NOTICE TO AUTHORIZED USERS OF AWARD #23295 - Furniture, All Types (Except Hospital Room and Patient Handling)

This pricelist/catalog **may** contain items that are not within the Scope of the Contract Award and/or not within this Contractors approved furniture Categories. All Authorized Users are strongly encouraged to review the Scope of the Award and the Contractors Category Matrix prior to selecting items for purchase under the Contract. Per Solicitation Section 4.5 (D) - Procurement Instructions for Authorized Users: When placing orders under this Award, the Authorized User should follow and be familiar with the terms and conditions governing the Contract and are responsible for determining that the product(s) they intend to purchase fit within the scope of the Award.

References to other government contracts that may be included in a Contractor's pricelist/catalog, including any additional terms or conditions, are void under the OGS Award and should be disregarded. Only OGS' Terms and Conditions, including those within a Contractor's posted Contractor Information and Supplemental Information sheet, are valid under the Contract.

Additionally, Authorized Users are reminded that where discrepancies exist between Price List documents, the lowest price shall prevail (see Section 5.3 Price).

All orders must be placed with the Contractor, or the Contractor's OGS approved Authorized Reseller listed on the OGS website under the Award. Orders placed with a reseller not approved by OGS are not considered contract orders and therefore are not subject to the same terms and conditions of the OGS Award.

Authorized Users should contact the OGS Contract Manager listed on the Award with any questions pertaining to this pricelist/ catalog.

Abacus Specifications

Abacus panels consist of 2 Pressed PET shells that cradle powdercoated steel tubing.

Outer rails are joined by solid Ash wood available in many of DARRAN's standard finish colors and paints.

Center Rails are Steel tubing powdercoated matte black with resin spacers that float the PET panels.

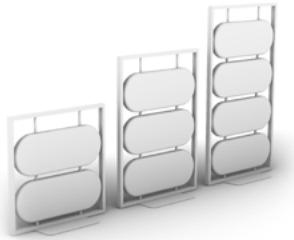

Outer rails are steel tubing standard in matte black powdercoat. Additional colors available as a premium finish.

Base is solid steel

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

Babble Seating Specification

Width = 27-1/2”
Depth = 30-1/2”
Height = 31”
Seat Width = 22”
Seat Depth = 21”
Seat Height = 17-1/2”
Arm Height = 24”
Cartoned Weight = 46 lbs.

Frame constructed of CNC cut engineered hardwood to maximize the strength, precise measurements and overall longevity.

Designed with clean lines, sweeping back and top stitch throughout.

Solid wood arms slope forward for maximum comfort.

Variety of textiles and back options offer customers flexibility in design and consistency within each office setting.

Joints

Joints are securely fastened with mortise and tenon joinery or double doweled construction to ensure long-term use.

Seat suspension

Seat suspension is constructed of ¾” thick top quality Baltic Birch plywood that is machined to form an open perimeter of rounded inside edges to reduce strain on the seat suspension. Seats are webbed to provide maximum support for seat cushions. Seat cushions are made of high resiliency foam with proper density providing comfort.

Seat assembly

Seat assembly is attached within finger grooved corner blocks and further secured by wood cleats, providing a vast superior means of stability in the chair.

Central Bark Features & Advantages

Veneer
DARRAN only uses HPVA AA Grade Flat Cut Cherry, Maple, and Walnut Veneers and AA Grade Quartered Oak Veneers. Central Bark is also available in double cut reconstituted walnut and oak patterns made from rapidly renewable wood veneer providing a repeatable consistent straight grain pattern. All veneers are selected and matched for balance and consistency.

Veneer tops
Central Bark veneer tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1-1/8” thick on MDF core comprised of 100% recycled and recovered wood fibers. All veneer tops are slipmatched and feature a 2mm external solid hardwood band or profile edge.

Laminate tops
Central Bark high-pressure laminate tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1-1/8” thick on MDF core comprised of 100% recycled and recovered wood fibers. All high pressure laminate tops are available with a profile edge or 2mm PVC edge band. Laminates in wood grain patterns feature a fine grain texture that features the polish and luxe of a real wood veneer with a subtle narrow grain structure.

TFL tops
Thermally Fused Laminate tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1-1/8” thick on MDF core that is comprised of 100% recycled and recovered wood fibers. All Thermally Fused Laminate tops are available with a 2mm flat PVC band. Laminates in wood grain patterns feature Madera Texture.

Cleaning wood & laminate
In addition to regular dusting, give your furniture an occasional cleaning in accordance with our cleaning instructions. DARRAN wood and laminate products can be cleaned with a soft cloth and a mild soap and water mixture. Use approximately 32 oz of water mixed with one tablespoon of dish soap, always wiping with the grain. Dry with a soft cloth, going with the grain, to avoid spotting or streaking.

Wood products should be waxed periodically using a non-wax liquid; please do not use any waxy polish or cleaner. Interior of drawers may also be cleaned with mild soap and water mixture, or any household cleaner that is not petroleum or thinner-based.

Chassis & pedestal
Chassis components are ¾” thick core of particle board or MDF rated EPP/SCS/CARB-II material with 3-ply balanced construction. Pedestal and Cabinets feature dowel construction reinforced with steel bracket plates, wood cleats, screws and glue. All units are standard with 1” adjustable glides that allow for leveling of units that are secured in solid wood glide blocks to prevent tearout.

Adjustable glides
Glides provide 1" of vertical leveling adjustment. Glide bottom is durable metal. Glides are secured in solid wood blocks that are screwed and glued for durability.

Drawers
All drawers are constructed with mitre joint/dowel construction in a natural maple finish with four sides and a bottom, which are attached to a drawer front with screws for easy removal. Drawer fronts are vertically matched in balanced sets. Pencil trays are standard in all box drawers. Drawers are constructed of 1/2” thick wood grained wrapped 5 sided miter-folded construction with 1/4” thick hardboard bottoms reinforced for heavy weight capacity. Drawers have been tested and pass BIFMA 50,000 cycle test. All drawers are guaranteed lifetime with free replacement warranty.

Drawer fronts
Drawer fronts are vertically matched in balanced sets. Doors feature vertical veneer bookmatched horizontally in sets of 2, 4, and 6 doors. All drawers and doors have traditional scallop profile edge shape. All tower fronts matched in vertical sets.

Optional wood drawers
Optional hardwood veneer plywood drawers feature banded top and bottom edges for smoothness. Drawers are dowel joint construction with a UV cured finish over maple veneers, plus a lifetime free replacement guarantee.
Optional Wood Drawer (Any Size) – Option Code P33...$45 List Price Per Drawer

Suspensions
All casegoods utilize cold rolled steel zinc plated high-grade drawer suspensions. All suspensions are warranted for the lifetime of the product. Box and File drawers are full extension, featuring steel ball bearings for a smoother quieter range of motion and are rated at 100 lbs. Lateral file drawers are a progressive action full extension suspension and is rated at 150 lbs. Veneer and High Pressure laminate casegoods feature soft close suspension. Thermally Fused Laminate casegoods feature standard suspensions. Lateral files include anti-tip mechanism that allow only one drawer to be opened at a time.

Hinges
Units with doors include 95 degree swing hinges.

Filing
Central Bark features a highly durable black plastic extrusion that is securely fastened into a route on top of the drawer to support hanging files. An adjustable crossbar is provided for all file drawers that enables legal/letter filing front to back or side-to-side based on the drawer size.

Locks

Locks are standard on all drawers below the worksurface. Random lock cores are installed at the factory. Some units may be shipped with the same key number. Locks are Silver, Black, or Bronze and match pull finish unless otherwise specified.

DARRAN will also send lock cores separately to the dealer at your request. These units will be send with an empty lock core and the Dealer will receive a shipment of the requested lock core/keys.

Keying

Keying is available either factory or field installed. Factory installed keying is random.

5 Select Fabric

Fabric selection needed for both the tufted inside panel and the dog bed cover

Product Features

- Fabric used for the dog bed cover and tufted inside panel is machine washable
- Black adjustable shelf behind door set

Notes

- Pull-out dog bed will extend 22" beyond credenza front
- Standard height units will have a double box/box/file left pedestal
- Bench height units will have a double box/box/box left pedestal

Options

Door

- D2: Door Lock - $100 per door set
- D6A: Delete Doors and replace black laminate shelf with finished shelf - n/c
- D9SC: Soft Close Door Hinges - $35 per door

Drawer

- P33: Wood Drawer Upgrade - $45 per drawer
- BWL: Convert bottom Box drawer into pet bowl holder with two stainless steel pet bowls - $330
- When specifying option BWL, if bottom drawer is a File drawer, it will be converted to Box/Box.

Lighting

- PK: Puck lighting for pet alcove - $310

Premium Tufted Inside Panel Option

- For premium fabric options, see front of Price List
- Specify premium tufted inside panel fabric option - $165
- Contact Customer Service for COM information

Premium Dog Bed Cover Option

- For premium fabric options, see front of Price List
- Specify premium dog bed cover fabric option - $273

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric mustbe first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

NOTE: Prior to completion of this form, please refer to our Graded In Materials Program for pre-approved fabrics/leathers.

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing limitations

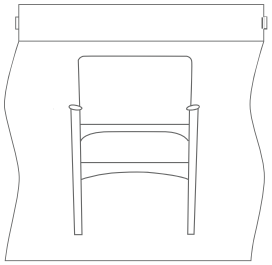

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

☐ RAILROAD

☐ SETUP

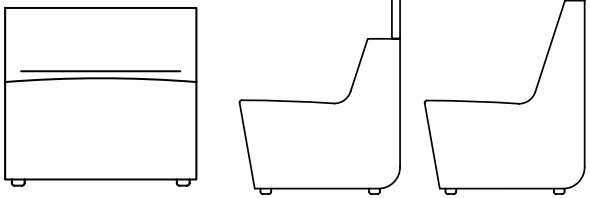

Joints are securely fastened with mortise and tenon joinery as well as corner block construction to ensure long-term use.

Ability to incorporate variety of options

Tablet mounts and combination fabrics.

Complete domestic production

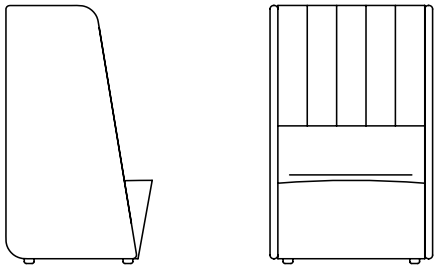

Complete domestic production from frame through upholstery, controlled by one manufacturing facility. Less stress / damage to chair parts normally caused by overseas transit, providing consistent, reliable quality standards and a quick response to shorter lead times.

Offered in low or high back. Seats and back are webbed to enhance comfort, sustainability, and endurance. Frame is constructed of CNC cut engineered wood to maximize the strength, precise measurements, and overall longevity. Seat and backs contain high resilient polyurethane foam consisting of multiple densities, achieving maximum comfort and durability.

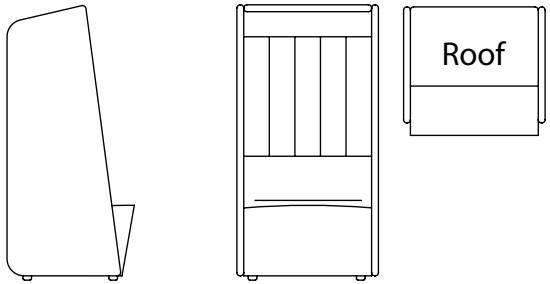

Optional tablet or rear tables offered in 1/2" compact laminate featuring a black core. Tablets are center mounted between 2 seats. Horizontal back frame provides easy ganging capabilities for expansion and flexibility in various settings.

Rear tables are at 28.5" high on low back units, and 35.5" high on high back units.

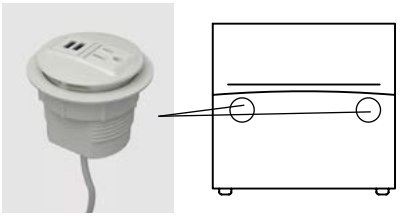

Side Screens and Back Privacy screens create private areas to focus or define a team.

Privacy Screens are available in 10.5", 17.5" & 24.75"

The Bota Roof allows for sound to be absorbed creating a focus nook.

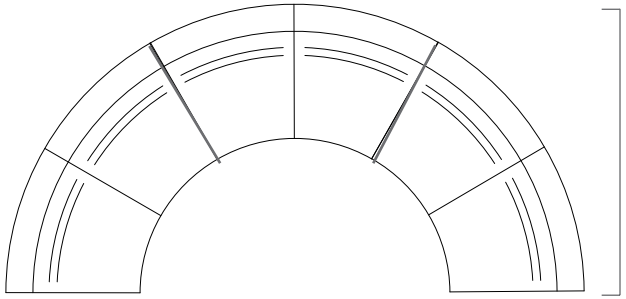

Available in a single or double seat module.

Specify power

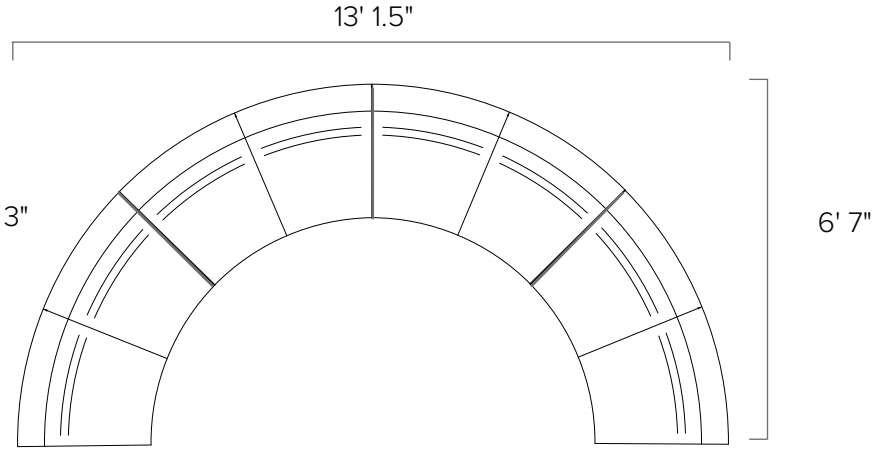

Node features 1 power & 1 USB duplex, ideal for charging tablets and other USB-friendly electronics. Node is UL approved.

Specify location, see page 64 for additional details.

Veneer
DARRAN only uses HPVA AA Grade Flat Cut Cherry and Walnut Veneers. All veneers are selected and matched for balance and consistency.

Veneer tops
Capitol Park veneer tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1-1/8” thick on MDF core comprised of 100% recycled and recovered wood fibers. All veneer tops are slipmatched and feature a 3mm external solid hardwood band or profile edge.

Laminate tops
Capitol Park high-pressure laminate tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1-1/8” thick on MDF core comprised of 100% recycled and recovered wood fibers. All high pressure laminate tops are available with a profile edge or 2mm PVC edge band. Laminates in wood grain patterns feature a fine grain texture that features the polish and luxe of a real wood veneer with a subtle narrow grain structure.

Cleaning wood & laminate
In addition to regular dusting, give your furniture an occasional cleaning in accordance with our cleaning instructions. DARRAN wood and laminate products can be cleaned with a soft cloth and a mild soap and water mixture. Use approximately 32 oz of water mixed with one tablespoon of dish soap, always wiping with the grain. Dry with a soft cloth, going with the grain, to avoid spotting or streaking.

Wood products should be waxed periodically using a non-wax liquid; please do not use any waxy polish or cleaner. Interior of drawers may also be cleaned with mild soap and water mixture, or any household cleaner that is not petroleum or thinner-based.

Chassis & pedestal
Chassis components are ¾” thick core of particle board or MDF rated EPP/SCS/CARB-II material with 3-ply balanced construction. Pedestal and Cabinets feature dowel construction reinforced with steel bracket plates, wood cleats, screws and glue. All units are standard with 1” adjustable glides that allow for leveling of units that are secured in solid wood glide blocks to prevent tearout.

Overhead cabinet construction Freestanding & wall mount
Freestanding Overhead storage cabinets are constructed of 1” and 3/4" thick core of particle board or MDF rated EPP/SCS/CARB-II material with 3-ply balanced construction. Panels are attached with cam fasteners in conjunction with dowels securely adhered with glue. All surface mount cabinets connect to work surface with anti-slip tape. Wall mount cabinets are mounted to the wall with steel “z” bracket attachment method using 5mm euro screws to attach to the back of the cabinet. All units ship with a steel “z” bracket. This bracket is mounted to the wall by field installers. Installers are responsible for selecting and supplying appropriate fasteners for wall conditions.

Bookcase Construction
All chassis (sides, back, top, and bottom panels) are constructed with 3/4" thick core of particle board or MDF rated EPP/SCS/CARB-II material with 3-ply balanced construction. Panels are attached with cam-lock fasteners in conjunction with dowels securely adhered with glue. Shelves on all units are 3/4" thick balance 3 ply panels. Optional heavy duty shelves are 1” thick lumber core balanced 5 ply construction.

Tackboards
Wall mount tackboards are constructed of .75” thick fiberboard. The fabric is precisely aligned and fitted to the tackboard with a sock on cover. Overhead storage tackboards are constructed of .75” thick fiberboard. The fabric is precisely aligned and fitted to the tackboard and adhered to the rigid hardboard with staples. Wall mount cabinets are mounted to the wall with steel “z” bracket attachment method using 5mm euro screws to attach to the back of the cabinet. All units ship with a steel “z” bracket. This bracket is mounted to the wall by field installers. Installers are responsible for selecting and supplying appropriate fasteners for wall conditions.

Adjustable glides
Glides provide 1" of vertical leveling adjustment. Glide bottom is durable metal. Glides are secured in solid wood blocks that are screwed and glued for durability.

Drawers
All drawers are constructed with mitre joint/dowel construction in a natural maple finish with four sides and a bottom, which are attached to a drawer front with screws for easy removal. Drawer fronts are vertically matched in balanced sets. Pencil trays are standard in all box drawers. Drawers are constructed of 1/2” thick wood grained wrapped 5 sided miter-folded construction with 1/4” thick hardboard bottoms reinforced for heavy weight capacity. Drawers have been tested and pass BIFMA 50,000 cycle test. All drawers are guaranteed lifetime with free replacement warranty.

Drawer fronts
Drawer fronts are vertically matched in balanced sets. Doors feature vertical veneer bookmatched horizontally in sets of 2, 4, and 6 doors. All tower fronts matched in vertical sets.

Optional wood drawers
Optional hardwood veneer plywood drawers feature banded top and bottom edges for smoothness. Drawers are dowel joint construction with a UV cured finish over maple veneers, plus a lifetime free replacement guarantee.
Optional Wood Drawer (Any Size) – Option Code P33...$40 List Price Per Drawer

Suspensions
All casegoods utilize cold rolled steel zinc plated high-grade drawer suspensions. Box and File drawers are full extension, featuring steel ball bearings for a smoother, quieter range of motion with soft close operation and are rated at 100lbs. Lateral file drawers are a progressive action full extension suspension with the soft close operation and are rated at 150lbs. Lateral files include anti-tip mechanism that will allow only one drawer at a time to be opened. All suspensions are soft close and are warranted for the lifetime of the product.

Hinges
Units with doors include 95 degree swing hinges.

Filing
Capitol Park features a highly durable black plastic extrusion that is securely fastened into a route on top of the drawer to support hanging files. An adjustable crossbar is provided for all file drawers that enables legal/letter filing front to back or side-to-side based on the drawer size.

Locks
Locks are Standard on all drawers below the worksurface. Random lock cores are installed at the factory. Some units may be shipped with the same key number. Locks are Silver, Black or Bronze and match pull finish unless otherwise specified.

DARRAN will also send lock cores separately to the dealer at your request. These units will be send with an empty lock core and the Dealer will receive a shipment of the requested lock core/keys.

Keying
Keying is available either factory or field installed. Factory installed keying is random.

Wire management
Wire management capabilities include standard and optional worksurface grommets. Specify W-1 under surface wire channels for organization and management of all communication wires and cords. Horizontal J-Channel wire management (Sku: W-1) is sold separately to conceal wire under worksurfaces.

Grommets
Metal grommets are provided to match the drawer pull selection. Grommet is available in black, silver, white or antique brass. Must specify standard or non-standard location. Black plastic grommets are available as an option for vertical applications.

Powerports
A large selection of power pods are available and handle power, data, docking stations, and communication. See options section for selection.

