FINISHES AND MATERIALS

WOOD FINISH COLOR MATCHING

Each piece of natural veneer offers unique texture and grain. Minor variations in finish color and value may occur due to the natural characteristics of wood. National carefully selects all materials used in every product ensuring a commercially acceptable color and finish. Factors such as aging and exposure to light alter finishes.

FABRIC COLOR MATCHING

National will always ship a satisfactory commercial match on fabric. Because of industry dye-lot variation, colors may not match exactly.

SEATING FINISH

National's seating finishes can withstand cleaning solutions that include bleach, hydrogen peroxide (Virox), alcohol (CaviWipes, hand sanitizers), quaternary ammonium compounds (Virex, Ecolab A-456 II, Lysol), and phenols (Wex-cide) when they are used in accordance with the manufacturer's label instructions.

For more information about our products and services or to find a certified National® dealer near you, please visit us at NationalOfficeFurniture.com or contact our customer service team at 800.482.1717.

CUT YARDAGE PROGRAM

All National textiles and leathers are available on a cut yardage basis. Cut yardage must be ordered in full yards. List prices include freight.

Fabric Price Grade	US List Price Per Yard
1	$ 65
2	$101
3	$130
4	$174
5	$208
6	$279
7	$352

Leather Price Grade	US List Price Per Half Hide (25-28 sq ft)	US List Price Per Full Hide (50-57 sq ft)
L7	$ 1018	$ 2091
L8	$ 1211	$ 2489

How to specify cut yardage:

1. Model Number

   NOFUPHCUTYDG = seating fabric
   NOFLTHRHHIDE = leather (half hide)
   NOFLTHRFHIDE = leather (full hide)

2. Upholstery Grade

3. Upholstery Number

CLEANING FABRICS:

CLEANING CODE S

- Use only mild, pure water-free cleaning solvents.
- Cleaning by a professional furniture service is recommended.

CLEANING CODE WS

- Use water-based cleaning agents or foam. Mild water-free solvents may also be used.
- Cleaning by a professional furniture service is recommended.

CLEANING CODE W

- Use water-based cleaning agents or foam.
- Cleaning by a professional furniture service is recommended.

CLEANING LEATHER:

REGULAR CLEANING

- Remove as much soil or staining as possible by carefully vacuuming or brushing.
- Dust with a dry or damp cloth.

DEEP CLEANING

- Use mild non-detergent soap or cleaner. Wipe surface with a light circular motion. Repeat with clean water.
- Do not soak leather.
- Pat dry.
- Reference leather card for more information.

FABRIC CHARACTERISTICS

Different fabrics/constructions will respond better than others to specific seating applications. Certain fabrics/constructions are more prone to relaxing over time and can demonstrate characteristics such as wrinkling, pilling, fuzzing, and puddling. Some upholsteries may experience dye transfer (clothing dyes transfer to the seating fabric). This does not mean that the fabric or application is deficient, but rather it is an inherent characteristic of that fabric or application and is considered normal behavior.

LEATHER CHARACTERISTICS

Leather is a natural product. Healed scars, scratches, cuts, and stretch marks are natural markings and are characteristics of leather. Leather may experience dye transfer (clothing dyes transfer to the leather). This does not mean that the leather or application is deficient, but rather it is an inherent characteristic of that leather or application and is considered normal behavior.

NATIONAL SEATING FABRIC GUIDELINES

TEXTILE APPLICATION GUIDELINES

National has listed textile application guidelines for each seating series. These guidelines are intended to help educate you of certain fabric characteristics. **Please make a point to review these guidelines when ordering National seating with National fabrics.** Application of the upholstery will be depicted as on the swatch card unless otherwise instructed on the order.

TEXTILE APPEARANCE GUIDELINES

Please note that these guidelines are here to help you have the best looking product that National can provide. Guidelines 1–4 are simply explanations of what you may see on your product. We can still upholster fabrics associated with these guidelines, but you may see some of the characteristics described.

1 Due to thickness and or stiffness this textile may result in gathers and puckers around corners, contours, and certain seams.
2 Patterns are considered matched directional; however, decorative stitching, tufting/buttons, seams, and seat to back on corner, wedge, and diagonal units may not align due to pattern configuration.
3 Textile with high nylon or wool content (more than 50%) may show signs of material stretch and lack of rebound when room temperatures fluctuate.
4 Mohair, velvet, and chenille may be easily bruised or have the potential of crooked seams due to the heavy nap and flip.

TEXTILE RESTRICTION GUIDELINES

Fabrics associated with guidelines 5 and 6 prevent us from upholstering the applicable models.

5 This textile cannot be used for glue application. Potential issues could include poor adhesion quality to the mating surface, separation of the fabric face from the backing, or glue bleeding through the fabric.
6 Thin and/or loosely woven textiles cannot be used due to potential fabric separation at the seams.
7 This textile has an uneven/irregular surface and cannot be used with topstitch upholstering. The topstitch disrupts the visual appearance of the upholstery. You can contact By Design to see if it is possible to remove the model's top stitch in order to use the fabric.

ALLIANCE PROGRAM OVERVIEW

National has developed joint programs with Arc-Com, Carnegie, Designtex, Maharam, Mayer, Momentum, Stinson and Ultrafabrics to offer you quality office seating with exciting lines of designer upholsteries. This program enables you to issue just 1 purchase order, providing simplified ordering and the most convenient, yet complete, seating choices available from a single source. All Alliance patterns meet TB117-2013.

APPLICATION

Application of the Alliance Program upholstery will be depicted as on the memo sample or website. If a different application is desired the pattern will need to be custom quoted.

Directional upholstery, such as stripes, patterns, and plaids may not be suitable for chairs with contoured shapes, tufting, or decorative stitching. Every effort is made to upholster all chairs as expertly as possible; however such orders are not subject to return.

Fabric that requires non-stock special treatments such as flame proofing, anti-microbial treatment, electrical conductive backing, water repellent, stain repellent, or acrylic backing are not part of this program. Such orders will need to be custom quoted.

LEAD TIMES/AVAILABILITY

Models specified with Alliance Program fabrics will be acknowledged at standard lead times based on the supplier's delivery schedule. Exceptions may occur when extended lead times apply. Each supplier reserves the right to discontinue patterns and colors. National will not be held responsible for suppliers discontinuing patterns/colors or when minimum order quantities apply. Contact customer service for availability before finalizing orders.

WARRANTY

Alliance Program fabrics are non-standard materials and are **not** covered under our warranty.

PRICING

Alliance Program graded pricing includes the cost of material. Repeat is also accounted for and no additional upcharge is required.

FABRIC AND SEATING CONSTRUCTION

Different fabrics and seating constructions will respond better than others to specific seating applications. Certain fabric constructions are more prone to relaxing over time and may demonstrate characteristics such as wrinkling, pilling, fuzzing, or puddling. Some upholsteries may experience dye transfer (clothing dyes transfer to the seating fabric.) This does not indicate that the fabric or application is deficient, but rather it is an inherent characteristic of that fabric or application and is considered normal behavior.

Important: The information provided was the most current information available at the time this price list was printed. Contact customer service for availability before finalizing orders.

COM

COM (CUSTOMER'S OWN MATERIAL)

Select casegoods can be upholstered with appropriate material furnished by the customer. All COM/COL must meet applicable codes and regulations, including TB117-2013, California Assembly Bill 2998, and California Proposition 65. For more information on California Proposition 65 and AB 2998 go to https://www.p65warnings.ca.gov/products/furniture-products and https://leginfo.legislature.ca.gov/faces/billTextClient.xhtml?bill_id=201720180AB2998, respectively. By selecting COM/COL, customer certifies that the material meets such codes and regulations. Customer is solely responsible for compliance and may contact a) fabric manufacturer to confirm certification or b) assistance from National Office Furniture.

National Office Furniture strives to create upholstered products with no intentionally added fire retardants. Written confirmation is required confirming that fabric or leather (COM/COL) provided by the customer does NOT contain any added fire retardant chemicals, preferably from the material manufacturer. National truly appreciates your understanding and support of this commitment. If you have any questions or comments, please contact your customer support representative(s).

Prices are listed under grade 2/B, depending upon product type.

Grade 2 seating fabric – mobile pedestal cushion tops, box/file height storage cushions, and Tessera

Grade B tack board fabric – Epicenter, Exhibit, privacy screens, and tack boards

COM is not available on Quick Delivery tack board models.

COM yardage requirements for mobile pedestal cushion tops, box/file height storage cushions, and Tessera in this price list are based on the use of 54" wide fabric and the fabric being cut "up the roll". If the COM fabric is to be railroaded, please contact customer service for revised yardage requirements.

COM yardage requirements for Epicenter, Exhibit, privacy screens, and tack boards in this price list are based on the use of non-directional fabric 54" and 66" wide. All tack board products are upholstered with railroaded fabric.

- When ordering 10 or more COM models, consult customer service for exact yardage requirements
- Reference pages 419-424 for COM yardage requirements
- Please refer to the textile application guidelines listed on page 10 or the COM Approval Search/listing on NationalOfficeFurniture.com

COM DISPOSAL

- Leftover COM from an order is held for 6 weeks
- COM not tied to an order is held for 3 months

COM DECORATIVE/DIRECTIONAL FABRICS

Mobile pedestal cushion tops, box/file height storage cushions, and Wixler:

- Yardage requirements are greatly affected by not only size of repeats but also by the print or pattern
- National will cut patterns with aesthetic concerns in mind for high quality and consistency
- Some COM fabrics are considered directional that may not be considered directional by the fabric supplier, due to the upholstering process used by National
- Application of the COM upholstery will be depicted as on the COM supplier memo sample or website. If a different application is desired the pattern would need to be custom quoted.

Epicenter, Exhibit, and Tack Boards:

- Yardage requirements based upon roll width and tack board size. Pattern repeat is not taken into account. If the fabric pattern needs to be upholstered in a specific manner, a quote will be required to see if possible.
- Epicenter, Exhibit, privacy screens, and tack boards will have railroaded fabric application

FLAMMABILITY

- TB133 models are not available for mobile pedestal cushion tops and box/file height storage cushions. This request would need to be custom quoted.
- COM must be U.L. recognized for use on Epicenter
- COM must be U.L. recognized, meet ASTM E84 Class A, NFPA 701, or GSA 100% Polyester Waiver Program for use on Alloy, NAC Edgemount/Set On Privacy Screens, Return to Work Screens, Tackboards - Exhibit, NAC Accessory Tack boards, Tessera, WaveWorks Metal
- If ASTM-E84 Class A is requested for Exhibit, a quote will be required
- If a fabric is selected with specifications different from those listed above, the customer has the option of having it burn tested to see if meets the requirements. ASTM-E84 testing requested by the customer will require a custom quote. For cost estimates, contact customer service. The fabric/tack board burn test results will determine whether future orders can be entered as standard product or custom quotes. Each instance may vary.
- Letters of assurance are available upon request. A letter of assurance verifies that an ASTM E-84 test was conducted on a combination of tack board/fabric comparable to the requested tack board/fabric.

COM EVALUATION

National reserves the right to inspect, approve, or reject any COM. National approval signifies only that such textile can be applied to the products for which intended. Such approval does not constitute any responsibility, liability, or warranty on the part of National as to appearance, behavior, durability, or tailoring of COM.

CONFIRM COM APPLICATION

Visit NationalOfficeFurniture.com to see if your COM has already been evaluated for application.

Mobile pedestal cushion tops and box/file height storage cushions:

If the COM has not been evaluated prior to placing the order, please send a memo sample to:

National Office Furniture
Attn: COM Coordinator
1600 Royal Street
Jasper, IN 47546

Epicenter, Exhibit, Fabric Privacy Screens, Tack Boards (all tackable fabrics):

Application testing is required for non-preapproved COM tack fabrics. Contact your Customer Service Team for the appropriate forms to initiate application testing.

ALL COM ORDERS MUST:

1. Include fabric supplier's name, fabric name/number, and color name/number

To help expedite your order, we recommend the COM supplier to include the following information:

1. Dealer Name and Purchase Order Number
2. National Model Numbers
3. Ship Prepaid to

Mobile Pedestals with Cushion Tops and Cushions for Box/File Height Storage:

National Office Furniture
Attn: COM Administrator
340 East 11th Avenue
Jasper, IN 47546

Epicenter, Exhibit, Privacy Screens, and Tack Boards

Kimball International
Attn: COM Department
1037 E 15th Street Docks 12-13 Plant 5
Jasper, IN 47546

Without all necessary information listed above to properly match the fabric to the dealer's purchase order, extended lead times may apply.

HOW TO ORDER NATIONAL CASEGOODS WITH COM

GALLERY LAMINATE AND CSL

GALLERY LAMINATE PROGRAM

PROGRAM DETAILS

The Gallery Laminate program is an on-trend collection curated from trusted laminate suppliers. As we know, trends come and go, sometimes quite quickly. When we see colors/patterns losing industry presence, we will delete and replace with new styles. Gallery Laminates that remain popular could possibly transition into the National Standard Laminate program.

- HPL, TFL, and PVC rims are included in the program
- For each Gallery selection made, an upcharge will be applied, based on the grade
- National orders and procures all Gallery Laminates
- Gallery Laminate program is not available on all products within our offering
- Due to Gallery Laminate size availability, some restrictions may occur. This is noted with bullets under impacted model numbers within the price list

GALLERY LAMINATE OPTIONS

GRADE 1 – 5% upcharge
G1001 Citadel
G1011 Pepperdust

GRADE 2 – 6% upcharge
G1002 Planked Raw Oak
G1003 Evening Notte
G1004 Kirsche
G1005 Midnight Run
G1006 Sepia Walnut
G1007 Serotina
G1008 Timeless
G1009 White Nebbia
G1012 Phantom Ecru

GALLERY ORDERING PROCESS

- Order Gallery Laminate in the same manner as ordering National Standard Laminate
- Six week lead time
- Same warranty as National Laminate

UPCHARGE DETAILS

The percentage upcharge is applied to each Gallery Laminate selection and the total is added to the original list price. Gallery Laminate Grade 1 incurs a 5% upcharge, while Gallery Laminate Grade 2 incurs a 6% upcharge. Please note, the same model may incur multiple upcharges based on the total number of Gallery Laminate locations selected on the specific model. Refer to examples below for further details.

UPCHARGE EXAMPLES

59N3684DDFFL8 – Tessera double pedestal desk
Drawer/Door Laminate- G1008 Timeless (Grade 2) = 6% upcharge
Chassis Laminate- G1008 Timeless (Grade 2) = 6% upcharge
This example incurs a 12% list upcharge as Gallery Grade 2 Laminate was selected within 2 areas of this model

59N3684DDFFL8 – Tessera double pedestal desk
Drawer/Door Laminate- G1003 Evening Notte (Grade 2) = 6% upcharge
Chassis Laminate- G1011 Pepperdust (Grade 1) = 5% upcharge
This example incurs a 11% list upcharge as Gallery Grade 1 and Gallery Grade 2 Laminate was selected within 2 areas of this model

59N3684DDFFL8 – Tessera double pedestal desk
Drawer/Door Laminate- G1008 Timeless (Grade 2) = 6% upcharge
Chassis Laminate- 478 Platinum Grey (Standard NOF) = no upcharge
This example incurs a 6% list upcharge as Gallery Grade 2 Laminate was selected within 1 area of this model

59N6059WPL – Tessera wall panel
Chassis Laminate - G1003 Evening Notte (Grade 2) = 6% upcharge
This example incurs a 6% list upcharge as Gallery Grade 2 Laminate was selected within 1 area of this model

CUSTOMER SPECIFIED LAMINATE (CSL) PROGRAM

PROGRAM DETAILS

National understands that some orders have specialized needs regarding laminate specifications. In order to better service our customers, National has partnered with suppliers to offer a CSL laminate program for **HPL worksurfaces only:**

- A **10% upcharge** applies to all CSL laminate orders
- National orders and procures all CSL customer specified laminates
- CSL program is not available on all laminate products within our offering
- Due to CSL sheet size availability, some restrictions may occur

CSL ORDERING PROCESS

- Laminate sheen level not to exceed 60º for maximum durability of worksurfaces
- Send purchase order and quantities to customer service
  Please include:
  1. Manufacturer's Name
  2. Laminate Name/Laminate Number
- Lead times may vary for certain laminates and quantities, contact customer service for details

CSL POLICY

- National reserves the right to decline a laminate which may not be suitable for application
- National assumes no responsibility for the durability, consistent coloration, or any other performance characteristic of a customer specified laminate

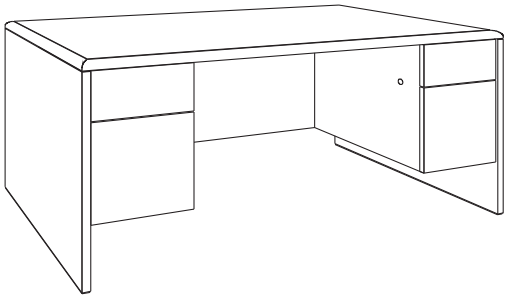
ARROWOOD - LAMINATE

PRODUCT SPECIFICATIONS



WORKSURFACE

- 1⅜" TFL (thermally fused laminate)
- Mitered rim
- Grain direction runs left-to-right unless noted

CHASSIS CONSTRUCTION

- All joints are securely fastened by screws, L-brackets, dowels, and concealed fasteners to ensure maximum strength
- ¾ and full pedestal options
- ⅝" thick modesty panels
- Full height modesty panels on all full pedestal units, bridge units and arc top units
- ¾ height modesty panels on all ¾ pedestal units
- 1" thick end panels
- Standard leveling glides
- Modesty panels have horizontal grain unless otherwise noted

DRAWERS

- Drawers feature 5-sided construction allowing for easy removal/replacement of drawer fronts
- Sides, back and front are ½" thick woodgrain vinyl wrapped
- See interior drawer dimensions below

DRAWER SUSPENSIONS AND FILING

- Box and file drawers have full extension, progressive action slides with precision steel ball bearings
- All suspensions have a lifetime warranty
- Heavy-duty file rods in file drawers
- See filing capabilities below

CORD MANAGEMENT

- Grommets are available in predetermined locations
- Standard in highback organizers
- Optional wire managers are available (See accessory pages)

LOCKING

- Black and silver lock cores are available
- Key Random means lock cores/keys are randomly (1-5) picked and factory installed in unit
- Key Specific means you can pick any number (1-200) for black or silver lock core/key. Must specify the lock core model separately; not factory installed and will ship separately
- Specify a change key to remove and change lock cores
- To order key specific lock cores, change keys, and master keys, reference page 391

EZ ARRANGEMENT MODEL NUMBERS

- Specify quickly and accurately with National's EZ Arrangement models. In each series, the most popular options have been pre-selected for a complete L or U configuration. Just choose the left or right model number, add a finish and you're done
- If you need additional models or want to create other configurations, simply see the individual model numbers and pricing in the pages following the EZ Arrangement models

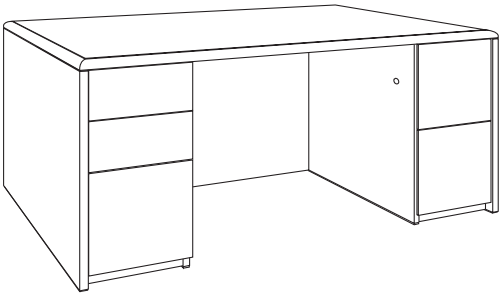
ARROWOOD - VENEER

PRODUCT SPECIFICATIONS



WORKSURFACE

- 1³⁄₁₆" slipmatched cherry and maple veneer, bookmatched walnut veneer or HPL (high pressure laminate)
- Mitered wood rim
- Grain direction runs left-to-right unless noted

FINISH APPLICATION

- All Veneer surfaces feature a semi-open pore matte finish

CHASSIS CONSTRUCTION

- All joints are securely fastened by screws, L-brackets, dowels, and concealed fasteners to ensure maximum strength
- Full and ¾ pedestal options
- ¾ modesty panels on HPL top ¾ pedestal only. Other versions have full modesty panels
- ¾" thick modesty panels
- 1⁄₁₆" thick end panels
- Units feature semi-finished backs (stained with some exposed hardware) unless noted
- Standard leveling glides
- Grain direction runs vertical on all modesty panels

DRAWERS

- Drawers feature 5-sided construction allowing for easy removal/replacement of drawer fronts
- Sides, back and front are ½" thick woodgrain vinyl wrapped
- Drawer fronts are 3-ply construction with matched woodgrain
- See interior drawer dimensions below

DRAWER SUSPENSIONS AND FILING

- Box and file drawers have full extension, progressive action slides with precision steel ball bearings
- All suspensions have a lifetime warranty
- Heavy-duty file rods in file drawers
- See filing capabilities below

CORD MANAGEMENT

- Grommets are available in predetermined locations
- Standard in highback organizers
- Optional wire managers are available (see accessory pages)

LOCKING

- Black and silver lock cores are available
- Key Random means lock cores/keys are randomly (1-5) picked and factory installed in unit
- Key Specific means you can pick any number (1-200) for black or silver lock core/key. Must specify the lock core model separately; not factory installed and will ship separately
- Specify a change key to remove and change lock cores
- To order key specific lock cores, change keys, and master keys, reference page 391

EZ ARRANGEMENT MODEL NUMBERS

- Specify quickly and accurately with National's EZ Arrangement models. In each series, the most popular options have been pre-selected for a complete L or U configuration. Just choose the left or right model number, add a finish and you're done
- If you need additional models or want to create other configurations, simply see the individual model numbers and pricing in the pages following the EZ Arrangement models

BARRINGTON

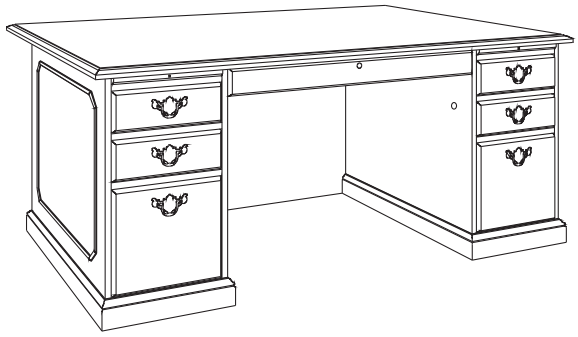
PRODUCT SPECIFICATIONS



WORKSURFACE

- 1⅛" bookmatched walnut veneer or HPL (high pressure laminate)
- Mitered rim and base
- Grain direction runs left-to-right unless otherwise noted

FINISH APPLICATION

- All Veneer surfaces feature a semi-open pore matte finish

CHASSIS CONSTRUCTION

- All joints are securely fastened by screws, L-brackets, dowels, and concealed fasteners to ensure maximum strength
- Full pedestals
- ¾" thick full modesty panels
- Grain direction runs vertical on all modesty panels
- ¾" thick end panels
- Standard leveling glides
- Units feature semi-finished backs (stained with some exposed hardware) unless noted

MOLDING AND PULLS

- Solid wood, mitered, overlay moldings on modesty panel and end panels of desks
- 3 pull styles available

DRAWERS

- Drawers feature 5-sided construction allowing for easy removal/replacement of drawer fronts
- Sides, back and front are ½" thick woodgrain vinyl wrapped
- Drawer fronts are 3-ply construction with matched woodgrain
- See interior drawer dimensions below

DRAWER SUSPENSIONS AND FILING

- Box and file drawers have full extension, progressive action slides with precision steel ball bearings
- All suspensions have a lifetime warranty
- Heavy-duty file rods in file drawers
- See filing capabilities below

CORD MANAGEMENT

- Grommets available in predetermined locations
- Optional wire managers are available (see accessory pages)
- Standard in highback organizers

