Due to variations in screen displays, finishes shown here may not match actual finishes exactly. These samples are a digital representation and are as accurate as technology will allow.

Wood color and grain characteristics will vary and exact matches are impossible.

These images are for color reference only. If you require an actual wood sample, please contact your representative or contact the factory.

### NOTE

When ordering a light to clear finish, the natural characteristics and variations in the grain of the wood will be more apparent. When ordering a dark or medium finish the natural characteristics and variations in the grain of the wood will be more subdued, providing a more uniform appearance. All colors shown are on solid cherry or maple, which are generally the standard wood species used for Trinity Furniture models. Certain models may use a different wood species with different grain characteristics. Please review the product specifications of each furniture item to be certain of the wood type used and available finishes. Special finish matches are also available. A finish sample is required and must be submitted to Trinity with the order.

*Note: Trinity will match finishes from DARRAN and Jasper Desk at no charge.*

### ANTIMICROBIAL PROPERTIES

All wood finishes are specially formulated with Safe-T-Guard antimicrobial additive to prevent the growth or expansion of mold, mildew, fungus, or bacteria on exposed wood surfaces.

### TABLES AVAILABLE WITH LAMINATE OR VENEER

Laminate Pairings are available for most wood finishes. Additional laminates are available.