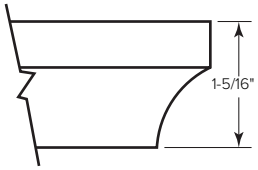

LED Task Lights
LED task lighting provides high efficiency, low energy lighting with a long life. Surface mounted light is encased in silver aluminum channel with milk lense and rounded end caps. Lights are field installed. Product specifications listed below:

- Diffuser creates a softer light and eliminates hot spots
- Touch dimmer switch
- Can be “daisy chained” up to 90W
- 4.6 watts per foot
- 120 LEDs per meter
- Certification: UL Listed
- 50,000 hour life span.

Color Temp is 4000K

Ganging – Flush Cut Modification

30”H Casegood Worksurface & Base Ganging Modifications

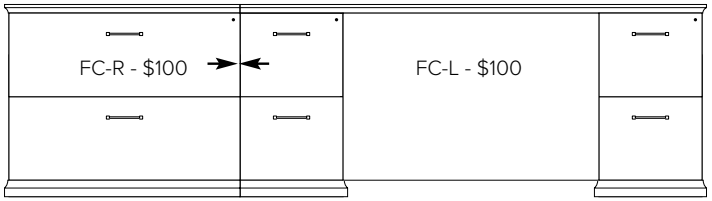

To gang two casegood units, each unit end to be ganged must be flush cut modified for gapless surfaces and cabinet chassis.

Order Option:
- FC-B: Flush Unit Both Sides(Facing) for Ganging - $100
- FC-L: Flush Unit Left (Facing) for Ganging - $100
- FC-R: Flush Unit Right (Facing) for Ganging - $100

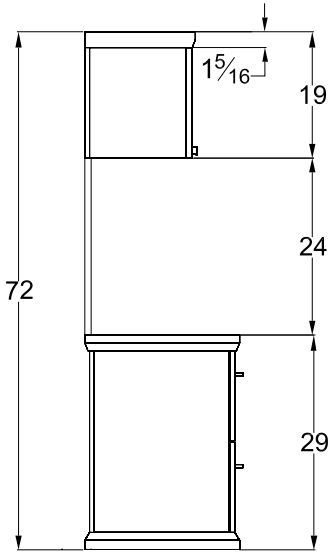

Flush cut modification per unit includes all modifications to gang to one end or both ends when units are ganged. Modification includes tops, base and molding.

Modification reduces width size approximately 1” per end.

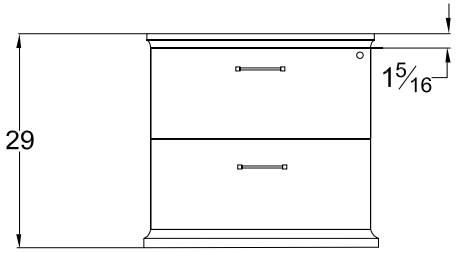

Example:
CAP3024CA104W Two Drawer Lateral File (Left) Flush Cut Right – FC-R...$100
CAP7124CA054W Kneespace Credenza (Right) Flush Cut Left – FC-L...$100

DK-125 Antique Pewter
DK-126 Antique English
DK-127 Matte Black

Product Features

- Doors are a matched set
- Finished front edge
- Interior cabinet depth 12"
- Mounting rail included
- Top shaped on front only

Notes

- The DARRAN wall mounted cabinet (or shelf) must be hung on a weight-bearing wall. The suitability of the wall supporting the wall mounted cabinet, and the installation and maintenance of the wall-mounted cabinet, is the sole responsibility of the customer. Failure to correctly install and/or exceed the loaded weight capacity of this product may cause it to fall, resulting in damage to the product, adjacent property, and/or bodily injury.

Options

Door

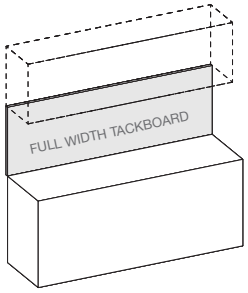

- D2: Door Lock - $100 per door set
- D6: Delete Doors - n/c
- D9SC: Soft Close Door Hinges - $35 per door

- Width modification outside of MOD-1 & MOD-2

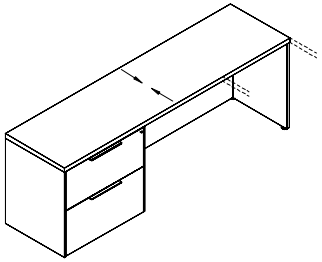

PRODUCT MODIFICATIONS
modify width - tackboard, veneer panel, or a glassboard

Style Number	List Price
MOD-4	50

Specifications

- Modify width down on tackboard, s veneer panel, or a overhead glassboard

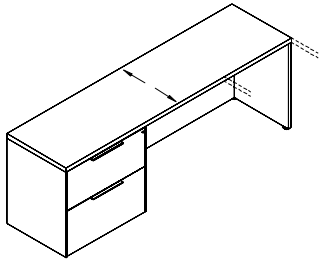

PRODUCT MODIFICATIONS
modify depth - decrease depth

Style Number	List Price
MOD-5	125

Specifications

- Modify depth down (minimum depth for a unit with drawers is 21"D)

Notes
- Ex. 24" to 21", 30" to 24", and 36" to 30"

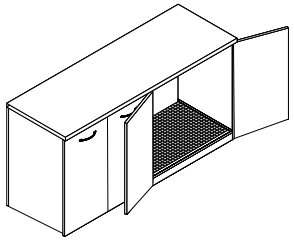

PRODUCT MODIFICATIONS
modify depth - increase depth

Style Number	List Price
MOD-6	Add 10%

Specifications

- Increase depth by no more than 6"

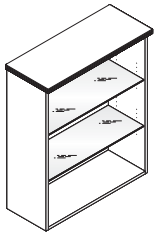

Notes
- Ex. 24" to 30", 30" to 36", and 36" to 42"

PRODUCT MODIFICATIONS
modify height

Style Number	List Price
MOD-7	Contact for pricing

Specifications
- Modify height of a unit

REFRIGERATOR MODIFICATION
refrigerator cabinet modification

Style Number	List Price
REF01	205

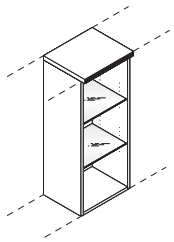

Specifications
- Open back cutout for venting
- Moisture sponge mat
- Contaminate ledge
- Contaminate ledge for maximum refrigerator size (Changes based on unit).

Notes
- Available on Storage Credenzas
- Customer is responsible for ensuring refrigerator fits within the credenza selected

SHELF MODIFICATIONS
glass shelves - tempered full width 26" - 35"

Style Number	List Price
26"W - 35"W x 14"D Shelf GS14F	90

Specifications
- Glass Shelves Replace Wood Shelf In Open Or Glass Door Cabinet. Also Order Interior Cabinet Lighting.

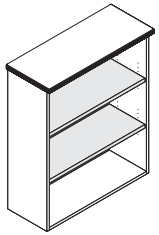

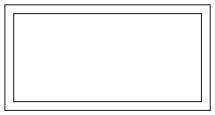

SHELF MODIFICATIONS
tempered glass shelves for half cabinet 17- 1/2" widths

Style Number	List Price
14-1/2"W - 17- 1/2"W x 14"D Shelf GS14H	70 ea.

Specifications
- Glass Shelves Replace Wood Shelf In Open Or Glass Door Cabinet. Also Order Interior Cabinet Lighting.

Notes
- Replace only adjustable shelves between cabinet light and fixed lower wood shelf.

- 10" x 8"W
- Non-slip Neoprene pad

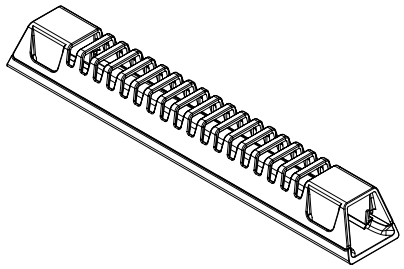

WIRE MANAGEMENT
horizontal j-channel wire management raceway

Style Number	List Price
W1	80 Per 4' section

Specifications
- 4' section for field installation.
- The "J" shape black thermoplastic wire raceway may be added to specified worksurface tops to provide concealed channeling of wires to and from worksurface grommets. For use in open kneespace areas, raceway is attachable to top of back panel with pan head screws. Interior dimensions are 1" x 1- 1/2" providing ample storage for multiple wires and excess cable. Front of raceway flexes out for easy cord insertion.

Notes
- Units w/ Wire Channel Standard.
- Field Installation

WIRE MANAGEMENT
horizontal wire management raceway

Style Number	List Price
W21	95

Specifications
- 10"W x 1.5"D x 1.25"H
- Grey Wire Manager (10.5")
- Power and data cables can be discretely housed and managed with the W21 Gray Wire Manager. This can be mounted in any location to metal frame or underside of conference tables and runs cables through a 1" channel from power module to hollow steel legs. This keeps cables organized under the table top. Release clips make it simple to snap on and off the Wire Manager for easy organization and access after attached to the table

Notes
- Field installed

WIRE MANAGEMENT
horizontal u-channel wire management raceway

Style Number	List Price

Aircharge wireless charging grommet

Style Number	List Price
ACWG WIRELESS GROMMET	$195

Specifications

› When used with GROVE Tables an additional $350 LIST will apply for the special cutout requred.
› AirCharge offers a convenient way to charge any Qi compatible smartphone or device without the need to carry charging cables or find an available power outlet.
› The Aircharge is powered by the latest Qi compliant IC offering reliable and efficient wireless charging in a convenient 3" grommet hub. Simply place your phone on the Aircharge and an LED will confirm pairing and begin wireless charging.
› Recess: Efficient space conservation and quick access
› Input: DC 5V (with included AC power adapter), DC 9V, 1.67A (with optional QC 2.0 power adapter)
› Output: 5 watts Max. with DC 5V, 2A power adapter, 10 watts Max. with QC 2.0 power adapter
› Qi V1.2 compliant IC
› Charging distance: 6mm Max.

Veneer

DARRAN only uses HPVA AA Grade Flat Cut Cherry, Maple, and Walnut Veneers and AA Grade Quartered Oak Veneers. Central Park is also available in double cut reconstituted walnut and oak patterns made from rapidly renewable wood veneer providing a repeatable consistent straight grain pattern. All veneers are selected and matched for balance and consistency.

Veneer tops

Central park veneer tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1-1/8” thick on MDF core comprised of 100% recycled and recovered wood fibers. All veneer tops are slipmatched and feature a 2mm external solid hardwood band or profile edge.

Laminate tops

Central park high-pressure laminate tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1-1/8” thick on MDF core comprised of 100% recycled and recovered wood fibers. All high pressure laminate tops are available with a profile edge or 2mm PVC edge band. Laminates in wood grain patterns feature a fine grain texture that features the polish and luxe of a real wood veneer with a subtle narrow grain structure.

TFL tops

Thermally Fused Laminate tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1-1/8” thick on MDF core that is comprised of 100% recycled and recovered wood fibers. All Thermally Fused Laminate tops are available with a 2mm flat PVC band. Laminates in wood grain patterns feature Madera Texture.

Cleaning wood & laminate

In addition to regular dusting, give your furniture an occasional cleaning in accordance with our cleaning instructions. DARRAN wood and laminate products can be cleaned with a soft cloth and a mild soap and water mixture. Use approximately 32 oz of water mixed with one tablespoon of dish soap, always wiping with the grain. Dry with a soft cloth, going with the grain, to avoid spotting or streaking.

Wood products should be waxed periodically using a non-wax liquid; please do not use any waxy polish or cleaner. Interior of drawers may also be cleaned with mild soap and water mixture, or any household cleaner that is not petroleum or thinner-based.

Chassis & pedestal

Chassis components are ¾” thick core of particle board or MDF rated EPP/SCS/CARB-II material with 3-ply balanced construction. Pedestal and Cabinets feature dowel construction reinforced with steel bracket plates, wood cleats, screws and glue. All units are standard with 1” adjustable glides that allow for leveling of units that are secured in solid wood glide blocks to prevent tearout.

Overhead cabinet construction

Freestanding Overhead storage cabinets are constructed of 1” and 3/4" thick core of particle board or MDF rated EPP/SCS/CARB-II material with 3-ply balanced construction. Panels are attached with cam fasteners in conjunction with dowels securely adhered with PVAc glue. All surface mount cabinets connect to work surface with anti-slip tape. Wall mount cabinets are mounted to the wall with steel “z” bracket attachment method using 5mm euro screws to attach to the back of the cabinet. All units ship with a steel “z” bracket. This bracket is mounted to the wall by field installers. Installers are responsible for selecting and supplying appropriate fasteners for wall conditions.

Bookcase construction

All chassis (sides, back, top and bottom panels) are constructed with 3/4" thick core of particle board or MDF rated EPP/SCS/CARB-II material with 3-ply balanced construction. Panels are attached with cam-lock fasteners in conjunction with dowels securely adhered with glue. Shelves on all units are 3/4" thick balance 3 ply panels. Optional heavy duty shelves are 1” thick lumber core balanced 5 ply construction.

Tackboards

Wall mount tackboards are constructed of .75” thick fiberboard. The fabric is precisely aligned and fitted to the tackboard with a sock on cover. Overhead storage tackboards are constructed of .75” thick fiberboard. The fabric is precisely aligned and fitted to the tackboard and adhered to the rigid hardboard with staples. Wall mount cabinets are mounted to the wall with steel “z” bracket attachment method using 5mm euro screws to attach to the back of the cabinet. All units ship with a steel “z” bracket. This bracket is mounted to the wall by field installers. Installers are responsible for selecting and supplying appropriate fasteners for wall conditions.

Adjustable glides

Glides provide 1" of vertical leveling adjustment. Glide bottom is durable metal. Glides are secured in solid wood blocks that are screwed and glued for durability.

Drawers

All drawers are constructed with mitre joint/dowel construction in a natural maple finish with four sides and a bottom, which are attached to a drawer front with screws for easy removal. Drawer fronts are vertically matched in balanced sets. Pencil trays are standard in all box drawers. Drawers are constructed of 1/2” thick wood grained wrapped 5 sided miter-folded construction with 1/4” thick hardboard bottoms reinforced for heavy weight capacity. Drawers have been tested and pass BIFMA 50,000 cycle test. All drawers are guaranteed lifetime with free replacement warranty.

Drawer fronts

Drawer fronts are vertically matched in balanced sets. Doors feature vertical veneer bookmatched horizontally in sets of 2, 4, and 6 doors. All drawers and doors have traditional scallop profile edge shape. All tower fronts matched in vertical sets.

Optional wood drawers

Optional hardwood veneer plywood drawers feature banded top and bottom edges for smoothness. Drawers are dowel joint construction with a UV cured finish over maple veneers, plus a lifetime free replacement guarantee.
Optional Wood Drawer (Any Size) – Option Code P33...$45 List Price Per Drawer

Suspensions

All casegoods utilize cold rolled steel zinc plated high-grade drawer suspensions. All suspensions are warranted for the lifetime of the product. Box and File drawers are full extension, featuring steel ball bearings for a smoother quieter range of motion and are rated at 100 lbs. Lateral file drawers are a progressive action full extension suspension and is rated at 150 lbs. Veneer and High Pressure laminate casegoods feature soft close suspension. Thermally Fused Laminate casegoods feature standard suspensions. Lateral files include anti-tip mechanism that allow only one drawer to be opened at a time.

Hinges

Units with doors include 95 degree swing hinges.

Filing

Central park features a highly durable black plastic extrusion that is securely fastened into a route on top of the drawer to support hanging files. An adjustable crossbar is provided for all file drawers that enables legal/letter filing front to back or side-to-side based on the drawer size.

Locks

Locks are standard on all drawers below the worksurface. Random lock cores are installed at the factory. Some units may be shipped with the same key number. Locks are Silver, Black or Bronze and match pull finish unless otherwise specified.

DARRAN will also send lock cores separately to the dealer at your request. These units will be send with an empty lock core and the Dealer will receive a shipment of the requested lock core/keys.

Keying

Keying is available either factory or field installed. Factory installed keying is random.

Wire management

Wire management capabilities include standard and optional worksurface grommets. Specify W-1 under surface wire channels for organization and management of all communication wires and cords. Horizontal J-Channel wire management (Sku: W-1) is sold separately to conceal wire under worksurfaces.

Grommets

Metal grommets are provided to match the drawer pull selection. Grommet is available in black, silver, or antique brass. Must specify standard or non-standard location. Black plastic grommets are available as an option for vertical applications.

Powerports

A large selection of power pods are available and handle power, data, docking stations and communication. See options section for selection.

LED task lights

LED task lighting provides high efficiency, low energy lighting with a long life. Surface mounted light is encased in silver aluminum channel with milk lense and rounded end caps. Lights are field installed. Product specifications listed below:

- Diffuser creates a softer light and eliminates hot spots
- Touch dimmer switch
- Can be “daisy chained” up to 90W
- 4.6 watts per foot
- 120 LEDs per meter
- Certification: UL Listed
- 50,000 hour life span.

Color Temp is 4000K

Product Features

- Adjustable height from 29" to 47.5" with a maximum weight capacity of 350 lbs.
- Fully assembled
- Height adjustable shells are finished all sides - open plan
- Lift available in MFS Silver (standard) or MFB Black (optional)
- Metal parts include 5 year warranty
- Programmable height adjustable mechanism, motor includes 2 year warranty
- Order freestanding pedestals under shell

Notes

- Modesty surround lifts w/ work surface

Options

Accessories

- K28: Articulating Keyboard w/ Mouse - $390
- K31: Center drawer - $205

Grommets (Standard Location)

Specify Color and Left/Right - $50 ea.

- Black: TM30-R (Right), TM30-L (Left)
- Silver: TM31-R (Right), TM31-L (Left)
- Antique Brass: TM33-R (Right), TM33-L (Left)

Grommets (Non-Standard Location)

Provide drawing w/ Grommet Location and Specify Color - $95 ea.

- Black: TM30-NS
- Silver: TM31-NS
- Antique Brass: TM33-NS

Wire Management

- LWMB: Lift wire management box with flip down door - $365
- Power strip with five outlets and 12' cord, mesh wire cover, 6" deep black box

Product Features

- Wall brackets included
- Wall brackets provide horizontal and vertical adjustments

Notes

- The DARRAN wall mounted cabinet (or shelf) must be hung on a weight-bearing wall. The suitability of the wall supporting the wall mounted cabinet, and the installation and maintenance of the wall-mounted cabinet, is the sole responsibility of the customer. Failure to correctly install and/or exceed the loaded weight capacity of this product may cause it to fall, resulting in damage to the product, adjacent property, and/or bodily injury.
- 93" shelf will support 28lbs of additional weight, 87" shelf will support 29lbs, 83" shelf will support 31lbs, 76" shelf will support 22lbs, 70"shelf will support 24lbs, 64" shelf will support 25lbs, 58" shelf will support 16lbs, 47" shelf will support 18lbs, 35" shelf will support 22lbs, 29" shelf will support 23lbs.

recessed aluminum tool channel

Style Number	List Price
ATB02	5 per 1"W

Specifications

- Anodized aluminum finish
- Fully recessed
- Finish matches anodized aluminum accessories
- Can be specified with fabric tack surface mounted above channel

Notes
- If using tool channel with wallhung overhead, a veneer panel must be specified.

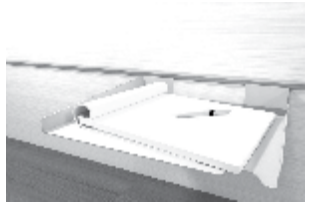

TOOL CHANNEL ACCESSORIES

iphone holder

Style Number	List Price
ATB31	125

Specifications

- For Console/Wall Hung Back Panels with optional Tool Bar
- 18 Gauge Steel - Stamp Formed
- Silver Powerdercoat Finish
- 5" x 3 -3/4"W
- Non-slip Neoprene pad

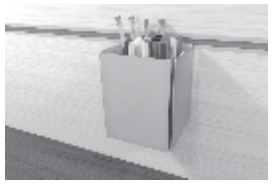

TOOL CHANNEL ACCESSORIES

Specifications
- For Console/Wall Hung Back Panels with optional Tool Bar
- 18 Gauge Steel - Stamp Formed
- Silver Powdercoat Finish
- 10" x 8"W
- Non-slip Neoprene pad

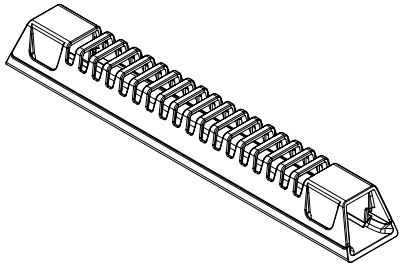

WIRE MANAGEMENT
horizontal j-channel wire management raceway

Style Number	List Price
W1	80 Per 4' section

Specifications
- 4' section for field installation.
- The "J" shape black thermoplastic wire raceway may be added to specified worksurface tops to provide concealed channeling of wires to and from worksurface grommets. For use in open kneespace areas, raceway is attachable to top of back panel with pan head screws. Interior dimensions are 1" x 1-1/2" providing ample storage for multiple wires and excess cable. Front of raceway flexes out for easy cord insertion.

