Designer Specifications
Groupe Lacasse distinguishes itself thanks to its flexibility and willingness to accommodate special requests, and successfully meets most specific requests for products that are not part of its standard offering. It is possible, among other things, to use C.O.M. fabrics for our PanGram divider panels, tackboards, cushions, etc. Translucent inserts as well as certain high-pressure laminates can also be special-ordered. The Quotations department can process such specific requests.

NICER FOR THE ENVIRONMENT

It's our corporate responsibility to contribute to the preservation of natural resources and to ensure that our operations have the least possible impact on the environment. We choose suppliers who support our efforts to reduce deforestation. The majority of our products are manufactured from particleboard, made from 100% post-industrial recycled materials. We recover the cuttings from all our activities and even sawdust for power cogeneration. What's more, we sort and recycle plastic, steel and aluminum.

Our Saint-Pie, QC facilities are certified ISO 9001 and ISO 14 001.

We're proud to say that all Lacasse products are GREENGUARD® Gold certified. Which means that North Americans can be sure that these products will not affect the air quality of their working environments. And other groups, like architects, designers and specifiers who use Lacasse products can benefit from their GREENGUARD® certification to earn points towards meeting LEED® standards.

Lacasse products have achieved GREENGUARD GOLD Certification.

GREENGUARD Certified products are certified to GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit ul.com/gg.

ENVIRONMENTAL TOOLS
A variety of informative tools which detail how Groupe Lacasse products help support green initiatives are available. All documents are routinely updated and placed on the Groupe Lacasse website in the **Environment** section. Please check this page regularly for the most up-to-date documents.

Available documents: the corporate **Sustainability Policy**, how our products support **LEED Credits** (these documents include information on the percentage of recycled material in each product) and a listing of Groupe Lacasse products that are **GREENGUARD Certified**.

GREENGUARD CERTIFICATES
The GREENGUARD certificates can be uploaded from www.groupelacasse.com by clicking on the **Documents** tab of the certified collections/product pages.

STANDARDIZED DIMENSIONAL SPECIALS

"DIMENSIONAL SPECIALS" PROGRAM

Groupe Lacasse offers its dealers the possibility of making certain modifications to unit dimensions without having to go through the Quotations department. The following rules apply:

- Only one dimension may be modified on any given unit (width **or** depth **or** height).
- The modified dimension must fall within the range of standard dimensions offered. Example: a 98"-wide desk may not be specified without going through the Specials department, because that width exceeds standard widths. However, a 70"-wide desk may be specified, because that width does fall between existing standard widths (namely, 66" and 72").
- The dimension change must not affect the overall construction of the furniture unit. Example: a wider bookcase necessitating a central divider for added support.
- Drawers must remain in standard dimensions.
- Applicable to laminate units only. (Doors and modesty panels with metal frames cannot be modified, nor can metal legs.)
- Rounded reception desks are not included in this program.

PROCEDURE:

1. Choose the unit with the next **largest** dimension.
   Example: if you need a right single pedestal desk 70" wide, choose model 41_N-S3672F.
2. Add the prefix "**S**" at the start of the product code. (Ex.: S41_N-S36_ _F.)
3. Change the dimensions of the standard unit to those required.
   (Ex.: 41_N-F36**72**S becomes S41_N-F36**70**S.)
4. Use the price of the next largest unit from the price list in effect.
   (Ex.: if the new unit is a S41_N-F3670S, the price to use is that of model 41_N-F3672S)

*** If exact dimensions are required, be sure to specify it on the order form; otherwise, the unit will be manufactured using the corresponding Imperial units.**

* If a particular dimension includes a fraction, the code must be modified to show the measurement's rounded-off value; however, the measurement must be indicated with the fraction in the item description on the order form. (Example: a width of 68.5 is to be shown as 69 in the code, while the comments section of the order form must bear the mention "exactly 68.5".)

*** The number of doors and shelves on a hutch / storage unit will be determined by Groupe Lacasse (in accordance with our manufacturing standards).**

* If the "Dimensional Specials" program does not apply to your particular situation, or for any questions concerning such specials, contact our Specials department at **Quotation@groupelacasse.com**.

CONCEPT 3 – EASY TO SPECIFY, EASY TO RECONFIGURE

3 LAYOUTS

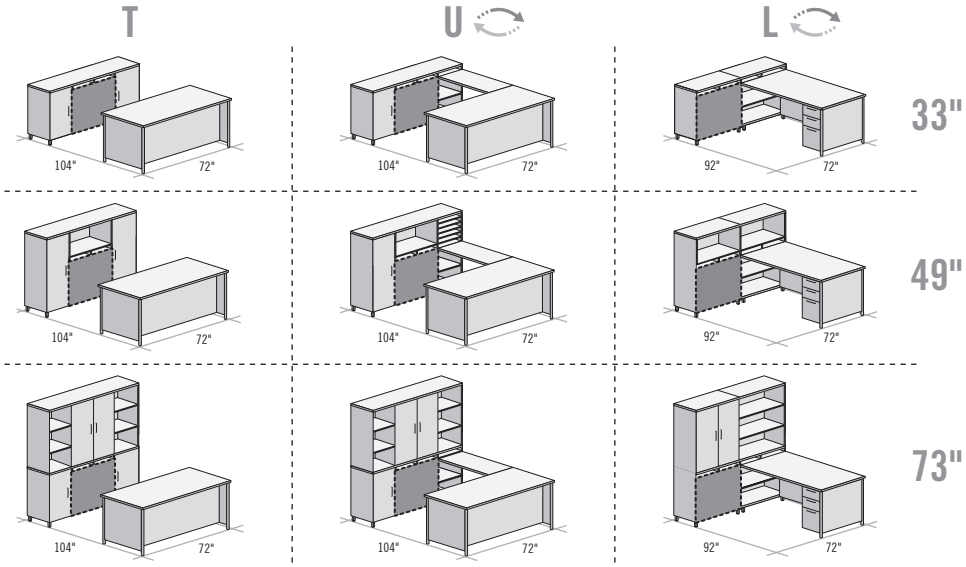
Concept 3 envisions three classic office workstation layouts – **traditional T, U-shaped** and **L-shaped** – with generous surfaces and versatile storage. Inspired design ensures upscale looks and maximum functionality whichever setting you choose.

REVERSIBLE

As easy as flipping a coin, storage and non-handed work surfaces fit together left or right. In the **U**-shaped and **L**-shaped settings, you can attach the bridge or work surface on either side without losing access to the storage below. A big plus if you change your space... or change your mind!

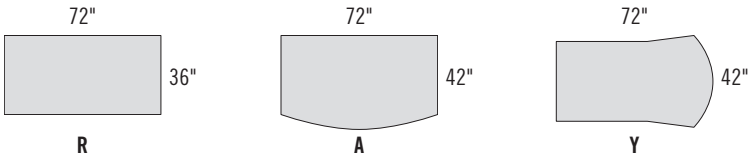
3 HEIGHTS

Keep it sleek and low with the **33-inch** storage module, elevate the look to **49 inches** or top it off at **73 inches**. Each level has its own refined sense of proportion and scale.



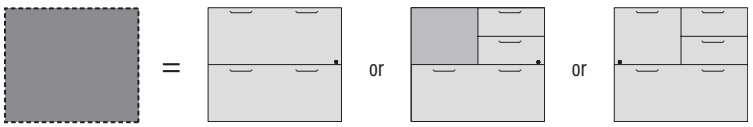
3 SURFACE SHAPES

Customize the look and function of your work surface with the shape you prefer – classic **rectangular R**, stylish **bow front A** or our adaptable **Y shape**.



3 STORAGE OPTIONS

Choose from **storage modules** designed for filing, or for a multiplicity of functions with drawers and open bookcase. Whatever works best for you.



DOOR OPTIONS

Concept 3 is designed to simplify your life, but you still have the final say. Choose from matching **laminate N** or **anodized aluminum frame T** door styles. Storage modules are shipped assembled but offer you the flexibility of modifying the door configuration on site.

CONSTRUCTION
Casegoods are made of particleboard panels finished on both sides with mar-resistant high-performance thermofused laminate (45 lbs/ft³), also called TFL.

EDGEBANDING
Most Concept 300 components are finished with a 1⁄16" (1,5 mm) ABS smooth edgebanding. All edges are finished.

DRAWERS AND DOORS
All drawers are built for trouble-free performance;
- Black full extension ball bearing suspensions.
- 100 lbs (45 kg) load capacity for box and file drawers.
- 150 lbs (68 kg) load capacity for lateral file drawers.
- PVC top rails on lateral file drawers for hanging folders.
- Standard interlock system where required.

Doors on storage furniture;
- 120° hinges on doors.

HANDLES
Two choices of metal handles available in Silver finish: Square (E) or Round (F).

LOCKS
Silver cam locks are standard on drawers and storage furniture. In case of a product with a multiple drawer configuration, the lock controls all drawers. A key-alike option is also available upon request (contact Groupe Lacasse Customer Service).

LEVELERS
Levelers allow up to 1" (25 mm) height adjustment.

UNASSEMBLED ITEMS
Products delivered unassembled are identified by a pictogram.

DIMENSIONS
Metric dimensions are exact; imperial dimensions are nominal (unless otherwise specified).

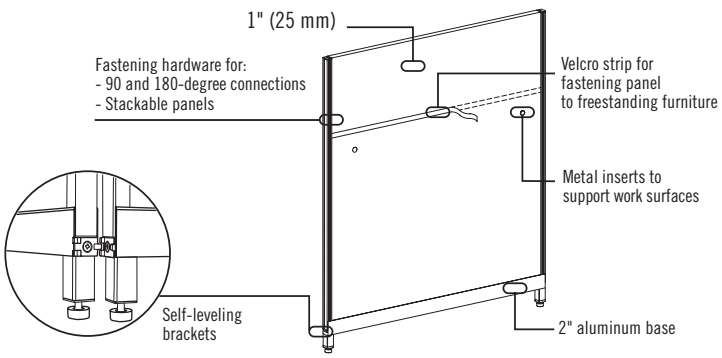
PANGRAM

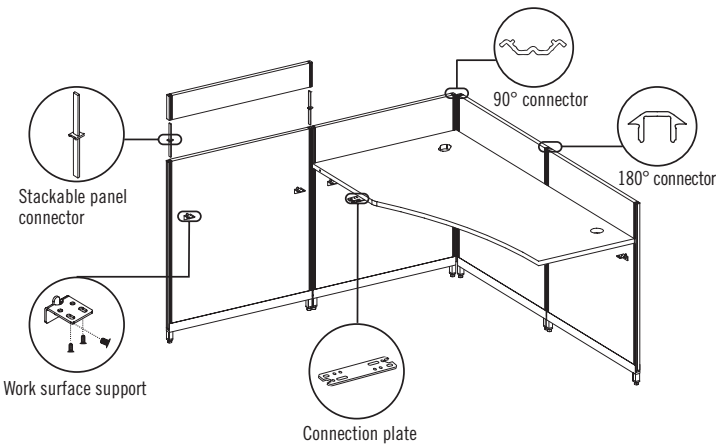
PANGRAM IS THE PERFECT SOLUTION FOR WORKSPACE DIVISION NEEDS

Panels provide affordable privacy and support for work surfaces and accessories. This well-designed laminate panel system focuses on ease of use, flexibility and modularity. Compatible with PanGram surfaces and all other Lacasse laminate series.

SPECIFICATIONS AND CONSTRUCTION

PANEL CONSTRUCTION

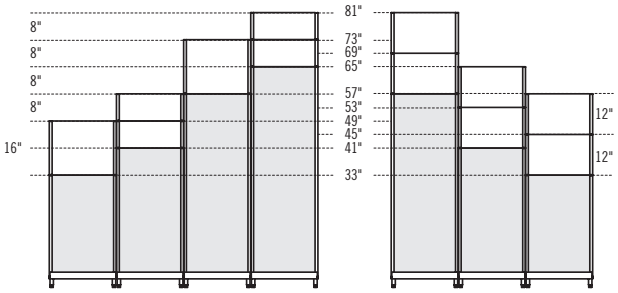




PANEL & STACKABLE PANEL HEIGHT COMBINATIONS

Base panels are available in heights of 33" to 65" (837 to 1650 mm) and are available in all Lacasse laminate finishes.

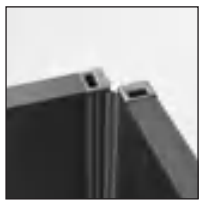
Stackable panels are available in a choice of laminate, fabric or translucent material.



Dimensions
8" = 203 mm
12" = 304 mm
16" = 406 mm
33" = 842 mm
41" = 1046 mm
45" = 1149 mm
49" = 1250 mm
53" = 1351 mm
57" = 1452 mm
65" = 1655 mm
69" = 1757 mm
73" = 1859 mm
81" = 2062 mm

180º PVC connectors fit snugly in the grooves of the panel end moldings for a tight link between panels in a straight line.

The end molding and the top cap have inverted slots that self-align the panels.



A 90º PVC connecting strip is used to attach two, three or four panels together, for corner, T plan or cluster application.

Accent translucent panels are easily installed.

Install accessories with metal support (pencil tray, rail, shelf) at the right height before installing the next stackable panel.

An adhesive channel is available to manage power and communication cables.

Replace a leveler by a stabilizer foot at the end of an unattached run of panels.

Start a panel run from a wall, a pillar... Screw the wall-starter, snap a 180º connector between the starter and the panel, *et voilà!* Really simple, isn't it?

SURFACES

Surfaces without GR in their product code are neither equipped with grommets nor pre-drilled along the edges.

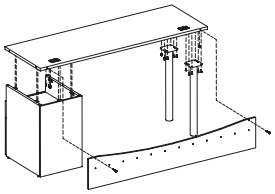
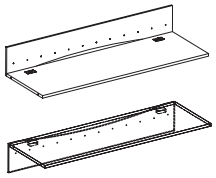
GR SURFACES

When GR is specified in the surface product code, one or more grommets are added. In addition, pre-drillings along the edges enables compatibility with SC screens.



SC SCREENS

SC screens may be installed and positioned as modesty panels or as privacy screens, according to needs.



SH SHELVES

SH shelves are used jointly with SC screens.

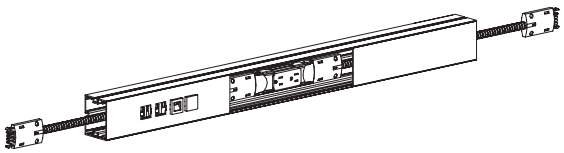
ELECTRICOM II Electrification System

GENERAL

Electrical and communication system fully compatible with Lacasse collections.



Electricom II is based on the principle that an aluminum raceway can serve to house both electrical and communication components. This versatile raceway may then be positioned at the desired location.

TYPICAL APPLICATIONS

Freestanding furniture

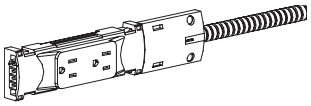
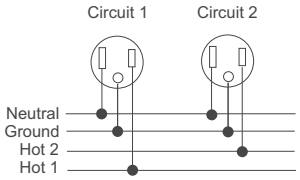
TWO LEVELS OF ELECTRIFICATION

4-Trac

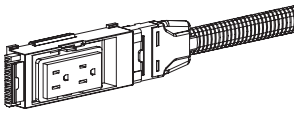
- 4 wires, 2 circuits, 20 AMP
- Common ground
- UL, CSA, ROHS certified
- Perfect for today's office automation needs

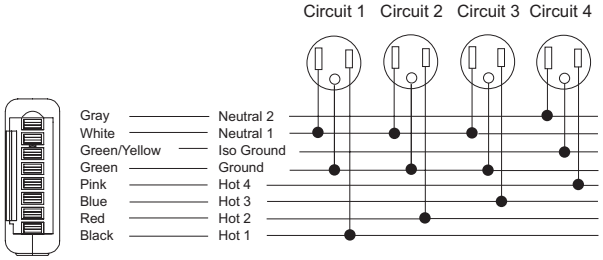




8-Trac

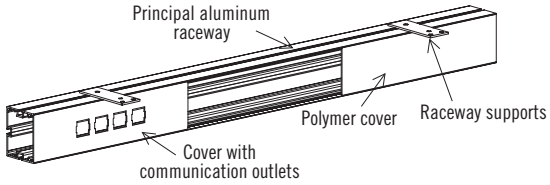
- 8 wires, 4 circuits, 20 AMP
- 1 isolated ground
- UL, CSA, ROHS certified
- Intended for more demanding electrification needs

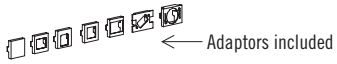




COMPONENT SPECIFICATIONS

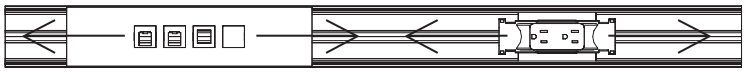
Raceways



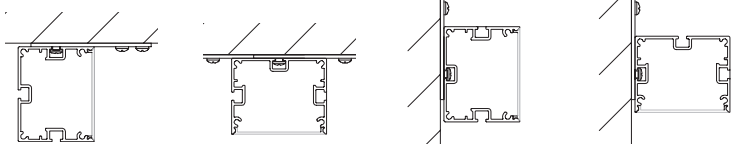


Can accommodate 4 AMP or Panduit brand outlets adapted to fax machines, telephones or computers.

- The raceways support the electrical and communication components.
- 5 lengths are available, in 12" increments.
- 12" covers supplied; may be trimmed on-site as necessary.
- The covers and duplex receptacles have no pre-set location within the raceway; they may be positioned anywhere.