LOCKING

- Black lock cores are available
- Key Random means lock cores/keys are randomly (1-5) picked and factory installed in unit
- Key Specific means you can pick any number (1-200) lock core/key. Must specify the lock core model separately; not factory installed and will ship separately
- Specify a change key to remove and change lock cores
- To order key specific lock cores, change keys, and master keys, reference page 391
- Highbacks, bookcases and wardrobes use a brass lock (keyed random 1-5) with a non-removable/changeable lock core when the Provincial or Classic pulls are ordered
- Highbacks, bookcases and wardrobes use a black lock (keyed random 1-5) with a non-removable/changeable lock core when Verona pull is ordered

EZ ARRANGEMENT MODEL NUMBERS

- Specify quickly and accurately with National's EZ Arrangement models. In each series, the most popular options have been pre-selected for a complete L or U configuration. Just choose the left or right model number, add a finish and you're done
- If you need additional models or want to create other configurations, simply see the individual model numbers and pricing in the pages following the EZ Arrangement models

DRAWER DESCRIPTION	INTERIOR DIMENSIONS WIDTH	DEPTH	HEIGHT	FRONT-TO-BACK FILING CAPABILITIES
Dictation Slide	13¹¹⁄₁₆"	24¼"	¾"	N/A

ESCALADE

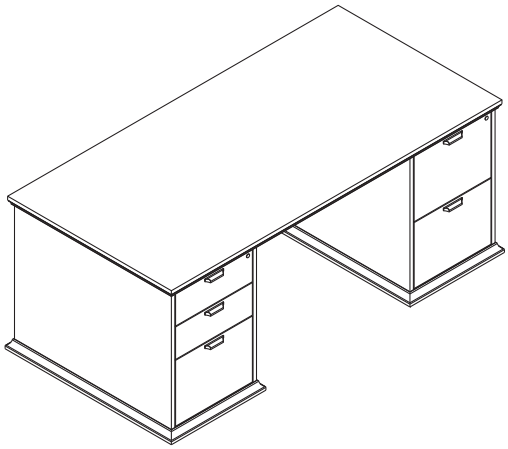
PRODUCT SPECIFICATIONS



WORKSURFACE

- 1½" combined worksurface and mitered wood rim
- Slipmatched cherry and maple veneer, bookmatched walnut veneer
- Grain direction runs left-to-right unless noted
- Mitered wood rim detail

FINISH APPLICATION

- All Veneer surfaces feature a semi-open pore matte finish

CHASSIS CONSTRUCTION

- All joints are securely fastened by screws, L-brackets, dowels, and concealed fasteners to ensure maximum strength
- Adjustable floor levelers are standard on all casegoods
- ¾" thick full height modesty panels
- 1⅛" thick end panels and support panels
- Vertical grain direction on all modesty panels
- Units feature semi-finished backs (stained with some exposed hardware) unless noted
- Mitered wood base detail

DRAWERS

- Drawers feature 5-sided construction allowing for easy removal/replacement of drawer fronts
- Sides, back and front are ½" thick woodgrain vinyl wrapped
- Drawer fronts are 3-ply construction with matched woodgrain
- See interior drawer dimensions below

DRAWER SUSPENSION

- Box and file drawers are equipped with black, full extension, progressive action slides
- Precision steel ball bearings combined with sequence slide movement ensures long lasting operation
- Heavy-duty file rods in file drawers

DRAWER PULLS

- Satin Nickel drawer pulls and knobs

CORD MANAGEMENT

- Grommets are available in predetermined locations
- Optional wire managers are available (see accessory pages)

LOCKING

- Black and silver lock cores are available
- Key Random means lock cores/keys are randomly (1-5) picked and factory installed in unit
- Key Specific means you can pick any number (1-200) for black or silver lock core/key. Must specify the lock core model separately; not factory installed and will ship separately
- Specify a change key to remove and change lock cores
- To order key specific lock cores, change keys, and master keys, reference page 391

ABOVE SURFACE DOORS

- Wood or crackled silkscreen glass

EZ ARRANGEMENT MODEL NUMBERS

- Specify quickly and accurately with National's EZ Arrangement models. In each series, the most popular options have been pre-selected for a complete L or U configuration. Just choose the left or right model number, add a finish and you're done
- If you need additional models or want to create other configurations, simply see the individual model numbers and pricing in the pages following the EZ Arrangement models

PRODUCT SPECIFICATIONS

WORKSURFACE

- Worksurfaces are 1⅛" TFL (thermally fused laminate) or 1³⁄₁₆" HPL (high pressure laminate)
- Worksurfaces feature a 3mm softened PVC rim that matches the worksurface laminate
- Grain direction runs left-to-right unless noted (assembled bridges and returns woodgrain runs front-to-back)

CHASSIS CONSTRUCTION

- TFL (thermally fused laminate) chassis fastened by screws, quick assembly fasteners and hardwood cleats
- ¾" thick full modesty panels
- 1⅛" thick end panels
- Standard leveling glides
- Vertical grain direction unless noted (any modesty of 60" wide or wider will have horizontal grain direction)
- Laminate with horizontal grain (example: Sable Horizontal 792H) will always have horizontal grain direction
- Shell based units will be shipped unassembled, units are shipped with quick assembly fasteners for easy assembly in the field
- Shell chassis available in worksurface and box/file heights
- Back panels are fully finished unless noted

LINKABLE SHELLS AND FREESTANDING SHELLS

- Freestanding shells have 2 full end panels; pedestals can be added
- Freestanding shells can also be attached to a return or linkable shell to create a size or shape to fit your workspace
- Linkable shells come with either 1 full end panel and 1 narrow end panel or 2 narrow end panels
- Linkable shells with 1 full end panel and 1 narrow end panel allow you to attach additional linkables to the narrow end panel side and run the length you need to fit your workspace
- Linkable shells with 2 narrow panels allow you to attach to both ends of your linkable shell and run the length you need to fit your workspace
- Support panels are required for any worksurface span over 48" that is not supported
- All shells are shipped KD (knock down)

HIGHBACK ORGANIZERS, WALL MOUNTS AND SET-ON BOOKCASE DOORS

- Laminate, frosted resin or no doors
- Resin doors have aluminum frames available in Cinder or Platinum Metallic
- Resin is ⅛" thick, 1-sided

PEDESTALS

- Full, 3-quarter lower height and mobile pedestal options
- Mobile pedestals available with and without cushion
- Standard wire management on pedestal ends allow for routing wires

DRAWERS

- Drawers feature 5-sided construction allowing for easy removal/replacement of drawer fronts
- Sides, back and front are ½" thick woodgrain vinyl wrapped
- Drawer fronts are 3-ply construction with matched woodgrain
- For interior drawer dimensions, reference page 99

DRAWER PULLS

- 3 pull styles: Integrated, Level and Beam
- Level and Beam pulls available in Cinder, Concrete, Iron and Platinum Metallic

DRAWER SUSPENSIONS

- Box and file drawers are equipped with black, full extension, progressive action slides
- Precision steel ball bearings combined with sequence slide movement ensure long lasting operation
- All suspensions have a lifetime warranty

FILING

- Drawers are equipped with black metal filing hardware that accommodates various filing requirements
- No-tool, easy installation allows for quick interchangeable filing capabilities
- Refer to page 99 for complete filing details

CORD MANAGEMENT

- Round black grommets are optional in worksurface and end panels
- Standard in highback organizers
- When worksurface grommets are ordered, half-moon grommets will come standard on the modesty of all bridges, credenzas, returns and shells
- Grommet cutouts are available in worksurface for power option that is ordered separately
- Refer to page 100 for grommet locations

LOCKING

- Black and silver lock cores are available
- Key Random means lock cores/keys are randomly (1-5) picked and factory installed in unit
- Key Specific means you can pick any number (1-200) for black or silver lock core/key. Must specify the lock core model separately; not factory installed and will ship separately
- Specify a change key to remove and change lock cores
- To order key specific lock cores, change keys, and master keys, reference page 391

EZ ARRANGEMENT MODEL NUMBERS

- Specify quickly and accurately with National's EZ Arrangement models. In each series, the most popular options have been pre-selected for a complete L or U configuration. Just choose the left or right model number, add a finish and you are done

CUSTOMER SPECIFIED LAMINATE

- Cannot use CSL (customer specified laminate) due to rim profile

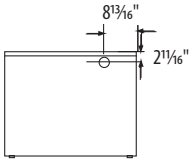
GROMMET AND GROMMET CUTOUT LOCATION OPTIONS

Grommets are available for factory installation in worksurfaces in predetermined locations as shown below. Simply specify the desired grommet style and location in the model number sequence. Refer to page 98 for grommet options.

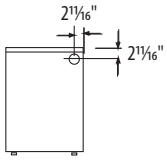
Grommets are also available for field installation; see page 98.

- **If specifying a grommet in the center location of a shell unit, be sure there is clearance under the grommet opening so as not to conflict with undersurface components. ⅞" clearance required on TFL tops and 13⁄16" clearance required on HPL tops.**
- **When worksurface grommets are ordered, half-moon grommets will come standard on the modesty of all bridges, credenzas, returns and shells.**
- **Half-moon grommet is centered at top of modesty panel.**

End panel grommet location:



Desk



Credenzas, Shells and Returns

Worksurface grommet locations:

Excluding the J-Desk, distance to the center of the grommet is the same for the G1 round grommet or the CUT-G17 option.

Excluding the J-Desk, the same locations are available for the round grommet and the cutout option.

ROOSEVELT

PRODUCT SPECIFICATIONS

WORKSURFACE

- 1⅛" bookmatched walnut veneer or 1" TFL (thermally fused laminate) worksurface
- Mitered rim and base
- Grain direction runs left-to-right unless otherwise noted

FINISH APPLICATION

- All Veneer surfaces feature a semi-open pore matte finish

CHASSIS CONSTRUCTION

- All joints are securely fastened by screws, L-brackets, dowels, and concealed fasteners to ensure maximum strength
- Full pedestals
- ¾" thick full modesty panels
- Grain direction runs vertical on all modesty panels
- ¾" thick end panels
- Standard leveling glides
- Units feature semi-finished backs (stained with some exposed hardware) unless noted

MOLDING

- Solid wood, mitered, overlay moldings optional on modesty panels of desks only (excluding reception desk)

PULLS

- Available with 1 pull: Scroll with matching knob for highbacks and wardrobes
- Available in 2 colors: Antique Brass or Classic Nickel

DRAWERS

- Drawers feature 5-sided construction allowing for easy removal/replacement of drawer fronts
- Sides, back and front are ½" thick woodgrain vinyl wrapped
- Drawer fronts are 3-ply construction with matched woodgrain
- See interior drawer dimensions below

DRAWER SUSPENSIONS AND FILING

- Box and file drawers have full extension, progressive action slides with precision steel ball bearings
- All suspensions have a lifetime warranty
- Heavy-duty file rods in file drawers
- See filing capabilities below

CORD MANAGEMENT

- Grommets available in predetermined locations for an additional upcharge
- Optional wire managers are available (see accessory pages)
- Standard in highback organizers
- Wire management cutout included on inside pedestal panel for routing of wires from pedestal to kneespace area when grommet is featured on surface

LOCKING

- Black lock cores are available
- Key Random means lock cores/keys are randomly (1-5) picked at the factory and factory installed in unit
- Key Specific means you can pick any number (1-200) lock core/key. Must specify the lock core model separately; not factory installed and will ship separately
- Specify a change key to remove and change lock cores
- To order key specific lock cores, change keys, and master keys, reference page 391

EZ ARRANGEMENT MODEL NUMBERS

- Specify quickly and accurately with National's EZ Arrangement models. In each series, the most popular options have been pre-selected for a complete L or U configuration. Just choose the left or right model number, add a finish and you're done
- If you need additional models or want to create other configurations, simply see the individual model numbers and pricing in the pages following the EZ Arrangement models

TESSERA PRODUCT SPECIFICATIONS

WORKSURFACE

- Veneer surfaces are 1⅜6" plain sliced slipmatched cherry (Amber, Autumn, Cordovan, Judicial, Mocha, Truffle) or maple veneer (Brighton, Caramel, Honey, Natural), quarter cut walnut veneer (Almond, Portobello, Sable), or quarter cut oak veneer (Sonoma). All veneer component surfaces feature a 3mm wood rim
- Laminate surfaces are 1⅜6" HPL (high pressure laminate)
- Rims are available in 3mm softened profile
- Grain direction runs left-to-right unless otherwise noted
- CSL not available

PEDESTAL RECESSED FAÇADE

- Flat profile in veneer or laminate that matches the chassis material
- Recessed façade is 1⅜6" thick on top of pedestal

FINISH APPLICATION

- All Veneer surfaces feature a semi-open pore matte finish

CHASSIS CONSTRUCTION

- All joints are securely fastened by screws, L-brackets, dowels, and concealed fasteners to ensure maximum strength
- Adjustable leveling glides are standard on all casegoods
- End panels and support panels are 1⅛" thick, modesty panels are ¾" thick
- Wood modesty panels have vertical grain direction unless otherwise noted
- Laminate modesty panels have vertical grain direction unless noted
- Any laminate modesty over 60" will be horizontal
- Laminate with horizontal grain (example: Sable Horizontal 792H) will always have horizontal grain direction
- Laminate height adjustable desks without wire manager have horizontal grain on outer shroud
- Laminate height adjustable desks with wire manager have vertical grain on outer shroud
- Laminate height adjustable single side (has wire manager standard) will have vertical grain on outer shroud
- Back panels are fully finished unless noted

PEDESTALS/UNDERSURFACE STORAGE

- Full height options available
- Unfinished backs; can be finished with full overlay modesty panels, ped back panels or if a ped is against a wall and a back panel is not used, a filler strip can be used
- Backs of pedestals on pages 183-185 are unfinished. They should be used against a wall
- The bookcases back on the height adjustable single side desks are unfinished. They should be used against a wall

CREDENZA FOOT

- Beech veneer foot available in finish or paint options

SLIDING ACCENT DOORS

- Available in veneer, laminate, and white back painted glass

DRAWERS

- Drawers feature 5-sided construction allowing for easy removal/replacement of drawer fronts
- Sides, back and front are ½" thick white vinyl wrapped
- Drawer fronts are 3-ply construction with matched woodgrain
- For interior drawer dimensions, reference page 165

DRAWER PULLS

- Available in 1 pull style, refer to page 157 for pull style and colors

DRAWER SUSPENSION

- Box and file drawers are equipped with black, full extension, progressive action slides
- Precision steel ball bearings combined with sequence slide movement ensures long lasting operation
- All suspensions have a lifetime warranty

FILING

- Drawers are equipped with black metal filing hardware that accommodates various filing requirements
- No-tool, easy installation allows for quick interchangeable filing capabilities
- Refer to page 165 for complete filing details

CORD MANAGEMENT

- Round grommets and racetrack grommets are optional on worksurfaces
- Refer to page 160 for complete grommet locations and details
- Undersurface wire managers are available for additional cable management requirements
- Cords can be routed out the bottom side of the pedestal
- Leather strap can hold wires and attach to a leg in Florence colors Almond Biscotti, Terra, Mezza Luna, and Struzzo
- Leather sleeve with zipper in 3 heights: standard, bar, counter for housing cords in Florence colors Almond Biscotti, Terra, Mezza Luna and Struzzo

LOCKING

- Optional locking
- Black and silver lock cores are available
- Key Random means lock cores/keys are randomly (1-5) picked and factory installed in unit
- Key Specific means you can pick any number (1-200) for black or silver lock core/key. Must specify the lock core model separately; not factory installed and will ship separately
- Specify a change key to remove and change lock cores
- To order key specific lock cores, change keys, and master keys, reference page 391
- Locking for sliding doors is located on the side of the unit

PLANNING TIPS

- Wall panels can be mounted at any height but reference page 166 for Application Guidelines
- Consider the worksurface load when planning support; For worksurfaces that will hold office equipment, such as printers and copiers, additional support other than standard worksurface brackets is recommended
- Undersurface storage and pedestals satisfy both storage and support needs
- Reconfiguring existing worksurfaces may require new supports or brackets
- When worksurfaces meet end-to-end, a support panel or undersurface storage is required for additional support of the front edge
- Perpendicular worksurfaces can use flat brackets and worksurface brackets to provide adequate support from 1 surface to the other at the worksurface joint
- Worksurface brackets and supports can be positioned anywhere along the worksurface without the limitations of pre-drilled or predetermined locations

HEIGHT ADJUSTABLE DESKS

- Height adjustable customer range: 28½"-45"
- Wood, laminate, or wood with laminate accent options
- Wood models are all wood with no accent colors
- Laminate models are all laminate with an accent option for the inner shroud/modesty panel
- Laminate/Wood models are all wood with a solid laminate accent option for the inner shroud and modesty panel
- Inner shroud is only seen in "up" position on 60", 66", and 72" wide models
- Metal legs visible on 78" and 84" wide models when in the "up" position
- Control pad can be moved to right-handed (RH) or left-handed (LH) by the customer
- Duty cycle: 2 minutes ON/18 minutes OFF
- Maximum load should not exceed 85 lbs. on the surface
- Power cord: Type A plug, max 10 A, 125 V; 78¾" length
- On models with wire management the wire management is installed inside inner leg
- Modesty panel options include: full flush, full breakfront, ½ height flush, ⅓ height breakfront

ADJUSTABLE HEIGHT DESK AND RETURN "L" UNIT

- "L" Unit Height Adjustable has 3 columns with a range of 27"-43½"
- Models are sold as desks and returns to make up an "L" unit and the entire unit raises and lowers together
- "L" Unit Height Adjustable will have a modesty panel for the desk and return that is inset 1⁹⁄₁₆" from edge of desk and 3⅝" from floor and will raise with the top. No inner/out shroud so the leg will be exposed when top is raised
- All desk and return models to make an "L" unit have wire management access
- Wood models are all wood with no accent colors
- Laminate models are all laminate with an accent option for the modesty panel
- Laminate/Wood models are all wood with a solid laminate accent option for the modesty panel.
- "L" return units do not have an inner shroud
- "L" Unit Height Adjustable maximum load should not exceed 100 lbs on both surfaces combined

ADJUSTABLE HEIGHT DESK SHELL WITH SINGLE SIDE SHROUDED BOOKCASE

- Single Side Shroud with Bookcase including one concealed leg within bookcase
- Wood models are all wood with no accent colors. Laminate models are all laminate with an accent option for the inner shroud/modesty panel
- Laminate/Wood models are all wood with a solid laminate accent option for the inner shroud/modesty panel
- Specify box/file height component pedestals to work with a Single Side Shroud with Bookcase model
- Single Side Shroud with Bookcase model determined if "L" or "R" by user side where bookcase is located
- Modesty panels available to make Single Side Shroud with Bookcase with components an open plan application. Leg is exposed when Single Side Shroud with Bookcase model is raised
- Single Side Shroud with Bookcase models comes with a modesty panel but optional if used
- Overall dimensions of desk are undersized to allow for pinch points

VERTICAL STORAGE FILLER STRIP

- For use when vertical storage units are specified with the Single Side Height Adjustable Desk and the Tessera wall. Specify a filler strip to fill in the 3" gap between the back of the vertical storage unit and the architectural wall; 2⅔" length and 74½" tall

WALL PANELS

- Wood or LPL laminate options; vertical grain direction on wall panels with the exception of horizontal grain laminates
- Available in wood, laminate, HPL laminate, composite, concrete veneer, stone veneer
- Back mounted LED light kits are available for use on wall panels
- Wall panels can be mounted at any height; see mounting application guidelines
- Wall mount brackets for attachment to architectural walls are included
- It is recommended that each wall panel be secured by a minimum of 2 mounting locations (studs)
- Adjustable universal TV wall mount bracket included; adjusts to allow installation of most 32" to 80" flat panel televisions; TV can cross over multiple panels. Restriction is 120 lbs weight limit
- VESA mounting compliant; black powder coat; ships separately
- Reference page 166 for Mounting Application Guidelines
- Wall panels can be mounted as a stand alone model, shelves added, or wall mounted overheads can be hung on panels
- Wall panel backs are pre-bored for shelf attachment in the field
- See assembly instructions for suggested drill bits for shelf installation

SHELVES

- Wood or HPL laminate grain direction is horizontal (left-to-right)
- Shelves are 10" deep; ¾" thick; and are available in nineteen lengths
- Shelves are mounted to wall panels; mounting brackets included; must be same size or smaller than overall width of wall panel
- Different lengths of shelves can be mounted horizontally in 12" increments on wall panels
- 59" H wall panels allow up to (4) rows of shelves; 52" H wall panels allow up to (3) rows of shelves; 46"W wall panels allow up to (3) rows of shelves

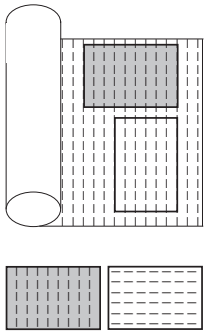
SHELVING WEIGHT LIMIT GUIDELINES

- Each shelf has a maximum weight limit; reference price list for additional information

18" W shelf: 25 lbs.	72" W shelf: 125 lbs.
20" W shelf: 35 lbs.	78" W shelf: 135 lbs.
24" W shelf: 45 lbs.	84" W shelf: 145 lbs.
30" W shelf: 55 lbs.	90" W shelf: 155 lbs.
36" W shelf: 65 lbs.	96" W shelf: 165 lbs.
42" W shelf: 75 lbs.	102" W shelf: 175 lbs.
48" W shelf: 85 lbs.	108" W shelf: 185 lbs.
54" W shelf: 95 lbs.	114" W shelf: 195 lbs.
60" W shelf: 105 lbs.	120" W shelf: 205 lbs.
66" W shelf: 115 lbs.	

RAILROADED TACK BOARD

- Shaded rectangle portrays a railroaded tack board.



COMPONENTS

- Component models will ship bulk packed when applicable

TESSERA

ANGLED DISPLAY SHELVES

- Below are the weight limits for the angled shelves at different lengths

Angled Shelf Length (in.)	Weight Limit (lbs.)
18	27 lbs.
24	36 lbs.
30	45 lbs.
36	54 lbs.
48	72 lbs.
54	81 lbs.
60	90 lbs.
66	99 lbs.
72	108 lbs.

LED LIGHT KITS

- LED light kits can be added to back side of wall panels
- Light multi-driver (NACLTMD) must be used when ganging together two LED light kits; sold separately

LIGHT KIT 1

- For use with larger wall panels
- Includes (2) LED light strip spools, (1) LED driver, (2) leads, (1) rocker switch, (3) corner connectors, and (2) splice
- Lights all 4 sides of wall panels that are 120" W x 52" H down to 48" W x 52" H
- Lights 3 sides of wall panels that are 120" W x 52" H down to 90" W x 52" H

LIGHT KIT 2

- For use with smaller wall panels
- Includes (1) light spool, (1) driver, (1) lead, (1) rocker switch, (2) corner connectors, and (2) splice
- Lights all 4 sides of wall panels that are 42" W x 52" H and smaller

5MM SPOOL OF LIGHTS

- Order when additional lights are needed but an additional LED light kit is not required

LEGS

- Tapered wood legs
- Contrasting leg option available in Designer White (405), Cinder (462), Platinum Metallic (501), and Satin Nickel Metallic (503) paint
- Conference table will have apron rail match leg paint color

BENCHES (STANDARD HEIGHT)

- Available in wood and laminate wood grain finishes, solid laminate colors
- Legs and apron rail will match and can be specified different from the top
- Upholstered options available
- 72" recommended to be used with 84" length table (1 per side)
- 60" recommended to be used with 72" length table (1 per side)
- 54" recommended to be used with 120" length table (1 per side)
- 48" recommended to be used with 108" length table (2 per side)
- 42" recommended to be used with 96" length table (2 per side)

GROMMET LOCATION OPTIONS—WORKSURFACE

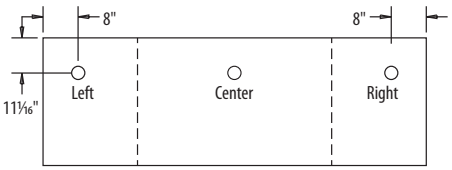
Grommets are available for factory installation in worksurfaces in predetermined locations as shown below. Simply specify the desired grommet style and location in the model number sequence. Refer to page 157 for options.