Notes
- Units w/ Wire Channel Standard.
- Field Installation

WIRE MANAGEMENT
horizontal wire management raceway

Style Number	List Price
W21	95

Specifications
- 10"W x 1.5"D x 1.25"H
- Grey Wire Manager (10.5")
- Power and data cables can be discretely housed and managed with the W21 Gray Wire Manager. This can be mounted in any location to metal frame or underside of conference tables and runs cables through a 1" channel from power module to hollow steel legs. This keeps cables organized under the table top. Release clips make it simple to snap on and off the Wire Manager for easy organization and access after attached to the table

Notes
- Field installed

WIRE MANAGEMENT
horizontal u-channel wire management raceway

Style Number	List Price

Aircharge wireless charging grommet

Style Number	List Price
ACWG WIRELESS GROMMET	$213

Specifications

› When used with GROVE Tables an additional $350 LIST will apply for the special cutout requred.
› AirCharge offers a convenient way to charge any Qi compatible smartphone or device without the need to carry charging cables or find an available power outlet.
› The Aircharge is powered by the latest Qi compliant IC offering reliable and efficient wireless charging in a convenient 3” grommet hub. Simply place your phone on the Aircharge and an LED will confirm pairing and begin wireless charging.
› Recess: Efficient space conservation and quick access
› Input: DC 5V (with included AC power adapter), DC 9V, 1.67A (with optional QC 2.0 power adapter)
› Output: 5 watts Max. with DC 5V, 2A power adapter, 10 watts Max. with QC 2.0 power adapter
› Qi V1.2 compliant IC
› Charging distance: 6mm Max.

Available: All DARRAN collections

Cove power unit - non-linking

Style Number	List Price
PD-COVE PLUG	$600

Non-linking version

Specifications

› Size 5.75”L x 2.5”W
› (2) 15 Amp Receptacles and (2) USB charging ports
› Surface Mount
› 108” Cord
› Standard Silver Finish, Available in White or Black Finish upon request
› ETL Listed

Available: All DARRAN collections

Cove corded series

Style Number	List Price
PD-COVE-PKO	$872

Specifications

› Size 9.5”L x 2.5”W x 3.18”D
› When used with GROVE Tables an additional $350 LIST will apply for the special cutout requred.
› (2) Power Receptacles, (2) 2.1 Amp USB charging ports and (1) Telecom Plate Knockout
› Surface Mount
› 108” Cord
› Standard Silver Finish. Available in White or Black Finish upon request
› ETL Listed

Available: All DARRAN collections

Veneer and HPL tops
Veneer tops and high-pressure laminate tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1-3/16” thick. DARRAN only uses HPVA A Grade Flat Cut Cherry, Maple, and Walnut Veneers and A Grade Quartered Oak. Cherry and Walnut veneers are book-matched. Oak, Maple, and Ash veneers are slip-matched. Veneer tops feature a 2mm external solid hardwood band; HPL tops feature a 2mm flat PVC band. Some collections feature double cut reconstituted walnut and oak veneers.

TFL tops
Thermally Fused Laminate tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1” thick. Laminate tops feature a 2mm flat PVC band.

Chassis & pedestal
All pedestals and chassis are constructed with 3/4” thick balanced 3-ply panels. Panels are securely fastened together using rails that are bored and doweled, glued, metal reinforcement brackets and wood cleat construction. Thick end panels are pre-bored to accept a tee nut for the adjustable glide and are reinforced with PVC banding to prevent glide tear out. Glue blocks are used where 3/4” thick panels are joined, bored for tee nut to accept adjustable glide.

Adjustable glides
Glides provide 1" of vertical leveling adjustment. Glide bottom is durable metal.

Drawers
All drawers are constructed of four sides and a bottom, which are attached to a drawer front with screws for easy removal. Drawer fronts feature vertically matched veneer within each pedestal. Pencil trays are standard in all box drawers. Jamestown, Prado, and Rift feature maple veneer 1/2” thick material for drawer sides, fronts and backs with a UV finish for maximum durability. Drawer bottoms are 7/32” thick 3-ply maple veneer. Drawer boxes are assemble at each corner with dowel joinery for maximum drawer strength. Capitol Park, Central Park, Not So Square, and Richmond Park feature drawers that are 1/2” thick wood grained wrapped 5 sided miter-folded construction with 1/8” thick hardboard bottoms.

Drawer fronts
Drawer fronts are vertically matched in balanced sets. Doors feature vertical veneer bookmatched horizontally in sets of 2, 4, and 6 doors. All drawers and doors have traditional scallop profile edge shape. All tower fronts matched in vertical sets.

Suspensions
All casegoods utilize cold rolled steel zinc plated high-grade drawer suspensions. All suspensions are warranted for the lifetime of the product. Box and File drawers are full extension, featuring steel ball bearings for a smoother quieter range of motion with soft close operation and are rated at 100bs. Lateral file drawers are a progressive action full extension suspension with the soft close operation and are rated at 150 lbs. Lateral files include anti-tip mechanism that will allow only one drawer at a time to be opened.

Hinges
Units with doors include 95 degree swing hinges.

Locks
Locks are optional on door storage, overhead storage, towers with doors, and all door units. Each drawer pedestal is independently locked. Lock plugs are factory or field installed.

Keying
Keying is available either factory or field installed. Factory installed keying is random.

Wire management
Wire management capabilities include standard and optional worksurface grommets. Specify W-1 under surface wire channels for organization and management of all communication wires and cords. Horizontal J-Channel wire management (Sku: W-1) is sold separately to conceal wire under worksurfaces.

Grommets
Metal grommets are provided to match the drawer pull selection. Grommet is available in black, silver, white or antique brass. Must specify standard or non-standard location. Black plastic grommets are available as an option for vertical applications.

Powerports
A large selection of powerports are available and handle power, data, docking stations and communication. See options section for selection.

Horizontal J-Channel wire management (Sku: W-1) is sold separately to conceal wire under worksurfaces.

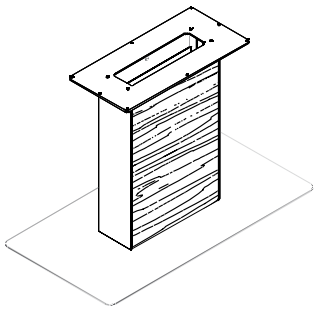

Ganging – Flush Cut Modification

30”H Casegood Worksurface & Base Ganging Modifications

Depending on style some casegoods are shaped on the ends. For those collections to gang two casegood units, each unit end to be ganged must be flush cut modified for gapless surfaces and cabinet chassis.

Order Option:
- FC-B: Flush Unit Both Sides (Facing) for Ganging - $100
- FC-L: Flush Unit Left (Facing) for Ganging - $100
- FC-R: Flush Unit Right (Facing) for Ganging - $100

Flush cut modification per unit includes all modifications to gang to one end or both ends when units are ganged. Modification includes tops, base and molding.

Height adjustable bases range from 29" to 49". Maximum weight capacity of 350 lbs.

Modification reduces width size approximately 1” per end.

Overhead consoles and towers are offered freestanding and ganging – inclusive of flush cut modifications.
Example:
RPC3121100W Two Drawer Lateral File (Left) Flush Cut Right – FC-R…$100
RPC7221054 Kneespace Credenza (Right) Flush Cut Left – FC-L…$100

black/white/black wood inlay

Style Number	List Price
One Piece Top	
T30BWB	Contact for Pricing
Two Piece Top	
T31BWB	Contact for Pricing

Specifications

- Standard veneer top is routed for wood inlay 1/8" x 3/16" width line. Each color is 1/16" wide. White inlay line is finished over providing a subtle contrast to line detail.

Notes
- Available on: Conferencing Tops
- Hand fitted miter corner ebony-maple-ebony wood inlay installed in standard veneer top
- The center white line can be masked off preventing color stains from penetrating. Final top coats are applied over the white line.

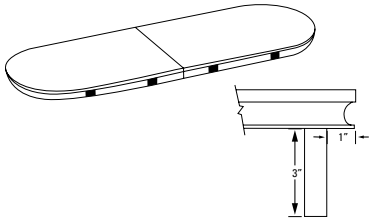

SPECIALTY VENEER ACCENTS
black ebony wood inlay w/ wood fan detail - 1 piece conference table top

Style Number	List Price
One Piece Top	
T51	Contact for Pricing
Two Piece Top	
T52	Contact for Pricing

Specifications

- Standard veneer top is routed for wood inlay 1/8" x 3/16" width line. With each 90 degree corner routed for Quarter circle fan inlays. Inlay fans combined with solid black inlay preserves an old traditional appearance. Fans are handcrafted from teakwood, rosewood, mahogany, and other exotic woods. Each piece of veneer is shaded by burning and is hand fitted to a perfect fan shape - truly an old world craft.
- Conference tables: 4 fans, one in each corner per top section

Notes
- Available on: Conferencing Tops
- Hand fitted miter corner wood inlay and fan installed in standard veneer top
- Only available on square/rectangle tops

TOP MODIFICATION
top apron rail

Style Number	List Price
TAR	Add 10% to top price for apron only to top

Specifications

- Apron rail is recommended for fixed port installation for power/data support.

Notes
- Available on: Conferencing Tops only
- Select power/data support separately
- See power options for available apron power

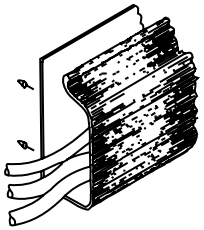

TOP MODIFICATION
top apron rail

Style Number	List Price
TAR-M	Add 15% (Apron rail with beltline detail)

Specifications

- Traditional with apron rail and molding - available in Cherry and Walnut.

Notes
- Available on: Conference tops only
- Select power/data support separately
- See power options for available apron power

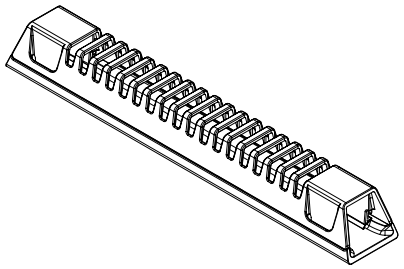

WIRE MANAGEMENT
horizontal j-channel wire management raceway

Style Number	List Price
W1	80 Per 4' section

Specifications
- 4' section for field installation.
- The "J" shape black thermoplastic wire raceway may be added to specified worksurface tops to provide concealed channeling of wires to and from worksurface grommets. For use in open kneespace areas, raceway is attachable to top of back panel with pan head screws. Interior dimensions are 1" x 1-1/2" providing ample storage for multiple wires and excess cable. Front of raceway flexes out for easy cord insertion.

Notes
- Units w/ Wire Channel Standard
- Field Installation

WIRE MANAGEMENT
horizontal wire management raceway

Style Number	List Price
W21	95

Specifications
- 10"W x 1.5"D x 1.25"H
- Grey Wire Manager (10.5")
- Power and data cables can be discretely housed and managed with the W21 Gray Wire Manager. This can be mounted in any location to metal frame or underside of conference tables and runs cables through a 1" channel from power module to hollow steel legs. This keeps cables organized under the table top. Release clips make it simple to snap on and off the Wire Manager for easy organization and access after attached to the table

Notes
- Field installed

WIRE MANAGEMENT
horizontal u-channel wire management raceway

Style Number	List Price
W2A	80 Per 4' section

Specifications
- 4' section for field installation.

Aircharge wireless charging grommet

Style Number	List Price
ACWG WIRELESS GROMMET	$213

Specifications

› When used with GROVE Tables an additional $350 LIST will apply for the special cutout requred.
› AirCharge offers a convenient way to charge any Qi compatible smartphone or device without the need to carry charging
cables or find an available power outlet.
› The Aircharge is powered by the latest Qi compliant IC offering reliable and efficient wireless charging in a convenient 3” grommet hub. Simply place your phone on the Aircharge and an LED will confirm pairing and begin wireless charging.
› Recess: Efficient space conservation and quick access
› Input: DC 5V (with included AC power adapter), DC 9V, 1.67A (with optional QC 2.0 power adapter)
› Output: 5 watts Max. with DC 5V, 2A power adapter, 10 watts Max. with QC 2.0 power adapter
› Qi V1.2 compliant IC
› Charging distance: 6mm Max.

Available: All DARRAN collections

Cove power unit - non-linking

Style Number	List Price
PD-COVE PLUG	$600

Non-linking version

Specifications

› Size 5.75”L x 2.5”W
› (2) 15 Amp Receptacles and (2) USB charging ports
› Surface Mount
› 108” Cord
› Standard Silver Finish. Available in White or Black Finish upon request
› ETL Listed

Available: All DARRAN collections

Cove power unit with daisylink

Style Number	List Price
STARTER UNITS	
COV-DCH Hardwired	$744
Includes (1) Cove unit with hardwire infeed - 120”	
COV-DCP Plug	$872
Includes (1) Cove unit with plug infeed - Includes 72” cord and 32” infeed jumper for 104” total cord infeed	
ADDITIONAL LINKING UNITS	
COV-DCL	$627 each
Includes linking Cove unit and jumper up to 96”, cable length determined by the top size	

Specifications

› When used with Grove Tables an additional $350 LIST will apply for the special cutout required
› Size: 5.75”L x 2.5”W
› (2) 15 amp receptacles and (2) 2.1 amp USB charging ports
› Surface mount
› Max daisy chain - Hardwire - (9) units; Plug/Corded - (4) units
› Standard Silver finish; available in White or Black finish upon request
› ETL listed

Cove corded series

Style Number	List Price
PD-COVE-PKO	$872

Specifications

› Size 9.5”L x 2.5”W x 3.18”D
› When used with GROVE Tables an additional $350 LIST will apply for the special cutout requred.
› (2) Power Receptacles, (2) 2.1 Amp USB charging ports and (1) Telecom Plate Knockout
› Surface Mount
› 108” Cord
› Standard Silver Finish. Available in White or Black Finish upon request
› ETL Listed

Available: All DARRAN collections

*All telecom connectors sold separately.

Soba wire manager

Style Number	List Price
STARTER UNITS	
SCDW	$218
White wire manager	
SCDB	$218
Black wire manager	

Specifications

› Dimensions: 9ft x 9in x 3.15in
› Zips up, bundles and routes loose, messy cables into a single tube
› Routes and guides cables behind desks, TVs, and anywhere cables tend to get messy
› Accommodates large or small cables, up to three cables at once
› Support channels, used to route cables, include powerful adhesive backing which allows easy attachment to surfaces.

Available: All DARRAN collections

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

DARRAN

Covet Fabric & Leather Program

NOTE: Prior to completion of this form, please refer to our Graded In Materials Program for pre-approved fabrics/leathers.

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

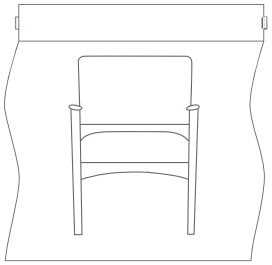

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

Please specify any special requirements and check the application above.

Covet Seating Specification

Width = 25.75”
Depth = 23.5”
Height = 47.5 - 50.5”
Seat Width = 20.5”
Seat Depth = 19”
Seat Height = 19 - 22”
Arm Height = 26 - 29"

Frame Construction: Hardwood Plywood components are precision cut on CNC routers and feature interlocking tab joinery for superior strength and long term durability. All joints are assembled utilizing glue and steel fasteners.

Cushioning: Back utilizes an elastic sheet webbing suspension that conforms to an individual's lumbar curvatures for adaptive support. Cushioning materials are laminations or CAL117-2013 rated high-density polyurethane foams of varying compression rates, providing durability and long-term comfort.

Upholstered Arms: Upholstered panel arms feature caps which can be specified in contrasting fabrics, vinyls, or leathers. Optional wood arm caps are also available in any DARRAN finish.

Adjustable Ergonomic Arms: Available in either T-Polished Aluminum or T-Nylon Black, this multi-functional telescoping arm features height, depth, and pivot adjustability. Activated by a button trigger, it provides 4" of vertical adjustment to help relieve upper back and shoulder fatigue. 3" of front to back friction-activated depth adjustment allows users to get closer to their work surface while maintaining effective use of the backrest. The 30 degree inward/outward pivot provides proper forearm support for various tasks such as keying and mousing.

Bases: 26" diameter, available in Polished Aluminum (Standard), Black, or Wood.

Casters: 60mm diameter wheels are standard and promote increased mobility.

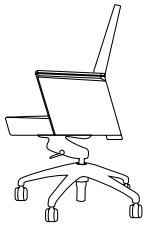

Carpet casters are standard. For hard floor surfaces specify CST20 - no upcharge.

Covet's slim, chiseled profile compliments DARRAN's contemporary and transitional casegoods and conference room offerings. Finely tailored upholstery featuring elegant top stitch detailing provides a quality image while accommodating "real world" budgets. A family of models is offered, appropriate for Executive private offices, conference rooms, or open plan environments. A high level of detail provides 360˚ visual interest, especially important in conference room applications. Variety of textiles and back options offer customers flexibility in design and consistency within each office setting.

Knee-tilt swivel mechanism

The standard Knee-tilt mechanism features an advanced forward pivot point that reduces leg lift with a 16 degree seat angle and a 25 degree back angle tilt. The mechanism locks in task and reclined positions with side tension adjustment. Height adjustment and tilt tension are also provided.

3 Combination Fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing/yardage requirements will be as follows:

A Seat/Sides 1 yd.
B Inside Back 0.75 yds.
C Upper Outside Back 0.75 yds.
D Lower Outside Back 0.75 yds.

- When combining two materials of the same grade, pricing will be specified grade + 5%
- If combining two materials of different grades or leather/fabric combination, use the highest grade/price + 5%
- If using COM or COL, pricing will be COM or COL + 5%.
- If both COM + COL are used in combination, use COL + 5%.

Product Features

- 26" diameter polished aluminum base
- Back utilizes an elastic sheet webbing suspension that conforms to individual's lumbar curvatures for adaptive support.
- Black adjustable ergonomic arms are available with spring loaded height adjustment and button activation. Arms are angles at 15 degrees with an adjustable arm pad for additional comfort and support. Arm adjusts 3- 1/4" in height and 1-5/16" in width
- Knee Tilt Swivel w/ forward pivot point
- Large 60mm diameter casters are standard and promote increased mobility.
- Plywood components feature interlocking tab joinery for superior strength and long term durability.

Options

Base
- BBPC: Black Base - $95
- BOW: Wood Base - $170

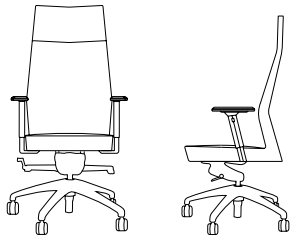

Casters
- Carpet casters standard
- CST20: hard surface casters - n/c

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric mustbe first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing limitations

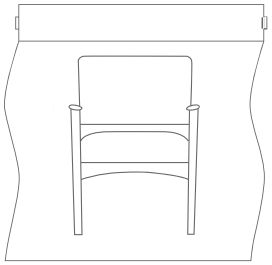

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

Veneer

DARRAN only uses HPVA AA Grade Flat Cut Cherry, Maple, and Walnut Veneers and AA Grade Quartered Oak. EdgeWorks is also available in double cut reconstituted walnut and oak patterns made from rapidly renewable wood veneer providing a repeatable consistent straight grain pattern. All veneers are selected and matched for balance and consistency.

Veneer tops

EdgeWorks veneer tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1” thick on MDF core comprised of 100% recycled and recovered wood fibers. All veneer tops are slipmatched and feature a 2mm external solid hardwood band or profile edge.

Laminate tops

EdgeWorks high-pressure laminate tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1” thick on MDF core comprised of 100% recycled and recovered wood fibers. All high pressure laminate tops are available with a profile edge or 2mm PVC edge band. Laminates in wood grain patterns feature a fine grain texture that features the polish and luxe of a real wood veneer with a subtle narrow grain structure.

TFL tops

Thermally Fused Laminate tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1” thick on MDF core that is comprised of 100% recycled and recovered wood fibers. All Thermally Fused Laminate tops are available with a 2mm flat PVC band. Laminates in wood grain patterns feature Madera Texture.

