pattern.Natural veneer will have cathedrals and as a natural material is subject to nature's quality control with variations in grain pattern and tone.
- Credenza tops have threaded metal inserts at the ends for attachment to credenzas.
- The maximum span of credenza tops is 48". With the addition of an external worksurface support channel the maximum span for credenza tops is 72". Note: The maximum span of standard systems worksurfaces is 60". Grommets on standard systems worksurfaces will interfere with the wire trough on credenzas.



Credenza Top Configurations:

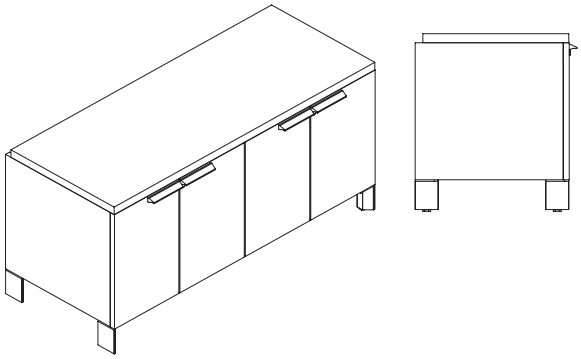
Full Depth Credenza Tops 66"W or greater (pages 346-347)

- Specify when there is no requirement for wire trough accessibility.
- 18"D Top for use on low credenzas.
- 24"D Top for use on high credenzas.



Credenza Tops for Rail (page 346)

- Provides clearance for mounting credenza rail and access to wire management trough.
- 15"D Top for use on low credenzas.
- 21"D Top for use on high credenzas.
- Veneer tops that accommodate the rail are available through the 9120 Program in the Frame & Tile Panel Systems Price List page 218.

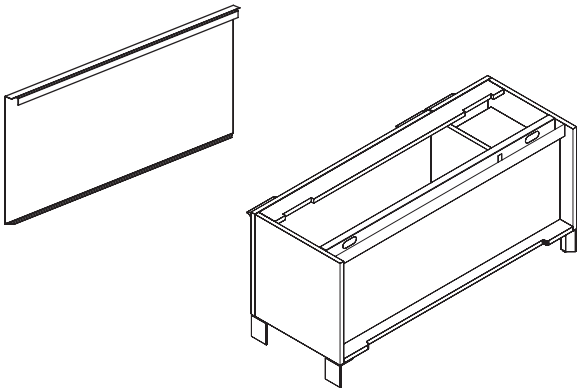


Credenza Top for Wire Trough (pages 346-347)

- Specify when using credenzas along a powered panel spine or wall if wire management capability is desired.
- 17"D (actual 16½"D) Top for use on low credenzas.
- 23"D (actual 22½"D) Top for use on high credenzas.
- Veneer tops that accommodate wire trough for high credenzas are available through the 9120 Program in the Frame & Tile Panel Systems Price List page 218.

Wood Storage

Credenza Backs



Credenza Backs (page 348)

- Metal credenza backs are optional, and should be specified in single-sided applications where the back side of the credenza will be visible and not using a rail.

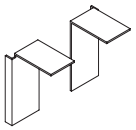
Credenza backs can be specified for:

- Low credenza with rail will show an open groove on top cap
- High credenza with rail will show an open groove on top cap
- Low credenza without credenza rail
- High credenza without credenza rail
- Credenza backs cannot be specified with credenzas outfitted with credenza tops for wire trough.
- Credenza backs should be specified to match width of each credenza in the run; backs cannot span multiple credenzas.
- When using credenza back for credenzas with credenza rail, there is an open groove on top cap.
- If working in conjunction with perch cabinet a credenza rail is required for support.

Painted Wood Credenza Accessories

Credenza to Panel Brackets (page 349)

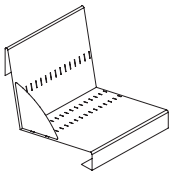
- Attaches credenza to panel run.
- Used to attach credenza to panel frame to provide stability when used with Stride panel frames.
- Handedness is determined by side of credenza that attaches to panel when facing the credenza.
- Back-to-panel bracket kits include left and right brackets.



Stability Bracket Kit (page 349)

- Can be used in place of counterweight kit if the freestanding credenza is in front of a panel and one side of the credenza is modular with the panel.

  Note: A credenza is freestanding if it is not ganged to another credenza, is not sharing a credenza top with another credenza, and not attached to a panel. See the Frame & Tile Panel Systems Price List pages 128-129 for planning guidelines.



Binder Shelf for Corner Credenzas (page 349)

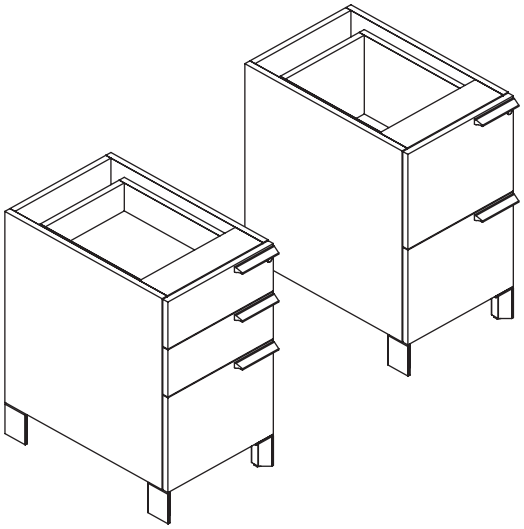
- Provides easy access and visibility for binders stored in corner bin.

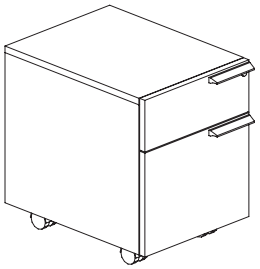
Wood Storage

Stride® — Working with Pedestals and Trim

Reference Page

Pedestals





Pedestal Configurations:

- Box/Box/File Support
- File/File Support
- Box/File Mobile
- Pedestals are constructed of ¾" thick powder-coated medium density fiberboard with concealed fasteners.
- All pedestals have asymmetric linear pulls in silver finish. Drawer fronts can be specified with painted wood. Optional seat cushion can be added.
- Pedestals have one core removable lock.

Pedestals are specified as either left- or right-hand units.

- Handedness is determined by user's side, placing the pull on the side closest to the user. Specify a left unit to be on the user's left side (linear pull will be on the right side of the unit); specify a right unit to be on the user's right side (linear pull will be on the left side of the unit).
- Pedestals come fully assembled with a top and back. Support Pedestals will have pilot holes on the top for mounting under worksurfaces.

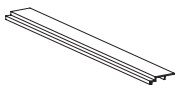
Support Pedestals (page 345)

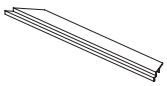
- Support pedestals are 15⅝"W x 24"D x 28"H and are for use under a worksurface or credenza top. Support pedestals have four feet with sleeves to conceal the leveling glides. Bottom trim is standard on all support pedestals.
- Optional side and back trim are aesthetic pieces and are ordered separately and field installed.

Mobile Pedestals (page 345)

- Mobile pedestals are 15⅝"W x 18"D x 20"H, 22" H with optional seat cushion. Mobile pedestals have 4 casters (2 locking). Counterweight kit is included.

Trim for Credenzas, Pedestals, and Towers





Trim for Credenzas, Pedestals, and Towers

Side Trim (page 349)

- Side trim is an optional aesthetic piece for credenzas, pedestals, and towers. Used at the end of a run to match standard front bottom trim.

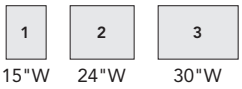
Back Trim (page 349)

- Back trim is an optional aesthetic piece for pedestals and towers. Used to match standard front bottom trim.
- Order to match the width of each component.

Wood Storage

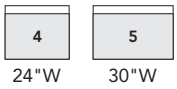
Recommended Seat Cushion Sizes for Mobile Pedestals and Low Credenzas

18"D Cushions for use with Pedestals and Full Depth Credenza Tops



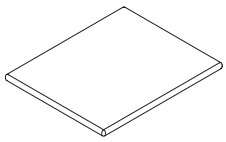
15"W Mobile Pedestal 15"W Cushion	1
24"W Credenza 24"W Cushion	2
30"W Credenza 30"/15"W Cushion	3 or 1
36"W Credenza 15"/24"W Cushion	1 or 2
42"W Credenza 24"W Cushion	2
48"W Credenza 24"W Cushion	2
60"W Credenza 30"W Cushion	3

15"D Cushions for use with Credenza Tops for Rail



24"W Credenza 24"W Cushion	4
30"W Credenza 30"W Cushion	5
36"W Credenza 24"W Cushion	4
42"W Credenza 24"W Cushion	4
48"W Credenza 24"W Cushion	4
60"W Credenza 30"W Cushion	5

Seat Cushions



Seat Cushions (page 349)

- Place on top of low credenza tops or mobile pedestal for quick and convenient additional seating.
- For use on low credenzas only.
- Seat cushion must rest on top of credenza top — order separately.
- COM yardage for seat cushion is 1 yard.

Wood Storage

Stride® — Working with Credenza Rail

Reference Page

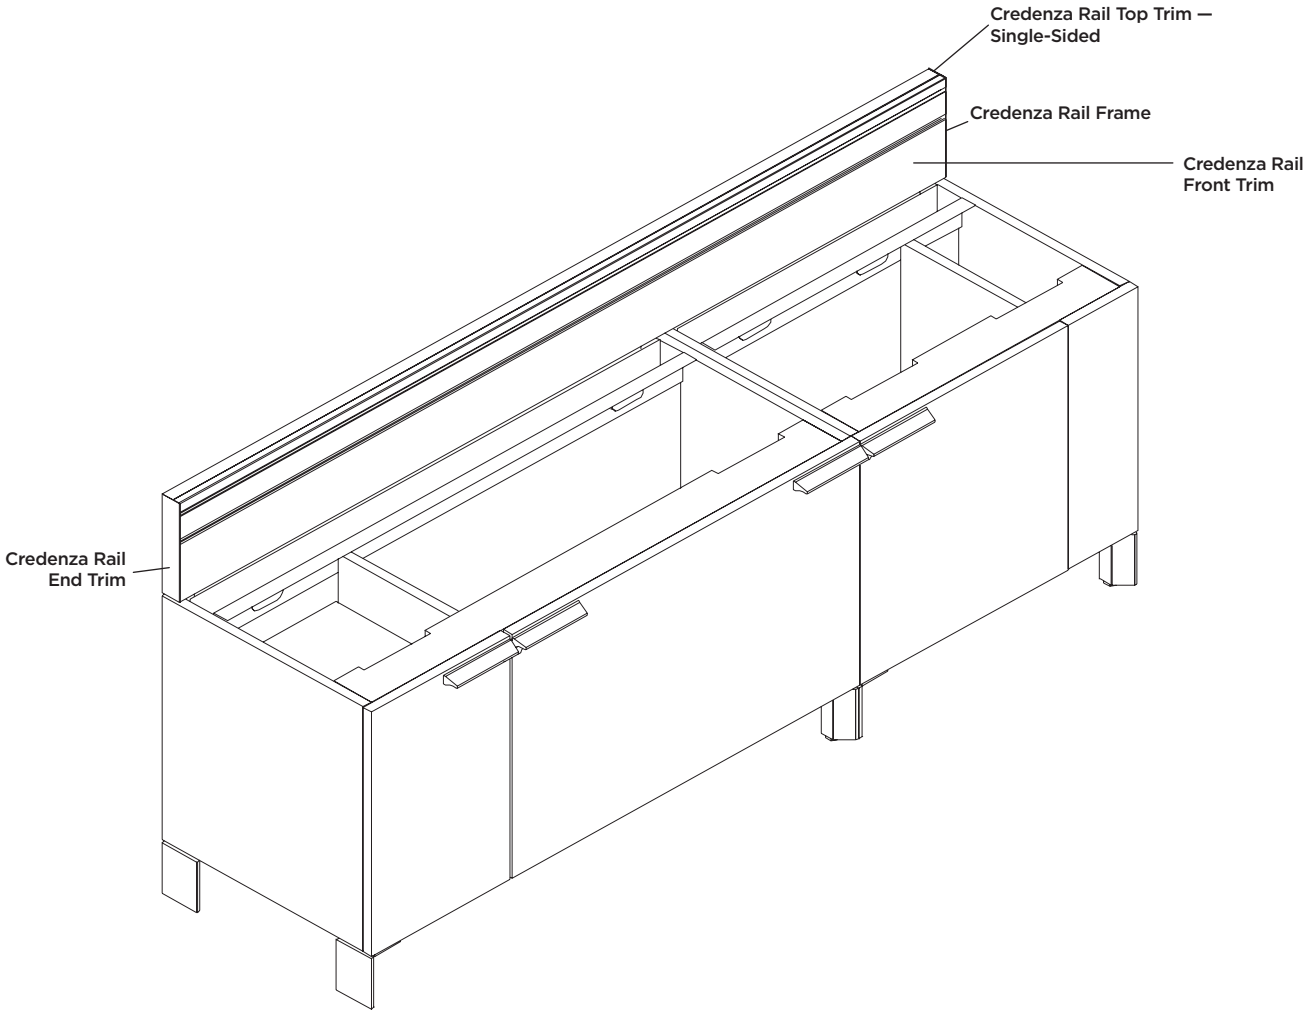
*The **credenza rail** is a single-sided 1½" thick frame that can be fitted atop credenza units.*

Credenza Rail (pages 350-351)

- Provides support for perpendicular run-off worksurfaces.
- When used on low credenzas, credenza rail supports a height adjustment range of 27½" to 30½" in 1" increments.
- Channel for power and data.
- Connection point for accessories.
- Will show groov\e on top of rail if adding a back panel.