- If specifying a grommet in the center location of a component worksurface, be sure there is clearance under the grommet opening so as not to conflict with undersurface components
- Center grommet not recommended with breakfront modesty
- 24" pedestals not to be used with a 30" worksurface when specifying grommets

Worksurface grommet locations:

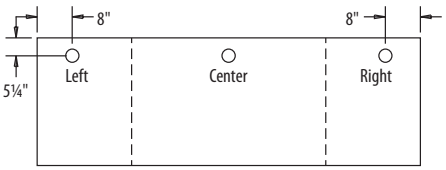
The distance to the center of the grommet is the same for the G1 round grommet, G11 racetrack grommet or the CUT-G17 option.

The same locations are available for the round or racetrack grommet.



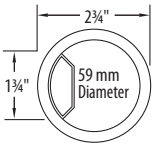
36" deep Worksurfaces

- G17 cut is 11 1/16" off the back surface

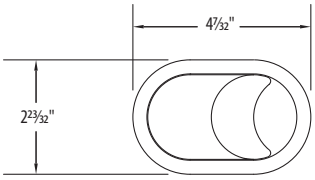


30", 24" and 20" deep Worksurfaces

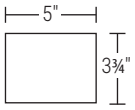
- G17 cut is 6" off the back surface



Round Grommet Plastic



Racetrack Grommet Zinc



G17 Cutout Option

For component pedestals and worksurfaces on pages 183-185 to be used with the single side height adjustable desks on page 181. When building a low height credenza, the chart below indicates if/when a "center" grommet could be specified. These units are ganged with a common top when using multiple pedestals. The floating top design dictates grommet options.

The "checks" and "x"s represent whether a center grommet could or should not be selected, respectively.

TESSERA - THOUGHT STARTERS

WALL PANEL AND OVERHEAD MOUNTING APPLICATION GUIDELINES

FASTENERS

- Fasteners must tie in directly to the substructure of a structural wall for proper attachment of Tessera wall panels and overheads. National defines a structural wall as a load bearing wall constructed of materials such as poured concrete, concrete block, or studs
- Selection and purchase of the proper attachment fasteners is the responsibility of the installer

MINIMUM REQUIREMENTS

- Wood studs must be nominal 2" x 4" minimum
- Metal studs must be "C" channel, 20 gauge minimum thickness
- Metal or wood studs must be on centers no greater than 24" and have a maximum height of 14' restrained at floor and ceiling
- Interior walls must be designed to resist not less than a force of 5 lbs. per sq. ft. applied perpendicular to the wall. The deflection of such walls under a load of 5 lbs. per square foot shall not exceed 1/240 of the span for walls with brittle finishes and 1/120 of the span for walls with flexible finishes (per International Building Code sections 1604.4 and 1607.13)
- Minimum width of attachment to a wall is 16" mounted to studs 16" apart

RECOMMENDED FASTENERS

- Selection and purchase of the proper attachment fasteners for your wall conditions is the responsibility of the installer

Type and Size	Description
Steel Studs (½" to ¾" drywall) Hilti® Toggler® anchor toggle bolts, ¼"–20 x 2" grade 5 bolts	
Wood Studs (¼" to ½" drywall) Meets or exceeds ANSI/ASME B18.6.4 and SAE J933. Pan head sheet metal screw	10-2 PHPMS
Solid Masonry Crown Bolt lag shields ¼" x 1½" Buildex Tapcon concrete anchor screw ¼" x 2¾"	
Masonry Block Hilti Toggler anchor toggle bolts, ¼"–20 x 2" grade 5 bolts Crown Bolt lag shields ¼" x 1½" Buildex Tapcon concrete anchor screw ¼" x 2¾"	

- Actual mounting height can be varied to meet specific needs; however, undersurface storage height must be considered
- Variations in the floor surface (peaks and valleys) should be considered, especially where horizontal placement is critical
- Dimensional loss should be considered when space planning for components
- In fixed wall applications, choose your insert height based on your specific application or height of corresponding vertical storage. Consider the height of the cabinet and clearance between the bottom of the overhead and the worksurface

PNL RATINGS

PANEL WIDTH (ALL HEIGHTS) (IN.)	LOAD RATING (LAM/VENEER PANELS) (LBS.)	LOAD RATING (STONE PANELS) (LBS.)

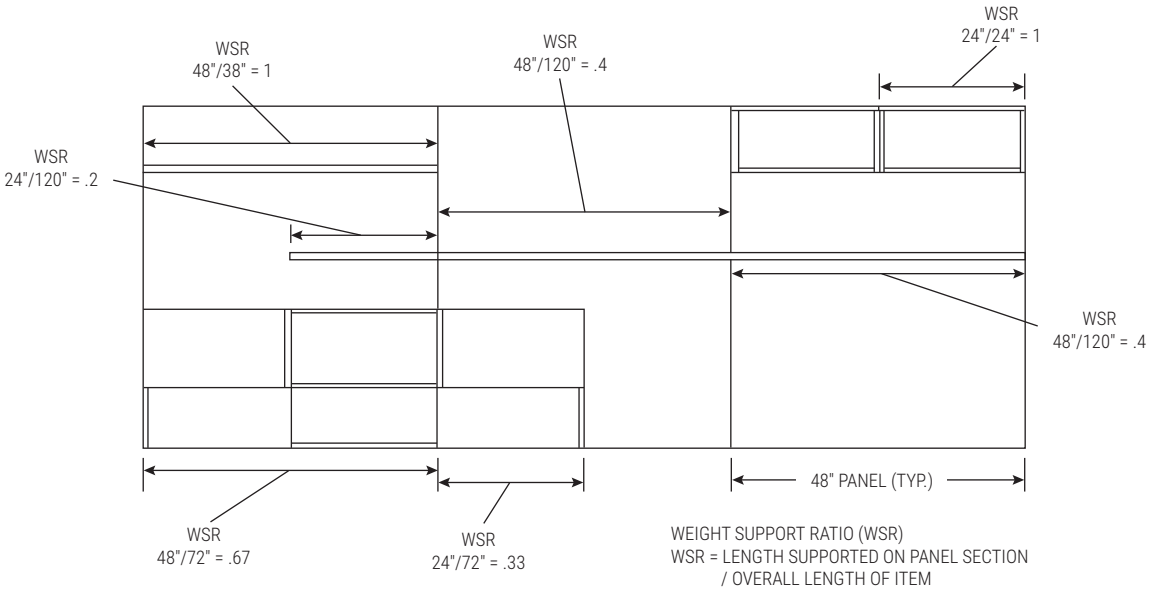
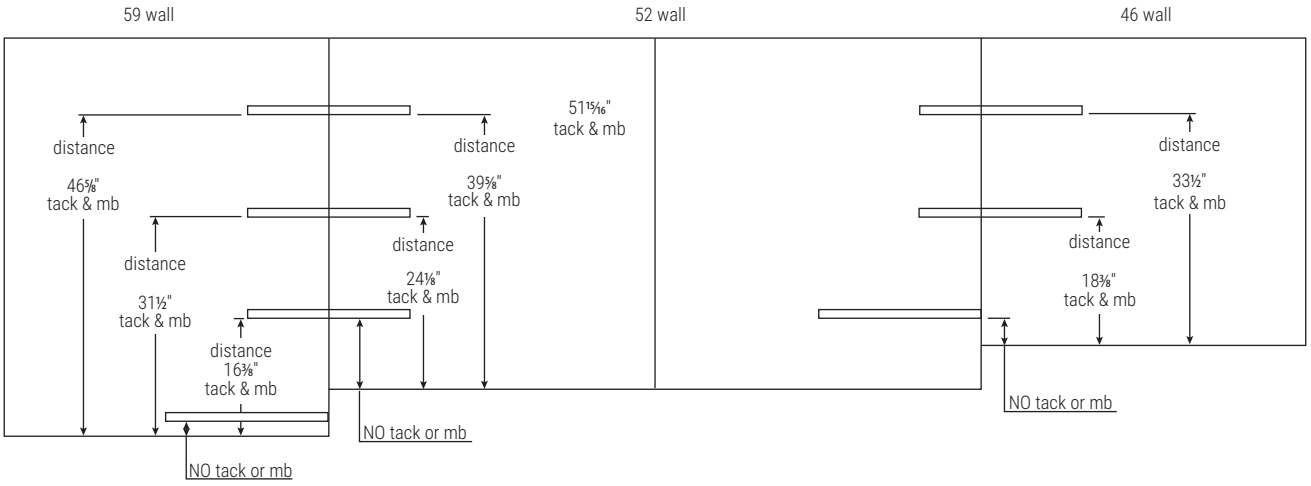
EXHIBIT A



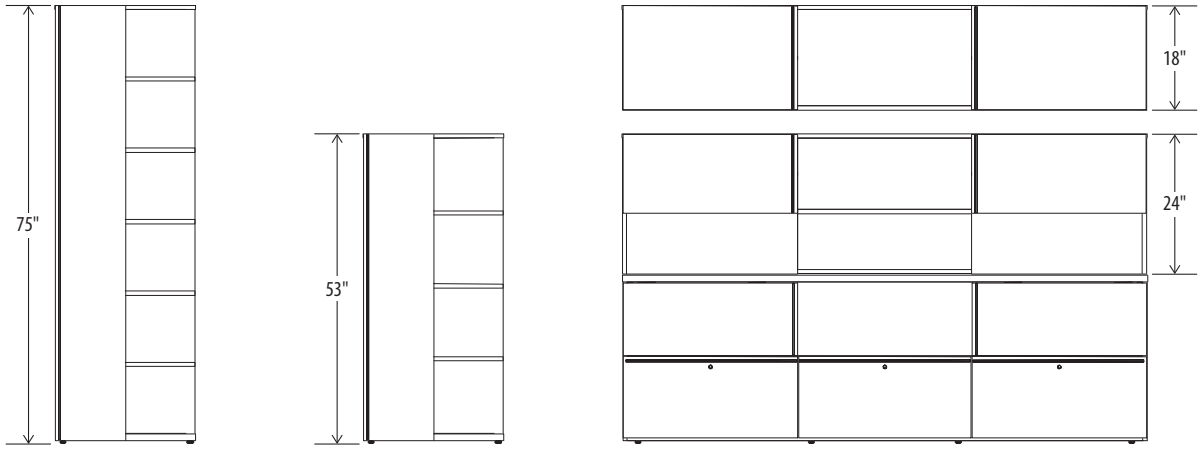
WEIGHT SUPPORT RATIO (WSR)
WSR = LENGTH SUPPORTED ON PANEL SECTION / OVERALL LENGTH OF ITEM

TACK BOARD AND MARKER BOARD

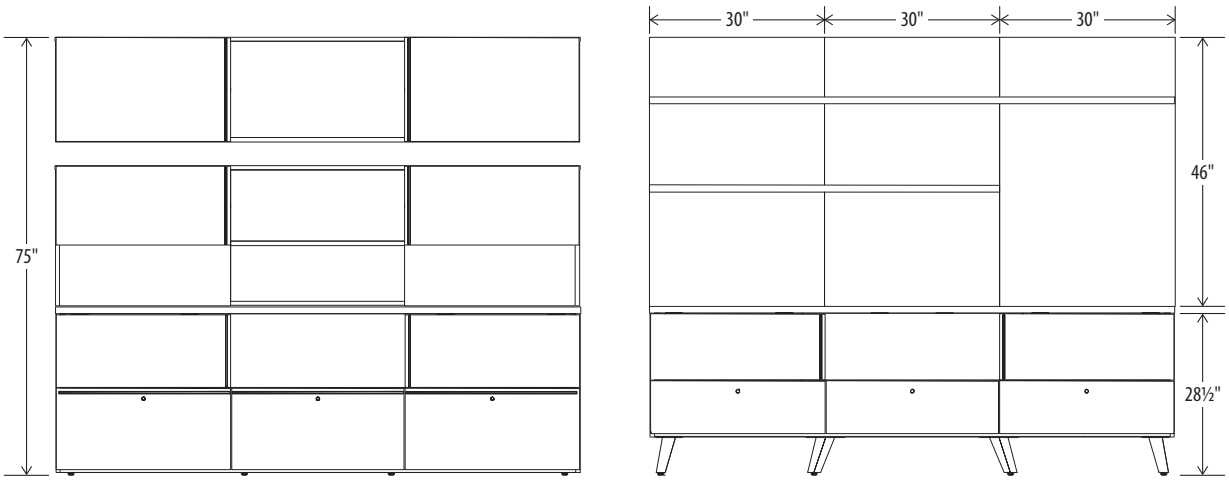


- Tack & Marker board thought starters when also using shelves

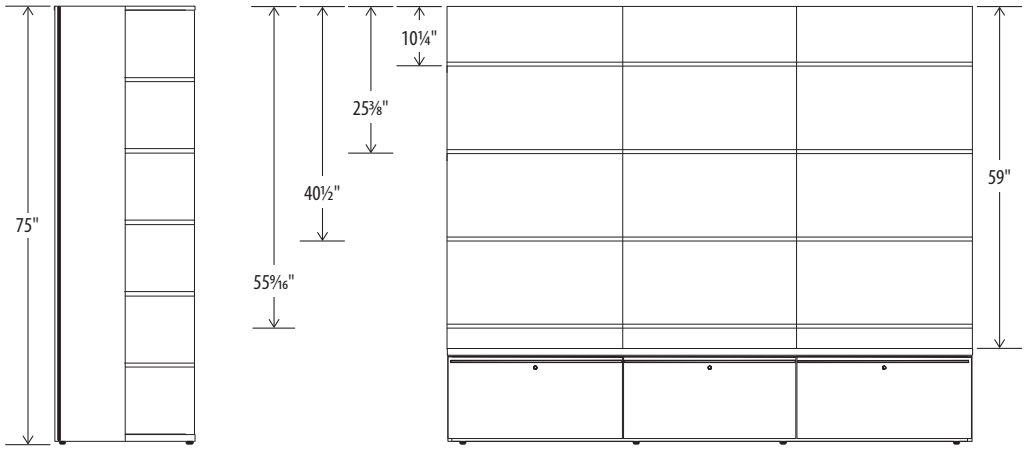
TESSERA - THOUGHT STARTERS



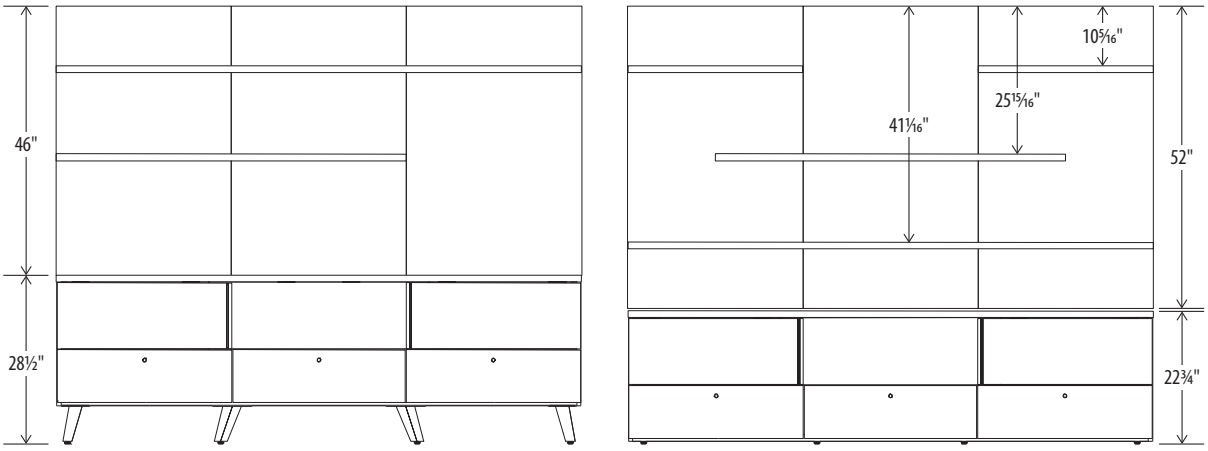
- Vertical storage units are available in 2 heights: 75" and 53" high
- Overheads are available in 3 heights: 24", 18", and 12" and can be mounted to the wall panels or directly to the architectural wall
- When using credenzas with wall panels and vertical storage; 46" height wall panels work with full height credenzas



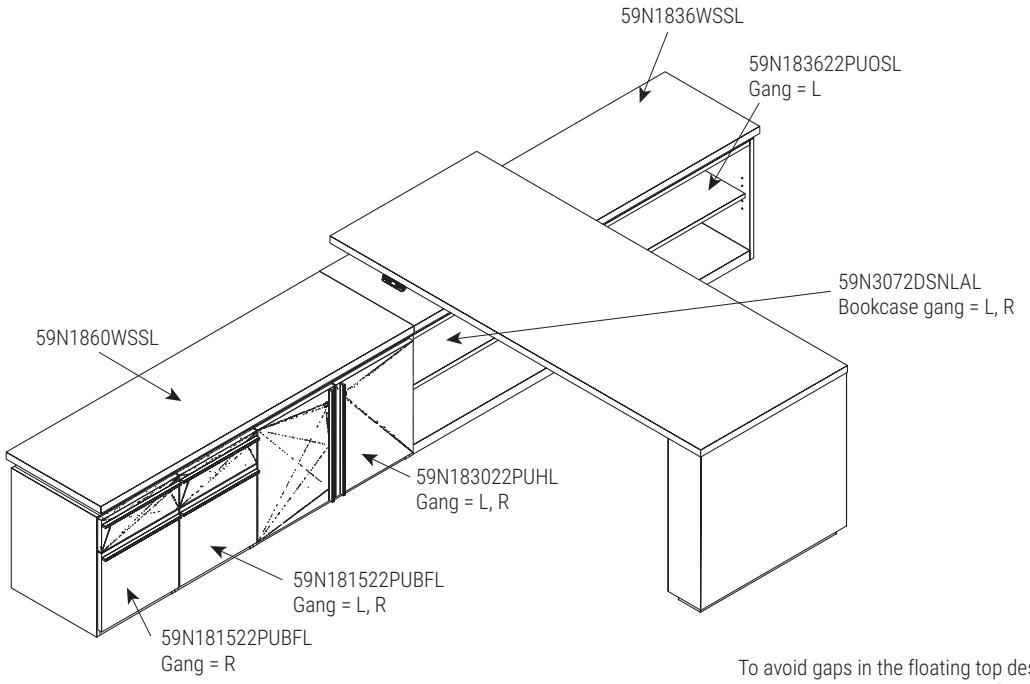
- Wall panels can be mounted as a stand alone model, shelves added, or wall mounted overheads hung on the panels
- When using credenzas with wall panels and vertical storage; 52" height wall panels work with mid-height credenzas



- When using credenzas with wall panels and vertical storage; 59" height wall panels work with bench credenzas



- Credenzas are available in 3 different heights (full, mid, bench)
- Wall panels are available in 3 different heights (59", 52", and 46") and widths of 60"-24" in 6" increments
- 59" height wall panels allow 4 rows of shelves and 52" and 46" allow 3 rows of shelves
- Shelves are available in lengths of 120"-18" in 6" increments
- Different lengths of shelves can be mounted on the wall panel in 12" increments, one shelf may span across multiple walls to reduce seams
- Wall panels and shelves are sold separately
- Shelves are shipped with brackets to change shelves on the wall panels



To avoid gaps in the floating top design the spacer block must be specified by layout on the worksurfaces and on the bookcase that comes with the desk.

TESSERA

PRODUCT SPECIFICATIONS

- Wood and laminate tops and chassis available; refer to pages 157-159 for options
- Refer to pages 381-418 for accessories
- Refer to page 165 for filing capabilities
- Assembled units and component units are interchangeable
- Refer to page 160 for grommet locations and page 157 for grommet options and upcharge
- If specifying wood, you must specify the same finish for all options
- Center grommet location not available on desks

TO ORDER, SPECIFY:

1. Model Number
2. Grommet
3. Laminate Color (laminate models)
4. Veneer Finish (wood models)

SAMPLE MODEL NUMBERS:

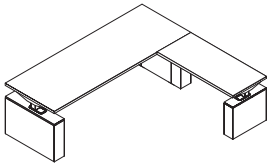
Left return shown (user side)



Desk and right return shown (user side)

- Reference pages 154-156 for product specifications
- Wood/laminate units feature a wood top and shroud, and a laminate modesty panel
- Grain direction on a wood model modesty will be vertical; laminate modesties will be horizontal
- Wire manager will be on the right, can be moved to the other side in field if other side is preferred
- Modesty will ship unassembled
- Control pad will ship on the right side of desk, however, it can be moved to the left when using a right return
- Control pad has 2 position memory
- Does not have a floating top design
- Height adjustable L units will be 27⅜" from worksurface to floor and 3⅜" from bottom of modesty to floor in the lowest position
- Height adjustable L units will adjust to a maximum height of 43¾"
- Desks and returns for "L" units do NOT have an inner shroud. The only accent is the modesty panel
- Return (L/R) is determined by side with shroud
- Legs will be visible when desk is in an upper position; specify paint color Cinder (462) or Platinum Metallic (501)

PRODUCT SPECIFICATIONS

- Wood and laminate tops and chassis available; refer to pages 157-159 for options
- Refer to pages 381-418 for accessories
- Refer to page 160 for grommet locations and page 157 for grommet options and upcharge
- If specifying wood, you must specify the same finish for all options
- Center grommet location not available on desks
- Wire manager location with leg that lowers into bookcase
- Back of bookcase not finished

59N3060DSNLAL	59N3060DSNRAL	Laminate	6391	30⅛	60	28¹⁵⁄₁₆	—	—	263 lbs.	39.8

- Wire manager will always be on the bookcase side of the unit
- Height adjustable single side (L or R indicates side leg lowers into bookcase)
- The leg that lowers into bookcase will be exposed when raised; specify paint color Cinder (462) or Platinum Metallic (501)
- Modesty panel approx. 3" high and only intended to finish the approach side when in the down position
- Laminate accent consists of lower shroud and modesty
- This wall application (backs not finished) can create an "L" or "T" design when combining pedestal on pages 183-185 and component tops on page 189
- Modesty panels can be specified for open plan application. See pages 187-188
- Must specify if bookcase will be ganged to the left, right, both or none (L, R, LR, X)
- Laminate units must specify laminate color for bookcase top, bookcase chassis, accent (lower shroud modesty), and laminate color for surface and outer shroud
- Floating top design on the bookcase (not desk)
- Overall dimensions listed above, however top undersized to allow for pinch points: 36" tops are 34", 30" tops are 28", 72" tops are 71", 66" tops are 65", and 60" tops are 59"

- Grain direction runs vertically
- End panels are required when pedestals are not used to support the end of a unit or workstation
- End panels are 1" shallower than worksurfaces to accommodate a modesty panel or filler strip
- Modesty panels are recommended when building a shell unit
- When pedestals are positioned against a wall and a modesty panel is not used, specify a filler strip to fill the 1" gap between the worksurface and pedestal depths
- For use as added support