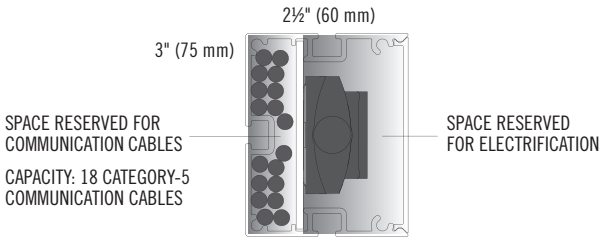


- The supports make possible a range of installation positions:



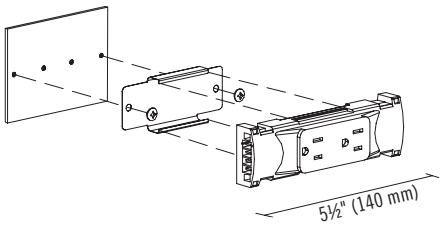
Underneath the surface, sideways | Underneath the surface, facing down | On vertical panel, sideways | On vertical panel, facing down

Space allocation within raceways:



- When specifying, it is recommended to order a raceway in the size immediately smaller than the dimension of the furniture it will be installed on (for example: DT2472 + EC2RACE60) in order to allow space for exteriors, enable cables to round a corner, or any other reason.

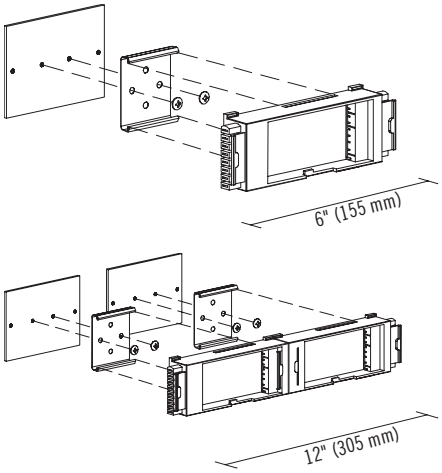
4-TRAC DUPLEX



- Connects to a junction cable or an electrical entry.
- Each duplex receptacle comes with required hardware and support to fix on raceway.
- 2 outlets per duplex receptacle.
- Specify circuit 1 or 2.

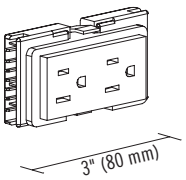
= NOT PART OF THE QUICKSHIP PROGRAM

8-TRAC BLOCK



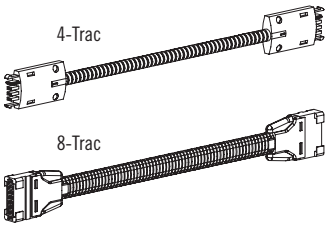
- Connects to a junction cable or an electrical entry.
- Each block comes with required hardware and supports to fix on raceway.
- Available in single and double formats.
- Can receive 1 or 2 duplex receptacles.

8-TRAC DUPLEX



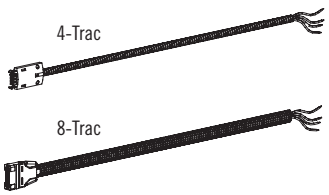
- Connects to an 8-Trac block.
- 2 outlets per duplex receptacle.
- Specify circuit 1, 2, 3 or 4.
- Circuit 4 has an isolated ground.

4-TRAC / 8-TRAC CONNECTOR CABLES



- Connect duplex receptacles to each other.
- If in doubt, it is recommended that the largest size available be specified.
- Metallic sheath.

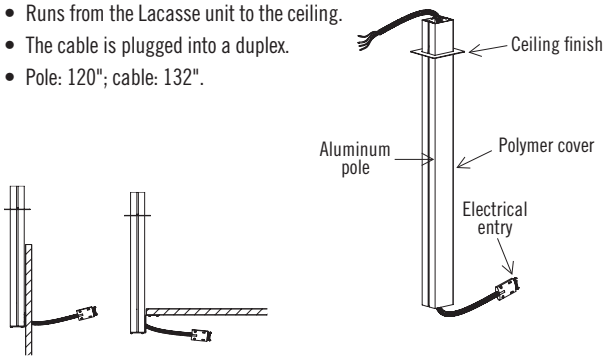
4-TRAC / 8-TRAC FLOOR FEED



- Used to connect a duplex to electrical power source.
- 72" in length. (Longer models available; contact the Customer Service department.)
- Must be installed by an electrician.
- Metallic sheath.

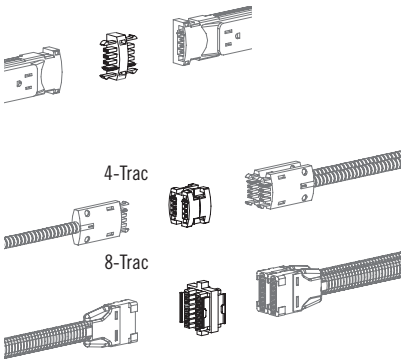
4-TRAC / 8-TRAC CEILING FEED

- Runs from the Lacasse unit to the ceiling.
- The cable is plugged into a duplex.
- Pole: 120"; cable: 132".



- Can be installed on a horizontal or vertical surface.

CONNECTORS



Duplex receptacle connector

- 4-Trac
- Allows the connection of 2 duplex receptacles.

H connector

- 4-Trac / 8-Trac
- Allows up to 4 cables to be connected together.

NOTES FOR SPECIFICATION

Given the remarkable versatility of ELECTRICOM II, particular attention should be given to the location of grommets, exterior panels, pedestals and any other items that might interfere with the raceway or the cables.

Under certain circumstances, grommets may need to be added to furniture. This can be done on-site by a professional installer or at the manufacturing facility according to your specifications. In the latter case, refer to the "Standard Specials" section on page 4 for the appropriate procedure, or contact Groupe Lacasse's Customer Service department.

TECHNICAL PERFORMANCES

THERMOFUSED LAMINATE (TFL):

- Depending on the furniture collection, Lacasse casegoods have TFL surfaces and side panels made of particleboard panels of 1" (25,4 mm) or 1½" (38 mm) thick finished with a mar-resistant high-performance thermofused laminate (45 lbs/ft3). The particleboard panels are laminated on both sides for proper balance.
- TFL technology consists on a decorative paper impregnated with reactive melamine resins which is thermally fused to a substrate (particleboard). The heat and pressure produces a **permanent thermal bond** between the melamine resins, the decorative paper and the substrate. The bonding process results in a clear, hard and non-porous surface.
- TFL panels, unlike wood, will not gouge or dent.
- Delamination is not possible, due to the manufacturing process.
- TFL panels carry a 25-year warranty.

HIGH-PRESSURE LAMINATE (HPL):

- Certain collections are also available with HPL surfaces made of 1 1/16" (27 mm) or 1 9/16" (40 mm) thick particleboard finished with high-pressure laminate (laminate plus a 1/32" (0,8 mm) black backing).
- HPL technology consists of multiple layers of Kraft paper saturated with phenolic resin, a decorative layer of paper saturated with melamine resin, and a very thin top sheet of heavily saturated melamine resin. The high-pressure laminate sheet is then glued to a substrate (particleboard).
- HPL panels offer a good wear and impact resistance.
- HPL panels carry a 5-year warranty.

Please take note of the following exclusion to the "small order fee": Shipments by UPS or FEDEX of accessories or parts that have a net value under $100 are subject to a $25 small order fee (instead of $200) regardless of the shipping zones.

15. FREIGHT CLAIMS

All FCA destination claims will be handled and filed by the Seller. In order to expedite any credit due, your help and assistance is required. Please adhere to the following guidelines:

1) Concealed loss or damage

Concealed loss or damage means loss or damage that does not become apparent until the merchandise has been unpacked. The contents may be damaged in transit due to rough handling even though the carton may not show external damage. When damage is discovered upon unpacking, a written request must be made within 15 days of the delivery date. No disposition will be taken until approved by the manufacturer.

IMPORTANT: Groupe Lacasse's policy in concealed damage is to replace the part or complete product if necessary at no charge to the dealer. However, it is the responsibility of the dealer to provide installation of the replaced part or complete product. Therefore, no labor fees will be accepted on concealed damages.

Any external evidence of damage or shortage must be noted on the freight bill or express receipts and signed by the carrier's agent. Failure to adequately describe such external evidence of damage or shortage may result in refusing to honor a damage claim. NICER FOR THE ENVIRONMENT

It's our corporate responsibility to contribute to the preservation of natural resources and to ensure that our operations have the least possible impact on the environment. We choose suppliers who support our efforts to reduce deforestation. The majority of our products are manufactured from particleboard, made from 100% post-industrial recycled materials. We recover the cuttings from all our activities and even sawdust for power cogeneration. What's more, we sort and recycle plastic, steel and aluminum.

Our Saint-Pie, QC facilities are certified ISO 9001 and ISO 14 001.

We're proud to say that all Lacasse products are GREENGUARD® Gold certified. Which means that North Americans can be sure that these products will not affect the air quality of their working environments. And other groups, like architects, designers and specifiers who use Lacasse products can benefit from their GREENGUARD® certification to earn points towards meeting LEED® standards.

TECHNICAL PERFORMANCES

THERMOFUSED LAMINATE (TFL):

- Depending on the furniture collection, Lacasse casegoods have TFL surfaces and side panels made of particleboard panels of 1" (25.4 mm) or 1½" (38 mm) thick finished with a mar-resistant high-performance thermofused laminate (45 lbs/ft^3). The particleboard panels are laminated on both sides for proper balance.
- TFL technology consists on a decorative paper impregnated with reactive melamine resins which is thermally fused to a substrate (particleboard). The heat and pressure produces a permanent thermal bond between the melamine resins, the decorative paper and the substrate. The bonding process results in a clear, hard and non-porous surface.
- TFL panels, unlike wood, will not gouge or dent.
- Delamination is not possible, due to the manufacturing process.
- TFL panels carry a 25-year warranty.

HIGH-PRESSURE LAMINATE (HPL):

- Certain collections are also available with HPL surfaces made of 11⁄16" (27 mm) or 19⁄16" (40 mm) thick particleboard finished with high-pressure laminate (laminate plus a 1⁄32" [0.8 mm] black backing).
- HPL technology consists of multiple layers of Kraft paper saturated with phenolic resin, a decorative layer of paper saturated with melamine resin, and a very thin top sheet of heavily saturated melamine resin. The high-pressure laminate sheet is then glued to a substrate (particleboard).
- HPL panels offer a good wear and impact resistance.
- HPL panels carry a 5-year warranty.

C.I.T.É. is an office furniture system designed to facilitate collaboration and interaction between users in a teamwork environment. The system offers tremendous flexibility in creating open-plan workstations while also meeting the privacy needs of individual users.

1. 1½"-thick (38 mm) surface with smooth edgebanding or knife-edge, and 1"-thick (25 mm) surface with smooth edgebanding.
2. Bases available in metal, laminate, laminate with acrylic insert and, in certain models, integrated storage modules.
3. Wire management raceways with translucent acrylic (T) covers.
4. Storage base modules can support surfaces and serve as divider panels to ensure privacy between users.
5. Hutches are available in 3 different versions, respectively compatible with single-sided surfaces, double-sided surfaces, and 29"-tall (757 mm) storage modules.
6. Storage modules 29" (757 mm) tall, for individual or shared use, offered in several combinations of utility drawers, filing drawers and open compartments.
7. Storage modules 21" (561 mm) tall, for individual or shared use, offered in several combinations of utility drawers, filing drawers and open compartments.
8. Return surfaces and return surfaces combined with storage modules are compatible with mobile pedestals, modesty panels and end screens.
9. Trapezoidal extension surfaces, compatible with double-sided surfaces and storage bases, enable the creation of collaborative work spaces.
10. Rectangular extension surfaces, compatible with double-sided surfaces, enable the creation of workstations or collaborative work spaces.
11. A range of accessories, such as end screens, divider panels, storage modules, accessory rails, surface electrical modules and cushions for 21"-tall (561 mm) storage modules.

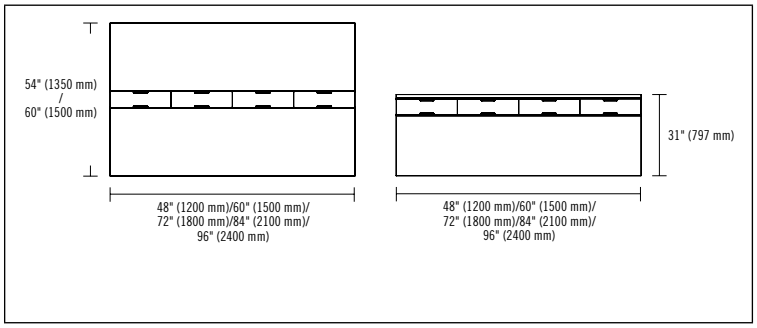
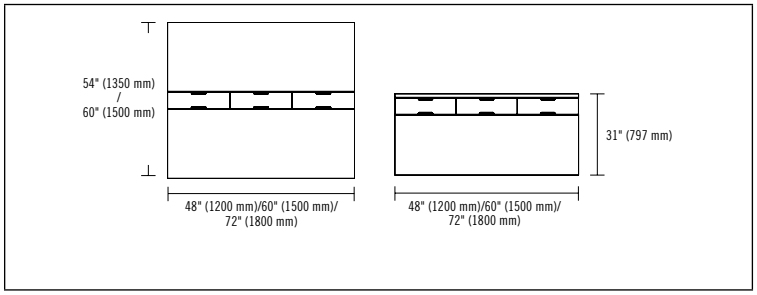
SURFACES: / SINGLE-SIDED - DOUBLE-SIDED - 120°, EXTENSION SURFACES AND RETURN SURFACES

SINGLE-SIDED, DOUBLE-SIDED, 120°, WITH OR WITHOUT RACEWAY

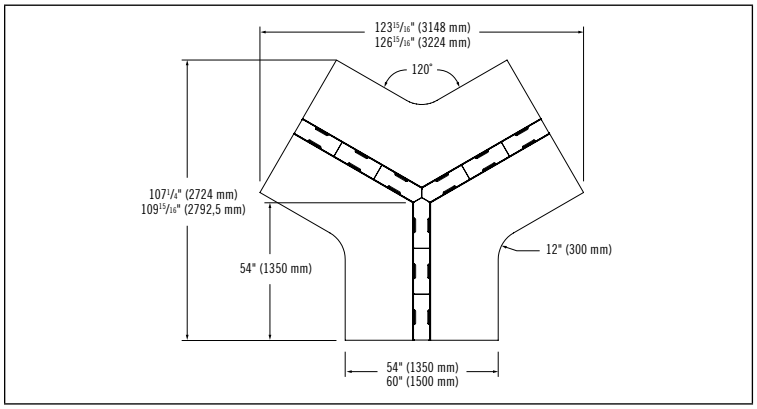
Rectangular surfaces, 1½" (38 mm)



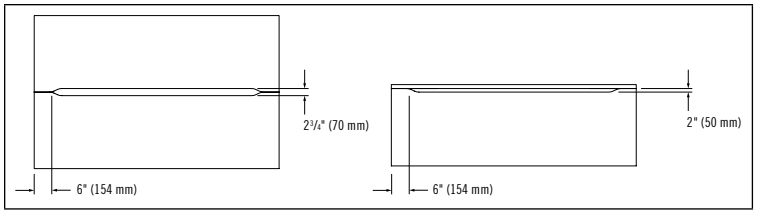
Rectangular surfaces, 1" (25 mm)



120° surfaces, 1½" or 1" (38 mm or 25 mm)



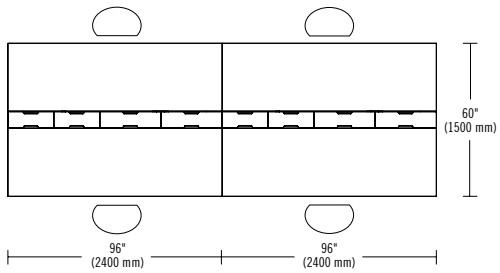
Surfaces without raceway, 1½" or 1" (38 mm or 25 mm)



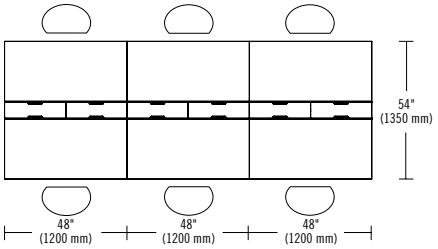
SINGLE-SIDED, DOUBLE-SIDED OR 120° SURFACES, WITH OR WITHOUT RACEWAY

- Wire management raceways come with acrylic covers.
- Surface usages: For double-sided surfaces, it is allowed to join 2 sections (16' max.) together when the center base is LBD1212 and up to 3 sections (24' max.) if the center base is LCD2828. There are no restrictions on length or number of sections when other center bases are used. For single surfaces, it is allowed to join 2 sections (16' max.) together.
- Surfaces that include a wire management raceway are equipped with communication plates: 2 for double-sided surfaces, 1 for single-sided surfaces, and 3 for 120° surfaces.
- Surfaces without a raceway are available when projected use does not require the integration of an electrical management system into the surface. This can result in more competitively priced workstations.
- Additional plates (LGC-COM) may be ordered.