Guidelines:

1. The credenza rail may have only one worksurface mounted to each individual rail.
2. The credenza rail can span multiple credenzas, but must stay on-module with credenzas.
3. Credenza rail must be fully supported by a run of credenzas.
4. A worksurface can be mounted off-modular along the rail at four heights — 27½"-30½"H in 1" increments.
5. All components must be specified separately.



Wood Storage

Stride® — Working with Credenza Rail

Reference Page

All credenza rail components must be ordered separately.

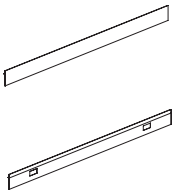
- Credenza rail frame
- Credenza rail front trim
- Credenza rail end trim
- Credenza rail bracket kit
- Credenza rail top trim

Credenza Rail Frame (page 350)

- Available 24"-96" W in 6" increments and can span multiple credenzas. Mounts atop storage credenzas — mounting hardware is included.

Credenza Rail Front Trim (page 350)

- Can be specified ported or non-ported. Ported trim has two openings positioned 6" from the edge and must match the size of the credenza.
- Openings (2.7"W x 1.377"H) must be filled with a duplex receptacle, data port or wire management grommet (TAWG) or there will be visible holes. Non-ported trim is available 24-96"W in 6" increments and can span multiple credenzas.



Credenza Rail End Trim (page 350)

- Specify in an end of run condition to finish an exposed end of the rail. End trim is not required on the end of a credenza rail when adjacent to a tower.

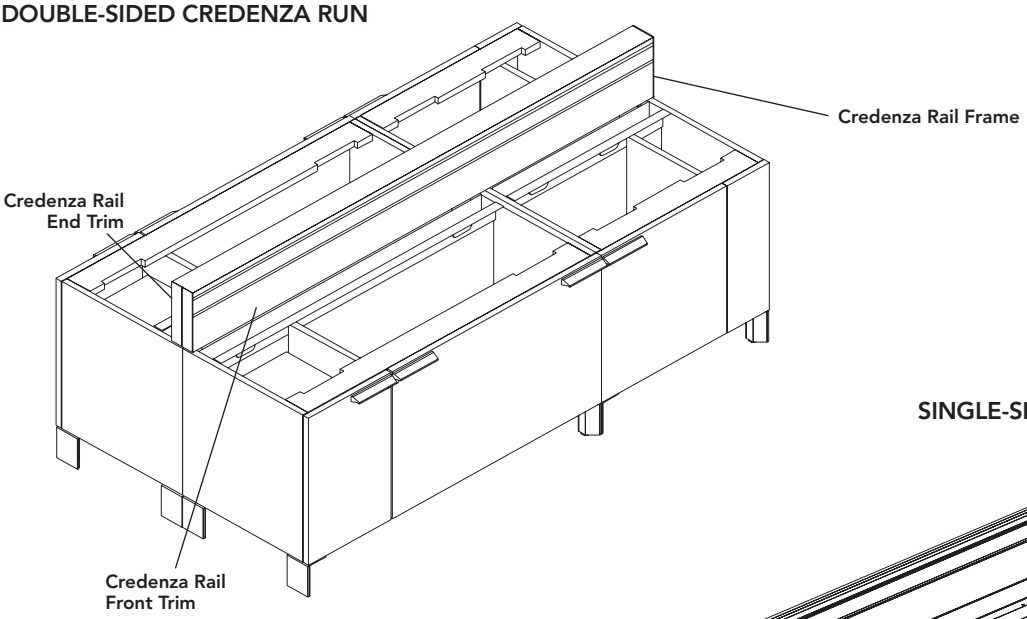
Rail Bracket Kit (page 350)

- Reversible bracket used to mount worksurface on credenza rail.
- Supports height adjustment range from 27½" to 30½".
- Includes two sets of brackets and attachment hardware.

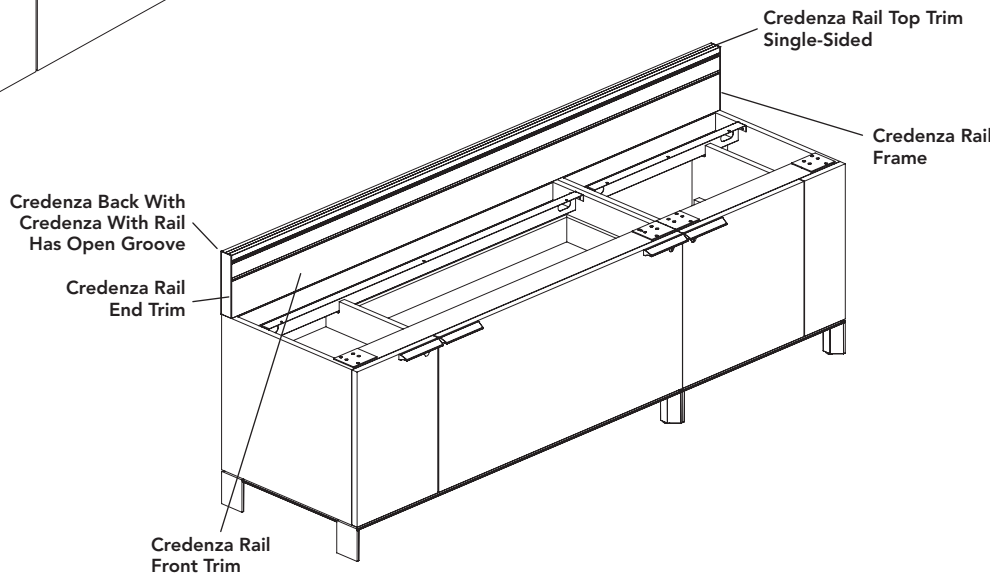
Credenza Rail Top Trim (page 351)

- Available in 24"-96"W in 6" increments and can span multiple credenzas.
- 13"H for overall height of 42½".
- Top trim may be specified off-module to the credenza rail as long as the total length equals the length of the credenza rail frame.

DOUBLE-SIDED CREDENZA RUN



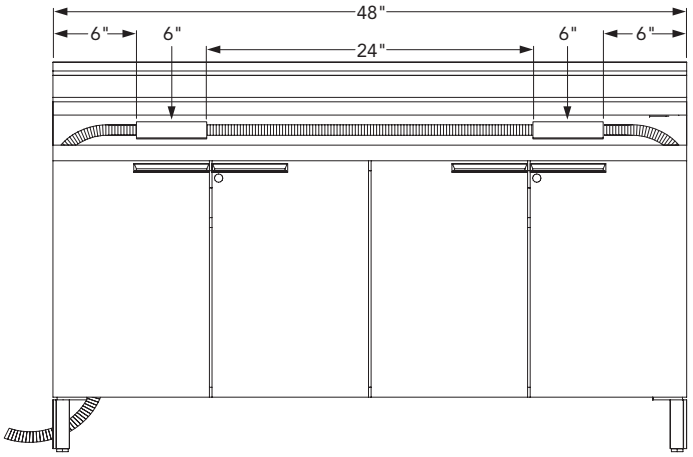
SINGLE-SIDED CREDENZA RUN



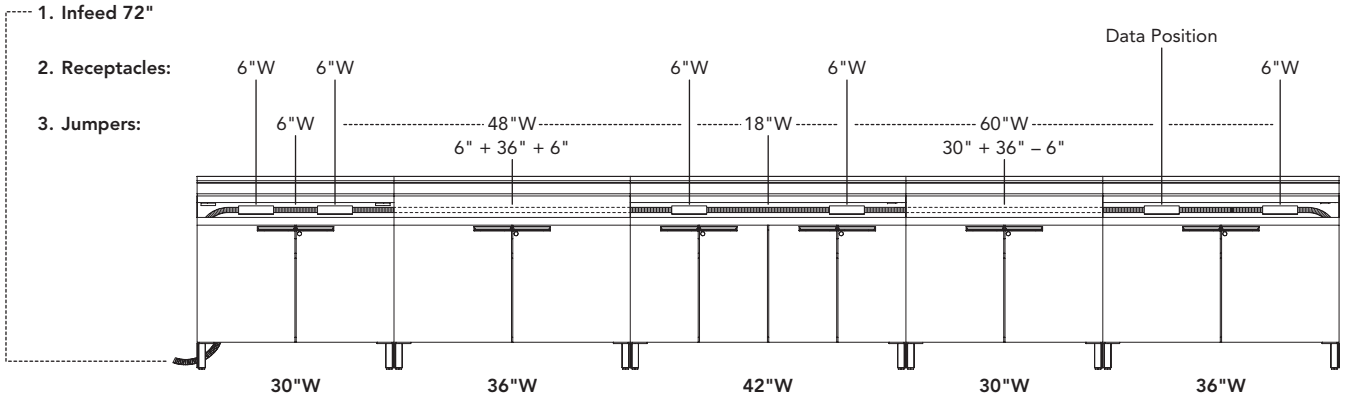
Wood Storage

Stride® — Working with 4-Wire Electrical

Reference Page

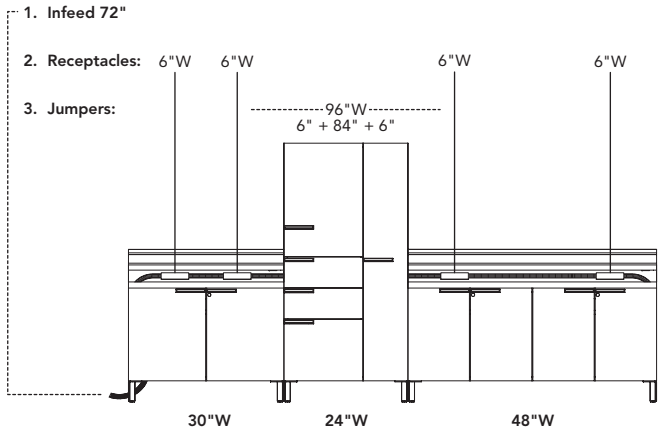


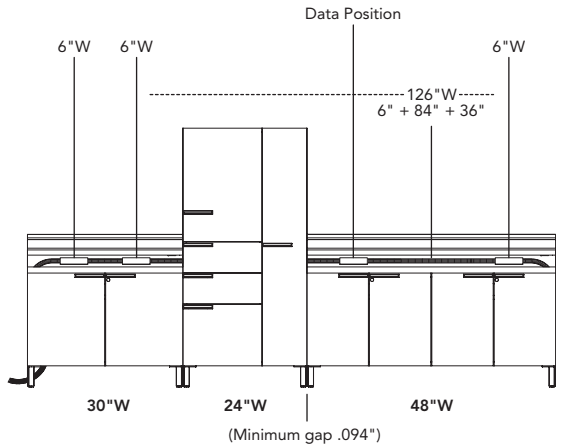
Routing Electrical: Credenzas



Jumper Situation:	Within a credenza	Spanning a credenza	Spanning a credenza with an open position for data.
Formula:	Subtract 24" from width of credenza. 30"W – 24" = 6" Jumper	Add 12" to width of spanned credenza. 36"W + 12" = 48" Jumper	Subtract 6" from total width of middle and end credenzas. (30"W + 36"W) – 6" = 60" Jumper