Cleaning wood & laminate

In addition to regular dusting, give your furniture an occasional cleaning in accordance with our cleaning instructions. DARRAN wood and laminate products can be cleaned with a soft cloth and a mild soap and water mixture. Use approximately 32 oz of water mixed with one tablespoon of dish soap, always wiping with the grain. Dry with a soft cloth, going with the grain, to avoid spotting or streaking.

Wood products should be waxed periodically using a non-wax liquid; please do not use any waxy polish or cleaner. Interior of drawers may also be cleaned with mild soap and water mixture, or any household cleaner that is not petroleum or thinner-based.

Adjustable glides

Glides provide 1" of vertical leveling adjustment. Glide bottom is durable metal. Glides are secured in solid wood blocks that are screwed and glued for durability.

Power

A large selection of power pods are available and handle power, data, docking stations and communication. See options section for selection.

Wire management

Wire management capabilities include standard and optional worksurface grommets. Specify W21 under surface wire channels for organization and management of all communication wires and cords. Sold separately to conceal wire under worksurfaces.

Bottom View

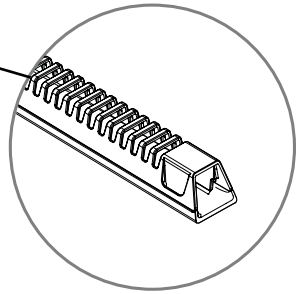

Conference wire management

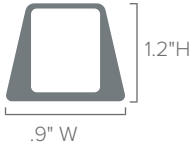

Power and data cables can be discretely housed and managed with the W21 Grey Wire Manager. This can be mounted in any location to metal frame or underside of conference tables and runs cables through a 1" channel from power module to hollow steel legs. This keeps cables organized under the table top. Release clips make it simple to snap the Wire Manager on and off for easy organization and access after being attached to the table.

W21: Grey Wire Manager (10.5") - $95

W21 Grey Wire Manager
10"W x 1.5"D x 1.25"H

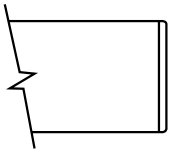

Neat thinking

Ample capacity within the hollow steel leg allows hardwired cables or data to be discretely housed and managed.

WIRE MANAGEMENT
horizontal j-channel wire management raceway

Style Number	List Price
W1	80 Per 4' section

Specifications

- 4' section for field installation.
- The "J" shape black thermoplastic wire raceway may be added to specified worksurface tops to provide concealed channeling of wires to and from worksurface grommets. For use in open kneespace areas, raceway is attachable to top of back panel with pan head screws. Interior dimensions are 1" x 1-1/2" providing ample storage for multiple wires and excess cable. Front of raceway flexes out for easy cord insertion.

Notes
- Units w/ Wire Channel Standard.
- Field Installation

WIRE MANAGEMENT
horizontal wire management raceway

Style Number	List Price
W21	95

Specifications

- 10"W x 1.5"D x 1.25"H
- Grey Wire Manager (10.5")
- Power and data cables can be discretely housed and managed with the W21 Gray Wire Manager. This can be mounted in any location to metal frame or underside of conference tables and runs cables through a 1" channel from power module to hollow steel legs. This keeps cables organized under the table top. Release clips make it simple to snap on and off the Wire Manager for easy organization and access after attached to the table

Aircharge wireless charging grommet

Style Number	List Price
ACWG WIRELESS GROMMET	$213

Specifications

› When used with GROVE Tables an additional $350 LIST will apply for the special cutout required.
› AirCharge offers a convenient way to charge any Qi compatible smartphone or device without the need to carry charging cables or find an available power outlet.
› The Aircharge is powered by the latest Qi compliant IC offering reliable and efficient wireless charging in a convenient 3" grommet hub. Simply place your phone on the Aircharge and an LED will confirm pairing and begin wireless charging.
› Recess: Efficient space conservation and quick access
› Input: DC 5V (with included AC power adapter), DC 9V, 1.67A (with optional QC 2.0 power adapter)
› Output: 5 watts Max. with DC 5V, 2A power adapter, 10 watts Max. with QC 2.0 power adapter
› Qi V1.2 compliant IC
› Charging distance: 6mm Max.

Available: All DARRAN collections

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

NOTE: Prior to completion of this form, please refer to our Graded In Materials Program for pre-approved fabrics/leathers.

ATTACH 6" X 6" FABRIC/LEATHER SAMPLE HERE

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing limitations

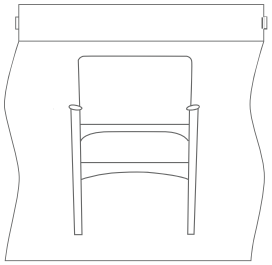

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

Finish

Welltech Finish delivers a superior furniture coating with exceptional performance that can withstand stringent cleaning agents and possesses unparalleled durability, allowing DARRAN to provide lasting, sustainable products to our customers.

Plate swivel base constructed of 1/4" low carbon steel

Seat cushions are fabricated from a combination of high density and low density high resilience polyurethane foam, to create a plush feel and superior level of quality and comfort, with a minimum of 2.0 density foam in the seat and back.

Wood swivel constructed of 1/4" low carbon steel with solid ash leg caps

Frame constructed of CNC cut engineered hardwood plywood using mortise and tenon joinery with corner blocks to maximize strength and overall product life.

Multi-cushion or bench cushion options available

Wood legs machined from Ash solids

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric mustbe first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

NOTE: Prior to completion of this form, please refer to our Graded In Materials Program for pre-approved fabrics/leathers.

- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

NOTE: Prior to completion of this form, please refer to our Graded In Materials Program for pre-approved fabrics/leathers.

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing limitations

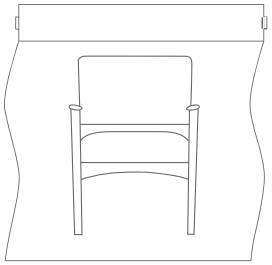

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

Gin Lounge Specifications

Width = 29-1/2”
Depth = 35”
Height = 32”
Seat Width = 22”
Seat Depth = 21”
Seat Height = 17-1/2”
Arm Height = 24”
Cartoned Weight = 55 lbs.

Frame constructed of CNC cut engineered hardwood to maximize the strength, precise measurements and overall longevity.

Designed with clean lines, sweeping back and top stitch throughout.

Solid wood arms slope forward for maximum comfort.

Variety of textiles and back options offer customers flexibility in design and consistency within each office setting.

Joints

All hardwood frame joints are securely fastened with mortise and tenon joinery and double doweled construction to ensure long-term use.

Seat suspension

Seat suspension is constructed of ¾” thick top quality Birch plywood that is machined to form an open perimeter and webbed to provide maximum support for the cushioning. Seat and back foam are made of high-resilliency foam with proper density, providing long-lasting comfort.

Butterflies are hand placed based on the tables natural cracks. Natural cracks in the wood are considered normal and enhance the beauty of the tables.

Every table is unique with live edge detailing

Metal legs standard in black. Optional in silver, dark bronze, and matte gold

The Acacia tree is fast growing and known for its beautifully figured grain and distinct sap lines.

Solid slabs can vary from 2" - 3" thick.

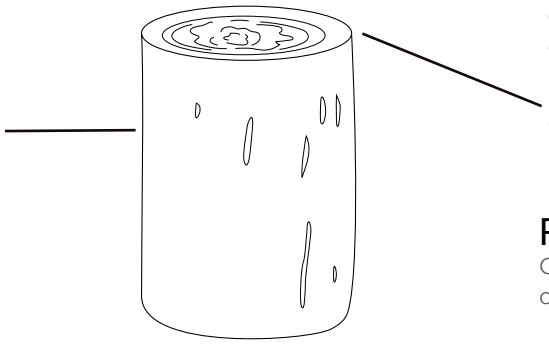

Finish

Each Grove slab features a protective clear coat to enhance the natural cracks of the solid wood.

Welltech Finish delivers a superior furniture coating with exceptional performance that can withstand stringent cleaning agents and possesses unparalleled durability, allowing DARRAN to provide lasting, sustainable products to our customers.

Butterflies are hand placed based on the stools natural cracks. Natural cracks in the wood are considered normal and enhance the beauty of the stools.

Every stool or table is unique with live edge detailing

Stool depth varies

Power ports

Choose Byrne's Salt power port. Salt includes two powered USB ports. Salt power ports can be added to square stools only.

DARRAN

Grove Live Edge Warranty & Care

The DARRAN Grove Collection features natural live edge solid wood slab tables. The Grove slabs are all individually unique with different grain variations, knots, variations in color, splits, and holes that all add to the natural beauty of each table. The natural characteristics are further enhanced by a protective varnish top coat that provides superior resistance to water marks, heat damage, chemical contact, and scratch resistance.

Warranty

All tables and bases have a one-year warranty. We will repair or replace (at our option) any faulty product deemed to have been caused by manufacturing defects. Live edge materials have inherent inconsistencies, natural defects and irregularities that are part of their unique nature. These are considered to be desired effects. Solid wood adjusts different times of the year to the moisture content of the air. In a sense the wood breathes. Wood will also adjust to the moisture content of your office and its surroundings. You may notice your slab furniture piece move and develop small cracks or dips. This is normal. Slab furniture cannot be compared to other solid wood furniture pieces. This product will have movement during its life and this is just the nature of natural wood slab furniture.

Care

In order to maintain the natural beauty of your Grove table, DARRAN recommends the following:

- Clean your Grove Table using a soft, damp cloth with a mild soap and wipe dry.
- DARRAN's protective varnish top coat uses the latest advanced finishing technology to preserve the beauty of each Grove Table. Even with this protection, DARRAN recommends the use of coasters with drinks and to clean up any spilled liquids immediately. Avoid direct contact with hot items, harsh chemicals, and some plastic feet on desk accessories as they could damage the finish.
- Take into account the humidity levels. This natural solid wood will continually contract and expand throughout its life and it will remain very sensitive to abrupt environment change, such as humidity, long after it has been harvested. Humidity levels should always remain between 30-50% to preserve your Grove table. Exposure to extreme fluctuations can cause additional cracking in the slab and would not be considered a manufacturer defect. A furniture repair expert can secure a new crack with a wood butterfly and then re-coat the top.
- Avoid placing your table in direct sunlight to prevent wood bleaching and color changes associated with UV exposure.

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric mustbe first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

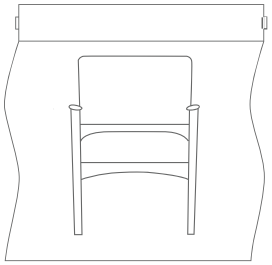

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

Please specify any special requirements and check the application above.

WELLTECH FINISH TECHNOLOGY

Finish

Welltech Finish delivers a superior furniture coating with exceptional performance that can withstand stringent cleaning agents and possesses unparalleled durability, allowing DARRAN to provide lasting, sustainable products to our customers.

Cosmo Seating Specification

Width = 24-1/2”
Depth = 23-3/4”
Height = 32-1/2”
Seat Width = 19”
Seat Depth = 19-1/2”
Seat Height = 18”
Arm Height = 24-3/4”
Cartoned Weight = 25 lbs.

Variety of textiles and back options offer customers flexibility in design and consistency within each office setting.

Joints

Joints are securely fastened with mortise and tenon joinery or double doweled construction to ensure long-term use.

Seat suspension

Seat suspension is constructed of ¾” thick top quality Baltic Birch plywood that is machined to form an open perimeter of rounded inside edges to reduce strain on the seat suspension. Seats are webbed to provide maximum support for seat cushions. Seat cushions are made of high resiliency foam with proper density providing comfort.

Seat assembly

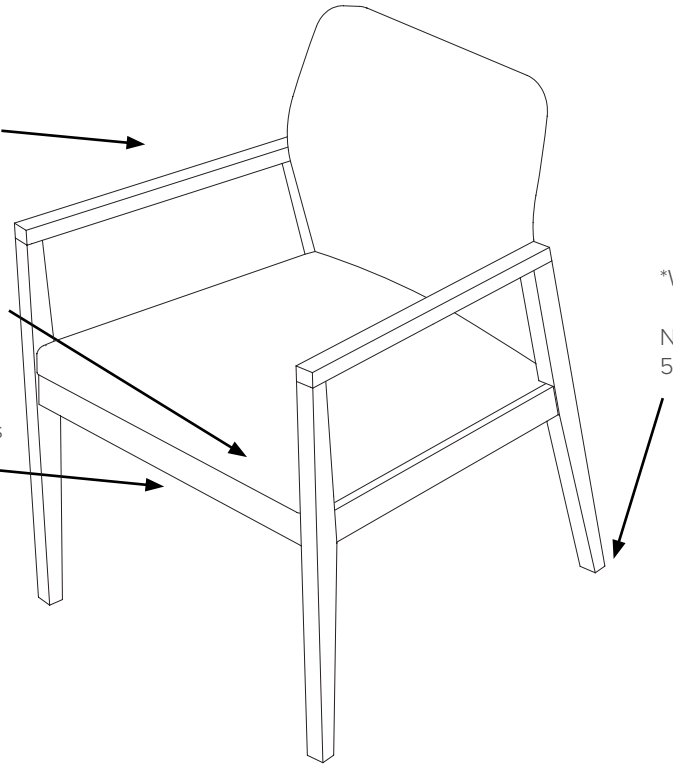

Seat assembly is attached within finger grooved corner blocks and further secured by wood cleats, providing a vastly superior means of stability in the chair.

Width = 23.5”
Depth = 24.5”
Height = 31.5”
Seat Width = 21”
Seat Depth = 18”
Seat Height = 18”
Arm Height = 24”
Cartoned Weight = 30 lbs.

Frame is constructed of kiln-dried European beech, PEFC Certified sustainable yield, perpetuating premium quality and durability.

Seat cushions are made of high resiliency foam with proper density to give comfort and support.

Seat rails are reinforced with hardwood corner blocks and cleats attached with glue and wood screws.

*Wall-Saver Design

Non-adjustable nylon glides are 5/8” in diameter.

Variety of textiles and back options offer customers flexibility in design and consistency within each office setting.

Joints

Joints are securely fastened with mortise and tenon joinery or double doweled construction to ensure long-term use.

Seat suspension

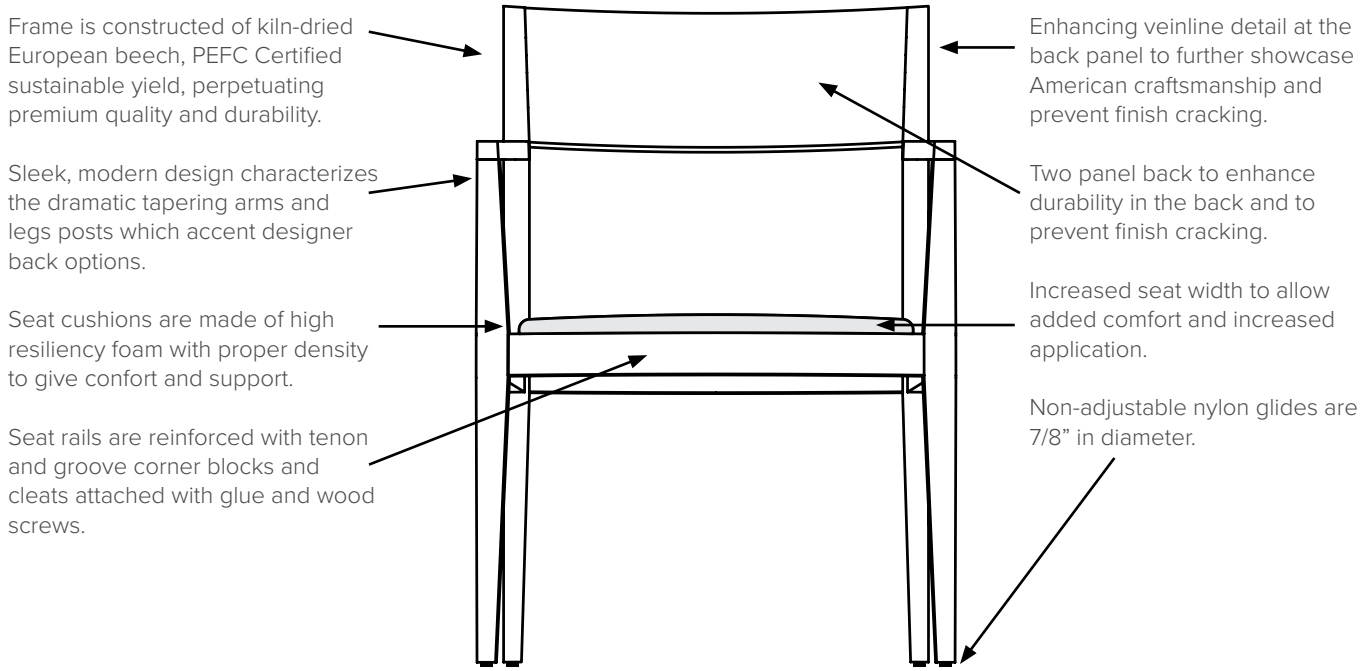

Seat suspension is constructed of ¾” thick top quality Baltic Birch plywood that is machined to form an open perimeter of rounded inside edges to reduce strain on the seat suspension. Seats are webbed to provide maximum support for seat cushions. Seat cushions are made of high resiliency foam with proper density providing comfort.

Seat assembly

Seat assembly is attached within hardwood corner blocks, providing a vastly superior means of stability in the chair.

Maxton Seating Specification

Width = 23-1/4”
Depth = 23”
Height = 32”
Seat Width = 21”
Seat Depth = 20”
Seat Height = 18”
Arm Height = 25-1/4”
Cartoned Weight = 25 lbs.

Variety of textiles and back options offer customers flexibility in design and consistency within each office setting.

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric mustbe first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

NOTE: Prior to completion of this form, please refer to our Graded In Materials Program for pre-approved fabrics/leathers.

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing limitations

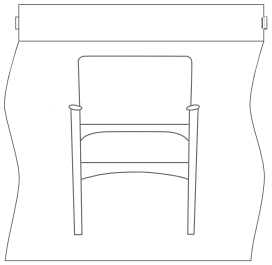

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

Veneer tops

Veneer tops are 1" thick and comprised of 45-pound density MDF core with a balanced 3-ply construction. Veneer tops and screens are standard in Quartered Walnut and Rift Cut White Oak Veneers that are slip-matched. Veneer tops are available in Flat or Cliff edge profile, with multiple banding options. Tops are finished in either 5-sheen matte finish or 25-sheen depending on finish selection.

HPL laminate tops

Honey high-pressure laminate tops are 1" thick and comprised of 45-pound density MDF core with a balanced 3-ply construction. Tops are available in Flat or Cliff edge profile, with multiple banding options.

TFL tops

Thermally Fused Laminate tops are 1-1/8" thick and fused to a 45-pound density substrate of the top for a durable surface. Tops are available in a Flat edge profile with multiple banding options.

Panel construction

Panels are composed of ¾” and 1” birch plywood with tenon and groove construction that is secured with screws and glued. MDF trim pieces create soft rounded edges and beautiful contours. The frame is covered with 4.5mm PET acoustic panels for sound absorption. PET panels are composed of recycled content, are flame retardant, mold resistant and have zero emissions. Panels are standard elevated on 5” solid wood legs that feature 2” Glide for adjustment on uneven surfaces.

Case construction

Case pieces including pedestals, towers, and credenzas are constructed of ¾” thick particle board with 3-ply balanced construction. Pedestals and Cabinets feature dowel construction reinforced with steel bracket plates, wood cleats, screws, and glue. Credenzas and Towers are elevated on 6” solid wood legs featuring 1” glide for adjustment on uneven surfaces.

Screens

Honey screens are available in Acrylic, Veneer, or PET over plywood. Acrylic is ¼” thick and available in frosted, white, and black. Plywood screens are ½” thick and are available in Quartered Walnut and Rift Cut White Oak Veneer that runs horizontally on the screen. PET is ½” thick and available in a range of colors. Screens secure to the underside of the worksurfaces with an L bracket. Screens feature a center cutout to allow clip-on power pods and easy wire management to the MGT: Wire Tray below the worksurface. The screen is 24” tall for added privacy; the screen's unique curved wings mimic the worksurface top creating a barrier between users and work area to focus.