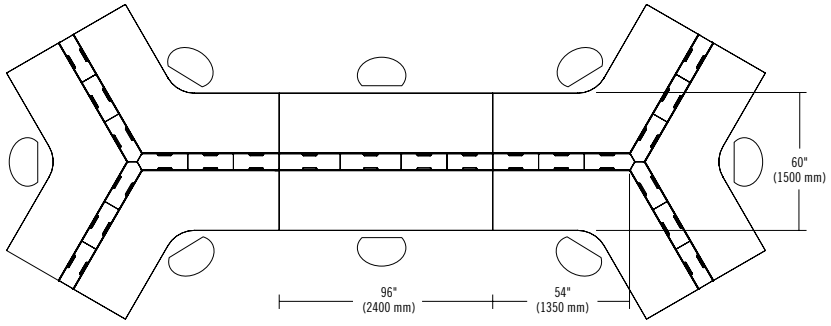
Examples of workstations:



2 double-sided sections 96" W x 60" D (2400 mm x 1500 mm) allow for four 8' W (2400 mm) workstations.



3 double-sided sections 48" W x 54" D (1200 mm x 1350 mm) allow for six 4' W (1200 mm) workstations.



Two 120° sections 54" W x 60" D (1350 mm x 1500 mm) and one double-sided section 96" W x 60" D (2400 mm x 1500 mm) allow for 8 workstations, 6 of which are positioned at a 120° angle, while the other 2 are each 8' W (2400 mm).

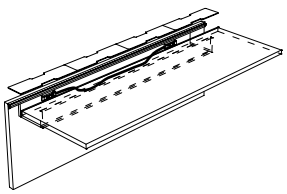
ELECTRICITY: / CHARACTERISTICS / ELECTRICAL POWER FEED

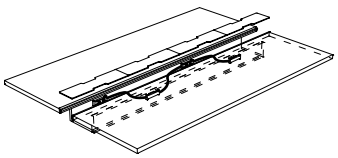
CHARACTERISTICS OF THE ELECTRICAL SYSTEM

- 4 wires, 2 circuits, 20 Amps each.
- 13 double electric power outlets per circuit. Maximum of 26 double outlets of 15 Amps per power source.
- Easy to adapt, install and reconfigure.
- UL-classified wiring system.
- Cradle-to-cradle compliance with RoHS standard, available upon request.
- For installation in wire management raceways.
- Functions in all regions except Chicago and New York.
- Manufactured wiring systems are not authorized in Chicago or New York.
- So simple: just 4 different kits deliver electrical power to all single-sided, double-sided or 120° work surfaces.

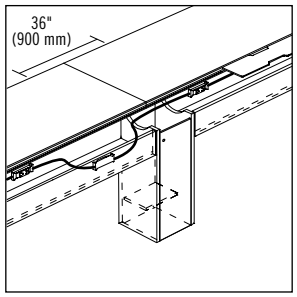
HOW TO SPECIFY:



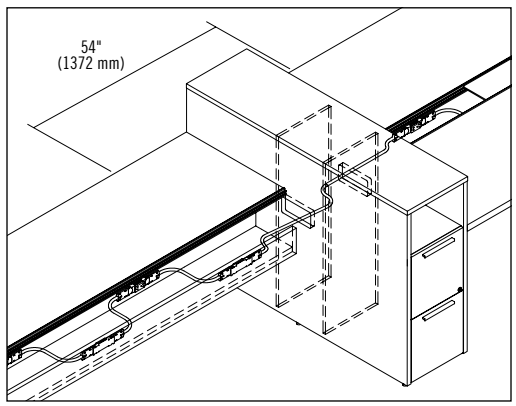
RCST3196 with LGC-4TRAC296C1



RCDT6084 with LGC-4TRAC496C2



LGC-PASS36



LGC-PASS54

STEP 1
Determine the number of users.

STEP 2
Determine each user's electrical power needs (1 or 2 double outlets per workstation meet most needs). Choose one of the 4 kits available.

Each kit must be ordered according to the surface length and the number of double outlets required.

STEP 3
Determine whether 1 or 2 circuits are required, and order the number of kits needed. The kits are comprised of double outlets and cables. Each kit includes the hardware required to attach the cables to the wire management raceway.

STEP 4
Each added surface must be connected to the adjacent surface with connecting cable LGC-PASS36, except for those arrangements where a C_N_ _-CRC___ storage base is integrated between two surfaces; the latter must be connected with cable LGC-PASS54.

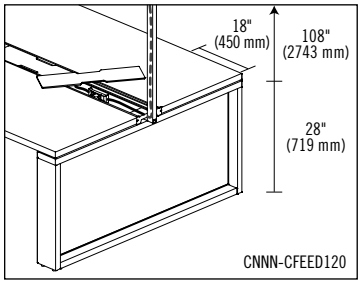
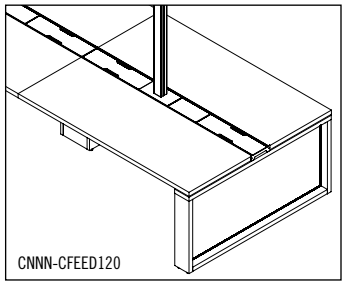
ELECTRICAL INFEED

There are a number of ways for bringing electrical power to surfaces, namely from a power source located in the floor, in a wall or in the ceiling.

Infeed from ceiling:





Power feed is plugged at one end of the piece of furniture or at any point along the top of the raceway. To this end, a 120"-tall (3000 mm) column is supplied, with the appropriate hardware.

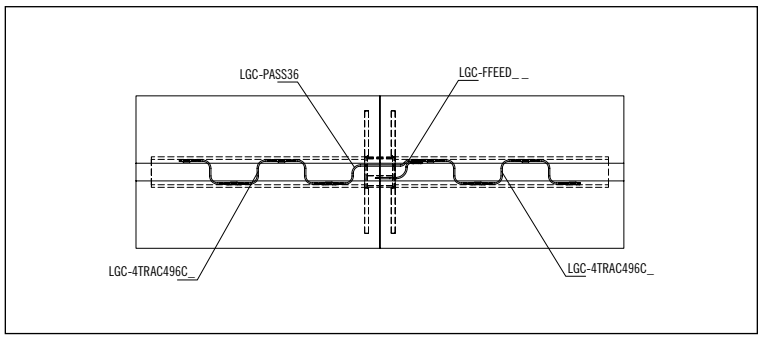
The cable is 132" (3353 mm) long, assuming the piece of furniture is 29⅞" (757 mm) tall and that the first double power outlet is located 18" (450 mm) from the surface edge.

A contact plate may be installed along the wire management raceway's aluminum rails, and it can accommodate up to 4 connections.

Adapters are included.

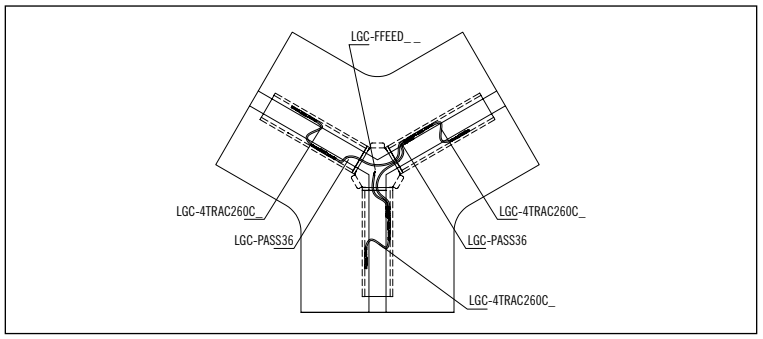
Examples of electrical specifications:

Rectangular surfaces:



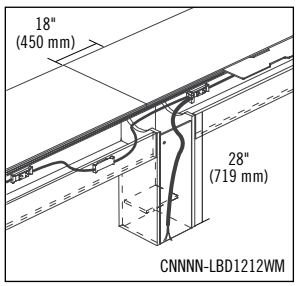
Two double-sided surfaces 60" D x 96" W (1500 mm x 2400 mm) are connected to an electric power source by the sequence of components shown in the diagram above.

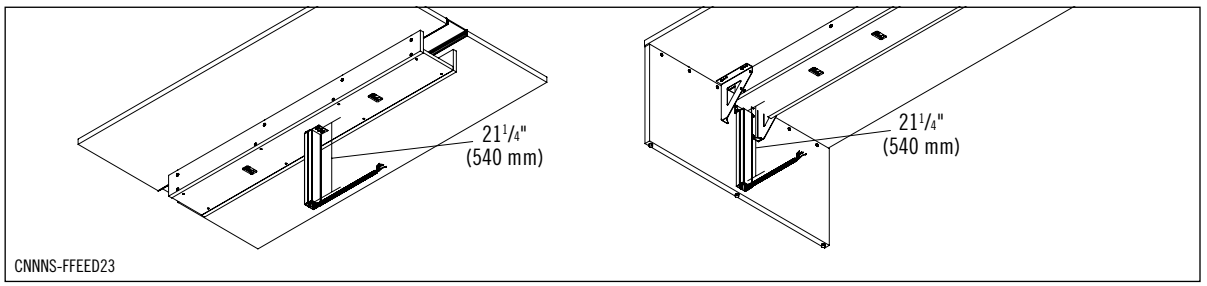
120° surfaces:

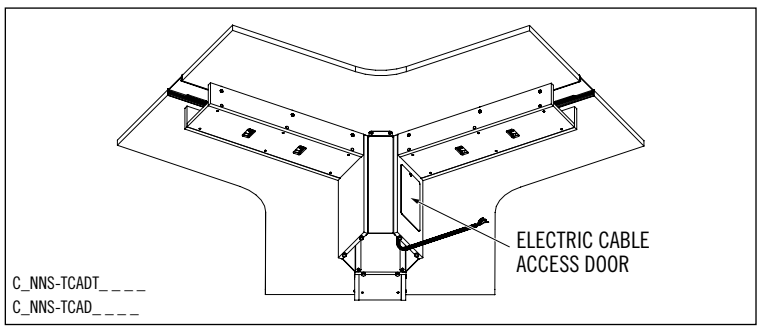


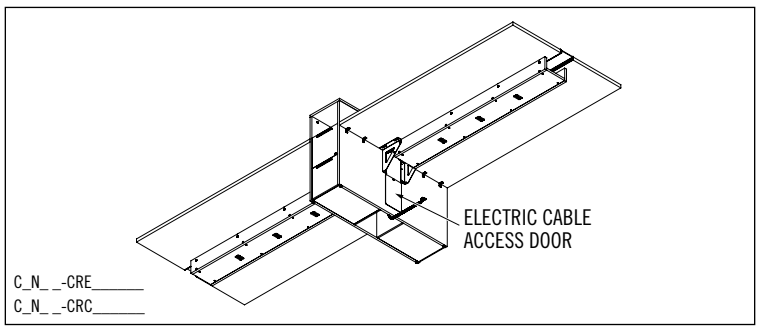
120° surfaces 54" D x 60" W (1350 mm x 1500 mm) are connected to an electric power source by the sequence of components shown in the diagram above.

Infeed from floor:









The installation of the electrical feed must be carried out by a professional electrician.

Cables for floor infeed are available in lengths of 60" (1524 mm) or 72" (1829 mm), assuming the piece of furniture is 29⅞" (757 mm) tall and that the first duplex is located 18" (450 mm) from the surface edge.

The center base with wire management raceway (CNNNS-LBD1212WM or CNNNS-LBS912WM) is equipped with a lockable door.

Power can be fed to: the end of the work surface; the center, thanks to the wire management raceway; the storage base equipped with a wire management raceway (C_N_ _-CRE____ and C_N_ _-CRC____); the base of the 120° surface; or from any location beneath the raceway, using FFEED23 products, when the power source is in the floor.

Each electrical panel can feed 2 circuits comprising a maximum of 26 double outlets (13 per circuit).

EDGEBANDING:
Automatically applied to the top and the sides.

N Edge

(25 mm and 38 mm)
N edgebanding matches the finish specified for the surface.

K Knife Edge

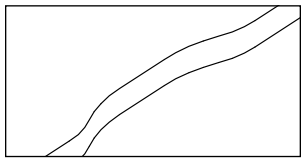
ELECTRIC HEIGHT ADJUSTABLE TABLES: ADDENDUM - C.I.T.É. - OFFICE FURNITURE SYSTEM

Electric height adjustable tables are very easy to use. They encourage active work (sitting/standing) and can be adjusted for users with different heights sharing the same workstation. Various base styles are offered.

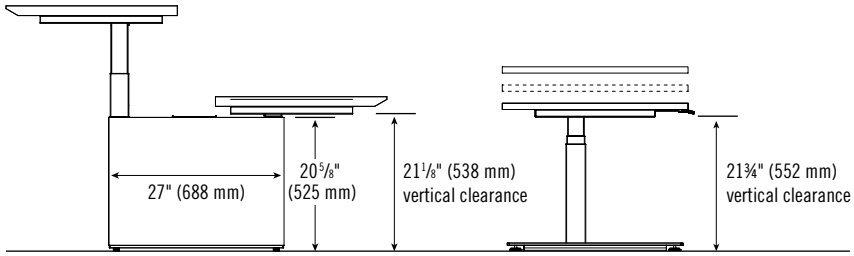
Electric height adjustment

- Control keypad is installed beneath the work surface.
- Operating speed: 1¼" (32 mm) height adjustment per second.
- Sound level: 48 dB.
- Lift capacity of 2 columns: 264 lbs (120 kg).
- Recommended functional load capacity: 125 lbs (56 kg).
- Failure to respect the loads can cause the table/desk to malfunction.
- 120" L (3048 mm) cable with plug for wall outlet.
- Meet CSA and UL standards.

Digital control keypad with memory



Smile-shaped middle cutout



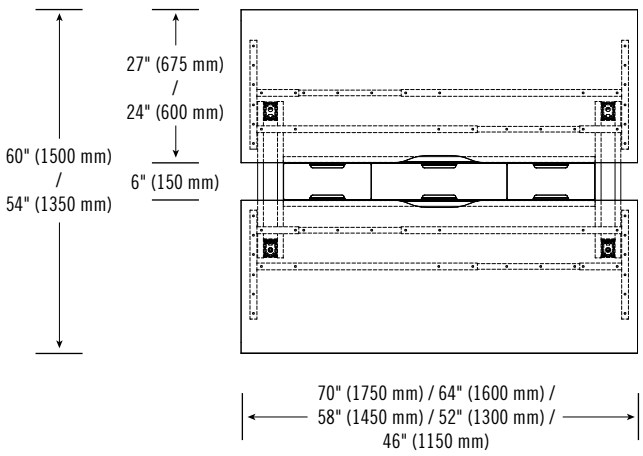
Integrated base C-base

Different base styles

	Integrated base (metal/laminate)	Freestanding C-base (metal)
		TOP 1" (25 mm)		
Lowest position	23⅜" (594 mm)	24" (607 mm)
Highest position	49" (1244 mm)	49½" (1257 mm)
TOP 1½" (38 mm)		
Lowest position	24" (606 mm)	24½" (620 mm)
Highest position	49½" (1256 mm)	50" (1270 mm)

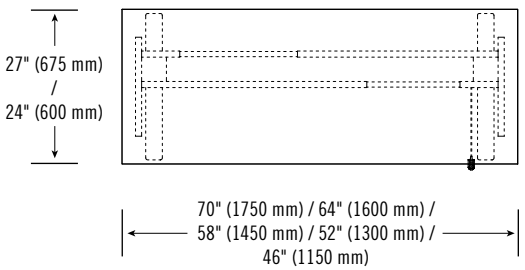
Electric height adjustable tables - integrated base

- When specified, the knife edge (K) is located on the user side only.
- Levelers with height adjustment of 1½" (38 mm).
- The grommet option on the side of the bases allows cabling to pass through horizontally between 2 double-sided tables. A flexible horizontal fabric DVW21 grommet is recommended.



Electric height adjustable tables - freestanding base

- When specified, the knife edge (K) is located on the side of the users only.
- Levelers with height adjustment of ¾" (20 mm).
- C-base: rectangular column of 2½" W x 3" D (62 mm x 80 mm). Foot of 3¼" W x 22" D (80 mm x 559 mm).



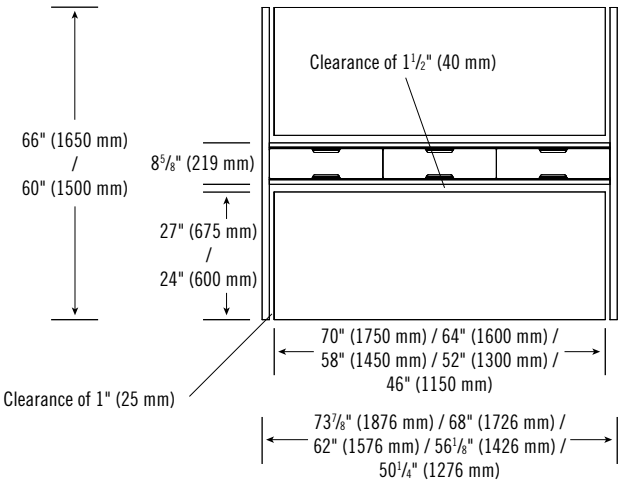
WIRE MANAGEMENT MODULES

Wire management modules and end panel
Wire management modules enable the creation of flexible and reconfigurable workstations when they are combined with electric height adjustable tables.
End panels ensure the stability of single-sided and double-sided layouts.