Routing Electrical: Credenzas with a Tower





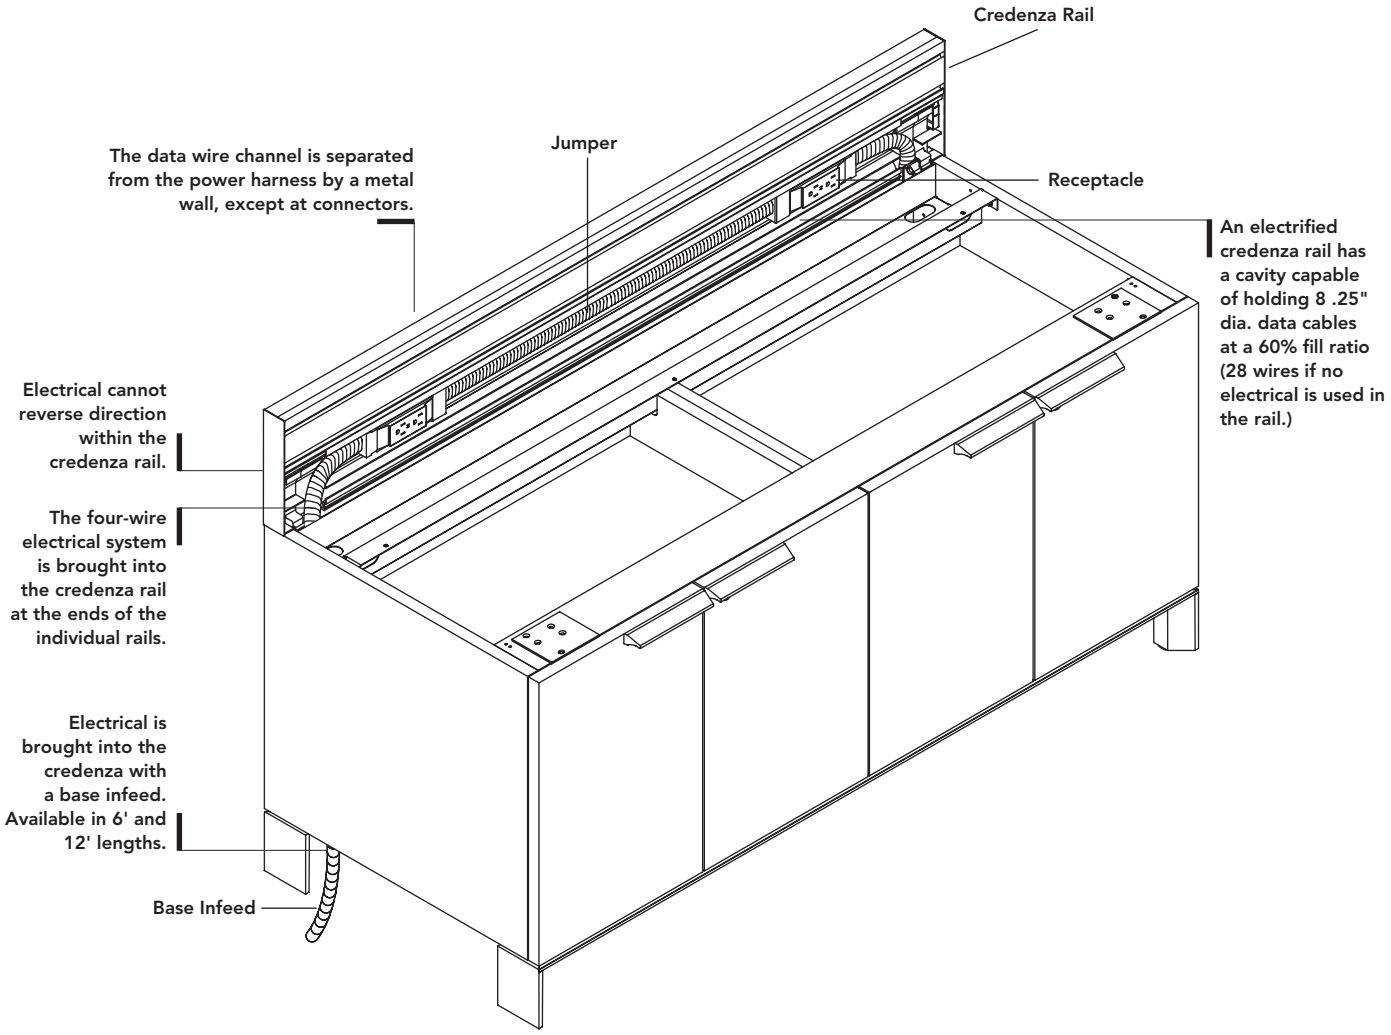
Jumper Situation:	Spanning a tower	Spanning a tower with an open position for data.
Formula:	6" + 84" + 6" = 96" Jumper	6" + 84" + 6" + 6" + 24" = 126" Jumper

Wood Storage

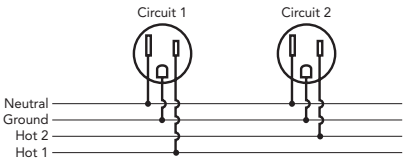
Stride® — Working with 4-Wire Electrical

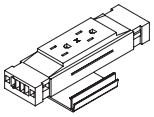
Reference Page

The 4-wire electrical system is a UL183-listed 2 circuit non-dedicated electrical system. The credenza rail supports continuous power and data distribution. With ported trim, the credenza rail provides easy access to power and data. In addition to the standard electrical components, PVC-free components are also available.



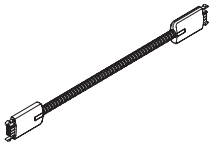
SPECIFICATION INFORMATION





Duplex Receptacle

0"W Desking Power Jumper



Desking Power Jumper

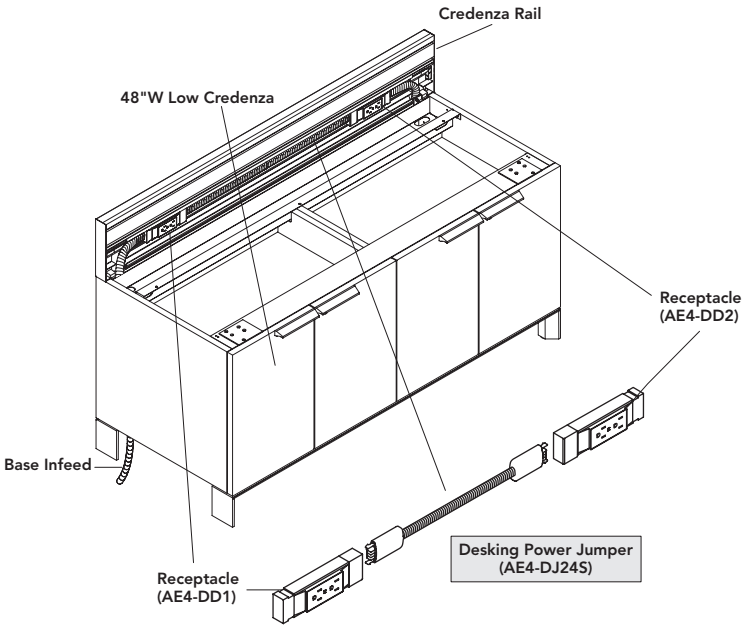
This electrical system has two hot wires, a shared neutral wire, and a shared ground wire. Each circuit is rated at 20 amps. A maximum of 13 duplex receptacles is permitted per circuit. Each receptacle is rated at 15 amps. Consult your electrician to ensure the planned electrical load is within permissible limits.

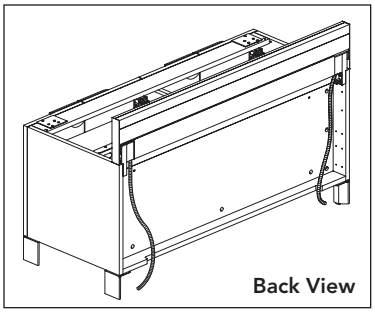
1. Determine location, quantity, and circuit number for duplex receptacles and power entry.
2. Base electrical infeed delivers power from building to system.
3. Desking power jumpers connect together duplex receptacles or groups of duplex receptacles.

It is the customer's responsibility to ensure that the installation of the electrical components meets all local and national building codes and all other applicable regulations.

Wood Storage

A. Routing Electrical: Within Credenza





Credenza Width	Jumper Size	Jumper Model

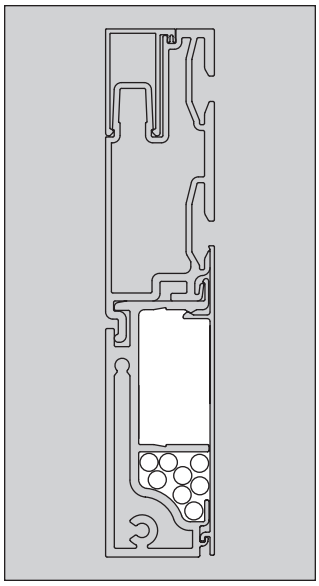
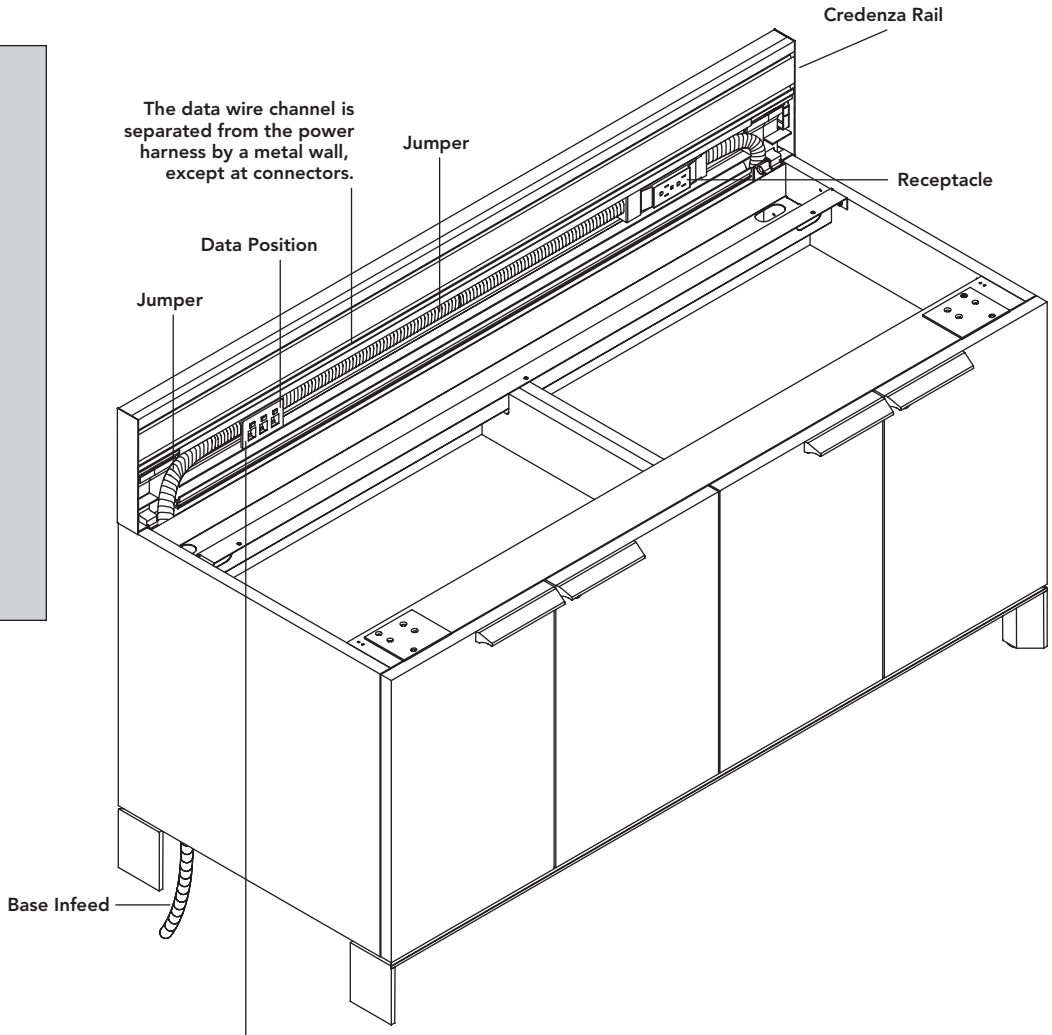
Wood Storage

An electrified credenza rail has a cavity capable of holding 8 .25" dia. cables at 60% fill ratio (28 wires if no electrical is used in the rail).

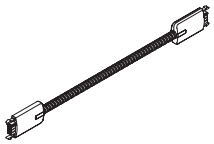




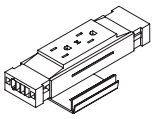
AMP data faceplates (models ATADF3 and ATADF4) and a jack (model ATADJ5) can also be used. An AMP data port extender is needed to install the data faceplate and jack in the credenza rail. The following data port extenders can be ordered from AMP: 1933468-1 (Black), 1993468-2 (Light Almond), and 1933468-4 (Nema Gray).

Reference Page

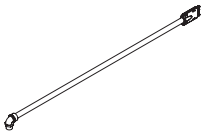
4-Wire Electrical Components for Stride Credenzas



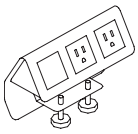
Desking Power Jumpers (page 352)
- UL-listed 4-wire electrical system.
- Ability to conceal power and data receptacles below primary worksurface.
- PVC-free electrical components available.
- Mounting brackets included.
- Cannot reverse direction within credenza rail.
- Length of 4-wire jumper needs to match distance between receptacles as there is not room to loop additional cable.