Cleaning wood & laminate

In addition to regular dusting, give your furniture an occasional cleaning in accordance with our cleaning instructions. DARRAN wood and laminate products can be cleaned with a soft cloth and a mild soap and water mixture. Use approximately 32 oz of water mixed with one tablespoon of dish soap, always wiping with the grain. Dry with a soft cloth, going with the grain, to avoid spotting or streaking.

Wood products should be waxed periodically using a non-wax liquid; please do not use any waxy polish or cleaner. Interior of drawers may also be cleaned with mild soap and water mixture, or any household cleaner that is not petroleum or thinner-based.

Suspensions

All cabinets and mobile pedestals utilize cold rolled steel zinc plated high-grade drawer suspensions. All suspensions are warranted for the lifetime of the product. Box and File drawers are full extension, featuring steel ball bearings for a smoother quieter range of motion with soft close operation and are rated 100lbs.

Filing

Honey features a highly durable black plastic extrusion that is securely fastened into a route on top of the drawer to support hanging files. An adjustable crossbar is provided for all file drawers that enables legal/letter filing front to back or side-to-side based on the drawer size.

Locks

Locks are optional on pedestals and doors. Each drawer pedestal is independently locked. Lock plugs are factory or field installed.

Keying

Keying is available either factory or field installed. Factory installed keying offers two options: random or designated. When the random keying option is selected an arbitrary key number will be assigned to the unit. When the designated keying option is selected a key number must be specified between 101 and 110. Higher numbers may be specified if noted on the purchase order and may be factory or field installed. Black and silver face lock have silver keys.

Wire management

Wire management capabilities include standard and optional worksurface grommets. Specify W21 under surface wire channels for organization and management of all communication wires and cords. Sold separately to conceal wire under worksurfaces. Tops feature a cutout in the back and unique curved wings, allowing for clip on modules or easy wire management to the power tray below the worksurface.

Grommets

Metal grommets are provided to match the drawer pull selection. Metal grommets are available in black, silver or white. Must specify standard or non-standard location. TM50 Black plastic grommets are available as an option for vertical applications.

Seating & fabric leather program

DARRAN has partnered with some of the most prestigious fabric suppliers of the office furniture industry to bring you quality fabrics that are engaging designs, environmentally friendly and durable for years to come. If you do not see the fabric you wish to include in a project, please contact Customer Service to see if this pattern can be graded in at 800.334.7891.

Panel fabric program

ALL COM fabric must be preapproved by DARRAN. Leather fabric program is not approved on panels. Due to stretching and sagging textile content for panels shouldn't exceed a combined 50% cotton, linen, nylon and/or rayon is not recommended. Panel fabrics are required to have flame certificates that meet ASTM E84 Adhered (for power panels) and Unadhered (for panels). DARRAN does not accept responsibility of collecting flame certificates for COM.

All top parts, storage credenzas, pedestals, and towers come with horizontal grain.

Worksurfaces

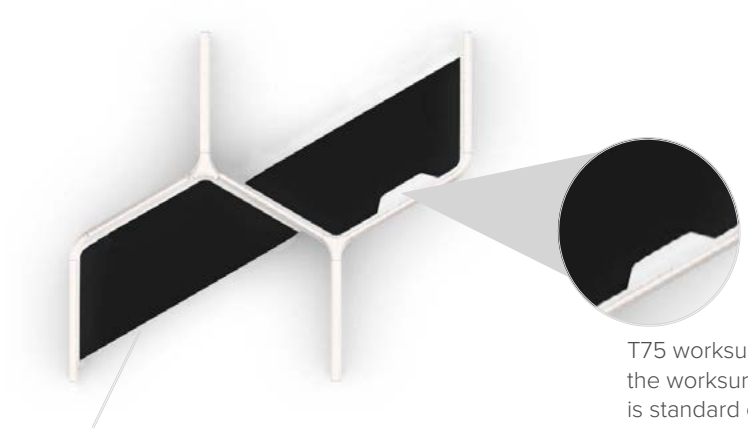

Desk/Credenza

Honey panels feature an integrated power system that daisy chains through panels to power workstations. The system features 8 wires, 4 circuits, (1 dedicated circuit), 20 amps each. Hardwired systems feature (13) duplex receptacles per circuit, (52) 15 amp duplex receptacles per power infeed maximum. The Honey power system is UL Listed as a manufactured wring system.

Honey cutout

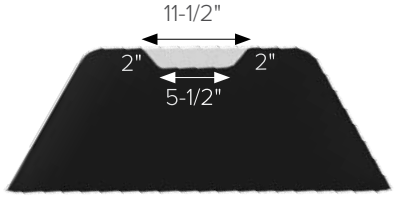

Honey worksurfaces feature a standard T75 wire managment cutout to drop wires below the worksurface.

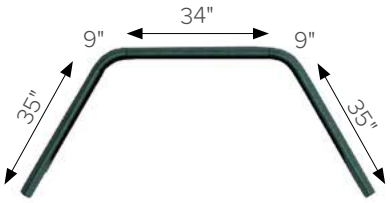

T75 worksurface cutout to drop wires below the worksurface to power access. Wire cutout is standard on all typicals.

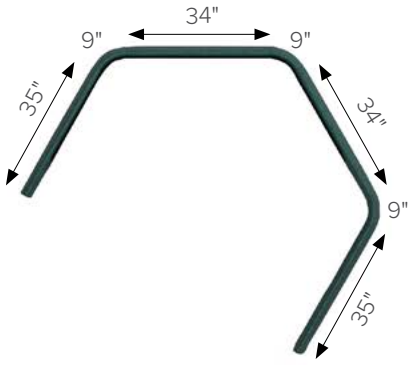

T75D option is available to delete cutout on worksurfaces at no charge. Please specify when ordering.

Honey workstations can be specified to meet New York electrical requirements. A flexible infeed, junction box and removable acrylic cover is included when specifing New York Power. The infeed and junction box are required to be on the Starter Panel at the first workstation next to a Single or Double Sided Power Panel. The customer will need to specify if the removable cover will need to be on the inside or outside of the workstation Starter Panel. NYPE: New York Power - $425 list.

When selecting NYPE: New York Power Entry option, use with starter panel HNY3555SP889 or HNY5555SP909. NYPE only needs to be selected once per contiguous grouping of Honey panels.

*Please check with general contractor to see if NYPE: New York Power option is required.

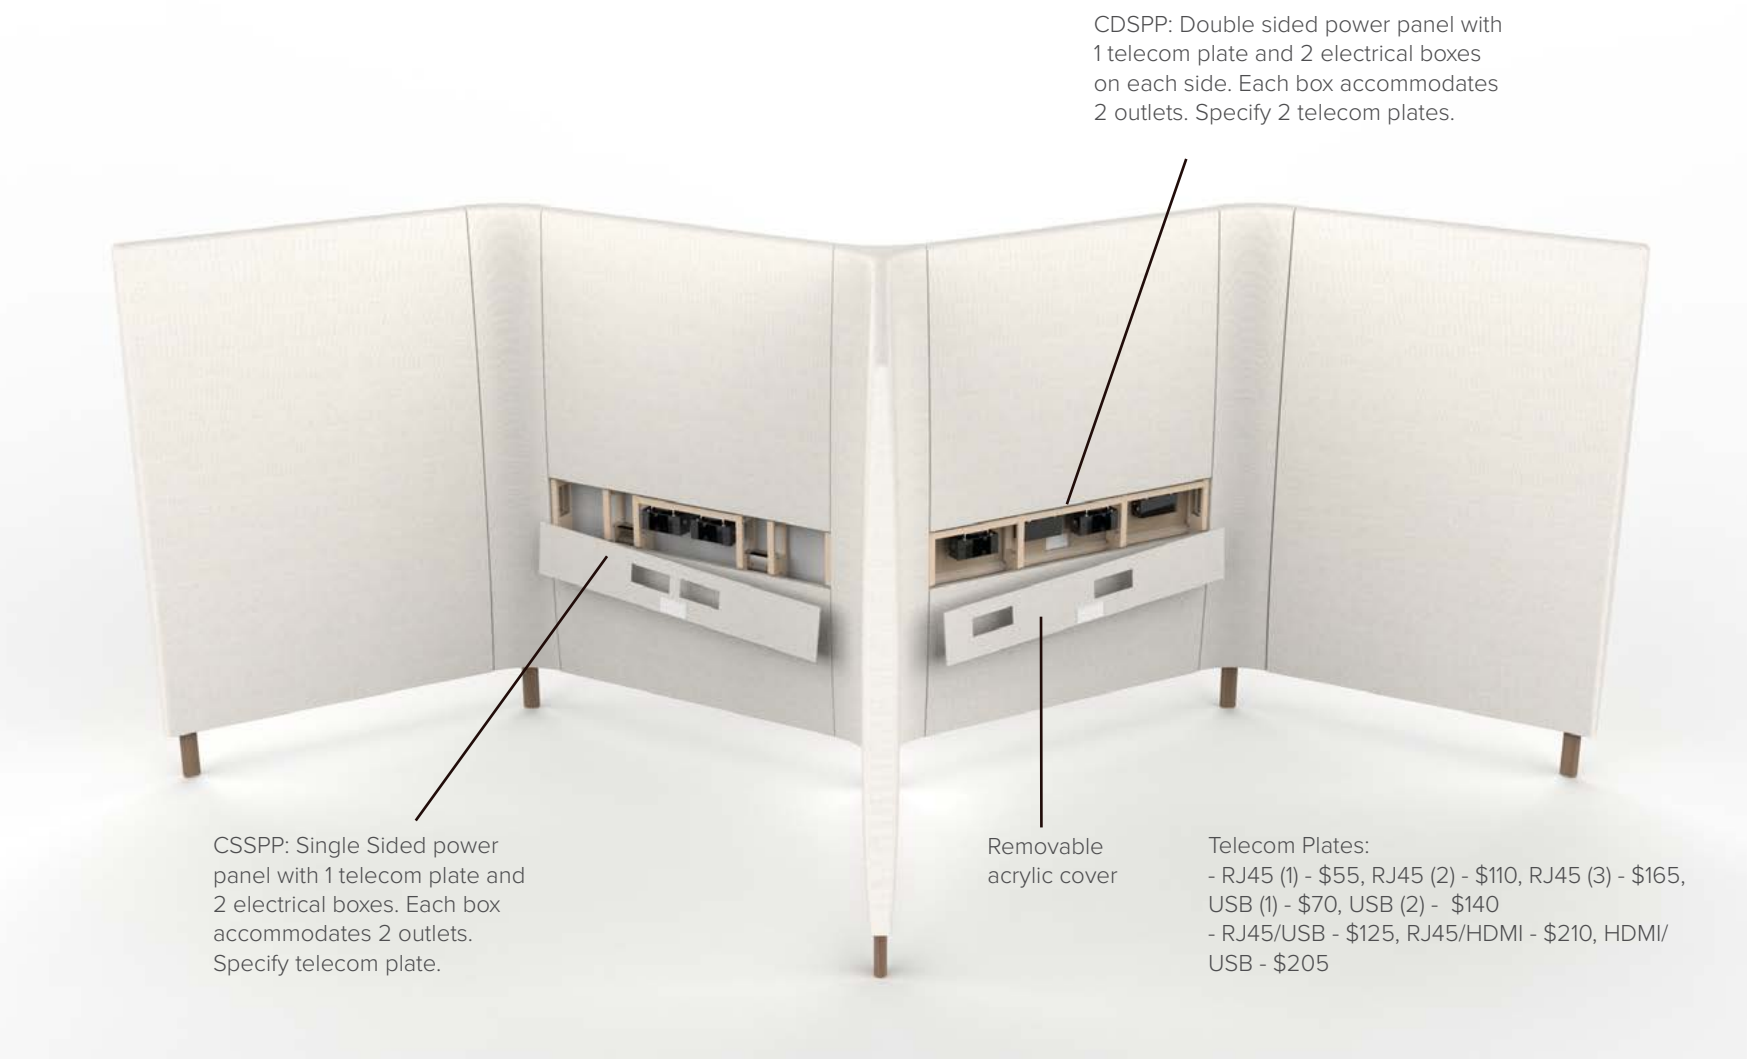

Honey workstations can be specified to meet West Coast electrical requirements. A Circuitrac energy management system and flexible infeed is included and must be specifing on a Starter Panel at the first workstation next to a Single or Double Sided Power Panel. The customer will need to specify if the removable cover will need to be on the inside or outside of the workstation Starter Panel. WCPE: West Coast Power - $2,695.

When selecting WCPE: West Coast Power Entry option, use with starter panel HNY3555SP889 or HNY5555SP909. WCPE only needs to be selected once per contiguous grouping of Honey panels.

*Please check with general contractor to see if WCPE: West Coast Power option is required.

Honey workstations can be specified with a Single or Double Sided Power Panel to meet Chicago electrical requirements. Chicago Power Panels include an electrical box inside Power Panels for a local electrician to wire receptacles and connectors. CSSPP: Single Sided Power Panel - $25. CDSPP: Double Sided Power Panel - $50.

*Please check with general contractor to see if Chicago Power is required.

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

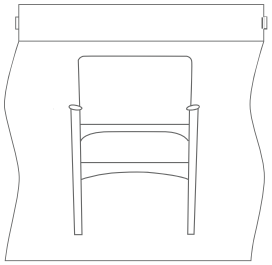

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

Please specify any special requirements and check the application above.

- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%
- If using COM or COL, pricing will be COM or COL + 5%.
- If both COM + COL are used in combination, use COL + 5%.

Product Features

- Frame constructed of CNC cut engineered hardwood plywood to maximize strength and overall longevity
- Joints are securely fastened with mortise and tenon joinery as well as corner block construction
- Engineered strand webbing is interwoven in the seat of the frame for enhanced endurance, sustainability and comfort
- High resilient polyurethane foam with a minimum of 2.0 density foam in the seat.
- Steel legs are powder coated for long lasting durability
- Legs have a 1 inch leveling glide for use on any floor surface
- Concealed ganging brackets on the underside of each unit.

Options

Premium Metal Finishes
- Legs come standard in MFW White
- For optional premium colors, see front of Price List
- Specify metal finish color $175

Power
- PD-PLAT-2: Plateau - $691 each
- Plateau power unit comes standard in White
- Black and Gray available as premium colors options - add $95 each
- When specifying Plateau power, indicate Color (White/Black/Gray) and Location (Left Facing/Right Facing/Both)
- See Power & Data Options for further details

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

DARRAN

Honey Buzz Fabric & Leather Program

NOTE: Prior to completion of this form, please refer to our Graded In Materials Program for pre-approved fabrics/leathers.

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing limitations

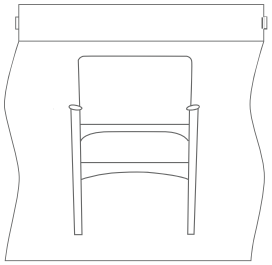

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

Upholstery Requirements
Fabric yds: 8 Leather Sq. Ft.: 144
Carton Weight:

Product Features
- Frame constructed of CNC cut engineered hardwood plywood to maximize strength and overall longevity
- Joints are securely fastened with mortise and tenon joinery as well as corner block construction
- Engineered strand webbing is interwoven in the seat of the frame for enhanced endurance, sustainability and comfort
- High resilient polyurethane foam with a minimum of 2.0 density foam in the seat and back
- Legs have non slip grip on the bottom to insure damage free floors
- Concealed ganging brackets on the underside of each unit.

2 Finish N/A

3 Combination Fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing/ yardage requirements will be as follows:

A Lounge Seat 5 yds.
B Lounge Back 4 yds.

- When combining two materials of the same grade, pricing will be specified grade + 5%
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%
- If using COM or COL, pricing will be COM or COL + 5%.
- If both COM + COL are used in combination, use COL + 5%.

Options
Power
- PD-PLAT-2: Plateau - $691 each
- Plateau power unit comes standard in White
- Black and Gray available as premium colors options - add $95 each
- When specifying Plateau power, indicate Color (White/Black/Gray) and Location (Left Facing/Right Facing/Both)
- See Power & Data Options for further details

Veneer
DARRAN only uses HPVA AA Grade Flat Cut Cherry and Walnut Veneers. All veneers are selected and matched for balance and consistency.

Veneer Tops
Jamestown veneer tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1-1/8” thick on MDF core comprised of 100% recycled and recovered wood fibers. All veneer tops are slipmatched and feature a 3mm external solid hardwood band or profile edge.

Laminate Tops
Jamestown high-pressure laminate tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1-1/8” thick on MDF core comprised of 100% recycled and recovered wood fibers. All high pressure laminate tops are available with a profile edge or 2mm PVC edge band. Laminates in wood grain patterns feature a fine grain texture that features the polish and luxe of a real wood veneer with a subtle narrow grain structure.

Cleaning wood & laminate
In addition to regular dusting, give your furniture an occasional cleaning in accordance with our cleaning instructions. DARRAN wood and laminate products can be cleaned with a soft cloth and a mild soap and water mixture. Use approximately 32 oz of water mixed with one tablespoon of dish soap, always wiping with the grain. Dry with a soft cloth, going with the grain, to avoid spotting or streaking.

Wood products should be waxed periodically using a non-wax liquid; please do not use any waxy polish or cleaner. Interior of drawers may also be cleaned with mild soap and water mixture, or any household cleaner that is not petroleum or thinner-based.

Chassis & pedestal
Chassis components are ¾” thick core of particle board or MDF rated EPP/SCS/CARB-II material with 3-ply balanced construction. Pedestal and Cabinets feature dowel construction reinforced with steel bracket plates, wood cleats, screws and glue. All units are standard with 1” adjustable glides that allow for leveling of units that are secured in solid wood glide blocks to prevent tear out.

Overhead cabinet construction
Freestanding & wall mount
Freestanding Overhead storage cabinets are constructed of 1” and 3/4" thick core of particle board or MDF rated EPP/SCS/CARB-II material with 3-ply balanced construction. Panels are attached with cam fasteners in conjunction with dowels securely adhered with glue. All surface mount cabinets connect to work surface with anti-slip tape. Wall mount cabinets are mounted to the wall with steel “z” bracket attachment method using 5mm euro screws to attach to the back of the cabinet. All units ship with a steel “z” bracket. This bracket is mounted to the wall by field installers. Installers are responsible for selecting and supplying appropriate fasteners for wall conditions.

Bookcase construction
All chassis (sides, back, top, and bottom panels) are constructed with 3/4" thick core of particle board or MDF rated EPP/SCS/CARB-II material with 3-ply balanced construction. Panels are attached with cam-lock fasteners in conjunction with dowels securely adhered with glue. Shelves on all units are 3/4" thick balance 3 ply panels. Optional heavy duty shelves are 1” thick lumber core balanced 5 ply construction.

Tackboards
Wall mount tackboards are constructed of .75” thick fiberboard. The fabric is precisely aligned and fitted to the tackboard with a sock on cover. Overhead storage tackboards are constructed of .75” thick fiberboard. The fabric is precisely aligned and fitted to the tackboard and adhered to the rigid hardboard with staples. Wall mount cabinets are mounted to the wall with steel “z” bracket attachment method using 5mm euro screws to attach to the back of the cabinet. All units ship with a steel “z” bracket. This bracket is mounted to the wall by field installers. Installers are responsible for selecting and supplying appropriate fasteners for wall conditions.

Adjustable glides
Glides provide 1" of vertical leveling adjustment. Glide bottom is durable metal. Glides are secured in solid wood blocks that are screwed and glued for durability.

Drawers
All drawers are constructed of four sides and a bottom, which are attached to a drawer front with screws for easy removal. Drawer fronts are vertically matched in balanced sets. Pencil trays are standard in all box drawers. Drawers are constructed of maple veneer 1/2” thick material for drawer sides, fronts and backs with a UV finish for maximum durability. Drawer bottoms are 3/16” thick 3-ply maple veneer. Drawer boxes are assembled at each corner with dowel joinery for maximum drawer strength. Lifetime free replacement warranty.

Standard Wood Drawers
Optional hardwood veneer plywood drawers feature banded top and bottom edges for smoothness. Drawers are dowel joint construction with a UV cured finish over maple veneers, plus a lifetime free replacement guarantee.

Drawer Fronts
Drawer fronts are vertically matched in balanced sets. Doors feature vertical veneer bookmatched horizontally in sets of 2, 4, and 6 doors. All drawers and doors have traditional scallop profile edge shape. All tower fronts matched in vertical sets.

Suspensions
All casegoods utilize cold rolled steel zinc plated high-grade drawer suspensions. Box and File drawers are full extension, featuring steel ball bearings for a smoother quieter range of motion with soft close operation and are rated at 100lbs. Lateral file drawers are a progressive action full extension suspension with the soft close operation and are rated at 150lbs. Lateral files include anti-tip mechanism that will allow only one drawer at a time to be opened. All suspensions are soft close and are warranted for the lifetime of the product.