	MODEL NO./DESCRIPTION		LIST PRICE	DIMENSIONS D	W	H	A	KW	CARTONED WEIGHT	CUBIC FEET
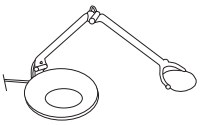
ELEMENT LED DESKTOP LIGHT	NAC18TLDBPUS	Task Light w/Desktop Base, Plug/USB, Silver	$ 1360	14	—	14	—	—	3 lbs.	0.7



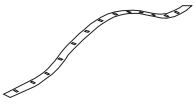
- Available in silver
- MCX LED freestanding light
- Working height 18" and maximum reach 28"
- 360° swivel from base, 135° front-to-back head tilt, 90° side-to-side head rotation
- 1 120VAC 3 prong receptacle electrical outlet
- 7 levels of light adjustment
- 2 USB charging ports providing 1 Amp 5VDC of power

PIPER LINEAR LED DESKTOP LIGHT	NAC18TLDBUH	Task Light w/Desktop Base, USB, white	$ 761	11½	7½	18¼	—	—	10 lbs.	1.2

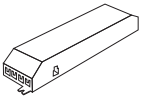
- Available in white
- LED freestanding light
- 3 color temps, dimming
- 1 USB charging port that provides 5 volts and 1 Amp of charging power
- 4'11" white cord plus a 3' cord extender
- UL Listed

LED LIGHT KITS

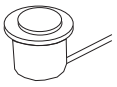
NACLTKA1	Light Kit 1 (for larger walls)	$	1192
NACLTKA2	Light Kit 2 (for smaller walls)		710
NACLTKA3	Light Kit 3 (for shelf only, to turn on)		196



Light strip



LED driver



Rocker switch

- LED light kits can be added to the back side of the wall panels
- Kit 1 includes 2 light spools, 1 driver, 2 leads, 1 rocker switch, 3 corner connectors, and 2 splice
- Kit 2 includes 1 light spool, 1 driver, 1 lead, 1 rocker switch, 2 corner connectors, and 2 splice
- Kit 2 will work for any reception size
- Kit 3 includes 1 driver and 1 rocker switch
- Kit 3 driver has 6 ports where up to 6 shelves can be linked together in one driver. It will be dependent upon the location of the shelves and the driver and the limitations of the length of the cord how many shelves can be plugged into one driver
- Kit 1 will light all 4 sides of wall panels that are 120" wide x 52" tall down to 48" wide x 52" tall
- Kit 1 will light all 3 sides of wall panels that are 120" wide x52" tall down to 90" wide x 52" tall
- Kit 2 will accommodate all sizes smaller than what requires Kit 1
- Kit 3 is required when using lighted shelves to turn the shelf lighting on and off; shelves are sold with lighting installed
- Length of spool of light: 10 meters for Kit 1, 5 meters for Kit 2
- The driver 12v lead cable is 78¾"
- The 2 prong US power cord that comes with the light is 78¾"
- The rocker switch cable is 72"

NACLTMD	Light Multi-Driver (used when ganging together 2 kits)	$	45

- Required when ganging 2 light kits together

NACLTSPLA	5m Spool of Lights	$	473

- Additional light strip when an additional light kit is not needed

WALL RAIL SOLUTION

Product Specifications 286
Production Options 288
Product Overview 290
Application Guidelines 291
Product Pages 292

EXHIBIT

PRODUCT SPECIFICATIONS

HORIZONTAL WALL RAIL AND FACEPLATE

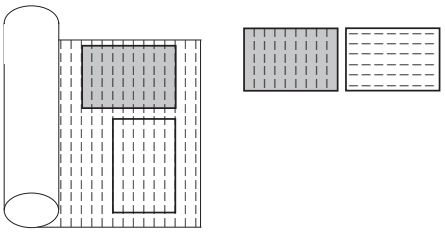
- Wall rail and faceplate are a powder coated aluminum extrusion
- Available in lengths of 72" and 144"
- Wall rails come in sets of 1 or 2 and include faceplate and alignment brackets
- Wall rails can also be ordered without faceplates
- When attaching worksurfaces to the wall rail without the use of tack board, marker board, or slat wall inserts, wall rail can be ordered without the faceplate
- Faceplate snaps onto wall rail to secure marker board, tack board and slat wall inserts in place; Inserts can be removed or replaced without removing wall rail
- Faceplate conceals alignment brackets, fasteners and provides a clean aesthetic look
- Wall rail is mounted horizontally providing tie in to appropriate load bearing studs
- Alignment bracket is required to align 2 adjacent sections of wall rail and is included with wall rails
- Alignment bracket is hidden from view once installation is complete
- Wall rails can be cut to size in the field
- WaveWorks and Epic worksurfaces can be attached to wall rails with worksurface brackets
- Worksurfaces that are attached to the wall rail can be ordered with or without a wire manager; Worksurfaces with a wire manager have a flexible PVC trough that allows cords and cables to be routed along the back edge or sides of worksurface

MARKER BOARD INSERTS

- Marker board inserts have erasable writing surface and are available in HPL or magnetic porcelain models
- Marker board inserts are available in white only
- HPL marker board and tack board insert models can be scribed in field
- Marker board, tack board and slat wall inserts include 2 trim channels

TACK BOARD INSERTS

- Tack board insert is available in fabric, see page 288 for fabric options
- Shaded rectangle portrays a railroaded tack board



SLAT WALL INSERTS

- Slat wall inserts are powder coated aluminum
- Slat wall inserts offer flexibility in placement of work tools; Combo slat wall inserts offer a slat wall insert combined with a tack board insert providing a multi-functional area and is an economical alternative when overhead storage will be used

ORGANIZER SHELF INSERTS

- Veneer organizer shelf inserts are plain sliced slipmatched cherry (Amber, Autumn, Mocha, Truffle) or maple veneer (Brighton, Caramel, Honey, Natural), plain sliced bookmatched walnut veneer (Clear Walnut, Cordovan, Judicial), quarter cut walnut veneer (Almond, Portobello, Sable), or quarter cut oak veneer (Sonoma).
- When specifying Clear Walnut, a clear coat finish, the natural wood characteristics of walnut veneer are visible. These characteristics include, but are not limited to, color and woodgrain variation
- All Veneer surfaces feature a semi-open pore matte finish

EXHIBIT TV MOUNT INSERT

- Single TV Mount included with laminate or veneer inserts
- Dual TV Mount available as an option on 60" inserts for additional upcharge

TRIM CHANNELS

- Quantity of 2 is standard with each board/insert
- Available in powder coat paint or fabric
- Provides an expansion joint, vertical cable manager attachment and compensates for out-of-plumb walls
- Trim Channels can be ordered separately for boards/inserts that have been scribed in the field

FULL END TRIM

- Full end trim is steel and powder coated
- Full end trim finishes the end of a run and connects the top and bottom wall rail

SINGLE END CAP

- Single end cap is steel and powder coated
- Single end cap finishes the end of a single wall rail by capping off the wall rail, perfect for when a wall rail is used without inserts and a faceplate

VERTICAL CABLE MANAGER

- Vertical cable manager attaches between the insert and trim channel
- Conceals and allows for power cords to be managed and routed from overhead to outlet

VERTICAL CABLE MANAGER FOR TV MOUNT INSERT

- Vertical Cable Manager attaches to the Exhibit TV Mount Insert
- Conceals and allows for power cords to be managed and routed from TV to outlet

WORKSURFACE BRACKETS

- Exhibit worksurface brackets attach worksurfaces to lower wall rail
- A worksurface bracket is required every 48" along back edge of worksurface
- Worksurface bracket is anodized aluminum

PLANNING TIPS

- Wall rails can be mounted at any height if not utilizing with WaveWorks or Epic vertical storage units
- Consider the worksurface load when planning support; For worksurfaces that will hold office equipment, such as printers and copiers, additional support other than standard worksurface brackets is recommended
- Undersurface storage and pedestals satisfy both storage and support needs
- Reconfiguring existing worksurfaces may require new supports or brackets
- When worksurfaces meet end-to-end, a support panel or undersurface storage is required for additional support of the front edge
- Perpendicular worksurfaces can use flat brackets and worksurface brackets to provide adequate support from 1 surface to the other at the worksurface joint
- Worksurface brackets and supports can be positioned anywhere along the worksurface without the limitations of pre-drilled or predetermined locations
- Knife rim adds 1½" per side to worksurface depth. Knife rim is not recommended on lower storage as it affects user's kneespace
- Consider where you specify a worksurface with Worksurface wire manager. When attached to Exhibit lower wall rail, do not use at the end of run for a cleaner aesthetic
- Tack boards may be field scribed to match Epic knife rim worksurface depth

EXHIBIT

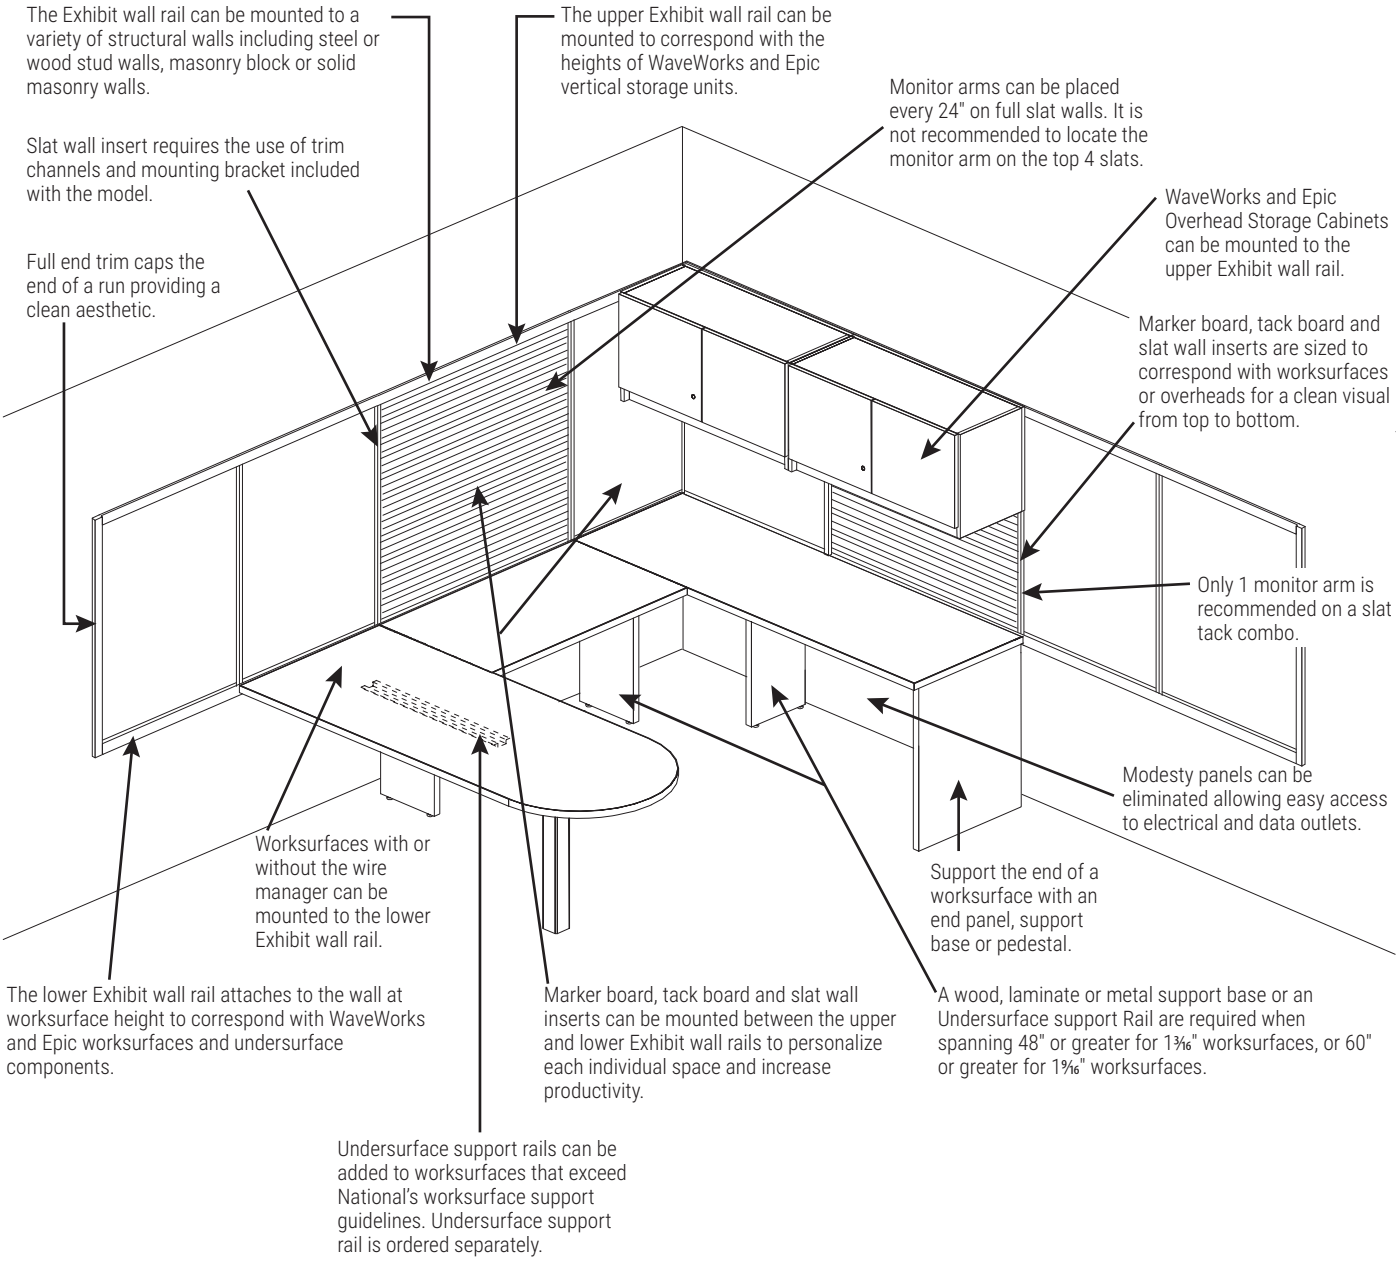
OVERVIEW

Exhibit is a series consisting of a horizontal rail, marker board, tack board, and slat wall inserts, and work tools.

Exhibit can be used in numerous applications. Here are a few examples of how it can be used with National Office Furniture products.

EXHIBIT WITH WAVEWORKS AND EPIC MODELS

The Exhibit rail is a horizontal rail that attaches to walls to accommodate WaveWorks and Epic worksurfaces and components. Attaching worksurfaces directly to the wall rail allows the reduction of modesty panels and opens the space for a clean aesthetic.



APPLICATION GUIDELINES

FASTENERS

- Fasteners must tie in directly to the substructure of a structural wall for proper attachment of Exhibit wall rail. National defines a structural wall as a load bearing wall constructed of materials such as poured concrete, concrete block, or studs

MINIMUM REQUIREMENTS

- Wood studs must be nominal 2" x 4" minimum
- Metal studs must be "C" channel, 20 gauge minimum thickness
- Metal or wood studs must be on centers no greater than 24" and have a maximum height of 14' restrained at floor and ceiling
- Interior walls must be designed to resist not less than a force of 5 lbs. per sq. ft. applied perpendicular to the wall. The deflection of such walls under a load of 5 lbs. per square foot shall not exceed 1/240 of the span for walls with brittle finishes and 1/120 of the span for walls with flexible finishes (per International Building Code sections 1604.4 and 1607.13)
- Exhibit wall rail may not extend more than 6" beyond the last solid attachment point
- Minimum width of Exhibit wall rail that can be attached to a wall is 16" mounted to studs 16" apart
- If an overhead is being mounted, the minimum width for Exhibit is 30" with the Exhibit wall rail being centered on studs 24" apart, so as not to extend more than 6" beyond the last solid attachment point

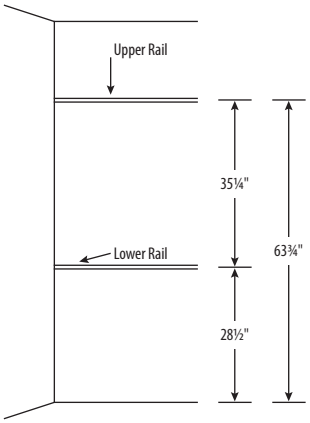
RECOMMENDED FASTENERS

- Selection and purchase of the proper attachment fasteners for your wall conditions is the responsibility of the installer

Type and Size	Description
Steel Studs (½" to ¾" drywall) Hilti® Toggler® anchor toggle bolts, ¼"–20 x 2" grade 5 bolts	
Wood Studs (¼" to ½" drywall) Meets or exceeds ANSI/ASME B18.6.4 and SAE J933. Pan head sheet metal screw	10-2 PHPMS
Solid Masonry Crown Bolt lag shields ¼" x 1½" Buildex Tapcon concrete anchor screw ¼" x 2¾"	
Masonry Block Hilti Toggler anchor toggle bolts, ¼"–20 x 2" grade 5 bolts Crown Bolt lag shields ¼" x 1½" Buildex Tapcon concrete anchor screw ¼" x 2¾"	

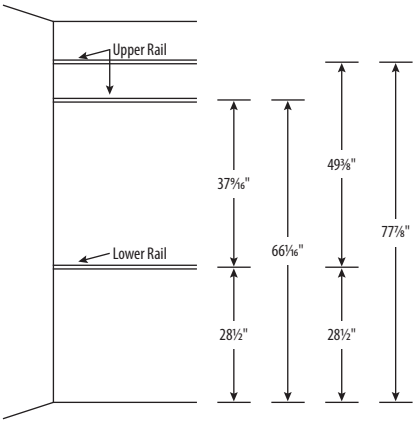
- Actual mounting height can be varied to meet specific needs; however, undersurface storage height must be considered
- Variations in the floor surface (peaks and valleys) should be considered, especially where horizontal placement is critical
- Exhibit wall rail extends ⅞" from the wall. This dimensional loss should be considered when space planning for components, when Exhibit wall rails are being used on 2 or more walls of a space
- Select worksurfaces and inserts can be field scribed to fit space
- In fixed wall Exhibit applications, choose your insert height based on your specific application or height of corresponding WaveWorks vertical storage. Consider the height of the cabinet and clearance between the bottom of the overhead and the worksurface

34" Tall Inserts



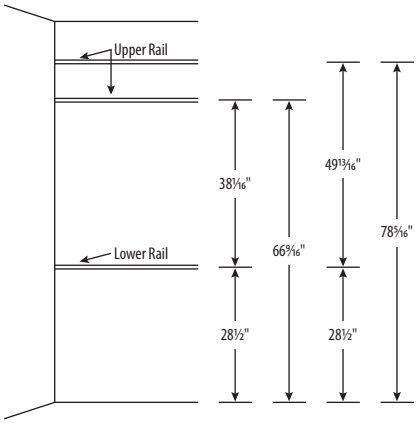
36" and 48" Tall Inserts

Compatible with WaveWorks and Epic 68" and WaveWorks 79" High WW Models



37" and 49" Tall Inserts

Compatible with WaveWorks 69" and 80" High WWN Models



- Conference and training rooms commonly use 49" tall inserts, but with Exhibit, you can use any of the 5 heights to achieve the customer's needs.

WALL

- Trim when using full insert

EXHIBIT

PRODUCT SPECIFICATIONS

- Exhibit rail can be cut to size in the field
- Alignment brackets are required to align 2 sections of Exhibit rail in line
- Exhibit mount overheads available in the WaveWorks and Epic series, see Casegoods Book 2 Price List
- For worksurface brackets, end trim and end caps see pages 334-336

TO ORDER, SPECIFY:

1. Model Number
2. Paint Color

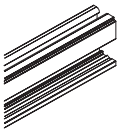
11N144EXFP1	Set of 1	303	⅞	144	1¾	—	—	12 lbs.	1.4

- Set of 2 includes 2 rails, 2 faceplates, and 4 alignment brackets
- Set of 1 includes 1 rail, 1 faceplate, and 2 alignment brackets
- Exhibit wall rail available in Concrete, Cinder, Iron, Platinum Metallic or Satin Nickel Metallic
- Faceplates must be used when using an insert

EXHIBIT WALL RAIL



WALL RAIL									
11N72EXP1	1 Rail/No faceplate	$ 133	¾	72	1½	—	—	6 lbs.	0.7
11N144EXP1	1 Rail/No faceplate	193	¾	144	1½	—	—	12 lbs.	1.4

- Includes 1 wall rail and 2 alignment brackets
- Exhibit wall rail available in Concrete, Cinder, Iron, Platinum Metallic or Satin Nickel Metallic
- For use when hanging a worksurface or overhead without the use of an insert

PRODUCT SPECIFICATIONS

- Tack board and HPL marker board inserts can be field scribed, additional trim channels should be specified separately if creating additional inserts. Porcelain marker board inserts cannot be field scribed
- Each height of tack board, marker board, slat wall, and organizer shelf insert corresponds with a specific height of vertical storage in WaveWorks and Epic. See notation above models to see what model corresponds with appropriate height requirement
- Conference and training rooms commonly use 49" H inserts, but with Exhibit, you can use any of the 5 heights to achieve the customers needs

- Some assembly required
- "SH3" models have 1 shelf that aligns with the top shelf of the "SH1" and "SH2" shelves
- The grain direction of all woodgrains will be horizontal (left to right) on the horizontal shelves
- Almond Horizontal (ADH), Portobello Horizontal (PBH), Portico Horizontal (PTH), Skyline Horizontal (SKH), Sonoma Horizontal (SMH), Designer White Linear Horizontal (491H), Cinder Linear Horizontal (492H) and Sable Horizontal (792H) laminates have horizontal grain on the wall insert and vertical shelves. All other woodgrains have vertical grain on the wall insert and vertical shelves
- Each horizontal shelf has a 50 lb. maximum limit

EXHIBIT

PRODUCT SPECIFICATIONS

- Each height of tack board, marker board, slat wall, and organizer shelf insert corresponds with a specific height of vertical storage in WaveWorks and Epic. See notation above models to see what model corresponds with appropriate height requirement
- Conference and training rooms commonly use 49" H inserts, but with Exhibit, you can use any of the 5 heights to achieve the customers needs
- As of April 20th, 2015, the inserts (Slat, Slat/Tack Combo, Insert Shelves, and TV Mount Inserts) will only be compatible with rails ordered on or after April 20th, 2015. If trying to use 1 of these inserts with an existing rail, please contact customer service for more information

- Some assembly required
- "SH3" models have 1 shelf that aligns with the top shelf of the "SH1" and "SH2" shelves
- The grain direction of all woodgrains will be horizontal (left to right) on the horizontal shelves
- Almond Horizontal (ADH), Portobello Horizontal (PBH), Portico Horizontal (PTH), Skyline Horizontal (SKH), Sonoma Horizontal (SMH), Designer White Linear Horizontal (491H), Cinder Linear Horizontal (492H) and Sable Horizontal (792H) laminates have horizontal grain on the wall insert and vertical shelves. All other woodgrains have vertical grain on the wall insert and vertical shelves
- Each horizontal shelf has a 50 lb. maximum limit

PRODUCT SPECIFICATIONS

- Each height of tack board, marker board, slat wall, and organizer shelf insert corresponds with a specific height of vertical storage in WaveWorks and Epic. See notation above models to see what model corresponds with appropriate height requirement
- Conference and training rooms commonly use 49" H inserts, but with Exhibit, you can use any of the 5 heights to achieve the customers needs
- As of April 20th, 2015, the inserts (Slat, Slat/Tack Combo, Insert Shelves, and TV Mount Inserts) will only be compatible with rails ordered on or after April 20th, 2015. If trying to use 1 of these inserts with an existing rail, please contact customer service for more information