Duplex Receptacles (page 352)
- 4-wire receptacles are ordered separately for circuit 1 or 2 and are only available in ES Silver.
- 4-wire Infeed cable or jumper plug directly into each end of a 4-wire duplex receptacle.
- 4-wire receptacle adds 6" to length of electrical run.



Base Electrical Infeed Cable (page 352)
- Feed in from floor.
- UL183 listed to be exposed.
- 4-wire infeed can enter from the end of a credenza rail only.
- Credenzas ship with clips under the case for holding infeed off the floor.
- Select quantity of infeed cables depending on individual power requirements.



Worksurface Power/Data Module (page 352)
- Provides easy access to technology at primary worksurface.
- Mounts to edge of a worksurface and requires ⅜" gap. Consider whether ⅜" gap will work with layout.
- Must be mounted at time of initial worksurface installation if mounting between a worksurface and a panel. Maintaining a ⅜" gap may not be possible with worksurfaces that are panel wrapped.

Wood Storage

Configurations
Towers are available in three heights: 42½", 50", and 65"H. Configurations include box/box/file, file/file, file with project drawer. 50" and 65"H towers are available with side access and Landscape™ surface sidelight.

Combination File
Combination files are 65"H and are available either 18"D or 24"D. They can either be specified with a 2 drawer lateral or lateral with a project drawer.

Aesthetic Alignment
Drawer configuration matches across Stride painted wood storage offering and tower heights align with Stride panel segmentation. Towers feature a bottom aesthetic trim piece that provides protection for the bottom edge for the tower.

Painted Wood Construction
¾" thick powder-coated medium density fiberboard with concealed fastener construction.

Footed Base
All towers have a metal footed base with concealed leveling glides. Feet on wood storage match style of Stride footed panels.

Four Hex-head Leveling Glides
The hex-head design of the stem allows leveling to be done even when the tower is fully loaded. Range is 1⅛".

Linear Pull Style
Elegant asymmetric pull style matches across wood storage offering.

Suspension
Heavy-duty ball bearing slides.

European Hinges
Wardrobe and cabinet door both feature European-style hinged door.

Filing
File drawers can accommodate front-to-back letter filing.

Shelves
Shelves in the cabinet door are adjustable in 2" increments. Shelves in side-access towers are fixed.

Wardrobe Door
All 24"W towers have wardrobe doors. 24"D with a coat rod; 18"D with a coat hook.

Lock Cores
Towers can be shipped with lock cores removed; cores can then be installed after towers are placed. Core removable lock feature allows key numbers to be easily changed in the field. It also facilitates installation.

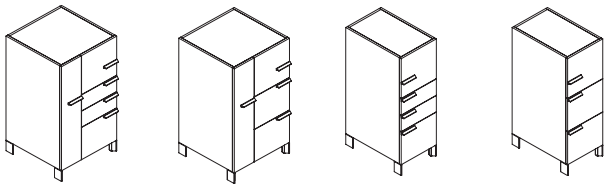
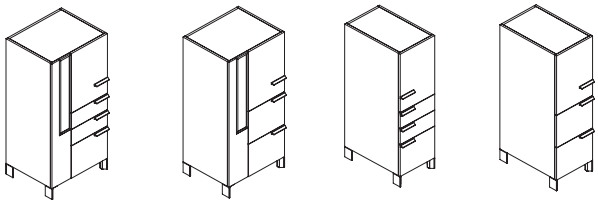
Stride® — Working w/Personal Towers/Combination Files

Reference Page

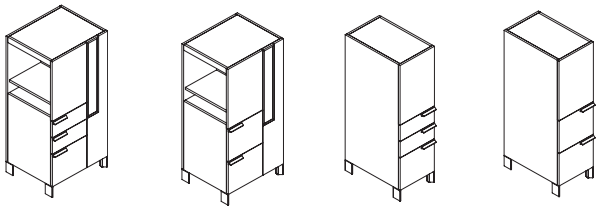
42½"H Personal Towers



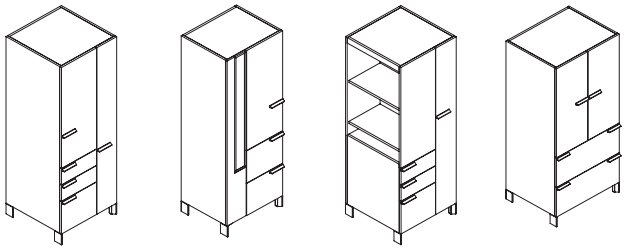
50"H Personal Towers



50"H Personal Side Access Towers



65"H Personal Towers, Side Access Towers, and Combination Files



Landscape™ Surface Sidelight
Optional Landscape surface sidelight ships installed in tower wardrobe door, available in the following materials:

- ***Foundation™***
  Fabric laminated between recyclable PETG resin sheets.
  Available in two finish options: Sand and Pure White.
- ***Quattro***
  Fabric encapsulated between recyclable PETG resin sheets.
  Available in finish option Platinum.

Painted Wood Towers and Combination Files

Personal Towers

- 18"D towers match the depth of low credenzas.
- 24"D towers match the depth of high credenzas.
- 24"W towers have a 7½"W wardrobe door. 24"D with a coat rod; 18"D with a coat hook.
- Towers feature Silver linear pulls.
- Locks — 24"W towers with sidelight, 15⅝"W towers and combination files have one lock to secure drawers. All other towers have two locks. One secures the wardrobe door and the other secures all drawers. Cabinet doors do not lock.

42½"H Personal Towers (page 353)

- 15⅝"W towers must be attached to a worksurface or a credenza top.
- Actual tower height is 37½" with a 5"H footed base. The feet are located at the outside corners of the tower.

50"H Personal Towers (page 353)

- Actual tower height is 45" with a 5"H footed base. The feet are located at the outside corners of the tower.
- 15⅝"W towers and 24"W towers with sidelight have one lock. All other 24"W towers have two independent locks.
- Back and side trim can be ordered separately to match standard front bottom trim.
- Shelves inside the cabinet door are height adjustable in 2" increments.

50"H Personal Side Access Towers (page 354)

- 15⅝"W towers must be attached to a worksurface or a credenza top.
- Actual tower height is 45" with a 5"H footed base. The feet are located at the outside corners of the tower.
- Shelves are fixed and not removable in side access personal towers.
- Back and side trim can be ordered separately to match standard front bottom trim.

65"H Personal Towers (page 355)

- Actual tower height is 60" with a 5"H footed base. The feet are located at the outside corners of the tower.
- 24"W towers with sidelight have one lock. All other 24"W towers have two independent locks.
- Back and side trim can be ordered separately to match standard front bottom trim.
- Cabinet door on 65"H towers has two shelves, adjustable in 2" increments.

65"H Personal Side Access Towers (page 355)

- Actual tower height is 60" with a 5"H footed base. The feet are located at the outside corners of the tower.
- Shelves are fixed and not removable in side access towers.
- Back and side trim can be ordered separately to match standard front bottom trim.

65"H Combination Files (page 356)

- 18"D combination files match the depth of low credenzas.
- 24"D combination files match the depth of high credenzas.
- Combination files feature Silver linear pulls.
- Actual combination file height is 60" with a 5"H footed base. The feet are located at the outside corners of the combination file.
- Each combination file has two shelves, adjustable in 2" increments.
- Combination files have one lock.

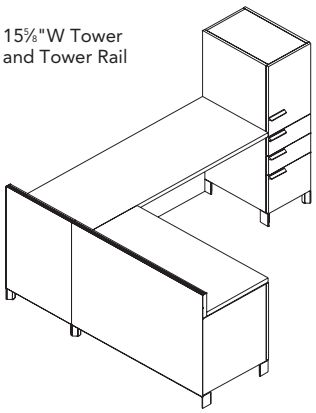
Painted Wood Towers and Combination File Accessories

Worksurface Supports
Tower has pre-drilled pilot holes on pull side of cabinet to accommodate addition of the "L" tower bracket and tower rail.

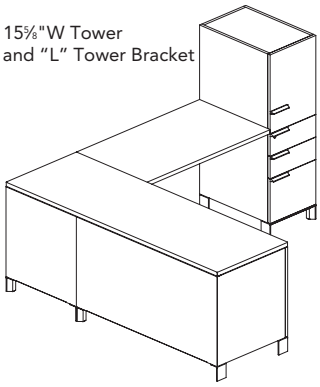
Tower Rail - A tower rail can be ordered separately and fitted to any tower to support worksurfaces at a height range of 27½"H to 30½"H.

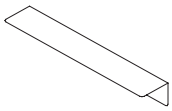
15⅝"W Tower
and Tower Rail

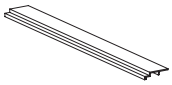


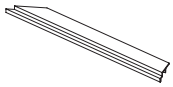
"L" Tower Bracket - An "L" tower bracket can be ordered separately and fitted to any tower to support worksurfaces at 29½"H.

15⅝"W Tower
and "L" Tower Bracket









Tower Rail (page 357)
- The tower rail mounts to the user side of personal towers and is used to attach worksurfaces at a height range of 27½"H to 30½"H.
- Attaches using pre-drilled holes inside the tower.
- Requires rail bracket kit for worksurface — order separately.

Rail Bracket Kit for Worksurface (page 357)
- Engages into tower rail and is used to attach worksurfaces at height range of 27½"H to 30½"H.

"L" Tower Bracket (page 357)
- Used to support a worksurface at 29½"H.
- Attaches using pre-drilled holes inside the tower.
- Can be attached to 18"D or 24"D towers.
- When using the "L" tower bracket, the depth of the worksurface and tower should be equal.
  18"D worksurface — 18"D tower
  24"D worksurface — 24"D tower
- "L" tower bracket is for use with laminate and painted wood storage only.

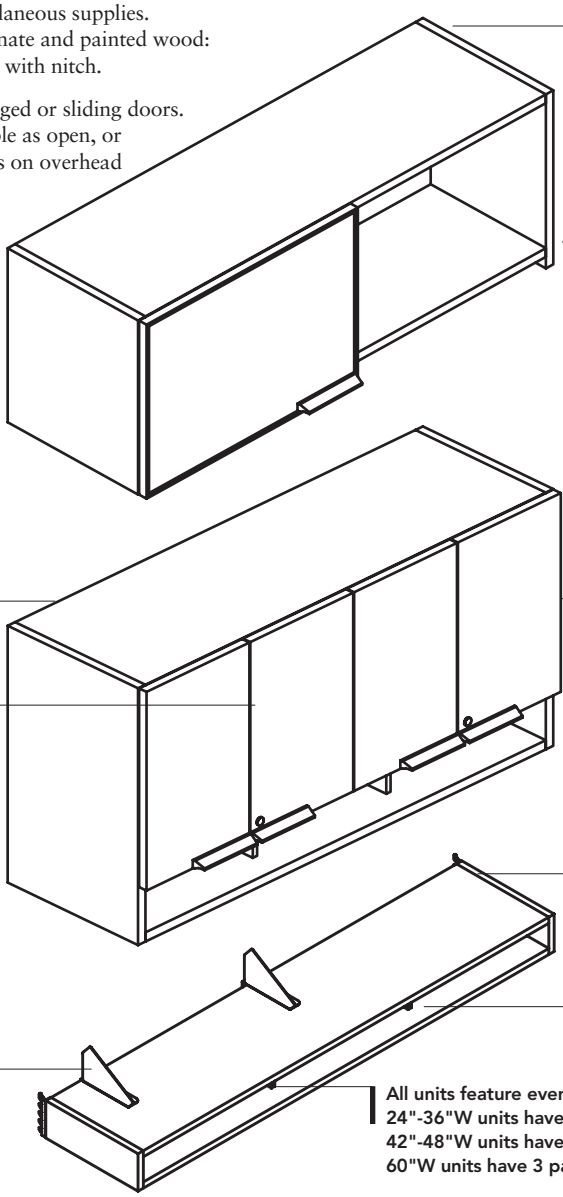
Side Trim for Credenzas, Pedestals, and Towers (page 357)
- Side trim is an optional aesthetic piece for credenzas, pedestals, and towers. Used at the end of a run to match standard front bottom trim.

Back Trim for Pedestals and Towers (page 357)
- Back trim is an optional aesthetic piece for pedestals and towers used to match standard front bottom trim.
- Order to match with each individual component.

Wood Storage

Overhead storage components maximize the use of space in the workstation and also provide convenient access to binders, reference materials, software packages, and miscellaneous supplies. There are three options available in laminate and painted wood: overhead, overhead with nitch, and shelf with nitch.