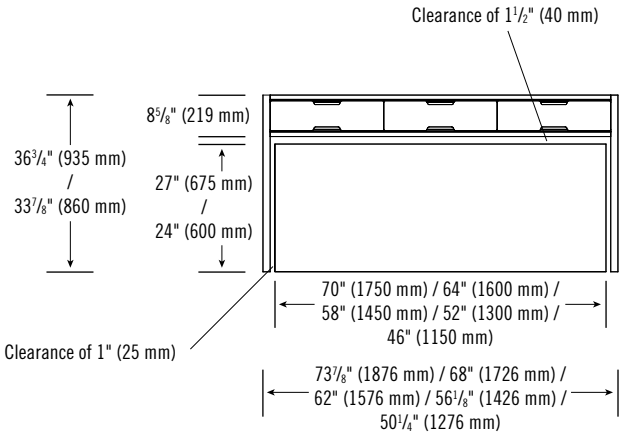
- 22" high (561 mm), corresponding to the height of tables with double-sided surfaces and integrated bases. Offers a light and more effective layout.
- 29 3/8" high (745 mm), compatible with a fixed C.I.T.É. table with 1" thick (25 mm) surfaces.
- 29 7/8" high (757 mm), compatible with a fixed C.I.T.É. table with 1½" thick (38 mm) surfaces.
- A maximum length of 24' (7.2 m) for double-sided layouts and 16' (4.8 m) for single-sided layouts is recommended, regardless of the number of sections.
- Levelers with height adjustment of 1½" (38 mm).

When the components are assembled, the overall dimensions are planned according to a space required between 2 adjacent surfaces for wire management, which prevents fingers from getting pinched and allows the installation of surface privacy screens.

Double-sided layout
- Double-sided end panel bases, widths of 60" (1500 mm) or 66" (1650 mm).

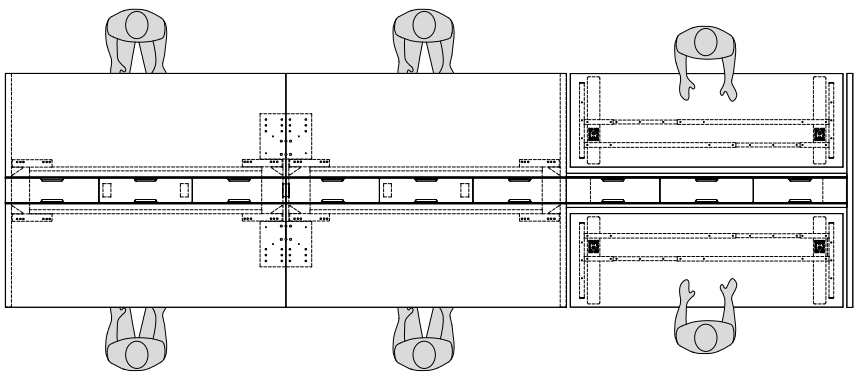


Single-sided layout
- Single-sided end panel bases, widths of 33 7/8" (860 mm) or 36¾" (935 mm).



Layout using the combination of a fixed C.I.T.É. furniture system and a freestanding wire management module.

Example of an extension to a C.I.T.É. station containing fixed existing sections:
- 1 center panel base for double-sided surfaces CNNNS-LCAD6028.
- 1 wire management module CNNNS-LBAT7229.
- 1 end panel base CNN_S-LEAD6029.
- 2 electric height adjustable tables C1NN_-RCA2770G.



SCREENS

Screens help divide space depending on the level of privacy required while adding a warm touch to a workstation. They can be installed at the back or on the side of an electric height adjustable table surface.

- Panel composite of wood fibers, cardboard and recycled PVC covered in fabric.
- Fabric choice: see the current Lacasse upholstery guide. Vinyl and leather cannot be specified for screens. Available in 1 tone only.

"DIMENSIONAL" SPECIALS

Groupe Lacasse offers its clients the possibility of making certain modifications to surface and table dimensions without having to go through the Quotations department. Certain rules apply:

- Dimensional changes are permitted within existing limits.
- No construction change may result from the dimensional change. (Ex.: addition of a base, leg or other component.)
- Refer to the **Dimensional Specials Program on page 4** of the Lacasse general price book for more details.
- If your particular situation is not eligible for the "Dimensional Specials" Program, or for any question regarding **"Dimensional Specials"**, please contact our Specials department at Quotation@groupelacasse.com.

PROCEDURE:

1. Add an "**S**" before the product code. (Ex.: **S**T5NNN-RC48_ _.)
2. Replace the dimensions of the standard unit with the required dimensions. (Ex.: ST5NNN-RC48**84** becomes ST5NNN-RC48**87**.)
3. Use the **higher unit price** from the current price list. (Ex.: If the new unit is an ST5NNN-RC4887, the price to use is the one for unit T5NNN-RC4896.)

"STANDARDIZED" SPECIALS

Addition of a non-standard cut-out for an electrical/communication module

It is possible to add a non-standard cut-out for a table without having to go through the Quotations department.

PROCEDURE:

1. Add an "**S**" before the product code. (Ex.: **S**T5NNN-RC4884.)
2. Add "**GR9**" after the product code. (Ex.: ST5NNN-RC4896**GR9**.)
3. Supply a drawing specifying the exact dimensions of the cut-out and its position on the furniture.
4. **Add $**69 to the table's list price.

Note: For reasons related to structural issues, some requests may have to be modified or refused.

Technology integration

Several electrical/communication modules are available and preconfigured as a standard option. However, many other electrical/communication modules can also be used; to be ordered separately. Refer to the examples below and to the Accessories section of the Lacasse general Price List for all available solutions.

The natural beauty of wood is revealed through variations in wood grain and in markings that make each crosspiece unique. Wood with a catalyzed polyurethane finish provides impact resistance comparable to that provided by laminate. However, intensive use or repeated rubbing could result in premature wear of the surface finish and alter the look of the product. Extra-durable electrostatic paint is used on metal parts.

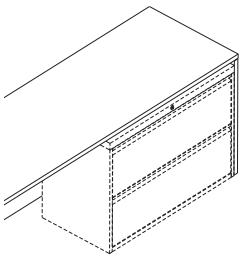
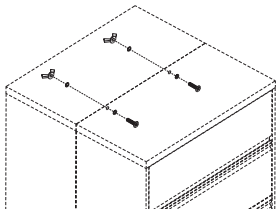
COUNTERWEIGHTS AND ANCHORS

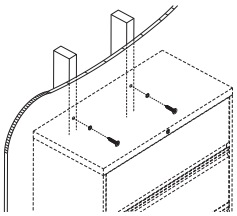
In order to meet ANSI/BIFMA standards of stability, some products must be installed under a work surface, be ganged/anchored or have a counterweight. Please see each product's Specifications section for more details.



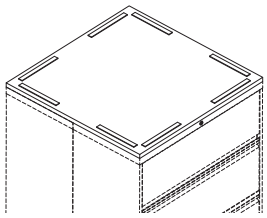
Installation under a work surface



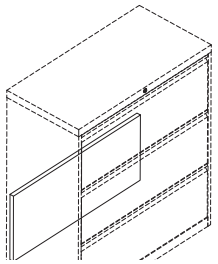
Back-to-back or side-by-side ganging*



Wall anchoring



Ganging with a laminate top



Factory-installed or optional counterweight**

*Ganging kit **RINNN-GKIT** sold separately, page 16.
**Refer to the price book for more details (see pages 15-16).

LOCKING PROGRAM

Standard Lock

- All storage units except bookcases are equipped with a single lock system. Cabinets/Lateral files combos have 2 locks.
- Each key lock has a factory-installed lock plug and key numbers are attributed in random fashion for each storage unit.
- It is possible to change lock plugs and install a keyed alike system. Master Key and Control Key also offered. For further information, contact the Groupe Lacasse Customer Service.
- The locking system accepts a key lock (standard) or an electronic lock (option).

Electronic Lock (option)

- The Versa Mini, from Numeris by Digilock, is an electronic lock intended to secure storage furniture for hospitality, retail and healthcare professionals.
- When specified in option, the electronic lock (D) is factory installed. A key lock on an existing unit can be changed for an electronic lock (see page 16).
- Installed horizontally with keypad on the left on a file and vertically installed with keypad at top on a cabinet or a wardrobe.
- The lock uses 2 small coin cell lithium batteries for an average of 50,000 actuations. The battery compartment is located within the front of the lock to allow changing batteries without unlocking or opening the door.
- The keypad interface allows the user to operate the lock with a 4 to 7-digit user code for a multitude of combinations.
- Manager Keys (required and sold separately, see page 16) provide bypass access in case the user is unable to access their storage unit. It can also operate the locks in case of battery failure. Manager Keys are programmed into the lock system by a unique Programming Key (required and sold separately, see page 16).
- The lock is programmed to assigned use functionality by default, which allows up to 20 simultaneous user codes. It can be easily changed to shared use functionality with a Programming Key.
- In shared use, the lock is designed for day use applications. The user chooses an available storage unit and operates it with a self-selected user credential code. Once the storage unit is vacated, it becomes available for a different user.
- Manager Keys are programmed into the lock system by a unique Programming Key (required and sold separately, see page 16).

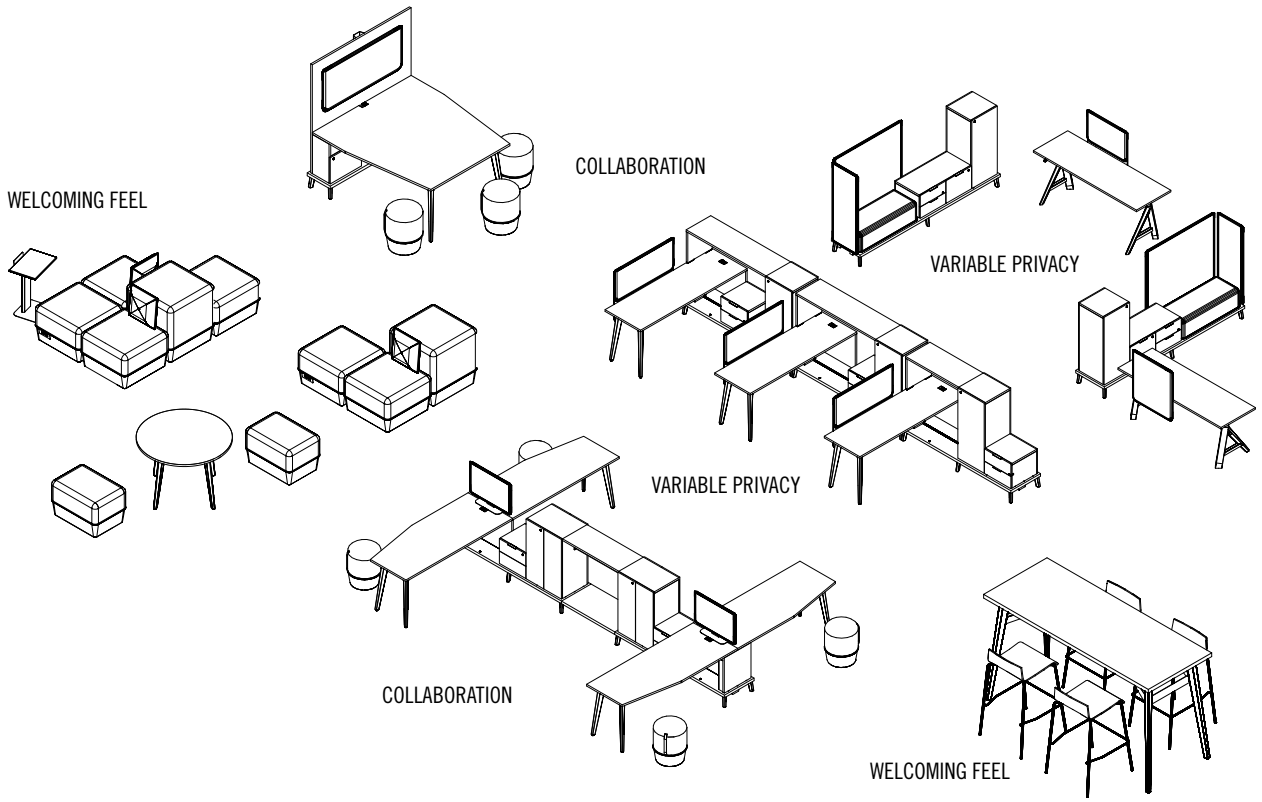
STAD OFFICE FURNITURE SYSTEM

STAD is an office furniture system that features a raised platform supporting work surfaces, storage modules, screens and raceways. Easy to specify, this collection can be continuously organized due to the angles of its collaborative surfaces and uneven seats. It seamlessly combines textures due to various materials offered (laminate, metal, wood, fabric, etc.).

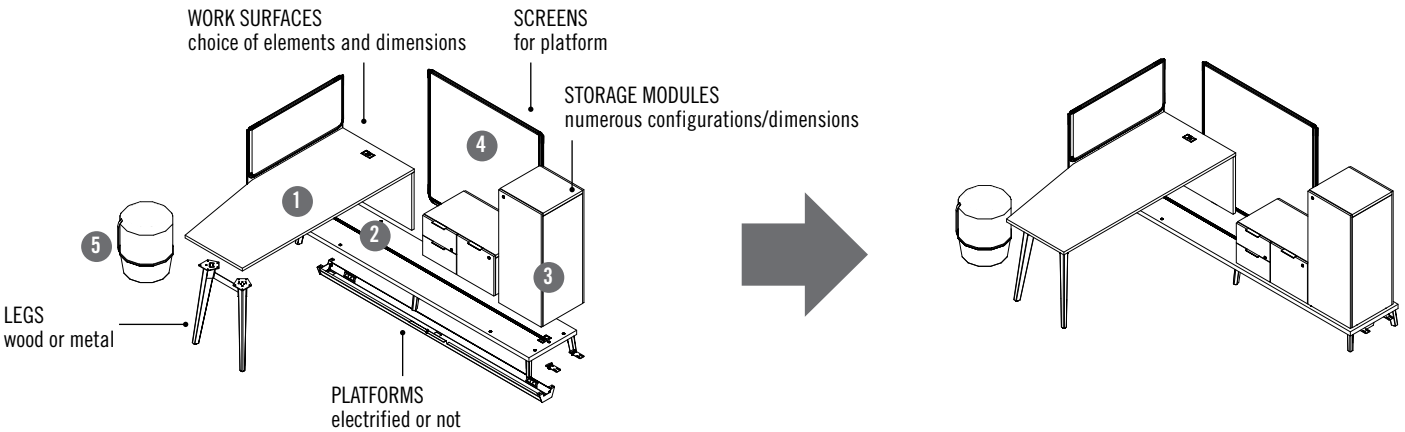
STAD offers solutions based on collaboration, a welcoming feel and variable privacy at the office.

The name STAD means “city” in Dutch and just like in a city, an office space consists of a balance between mixed or distinct work spaces, rest areas, etc.).



How to specify a STAD workstation:

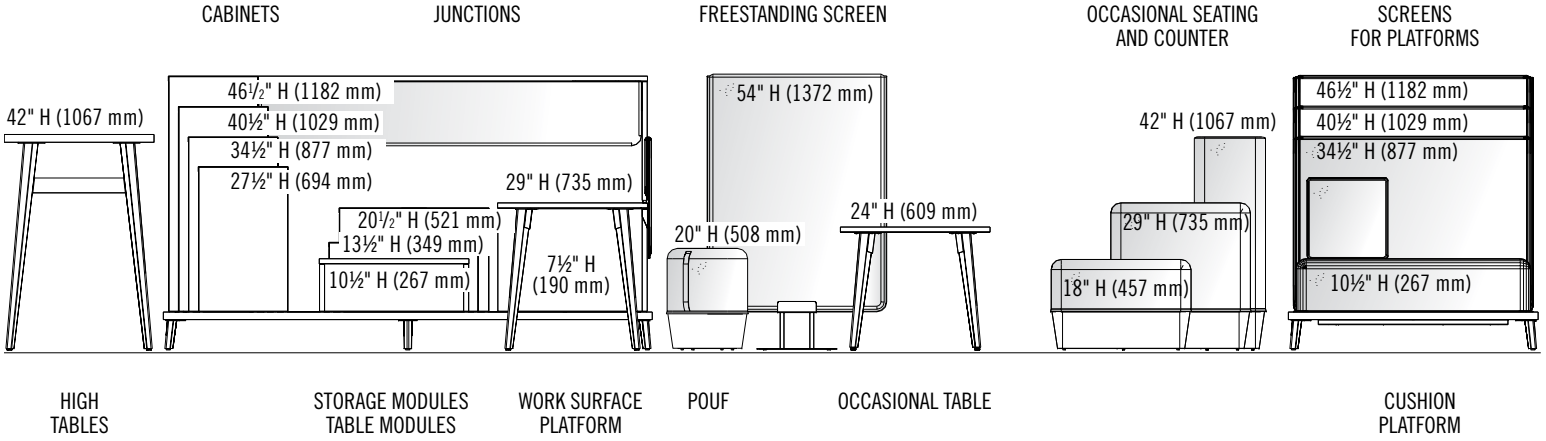
1- Choose a work surface and a set of legs (rectangular, collaborative, etc.).
2- Choose a platform dimension: 50", 62", 74" or 98" (1250, 1550, 1850 or 2450 mm) and the electrical components (raceways, cables, etc.).
3- Choose storage modules according to the needs and to the space available on the platform.
4- Add surface screens and/or a screen for a platform.
5- Complete the workstation with a chair from United Chair® and a pouf to welcome a visitor.



MODULARITY - DIMENSIONS

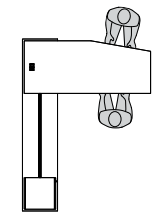
The different STAD components can be aligned at various heights and create visual coherence in the workstations due to their versatility.