Hinges
Units with doors include 95 degree swing hinges.

Filing
Jamestown features metal file frames around the perimeter of the drawers with cross bars secured to the drawer sides to support hanging files. A metal adjustable cross bar is standard with all file drawers to support letter/legal filing front to back or side to side. File drawers have one adjustable cross bar and lateral files have two adjustable cross bars. See filing reference for details.

Locks
Locks are Standard on all drawers below the worksurface. Random lock cores are installed at the factory. Some units may be shipped with the same key number. Locks are Silver, Black or Bronze and match pull finish unless otherwise specified.

DARRAN will also send lock cores separately to the dealer at your request. These units will be sent with an empty lock core and the Dealer will receive a shipment of the requested lock core/keys.

Keying
Keying is available either factory or field installed. Factory installed keying is random.

Wire management
Wire management capabilities include standard and optional worksurface grommets. Specify W-1 under surface wire channels for organization and management of all communication wires and cords. Horizontal J-Channel wire management (Sku: W-1) is sold separately to conceal wire under worksurfaces.

Grommets
Metal grommets are provided to match the drawer pull selection. Grommets are available in black, silver, or antique brass. Must specify standard or non-standard location. Black plastic grommets are available as an option for vertical applications.

Powerports
A large selection of power pods are available and handle power, data, docking stations and communication. See options section for selection.

LED Task Lights
LED task lighting provides high efficiency, low energy lighting with a long life. Surface mought light is encased in silver aluminum channel with milk lense and rounded end caps. Lights are field installed.

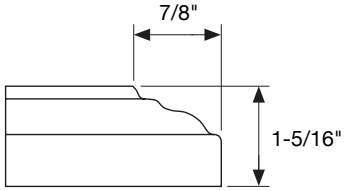

Product specifications listed below:

- Diffuser creates a softer light and eliminates hot spots
- Touch dimmer switch
- Can be “daisy chained” up to 90W
- 4.6 watts per foot
- 120 LEDs per meter
- Certification: UL Listed
- 50,000 hour life span.

Color Temp is 4000K

Ganging – flush cut modification

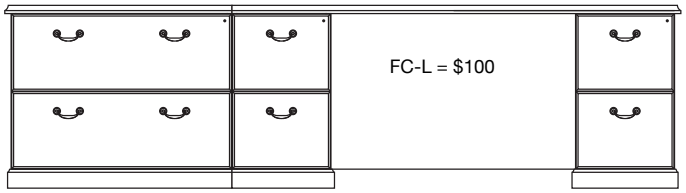

30”H Casegood Worksurface & Base Ganging Modifications

To gang two casegood units, each unit end to be ganged must be flush cut modified for gapless surfaces and cabinet chassis.

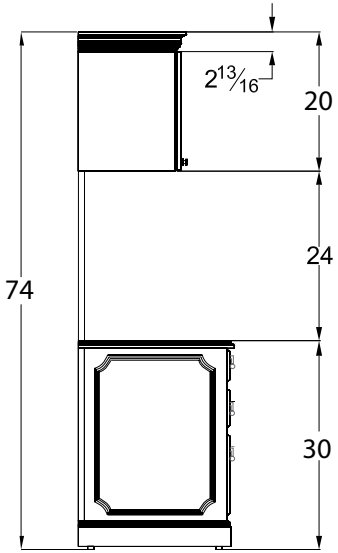

Order Option:
- FC-B: Flush Unit Both Sides (Facing) for Ganging - $100
- FC-L: Flush Unit Left (Facing) for Ganging - $100
- FC-R: Flush Unit Right (Facing) for Ganging - $100

Flush cut modification per unit includes all modifications to gang to one end or both ends when units are ganged. Modification includes tops, base and molding. Modification reduces width size approximately 1” per end.

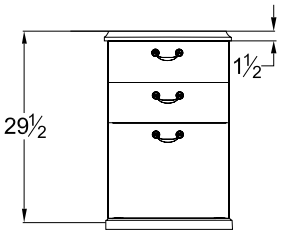

Overhead consoles and towers are offered freestanding and ganging – inclusive of flush cut modifications.
Example:
JCM3124CA104W Two Drawer Lateral File (Left) Flush Cut Right – FC-R…$100

PL-4 Antique Brass

PL-5 Antique Brass
PL-50 Brushed Pewter

Product Features

- Full back panel
- Lateral file drawer reinforced for extra storage capacity
- Legal/Letter filing
- Features ball bearing suspensions, suspensions are full extension

Notes

- Center drawers/keyboards n/a on 72" / 66" - 2 drawer lateral file credenzas
- Unit has a black back panel and is not designed for open plan use. Select OPB Option for Open Plan application.

Options

Accessories
- K28: Articulating keyboard w/ mouse pad - $390

Drawer
- P40B: extra Box/Box/File or File/File to Kneespace - $1025
- PL-DBL: Add second pull to lateral file drawer - $20 per Pull

Flush Cut
- FC-B: Flush Unit Both Sides (Facing) for Ganging - $100
- FC-R: Flush Unit Right (Facing) for Ganging - $100
- FC-L: Flush Unit Left (Facing) for Ganging - $100

Grommet (Standard Location)

Specify Color - $50 ea.
- Black: TM30-C (Center)
- Silver: TM31-C (Center)
- Antique Brass: TM33-C (Center)

Grommets (Non-Standard Location)

Provide drawing w/ Grommet Location and Specify Color - $95 ea.
- TM30-NS: Black Specify Location
- TM31-NS: Silver Specify Location
- TM33-NS: Antique Brass Specify Location

Modesty
- M34T:Drop Door Tech Modesty - $130
- M51: Open Back Modesty with Wire Mgmt Rail - Deduct $95

Molding
- DSM2: Beltline only/ Delete scalloped molding - Deduct $50

Open Plan _ Finished Back
- OPB: Modify Unit for Open Plan Application - $295

DK-114 Brushed Pewter

DK-4 Antique Brass

DK-5 Antique Brass
DK-50 Brushed Pewter

Product Features

- Cornice top
- Interior cabinet depth 12"
- Wall mount rail included

Notes

- The DARRAN wall mounted cabinet (or shelf) must be hung on a weight-bearing wall. The suitability of the wall supporting the wall mounted cabinet, and the installation and maintenance of the wall-mounted cabinet, is the sole responsibility of the customer. Failure to correctly install and/or exceed the loaded weight capacity of this product may cause it to fall, resulting in damage to the product, adjacent property and/or bodily injury.
- Dimensions of units are overall, including cornice. Chassis dimension is approximately 3" less.

Options

Door

- D2: Door Lock - $100 per door set
- D6: Delete Doors - n/c
- D9SC: Soft Close Door Hinges - $35 per door

Flush Cut

- FC-B: Flush Unit Both Sides (Facing) for Ganging - $100
- FC-R: Flush Unit Right (Facing) for Ganging - $100
- FC-L Flush Unit Left (Facing) for Ganging - $100

Task Lighting

Overhead task light cord is located on the right facing side. If the opposite location is required please contact customer service.

- LT-LED24: 24" LED Task light - $215
- LT-LED48: 48" LED Task light - $270
- LT-LED60: 60" LED Task light - $335
- LT-LED72: 72" LED Task light - $360

- Silver Powerdercoat Finish
- 10" x 8"W
- Non-slip Neoprene pad

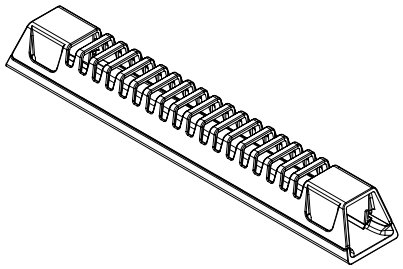

WIRE MANAGEMENT
horizontal j-channel wire management raceway

Style Number	List Price
W1	80 Per 4' section

Specifications

- 4' section for field installation.
- The "J" shape black thermoplastic wire raceway may be added to specified worksurface tops to provide concealed channeling of wires to and from worksurface grommets. For use in open kneespace areas, raceway is attachable to top of back panel with pan head screws. Interior dimensions are 1" x 1-1/2" providing ample storage for multiple wires and excess cable. Front of raceway flexes out for easy cord insertion.

Notes
- Units w/ Wire Channel Standard.
- Field Installation

WIRE MANAGEMENT
horizontal wire management raceway

Style Number	List Price
W21	95

Specifications

- 10"W x 1.5"D x 1.25"H
- Grey Wire Manager (10.5")
- Power and data cables can be discretely housed and managed with the W21 Gray Wire Manager. This can be mounted in any location to metal frame or underside of conference tables and runs cables through a 1" channel from power module to hollow steel legs. This keeps cables organized under the table top. Release clips make it simple to snap on and off the Wire Manager for easy organization and access after attached to the table

Notes
- Field installed

WIRE MANAGEMENT
horizontal u-channel wire management raceway

Style Number	List Price

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

Kuna Fabric & Leather Program

NOTE: Prior to completion of this form, please refer to our Graded In Materials Program for pre-approved fabrics/leathers.

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing limitations

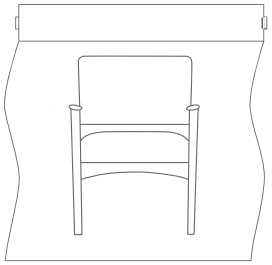

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

Seating fabric & leather program

DARRAN has partnered with some of the most prestigious fabric suppliers of the office furniture industry to bring you quality fabrics that are engaging designs, environmentally friendly and durable for years to come. If you do not see the fabric you wish to include in a project, please contact Customer Service at 800.334.7891 to see if this pattern can be graded in

For current information about graded-in fabrics and leather, please visit our Resources page at www.darran.com/resources/textiles-leather/

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

DARRAN

Liaison Fabric & Leather Program

NOTE: Prior to completion of this form, please refer to our Graded In Materials Program for pre-approved fabrics/leathers.

ATTACH 6" X 6" FABRIC/LEATHER SAMPLE HERE

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing limitations

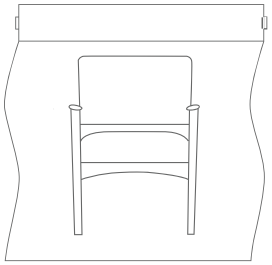

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

The benefits of FENIX® surface material:

- Soft to the touch
- Extremely matte
- Resists fingerprints
- Highly resistant to scratches, abrasion, acid-based solvents, and household cleaners

SO, WHAT IS FENIX® SURFACE MATERIAL?

FENIX® materials are made of paper (over 60%) and thermosetting resins (30 - 40%). The FENIX® products are created by a pressing process in which heat and pressure are applied simultaneously in order to obtain a homogeneous non-porous product. First introduced in 2013, FENIX® was developed after years of research and development by an international team of scientists and engineers. Thanks to proprietary technology, FENIX® is able to achieve its incredible surface properties by undergoing a series of processes, including a multilayer coating and use of next-gen acrylic resins, which are then hardened and fixed through an Electron Beam Curing process.

Solid wood, veneer, and High Pressure Laminate table tops

CNC machined hardwood plywood table frames

Oak handle on caster version with saddle leather strap

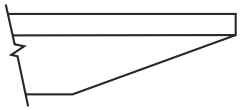

High density, ultra resilient molded foam seating

Pressure activated compression casters will not move with 88 lbs of pressure applied, or approximately 45 lbs with the weight of the frame included

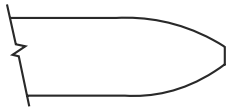

Variety of textiles and back options offer customers flexibility in design and consistency within each office setting.

Table Edge Profiles

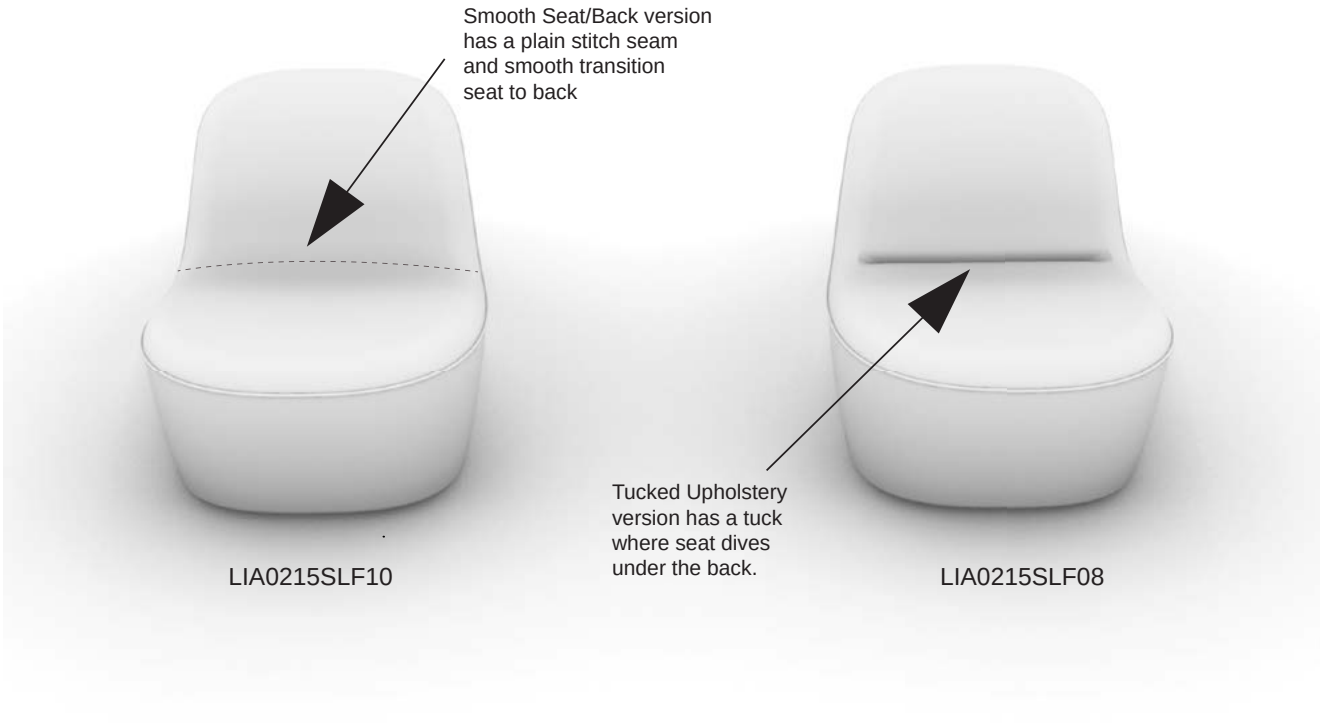

Liaison Ledge

Available with veneer and laminate tops

Liaison Bullnose

Available with solid wood tops

Smooth Seat/Back version has a plain stitch seam and smooth transition seat to back
Tucked Upholstery version has a tuck where seat dives under the back.

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

NOTE: Prior to completion of this form, please refer to our Graded In Materials Program for pre-approved fabrics/leathers.

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing limitations

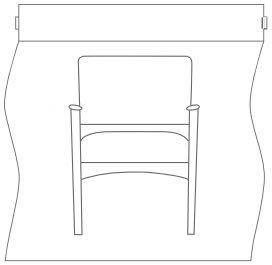

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

☐ RAILROAD

☐ SETUP

Veneer and HPL tops

Veneer tops and high-pressure laminate tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1-1/2” thick. DARRAN only uses HPVA A Grade Flat Cut Walnut Veneers and A Grade Quartered Oak. Walnut and Oak veneers are plank matched. Veneer tops feature a 2mm external solid hardwood band, and HPL tops features a 2mm flat PVC band.

Table construction

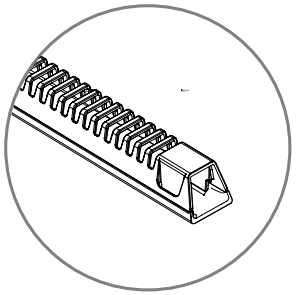

Table bases are constructed from 1” thick solid Oak or Walnut. Parts are securely fastened together using rails that are bored and joined with wood fasteners. Legs are pre-bored to accept a tee nut for the adjustable glide.

Wire management

Power and data are concealed without notice under the surface of the table. A system of W21 cable clips and connectors runs cords safely and cleanly around corners. Specify W21 under surface wire channels for organization and management of all communication wires and cords. Sold separately to conceal wire under worksurfaces.

W21 Grey Wire Manager
10"W x 1.5"D x 1.25"H

Soba wire management

- SCD: Soba wire management - $218
- Dimensions: 9ft x 9in x 3.15in
- Zips up, bundles, and routes loose, messy cables into a single tube
- Routes and guides cables behind desks, TVs, and anywhere cables tend to get messy
- Accommodates large or small cables, up to three cables at once

Adjustable glides

Glides provide 1" of vertical leveling adjustment. Glide bottom is durable metal.

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

DARRAN

Neva Fabric & Leather Program

NOTE: Prior to completion of this form, please refer to our Graded In Materials Program for pre-approved fabrics/leathers.

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing limitations

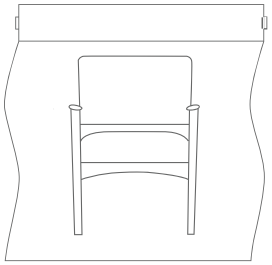

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

DARRAN

Nika Fabric & Leather Program

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing limitations

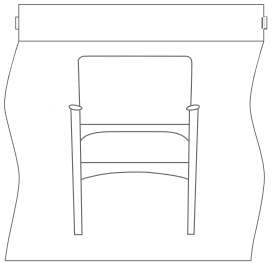

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

Nika Seating Specification

Width = 26”
Depth = 25”
Height = 35” - 39”
Seat Width = 20-1/2”
Seat Depth = 19”
Seat Height = 18 - 22""
Arm Height = 26.5” - 30.5"

Frame Construction: Hardwood Plywood components are precision cut on CNC routers and feature interlocking tab joinery for superior strength and long term durability. All joints are assembled utilizing glue and steel fasteners.

Cushioning: Back utilizes an elastic sheet webbing suspension that conforms to individual's lumbar curvatures for adaptive support. Cushioning materials are laminations or CAL117 rated high-density polyurethane foams of varying compression rates, providing durability and long terms comfort.

Polished Aluminum Arms.

Black ergonomic arms are adjustable, providing comfort for varied body types.

Bases: 26" diameter, available in Black Standard or Polished Aluminum.

Casters: 60mm diameter wheels are standard and promote increased mobility.

Carpet casters are standard. For hard floor surfaces specify CST20 - no upcharge.

* Flange stitch may not be available on all textiles/vinyls. DARRAN will use its discretion, using a top stitch detail in cases where the thickness or stiffness prevents an acceptable appearance with the flange stitching detail.

Whether it is used for the elevated environments of the executive boardroom, or the individual workstations associated with essential personnel, the Nika Conference/Task chair has the poise and elegance to win in any location. Designed to stand apart from other products in this category, the Nika incorporates subtle details in its architecture and ergonomics that create a highly effective and elegant option to what is typically found on the market. The slim profile of Nika is sculpted to accept the human form and offer an excellent degree of comfort within a considered footprint. Neither too small nor too big, the Nika in all its versions is an outstanding option to the typical ergonomic task chair as well as being an elegant solution to the standard executive boardroom conference chair. The name Nika is derived from the Greek word nike, so no matter where you use it, it is a win.

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

NOTE: Prior to completion of this form, please refer to our Graded In Materials Program for pre-approved fabrics/leathers.

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing limitations

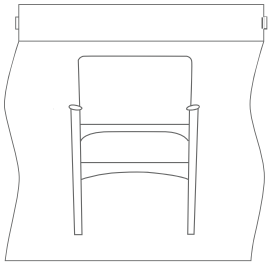

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

Veneer

DARRAN only uses HPVA AA Grade Flat Cut Cherry, Maple, and Walnut Veneers and AA Grade Quartered Oak Veneers. Not SO Square is also available in double cut reconstituted walnut and oak patterns made from rapidly renewable wood veneer providing a repeatable consistent straight grain pattern. All veneers are selected and matched for balance and consistency.

Veneer tops

Not SO Square veneer tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1-1/8" thick on MDF core comprised of 100% recycled and recovered wood fibers. All veneer tops are slipmatched and feature a 2mm external solid hardwood band or profile edge.