Overhead cabinets are available with hinged or sliding doors. Overhead cabinets with nitch are available as open, or with hinged or sliding doors. Door fronts on overhead storage are available in painted wood.



Overhead storage cabinets can be positioned vertically in 1" increments.

When panel mounting, width of overhead must correspond to width of panel or panels joined without a connector.

Cabinets can be panel-mounted or wall-mounted with horizontal wall mount brackets but cannot be upmounted.

Fully enclosed backs on all units

When panel-mounted, overhead storage cabinets can be positioned vertically in 1" increments.

Core removable locks allow ability to key alike. Omit lock core option available.

Locking Clip feature secures storage cabinets to panel.

Shelf with nitch can be panel or wall-mounted. Wall mounting requires 16"W wall studs.

3⅞"H opening to provide paper management organization.

Two infinitely adjustable dividers allow user to determine configuration.

All units feature evenly spaced partitions.
24"-36"W units have 1 partition;
42"-48"W units have 2 partitions;
60"W units have 3 partitions.

Width 24", 30", 36", 42", 48", 60"
Inside width 22⅜", 28⅜", 34⅜", 40⅜", 46⅜", 58⅜"
Depth 14"
Inside depth 11¾"
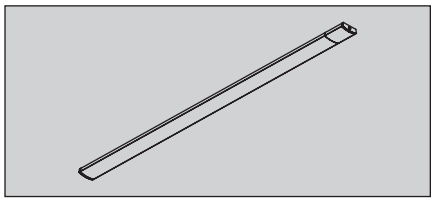
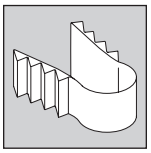
Height 19⅝"
Inside height 13½"
Cabinet Inside height 13⅞"
Nitch Inside height 3⅞"

LED undercabinet light can be mounted beneath laminate or painted wood overhead cabinets for a low profile lighting option. (Do not use recessed tasklights with painted wood storage.)

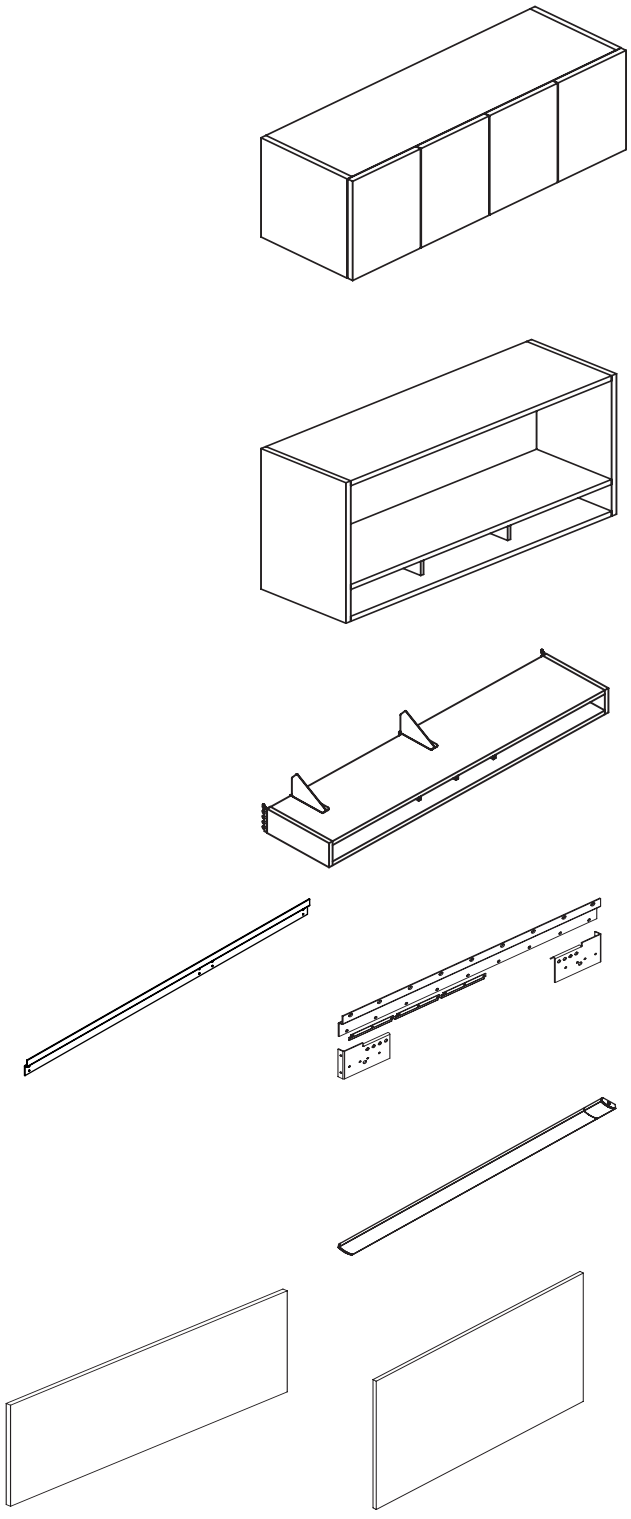


Cord retainer clips fasten into panel slots to anchor power cords. Available in black only. Three clips ship with each LED undercabinet light.



Wood Storage

Reference Page



Painted Wood Overheads

Overhead Cabinets (pages 358-360)
- 24"-36"W hinged door cabinets have 2 doors with one lock on the front of the cabinet; 42"-60"W have 4 doors with 2 independent locks on the front of cabinet.
- Overhead cabinets have Silver linear pulls.
- 42"W-60"W overhead cabinets have a center security septum.
- Sliding door overheads have one door with one lock that can only be locked when the door is in the left-hand position.
- Overhead cabinets feature self-engaging safety latch to secure the cabinet to panel.
- Specify low profile LED tasklights.
- Width can correspond with the width of a panel or panel joined without a connector.
- Attachment hardware included for panel-mounting. Cannot be upmounted.
- Order horizontal wall-mount brackets separately. Add for wall-mounted application.
- For locking specification see pages 384-386.
- Overhead cabinets with nitch feature a paper management shelf with a 3⅞"H opening.

Shelf with Nitch (page 358)
- Painted wood.
- Paper management shelf with a 3½"H opening.
- Ships with attachment hardware for panel-mounting applications.
- Order horizontal wall-mount brackets separately. Add for wall-mounted application, requires 16"W wall studs..
- Shelf with nitch has two metal shelf dividers on top that are infinitely adjustable and removable.

Horizontal Wall-Mount Brackets (page 360)
- Use to attach an overhead directly to wall.
- Attachment hardware not included.

Undercabinet LED Light (page 360)
- Low profile energy-efficient LED tasklight for use with overhead storage cabinets.
- 15W power supply (0.125 amp).
- 3500K color temperature.
- 95 footcandles at 18".
- Magnetic or screw-mount option — attachment hardware included.
- Power drive is attached to plug: allow 1⅞"D space at outlet.
- Includes 3 cord retainer clips.
- For daisy chain capabilities and additional information see page 375.

Tackboards (page 360)
- 15"H tackboards are designed to work with overheads with nitch.
- 20"H tackboards are designed to work with overheads without nitch.
- Wall-mounted tackboards come with brackets to mount to wall. Does not require wall track.

Wood Storage

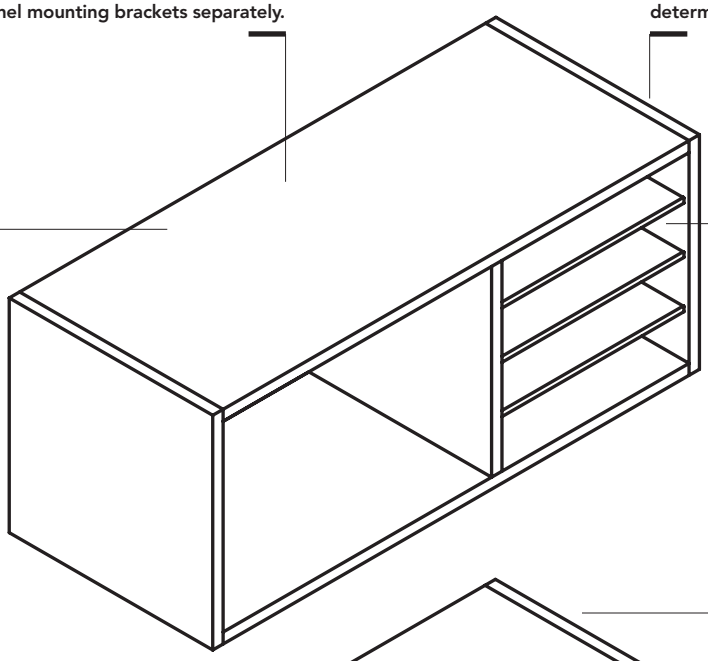
Stride® — Working with Horizontal Storage

Reference Page

Full-depth horizontal storage can be panel-mounted or hung below the worksurface. Worksurface attachment hardware included. Specify panel mounting brackets separately.

24"W and 36"W units are available left- or right-handed. The side with shelves determines the handedness.

When panel-mounting cabinet must be same width as panel, or panels joined without a connector.

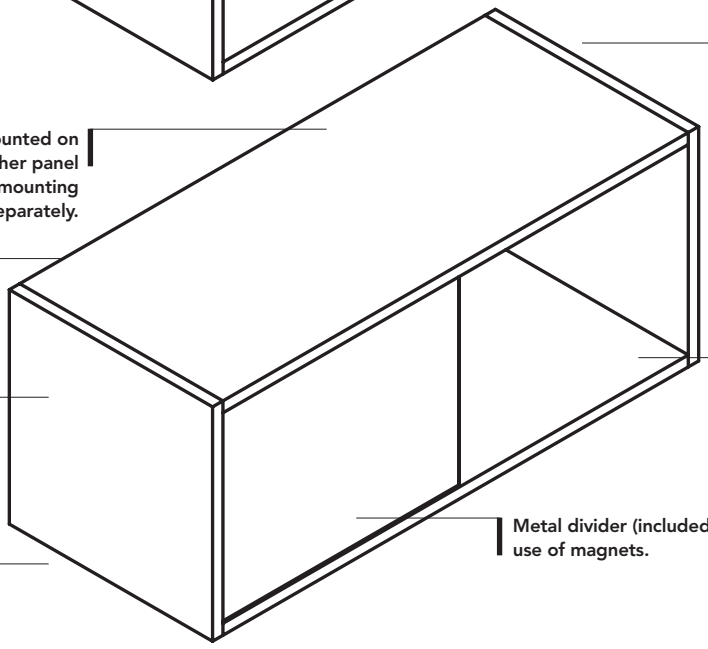


Cabinet is open with removable shelves. 24"W and 36"W cabinets have three shelves and must be specified left or right handed; 30"W cabinets have three shelves that can be positioned on either side; 42"W, 48"W, and 60"W units have six shelves, three on each side.

Shared cabinet splits access between the front and back.

Shared horizontal storage can be mounted on a panel or credenza rail. Specify either panel mounting bracket or credenza rail mounting bracket kits separately.

When mounting on credenza rail, must be mounted on two back-to-back rails.



When panel-mounting, cabinet must be same width as panel, or panels joined without a connector.

Available left or right handed. The open side of the cabinet determines the handedness.

Metal divider (included) allows use of magnets.

When mounted on credenza rail the cabinet can be mounted on or off-module.

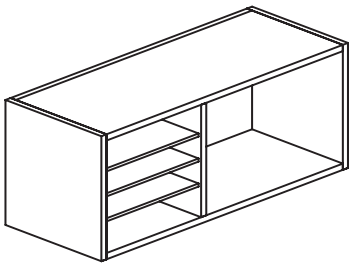
Wood Storage

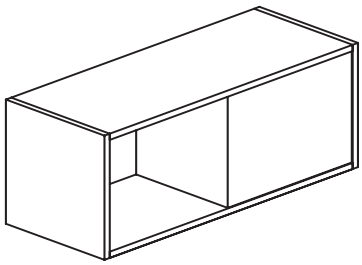
Reference Page

Painted Wood Horizontal Storage & Perch Cabinets



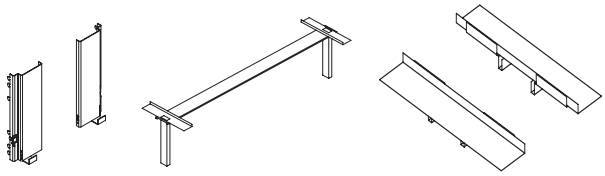
Full Depth Horizontal Storage (page 361)

- Can be panel-mounted with panel mounting kit ZHFPMK specified separately. The width of the unit must match the width of the panels.
- If horizontal storage is mounted under a panel-mounted worksurface, it must be undersized to accommodate supports.
- With overhead storage, floor support is needed within 24" of each side of the horizontal storage cabinet.
- Horizontal storage can be supported using a floor support when overhead storage is not being utilized. The floor support needs to be within 24" of the unit on one side and a cantilever on the opposite side. The cantilever must be within 6" of the horizontal storage, and no more than 48" from the floor support.
- If a 9120 worksurface is used it must have an external worksurface support channel installed and must be a minimum of 24"D to provide clearance for mounting hardware. For worksurfaces less than 24"D a special worksurface with an internal stiffener must be ordered.
- Hardware for wall-mounting is not included.
- Removable shelves included.
- 24"W-36"W units have 3 metal shelves. 42"W-60"W units have a total of six shelves (three on each side.)