11N6048SH2WL	Wood Shelves, Laminate Wall	4160	10½	59 15/16	48⅜	–	–	101 lbs.	6.1

- Some assembly required
- "SH2" shelves are a mirrored version of the "SH1" shelves
- The grain direction of all woodgrains will be horizontal (left to right) on the horizontal shelves
- Almond Horizontal (ADH), Portobello Horizontal (PBH), Portico Horizontal (PTH), Skyline Horizontal (SKH), Sonoma Horizontal (SMH), Designer White Linear Horizontal (491H), Cinder Linear Horizontal (492H) and Sable Horizontal (792H) laminates have horizontal grain on the wall insert and vertical shelves. All other woodgrains have vertical grain on the wall insert and vertical shelves
- Each horizontal shelf has a 50 lb. maximum limit

EXHIBIT

PRODUCT SPECIFICATIONS

- Each height of tack board, marker board, slat wall, and organizer shelf insert corresponds with a specific height of vertical storage in WaveWorks and Epic. See notation above models to see what model corresponds with appropriate height requirement
- Conference and training rooms commonly use 49" H inserts, but with Exhibit, you can use any of the 5 heights to achieve the customers needs
- As of April 20th, 2015, the inserts (Slat, Slat/Tack Combo, Insert Shelves, and TV Mount Inserts) will only be compatible with rails ordered on or after April 20th, 2015. If trying to use 1 of these inserts with an existing rail, please contact customer service for more information

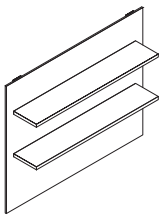
11N6048SH7W	Wood	$ 3621	10½	59 15/16	48⅜	–	–	100 lbs.	7.2
11N6048SH7LW	Laminate Shelves, Wood Wall	3621	10½	59 15/16	48⅜	–	–	100 lbs.	7.2
11N6048SH7L	Laminate	2497	10½	59 15/16	48⅜	–	–	100 lbs.	7.2
11N6048SH7WL	Wood Shelves, Laminate Wall	3621	10½	59 15/16	48⅜	–	–	100 lbs.	7.2



- Some assembly required
- "SH7" models have 2 shelves; the bottom shelf aligns with the bottom of a 30" overhead
- The grain direction of all woodgrains will be horizontal (left to right) on the horizontal shelves
- Almond Horizontal (ADH), Portobello Horizontal (PBH), Portico Horizontal (PTH), Skyline Horizontal (SKH), Sonoma Horizontal (SMH), Designer White Linear Horizontal (491H), Cinder Linear Horizontal (492H) and Sable Horizontal (792H) laminates have horizontal grain on the wall insert and vertical shelves. All other woodgrains have vertical grain on the wall insert and vertical shelves
- Each horizontal shelf has a 50 lb. maximum limit

PRODUCT SPECIFICATIONS

- Each height of tack board, marker board, slat wall, and organizer shelf insert corresponds with a specific height of vertical storage in WaveWorks and Epic. See notation above models to see what model corresponds with appropriate height requirement
- Conference and training rooms commonly use 49" H inserts, but with Exhibit, you can use any of the 5 heights to achieve the customers needs
- As of April 20th, 2015, the inserts (Slat, Slat/Tack Combo, Insert Shelves, and TV Mount Inserts) will only be compatible with rails ordered on or after April 20th, 2015. If trying to use 1 of these inserts with an existing rail, please contact customer service for more information

- Some assembly required
- "SH5" models have 3 shelves that align with the horizontal shelves of the "SH1" and "SH2" shelves
- The grain direction of all woodgrains will be horizontal (left to right) on the horizontal shelves
- Almond Horizontal (ADH), Portobello Horizontal (PBH), Portico Horizontal (PTH), Skyline Horizontal (SKH), Sonoma Horizontal (SMH), Designer White Linear Horizontal (491H), Cinder Linear Horizontal (492H) and Sable Horizontal (792H) laminates have horizontal grain on the wall insert and vertical shelves. All other woodgrains have vertical grain on the wall insert and vertical shelves
- Each horizontal shelf has a 50 lb. maximum limit

EXHIBIT

PRODUCT SPECIFICATIONS

- Each height of tack board, marker board, slat wall, and organizer shelf insert corresponds with a specific height of vertical storage in WaveWorks and Epic. See notation above models to see what model corresponds with appropriate height requirement
- Conference and training rooms commonly use 49" H inserts, but with Exhibit, you can use any of the 5 heights to achieve the customers needs
- As of April 20th, 2015, the inserts (Slat, Slat/Tack Combo, Insert Shelves, and TV Mount Inserts) will only be compatible with rails ordered on or after April 20th, 2015. If trying to use 1 of these inserts with an existing rail, please contact customer service for more information

11N6048TVL	Laminate	3024	½	59 15/16	48⅜	–	–	101 lbs.	6.1

- TV mount included; some assembly required; VESA mounting compliant
- Maximum TV weight is 120 lbs.
- Optional single or dual TV mount on 60" inserts

PRODUCT SPECIFICATIONS

- Each height of TV mount insert corresponds with a specific height of vertical storage in WaveWorks and Epic. See notation above models to see what model corresponds with appropriate height requirement
- Conference and training rooms commonly use 49" H inserts, but with Exhibit, you can use any of the 5 heights to achieve the customers needs
- When TV mount inserts are used at the end of the run, specify Full End Trims for finish detail; see page 334
- As of April 20th, 2015, the inserts (Slat, Slat/Tack Combo, Insert Shelves, and TV Mount Inserts) will only be compatible with rails ordered on or after April 20th, 2015. If trying to use 1 of these inserts with an existing rail, please contact customer service for more information

TO ORDER, SPECIFY:

1. Model Number
2. TV Mount (60W only)
3. Finish/Laminate Color

POWER/DATA ELECTRICAL SPECIFICATIONS

HEARTH

- Birdhouse shaped power supply with 1 Power and 1 Dual USB-A
- Handmolded concrete body with a wood base detail
- 108" solid brass braided cord
- UL Listed

APPARATUS

- Set on surface
- Available in Flat black with a black braided cord, and matte white with a white braided cord
- 108" cord
- 1 Power and 1 Dual USB-A
- Manufactured with sturdy cast aluminum
- ETL Listed

SIDEKICK

- Felt sofa arm overlay
- Heather Gray unit features power and a braided cord in Poppy. Camel unit features a power and braided cord in Dusk
- 108" cord
- Features a felt pocket to store items while charging
- ETL and UL Listed

ASHLEY DUO

- Includes 2 power, 2 USB
- 72" cord
- Must have at least 5.5" of clearance under surface at point of application to be able to mount
- Ashley Surface Clamp Mount models are only compatible with standard flat rim profile worksurfaces thicknesses between ½" (12.7mm) – 2 13/16" (71mm).
- UL Listed

- Specify resin grade and color: Grade 1 Frosted (1677)
- Specify metal color for holders: Concrete (423), Cinder (462), Iron (463), Platinum Metallic (501), or Satin Nickel Metallic (503)
- 36" and below includes 2 holders per screen, 42" and 48" includes 3 per screen, 54" and above includes 4 per screen
- Privacy screens are 3/16" thick dual sided resin
- Privacy screen holders are made of 12-gauge steel; holders are 3" wide and 5" deep
- Privacy screens are intended to be stand alone units
- 27" and 21" models can be utilized with Epicenter depth worksurfaces

ACCESSORIES

TO ORDER, SPECIFY:

1. Model Number
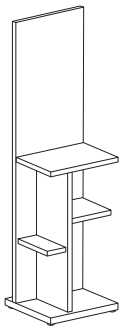
2. Shelf Color
3. Laminate Color

SAMPLE MODEL NUMBER:

10N1867FDSHL PB PB
NAC1205WGV1

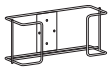
• See page 383 for all options available in Accessories

	MODEL NO./DESCRIPTION		LIST PRICE	DIMENSIONS D	W	H	A	KW	CARTONED WEIGHT	CUBIC FEET
FREESTANDING KIOSK	10N1867FDSHL	Laminate	$ 1382	13 5/16	17 5/16	66 3/8	–	–	73 lbs.	19.7



• Can be used to hang additional PPE equipment (ie. Glove holders and sanitizer dispensers) Limit of 10 lbs hung on the back

SINGLE WIRE GLOVE BOX	NAC1205WGV1	Steel	$ 117	3 3/16	11 5/16	4 3/4	–	–	1 lbs.	1.38

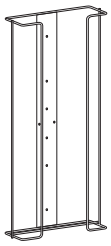


• Steel wire Glove box is Chrome in color
• Includes pre-drilled mounting holes and hardware
• Holds 1 std size box of gloves

DOUBLE WIRE GLOVE BOX	NAC1210WGV2	Steel	$ 160	3 3/16	11 5/16	9 1/2	–	–	1 lbs.	2.7

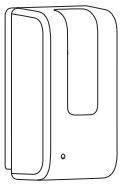
• Steel wire Glove box is Chrome in color
• Includes pre-drilled mounting holes and hardware
• Holds 2 std size boxes of gloves

QUAD WIRE GLOVE BOX	NAC1219WGV4	Steel	$ 229	3 3/16	11 5/16	19	–	–	1 lbs.	5.2



• Steel wire Glove box is Chrome in color
• Includes pre-drilled mounting holes and hardware
• Holds 4 std size boxes of gloves

AUTOMATIC HAND SANITIZER DISPENSER	NAC0407USD1		$ 794	4 1/4	6	11	–	–	2.2 lbs.	8.1



• Dispenser accepts most bulk liquid soaps and sanitizers up to 12mL capacity, inside a solid case of durable ABS plastic
• 4 C Batteries sold separately. External On-Off switch
• Tamper resistant lock system with key for convenient access for assigned personel
• Motion Dispenser: Dispenses within a sense detection of 3"-5"
• 2.2 lbs Empty (without fluid)

- For use with reception desks and transaction counters
- Tack board is unfinished on back
- Does not include route in back for wire management
- Recommend specifying a reception counter when using tack boards on a reception desk/transaction counter
- Fabric will be railroaded
- Reference tack board applicability on pages 413-414

FINISHES AND MATERIALS

WOOD FINISH COLOR MATCHING

Each piece of natural veneer offers unique texture and grain. Minor variations in finish color and value may occur due to the natural characteristics of wood. National carefully selects all materials used in every product ensuring a commercially acceptable color and finish. Factors such as aging and exposure to light alter finishes.

FABRIC COLOR MATCHING

National will always ship a satisfactory commercial match on fabric. Because of industry dye-lot variation, colors may not match exactly.

SEATING FINISH

National's seating finishes can withstand cleaning solutions that include bleach, hydrogen peroxide (Virox), alcohol (CaviWipes, hand sanitizers), quaternary ammonium compounds (Virex, Ecolab A-456 II, Lysol), and phenols (Wex-cide) when they are used in accordance with the manufacturer's label instructions.

For more information about our products and services or to find a certified National® dealer near you, please visit us at NationalOfficeFurniture.com or contact our customer service team at 800.482.1717.

CUT YARDAGE PROGRAM

All National textiles and leathers are available on a cut yardage basis. Cut yardage must be ordered in full yards. List prices include freight.

Fabric Price Grade	US List Price Per Yard
1	$ 65
2	$101
3	$130
4	$174
5	$208
6	$279
7	$352

Leather Price Grade	US List Price Per Half Hide (25-28 sq ft)	US List Price Per Full Hide (50-57 sq ft)
L7	$ 1018	$ 2091
L8	$ 1211	$ 2489

How to specify cut yardage:

1. Model Number

   NOFUPHCUTYDG = seating fabric
   NOFLTHRHHIDE = leather (half hide)
   NOFLTHRFHIDE = leather (full hide)

2. Upholstery Grade

3. Upholstery Number

CLEANING FABRICS:

CLEANING CODE S

- Use only mild, pure water-free cleaning solvents.
- Cleaning by a professional furniture service is recommended.

CLEANING CODE WS

- Use water-based cleaning agents or foam. Mild water-free solvents may also be used.
- Cleaning by a professional furniture service is recommended.

CLEANING CODE W

- Use water-based cleaning agents or foam.
- Cleaning by a professional furniture service is recommended.

CLEANING LEATHER:

REGULAR CLEANING

- Remove as much soil or staining as possible by carefully vacuuming or brushing.
- Dust with a dry or damp cloth.

DEEP CLEANING

- Use mild non-detergent soap or cleaner. Wipe surface with a light circular motion. Repeat with clean water.
- Do not soak leather.
- Pat dry.
- Reference leather card for more information.

FABRIC CHARACTERISTICS

Different fabrics/constructions will respond better than others to specific seating applications. Certain fabrics/constructions are more prone to relaxing over time and can demonstrate characteristics such as wrinkling, pilling, fuzzing, and puddling. Some upholsteries may experience dye transfer (clothing dyes transfer to the seating fabric). This does not mean that the fabric or application is deficient, but rather it is an inherent characteristic of that fabric or application and is considered normal behavior.

LEATHER CHARACTERISTICS

Leather is a natural product. Healed scars, scratches, cuts, and stretch marks are natural markings and are characteristics of leather. Leather may experience dye transfer (clothing dyes transfer to the leather). This does not mean that the leather or application is deficient, but rather it is an inherent characteristic of that leather or application and is considered normal behavior.

NATIONAL SEATING FABRIC GUIDELINES

TEXTILE APPLICATION GUIDELINES

National has listed textile application guidelines for each seating series. These guidelines are intended to help educate you of certain fabric characteristics. **Please make a point to review these guidelines when ordering National seating with National fabrics.** Application of the upholstery will be depicted as on the swatch card unless otherwise instructed on the order.

TEXTILE APPEARANCE GUIDELINES

Please note that these guidelines are here to help you have the best looking product that National can provide. Guidelines 1–4 are simply explanations of what you may see on your product. We can still upholster fabrics associated with these guidelines, but you may see some of the characteristics described.

1 Due to thickness and or stiffness this textile may result in gathers and puckers around corners, contours, and certain seams.
2 Patterns are considered matched directional; however, decorative stitching, tufting/buttons, seams, and seat to back on corner, wedge, and diagonal units may not align due to pattern configuration.
3 Textile with high nylon or wool content (more than 50%) may show signs of material stretch and lack of rebound when room temperatures fluctuate.
4 Mohair, velvet, and chenille may be easily bruised or have the potential of crooked seams due to the heavy nap and flip.

TEXTILE RESTRICTION GUIDELINES

Fabrics associated with guidelines 5 and 6 prevent us from upholstering the applicable models.

5 This textile cannot be used for glue application. Potential issues could include poor adhesion quality to the mating surface, separation of the fabric face from the backing, or glue bleeding through the fabric.
6 Thin and/or loosely woven textiles cannot be used due to potential fabric separation at the seams.
7 This textile has an uneven/irregular surface and cannot be used with topstitch upholstering. The topstitch disrupts the visual appearance of the upholstery. You can contact By Design to see if it is possible to remove the model's top stitch in order to use the fabric.

ALLIANCE PROGRAM TEXTILES

ALLIANCE PROGRAM OVERVIEW

National has developed joint programs with Arc-Com, Carnegie, Designtex, Maharam, Mayer, Momentum, Stinson and Ultrafabrics to offer you quality office seating with exciting lines of designer upholsteries. This program enables you to issue just 1 purchase order, providing simplified ordering and the most convenient, yet complete, seating choices available from a single source. All Alliance patterns meet TB117-2013.

APPLICATION

Application of the Alliance Program upholstery will be depicted as on the memo sample or website. If a different application is desired the pattern will need to h custom quoted.

Directional upholstery, such as stripes, patterns, and plaids may not be su for chairs with contoured shapes, tufting, or decorative stitching. Every made to upholster all chairs as expertly as possible; however such ord subject to return.

Fabric that requires non-stock special treatments such as flame anti-microbial treatment, electrical conductive backing, water re repellent, or acrylic backing are not part of this program. Suc ed to be custom quoted.

LEAD TIMES/AVAILABILITY

Models specified with Alliance Program fabrics will ged at standard lead times based on the supplier's delive xceptions may occur when extended lead times apply. Each su the right to discontinue patterns and colors. National will ponsible for suppliers discontinuing patterns/colors or w order quantities apply. Contact customer service for availability b orders.

WARRANTY

Alliance Program fabrics are non-s als and are **not** covered under our warranty.

PRICING

Alliance Pr pricing includes the cost of material. Repeat is also accounte dditional upcharge is required.

FAB EATING CONSTRUCTION

D and seating constructions will respond better than others to g applications. Certain fabric constructions are more prone to time and may demonstrate characteristics such as wrinkling, zing, or puddling. Some upholsteries may experience dye transfer dyes transfer to the seating fabric.) This does not indicate that the or application is deficient, but rather it is an inherent characteristic of that c or application and is considered normal behavior.

nportant: The information provided was the most current information available at the time this price list was printed. Contact customer service for availability before finalizing orders.

CONTRACT TERMS OF 23109/PC68387 PREVAIL

COM

COM (CUSTOMER'S OWN MATERIAL)

Select casegoods can be upholstered with appropriate material furnished by the customer. All COM/COL must meet applicable codes and regulations, including TB117-2013, California Assembly Bill 2998, and California Proposition 65. For more information on California Proposition 65 and AB 2998 go to https://www.p65warnings.ca.gov/products/furniture-products and https://leginfo.legislature.ca.gov/faces/billTextClient.xhtml?bill_id=201720180AB2998, respectively. By selecting COM/COL, customer certifies that the material meets such codes and regulations. Customer is solely responsible for compliance and may contact a) fabric manufacturer to confirm certification or b) assistance from National Office Furniture.

National Office Furniture strives to create upholstered products with no intentionally added fire retardants. Written confirmation is required confirming that fabric or leather (COM/COL) provided by the customer does NOT contain any added fire retardant chemicals, preferably from the material manufacturer. National truly appreciates your understanding and support of this commitment. If you have any questions or comments, please contact your customer support representative(s).

Prices are listed under grade 2/B, depending upon product type.

Grade 2 seating fabric – mobile pedestal cushion tops, box/file height storage cushions, and Tessera

Grade B tack board fabric – Epicenter, Exhibit, privacy screens, and tack boards

COM is not available on Quick Delivery tack board models.

COM yardage requirements for mobile pedestal cushion tops, box/file height storage cushions, and Tessera in this price list are based on the use of 54" wide fabric and the fabric being cut "up the roll". If the COM fabric is to be railroaded, please contact customer service for revised yardage requirements.

COM yardage requirements for Epicenter, Exhibit, privacy screens, and tack boards in this price list are based on the use of non-directional fabric 54" and 66" wide. All tack board products are upholstered with railroaded fabric.

- When ordering 10 or more COM models, consult customer service for exact yardage requirements
- Reference pages 785-790 for COM yardage requirements
- Please refer to the textile application guidelines listed on page 10 or the COM Approval Search/listing on NationalOfficeFurniture.com

COM DISPOSAL

- Leftover COM from an order is held for 6 weeks
- COM not tied to an order is held for 3 months

COM DECORATIVE/DIRECTIONAL FABRICS

Mobile pedestal cushion tops, box/file height storage cushions, and Wixler:

- Yardage requirements are greatly affected by not only size of repeats but also by the print or pattern
- National will cut patterns with aesthetic concerns in mind for high quality and consistency
- Some COM fabrics are considered directional that may not be considered directional by the fabric supplier, due to the upholstering process used by National
- Application of the COM upholstery will be depicted as on the COM supplier memo sample or website. If a different application is desired the pattern would need to be custom quoted.

Epicenter, Exhibit, and Tack Boards:

- Yardage requirements based upon roll width and tack board size. Pattern repeat is not taken into account. If the fabric pattern needs to be upholstered in a specific manner, a quote will be required to see if possible.
- Epicenter, Exhibit, privacy screens, and tack boards will have railroaded fabric application

FLAMMABILITY

- TB133 models are not available for mobile pedestal cushion tops and box/file height storage cushions. This request would need to be custom quoted.
- COM must be U.L. recognized for use on Epicenter
- COM must be U.L. recognized, meet ASTM E84 Class A, NFPA 701, or GSA 100% Polyester Waiver Program for use on Alloy, NAC Edgemount/Set On Privacy Screens, Return to Work Screens, Tackboards - Exhibit, NAC Accessory Tack boards, Tessera, WaveWorks Metal
- If ASTM-E84 Class A is requested for Exhibit, a quote will be required
- If a fabric is selected with specifications different from those listed above, the customer has the option of having it burn tested to see if meets the requirements. ASTM-E84 testing requested by the customer will require a custom quote. For cost estimates, contact customer service. The fabric/tack board burn test results will determine whether future orders can be entered as standard product or custom quotes. Each instance may vary.
- Letters of assurance are available upon request. A letter of assurance verifies that an ASTM E-84 test was conducted on a combination of tack board/fabric comparable to the requested tack board/fabric.

COM EVALUATION

National reserves the right to inspect, approve, or reject any COM. National approval signifies only that such textile can be applied to the products for which intended. Such approval does not constitute any responsibility, liability, or warranty on the part of National as to appearance, behavior, durability, or tailoring of COM.

CONFIRM COM APPLICATION

Visit NationalOfficeFurniture.com to see if your COM has already been evaluated for application.

Mobile pedestal cushion tops and box/file height storage cushions:

If the COM has not been evaluated prior to placing the order, please send a memo sample to:

National Office Furniture
Attn: COM Coordinator
1600 Royal Street
Jasper, IN 47546

Epicenter, Exhibit, Fabric Privacy Screens, Tack Boards (all tackable fabrics):

Application testing is required for non-preapproved COM tack fabrics. Contact your Customer Service Team for the appropriate forms to initiate application testing.

ALL COM ORDERS MUST:

1. Include fabric supplier's name, fabric name/number, and color name/number

To help expedite your order, we recommend the COM supplier to include the following information:

1. Dealer Name and Purchase Order Number
2. National Model Numbers
3. Ship Prepaid to

Mobile Pedestals with Cushion Tops and Cushions for Box/File Height Storage:

National Office Furniture
Attn: COM Administrator
340 East 11th Avenue

GALLERY LAMINATE AND CSL

GALLERY LAMINATE PROGRAM

PROGRAM DETAILS

The Gallery Laminate program is an on-trend collection curated from trusted laminate suppliers. As we know, trends come and go, sometimes quite quickly. When we see colors/patterns losing industry presence, we will delete and replace with new styles. Gallery Laminates that remain popular could possibly transition into the National Standard Laminate program.

- HPL, TFL, and PVC rims are included in the program
- For each Gallery selection made, an upcharge will be applied, based on the grade
- National orders and procures all Gallery Laminates
- Gallery Laminate program is not available on all products within our offering
- Due to Gallery Laminate size availability, some restrictions may occur. This is noted with bullets under impacted model numbers within the price list

GALLERY LAMINATE OPTIONS

GRADE 1 – 5% upcharge
G1001 Citadel
G1011 Pepperdust

GRADE 2 – 6% upcharge
G1002 Planked Raw Oak
G1003 Evening Notte
G1004 Kirsche
G1005 Midnight Run
G1006 Sepia Walnut
G1007 Serotina
G1008 Timeless
G1009 White Nebbia
G1012 Phantom Ecru

GALLERY ORDERING PROCESS

- Order Gallery Laminate in the same manner as ordering National Standard Laminate
- Six week lead time
- Same warranty as National Laminate

UPCHARGE DETAILS

The percentage upcharge is applied to each Gallery Laminate selection and the total is added to the original list price. Gallery Laminate Grade 1 incurs a 5% upcharge, while Gallery Laminate Grade 2 incurs a 6% upcharge. Please note, the same model may incur multiple upcharges based on the total number of Gallery Laminate locations selected on the specific model. Refer to examples below for further details.