Here is an overview of the main heights:

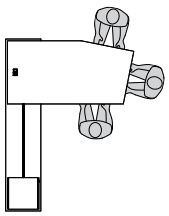


CHARACTERISTICS OF THE STAD COLLECTION

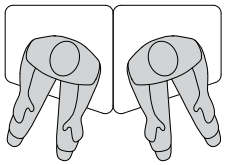
The angles of collaborative surfaces and seats offer better ergonomics and foster interaction among users.



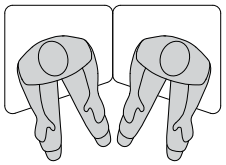
Surface with 1 angle



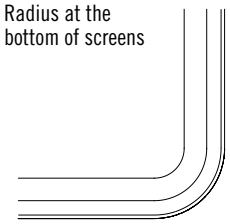
Surface with 2 angles

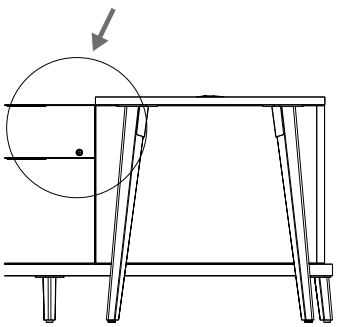


Configuration that fosters space sharing

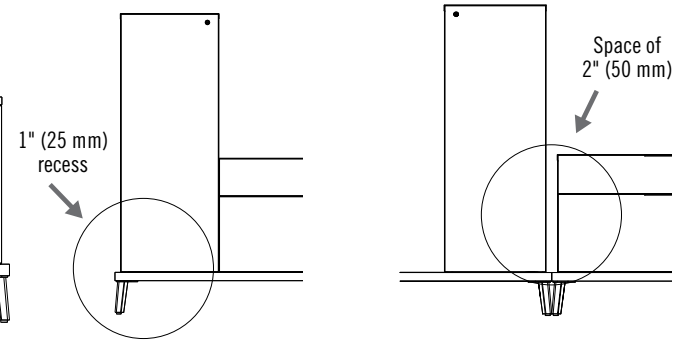


Configuration that fosters conversation

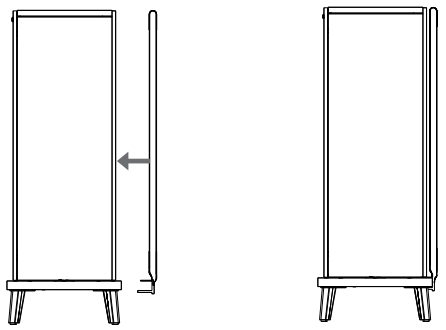




The highest storage modules have 1" (25 mm) less in height than the work surfaces once installed on the platform.



The open spaces at the end and between the 2 platforms are what participates to differentiate the STAD collection.



The open space of 1" (25 mm) on the side and at the back of the modules can be used to install screens for platforms.

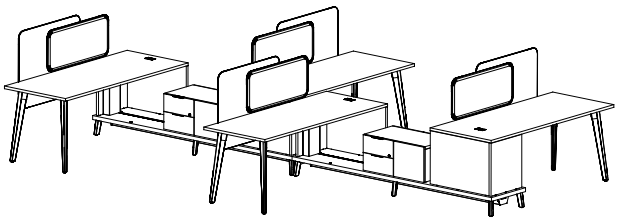
WORK SURFACES

The work surfaces are available in various shapes and sizes and are installed at the end of a platform. With such positioning, the installation of an electric system is possible and wire management to raceways under the platform is easier.

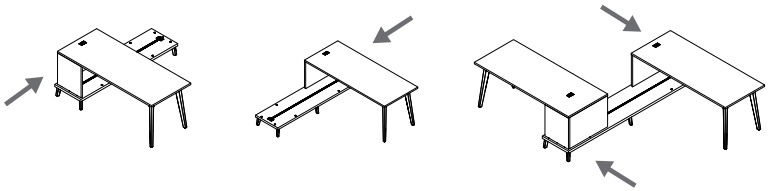
- Top 1" (25 mm) or 1½" (38 mm) thick.
- Choice of thermofused laminate or high-pressure laminate.
- 1 rectangular grommet at the end, silver finish.

Available with a thermofused module or a technology module installed on the platform and a choice of wood or metal legs of 28" H (711 mm).

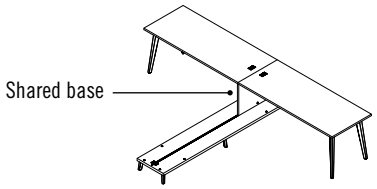
*** Leg kits must be ordered separately.**



Single work surfaces
The single work surfaces **are installed on the left or right side** of a platform or can be placed **on both sides**.



Double work surfaces
The double work surfaces share the same platform with a **shared T-shaped base**.

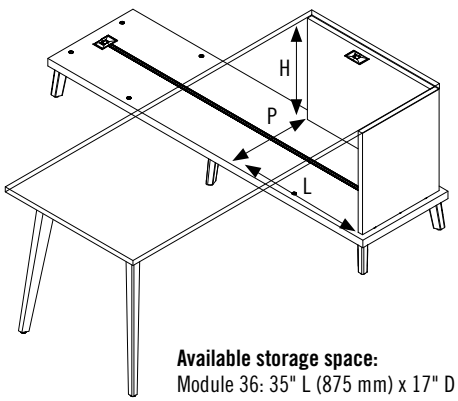


Laminate or technology module
The laminate module and the technology module are installed at the end of the platforms. The platforms have metallic inserts to accommodate them. Metal-to-metal connections guarantee the solidity of the installation. The modules can each accommodate a shelf for a laptop (DNNNN-TABLAP) or a set of electric outlets (DNNNS-4DUPC_).

LAMINATE MODULE
- L-shaped configuration, reversible for single rectangular surfaces or T-shaped configuration for double surfaces.
- Panels 1" (25 mm) thick.
- Spacers of ⅛" (3 mm) at the top and bottom.

TECHNOLOGY MODULE
- Panels 1" (25 mm) thick.
- Door ⅝" (16 mm) thick with a smooth edgebanding.
- Spacers of ⅛" (3 mm) at the top and bottom.

LAMINATE MODULE



Available storage space:
Module 36: 35" L (875 mm) x 17" D (425 mm) x 20½" H (520 mm)

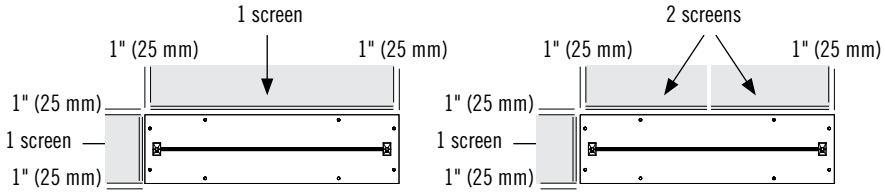
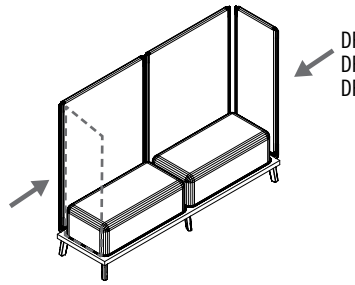
Screen positioning on the platforms
The platforms screens allow an open space of 1" (25 mm) on each side of the platform.

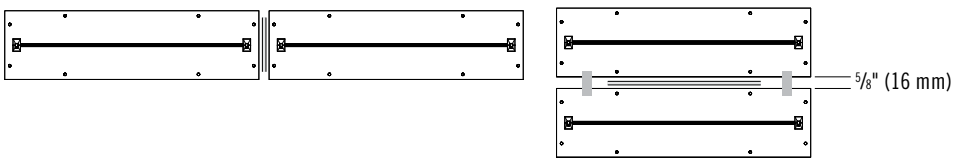
Other configurations with offset screens can be created but in some cases there can be a conflict between the screen support(s) and the central leg of the platform. Therefore, the recommendation is to use the electronic library or to contact Groupe Lacasse Customer Care Service to validate the specifications. 98" W (2450 mm) and 74" W (1850 mm) platforms: 6 legs and 62" W (1550 mm) and 50" (1250 mm) platforms: 4 legs.





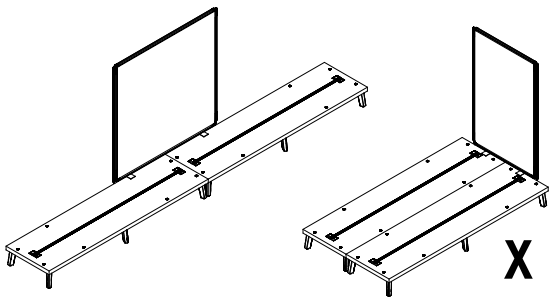
The 18" W (450 mm) screen must be installed only on the sides of a platform.

Platforms assembled with flush plates



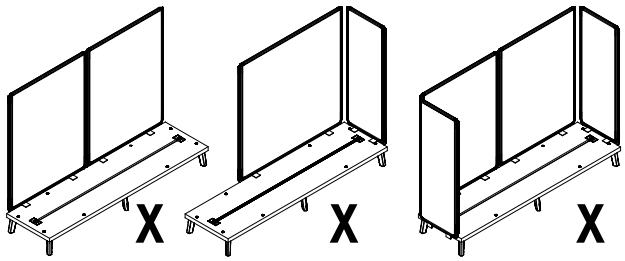
One or more screens can be installed between two platforms due to the flush plates that can be adjusted to create space for their installation.

Screens and platforms

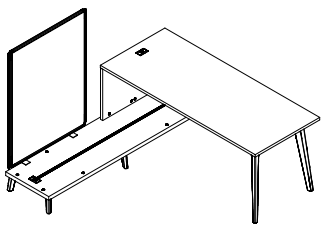


A screen can be installed on two platforms. Make sure there is no conflict with the legs.

A screen cannot be installed on the sides of two platforms except if it has a width of 36" (900 mm).



One or more screens cannot be stand-alone on a platform.



One or more screens can be stand-alone on a platform if a surface is also installed.

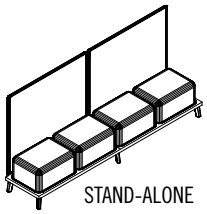
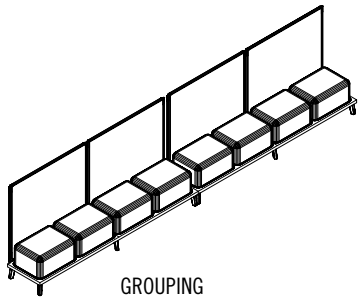
Combination of screens, cushions and platforms
The following table shows the **minimum weight requirement** on a platform with one or multiple screens according to different layouts.
- These indications apply to single platforms or to groups of platforms assembled with flush plates.
- These indications apply to electrified or non electrified platforms.



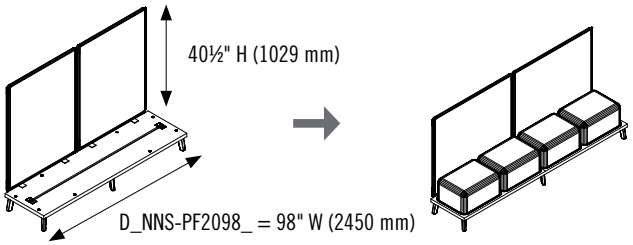
STAND-ALONE



GROUPING

Steps to validate the combination of components:
1- What is the configuration? (ex.: platform with 2 screens...)
2- What is the length of the platform? (ex.: D_NNS-PF2098_ = 98" W (2450 mm)).
3-What is the height of the highest screen on the platform? (ex.: 1 40½" H (1029 mm) screen).

EXAMPLE:



Configuration of 1 platform with 2 40½" H (1029 mm) screens at the back:
Minimum weight required = 50 lbs (23 kg).

TECHNICAL PERFORMANCES

THERMOFUSED LAMINATE (TFL):

- Depending on the furniture collection, Lacasse casegoods have TFL surfaces and side panels made of particleboard panels of 1" (25,4 mm) or 1½" (38 mm) thick finished with a mar-resistant high-performance thermofused laminate (45 lbs/ft3). The particleboard panels are laminated on both sides for proper balance.
- TFL technology consists on a decorative paper impregnated with reactive melamine resins which is thermally fused to a substrate (particleboard). The heat and pressure produces a **permanent thermal bond** between the melamine resins, the decorative paper and the substrate. The bonding process results in a clear, hard and non-porous surface.
- TFL panels, unlike wood, will not gouge or dent.
- Delamination is not possible, due to the manufacturing process.
- TFL panels carry a 25-year warranty.

HIGH-PRESSURE LAMINATE (HPL):

- Certain collections are also available with HPL surfaces made of $1\frac{1}{16}$" (27 mm) or $1\frac{9}{16}$" (40 mm) thick particleboard finished with high-pressure laminate (laminate plus a $\frac{1}{32}$" (0,8 mm) black backing).
- HPL technology consists of multiple layers of Kraft paper saturated with phenolic resin, a decorative layer of paper saturated with melamine resin, and a very thin top sheet of heavily saturated melamine resin. The high-pressure laminate sheet is then glued to a substrate (particleboard).
- HPL panels offer a good wear and impact resistance.
- HPL panels carry a 5-year warranty.

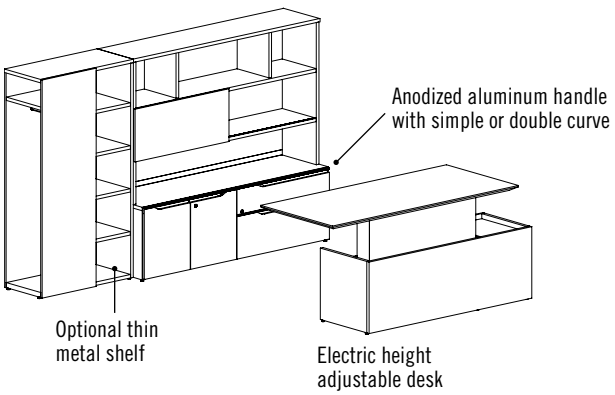
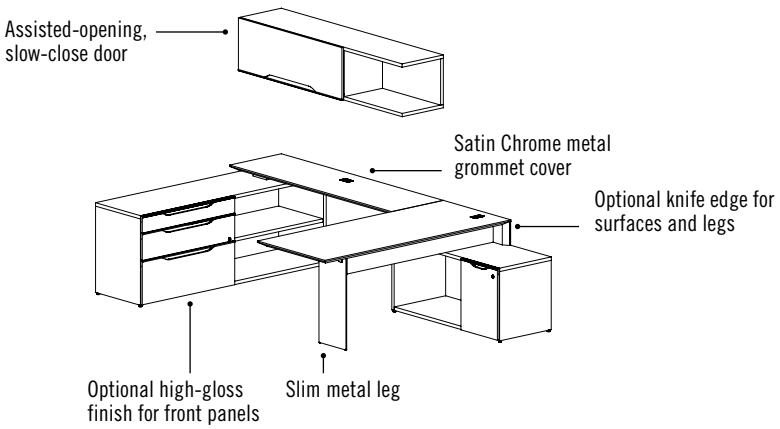
NEX COLLECTION

NEX is a stylish collection of furniture. It offers superior value and incomparable flexibility in its layout possibilities.





HEIGHT MANAGEMENT AND STACKING COMPATIBILITY

The modular nature of the NEX collection's various components enables units of different heights to be aligned so as to ensure visual consistency between work stations.
Here is an overview of the principal heights (measurements in Imperial units are nominal):

DESKS AND SURFACES

General characteristics
All desks, work surfaces and returns from the NEX collection are available with a choice of top panel 1" (25 mm) thick with smooth edgebanding or 1½" (38 mm) thick with smooth or knife edge.

Top panels have at least 1 grommet with a metal cover with a satin chrome finish (excluding the return-surfaces and the height adjustable desks). The opening of the grommet can accommodate an electrical module unless indicated otherwise (surfaces with struts).

Desks and returns 20" (500 mm) in depth are not compatible with suspended cabinet NNN_ _-161820F.

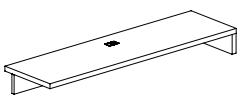
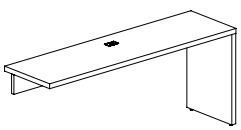
RETURNS

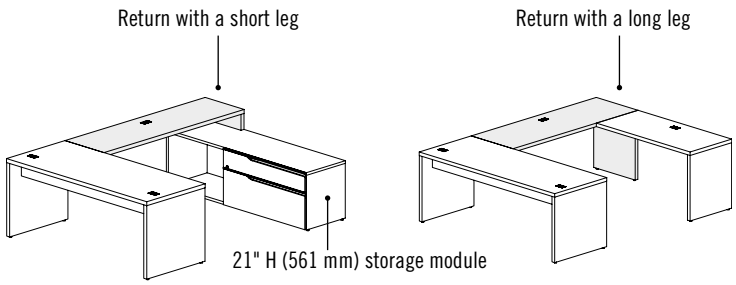
General characteristics
Returns are always connected to another surface. They are available with a short or long laminate leg and a short back, 6" (150 mm) in height with a 3" (75 mm) recess. Returns with a short leg must be installed on a 21" H (561 mm) storage module and are attached with double-sided tape. Multiple connections are possible.