Shared Horizontal Storage (page 361)

- Can be mounted atop panels or credenza rails. When mounting on credenza rails, it must be mounted on two back-to-back credenza rails. Mounting hardware ordered separately.
- For panel mounting specify panel mounting kit model ZHSPMKXX.
- For rail mounting specify model ZHSRMK.
- Splits the access between front and back.
- Includes a metal divider which provides a magnetic surface.
- Metal divider can be specified in markerboard paint MKP.
- When panel-mounting, width of unit must match width of panel.
- Cannot be mounted on panels taller than 50".



Horizontal Storage Mounting Kits (page 361)

- Unique mounting kits for: full depth horizontal, shared horizontal based on panel width, and credenza rail mount

Stride® — Working with Perch Cabinets

Reference Page

Perch Cabinets (page 362)

- Perch cabinets are attached to the credenza rail.
- Ships with rail attachment bracket and two vertical uprights that rest on on the credenza top.
- Painted wood perch cabinets feature Silver linear pulls.
- The back of the perch cabinet is flush with the back of the credenza rail.
- The credenza rail must have a top trim piece installed where the perch cabinet is installed.
- All perch cabinets are non-locking.

S *Shippable by small-package carrier.*

- 2- and 3-Bay credenzas ship fully assembled.
- Available in solid and woodgrain laminate colors. You can select one laminate for the case and a second laminate for the front doors and back panels. Credenza top including front edge is the same color as the case.
- Painted mesh in Designer White, Flint, or Silver at top and bottom of the front and back sides of unit provides passive ventilation.
- Edge guards on mesh and wire manager protects cords and fingers.
- Grommet models feature square Silver metal grommet.
- Six leveling glides on 72"W, four glides on 48"W. Leveling range is 1".
- Credenzas are constructed from ¾" thick high-pressure laminated particleboard with 1 mm edge banding and European cam-and-pin construction.
- Units are shipped with either lock cores removed or as non-locking. Core removable lock option allows key numbers to be easily changed in the field. Cores available on page 54. Note: Middle cabinet on 3-Bay units do not lock.
- Shelves are painted metal. Base shelves are secured, except center shelf in 72"W credenza.
- Interior bay dimensions are 22"W x 28⅛"H x 22⅜"D. Secured bottom shelves are 19"D to account for ventilation and wire management. Rated for 50 lbs.
- Removable back(s) snap on for easy component installation.
- Bottom wire management channel runs entire width of credenza.
- Optional top hung drawers (8½"H) use full extension slides; limit of one drawer per bay. Drawers cannot be used in same bay with AV rack, waste pullout, and will limit size of refrigerator.
- Slide out A/V storage rack features EIA spacing with twelve usable rack spaces.
- Units ship with one adjustable shelf per bay. Shelves are adjustable in 6" increments.
- Additional metal shelves are field-installed using supplied template, maximum of three per bay.

- 2- and 3-Bay credenzas ship fully assembled.
- Available in solid and woodgrain laminate colors. You can select one laminate for the case and back, and a second laminate for the front doors. Credenza top including front edge is the same color as the case.
- Painted mesh in Designer White, Flint, or Silver at bottom of the front side of unit matches buffet credenza.
- **Waste bins and inserts are not included** with Recycle Credenzas. Recommend 25 gallon waste bins 16¼" x 16¼" x 27"H by Tough Guy, Rubbermaid, Continental, or Safco. Order inserts separately.
- Credenzas are constructed from ¾" thick high-pressure laminated particleboard with 1 mm edge banding and European cam-and-pin construction.
- Front plates and optional inserts are metal.
- Septums in 3-Bay units provide separation and support.
- Units come with 3 of each label with 57"W units; and 2 of each label with 36"W units. Silver and white units come with Black labels; Flint comes with White labels.
- Back is inset ⅞" for easy handling and flush fit against wall.
- Leveling glide range is 1".

Extensions™

Extensions — Introduction

Extensions accessory line by Allsteel is designed to help you create your own space.

- **Create a unique space**

  Each person is unique, no one person works exactly like another, and different tasks require different tools. Extensions work tools allow each person the ability to create a unique environment that is all their own. Lots of paper to manage? Need active files within arm's reach? Want to maximize your worksurface space? Need light somewhere other than below a cabinet? Whatever the task, we have the tools to accommodate your workstyle.

- **Create a comfortable space**

  With a full line of organization, ergonomic, and illumination tools, Extensions allow you to create a comfortable, ergonomic work area. Organization tools keep important items visible and within your reach. Ergonomic tools help you stay comfortable while working. Illumination tools allow you to put your light where it suits you.

- **Create an organized space**

  Tired of all the piles of paper building up on your worksurface? Organization tools house your materials and keep them in an orderly fashion. With a combination of hanging or freestanding organizational accessories, Extensions let you manage everything from binders to paper clips.

- **Organization tools**

  Work tools are a durable metal construction. Extensions allow you to manage your workspace smartly with tools like the phone caddy to elevate the phone off the worksurface, landscaped mail box trays to minimize worksurface intrusion, folder holders and tool box pencil holders that hang off the slat rail and each other.

  Increase your efficiency with organization!

- **Ergonomic tools**

  Ergonomics is more than just comfort, it's flexibility and safety. The adjustable keyboard options allow users to maintain and vary comfortable wrist and arm positions throughout the day, whether typing or mousing. Monitor Arms offer versatile adjustability while providing optimum comfort for the eyes, neck, and shoulders.

- **Illumination tools**

  Sleek and flexible, our lighting components offer you several choices. Recessed task lights conserve space and feature electronic ballast for longer bulb life and cooler operating temperature. LED tasklights' slim design blends in with its surrounding while utilizing energy-efficient LED technology. The Link light offers award-winning style to a highly versatile and energy efficient light.

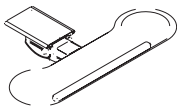
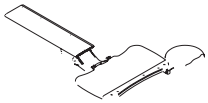
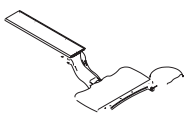
AKTSHORT Keyboard Support (page 368)



- Lift and lock intuitive height adjustment.
- Compatible with Altitude Height Adjustable Tables
- Positive and negative tilt for best ergonomic positioning.
- +10°/-20° tile adjustment and 360° rotation provides support of neutral position of shoulders, arms and wrists while accommodating multiple working postures.
- Surpasses ANSI/BIFMA standards.
- Black powder coat finish.
- Patented secondary slide and unique arm design provide minimal footprint.

AKTMID and AKTLONG Keyboard Support (page 368)





- Lift and lock intuitive height adjustment.
- Positive and negative tilt for the best ergonomic positioning.
- +10°/-20° tilt adjustment and 360° rotation provides support of neutral position of shoulders, arms, and wrists while accommodating multiple working postures.
- Non-handed mouse tray can be moved from right hand to left hand side.
- Surpasses ANSI/BIFMA standards.
- Black powder-coat finish.

Keyboard Spacer Kit (page 368)

- Keyboard Spacer Kit required for mounting under Altitude worksurfaces.
- Kit provides ten spacers and hardware for mounting keyboard supports beneath an external worksurface support channel.
- Spacers are 2⅛"H providing more room beneath surface for mounting.

CPU Hammock (page 368)

- Features 360-degree swivel with an 11" track.
- Load capacity is 75 lbs.
- CPU must be minimum of 3¼"W with maximum dimension of 64" in perimeter.
- Handy adjustment tool stores within unit.
- Safety feature prevents accidental release of straps and straps can be adjusted while CPU is installed.
- Can be used on Height Adjustable Tables as long as it is attached with spacer model AKMH. Take into account required leg room for users.

For specification information see page 367.

Reference Page

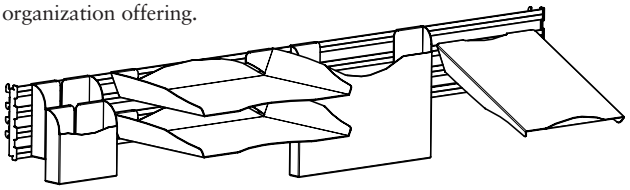
Allsteel's tool rail works in conjunction with a variety of accessories. Modular accessories free up worksurface space and provide orderly storage that is well within reach. Units can be arranged and rearranged to respond to changing workflow. The work tools that attach to the tool rail are:

- Mail Box
- Folder Holder
- Phone Caddy
- Binder Bin
- Tool Box
- Clip Caddy™
- Sidebar™ Personal Shelf
- Paper Wave™
- Gripper Clip

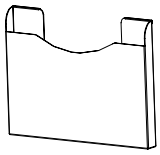
Additional accessories that work with the **tool rail work tools** aesthetically are:

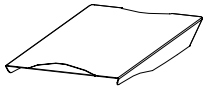
- Bookends
- Freestanding Mail Box

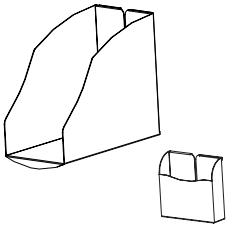
Coat hooks, marker boards and center drawers round out the organization offering.

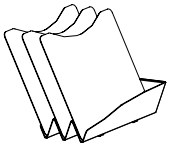


Tool rail, shown above, is height-adjustable in 1" increments using slots in panels or metal hutch. Tool rail shown with two tool boxes, two mail boxes, folder holder, and phone caddy. Folder holders and binder bins extend below a tool rail. Paper Wave and contents extend above a tool rail.









Tool Rails and Work Tools (page 372)
- Sturdy aluminum extrusion with steel support construction.
- Powder coated for durable finish.
- Use to hang Extensions tools. Cannot be used to support monitor arms.
- Suggested weight capacity not to exceed 80 lbs.
- Consideration needs to be given to height of tools and location of worksurfaces.
- For use with Stride®, Terrace®, Concensys®, and Optimize™ systems.
- 5" high rail (widths coordinate with panels).
- Attachment via vertical reveals.
- Can be hung from wall track. Good solution for above copiers.
- Systems tool rail is off-modular — can be used on a panel of equal width or one size smaller.
- May span two panels of appropriate size, i.e., 60"W Tool Rail on two 30"W panels.

Tool Rail for Hutches (page 372)
- Will work on Universal, Terrace, Optimize, and Concensys system hutches produced after July 2, 2000 and Align™ metal hutches.
- Sturdy aluminum extrusion with steel support construction.
- Powder coated for durable finish.
- Use to hang Extensions tools. Cannot be used to support monitor arms.
- Suggested weight capacity not to exceed 80 lbs.
- Consideration needs to be given to height of tools and location of worksurfaces.

Mail Box (page 373)
- Holds standard letter-size paper and inter-office envelopes.
- Minimal horizontal intrusion.

Folder Holder (page 373)
- Holds manila envelopes.
- Is capable of hanging on other folder holders to maximize space.
- Stores vertically for easy access to files.

Phone Caddy (page 373)
- Holds telephone at optimum ergonomic angle.
- Wire management cut-outs.
- Accommodates standard phone sizes.

Binder Bin (page 373)
- Holds folders, binders, and manuals.

Tool Box (page 373)
- Holds pencils and other writing utensils, large post-it notes, and other desk top accessories.

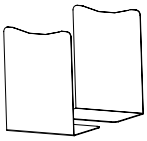
Clip Caddy™ (page 373)
- Holds paper clips and other small objects.

Sidebar™ Personal Shelf (page 373)
- Holds office supplies and personal effects.

Paper Wave™ (page 373)
- Provides 3 fully divided slots for organizing files.
- Keeps papers from "bowing" at bottom.

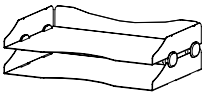
Reference Page

Gripper Clip (page 373)
- Binds project papers together.
- Mounts to tool rail or tool tile.



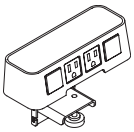
Bookends (page 373)
- Can be used on shelves or in cabinets.
- Used to hold books, binders, and catalogs upright.

Freestanding Mail Box (page 373)
- Incorporates similar aesthetic to mounted Mail Box.
- Mounting brackets allow for free access from front and back.
- Sold in pairs of two; will stack up to eight high.
- Individual mail box dimension = 1¾"H.
- Stacking brackets are black.