UPCHARGE EXAMPLES

25N3672DDFL8 - Epic double pedestal desk
Rim Profile- VG1008 Timeless (Grade 2) = 6% upcharge
Laminate Top- G1008 Timeless (Grade 2) = 6% upcharge
Drawer/Door Laminate- G1008 Timeless (Grade 2) = 6% upcharge
Chassis Laminate- G1008 Timeless (Grade 2) = 6% upcharge
This example incurs a 24% list upcharge as Gallery Grade 2 Laminate was selected within 4 areas of this model

25N3672DDFL8- Epic double pedestal desk
Rim Profile - V478 Platinum Grey (Standard NOF) = no upcharge
Laminate Top- 478 Platinum Grey (Standard NOF) = no upcharge
Drawer/Door Laminate- G1011 Pepperdust (Grade 1) = 5% upcharge
Chassis Laminate- G1003 Evening Notte (Grade 2) = 6% upcharge
This example incurs a 11% list upcharge as Gallery Grade 1 and Gallery Grade 2 Laminate was selected within 2 areas of this model

25N3672DDFL8- Epic double pedestal desk
Rim Profile- V405 Designer White (Standard NOF) = no upcharge
Laminate Top- G1011 Pepperdust (Grade 1) = 5% upcharge
Drawer/Door Laminate- 405 Designer White (Standard NOF) = no upcharge
Chassis Laminate- 405 Designer White (Standard NOF) = no upcharge
This example incurs a 5% list upcharge as Gallery Grade 1 Laminate was selected within 1 area of this model

25N2060WSSLK1- Epic rectangular worksurface
Rim Profile- KG1001 Citadel (Grade 1) = 5% upcharge
Laminate Top- G1001 Citadel (Grade 1) = 5% upcharge
This example incurs a 10% list upcharge as Gallery Grade 1 Laminate was selected within 2 areas of this model

25N2060WSSLK1- Epic rectangular worksurface
Rim Profile- K462 Cinder (Standard NOF) = no upcharge
Laminate Top- G1005 Midnight Run (Grade 2) – 6% upcharge
This example incurs a 6% list upcharge as Gallery Grade 2 Laminate was selected within 1 area of this model

CUSTOMER SPECIFIED LAMINATE (CSL) PROGRAM

PROGRAM DETAILS

National understands that some orders have specialized needs regarding laminate specifications. In order to better service our customers, National has partnered with suppliers to offer a CSL laminate program for **HPL worksurfaces only:**

- A **10% upcharge** applies to all CSL laminate orders
- National orders and procures all CSL customer specified laminates
- CSL program is not available on all laminate products within our offering
- Due to CSL sheet size availability, some restrictions may occur

CSL ORDERING PROCESS

- Laminate sheen level not to exceed 60º for maximum durability of worksurfaces
- Send purchase order and quantities to customer service
  Please include:
  1. Manufacturer's Name
  2. Laminate Name/Laminate Number
- Lead times may vary for certain laminates and quantities, contact customer service for details

CSL POLICY

- National reserves the right to decline a laminate which may not be suitable for application
- National assumes no responsibility for the durability, consistent coloration, or any other performance characteristic of a customer specified laminate

ALLOY

ALLOY PRODUCT SPECIFICATIONS

WORKSURFACE

- Laminate surfaces are 1⅜" HPL (high pressure laminate) or 1⅛" TFL (thermally fused laminate), and feature a softened 3mm PVC rim
- Refer to page 19 for rim profiles and colors
- Grain direction runs left-to-right
- Always sold with base

HEIGHT ADJUSTABLE BASES WITH POWERED PHASE 3 SYSTEM

- Rated for a maximum of 220 lbs. (including surface and other accessories)
- Adjustable glides are standard
- Digital readout of position, 4 programmable locations
- 27½" to 43½" (without surface) / 28½" to 44½" (with surface)
- Power cord for base is 124" long
- 2 stage telescoping leg
- Some assembly required
- All hardware and electrical included
- Electrical included with powered units. Phase 3 system; 3-circuit/5-wire system. UL Listed in full compliance with National Electric Code (NEC). 1, 2, 3, or hardwire circuit configurations can be selected for the receptacles. Standard-capacity power block, provides back-to-back or single user power, and has 2 receptacles per user. No more than 12 duplexes / 20 amp circuit. Phase 3 system is rated at 20 amps. The duplex receptacles are rated at 15 amp. The wiring consists of 5 wires: 3 hot, 1 neutral, and 1 ground. Hardwire selection will include 2 installed empty back-to-back or single junction boxes
- Items included with this model: base, worksurfaces, center beam, wire management trough, and electrical
- Double sided units can be ganged together or used as freestanding units
- Single sided units have both ganging and non-ganging models
- Single sided ganging can gang to single or double ganging models
- Ganging kits are sold separately
- Alloy adjustable height powered bases can be plugged into themselves. This will take up 1 of the power outlets in the unit automatically
- Only Underwriters' Laboratory (UL) or Canadian Standards Association (CSA) listed electrical components are used in electrical devices and are so labeled. The customer is responsible for the proper application of products to the local codes under which installation must be made

HEIGHT ADJUSTABLE BASES (DOUBLE SIDED, NON-POWERED)

- Rated for a maximum of 220 lbs. (including surface and other accessories)
- Adjustable glides are standard
- Digital readout of position, 4 programmable locations
- 27½" to 43½" (without surface) / 28½" to 44½" (with surface)
- Power cord for base is 124" long
- 2 stage telescoping leg
- Some assembly required
- Items included with this model: base and worksurfaces
- Double sided units can be ganged together or used as freestanding units
- Ganging kits are sold separately

HEIGHT ADJUSTABLE BASES (SINGLE SIDED, GANGING, POWERED)

- Rated for a maximum of 220 lbs. (including surface and other accessories)
- Adjustable glides are standard
- Digital readout of position, 4 programmable locations
- 27½" to 43½" (without surface) / 28½" to 44½" (with surface)
- Power cord for base is 124" long
- 2 stage telescoping leg
- Some assembly required
- Items included with this model: base, worksurface, beam wire management trough, electrical, and feet
- Ganging kits to gang to single or double sided units sold separately
- Alloy adjustable height powered bases can be plugged into themselves. This will use 1 of the power outlets in the unit

HEIGHT ADJUSTABLE BASES (SINGLE SIDED, GANGING, NON-POWERED)

- Rated for a maximum of 220 lbs. (including surface and other accessories)
- Adjustable glides are standard
- Digital readout of position, 4 programmable locations
- 27½" to 43½" (without surface) / 28½" to 44½" (with surface)
- Power cord for base is 124" long
- 2 stage telescoping leg
- Some assembly required
- Items included with this model: base, worksurface, beam, and feet
- Ganging kits to gang to single or double sided units sold separately

HEIGHT ADJUSTABLE BASES (SINGLE SIDED, NON-GANGING, NON-POWERED)

- Rated for a maximum of 220 lbs. (including surface and other accessories)
- Adjustable glides are standard
- Digital readout of position, 4 programmable locations
- 27½" to 43½" (without surface) / 28½" to 44½" (with surface)
- Power cord for base is 124" long
- 2 stage telescoping leg
- Some assembly required
- Items included with this model: base, worksurface, and feet

HEIGHT ADJUSTABLE FEET

- Single sided, freestanding or single sided, ganging - feet must be used and are included with unit
- If ganging single sided to double sided, with double sided on each side of the single, no foot is required, however, if the single sided unit is at the end of the run, the foot is required
- Feet are not included in double sided models, but can be ordered separately

FIXED HEIGHT BASES WITH POWERED PHASE 3 SYSTEM

- Adjustable glides are standard
- Some assembly required
- All hardware and electrical included
- Electrical included with powered units. Phase 3 system; 3-circuit/5-wire system. UL Listed in full compliance with National Electric Code (NEC). 1, 2, or 3 circuit configurations can be selected for the receptacles. Standard-capacity power block, provides back-to-back or single power, and has 2 receptacles per user. No more than 12 duplexes/ 20 amp circuit. Phase 3 system is rated at 20 amps. The duplex receptacles are rated at 15 amp. The system supports 3 circuits; 1, 2, 3, or hardwire circuits. The customer must order the coordinating duplex receptacles when wiring to the number of circuits needed. The wiring consists of 5 wires: 3 hot, 1 neutral, and 1 ground. Hardwire selection will include 2 installed empty back-to-back or single junction boxes
- Items included with this model: base, worksurfaces, center beam, wire management trough, and electrical
- Only Underwriters' Laboratory (UL) or Canadian Standards Association (CSA) listed electrical components are used in electrical devices and are so labeled. The customer is responsible for the proper application of products to the local codes under which installation must be made
- Double sided units can be ganged with a "start", "mid", and "end" or as freestanding
- Single sided units have both ganging and non-ganging models
- Single sided ganging can gang to single or double freestanding, "start", or "end" units
- Ganging kits are sold separately
- Wire management cutout (2½") is standard on fixed height powered models
- No other grommet options available on these models

FIXED HEIGHT BASES (SINGLE SIDED, GANGING, POWERED)

- Adjustable glides are standard
- Some assembly required
- Items included with this model: base, worksurfaces, beam, wire management trough, and electrical
- Ganging kits to gang to single sided, double sided freestanding, "start", or "end" must be ordered separately
- Wire management cutout (2½") is standard on fixed height powered models
- No other grommet options available on these models

FIXED HEIGHT BASES (SINGLE SIDED, GANGING, NON-POWERED)

- Adjustable glides are standard
- Some assembly required
- Items included with this model: base, worksurfaces, and beam
- Ganging kits to gang to single sided, double sided freestanding, "start", or "end" must be ordered separately

FIXED HEIGHT BASES (NON-POWERED, NON-GANGING)

- Adjustable glides are standard
- Some assembly required
- Items included with this model: base and worksurface

FLOOR POWER ENTRY POLE

- Can be used on adjustable, fixed single, or double sided bases
- Attaches to underside of beam, used to conceal power in-feed and data cables
- Non-supporting and can enter at either end or in between benches at the connection point

CEILING POWER/DATA POLE

- Routes power and data from ceiling access to Alloy units
- Electrical not included in power pole
- Do not recommend cutting in the field
- Must be used on an end of a run
- Fixed height base model and adjustable height base model available
- 132" length
- An optional 288" power entry whip ordered separately

TACKABLE PRIVACY SCREEN - EDGE MOUNTED

- Privacy screens are ⅞" thick dual sided fabric
- Privacy screen holders are 12 gauge steel
- Privacy screens are not intended to be stand alone units
- For use with Alloy height adjustable units and single fixed units
- Screen extends 18" above the surface and 3½" below the surface

TACKABLE PRIVACY SCREEN - BEAM MOUNTED

- Privacy screens are ⅞" thick dual sided fabric
- Privacy screens are not intended to be stand alone units
- For use with height adjustable and fixed height benching units
- Screen extends 18" above the surface

RESIN PRIVACY SCREEN

- For fixed models only
- Mounts in track on beam
- Track available in Designer White, Cinder, or Platinum Metallic
- Screens are 3⁄16" thick
- 13" high and 18" high options

MONITOR ARM - BEAM MOUNTED

- Features 4D adjustment; adjusting in and out, up and down, swiveling left and right, and tilting back and forward
- Dynamic arm has integrated cable management
- Single monitor arm supports 1 monitor up to 5.5 lbs. - 15.5 lbs.
- VESA plates are 100mm x 100mm standard. The standard VESA plates are not compatible with Apple monitors
- Monitor arm is only available in Fixed Height beam mounted application
- Maximum of 2 beam mounted arms per beam. Monitor arms are not to extend past the worksurface (not to extend 180) for stability purposes
- Monitor arms are not to extend past the worksurface (not to extend beyond 180°) for stability.
- Monitor arms not to be turned away from user
- Monitor should always be kept above worksurface

MONITOR ARM - GROMMET MOUNTED

- Attachment method via bolt through grommet
- MFlex pole available w/ single arm or dual arms
- Fixed/ dynamic arm
- Pole height from the top of worksurface is 13¼"; Monitor rotation - port/landscape; Monitor extension 4" - 21⅞" and tilt adjustment + 80/ - 15°; 10" dynamic, 6⅝" Manual
- 5.5 lbs. minimum - 15.5 lbs. maximum weight capacity per monitor
- Monitor arms are not to extend past the worksurface (not to extend beyond 180°) for stability.
- Monitor arms not to be turned away from user

VERTICAL WIRE MANAGER

- Flexible nylon; available in black, white, and silver
- Can be used on powered adjustable height double sided bases
- Attaches to underside of worksurfaces; used to conceal power and data cables

ADJUSTABLE HEIGHT SINGLE SIDED BASE VERTICAL WIRE MANAGER

- Flexible nylon; available in black, white, and silverCAUTION - <price> macro was at local level in Seating GSA and COMM In the CAD version it was at local level but was the same as the one below
- Can be used with adjustable height single sided bases to conceal wires to the floorCAUTION - <price> macro was at local level in Seating GSA and COMM In the CAD version it was at local level but was the same as the one below
- Attaches to underside of worksurfaces; used to conceal power and data cables

DATA CUTOUTS

- Data jack covers and blanks not provided by National
- There is 1 data and 2 electrical cutouts per side in the horizontal wire manager
- Recommended use with Leviton Quickport® Decora® Inserts
  - Decora inserts accept all Quickport snap-in modules

INSERTS

ALLOY METAL STORAGE

PRODUCT SPECIFICATIONS

PEDESTALS AND MOBILE PEDESTALS

- Leveling glides with 1¾" of adjustment featured on all units except mobile pedestals
- Powder coated paint
- Counterweights included
- Mobile pedestals with cushions have a weight limit of 200 lbs. max

DRAWERS

- ⅝" thick drawer front consists of 22-gauge cold-rolled steel
- Silencing bumpers ensure quiet drawer operation
- Cinder steel drawer interiors
- Drawer body consists of 22-gauge cold-rolled steel
- Drawers cannot be bottom loaded
- See interior drawer dimensions below

DRAWER PULLS

- Available in 3 styles, refer to page 19 for styles and colors
- Full overlay drawers on all cabinets unless otherwise noted

DRAWER SUSPENSION

- File drawers have full extension, progressive action slides with precision steel ball bearings
- Box drawers have full extension slides with ball bearing rollers
- All suspensions have a lifetime warranty

FILING

- See filing capabilities below

LOCKING

- Black and silver lock cores are available
- Key Random means lock cores/keys are randomly (1-5) picked and factory installed in unit
- Key Specific means you can pick any number (1-200) for black or silver lock core/key. Must specify the lock core model separately; not factory installed and will ship separately
- Specify a change key to remove and change lock cores
- To order key specific lock cores, change keys, and master keys, reference page 750

CONSTRUCTION VERTICAL STORAGE

- 2¼" glide adjustment
- Units made of 18-gauge cold-rolled steel
- Backs and sides finished
- Drawer bottoms not intended to be used as main support for storage items
- Wardrobe has 2 coat hooks and an adjustable shelf with ½" of adjustment
- All locker models have 3 lockers
- 42" tall units intended to match Alloy units with privacy panels (13")
- 53" tall units intended to match Alloy units with privacy panels (23") and to other WaveWorks storage units

24" x 48", 54", 60", 66", 72"
30" x 48", 54", 60", 66", 72"

NOTE: Power will always be in these units strictly for the "height adjustability."

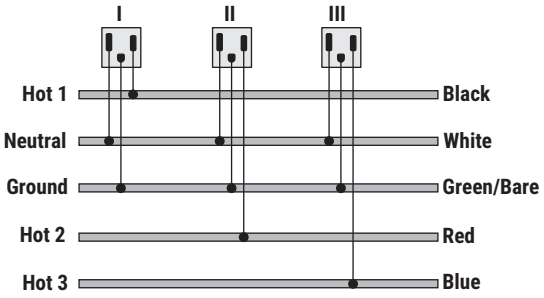
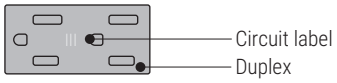
- Electrical included with powered units are a Phase 3 system; 5-wire/3-circuit system. 1, 2, 3, or hardwire circuit configurations can be selected for the receptacles. Standard-capacity power block, provides back-to-back or single power, and has 2 receptacles per user. Hardwire selection will include 2 installed empty back-to-back or single junction boxes
- Power entry whips are available in 72", 144" and 288" long and must be ordered separately. The power entry whip has a modular connector at 1 end, attached to a flexible metal conduit with exposed wiring at the other end which is hardwired to the building power. Power entry whips may connect at the end of a run or anywhere within the run, providing power in 1 or both directions
- Jumpers must be ordered separately and are used to connect power between benches
- Duplex receptacles are labeled as to the specific circuit they are connected to: I, II, and III

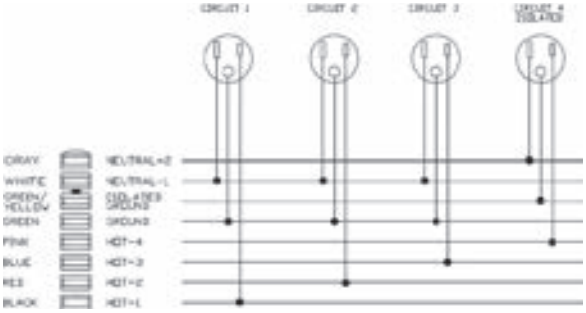
5 WIRE/3-CIRCUIT
CIRCUIT ARRANGEMENT

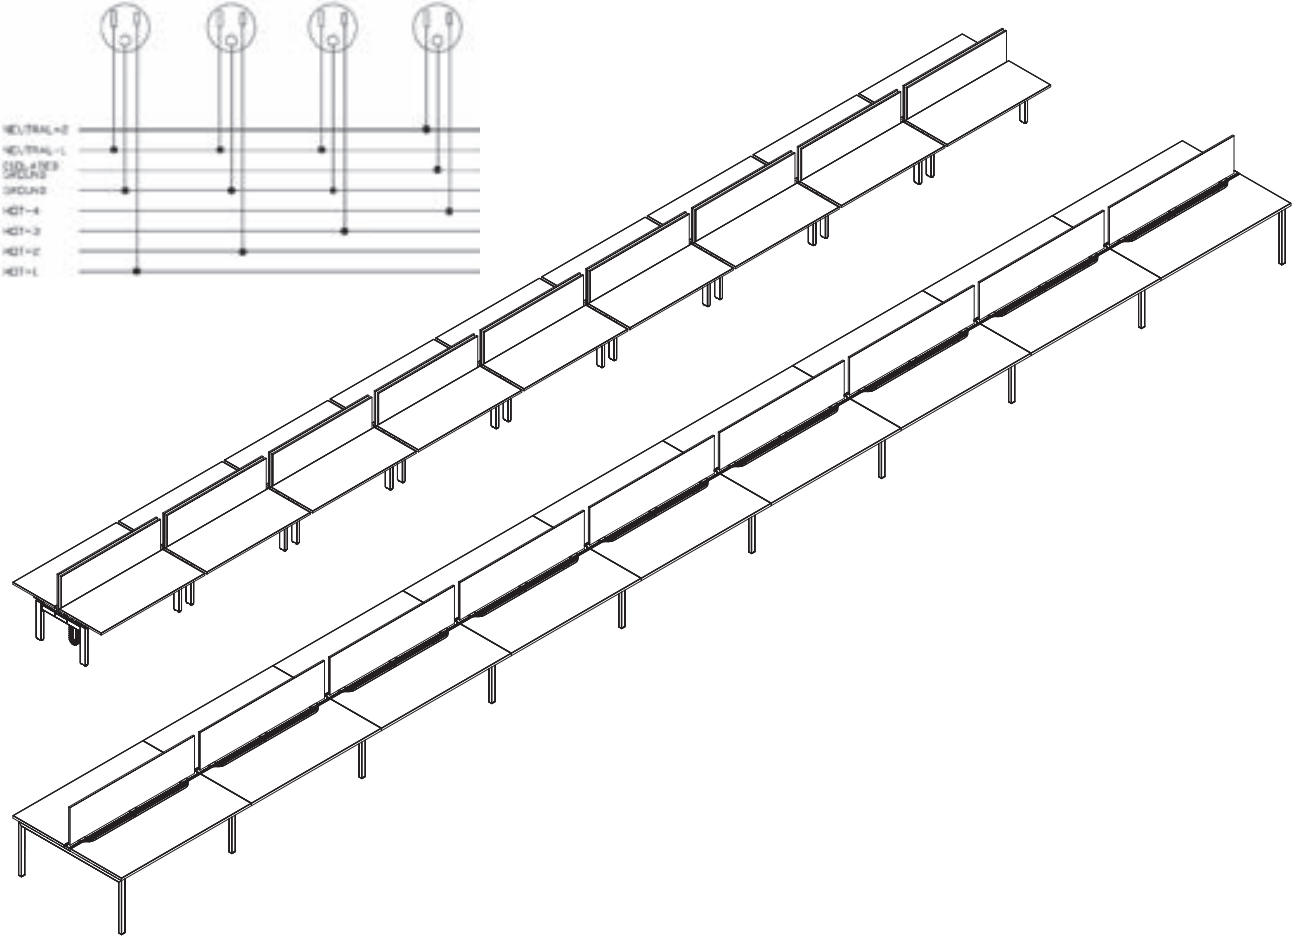


Power Receptacle



8 WIRE/4-CIRCUIT
CIRCUIT ARRANGEMENT





- The maximum amount of duplexes that can be used on 1 power entry whip is 12 duplexes per-circuit
- Each double unit has 4 duplexes (2 per side)
- Each single unit has 2 duplexes (per user)

THOUGHT STARTERS - ALLOY

ADJUSTABLE HEIGHT - NON-POWERED DOUBLE SIDED CENTER BEAM

The overall number of units ganged is only limited based on electrical and floor space.

Units can be used as freestanding models or can be ganged together to create a run of units.

Ganging kits must be ordered separately.