Returns – short leg



Returns – long leg

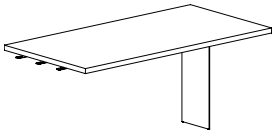




RETURN-SURFACES

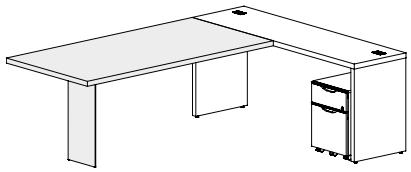
Return-surfaces can be used to create meeting surfaces that are perpendicular to a given surface. They are always connected to another surface with mounting brackets (included). Modular modesty panels with steel ties have been designed for use with them. Refer to page 15.

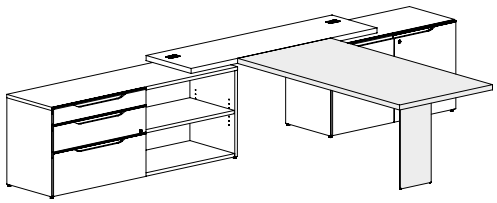
Return-surfaces



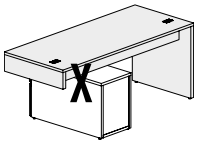
Flush plates
1 long leg - metal

Possible configurations:

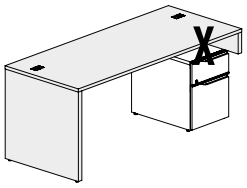




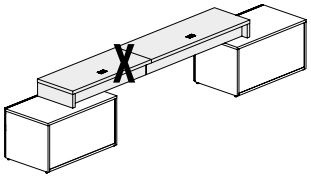
Unauthorized configurations:



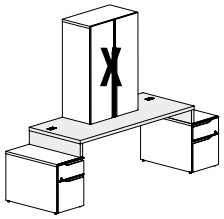
The short leg must always be placed on top of the storage module.



The storage module depth must be equal or greater than that of the surface.

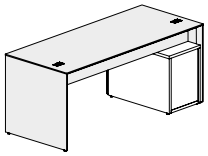


The junction between a surface and a return must lie along a low storage module.

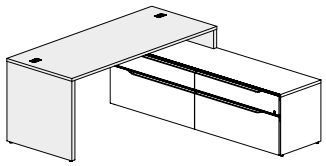


Stackables must be placed above solid structures such as desk legs or storage modules.

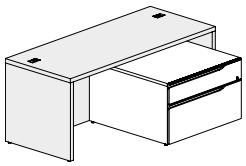
Non-recommended configurations:



It is recommended that a storage module be positioned beneath a surface and with a recess of approximately 2" (51 mm) when the surface and its legs have knife edgebanding.



Stacking certain pieces of furniture may render their drawers partially or completely inaccessible beneath the surface. It is preferable to choose a different storage configuration.



A careful selection of furniture depths helps avoid a situation where the storage module exceeds the surface depth.

WORK SURFACES WITH STRUT(S)

General characteristics
Elevated surfaces have 1" or 1½" (25 or 38 mm) thick, factory-installed laminate struts that come in a matching finish. These surfaces must be installed on 27" H (690 mm) storage modules with double-sided tape.

Elevated surfaces can accommodate modular privacy screens and modesty panels specially designed for use with them. Refer to the price list. Grommets for raised surfaces cannot accommodate electric module LGC-PCQ1USB1P.

Examples of work stations:

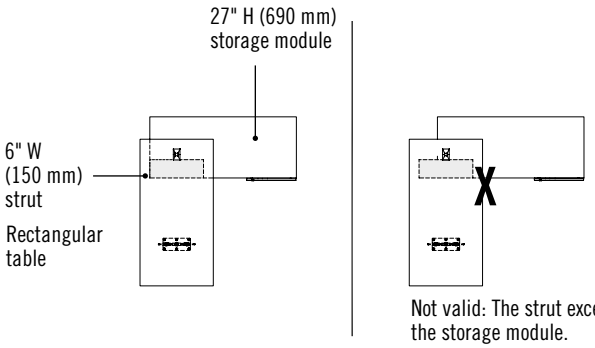
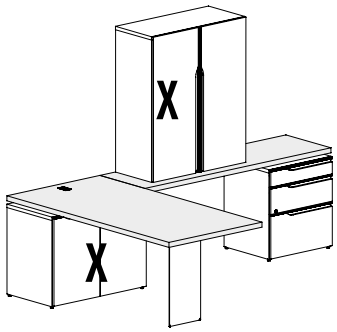
WORK SURFACES WITH STRUT(S) (cont'd)

Positioning of struts
A strut may be positioned anywhere along one or two 27» H (690 mm) storage module(s). It is important to make sure that all of its surface is in contact with the storage module(s).



Not valid: The strut exceeds the storage module.

Non-recommended configurations:



- Shelves must be placed on top of solid structures.
- No raised surface above a storage module with a door.

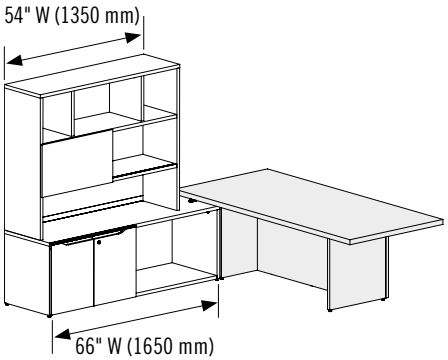
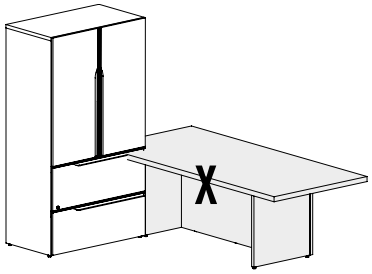
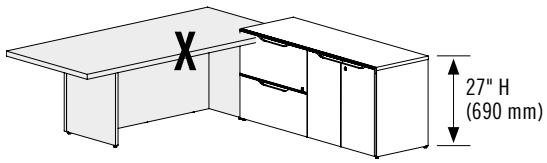
Possible configuration:



Unauthorized configurations:



It is not possible to attach top storage modules to the integrated module of height adjustable desks.



It is not possible to attach a 27" H (690 mm) storage module or a cabinet taller than 21" H (561 mm) to height adjustable desks.

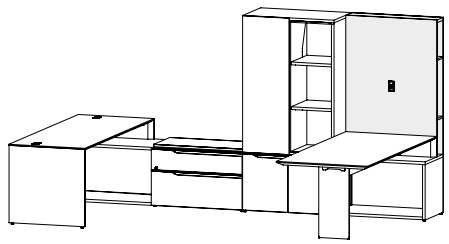
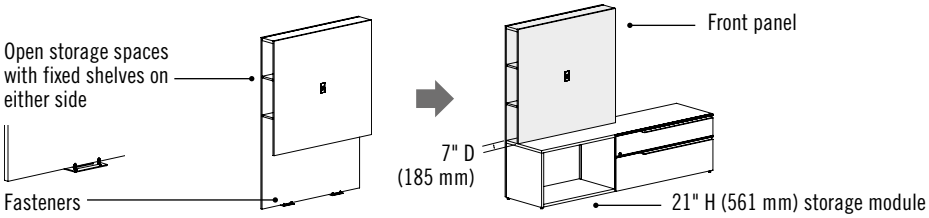
Media panels are 7" (185 mm) deep and are placed on top of 21" or 27" H (561 or 690 mm) storage modules or 29½" H (752 mm) tables. They are delivered pre-assembled and are installed using double-sided tape and metal fasteners (included). The fasteners are attached beneath a storage module or the laminate leg of a table.

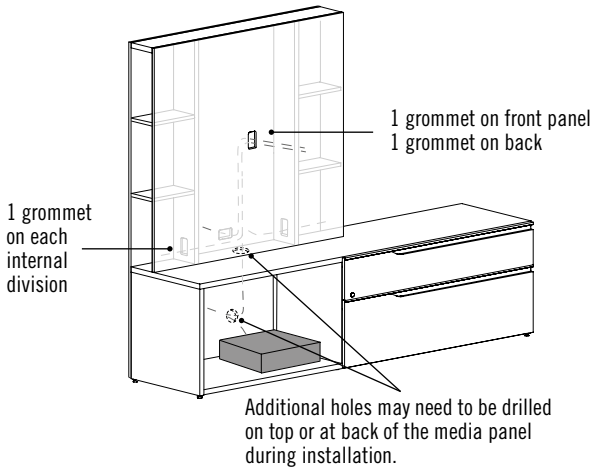




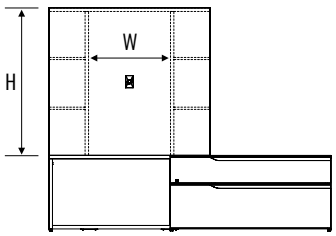
MEDIA PANELS (cont'd)

Flat-screen support and cable management
The front panel is designed to accommodate a support for a non-articulated flat screen. The installation area for such a support is solidified and its width varies according to the dimensions of the media panel. Check the width corresponding to the dimensions of the media panel selected before choosing your flat-screen support.

Wires pass through from top to bottom, left to right and front to back thanks to numerous grommets. Depending on the configuration and components of the work station and according to the electronic devices used, additional holes may need to be drilled for the passing of wires (on top or at back of the storage module) during installation.



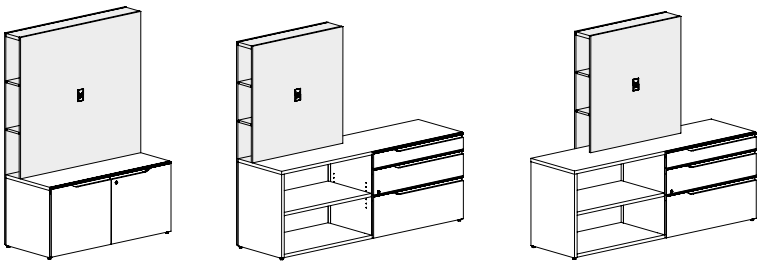
Solidified installation area for accommodating a support for a flat screen



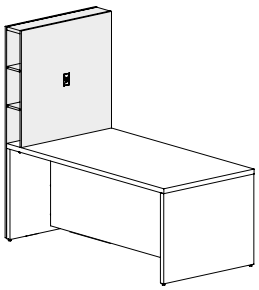
(W) Width of the fastening strip:
Media panel 48" W (1200 mm) = 24" W (610 mm)
Media panel 42" W (1050 mm) = 18" W (460 mm)
Media panel 36" W (900 mm) = 12" W (310 mm)

(H) Vertical clearance:
The height of the media panel minus the height of the furniture accommodating it.

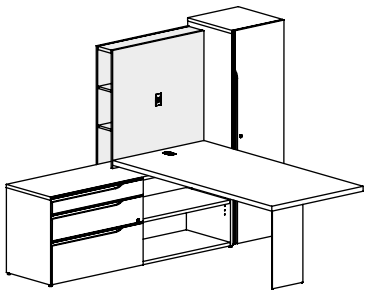
Possible configurations:



The media panel is installed on top of a 21" or 27" H (561 or 690 mm) storage module of the same width or wider. Modules with drawers do not allow the passage of wires.

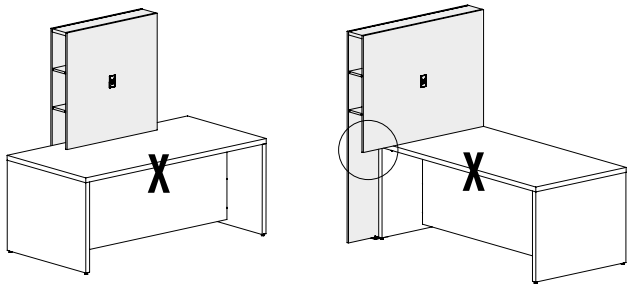


The media panel is installed on a 29½" H (752 mm) table or work surface of the same size and only on the laminate leg.



A 21" or 27" H (561 or 690 mm) storage module with media panel can accommodate a surface placed on it directly or raised with a strut.

Unauthorized configurations:



MODULAR PRIVACY SCREENS

Its well-thought-out, sleek components make it possible to create as wide a variety of stimulating work environments as one can imagine. Robust and modular, the system is easily reconfigurable to suit the evolving needs of the business and its users. PARADIGM's finishes can be selected to create a harmonious look with the numerous other collections of office furniture and metal storage units offered by Groupe Lacasse.

Here is how to specify a work environment

1. Divide the open area into workstations using the panels and their components.
2. Determine each user's electrical requirements.
3. Specify the surfaces and supports/legs based on the desired ergonomics of each workstation.
4. Specify the storage units according to user needs.
5. Complete the workstations with accessories.
6. Add chairs or upholstered furniture from our United Chair and Arold brands.

ELECTRIFICATION AND CABLE MANAGEMENT

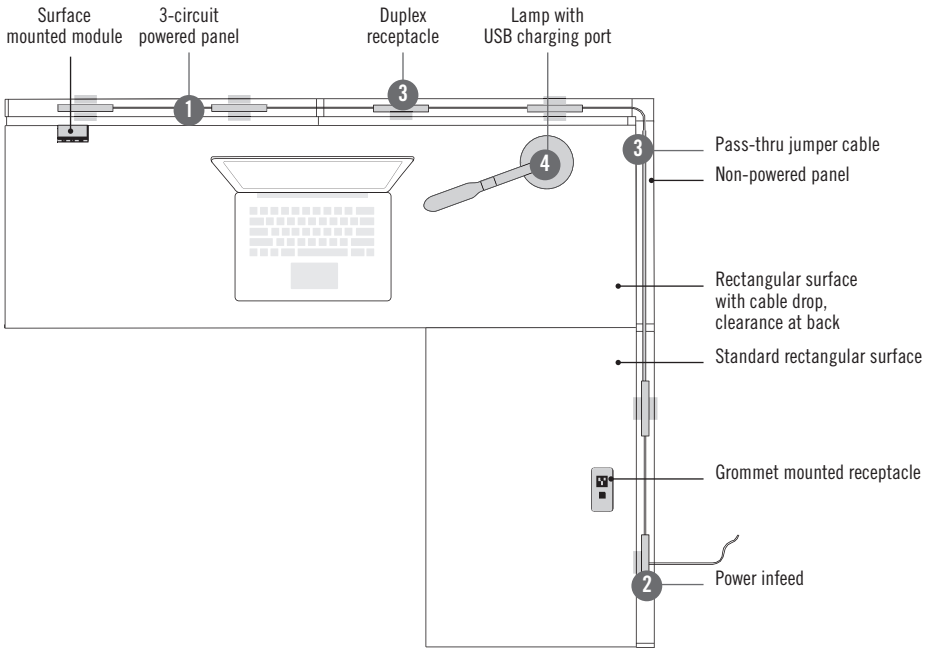
Here are the 4 steps in order to provide electric power to a workstation

STEP 1:
Define the electrical system required as a function of needs and the number of users.

STEP 2:
Determine the power infeed.

STEP 3:
Specify the number of electrical receptacles and connectors.

STEP 4:
Complete a workstation set-up with accessories.

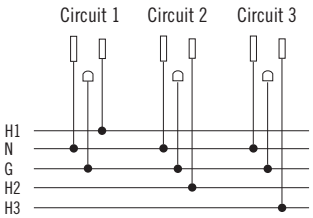


1. Define the electrical system required, according to needs and the number of users.

The choice of electrical system is based on the number of electrical and electronic devices to be plugged in at each workstation. An electrician is qualified to determine the power (amperage) used simultaneously and to recommend the best electrical system and the number of power sources required. The two electrical systems available connect only to 120 Volt / 60 Hertz power sources. Note: If the devices are in continuous use for more than 3 hours, as computers, lamps and screens generally are, it is recommended that the circuits be used at only 80% of their capacity.

3-circuit, 5-wire electrical system
The 3 circuits are common and share the same neutral wire and the same ground wire.

This modular system includes:
- 3 hot wires in 12-gauge copper.
- 1 common neutral wire in 10-gauge copper.
- 1 common ground wire in 12-gauge copper.



Compatible with single-phase and three-phase currents, respectively 240 / 120V, 208 / 120V.

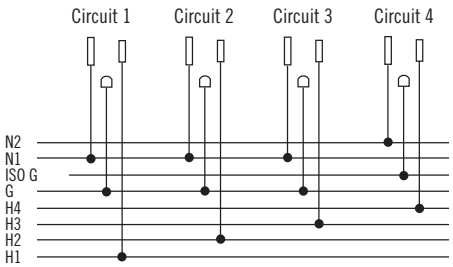
Based on the Canadian Electrical Code (CE Code) / National Electric Code (NEC):
United States: 20-amp circuit.
- 13 receptacles and a maximum of 15 amps per circuit, for a total of 39 receptacles per power source (total capacity of 60 Amps).

Canada: 15-amp circuit.
- Maximum of 10 receptacles per circuit, for a total of 30 receptacles per power source (total capacity of 45 Amps).

If necessary or based on your needs, a 1+1 system is also available. Contact Customer Service for full details.

4-circuit, 8-wire electrical system
The 4th circuit is isolated and dedicated. It has its own neutral wire and ground wire.

This modular system includes:
- 4 hot wires in 12-gauge copper.
- 1 common neutral wire in 10-gauge copper.
- 1 dedicated neutral wire in 12-gauge copper.
- 2 ground wires in 12-gauge copper.



Compatible with single-phase and triple-phase currents, respectively 240 / 120V, 208 / 120V.

Based on the Canadian Electrical Code (CE Code) / National Electric Code (NEC):
United States: 20-amp circuit.
- 13 receptacles and a maximum of 15 amps per circuit, for a total of 52 receptacles per power source (total capacity of 80 Amps).

Canada: 15-amp circuit.
- Maximum of 10 receptacles per circuit, for a total of 40 receptacles per power source (total capacity of 60 Amps).