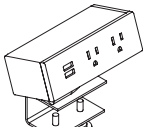


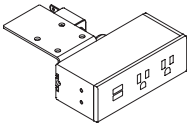
Coat Hook APMC6 (page 373)
- Hangs directly into slotted Stride®, Terrace®, Optimize™, or Concensys® panel frame.
- Use for coat or bag.
- Package of six.
- Available in black only.

Power/Data Modules — Clamp On Worksurface (page 379)
- On-surface mounting option, fits on any worksurface with a 4" overhang.
- 6' Power cord. UL Listed.
- Includes adapters to allow use of commercially available data terminals or blanks to fill unused openings. Many of the AMP, AT&T, Krone, Leviton and most commercial data terminals can be used.



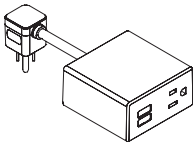
Power/Data Modules — Clamp On Worksurface (page 379)
- Worksurface clamp can be used on any surface with a 2½" overhang.
- Must be installed at time of initial worksurface installation if installing between a worksurface and panel.
- 6' Power cord. UL Listed.
- The USB hub allows simultaneous powering of 2 USB-A devices. The USB hub is a charger only, no ability to connect to a PC. The charging capacity is limited and may not charge all devices.
- Qi compatible wireless charging available on select models.





Power/Data Modules — Under Worksurface (page 379)
- Under surface mounting can be used on any surface with a 5" clearance.
- 6' Power cord. UL Listed.
- Hardware not included.

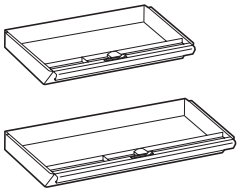
Worksurface Power/Data Module (page 379)
- Provides easy access to technology at primary worksurface.
- Mounts to edge of a worksurface and requires ⅜" gap. Consider whether ⅜" gap will work with layout.
- Must be mounted at time of initial worksurface installation if mounting between a worksurface and a panel. Maintaining ⅜" gap may not be possible with worksurfaces that are panel wrapped.



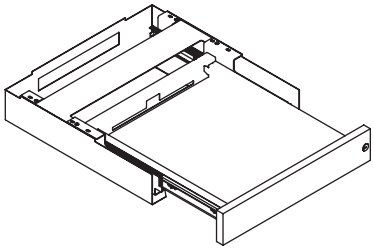
Miki Power Modules (page 379)
- Table top and undermount units.
- Hardware not included on undermount.
- 6' Power cord, UL Listed.
- 1 AC power and 1 dual USB configuration.

Vesta Mobile Power (page 379)
- 3 AC power simplex, 1 dual USB-A, 1 USB-C configuration.
- 10' Retractable power cord, UL Listed.
- Unit weighs 13 lbs.

Reference Page



Metal Center Drawers (page 374)
- All metal center drawers feature pencil trays with three compartments for storage.
- Center drawers will not fit in center of 24"D worksurfaces which are wider than 60" due to location of center support bracket.
- For locking specifications, see pages 384-386.
- Ball-bearing slide suspension.

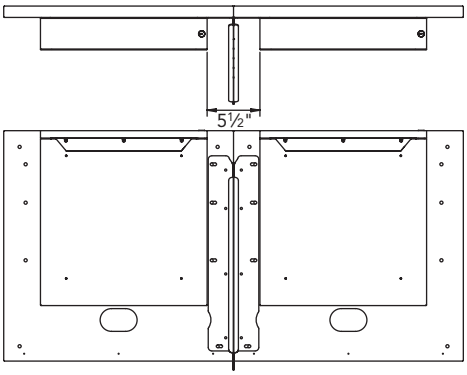


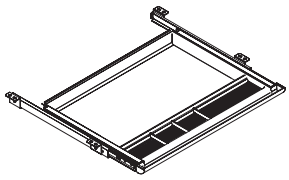
Laptop Drawer — U7WDA (page 374)
- Drawer body made of sheet metal.
- Drawer front made of ¾" particleboard with laminate on both sides and fused laser edge banding.
- Core removable lock is located on right side drawer front
- 17⅝"W x 18"D x 3⅜"H Outside (interior 13"W x 16"D x 1⅞"H)
- Minimum surface depth is 21" for surfaces not using an external stiffener; and 27" for surfaces using an external stiffener.
- Drawer extends 16"
- Maximum load: 45 lbs (functional BIFMA load)
- Drawer assembly and cover have cut out in back to allow for cables to exit drawer.
- Distance from floor to bottom of unit w/glides fully retracted is 24¾".
- Does not interfere with Further leg mounting plates so drawer can be placed directly next to either a system or table leg.
- When being placed next tower storage using the tower ell bracket (Z6LB) to support surface the drawer must be inset 3" to clear the ell bracket.
- Can be placed directly next to any support storage from any Allsteel product line (excluding towers).
- Flat brackets — drawer must be offset 3" from seam between surfaces to clear the bracket. See illustration at left.
- Can be used with rabbet edge worksurface models but there will be a larger reveal between surface and drawer.
- Can be used with knife edge worksurface models but reveal and depth need to be considered.

Flat Brackets

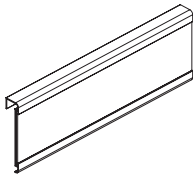
Front View

Top View





Polymer Center Drawer - ACD1 (page 374)
- 20½"W x 17"D x 2"H
- Available in black only
- Made from ABS.
- Minimum clearance for mounting: 23"W x 16¼"D x 2"H.
- Retracts on 16" ball-bearing slides.
- Can be used on worksurfaces with Height Adjustable Bases as long as it is attached with spacer model AKMH.
- Can store up to 25 lbs.



Name Plate (page 373)
- Comes in a 10-pack.
- Metal backer installs under a Terrace or Optimzie top cap, can be used with frameless glass.
- Cover is a transparent polycarbonate insert.
- Full plate is 8½"W x 2⅜"H.

For specification information see pages 369-370.

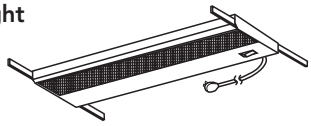
Allsteel Extensions offers Illumination in three styles — Undercabinet LED Light, Wand Light, and Link Light.

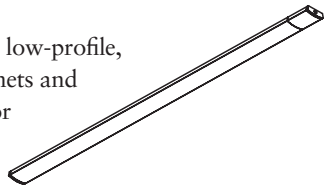
Recessed Undercabinet LED Light



Recessed task lights conserve space and provide an efficient solution for illuminating the workplace. All models are equipped with LED strips.

Recessed task light models mount under storage cabinets or shelves to provide optimal space utilization. Models are available in two styles and three sizes to correspond with the width of the cabinet or shelf. Task lights with a fused plug are available to meet Chicago electrical code.

Undercabinet LED Light

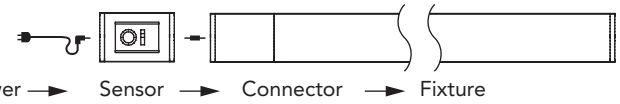


The Undercabinet LED Light is a low-profile, linear solution for overhead cabinets and shelves and is an ideal solution for painted wood storage. It utilizes energy-efficient LED technology which provides a long life. The Undercabinet LED Light provides the opportunity to mount the fixture where light is needed most.

The Undercabinet LED Light features a metal trough reflector with diffuser lens. The light has a sleek ½" thick profile and provides two options for mounting, either magnetically or with hardware. Undercabinet LED Lights can be daisy-chained.

Optional undercabinet occupancy sensor is available which will automatically turn off the fixture after 30 minutes of no detection and back on immediately as the user re-enters the detection range using Passive Infrared (PR) sensor technology. Unit features 360° lens with 90° outward detection angle, providing a 36" coverage diameter at 18". Occupancy sensor comes with connector and is required to be connected in the sequence shown below. Connect occupancy sensor to a light, or first light in daisy chain to control all linked lights.

CONNECTION SEQUENCE*



*Cannot deviate from this sequence

Recessed Task Lights (page 377)

- Black Metal Construction with 9' long black cord attached to right rear corner of the fixture.
- LED strip comes installed within light.
  –50,000 hour life span
  –120V-277V
  –CCT 4000K
  –CRI 80+
- Includes 4 cord retainer clips.
- Shorter width models can be used on wider overheads, shelves and hutches.
- On/Off switch provides individual control of tasklight within the workstation.
- Daisy chain models require a master control model — 10 fixtures maximum.
- RECOMMENDATION: Provide a separate circuit for task lights to ensure proper, long-term operation.

Undercabinet LED Lights (page 360)

- Low profile energy-efficient LED task light for use with overhead storage cabinets and shelves.
- 20W power supply for 10W 17" unit (.166 amps).
- 20W power supply for 20W 31" unit (.166 amps).
- 60W power supply for daisy-chain starter units (.5 amps). Must order one starter unit for each daisy-chain application.

LED Light Combinations Must Not Exceed 60W in Combination	Power Usage
6X 17"	60W
3X 31"	60W
1X 31" + 4X 17"	60W
2X 31" + 2X 17"	60W

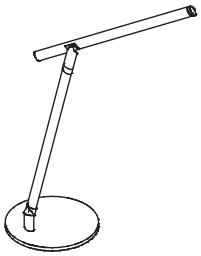
- The combinations that could max out 60W are featured above. *Daisy chained units have a power limit of 60W from one power entry. 17W units use 10W and 31W units use 20W.*
- Specify up to 5 additional 17" interconnect units (ALED17UJMP30) to daisy-chain together with 17" daisy-chain starter fixture (ALED17U60).
  Example: Daisy-chain 4–17" undercabinet LED lights:
  Specify: 1 ALED17U60
  Specify: 3 ALED17UJMP30 with 10" jumper cord
- Specify up to 2 additional 31" interconnect units (ALED31UJMP30) with 10" jumper cords to daisy-chain together with 31" tasklight (ALED31U60); or 17" daisy-chain starter fixture (ALED17U60).
- 3500K color temperature.
- 131 footcandles at 18" on ALED31U; 76 footcandles at 18" on ALED17U.
- Magnetic or screw-mount option — attachment hardware included.
- On 20 watt models, power drive is attached to plug: allow 1⅞"D space at outlet.
- On 60 watt models, power drive brick is in center of cord.
- Includes 3 cord retainer clips.
- Meets California Title 24 Energy Efficiency Standards.
- "Instant On" switch with infinite dimming cycle from 100% to 15% with the last state memory, allowing the user to set their desired level of lighting.
- Fixture automatically turns off after 10 hours of use to reduce unwanted energy use.
- Optional occupancy sensor automatically turns off all interlinked fixtures after 30 minutes of no detection and back on immediately when detection is found.

Overhead Length	Suggested LED Sizes
24	17
30	17
36	17
42	31
48	17 + 17
60	31 + 17
72	31 + 31
Note: LED lights may need to be positioned along length properly to allow jumping to additional overheads. Suggested sizes above are recommendations for single overheads to provide as much light along length of overhead as possible.	

The suggested sizes factor in 4 inches of room for the power inlet and occupancy sensor (optional).

Reference Page

Wand™ Task Light

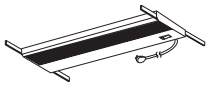


Wand freestanding task light offers a clean, simple design along with powerful LED technology to illuminate the workspace. The swivel base and arm tilt allow users to position the light just where they need it. The 7.7 watt LED light offers efficiency and long life, providing up to 25 years of daily use. The slim, sleek design makes it easy to integrate into any workspace. Wand task light is 97% recyclable. Occupancy sensor and/or charging models available.

Wand LED Freestanding Task Light (page 378)

- Available in Silver or White. 9'4" cord is Silver.
- Full range dimming from 100% – 10% with last state memory.
- Uses 5W at highest setting and as low as 1 watt at its lowest setting, providing 75 to 12.7 footcandles of light, respectively (16" above worksurface).
- 7½" round swivel base and 16½"H tilt arm allow versatile positioning of the 13" lampshade.
- Designed for 50,000 hours of life.
- Color Temperature: 3500K. Color Rendering Index (CRI): 80.
- Materials: aluminum arm and lampshade, steel base.
- Weight: 4.4 lbs. 97% recyclable, 76% post-consumer.
- Certifications: UL and CUL. TAA compliant.
- Occupancy sensor available with automatic shut-off after 15 minutes if no motion is detected.
- USB model features USB-A (1), USB-C (1) charging within base of unit.
- USB model also features occupancy sensor. 7.5W (A) & 18W (C) power consumption.

For specification information see pages 375-376.