	PART NUMBER	PART DESCRIPTION	LIST PRICE	QUANTITY	EXT LIST

				Total	$33,468

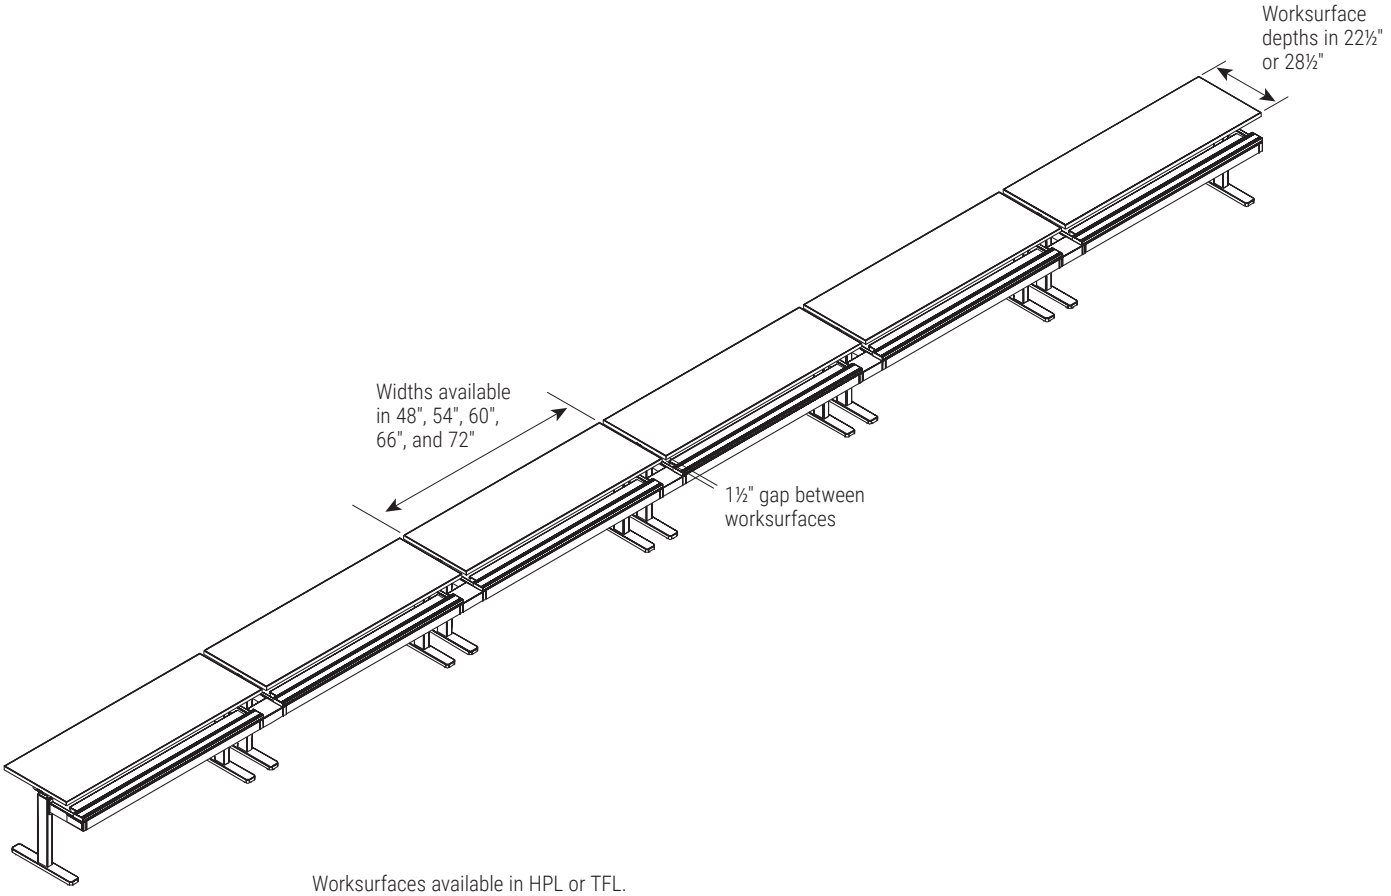
- Each adjustable height double sided unit must be plugged in separately
- Center beam mounted and edge mounted privacy screens can be ordered separately
- Grommet mounted monitor arms can be ordered separately
- Non-powered double sided adjustable height units ship with the base, top, and center beam support
- Worksurface grommet cutouts can be selected to add power above the worksurface (see page 20 for grommet selections). The G17A, G17B, or G17C powered grommet must be ordered separately to be installed in the grommet cutout
- Each worksurface is sized 1½" smaller in width than the model number dimensions to eliminate creep factor and pinch points when ganged together
- NOTE: Power will always be in these units strictly for the "height adjustability"

ADJUSTABLE HEIGHT - NON-POWERED SINGLE SIDED BEAM, GANGING

The overall number of units ganged is only limited based on electrical and floor space.

Units can be used as freestanding models or can be ganged together to create a run of units.

Ganging kits must be ordered separately.



Worksurfaces available in HPL or TFL.

71N22ELJ	22" Ganging Jumper	$ 86	11	$ 946
			Total	$27,829

- Electrical included with powered units are a Phase 3 system; 3-circuit/5-wire system. 1, 2, 3, or hardwire circuit configurations can be selected for the receptacles. Standard-capacity power block, provides single power, and has 2 receptacles per user. Hardwire selection will include 2 installed empty back to back or single junction boxes
- Ganging jumpers must be ordered separately and are used to jump power from 1 unit to the next
- Beam mounted privacy screens can be ordered separately
- Power entry pole can be used to conceal power to the system. This is sold separately and is used to conceal the data and power cables from the floor to the unit. This is non-supporting and can enter at either end or in between benches at the connection point
- Beam mounted monitor arms can be ordered separately
- Horizontal wire manager included with the base model provides a trough for cable to the power/data through tray cut-outs
- Powered single sided fixed height units ship with the base, top, beam, horizontal wire manager, and electrical
- Wire management cutout comes standard in the worksurface of a powered fixed height unit; this allows easy access to the below surface electrical
- Ganging bracket/cover kit must be ordered separately

THOUGHT STARTERS ADJUSTABLE AND FIXED COMBINATION - ALLOY

ADJUSTABLE HEIGHT - NON-POWERED GANGING DOUBLE/SINGLE COMBINATION

The overall number of units ganged is only limited based on electrical and floor space.

Double sided and single sided ganging units can be ganged together to create a run of units.

Ganging kits must be ordered separately.

Single ganging kits are used anywhere a single will gang to a single or double. (Only double to double will use 71NGBK.)

71NGBK23	Adjustable Ganging Bracket/Cover Kit, Black	$ 72	1	$ 72
			Total	$23,005

- Each adjustable height unit must be plugged in separately
- Privacy screens can be ordered separately
- Grommet mounted monitor arms can be ordered separately
- Non-powered adjustable height units ship with the base, top, and beam support
- Worksurface grommet cutouts can be selected to add power above the worksurface (see page 20 for grommet selections). The G17A, G17B, or G17C powered grommet must be ordered separately to be installed in the grommet cutout
- Each worksurface is sized 1½" smaller in width than the model number dimensions to eliminate creep factor and pinch points when ganged together
- When single sided adjustable units are ganged next to double sided, feet are optional. If a single sided adjustable unit is located on an end of a run, however, feet must be used on the single units
- Feet come standard on single sided units
- Feet are optional on double sided units and must be ordered separately
- NOTE: Power will always be in these units strictly for the "height adjustability"

THOUGHT STARTERS - ALLOY

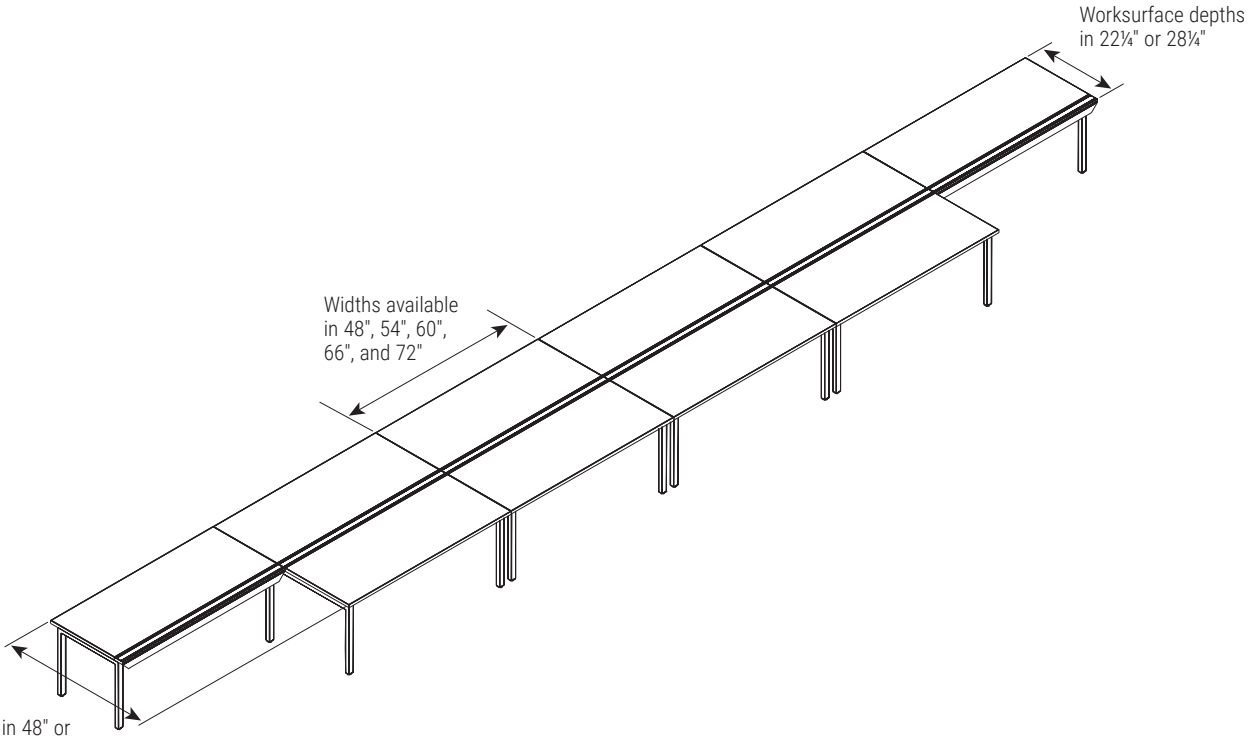
FIXED HEIGHT - NON-POWERED GANGING DOUBLE/SINGLE COMBINATION

The overall number of units ganged is only limited based on electrical and floor space.

Fixed single sided ganging can gang to single ganging model, freestanding double or a start/end

Double sided units are sold as a Start, Mid, or End model. A continuous run of units always require a start and end. Additional Mid models can be added in the middle to create a longer run. Freestanding double sided units can gang with a flat bracket.



Depths available in 48" or
60" for double depth bases.

Worksurfaces available in HPL or TFL.

PRODUCT SPECIFICATIONS

WORKSURFACE

- Worksurfaces are sized on 6" increments for easy planning
- Laminate surfaces are 1⅜16" HPL (high pressure laminate), and feature a 3mm PVC or wood rim or a knife rim profile
- Veneer surfaces are 1⅜16" plain sliced slipmatched cherry (Amber, Autumn, Mocha, Truffle) or maple veneer (Brighton, Caramel, Honey, Natural), plain sliced bookmatched walnut veneer (Cordovan, Judicial), or quarter cut walnut veneer (Almond, Portobello, Sable), or quarter cut oak veneer (Sonoma). All veneer surfaces feature a 3mm wood rim or knife rim profile
- Knife rim surfaces available on 1 (K1) and/or 2 (K2) sides to simplify space planning
- 1 sided knife rim surfaces are recommended when using in a bridge, return, or credenza style application
- 2 sided knife rim surfaces recommended when using as a desking surface
- Refer to page 87 for rim profiles and colors
- Grain direction runs left-to-right unless otherwise noted
- Size modifications available at no upcharge; many Epic component worksurfaces can be cut down in 1⁄16" increments. See component section for specific models

FINISH APPLICATION

- All Veneer surfaces feature a semi-open pore matte finish

CHASSIS CONSTRUCTION

- All joints are securely fastened by screws, L-brackets, dowels, and concealed fasteners to ensure maximum strength
- Footed-base design features 2⅜" tall cast foot, 1⅞" tall steel façade rail and adjustable leveling glides as standard on all casegoods
- End panels and support panels are 1⅛" thick, modesty panels are ¾" thick
- Laminate modesty panels have horizontal grain direction unless noted
- Wood modesty panels have vertical grain direction unless otherwise noted
- Laminate with horizontal grain (example: Sable Horizontal 792H) will always have horizontal grain direction
- Back panels are fully finished unless noted

SHELVES

- Shelves on open bookcases will be veneer, when ordering a veneer bookcase
- Shelves in doored units will always be laminate; doors on bookcases and above worksurface units come standard with touch latch
- Shelves are ¾" thick

PEDESTALS

- Full, lower height or mobile options available

DRAWERS

- Drawers feature 5-sided construction allowing for easy removal/replacement of drawer fronts
- Sides, back and front are ½" thick woodgrain vinyl wrapped
- Drawer fronts are 3-ply construction with matched woodgrain
- For interior drawer dimensions, reference page 93

DRAWER PULLS

- 4 pull styles: Laguna, Level, Waterfall, Horizon
- Available in Cinder, Concrete, Iron, Platinum Metallic and Satin Nickel Metallic

DRAWER SUSPENSION

- Box and file drawers are equipped with black, full extension, progressive action slides
- Precision steel ball bearings combined with sequence slide movement ensures long lasting operation
- All suspensions have a lifetime warranty

FILING

- Drawers are equipped with black metal filing hardware that accommodates various filing requirements
- No-tool, easy installation allows for quick interchangeable filing capabilities
- Refer to page 93 for complete filing details

CORD MANAGEMENT

- Round grommets, racetrack grommets and wire managers are optional on worksurfaces
- When worksurface grommets are ordered, half-moon grommets in modesty panels and extended radius grommets in pedestal end panels will come standard in all bridges, credenzas and returns
- Round grommets optional on component end panels
- Half-moon grommet optional on component modesty panels
- Extended radius grommet optional on end panels of component pedestals
- Wire manager worksurfaces have a flexible PVC trough that allows cords and cables to be routed along the back edge and sides of worksurfaces of all bridges, credenzas and returns
- Refer to page 90 for available grommet/wire manager colors
- Refer to page 92 for complete grommet locations and details
- Undersurface wire managers are available for additional cable management requirements; see page 765 for options

LOCKING

- Black and silver lock cores are available
- Key Random means lock cores/keys are randomly (1-5) picked and factory installed in unit
- Key Specific means you can pick any number (1-200) for black or silver lock core/key. Must specify the lock core model separately; not factory installed and will ship separately
- Specify a change key to remove and change lock cores
- To order key specific lock cores, change keys, and master keys, reference page 750

EZ ARRANGEMENT MODEL NUMBERS

- Specify quickly and accurately with National's EZ Arrangement models. In each series, the most popular options have been pre-selected for a complete L or U configuration. Just choose the left or right model number and rim profile, then select your laminate colors and you're done

COMPONENTS

- Component models will ship bulk packed when applicable

KRB Black
KRS Silver

KEY SPECIFIC

KS1B Black, 1 lock per unit
KS1S Silver, 1 lock per unit
KS2B Black, 2 locks per unit
KS2S Silver, 2 locks per unit
KS3B Black, 3 locks per unit
KS3S Silver, 3 locks per unit
KS4B Black, 4 locks per unit
KS4S Silver, 4 locks per unit

Unit list price will be reduced by $28 per lock when selecting Key Specific option. Must order specific lock cores separately ($28 list each).
See page 750 for Key Specific model numbers.

GROMMET LOCATION OPTIONS

Grommets are available for factory installation in worksurfaces in predetermined locations as shown below. Simply specify the desired grommet style and location in the model number sequence. Refer to page 90 for options.

Round grommets are also available for field installation; see page 755.

- **If specifying a grommet in the center location of a component worksurface, be sure there is clearance under the grommet opening so as not to conflict with undersurface components**

Worksurface grommet locations:

Excluding the corner unit, distance to the center of the grommet is the same for the G1 round grommet, G11 racetrack grommet or the CUT-G17 option.

Excluding the J-Desk and the corner unit, the same locations are available for the round or racetrack grommet and the cutout option.

- Must be field scribed for 18" and 13" high overhead models
- Specify solid/woodgrain/Gallery laminate or wood finish

METAL STORAGE CUBBY	25N4805SMCM		$ 446	13 15/16	47⅞	4¾	—	—	24 lbs.	1.8
	25N4205SMCM		421	13 15/16	41⅞	4¾	—	—	22 lbs.	1.6
	25N3605SMCM		398	13 15/16	35⅞	4¾	—	—	20 lbs.	1.4
	25N3005SMCM		371	13 15/16	29 15/16	4¾	—	—	19 lbs.	1.1

- Storage cubby has a removable tray and is ideal for organizational storage
- Storage cubby can be added to the underside of any 13" high wall mount or Exhibit mount overhead
- When added to a 13" overhead, bottom storage cubby will align with the bottom of an 18" overhead unit
- Specify Cinder (462), Platinum Metallic (501), or Satin Nickel Metallic (503) paint color
- See page 751 for magnetic mount LED strip light
- Storage cubby can be added to the underside of the set-on surface overheads listed on pages 127-130; cubby size needs to be smaller than the overhead size due to the stanchions; Ex: 48" cubby with a 60" overhead, 42" cubby with a 48" overhead

PRODUCT SPECIFICATIONS

- Tops of units are finished with flat edge detail
- National will not be liable for set-on surface overhead storage cabinets that are not properly installed
- Cabinets have a full height back panel
- Sliding doors feature a face mount powder coated aluminum track on top and bottom of cabinet
- Short overhead supports are 5¼" H and long overhead supports are 10½" H
- See page 90 for details on how to specify

TO ORDER, SPECIFY:

- Wire Manager available on left side, back, right side, back & left or back & right; see page 88 for wire manager colors and upcharge
- When ordering a wire manager, a wire manager filler can be ordered separately; see page 202
- Worksurfaces can be ordered in 1/16" increments in depth and/or width to next smallest available size at no upcharge
- When ordering a worksurface with a size modification, specify desired depth and/or width
- For use with 29" deep component pedestals
- To provide additional worksurface support when using in table desking applications, see undersurface support rails on page 199
- For undersurface wire managers, see page 765

PRODUCT SPECIFICATIONS

- Worksurfaces shipped with appropriate hardware by specifying worksurface type; see the specification guide for details
- Rim on all 4 sides of (wood or laminate) softened rim worksurfaces; unless a wire manager is specified then the rim would only be where the wire manager is not located
- Knife rim profile (wood or laminate) available on user side (indicated by K1) or user and approach side (indicated by K2)
- If specifying wood, you must specify the same finish for all options
- Component worksurfaces can be used with assembled units
- Refer to page 92 for grommet locations; and page 90 for grommet upcharge
- Unsupported worksurface spans should not exceed 48"; see page 199 for support options
- Refer to pages 741-784 for accessories

25N2648WSSWK1	Wood	$ 1264	25½	48 1/16	1 3/16	—	—	48 lbs.	2.4
25N2648WSSLK1	Laminate	680	25½	48 1/16	1 3/16	—	—	48 lbs.	2.4

- Wire Manager available on left side, back, right side, back & left or back & right; see page 88 for wire manager colors and upcharge
- When ordering a wire manager, a wire manager filler can be ordered separately; see page 202
- Worksurfaces can be ordered in 1/16" increments in depth and/or width to next smallest available size at no upcharge
- When ordering a worksurface with a size modification, specify desired depth and/or width
- For use with 23" deep pedestals
- Worksurfaces up to 72" wide can be used for table desking applications
- To provide additional worksurface support when using in table desking applications, see undersurface support rails on page 199
- For worksurfaces with grain direction running front-to-back see pages 158-159
- For Epicenter depth worksurfaces see pages 235-239
- For undersurface wire managers, see page 765

PRODUCT SPECIFICATIONS

- Worksurfaces shipped with appropriate hardware by specifying worksurface type; see the specification guide for details
- Rim on all 4 sides of (wood or laminate) softened rim worksurfaces; unless a wire manager is specified then the rim would only be where the wire manager is not located
- Knife rim profile (wood or laminate) available on user side (indicated by K1) or user and approach side (indicated by K2)
- If specifying wood, you must specify the same finish for all options
- Component worksurfaces can be used with assembled units
- Refer to page 92 for grommet locations; and page 90 for grommet upcharge
- Unsupported worksurface spans should not exceed 48"; see page 199 for support options
- Refer to pages 741-784 for accessories

TO ORDER, SPECIFY:

1. Model Number
2. Worksurface Type
3. Rim Profile
4. PVC Rim Color (laminate models)
5. Grommet
6. Wire Manager
7. Modified Depth
8. Modified Width
9. Veneer Top Finish/Laminate Top Color

25N2730WSSVLK2	Laminate	498	27	30 1/16	1 3/16	—	—	28 lbs.	1.5

- Wire Manager available on left side, back, right side, back & left or back & right; see page 88 for wire manager colors and upcharge
- When ordering a wire manager, a wire manager filler can be ordered separately; see page 202
- Worksurfaces can be ordered in 1/16" increments in depth and/or width to next smallest available size at no upcharge
- When ordering a worksurface with a size modification, specify desired depth and/or width
- Grain direction runs front-to-back
- For use with 23" deep pedestals
- Intended to be used when building an L or U configuration utilizing components
- For worksurfaces with grain direction running left-to-right, refer to pages 152-156
- To provide additional worksurface support when using in table desking applications, see undersurface support rails on page 199
- For Epicenter depth worksurfaces see pages 235-239
- For undersurface wire managers, see page 765

EPIC

PRODUCT SPECIFICATIONS

- Worksurfaces shipped with appropriate hardware by specifying worksurface type; see the specification guide for details
- Rim on all 4 sides of (wood or laminate) softened rim worksurfaces; unless a wire manager is specified then the rim would only be where the wire manager is not located
- Knife rim profile (wood or laminate) available on user side (indicated by K1) or user and approach side (indicated by K2)
- If specifying wood, you must specify the same finish for all options
- Component worksurfaces can be used with assembled units
- Refer to page 92 for grommet locations; and page 90 for grommet upcharge
- Unsupported worksurface spans should not exceed 48"; see page 199 for support options
- Refer to pages 741-784 for accessories

TO ORDER, SPECIFY:

- Wire Manager available on left side, back or right side; see page 91 for wire manager colors and upcharge
- When ordering a wire manager, a wire manager filler can be ordered separately; see page 554
- For additional worksurface support, specify Undersurface Support Rail, see page 550
- Modified width and depth not available on this shape
- Intended for use with 24" deep worksurfaces
- For undersurface wire managers, see page 765

EPIC

PRODUCT SPECIFICATIONS

- Worksurfaces shipped with appropriate hardware by specifying worksurface type; see the specification guide for details
- Rim on all 4 sides of (wood or laminate) softened rim worksurfaces; unless a wire manager is specified then the rim would only be where the wire manager is not located
- Knife rim profile (wood or laminate) available on user side (indicated by K1) or user and approach side (indicated by K2)
- If specifying wood, you must specify the same finish for all options
- Knife rim profile always on extension
- Component worksurfaces can be used with assembled units
- Refer to page 92 for grommet locations; and page 90 for grommet upcharge
- Unsupported worksurface spans should not exceed 48"; see page 199 for support options
- Refer to pages 741-784 for accessories

- Grain direction runs diagonally
- Will accommodate 24" deep extension worksurfaces on both sides
- Models ending in 2 - utilize with 24" deep worksurfaces
- Models ending in 3 - utilize with 30" deep worksurfaces
- Models ending in 7 - utilize with 1 left 30" deep and 1 right 24" deep worksurfaces
- Models ending in 9 - utilize with 1 left 24" deep and 1 right 30" deep worksurfaces
- 42" corner worksurfaces have 25" on front edge
- 36" corner worksurfaces have 17" on front edge
- Corner worksurface assembled to corner unit is not intended for freestanding unit
- Wire Manager available on left side, right side or left & right sides; see page 88 for wire manager colors and upcharge
- When ordering a wire manager, a wire manager filler can be ordered separately; see page 202
- Modified depth and width not available on this shape
- For undersurface wire managers, see page 765

EPIC

PRODUCT SPECIFICATIONS

- Worksurfaces shipped with appropriate hardware by specifying worksurface type; see the specification guide for details
- Knife rim profile (wood or laminate) available on user side (indicated by K1) or user and approach side (indicated by K2)
- If specifying wood, you must specify the same finish for all options
- Component worksurfaces can be used with assembled units
- Refer to page 92 for grommet locations; and page 90 for grommet upcharge
- Unsupported worksurface spans should not exceed 48"; see page 199 for support options
- Refer to pages 741-784 for accessories

	• Specify component worksurfaces and backs to finish as needed • For use when creating single pedestal desks from components or with U-surfaces or P-surfaces • Not intended for use in a freestanding application									