If necessary or based on your needs, a 2+2 system is also available. Contact Customer Service for full details.

Important:
The electrical components for a 3-circuit, 5-wire system differ from those for a 4-circuit, 8-wire system. These components are not interchangeable from one system to the other. Accordingly, special attention is required during specification. Take note of whether the product code includes the digit '3' or '4'.

ELECTRIFICATION AND CABLE MANAGEMENT (cont'd)

2. Determine the power infeed.

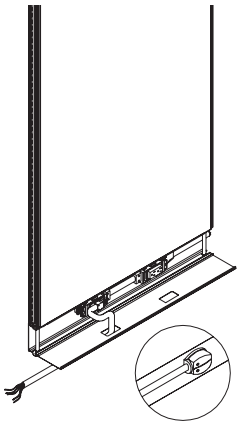
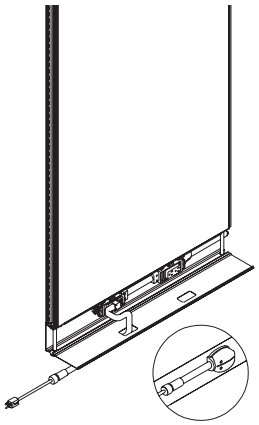
- The infeed plugs into the receptacle location.
- The plug protrudes by 1½" (38 mm).



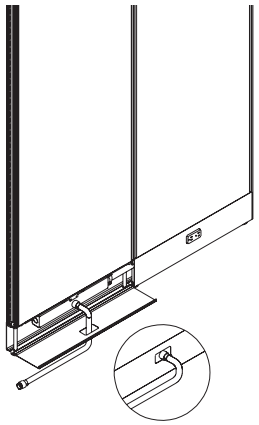
Hardwire base feed

- Plugs into the receptacle location.
- Equipped with a 72" (1829 mm) liquid tight conduit.



20-amp plug-in base feed

- Plugs into a receptacle.
- Equipped with a 24" (610 mm) cord.
- Powers circuit No. 1 only
- UL Recognized, cUL Approved.



Concealed base feed

- The installation of a concealed base feed requires a non-powered panel.
- Equipped with a 72" (1829 mm) flexible metal conduit.
- Meets the standards of the New York City Building Code.

ELECTRICITY

IMPORTANT: The electrical components for a 3-circuit, 5-wire system differ from those for a 4-circuit, 8-wire system. These components are not interchangeable from one system to the other. Accordingly, special attention is required during specification. Take note of whether the product code includes the digit '3' or '4'.

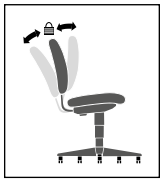
Control Features and Benefits

You spend a lot of time sitting in your chair, so why not make it as comfortable as possible?
Our seating solutions are designed to give you the support you need to be more productive... and to feel great hour after hour!

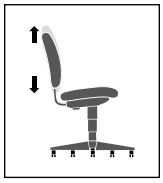
1. 360-Degree Swivel

Seat of chair rotates through 360° allowing access to desired areas within reach. Helps avoids twisting of torso.



2. Back Angle

Allows the user to select a back angle and lock it into a desired position. Helps reduce disc pressure and relaxes back muscles.



3. Back Height Adjustment

Adjust the back up and down for proper positioning of the lumbar support. Helps reduce back pain by providing an optimum lumbar support.

4. Forward Seat Tilt

Allows chair to tilt forward, changing the angle of your thighs in relation to the floor. Increases comfort while reducing pressure when doing intensive forward leaning tasks.

5. High-Performance Control

Includes a swivel/tilt with tension control, independently adjustable seat and back angle with infinite lock (any position) and forward pitch control. Enhances comfort and provides optimum supportive working position.

6. Independently Adjustable Seat and Back Angle

Adjust the seat and back angle of the chair independently of each other. For optimum custom fit, helps reduce pressure on the thighs and relaxes back muscles.

7. Knee-Tilt Control

Knee-tilt movement from a pivot point positioned at the front of the seat. Allows the user to fully recline while keeping feet comfortably on the floor. Maintains stability while avoiding pressure under the thighs.

8. Lumbar Adjustment

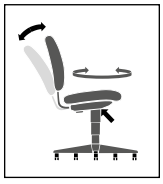
Allows the user to custom fit the chair by adjusting the lumbar support for optimum comfort.

9. Pneumatic Seat Height

Adjust the seat height up and down to allow your feet to rest flat on the floor. Avoids pressure under the thighs and eases blood circulation.

10. Seat depth adjustment

Change the depth of the seat forward and back or lock in a desired position. Accommodates the length of your thighs and keeps your back in contact with the backrest while avoiding pressure behind your knees.

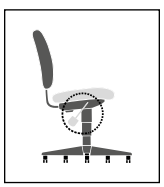


11. Swivel-Tilt Control

Chair tilts from a pivot point directly above the base center and allows the user to lean back in a seating position.

12. Synchronous Control

Automatically adjust the seat and back angle while maintaining a recline ratio. Provides optimum back support and minimal seat rise. Enhances comfort and encourages dynamic body movement.

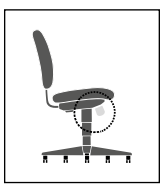


13. Tilt Lock

Lock the seat and back in an upright position.

Infinite Tilt Lock

Lock the tilt movement in any position to accommodate the user's working posture. Allows the user to lock the chair in a comfortable working position.



14. Tilt Tension

Allows the user to adjust the resistance with which the chair reclines or tilts. The user can rock the chair comfortably, without heavy pushing, reducing muscle fatigue.

C.O.M./C.O.V. POLICY

Fabric approval

All C.O.M./C.O.V. materials must be approved for use by Groupe Lacasse/ United Chair manufacturing facilities.

To request approval, one (1) yard needs to be forwarded along with the material's specifications to our Groupe Lacasse manufacturing facilities to the attention of the C.O.M./C.O.V. coordinator; shipping information can be found on the Custom Fabric Form. If California # 117 compliant, the certification must accompany the material. Please ensure that the custom fabric form is completely filled out and sent to **COM-Info@groupelacasse.com** or the test cannot be processed. The ORIENTATION section is especially important; if it fails to be completed the material will be applied as it comes off the roll.

Once the C.O.M./C.O.V. material has been tested, you will be contacted by the C.O.M./C.O.V. coordinator with the results. Upon approval, you will be directed as to any additional yardage requirements beyond the published C.O.M./C.O.V. yardage. To determine amount of upholstery needed, please refer to the C.O.M./C.O.V. designation (model specific) in the product description section of the website (**www.groupelacasse.com**). Yardage is based on 54" width roll. **Some directional or patterned material may require additional yardage.**

All materials are to be received from the vendor clearly marked with your purchase order number, VENDOR-PATTERN-COLOR and yardage. There should not be more than one piece per roll. Back orders or partial shipments will not be accepted. Rolls must not exceed 50 lbs. All C.O.M./C.O.V. material must be shipped prepaid to our manufacturing facilities. **DO NOT** ship C.O.M./C.O.V. material without positive test results.

Once approved, please forward your purchase order to **COM-Info@groupelacasse.com** and the upholstery to the specified address. Groupe Lacasse is not be responsible for any upholstery excess received or material that cannot be identified. Those will automatically be discarded or returned, on demand only, to the client at their expenses. C.O.M./C.O.V. upholstery is subject to final approval upon arrival. It is the responsibility of the customer or customer's vendor to inspect material for bias and/or flaws prior to shipment to Groupe Lacasse/United Chair.

Disclaimer

The Seller reserves the right to approve all C.O.M./C.O.V. prior to acceptance. Even after preliminary approval, the Seller reserves the right to reject C.O.M./C.O.V. if tests or early production results indicate the material will not meet the Seller's quality standards or excessive unforeseen costs will be incurred. For accepted C.O.M./C.O.V., the Seller assumes no responsibility for its appearance, quality, durability, colorfastness or any other attributes after application to a United Chair product. The Seller will determine any additional yardage, labor charges or surcharges that may be required as a condition of C.O.M./C.O.V. acceptance.

Purchase orders will not be processed until material has been approved and production cannot be scheduled until upholstery has been received. Upon completing these steps, your ship date will be determined. The Seller may split an order at the customer's request and may be subject to a minimum order charge. The Seller is not responsible for excess C.O.M./C.O.V. from completed orders unless express agreement has been reached in advance. The customer is responsible for the return of any excess material. C.O.M./C.O.V. orders may not be changed or cancelled after acknowledgement.

Please consult the C.O.M./C.O.V. coordinator by phone: 1-888-522-2773, or email at **COM-Info@groupelacasse.com** with any questions regarding this process.

Zone 0 shipments are FCA plant. Zones 1, 2, 3, 4 and 5 pricing includes freight cost to your geographical location. Alaska Zone 5: F.O.B. Washington State. Hawaii Zone 5: F.O.B. California.

On all **orders with a net value between $1,000 and $3,000** (regardless of brand and/or ship-to address), we will add a **$200 "small order fee"**. Consolidation of product collections per order(s) to reach the $3,000 net value is allowed, as long as all products and orders are shipped to the same destination/receiving location (ship-to address), the fee then will not apply regardless of shipping dates and points of origins. For individual **orders with a net value less than $1,000**, the applicable "small order fee" will be $300 unless more than one order can be combined with another one for the same ship-to address. If the case and net value is between $1,000 and $3,000, the fee will be $200.

Freight charges beyond the continental United States are the purchaser's responsibility. Shipments beyond the continental United States must deliver to a freight forwarder or forwarding carrier of your choice. It is the customer's responsibility to provide this information on purchase orders.

Storage

In the event the purchaser request postponement of shipment beyond the scheduled shipping week after the goods have become work in process, or are ready to be shipped, Groupe Lacasse LLC can take arrangements to store the goods but at the purchaser's risk and expense. Such transfer to storage shall be deemed delivery to purchaser for all purposes including invoicing and payment.

Freight claims

All FCA destination claims will be handled and filed by the Seller. In order to expedite any credit due, your help and assistance is required. Please adhere to the following guidelines.

The merchandise is carefully packed and thoroughly inspected before leaving the warehouse. Responsibility for its safe delivery is assumed by the carrier upon acceptance of the shipment. Claims for loss or damage sustained in transit must therefore be made to Groupe Lacasse LLC as follows:

A. Concealed loss or damage

Concealed loss or damage means loss or damage that does not become apparent until the merchandise has been unpacked. The contents may be damaged in transit due to rough handling even though the carton may not show external damage. When damage is discovered upon unpacking, a written request must be made to Groupe Lacasse Customer Service within 15 days of the receiving date. No disposition will be taken until approved by the manufacturer.

IMPORTANT: Groupe Lacasse's policy in concealed damage is to replace the part or complete product if necessary at no charge to the dealer. However, it is the responsibility of the dealer to provide installation of the replaced part or complete product. Therefore, no labor fees will be accepted on concealed damages.

B. Visible damage or shortage

Any external evidence of damage or shortage must be noted on the freight bill or express receipts and signed by the carrier's agent. Failure to adequately describe such external evidence of damage or shortage may result in refusing to honor a damage claim. When damage or shortage is discovered, a written request must be made to Groupe Lacasse Customer Service within 5 days of the receiving date.

For claims, please contact **Groupe Lacasse Customer Service** by phone at **1-888-522-2773** or by fax at **1-888-248-1865**.

This warranty does not apply to "normal wear and tear", abuse, damage caused by a carrier, damaged caused by transport of product from one site or location to another and alterations to the product not expressly authorized by the Seller. It also does not apply to "Customer's Own Material", "Groupe Lacasse Graded-In Program" and "SPL" fabric, (i.e., material specified by the buyer that is not a standard United Chair product offering) used in the manufacture of United Chair products. The Seller does not warrant the matching of color, grain or texture except to within commercially-acceptable standards. For the purposes of warranty claims, upholstery fabrics that have been dropped from United Chair stocked fabric program will be supported for 6 months from the date of discontinuation. For fabrics that are no longer available from the manufacturer, substitute fabrics will be used for warranty claims.

A product will not be considered defective, and it will not be subject to the warranty, if the product is not installed or used as recommended in the Seller's written planning, installation or user guides. The warranty does not apply to any United Chair seating product that is used by an individual weighing over 310 lbs. (141 kg). Warranty will be void if identification label is removed under the chair or if a proof of purchase cannot be supplied, such as an order number or an invoice.

Except as stated above, the Seller does not make any express or implied warranties as to any product and in particular does not make any warranty of fitness for any particular purpose except for use as standard office furniture. The remedies described above are the buyer's exclusive remedies for any product defect. The Seller shall not be liable for consequential, economic, indirect, punitive or incidental damages arising from any product defect.

*The applicable warranty period assumes that the product is used an average of not more than 40 hours per week. If a product is used more than this, the applicable warranty period shall be reduced in proportion to the increased usage. For example, if casters are used an average of 50 hours per week, the applicable warranty period for the casters shall be reduced to four years.

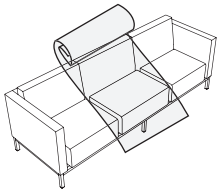
Application policy for upholsteries



Vertical alignment or standard position

(Railroaded)

IMPORTANT:

Please note that upholsteries on all our commercial seats will be applied vertically (or standard), the same way the upholstery material unrolls. For reasons of size and optimization of the material, some of our collections with upholstered seats are upholstered horizontally (or with the selvage on top). With some exceptions, this is the opposite direction of the one illustrated in our upholstery cards. Below is a chart showing the direction rolls are applied on every product. You can also consult the symbols under the icons of products shown in this price list.

MODULAR / CONFERENCE AND PUBLIC AREAS

SPECIFICATIONS

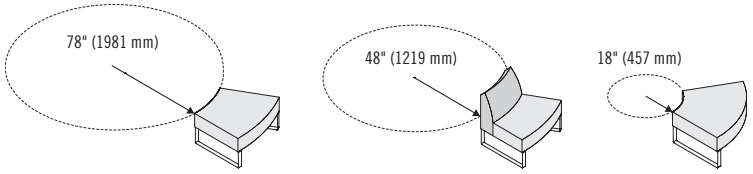
- All models ship assembled except high back and wood leg models. Assembly of legs and the optional tablet is required on site.
- Fabric/fabric, fabric/vinyl and vinyl/vinyl upholstery is only available for the double ogive and armchairs. The first upholstery code is for the backrest, the second upholstery code is for the seat.
- If dual upholstery combination is from two different grades, list price is the highest grade of the two.
- Leather is not available.
- Metallic Silver electrical modules provide 2 power outlets and 2 USB 2.1 connectors. All electrical modules are rectangular (including the one for HRTM36), with the exception of ottomans and round tables that will include a circular module. Specify this option by adding **PC, PCL** or **PCR** depending on the model (maximum of 1 per unit). The modules come installed.
- The optional 9" (229 mm) deep laminate back tablets are installed at a height of 42" (1067 mm).
- Please refer to the Lacasse Sampler for laminate choices.
- Please refer to the Arold Accessories Addendum for information on ganging brackets.
- C.O.M./C.O.V. available. Please refer to page 47 of the current Arold Price Book.

CALCULATING RADIUS:

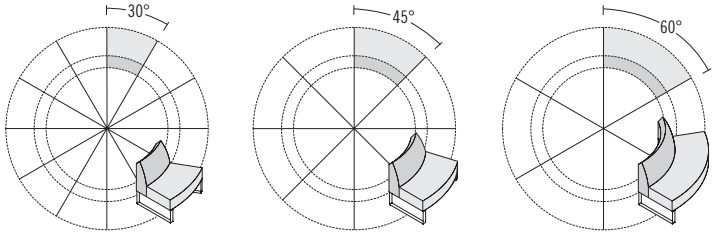
The radius is the linear distance calculated from the center of the circle (point 0) to the inner circumference of the module.



CALCULATING DEGREES:

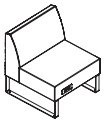
The degree of the angle is calculated by dividing the entire circumference (360°) by the number of modules. E.g.: 360° divided by 6 modular units provides an angle of 60°.

Thus, 12 modules of 30° form a circle (360°).



ELECTRICAL MODULE:

Specify the position of the electrical module based on the model type.

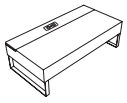


Rectangular electrical module **PC**.

Positioned on the front right side, once seated.

Rectangular electrical module **PCL** and **PCR**.

Positioned on the side of the back of a wedge chair, once seated. Specify PCL (PC module on left) or PCR (PC module on right).



Rectangular electrical module **PC**.

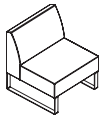
Positioned in the middle of the laminate surface, with the exception of the HRTM36, which will be positioned near the middle of the half-moon shaped surface.

Round electrical module **PC**.

Positioned in the center of the laminate surface.

LEG OPTIONS:

9½" (241 mm) height for Hip Hop and Hip Hop High Back products and 6" (152 mm) Hip Hop Junior products.



Standard leg **E**

Steel, curved.

Optional leg **K**

Laser cut steel. (Not offered on Hip Hop Junior products.)

Optional leg **W**

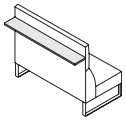
Wood, stained. 2 colors are offered. Hip Hop products with metal legs cannot be retrofitted with wood legs. (Not offered on Hip Hop Junior products.)

LAMINATE BACK TABLET:

To order and indicate an optional laminate back tablet, simply add a laminate code.

Order example: HC60H-E8-AM24-AM24-**SNO**

When a back laminate tablet is not required, specify **NA**.



GANGING RULE:

As indicated in this list, and for stability purposes, some modules must be ganged to another module.