Description	Watt Usage	Model	List Price
Recessed Task Lights (Black only) — Use recessed under overhead cabinets, storage shelves, or hutches, comes with cord retainer clips			
Task Light for 24"W	10	**A870824** S	$ 393

Pivot Standard Weight Monitor Arms

- Adaptable and adjustable to user preference the Pivot monitor arm offers a slim and refined design coupled with easy fingertip adjustment.
- Multiple points of adjustment including 360 degree swivel with optional 180 degree lockout, 18.75" extension, and 10" of height adjustment.
- Monitor tilts +25/-25 degrees.
- Standard weight arms utilize a tension spring that allows for effortless adjustment of monitors to proper ergonomic positions.
- Tension adjustment at multiple points allows for proper adjustment for monitors weight between 6-17 lbs.
- Model includes grommet and worksurface mounting options.
- Desk clamp mounts require ⅞" –2" thick surfaces; grommet mount requires hole diameter of 3⁄16" to 2" wide and accommodates up to 2" thick surfaces.
- Integrated cable management included with each model. Black models ship with all black cable management pieces, Silver models ship with grey wire management but optional white pieces ship in the box and can be installed on site.
- Dual monitor arm supports up to 25" wide monitors. Wider monitors may require use of optional slider mount model.
- Pivot Clamp mounts can be specified with 60"D (Z660ELN) and 72"D (Z672ELN) Stride benching applications.
- Pivot or other monitor arms cannot be clamp mounted on 54"D Stride benching applications, ZG54ELN, (27"D worksurfaces) due to beam obstruction under the worksurface.
- Pivot arms are VESA 75mm and 100mm compatible.
- Quick release feature simplifies monitor installation and changes.

Pivot Slider Mount

- Provides 11.8" of horizontal movement.
- Allows for wider monitors to be used on dual monitor arms and sit flush side by side.
- Not compatible with Pivot Heavy Duty Series.

Pivot Heavy Duty Series

- Adaptable and adjustable to user preference the Pivot monitor arm offers a slim and refined design coupled with easy fingertip adjustment.
- Multiple points of adjustment including 360 degree swivel with optional 180 degree lockout, 20.75" extension, and 12" of height adjustment.
- Monitor tilts +25/-25 degrees.
- Tension adjustment at multiple points allows for proper adjustment for monitors weight between 8-35 lbs.
- Model includes grommet and worksurface mounting options.
- Desk clamp mounts require ⅞" –2" thick surfaces; grommet mount requires hole diameter of 3⁄16" to 2" wide and accommodates up to 2" thick surfaces.
- Integrated cable management included with each model. Black models ship with all black cable management pieces, Silver models ship with grey wire management but optional white pieces ship in the box and can be installed on site.
- Dual monitor arm supports up to 2 monitors weight 4-17.5 lbs each.
- Pivot Clamp mounts can be specified with 60"D (Z660ELN) and 72"D (Z672ELN) Stride benching applications.
- Pivot or other monitor arms cannot be clamp mounted on 54"D Stride benching applications, ZG54ELN, (27"D worksurfaces) due to beam obstruction under the worksurface.
- Pivot arms are VESA 75mm and 100mm compatible.
- Quick release feature simplifies monitor installation and changes.

Pivot Post Series

- Adaptable and adjustable to user preference the Pivot monitor arm offers a slim and refined design coupled with easy fingertip adjustment.
- Multiple points of adjustment including 360 degree swivel with 21" extension and 10.6" of height adjustment.
- Monitor tilts +25/-25 degrees.
- Tension adjustment at multiple points allows for proper adjustment for monitors weight between 6.5-17 lbs per arm.
- Model includes grommet and worksurface mounting options.
- Desk clamp mounts require ⅞"–2" thick surfaces; grommet mount requires hole diameter of 3/16" to 2" wide and accommodates up to 2" thick surfaces.
- Integrated cable management included with each model. Silver color option with grey wire management only.
- Dual monitor arm supports up to 25" wide monitors. Wider monitors may require use of optional slider mount model.
- Single and dual models have a post height of 17.7"; Triple monitor model has a post height of 27.5".
- Monitor arms cannot be clamp mounted on 54"D Stride benching applications, ZG54ELN, (27"D worksurfaces) due to beam obstruction under the worksurface.
- Pivot is compatible with 54"D Stride benching applications when worksurface grommets are specified and Pivot grommet mount is installed.
- Pivot Clamp or Grommet mounts can be specified with 60"D (Z660ELN) and 72"D (Z672ELN) Stride benching applications.
- Pivot arms are VESA 75mm and 100mm compatible.
- Quick release feature simplifies monitor installation and changes.

Pivot Counterweight Kit

- Counterweight Kit to be used with monitors weighing less than 6 lbs.
- Gray color only.
- Counterweight weighs 1 lb. 6 oz.

Pivot Conversion Kits

- Kit allows user to transform single monitor arm (Standard, Heavy Duty, or Post) into Dual Arm configuration
- Available in black and silver, Post arm only available in silver
- Required wire management included
- Once assembled, will aesthetically emulate dual configuration of chosen arm

For specification information see pages 380-381.

Standard Options

- Random Keying — The factory will assign key(s) arbitrarily using key numbers from chart below.
- Omit Lock Core — The factory will omit lock cores. Removable lock core kits with specific key number must be ordered to facilitate keying alike in the field.

Vertical Files

Standard Options

- Random Keying — The factory will assign key(s) arbitrarily (see below chart for key numbers).

Key Alike Process

- Order standard product which will be shipped with factory installed locks and random numbered cores.
- Order the appropriate quantity of like numbered cores required for each workstation or keyed area.
- Simply replace the factory installed core with the replacement cores after product has been installed.

Replacing Lock Cores

- Lock must be in the unlocked position.
- Insert core removal key and pull core straight out. (Reach units require rotating key 90° clockwise past unlocked position.)
- Insert new core with core removable key, hold core into lock and withdraw core removal key.
- Retain original core for future use.

	Random Keying	Omit Lock Core	Key Numbers	Lock Core Kit	Master Key

Open Market **Master Key*** (One key) Available to authorized dealers only on electronic orders.Will open ALKF23CN and LKF23CN locks numbered 101N-225N.	**AMF22** S	**$ 28**

N series lock cores (ALKF23CN) are a replacement part for legacy Allsteel products. N series lock cores were used in all Persona pedestals produced between January 1996 and August 2009 as well as Receding Door Overheads produced between January 1996 and August 2010. N series lock cores are NOT used in current product and should not be ordered for product produced after these dates. E series lock cores are used in current product, see above.

S *Shippable by small-package carrier.*

EASY LOCK PROGRAM

The Allsteel Easy Lock Program simplifies the lock-core ordering process when multiple cores are being specified. The Easy Lock cores can be used with Allsteel storage that currently uses the **ALKF23C** cores (all storage except receding door overheads).

To ensure ease of ordering in different situations the Easy Lock cores can be specified in three different ways — random, specified or sequential.

Random Keying

The random keying option is provided for instances where there are multiple orders or phases to a project and the offices need to be keyed alike but the key numbering is not required. With the random keying option key numbers are not specified, however, the core kits will be in sequential order from a random starting point.

Example: *There are 15 offices which each have 5 black locks that need to be keyed alike, but the actual key numbers are not important.*

This order would look like: **LKFE5BLK.X.15**

This specifies that 15 5-core kits are needed in black with random key numbers.

Specified Keying

The Specified Keying option is provided for the instances where there is a specific key number desired for all of the cores ordered.

Example: *There are 10 offices which each have 2 silver locks that need to be keyed-alike with key number 202.*

This order would look like: **LKFE2SLV.X202.10**

This specifies that 10 2-core kits are needed in silver with key number 202.

Sequential Keying

Allsteel Sequential Keying option is provided for the instances when there are multiple orders or phases to a project and it is imperative that key numbers are not duplicated.

Example: *A multiple phase project has 60 total offices — 40 offices in Phase I, and 20 offices in Phase II. The project manager has expressed a need to have keyed-alike offices but doesn't want any of the offices to use the same key numbers.*

The first 40 offices have 4 silver locks each that need to be keyed-alike.

This order would look like: **LKFE4SLV.SEQ/101.40**

This specifies that 40 4-core kits are needed in silver and the starting number is 101.

The second set of 20 offices only have 3 silver locks each that need to be keyed-alike; and it is important which key number starts off the sequence to ensure that no key number is duplicated. It is known that the first key range was key numbers 101-140.

The second order would look like: **LKFE3SLV.SEQ/141.20**

This specifies that 20 3-core kits are needed in silver and key sequence has to start at key number 141.

HOW TO ORDER:

Numbers 101-225 are available. Orders without key numbers specified will be keyed at random.

SAMPLE ORDER FOR EXAMPLES GIVEN:

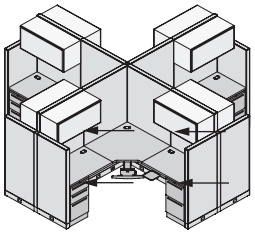
Model	Key Type	Quantity
LKFE5BLK.	X.	15
LKFE2SLV.	X202.	10
LKFE4SLV.	SEQ/101.	40
LKFE3SLV.	SEQ/141.	20

Note: Quantity required is last number in model.option string.

Description	Model / Color	List Price
Easy Lock Lock-Core		
Lock Core Kit — 1 core, 2 keys	**LKFE1** ⌊__⌋	$ 27
Lock Core Kit — 2 cores, 2 keys	**LKFE2** ⌊__⌋	$ 56
Lock Core Kit — 3 cores, 2 keys	**LKFE3** ⌊__⌋	$ 83
Lock Core Kit — 4 cores, 2 keys	**LKFE4** ⌊__⌋	$ 111
Lock Core Kit — 5 cores, 2 keys	**LKFE5** ⌊__⌋	$ 139
Lock Core Kit — 6 cores, 2 keys	**LKFE6** ⌊__⌋	$ 167
Lock Core Kit — 7 cores, 2 keys	**LKFE7** ⌊__⌋	$ 195
Lock Core Kit — 8 cores, 2 keys	**LKFE8** ⌊__⌋	$ 223
Add color suffix to model: **SLV** Silver, **BLK** Black, **MTS** Matte Silver		
Note: One core removal key minimum per order. One additional core removal key per 25 lock-cores will be shipped.		
Master Key		
(One key) Available to authorized dealers only on faxed orders.	**AMKF22**	$ 28

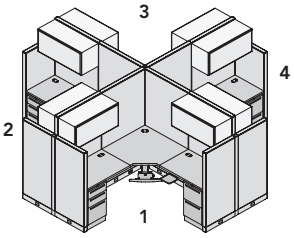
How to specify using Easy Lock Program:

Step 1 — Count the number of lock cores and color required in each workstation that need to be keyed alike.



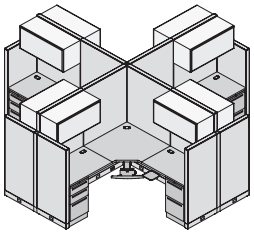
2 overheads with 1 lock-core each = 2
2 pedestals with 1 lock-core each = 2
Total silver lock-cores per station = 4

Step 2 — Count the total number of workstations needing 4 lock-cores.



4 total workstations

Step 3 — Specify model number based on total number of lock-cores in a station and quantity of kits based on number of workstations.



LKFE4SLV.X.4
Lock-Cores per station
Color of Core
Number of workstations

Ordering Hints	*Reason for Replacement* (apply appropriate reason number to each line)		
Add-ons/Mis-specified product — order as cataloged items on Synergy or your ordering system. *Do not use this form.* Replacement parts order must be faxed or emailed to Allsteel Customer Support. Please alert CS of any special expedite requirements. Fees may apply. Replacement parts orders are usually shipped within 5 days. Punchlist and/or parts orders for projects should be sent to the Allsteel Project Coordinator assigned to the project.	1	Shortage	*Shipping order number required below. Always billable with credit pending POD. Must be reported within 30 days of delivery.
	2	Freight Damage	*Please provide serial number. Must be reported within 30 days of delivery date if shipping to a warehouse or 15 days if shipping direct to site.
	3	Non-conforming Product	*Please provide serial number.
	4	Billable	Purchase order number is required. Replacement parts are net priced (no discounting). *Freight will be invoiced if order is billable. Order finished goods (cataloged items) electronically on Synergy or your operating system.

Qty	Serial Number	Model Number (complete with options)	Part Number (if known)	Description of Part Needed	Original Shipping Order #	Reason #	Description of Damage/Problem

Note: This form is also available on the Allsteel Synergy website.

FSC Certified Wood at Allsteel

Allsteel has received FSC Chain of Custody certification and can offer FSC certified products. Forest Stewardship Council (FSC) certification is intended to promote the sustainable harvesting of forests worldwide by setting requirements for the forest and everyone who handles the wood from forest to product. Certification provides a Chain of Customer number that we will pass on to customers who are pursuing LEED certification or who want to ensure that materials used to manufacture our wood products come from a well-managed forest. For more information, please contact Customer Support at 888-255-7833.