Laminate tops

Not SO Square high-pressure laminate tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1-1/8"" thick on MDF core comprised of 100% recycled and recovered wood fibers. All high pressure laminate tops are available with a profile edge or 2mm PVC edge band. Laminates in wood grain patterns feature a fine grain texture that features the polish and luxe of a real wood veneer with a subtle narrow grain structure.

TFL tops

Thermally Fused Laminate tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1-1/8” thick on MDF core that is comprised of 100% recycled and recovered wood fibers. All Thermally Fused Laminate tops are available with a 2mm flat PVC band. Laminates in wood grain patterns feature Madera Texture.

Cleaning wood & laminate

In addition to regular dusting, give your furniture an occasional cleaning in accordance with our cleaning instructions. DARRAN wood and laminate products can be cleaned with a soft cloth and a mild soap and water mixture. Use approximately 32 oz of water mixed with one tablespoon of dish soap, always wiping with the grain. Dry with a soft cloth, going with the grain, to avoid spotting or streaking.

Wood products should be waxed periodically using a non-wax liquid; please do not use any waxy polish or cleaner. Interior of drawers may also be cleaned with mild soap and water mixture, or any household cleaner that is not petroleum or thinner-based.

Chassis & pedestal

Chassis components are ¾” thick core of particle board or MDF rated EPP/SCS/CARB-II material with 3-ply balanced construction. Pedestal and Cabinets feature dowel construction reinforced with steel bracket plates, wood cleats, screws, and glue.
All units are standard with 1” adjustable glides that allow for leveling of units that are secured in solid wood glide blocks to prevent tearout.

Overhead cabinet construction Freestanding & wall mount

Freestanding Overhead storage cabinets are constructed of 1” and 3/4" thick core of particle board or MDF rated EPP/SCS/CARB-II material with 3-ply balanced construction. Panels are attached with cam fasteners in conjunction with dowels securely adhered with PVAc glue. All surface mount cabinets connect to work surface with anti-slip tape. Wall mount cabinets are mounted to the wall with steel “z” bracket attachment method using 5mm euro screws to attach to the back of the cabinet. All units ship with a steel “z” bracket. This bracket is mounted to the wall by field installers. Installers are responsible for selecting and supplying appropriate fasteners for wall conditions.

Bookcase construction

All chassis (sides, back, top, and bottom panels) are constructed with 3/4" thick core of particle board or MDF rated EPP/SCS/CARB-II material with 3-ply balanced construction. Panels are attached with cam-lock fasteners in conjunction with dowels securely adhered with glue. Shelves on all units are 3/4" thick balance 3 ply panels. Optional heavy duty shelves are 1” thick lumber core balanced 5 ply construction.

Tackboards

Wall mount tackboards are constructed of .75” thick fiberboard. The fabric is precisely aligned and fitted to the tackboard with a sock on cover. Overhead storage tackboards are constructed of .75” thick fiberboard. The fabric is precisely aligned and fitted to the tackboard and adhered to the rigid hardboard with staples. Wall mount cabinets are mounted to the wall with steel “z” bracket attachment method using 5mm euro screws to attach to the back of the cabinet. All units ship with a steel “z” bracket. This bracket is mounted to the wall by field installers. Installers are responsible for selecting and supplying appropriate fasteners for wall conditions.

Adjustable glides

Glides provide 1" of vertical leveling adjustment. Glide bottom is durable metal. Glides are secured in solid wood blocks that are screwed and glued for durability.

Drawers

All drawers are constructed with mitre joint/dowel construction in a natural maple finish with four sides and a bottom, which are attached to a drawer front with screws for easy removal. Drawer fronts are vertically matched in balanced sets. Pencil trays are standard in all box drawers. Drawers are constructed of 1/2” thick wood grained wrapped 5 sided miter-folded construction with 1/4” thick hardboard bottoms reinforced for heavy weight capacity. Drawers have been tested and pass BIFMA 50,000 cycle test. All drawers are guaranteed lifetime with free replacement warranty.

Optional wood drawers

Optional hardwood veneer plywood drawers feature banded top and bottom edges for smoothness. Drawers are dowel joint construction with a UV cured finish over maple veneers, plus a lifetime free replacement guarantee.
Optional Wood Drawer (Any Size) – Option Code P33...$45 List Price Per Drawer

Drawer fronts

Drawer fronts are vertically matched in balanced sets. Doors feature vertical veneer bookmatched horizontally in sets of 2, 4, and 6 doors. All drawers and doors have traditional scallop profile edge shape. All tower fronts matched in vertical sets.

Suspensions

All casegoods utilize cold rolled steel zinc plated high-grade drawer suspensions. All suspensions are warranted for the lifetime of the product. Box and File drawers are full extension, featuring steel ball bearings for a smoother, quieter range of motion and are rated at 100lbs. Lateral file drawers are a progressive action full extension suspension and are rated at 150lbs. Veneer and High Pressure laminate casegoods feature soft close suspension; Thermally Fused Laminate casegoods feature standard suspensions. Lateral files include anti-tip mechanism that allows only one drawer to be opened at a time.

Hinges

Units with doors include 95 degree swing hinges.

Filing

Not SO Square features a highly durable black plastic extrusion that is securely fastened into a route on top of the drawer to support hanging files. An adjustable crossbar is provided for all file drawers that enables legal/letter filing front to back or side-to-side based on the drawer size.

Locks

Locks are standard on all drawers below the worksurface. Random lock cores are installed at the factory. Some units may be shipped with the same key number. Locks are Silver, Black, or Bronze and match pull finish unless otherwise specified.

DARRAN will also send lock cores separately to the dealer at your request. These units will be sent with an empty lock core and the Dealer will receive a shipment of the requested lock core/keys.

Keying

Keying is available either factory or field installed. Factory installed keying is random.

Wire management

Wire management capabilities include standard and optional worksurface grommets. Specify W-1 under surface wire channels for organization and management of all communication wires and cords. Horizontal J-Channel wire management (Sku: W-1) is sold separately to conceal wire under worksurfaces.

Grommets

Metal grommets are provided to match the drawer pull selection. Grommets are available in black or silver. Must specify standard or non-standard location. Black plastic grommets are available as an option for vertical applications.

Powerports

A large selection of power pods are available and handle power, data, docking stations, and communication. See options section for selection.

LED tasklights

LED task lighting provides high efficiency, low energy lighting with a long life. Surface mounted light is encased in silver aluminum channel with milk lense and rounded end caps. Lights are field installed. Product specifications listed below:

- Diffuser creates a softer light and eliminates hot spots
- Touch dimmer switch
- Can be “daisy chained” up to 90W
- 4.6 watts per foot
- 120 LEDs per meter
- Certification: UL Listed
- 50,000 hour life span.

Color Temp is 4000K

Ganging – flush cut modification

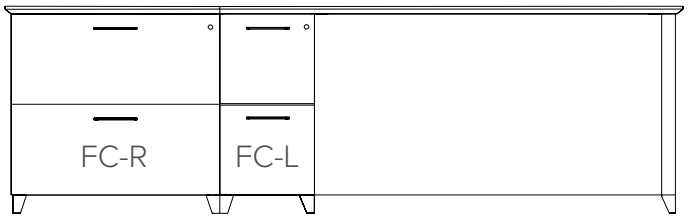

30”H Casegood Worksurface & Base Ganging Modifications

To gang two casegood units, each unit end to be ganged must be flush cut modified for gapless surfaces and cabinet chassis.

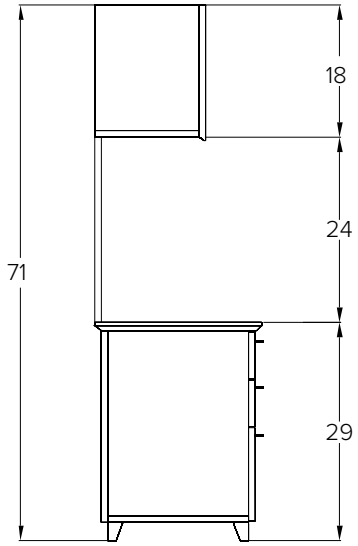

Order Option:
- FC-B: Flush Unit Both Sides(Facing) for Ganging - $100
- FC-L: Flush Unit Left (Facing) for Ganging - $100
- FC-R: Flush Unit Right (Facing) for Ganging - $100

Flush cut modification per unit includes all modifications to gang to one end or both ends when units are ganged. Modification includes tops, base and molding. Modification reduces width size approximately 1” per end.

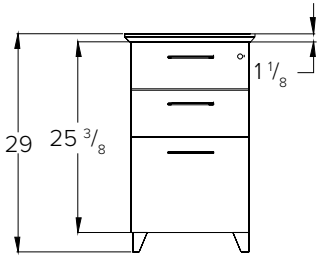

Example:
NSS3121100W Two Drawer Lateral File (Left) Flush Cut Right – FC-R...$100
NSS7221054 Kneespace Credenza (Right) Flush Cut Left – FC-L...$100

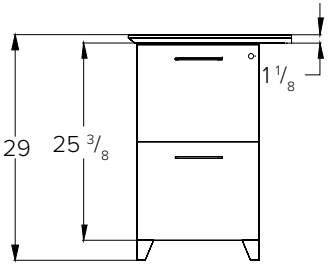

Height reference

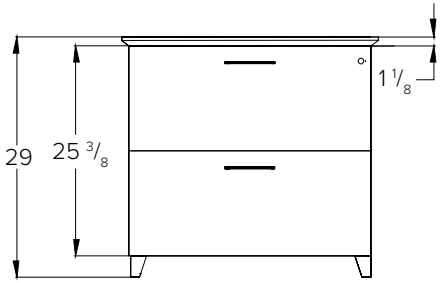

Typical Single Height Side Profile Wall Hung Overhead

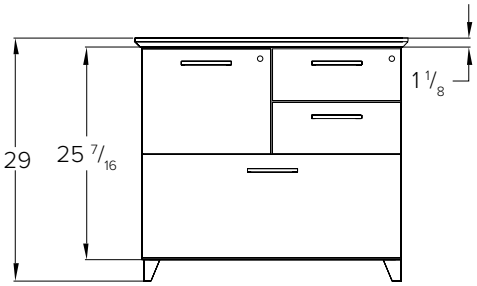

Pedestal Front Profile Box/Box/File

Pedestal Front Profile File/File

Pedestal Front Profile Lateral File

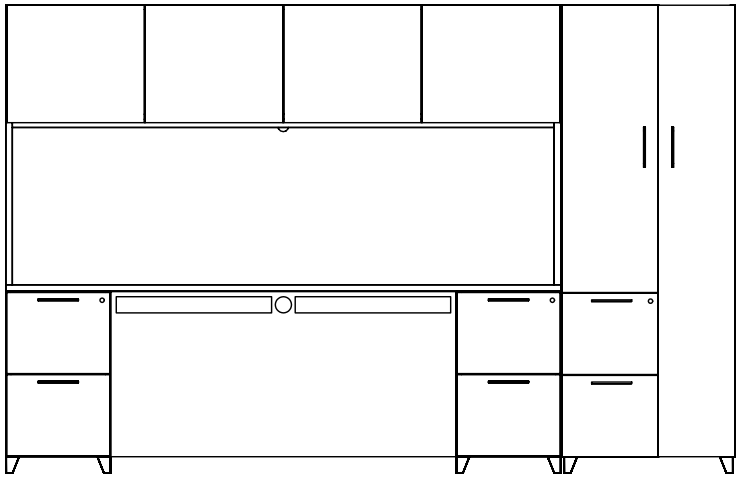

Pedestal Front Profile Multi-File

Credenzas, overheads, and towers

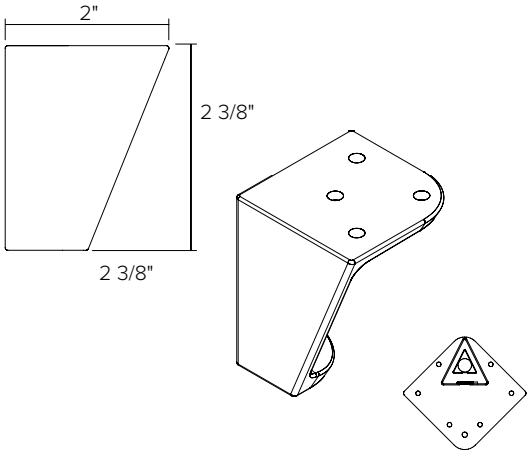

Towers and overheads are standard flat top for easy ganging. No modification needed.

Credenza must be specifed for flush cut ends when ganging to towers.

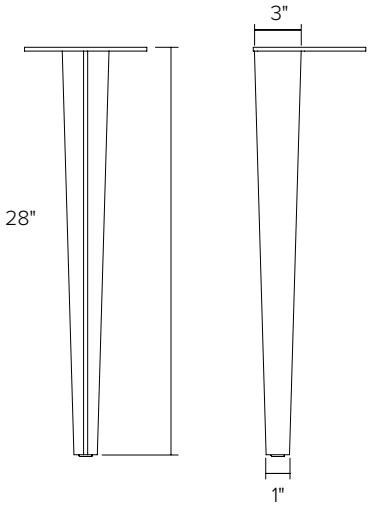

Credenza width matches overhead width when both credenza ends are flush cut.

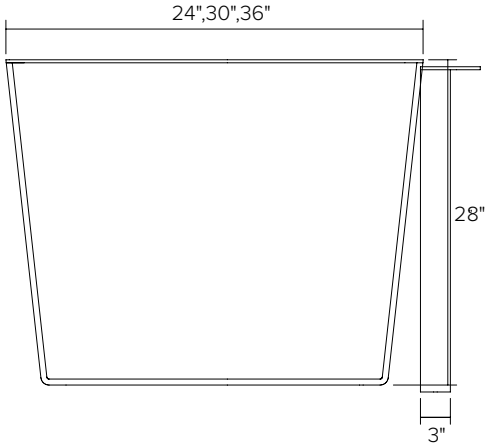

CABINET ANGULAR FOOT
Cast Angular Foot

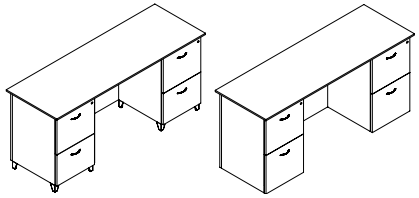

DESK ANGULAR POST

DESK ANGULAR SLEIGH BASE

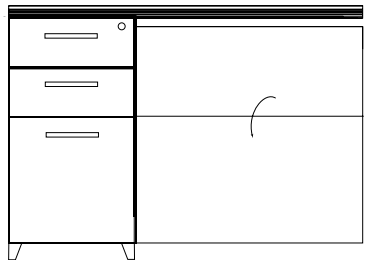

Option: Delete Feet/Extended Fronts

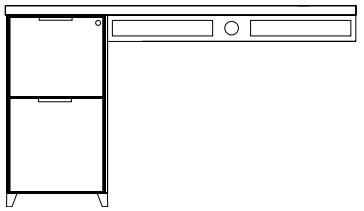

Standard metal feet can be deleted on any unit. Delete foot option extends chassis cabinets to floor. Drawer/Door fronts are extended to within 3/8" of full cabinet height when delete foot option is specified.

Delete Foot Chassis Modification Option:
D8. . .No Charge

- Full modesty back
- Full extension drawers - locking
- Soft close suspension drawer(s)
- Standard Silver Feet (optional premium finish colors available)

Notes

- If a grommet is located in top surface over open knee space, an outfeed hole will be provided in modesty panel
- Unit has black back panel and is not designed for Open Plan use. Select OPB Option for Open Plan application

Options

Accessories
- K28: Articulating Keyboard w/ Mouse - $390

Drawer
- P6: Modify File/File to Box/Box/File - $55 per pedestal
- P33: Wood Drawer Upgrade - $45 per drawer
- WPD3061: Designer White - $80 per pedestal

Feet
- D8: Delete feet (extend fronts to floor) - n/c

Flush Cut
- FC-B: Flush Unit Both Sides (Facing) for Ganging - $55
- FC-L: Flush Unit Left (Facing) for Ganging - $55
- FC-R: Flush Unit Right (Facing) for Ganging - $55

Grommets (Standard Location)

Specify Color - $50 ea.
- Black: TM30-C (Center)
- Silver: TM31-C (Center)

Grommets (Non-Standard Location)

Provide drawing w/ Grommet Location and Specify Color - $95 ea.
- Black: TM30-NS
- Silver: TM31-NS

Modesty
- M34T: Drop Door Tech Modesty - $130
- M34TM: "M" Style Drop Door Tech Modesty - $130
- M51: Open Back Modesty with Wire Mgmt Rail - Deduct $95

Open Plan _ Finished Back
- OPB: "W" "G" Style - Modify Unit for Open Plan Application - $295
- OPBM: "M" Style - Modify Unit for Open Plan Application - $95

Premium Finish Option
- Specify foot Metal Finish color - $30/Foot (8 feet total)
- See front of price book for premium metal finish options

Product Features

- Finished top
- 1 Adjustable shelf per section standard
- Interior cabinet depth 12.5"
- Interior shelf depth 12"
- Silverluma doors w/ frosted acrylic inserts
- 5/8" grommet(s) included for task light wire management

Notes

- Unit has black back panel and is not designed for Open Plan use. Select OPB Option for Open Plan application.

Options

Door

- D2: Door Lock - $100 per door set
- D6: Delete Doors - n/c
- D9SC: Soft Close Door Hinges - $35 per door

Grommets (Vertical Surface)

Standard Location - $50 ea.

- Black Plastic Vertical Surface: TM50-C (Bottom Center)

Non-Standard Location - $95 ea.

- Black Plastic Vertical Surface: TM50-NS

Interior Cabinet Lighting

LEDPK starter kit includes Infeed, 1 Puck Interior Light and the ability to daisy chain up to 6 total Puck Lights

- LED Puck Starter Kit - $310
- PK: 1 LED Interior Light - $130

Task Lighting

Overhead task light cord is located on the right facing side. If the opposite location is required please contact customer service.

- LT-LED24: 24" LED Task light - $215
- LT-LED48: 48" LED Task light - $270
- LT-LED60: 60" LED Task light - $335
- LT-LED72: 72" LED Task light - $360

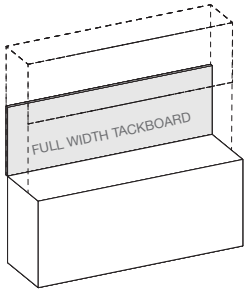

Open Plan _ Finished Back

- OPB: "W" "G" Style - Modify Unit for Open Plan Application - $295
- OPBM: "M" Style - Modify Unit for Open Plan Application - $95

Shelf

- GS14F: Replace Standard Shelves with Glass Shelves - $90 per shelf
- S714F: Heavy Duty Lumber 1" Shelves - $80 per shelf ("M" Styles - n/a)

Product Features

- 1 Adjustable shelf per section standard
- Black painted top
- Interior cabinet depth 12"
- Interior shelf depth 11.5"
- Mounting rails included
- Panel doors with concealed finger pull

Notes

- The DARRAN wall mounted cabinet (or shelf) must be hung on a weight-bearing wall. The suitability of the wall supporting the wall mounted cabinet, and the installation and maintenance of the wall-mounted cabinet, is the sole responsibility of the customer. Failure to correctly install and/or exceed the loaded weight capacity of this product may cause it to fall, resulting in damage to the product, adjacent property, and/or bodily injury.

Options

Door

- D2: Door Lock - $100 per door set
- D6: Delete Doors - n/c
- D9SC: Soft Close Door Hinges - $35 per door
- WPD3061: Designer White - $80 per door

Interior Cabinet Lighting

LEDPK starter kit includes Infeed, 1 Puck Interior Light and the ability to daisy chain up to 6 total Puck Lights

- LED Puck Starter Kit - $310
- PK: 1 LED Interior Light - $130

Task Lighting

Overhead task light cord is located on the right facing side. If the opposite location is required please contact customer service.