EPIC

PRODUCT SPECIFICATIONS

- Pedestals shipped with appropriate hardware
- Pedestals do not include back panels and are 1" less than worksurface depth to accommodate optional back or modesty panels, or to provide space for cable access
- If undersurface storage is used against a wall, a back or modesty panel may be specified, but is not required
- Filler strips (page 202) are recommended to fill the 1" gap
- If undersurface storage is used with Epicenter, a back or modesty panel is not required and pedestal grommet must NOT be specified
- If pedestals are being used in a freestanding open plan, modesty or back panels are ALWAYS recommended

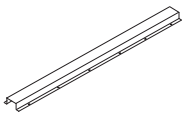
	NAC0236SUR		228	2¾	36	1	–	–	3 lbs.	0.3



- Specify model number only
- Model recommended for use when the weight on the table has a uniform weight above 125 lbs. or if the span between table legs or support structures is greater than 48" on a 1 3/16" worksurface and greater than 60" on a 1 7/16" worksurface
- Specify the 36" model to be used up to 66" worksurfaces
- Specify the 48" model to be used up to 72" worksurfaces
- Specify with worksurfaces when overlapping box/file height storage, sit on box/file height storage and supports worksurface height worksurfaces
- Rails are bulk packed per order. The pack may contain both sizes of rails

EPICENTER

Product Specifications 204
Configuration Options 205
Epicenter Units 212

EPICENTER

PRODUCT SPECIFICATIONS

WORKSURFACE

- Laminate surfaces are 1⅜" HPL (high pressure laminate) or 1⅛" TFL (thermally fused laminate), and feature a 3mm PVC or a knife rim profile
- Veneer surfaces are 1⅜" plain sliced slipmatched cherry (Amber, Autumn, Mocha, Truffle) or maple veneer (Brighton, Caramel, Honey, Natural), plain sliced bookmatched walnut veneer (Cordovan, Judicial), quarter cut walnut veneer (Almond, Portobello, Sable), or quarter cut oak veneer (Sonoma). All veneer surfaces feature a 3mm wood rim or knife rim profile
- Knife rim surfaces available on 1 (K1) side to simplify space planning
- Refer to page 207 for rim profiles and colors
- Grain direction runs left-to-right unless otherwise noted

FINISH APPLICATION

- All Veneer surfaces feature a semi-open pore matte finish

UPPER EPICENTER

- Upper Epicenter is a welded assembly that attaches to component pedestals and/or worksurfaces
- Upper Epicenter can be mounted on box/file or worksurface height component pedestals
- Upper Epicenter provides the structure to hang worksurfaces or mount privacy screens
- Upper Epicenter is 13" tall and provides seated height privacy to users
- Available as non-powered or with a multi-circuit electrical solution
- Non-powered Upper Epicenter available in 24"-96" lengths
- Powered Upper Epicenter available in 24"-72" lengths
- Multiple inserts available to personalize the Upper Epicenter
- Multiple sections can be ganged to outfit any space
- Slat and slat/tack inserts must be specified where worksurfaces will be hung from the Upper Epicenter
- Lower and Upper Epicenter must be specified in the same widths
- If undersurface storage is used with Epicenter, pedestal grommets must NOT be specified

LOWER EPICENTER

- Only available as non-powered
- Upper and Lower Epicenters must be specified together to create a single sided Epicenter
- Lower and Upper Epicenter must be specified in the same widths
- Lower Epicenter available in 24"-96" lengths and worksurface and box/file heights
- Multiple single sided inserts available to personalize the Epicenter
- If undersurface storage is used with Epicenter, pedestal grommets must NOT be specified

UPPER EPICENTER TACK BOARD/SLAT WALL/MARKER BOARD INSERTS

- Tack board insert is available in fabric, see page 207 for fabric options
- Tack board and slat/tack inserts have cutout options for access to the multi-circuit electrical solution
- Slat wall inserts are powder coated aluminum and available in Cinder, Platinum Metallic or Satin Nickel Metallic
- Slat wall inserts offer flexibility in placement of work tools; slat/tack inserts offer a slat wall insert combined with a tack board insert providing a multi-functional area
- Magnetic porcelain marker board inserts have erasable writing surface
- Marker board inserts are available in white only
- Slat wall and marker board inserts include 2 trim channels

SINGLE SIDED EPICENTER TACK BOARD/VENEER/LAMINATE INSERTS

- Tack board insert is available in fabric, see page 207 for fabric options
- Veneer/laminate inserts are not available with cutout options
- Laminate inserts are HPL and available in all woodgrain and solid laminate chassis offerings

UPPER EPICENTER POWER AND DATA

- Epicenter features a 3 circuit/5 wire UL listed electrical solution rated at 20 amps per circuit
- Power and data troughs have metal separation
- 15 amp duplex receptacles can be specified for any of the 3 circuits
- Epicenter's electrical solution provides access to power on both sides of the unit
- On 30"-72" lengths of the powered Epicenter a duplex receptacle can be located 12" from each end of the unit, on the 24" powered Epicenter the duplex receptacle can be located in the center of the unit
- Power pole allows power and data to be dropped down from above; attaches to Epicenter trim cap
- Power entry whip allows power to enter at the floor, wall, column or power pole
- Jumpers available in 18" to 126" lengths to distribute power between powered Epicenter sections
- Top channel provides a lay-in data trough

EPICENTER END TRIM

- End trim is powder coated steel
- Full end trim finishes the end of a run

EPICENTER MOUNT OVERHEADS

- Available as shared 13" cabinets
- Overheads feature stanchions that allow them to straddle the Epicenter
- Resin or metal sliding doors or open models
- Shared models available in 30"-60" widths
- Interior space allows for storage of binders

EPICENTER MOUNT PRIVACY SCREEN

- Screen is 3⁄16" thick resin
- 13" height available in 24"-60" widths
- Height aligns with Epicenter overheads

EPICENTER WORKSURFACE BRACKETS

- Epic worksurface brackets attach worksurfaces to the Epicenter
- Worksurface bracket must be attached to a slat or slat/tack combo insert
- Utilized when Epicenter is mounted on box/file height storage to hang worksurfaces at standard height

COMPONENTS

- Component models will ship bulk packed when applicable

- Mid Support Panels (Single Depth) are handed and must be specified as left or right
- Choose the option that corresponds with the Upper and/or Full Epicenters as viewing from the user side of your configuration

EPICENTER

PRODUCT SPECIFICATIONS

- Epicenter is a welded assembly that attaches to component pedestals and/or worksurfaces
- Epicenter can be mounted on box/file or worksurface height component pedestals
- Epicenter provides the structure to hang worksurfaces, overhead storage cabinets or privacy screens
- Epicenter is 13" tall and provides seated height privacy to users
- Slat and Slat/Tack combo units must be specified where worksurfaces will be hung from the Epicenter
- Tack board insert is available in fabric, see page 207 for fabric options
- Tack board and Slat/Tack combo insert have cutout options for access to the multi-circuit electrical solution
- Marker board inserts have erasable writing surface and are magnetic
- Top channel provides a lay-in data trough
- See specification guide for details on how to specify
- Upper and Lower Epicenter must be assembled to create a single sided application
- Single sided application must have 1 side assembled to a worksurface, component peds, and/or Epicenter support bases

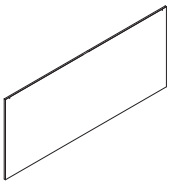
MODESTY PANEL INSERT BOX/FILE HEIGHT



MODEL NO./DESCRIPTION		LIST PRICE	DIMENSIONS D	W	H	A	KW	CARTONED WEIGHT	CUBIC FEET
26N6019MPVL	Laminate	$ 561	½	59¾	19³⁄₁₆	—	—	32 lbs.	2.5
26N5419MPVL	Laminate	547	½	53¹³⁄₁₆	19³⁄₁₆	—	—	30 lbs.	2.4
26N4819MPVL	Laminate	524	½	47¹³⁄₁₆	19³⁄₁₆	—	—	28 lbs.	2.4
26N4219MPVL	Laminate	489	½	41¹³⁄₁₆	19³⁄₁₆	—	—	25 lbs.	2.3
26N3619MPVL	Laminate	427	½	35¹³⁄₁₆	19³⁄₁₆	—	—	23 lbs.	2.3
26N3019MPVL	Laminate	377	½	29⅞	19³⁄₁₆	—	—	21 lbs.	2.2
26N2419MPVL	Laminate	352	½	23⅞	19³⁄₁₆	—	—	21 lbs.	2.2

- Modesty panel inserts run between pedestals/end panels and behind support bases
- Grain direction runs vertically
- Modified width must be selected when using end panels or pedestals; after modified width is calculated, choose the larger model number and then specify the modified size. Ex: order 26N6026MP_ when the modified size is 55.625
- **Modesty panel size calculation** when using an end panel or pedestal: "Epicenter width – total pedestal and/or end panel width = modesty insert width." For the formula, use 15.125 for 15" ped, 18.125 for 18" ped, 24.125 for 24" ped, 30.125 for 30" ped, 36.125 for 36" ped, and 1.3125 for end panels

EPICENTER

PRODUCT SPECIFICATIONS

- Tack board and Slat/Tack combo insert have cutout options for access to the multi-circuit electrical solution
- Duplex receptacles can be specified for any of the 3 circuits
- Epicenter's electrical solution provides access to power on both sides of the unit
- On 30"-60" lengths of the powered Epicenter, a duplex receptacle can be located 12" from each end of the unit, on the 24" powered Epicenter, the duplex receptacle is located in the center of the unit
- See specification guide for details on how to specify

TO ORDER, SPECIFY:

1. Model Number
2. Paint Color

SAMPLE MODEL NUMBER:

26N93ELC 503

- See pages 205-210 for all options available in Epicenter

	MODEL NO./DESCRIPTION		LIST PRICE	DIMENSIONS D	W	H	A	KW	CARTONED WEIGHT	CUBIC FEET
EPICENTER POWER ENTRY WHIP	26N144ELE		$ 484	1⅜	144	2	—	—	7 lbs.	0.3
	26N72ELE		396	1⅜	72	2	—	—	4 lbs.	0.3
	• Specify model number only									
VERTICAL WIRE MANAGER	NAC30WMV		$ 303	1½	3¼	31	—	—	2 lbs.	0.2
	• Graphite color • Attaches to underside of worksurface; flexible; used to conceal power in-feed and data cables									
EPICENTER POWER POLE	26N93ELC		$ 396	2⅛	2⅜	93	—	—	10 lbs.	0.9
	• Features a trim cap to finish off connection to the Epicenter • Available in Cinder, Platinum Metallic and Satin Nickel Metallic • Utilize for electrical entry from ceiling • Power Entry Whip specified separately									
EPICENTER DUPLEX RECEPTACLES	26NELR1	Circuit 1	$ 62	1½	2⅜	1¼	—	—	3 lbs.	0.4

Single side tray:	40 lbs. t.w.
Double side tray:	47 lbs. t.w.
Pocket organizer:	4 lbs. t.w.
Slant Sorter:	19 lbs. t.w.

EPICENTER

PRODUCT SPECIFICATIONS

- For use with Exhibit and Epicenter slat wall inserts
- Pencil Tray (NAC0510PTB) is only available in black and may not be an exact match

TO ORDER, SPECIFY:

1. Model Number
2. Paint Color

SAMPLE MODEL NUMBER:

NAC0905SHBM 462

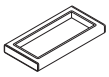
- See pages 205-210 for all options available in Epicenter

METAL WORK TOOLS

	MODEL NO./DESCRIPTION	LIST PRICE	DIMENSIONS D	W	H	A	KW	CARTONED WEIGHT	CUBIC FEET
BINDER SHELF	NAC0905SHBM	$ 79	9⅛	5	8¹⁄₁₆	—	—	3 lbs.	0.5

- Not recommended for use under Epicenter mounted overhead storage cabinets

PENCIL TRAY	NAC0510PTB	$ 96	5	10	1	—	—	1 lbs.	0.1



- Available in Black only
- Specify model number only

METAL TOOLS OPERATING LOAD CAPACITIES

Component:	Operating Load Capacity (Functional Loads):
Binder shelf:	10 lbs. t.w.
Pencil tray:	5 lbs. t.w.

PRODUCT SPECIFICATIONS

- For use with WaveWorks slat walls, Exhibit and Epicenter slat wall inserts
- Available in black and clear plastic
- These products have been designed to be used safely when filled under normal circumstances

TO ORDER, SPECIFY:

1. Model Number

SAMPLE MODEL NUMBER:

NACCP

- See pages 205-210 for all options available in Epicenter

LOCHLYN

PRODUCT SPECIFICATIONS

FRAMES

- Frames are made of 6060-T6 aluminum
- Must be installed as instructions indicate to warrant product
- Leveling glides are standard
- Units 3 modules high and higher must be anchored. Both floor and wall mount anchors are included. Anchor plate mounting hardware for floor mount will deface the floor. If using the wall mount attachment method, unit must run parallel to the wall. Hardware not provided but recommendations made
- Shipped flat and unassembled and installed in the field
- Inserts are ordered separately
- Vertical and horizontal frames are used to build and must be placed in correct position for a secure attachment
- Frames are attached with a connector piece that is made of Diecast Zamak, press fit and screwed to the frame ensure maximum strength
- Sizes of 18", 24", 30", 36", 42", 48", 54", 60", 66", 72", 78", 84", 90", 96" widths
- Sizes of 15", 27", 40", 53", 65", 78" heights

INSERTS

- Laminate options; vertical grain direction with the exception of horizontal grain laminates.
- If top open box is used for biophilia—must provide own liner
- Must be ordered separately from frame models
- Module front open box, module top open box, module sliding box drawers, module front box with hinged door(s), module pass-through box (no back boxes), and module trays are all made of laminate material
- Sizes of 17", 23", and 29" widths
- Sizes of 12", 25" heights
- Shelves available in laminate or clear glass
- Door inserts are available with touch latch closure, non-locking
- Drawer available with Level or Beam pull, non-locking
- Specify Pet Bed Liner to fit inside module trays

WALLMOUNT FRAMES

- Frames are made of 6060-T6 aluminum
- Must be installed as instructions indicate to warrant product
- Shipped flat packed and installed in the field
- Inserts are ordered separately
- Intended to be used as a display shelf
- Can be mounted to an architectural wall or a Tessera wall
- Attached flush to wall. Hardware not provided.
- Sizes of 12" – 72" width, 14" depth, and height of 13", 26", and 38"
- For display only, cannot be mounted with the top surface under 39" H on the wall

PRIVACY SCREENS

- Available in PET or Backpainted Glass
- Felt PET (Polyethylene terephthalate) ½" non self-healing tackable panel
- Backpainted Glass is white backpainted, low iron, tempered

WORKSURFACE

- Laminate surfaces are 1⅜" TFL (thermally fused laminate) and feature a 3mm PVC rim
- Grain direction runs left-to-right unless otherwise noted

CHASSIS CONSTRUCTION (DESKS AND BRIDGES)

- Frames are made of 6060-T6 aluminum
- Must be installed as instructions indicate to warrant product
- Leveling glides are standard
- Shipped flat packed
- Frames are attached with a connector piece that is made of Diecast Zamak, press fit and screwed to the frame ensure maximum strength

ADJUSTABLE HEIGHT DESK

- Available in laminate only; TFL top
- When in raised position, leg will be exposed
- Modesty panel optional, ordered separately
- Control pad can be moved to right-handed (RH) or left-handed (LH) by the customer
- Height adjustable customer range: 27⅜"-43¾"
- Duty cycle: 2 minutes ON/18 minutes OFF
- Maximum load should not exceed 100 lbs. on the surface
- Power cord: Type A plug, max 10 A, 125 V; 78¾" length
- Modesty panels are ordered separately and field installed
- Specify laminate color for the top, accent laminate for the laminate shroud, paint for the metal frame, and accent paint for the adjustable height metal legs

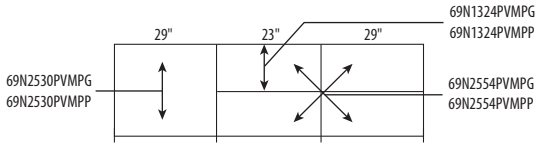
LOCHLYN - THOUGHT STARTERS

- Must have both vertical and horizontal aluminum frame to attach a screen
- Screens will fully overlay the metal frame and attach using brackets with stanchions
- Nominal screen width is approximately 1" larger than nominal module opening width EXCEPT when spanning multiple vertical frames as stack up will occur
- Illustrations below are showing examples only; other combinations can be achieved
- Dimensions shown above each frame section represent the module opening width
- 60" wide screens fit two 29" wide module openings
- 54" wide screens fit a combined 29" wide module + 23" wide module opening
- 48" wide screens fit two 23" wide module openings
- 42" wide screens fit a combined 23" wide module + 17" wide module opening
- 36" wide screens fit two 17" wide module openings
- 30" wide screens fit a single 29" wide module opening
- 24" wide screens fit a single 23" wide module opening
- 18" wide screens fit a single 17" wide module opening

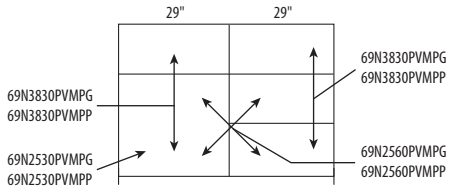
MODEL 69N8427AFRFM (Style A)
FREESTANDING METAL FRAME 2 MODULE HIGH



EXAMPLES

- 69N2530PVMPG fits a 2 high, 29" wide module opening
- 69N1324PVMPG fits a 1 high, 23" wide module opening
- 69N2554PVMPG fits a 2 high, 52" wide combined module openings (23" wide + 29" wide modules)

MODEL 69N6040AFRFM (Style A)
FREESTANDING METAL FRAME 3 MODULE HIGH

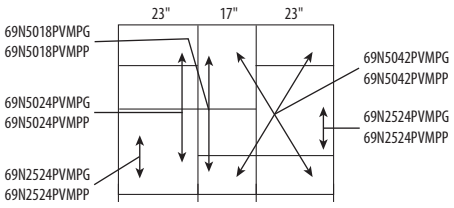


EXAMPLES

- 69N3830PVMPG fits a 3 high, 29" wide module opening
- 69N2530PVMPG fits a 2 high, 29" wide module opening
- 69N2560PVMPG fits a 2 high, 58" wide combined module opening (29" wide + 29" wide modules)

- Models 69N3860PVMPG or 69N3860PVMPP would cover the entire frame

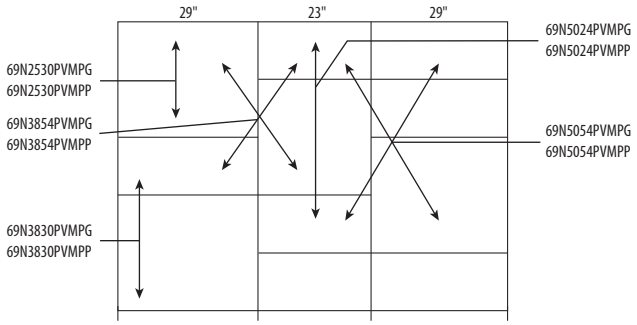
MODEL 69N6652AFRFM (Style A)
FREESTANDING METAL FRAME 4 MODULE HIGH



EXAMPLES

- 69N5018PVMPG fits a 4 high, 17" wide module opening
- 69N5024PVMPG fits a 4 high, 23" wide module opening
- 69N2524PVMPG fits a 2 high, 23" wide module opening
- 69N5042PVMPG fits a 4 high, 40" wide combined module opening (17" wide + 23" wide module opening)

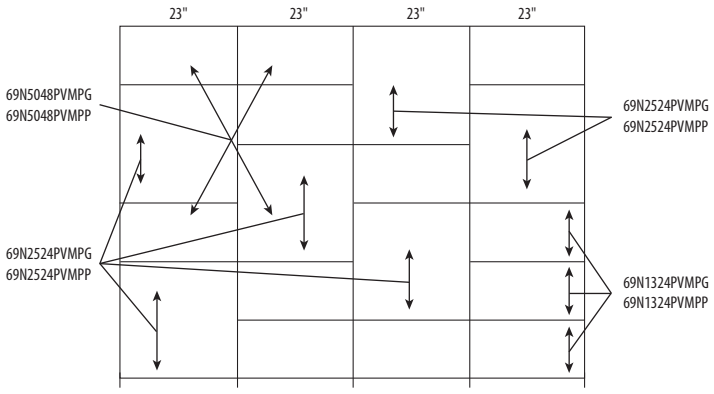
MODEL 69N8465AFRFM (Style A)
FREESTANDING METAL FRAME 5 MODULE HIGH



EXAMPLES

- 69N2530PVMPG fits a 2 high, 29" wide module opening
- 69N3854PVMPG fits a 3 high, 52" wide combined module opening (29" wide + 23" wide module opening)
- 69N3830PVMPG fits a 3 high, 29" wide module opening
- 69N5024PVMPG fits a 4 high, 23" wide module opening
- 69N5054PVMPG fits a 4 high, combined 52" wide module opening (23" wide + 29" wide module opening)

MODEL 69N9678AFRFM (Style A)
FREESTANDING METAL FRAME 6 MODULE HIGH



EXAMPLES

- 69N5048PVMPG fits a 4 high, 46" wide combined module opening (23" wide + 23" wide module opening)
- 69N2524PVMPG fits a 2 high, 23" wide module opening
- 69N1324PVMPG fits a 1 high, 23" wide module opening

NAVIYD

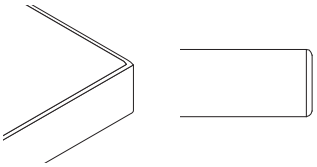
PRODUCT SPECIFICATIONS

DETAILS

- Configured desk models include the base, worksurface and ships ready to assemble
- Component bases include the base frame and ships ready to assemble. IMPORTANT: Worksurfaces must be specified separately
- Models with base top ship in two cartons; assembly is required
- Four table base styles:
  - T-leg
  - T-leg L-configuration
  - C-leg
  - Single-column H

WORKSURFACE



- Table desk worksurface sizes range from a nominal 36" to 72"
- Worksurfaces are available in HPL (high pressure laminate) 1³⁄₁₆" T or TFL (thermally fused laminate) 1⅛" T, and both feature a 3mm PVC rim
- Grain direction runs left-to-right unless otherwise noted
- Factory installed grommets and cut-outs are available in predetermined locations; upcharge applies. See pages 328-329

TABLE BASES

- Bases are formed metal with a powder coat finish available in 3 standard finishes, Designer White, Cinder, Platinum Silver
- Optional powder finishes are available at an upcharge
- Bases are standard with 2" diameter black plastic glides with a ½" adjustment for unlevel floors
- Casters – Field installed caster kit (set of 4) available; order separately:
  - used only on T-legs base style with rectangular worksurface tops 23"-29"
  - not available on C-base styles
  - low profile black plastic – add 1½" to overall heights
  - weight load for desk is 130 pounds with casters

HEIGHT ADJUSTABLE TABLE DESK

- Control pad can be moved to right-handed (RH) or left-handed (LH) by the customer
- Height adjustable range (with worksurface):
  - standard height mechanism is 26" to 42¼"
  - extended height mechanism is 22½" to 48½"
- Lifting Capacity of base without worksurface:
  - table desks are 265 pounds
  - single column H is 132 pounds
- Adjustment speed is 1.3" per second
- Standard with Up and Down controller
- Two Optional Controller are available; see page 350
- Table desk frame width is expandable in 6" increments
- Standard features:
  - anti-collision
  - overheat protection
  - overload protection

CORD MANAGEMENT

- Round grommets, racetrack grommets and wire managers are optional on worksurfaces