The HC30HBA and HC60HBA modules cannot be ganged because they are separated by lateral privacy arms.

Please refer to the Arold Accessories Addendum for information on ganging brackets.

C.O.M./C.O.V. Policy

Fabric approval

All C.O.M./C.O.V. materials must be approved for use by Groupe Lacasse/Arold manufacturing facilities. In order to determine pre-approval, please contact the C.O.M./C.O.V. coordinator at 1-888-522-2773.

To solicit approval, one yard (0,9144 metre) need to be forwarded to below address along with the material's specifications to the attention of the C.O.M./C.O.V. coordinator. If California # 117 compliant, the certification must accompany the material. Please ensure that the custom fabric form is completely filled out and sent to the C.O.M./C.O.V. coordinator or the test cannot be processed. The ORIENTATION section is especially important; if it fails to be completed the material will be applied as it comes off the roll.

Groupe Lacasse/Arold
C/O COM Coordinator
175, Saint-Pierre
Saint-Pie, QC J0H 1W0
Canada

Once the C.O.M./C.O.V. material has been tested, you will be contacted by the C.O.M./C.O.V. coordinator with the results. Upon approval, you will be directed as to any additional yardage requirements beyond the published C.O.M./C.O.V. yardage. To determine amount of upholstery needed, please consult this price list in the *Documents* section of "Arold COM-COV-SPL Requirements" on our website (www.groupelacasse.com). Yardage is based on 54"/1,38 m width roll. Some directional or railroaded material may require additional yardage.

All materials are to be received from the vendor clearly marked with your purchase order number, VENDOR-PATTERN-COLOR and quantity of yards. There should not be more than one piece per roll. Back orders or partial shipments will not be accepted. Rolls must not exceed 50 lbs. (22,7 kg). All C.O.M./C.O.V. material must be shipped prepaid to our manufacturing facility. DO NOT ship C.O.M./C.O.V. material without positive test results.

Once approved, please forward your purchase order to the C.O.M./C.O.V. coordinator (fax: 1-888-248-1865) and the upholstery to the specified address. Surplus material, unused material or material that cannot be identified will be discarded after 60 days. C.O.M./C.O.V. upholstery is subject to final approval upon arrival. It is the responsibility of the customer or customer's vendor to inspect material for bias and/or flaws prior to shipment to Groupe Lacasse/Arold.

Disclaimer

The Seller reserves the right to approve all C.O.M./C.O.V. prior to acceptance. Even after preliminary approval, the Seller reserves the right to reject C.O.M./C.O.V. if tests or early production results indicate the material will not meet the Seller's quality standards or excessive unforeseen costs will be incurred. For accepted C.O.M./C.O.V., the Seller assumes no responsibility for its appearance, quality, durability, colorfastness or any other attributes after application to a Arold product. The Seller will determine any additional yardage, labor charges or surcharges that may be required as a condition of C.O.M./C.O.V. acceptance.

Purchase orders will not be processed until material has been approved and production cannot be scheduled until upholstery has been received. Upon completing these steps, your ship date will be determined. The Seller may split an order at the customer's request and may be subject to a minimum order charge.

The Seller is not responsible for excess C.O.M./C.O.V. from completed orders unless express agreement has been reached in advance. The customer is responsible for the return of any excess material. C.O.M./C.O.V. orders may not be changed or cancelled after acknowledgement.

Please consult the C.O.M./C.O.V. coordinator (1-888-522-2773) with any questions regarding this process.

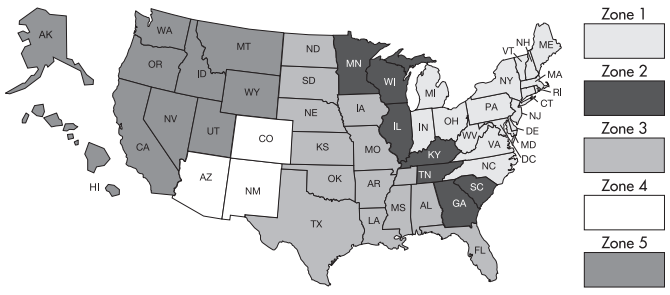
Ship dates and delays

If the Seller cannot ship products due to causes beyond its reasonable control (such as casualty, acts of nature, labor disputes, or accident; inability to obtain necessary labor, material or transportation; changes requested by the customer), the ship date will be extended to compensate for the delay as determined by the Seller.

Routing

Unless otherwise specified by the buyer and agreed to by Groupe Lacasse LLC, the latter reserves the right to select the route, method of shipment and carrier. Customer requests for special carrier, method of shipment and/or routing will be shipped freight collect.

Transportation policy



Zone 0 shipments are FCA plant. Zones 1, 2, 3, 4 and 5 pricing includes freight cost to your geographical location. Alaska Zone 5: F.O.B. Washington State. Hawaii Zone 5: F.O.B. California.

On all **orders with a net value between $1,000 and $3,000** (regardless of brand and/or ship-to address), we will add a **$200 "small order fee"**. Consolidation of product collections per order(s) to reach the $3,000 net value is allowed, as long as all products and orders are shipped to the same destination/receiving location (ship-to address), the fee then will not apply regardless of shipping dates and points of origins. For individual **orders with a net value less than $1,000**, the applicable "small order fee" will be $300 unless more than one order can be combined with another one for the same ship-to address. If the case and net value is between $1,000 and $3,000, the fee will be $200.

Freight charges beyond the continental United States are the purchaser's responsibility. Shipments beyond the continental United States must deliver to a freight forwarder or forwarding carrier of your choice. It is the customer's responsibility to provide this information on purchase orders.

Storage

In the event the purchaser request postponement of shipment beyond the scheduled shipping week after the goods have become work in process, or are ready to be shipped, Groupe Lacasse LLC can take arrangements to store the goods but at the purchaser's risk and expense. Such transfer to storage shall be deemed delivery to purchaser for all purposes including invoicing and payment.

Freight claims

All FCA destination claims will be handled and filed by the Seller. In order to expedite any credit due, your help and assistance is required. Please adhere to the following guidelines.

The merchandise is carefully packed and thoroughly inspected before leaving the warehouse. Responsibility for its safe delivery is assumed by the carrier upon acceptance of the shipment. Claims for loss or damage sustained in transit must therefore be made to Groupe Lacasse LLC as follows:

A. Concealed loss or damage

Concealed loss or damage means loss or damage that does not become apparent until the merchandise has been unpacked. The contents may be damaged in transit due to rough handling even though the carton may not show external damage. When damage is discovered upon unpacking, a written request must be made to Groupe Lacasse Customer Service within 15 days of the receiving date. No disposition will be taken until approved by the manufacturer.

IMPORTANT: Groupe Lacasse's policy in concealed damage is to replace the part or complete product if necessary at no charge to the dealer. However, it is the responsibility of the dealer to provide installation of the replaced part or complete product. Therefore, no labor fees will be accepted on concealed damages.

B. Visible damage or shortage

Any external evidence of damage or shortage must be noted on the freight bill or express receipts and signed by the carrier's agent. Failure to adequately describe such external evidence of damage or shortage may result in refusing to honor a damage claim. When damage or shortage is discovered, a written request must be made to Groupe Lacasse Customer Service within 5 days of the receiving date.

For claims, please contact **Groupe Lacasse Customer Service** by phone at **1-888-522-2773** or by fax at **1-888-248-1865**.

Installers can be contracted through one of the Seller's dealer or affiliate on a separately negotiated basis.

B. Service

Service requests for design, installation, relocation, storage, trade-in, etc. are handled by the local authorized dealer. Contact the local authorized dealer for more details.

C. California Bulletins #117 and #133 (Seating)

The warranty, which runs from the date of manufacture, covers defects in materials and craftsmanship found during normal usage of products during the applicable warranty period.

Warranty:

Groupe Lacasse LLC warrants its products, from the date of invoice, to be free from defects in material and workmanship for as long as the original purchaser owns it; proof of delivery being the only official document accepted by Groupe Lacasse LLC for any claim. The Seller does not warrant the matching of colour, grain or texture except to within commercially acceptable standards. For the purposes of warranty claims, upholstery fabrics that have been dropped from Arold stocked upholsteries will be supported for 6 months from the date of discontinuation. For fabrics that are no longer available from the manufacturer, substitutes will be used for warranty claims.

A product will not be considered defective, and it will not be subject to the warranty, if the product is not installed or used as recommended in the Seller's written planning, installation or user guides. Warranty will be void if identification label is removed under the chair or if a proof of delivery cannot be supplied.

Except as stated above, the Seller does not make any express or implied warranties as to any product and in particular does not make any warranty of fitness for any particular purpose except for standard use of no more than 40 hours per week. The remedies described above are the buyer's exclusive remedies for any product defect. The Seller shall not be liable for consequential, economic, indirect, punitive or incidental damages arising from any product defect.

* The applicable warranty period assumes that the product is used an average of not more than 40 hours per week. If a product is used more than this, the applicable warranty period shall be reduced in proportion to the increased usage. For example, if casters are used an average of 50 hours per week, the applicable warranty period for the casters shall be reduced to four years.

Once the order has been placed, fill out a "custom upholstery form" for each COM/COL textile and e-mail to **orders@viaseating.com**. This must include your PO#. This form will help ensure correct application of your COM/COL.

All COM/COL must be shipped to:

ATTN: FABRIC CHECK-IN,

Your COM/COL received by Via Seating must be clearly marked, containing customer's name, purchase order number (PO#) and, when applicable, Via Seating order #.

COM/COL APPROVAL PROCESS

Via Seating assumes no responsibility for the durability or tailoring quality of any COM or COL. Directional covers, in particular, may not meet your satisfaction due to the design of certain products. Please be advised that products upholstered in COM/COL are not subject to return to Via Seating. Via Seating reserves the right to reject COM fabrics that, in Via Seating's opinion, are unsuitable for its products. Via Seating can determine this within 48 hours of receipt of the COM/COL sample.

RECEIPT OF COM/COL TO Via Seating

Under no circumstances will Via Seating be responsible for shortages or flaws in the material or other such problems. Via Seating will not be responsible for any costs associated (e.g. return freight and/or restocking charges) with rejected COM or COL materials. Once the COM has been accepted, Via Seating assumes no responsibility for its overall appearance, flammability, normal durability, colorfastness, material defects, color inaccuracies, dye lot variations, or any other flaws related to the fabric quality after upholstered on a Via Seating product. If you have doubts of the ultimate appearance of a certain covering, please order a sample chair upholstered in the specific COM or COL.

COM/COL WARRANTY STATEMENT

All COM & COL textiles applied to Via Seating product orders will not be covered under Via Seating's warranty. Any warranty claims need to be made directly to the original vendor of the textile. Via Seating recommends that the purchaser thoroughly test any COM & COL with all cleaning agents that will be used on it prior to using.

Any returned COM/COL will be paid for by the customer.

COM Calculation

BREAKING DOWN HOW TO CALCULATE TOTAL CUSTOMER'S OWN MATERIAL (COM) NEEDED PER ORDER

COM YARDAGE LISTED IN PRICE BOOK

COM yardage requirements shown in the Via Seating price book are based on non-directional textiles with a width of 54". Fabrics less than 54" wide or those requiring matching stripes, prints, or matching large pattern designs will require additional material.

COM WIDTH & REPEAT TABLE

FABRIC WIDTH	NON-DIRECTIONAL FABRIC	PATTERNS CONTAINING STRIPES, PLAIDS OR PATTERNS WITH REPEATS			
		2" - 14" REPEAT: ADD FABRIC	**15" - 24"** REPEAT: ADD FABRIC	**25" - 27"** REPEAT: ADD FABRIC	**28" - 36"** REPEAT: ADD FABRIC
54"	0%	10%	15%	20%	25%
50"	10%	20%	25%	30%	35%
48"	15%	25%	30%	35%	45%
45"	40%	50%	55%	60%	65%
36"	50%	60%	65%	70%	75%

We will be happy to supply yardage requirement quotes for large quantities of material where economies may be realized. Please contact Via Seating client accounts for a requirement quote. Call **1-800-433-6614 (press 1 for client accounts)** or by e-mailing your client accounts specialist.

STEPS FOR CALCULATING YOUR COM

STEP 1: TOTAL NUMBER OF YOUR MODELS

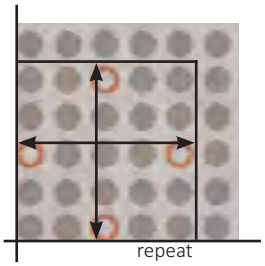
Set how many of an model you will order.

STEP 2: COM FOR YOUR MODEL

Find the COM yardage requirement for your model. This information is listed in the BASE MODEL table in each series. Also see COM/COL information by different seat size options, upholstered arms and seat/back multi-use additions on the series' pricing page.

STEP 3: DETERMINE WIDTH & REPEAT

Make adjustments to the yardage based on your textile's width & repeat. The width is the distance from one selvage edge to the other. The repeat is the length between the first and additional appearance of the same element within a design. Select your multiplier based on width and repeat using the "COM WIDTH & REPEAT TABLE". This amount needs to be added to the total yardage sent.



STEP 4: ROUND TOTAL YARDAGE

Round to the nearest half yard. This is the total amount of COM yardage that needs to be sent to Via Seating.

example of total yardage for an order
50 run II mesh mid back chairs (model #971)
971 only has a seat COM of 1.0 yd per seat. 50 chairs x 1.0 yd = 50.0 yd
width is 54" repeat is 15" multiplier is 15% 50 yd + (50 yd x 15%) = 57.5 yd
57.5 yd total will need to be shipped to cover the seats on 50 run II mesh mid back chairs (#971)

Cleaning & Care

OVERALL CARE GUIDELINES

- We recommend that you always read the manufacturer's directions printed on all cleaning agents thoroughly before using and follow those guidelines as they are stated.
- Before using any new cleaning product test it out in an inconspicuous spot on the chair.
- If you notice a stain on your chair, try to remove it immediately. Letting it sit may cause the stain to sink into the material, making it more difficult to remove.

PLASTICS ("POLY")

- For general cleaning, gently wipe the plastic with a dry, clean, lint-free cloth lightly wet in a soap-and-water mixture.
- For any stains, wet a dry, lint-free cloth lightly in white distilled vinegar and wipe the area until the stain is gone.
- For a deeper stain, use a soft-bristle brush wet in a soap and water mixture to wipe gently at the stain. Avoid scrubbing too hard as this can create scratch marks.

MESH

- For general cleaning, gently wipe the mesh with a dry, clean, lint-free cloth.
- Vacuum up the entire back of the chair to remove any dust/dirt/crumbs that may be hidden in the mesh. Take your lint-free cloth, dampen it in any water-based cleaning agent and gently dab the area where the stain is. Do not scrub across the mesh as this may cause the mesh to fray. Continue to dab at the stained area until the stain is soaked up.

FABRIC

- For best care and maintenance, we recommend first checking the fabric manufacturer's website for the best cleaning and care guidelines.
- For general cleaning, gently wipe the fabric with a dry, clean lint-free cloth.
- Vacuum up the entire back of the chair to remove any dust/dirt/crumbs that may be hidden in the upholstery. Take your lint-free cloth, damp it in any water-based cleaning agent and gently rub the area where the stain is. Dry the upholstery with a clean lint-free cloth once you're finished.

VINYL

- For best care and maintenance, we recommend first checking the vinyl manufacturer's website for the best cleaning and care guidelines.
- For general cleaning, gently wipe the vinyl with a dry, clean lint-free cloth.
- Wet your soft-bristled brush in the warm water and mild soap mixture. Do not use detergents as this can change the look & feel of the vinyl. Moderately scrub the stain with the wet bristle brush. Wipe the loosened stain off with a lint-free cloth.

LEATHER

- For best care and maintenance, we recommend first checking the leather manufacturer's website for the best cleaning and care guidelines.
- For general cleaning, gently wipe the leather with a dry, clean lint-free cloth.
- For any stains, wet a dry, lint-free cloth lightly in a non-detergent, soap-and-water mixture. Gently dab at the impacted area. Do not scrub. Allow the area to dry naturally.

PAINTED/POLISHED METAL

- For general cleaning, gently wipe the painted or polished metal with a dry, clean lint-free cloth.
- For stains, apply a small amount of a nonabrasive cleaner to a dry, clean, lint-free cloth. Rub the stains with the wet cloth. When finished, wipe the areas with a new, dry, clean, lint-free cloth.

LAMINATED SURFACES

- For general cleaning, gently wipe the leather with a dry, clean lint-free cloth wet in a vinegar-and-water mixture.
- For stains, completely dry the pooled liquid on the laminate surface. Leaving the stain to dry could cause warping or a deepened stain. Do not use bleach-based cleaners, waxes, oils or furniture polish as this may compromise the integrity of the laminate.
- For deep stains, wet a clean, lint-free cloth in a soap-and-water mixture, gently using this to wipe the laminate. Rub the stained area in the direction of the grain or in a circular motion when no grain is present. After stain is removed, wet a clean, lint-free cloth in a vinegar-and-water mixture, gently using this to wipe the laminate.

WOOD

- For general cleaning, gently wipe the wood with a dry, clean lint-free cloth wet lightly in warm waters. Wipe dry with a new, dry, clean, lint-free cloth.

CASTERS & GLIDES

- For general cleaning, gently clean the casters or glides with a dry, clean, lint-free cloth wet in a mild soap-and-water mixture. Always keep the floors beneath casters and glides clean as they will pick up dust, dirt and lint from the floor. Dust, dirt and lint will degrade the performance of casters and glides over time.