- LT-LED24: 24" LED Task light - $215
- LT-LED48: 48" LED Task light - $270
- LT-LED60: 60" LED Task light - $335
- LT-LED72: 72" LED Task light - $360

Shelf

- S714F: Heavy Duty Lumber 1" Shelves - $80 per shelf ("M" Styles - n/a)

Notes

- The DARRAN wall mounted cabinet (or shelf) must be hung on a weight-bearing wall. The suitability of the wall supporting the wall mounted cabinet, and the installation and maintenance of the wall-mounted cabinet, is the sole responsibility of the customer. Failure to correctly install and/or exceed the loaded weight capacity of this product may cause it to fall, resulting in damage to the product, adjacent property, and/or bodily injury.
- Max load per inch is 3lbs

- 10" x 8"W
- Non-slip Neoprene pad

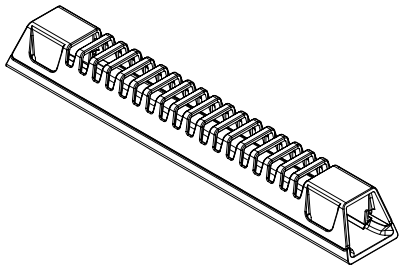

WIRE MANAGEMENT
horizontal j-channel wire management raceway

Style Number	List Price
W1	80 Per 4' section

Specifications

- 4' section for field installation.
- The "J" shape black thermoplastic wire raceway may be added to specified worksurface tops to provide concealed channeling of wires to and from worksurface grommets. For use in open kneespace areas, raceway is attachable to top of back panel with pan head screws. Interior dimensions are 1" x 1-1/2" providing ample storage for multiple wires and excess cable. Front of raceway flexes out for easy cord insertion.

Notes
- Units w/ Wire Channel Standard
- Field Installation

WIRE MANAGEMENT
horizontal wire management raceway

Style Number	List Price
W21	95

Specifications

- 10"W x 1.5"D x 1.25"H
- Grey Wire Manager (10.5")
- Power and data cables can be discretely housed and managed with the W21 Gray Wire Manager. This can be mounted in any location to metal frame or underside of conference tables and runs cables through a 1" channel from power module to hollow steel legs. This keeps cables organized under the table top. Release clips make it simple to snap on and off the Wire Manager for easy organization and access after attached to the table

Notes
- Field installed

WIRE MANAGEMENT
horizontal u-channel wire management raceway

Style Number	List Price
W2A	80 Per 4' section

Specifications

- 4' section for field installation.

Notes
- Units w/ Wire Channel Standard
- Field Installation

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric mustbe first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

NOTE: Prior to completion of this form, please refer to our Graded In Materials Program for pre-approved fabrics/leathers.

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing limitations

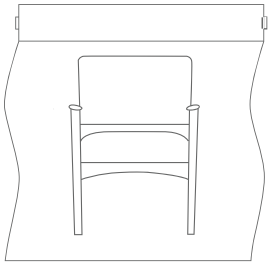

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

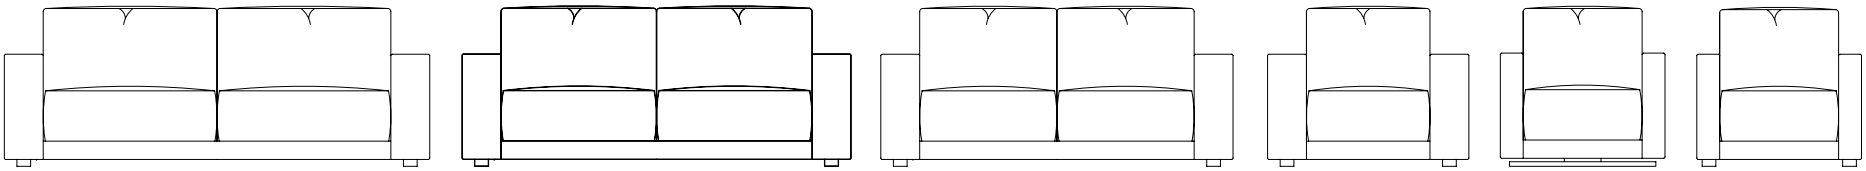

☐ RAILROAD

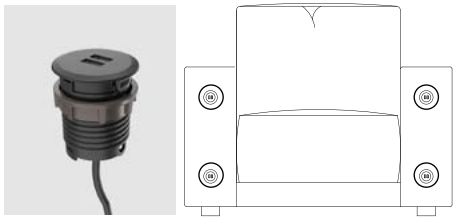

☐ SETUP

Complete domestic production

Complete domestic production from frame through upholstery, controlled by one manufacturing facility. Less stress / damage to chair parts normally caused by overseas transit, providing consistent, reliable quality standards as a quick response to shorter lead times.

Sink in and unwind in Palm Lounge seating. The oversized plush cushions allow you to melt into the seat for ultimate comfort, encouraging relaxation and easing the day's stresses. The full range of products consists of a swivel club chair, lounge chair, and two-seater sofas. Palm's understated design levitates, and its balanced symmetry allows you to be present and in the moment.

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

NOTE: Prior to completion of this form, please refer to our Graded In Materials Program for pre-approved fabrics/leathers.

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing limitations

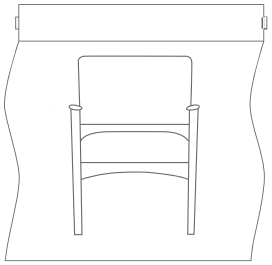

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

The benefits of FENIX® surface material:

- Soft to the touch
- Extremely matte
- Resists fingerprints
- Highly resistant to scratches, abrasion, acid-based solvents and household cleaners

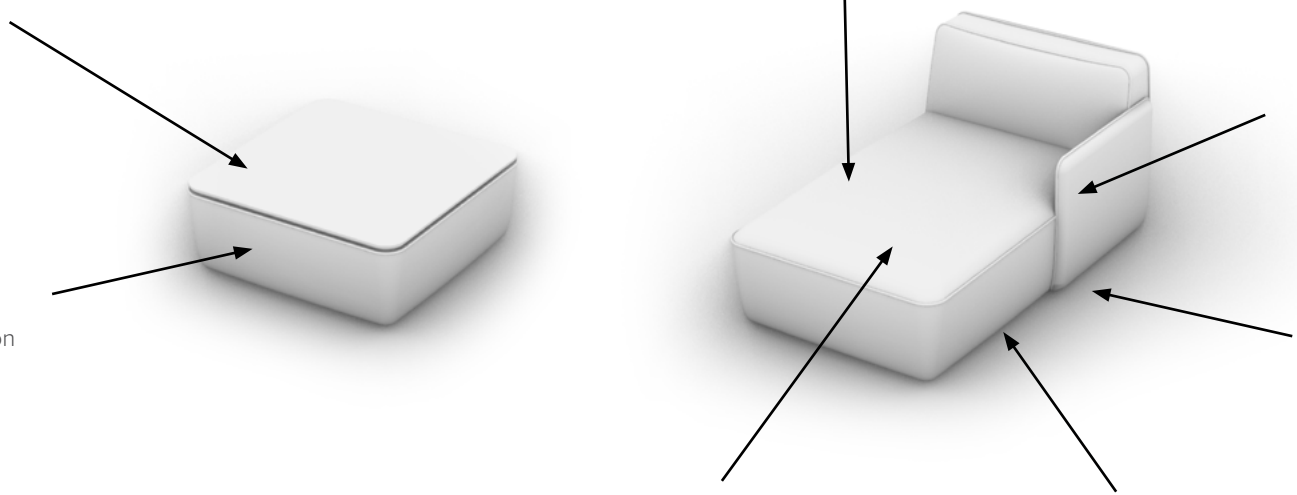

SO, WHAT IS FENIX® SURFACE MATERIAL?

FENIX® materials are made of paper (over 60%) and thermosetting resins (30 - 40%). The FENIX® products are created by a pressing process in which heat and pressure are applied simultaneously in order to obtain a homogeneous non-porous product. First introduced in 2013, FENIX® was developed after years of research and development by an international team of scientists and engineers. Thanks to proprietary technology, FENIX® is able to achieve its incredible surface properties by undergoing a series of processes, including a multilayer coating and use of next-gen acrylic resins, which are then hardened and fixed through an Electron Beam Curing process.

Plus Seating Specification

Seat cushions are fabricated from a combination of high density and low density high resilience polyurethane foam, to create a plush feel and superior level of quality and comfort, with a minimum of 2.0 density foam in the seat and back.

Table tops are 3/4” thick material available in Wood Veneer, Laminate, or Fenix Surfaces.

Frame constructed of CNC cut engineered hardwood plywood using mortise and tenon joinery with corner blocks to maximize strength and overall product life.

Table bases are constructed of CNC cut engineered hardwood plywood using mortise and tenon joinery with corner blocks to maximize strength and overall product life.

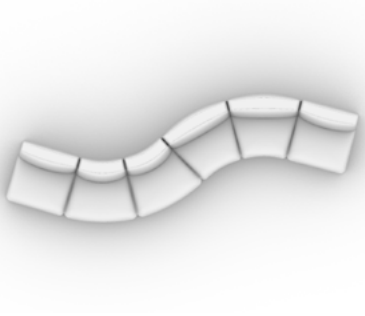

Actual dimensions may be ±½” from given dimensions depending on fabric selection. If dimensions are critical due to space constraints, contact Customer Service for space planning assistance.

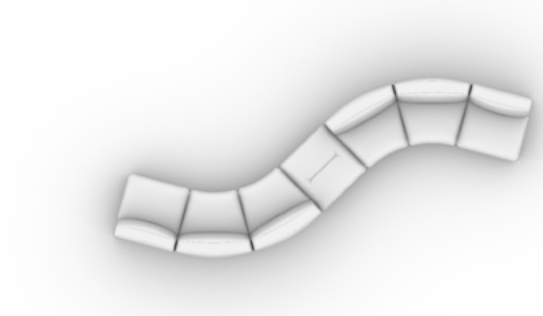

Seats are constructed using 8GA Steel Sinuous Arc springs, providing excellent comfort, quality, and longevity.

All units are equipped with non-slip feet to ensure secure placement and damage-free floors.

Variety of textiles and back options offer customers flexibility in design and consistency within each office setting.

SO, WHAT IS FENIX® SURFACE MATERIAL?

FENIX® materials are made of paper (over 60%) and thermosetting resins (30 - 40%). The FENIX® products are created by a pressing process in which heat and pressure are applied simultaneously in order to obtain a homogeneous non-porous product. First introduced in 2013, FENIX® was developed after years of research and development by an international team of scientists and engineers. Thanks to proprietary technology, FENIX® is able to achieve its incredible surface properties by undergoing a series of processes, including a multilayer coating and use of next-gen acrylic resins, which are then hardened and fixed through an Electron Beam Curing process.

TABLE EDGE PROFILE

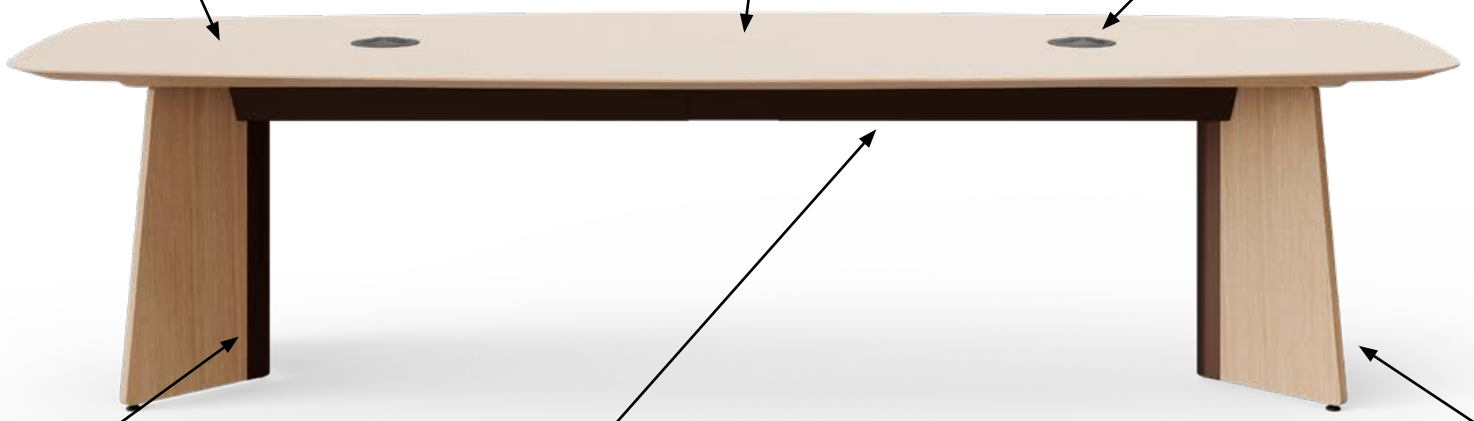

Infinity edge

Tops available in veneer, high pressure laminate, or Fenix soft touch laminate color with an infinity edge to give a soft and slim appearance

1-piece and 2-piece tops accommodate various table widths

Multiple power options available

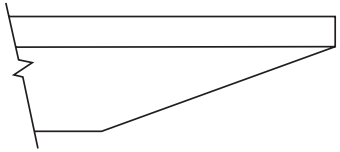

Integrated wire management shroud

Integrated wire management trough

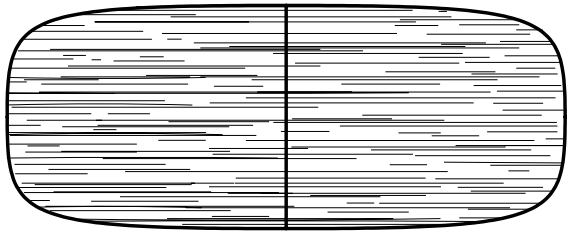

Precision molded and CNC cut pressed veneer bases

TABLE EDGE PROFILE

Infinity edge

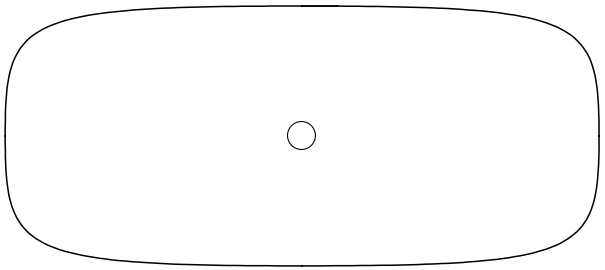

GRAIN

Veneer finishes are Book Matched on 1-piece tops and End Matched on 2-piece tops

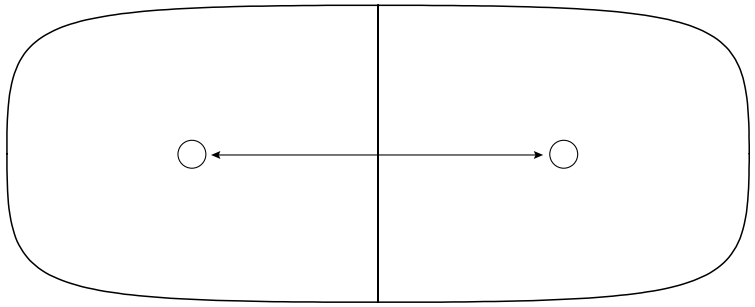

Grain on all Plus Conference tops runs the length of the table

One-piece table tops

Power located in center of table

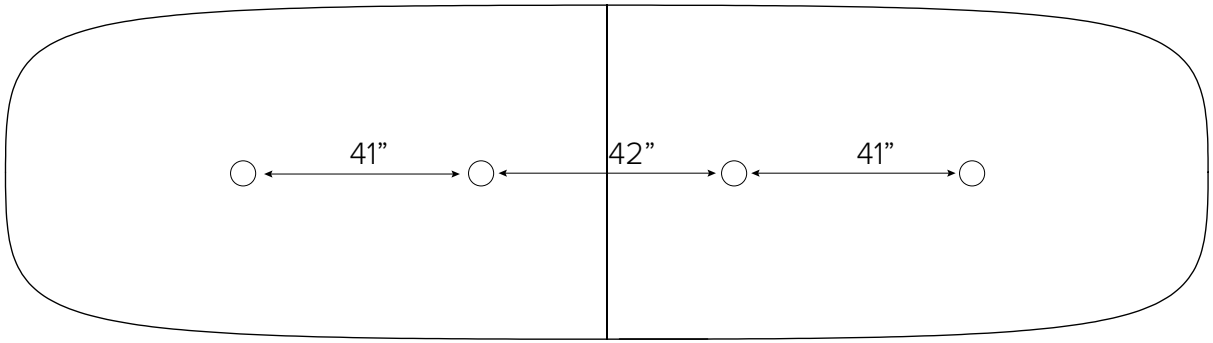

Two-piece table tops under 216”

One power port centered in each top section

Table width	Distance between power ports
120”	60”
144”	72”

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

NOTE: Prior to completion of this form, please refer to our Graded In Materials Program for pre-approved fabrics/leathers.

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing limitations

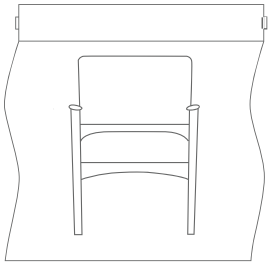

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

☐ RAILROAD

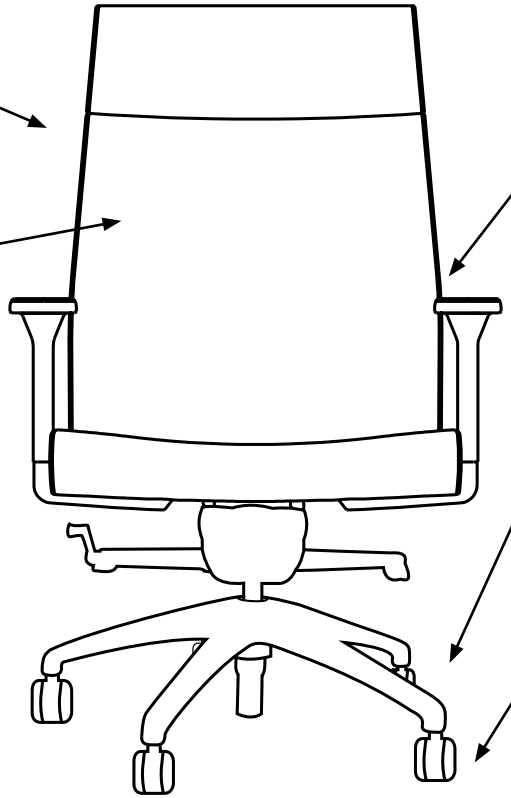

☐ SETUP

Overall Width = 25”
Overall Depth = 24-1/2”
Height = 38-1/2 - 41-1/4”
Seat Width = 22-1/2”
Seat Depth = 18-1/2”
Seat Height = 18-1/4" - 21-1/2”
Arm Height = 27-1/2" - 30-3/4"

Frame Construction: 9-ply hardwood molded plywood frame construction for superior strength and durability. Frames are precision cut on CNC routers to insure uniformity.

Cushioning: High density CAL117 polyurethane foams of varying compression are laminated together to provide long-term comfort.

Upholstered Arms: 2" wide upholstered panel arms, urethane coated loop arms, adjustable T arms, and armless versions provide options for multiple use applications.

Adjustable Urethane Arms: Black adjustable ergonomic arms are available with spring-loaded height adjustment and button activation. Arms are angled at 15 degrees with an adjustable arm pad for additional comfort and ergonomic support. Arms adjust 3-1/4" in height and 1-1/2" in width.

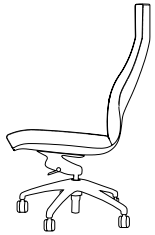

Bases: 26" diameter, available in Polished Aluminum (Standard), Black, or Wood.

Casters: 60mm diameter casters are standard and promote increased mobility.

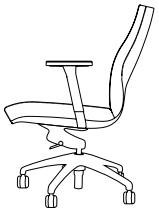

Carpet casters are standard. For hard floor surfaces specify CST20 - no upcharge.

Upholstered Arms
(Mid-Back or High-Back)

Armless

Adjustable Arms
(Mid-Back or High-Back)

Urethane Loop Arms
(Mid-Back or High-Back)

Posh's thin profile of subtle curves and signature channel back design provides an elegant executive seating solution for any office environment. Versatility in options and highback / midback chair designs allow customers to specify Posh for mid-management, upper executives, and conferencing applications. Posh is offered in armless, upholstered, adjustable, and black urethane arms.

Knee tilt swivel mechanisms

The Knee-tilt mechanism features an advanced forward pivot point that reduces leg tilt with a 16 degree seat angle and a 25 degree back angle tilt. The mechanism locks in task and recline positions with side tension adjustment. Height adjustment and tilt tensions are also provided.

Power Price List

Effective October 2023

Aircharge wireless charging grommet

Style Number	List Price
ACWG WIRELESS GROMMET	$213

Specifications

› When used with GROVE Tables an additional $350 LIST will apply for the special cutout requred.
› AirCharge offers a convenient way to charge any Qi campatible smartphone or device without the need to carry charging
cables or find an available power outlet.
› The Aircharge is powered by the latest Qi compliant IC offering reliable and efficient wireless charging in a convenient 3”
grommet hub. Simply place your phone on the Aircharge and an LED will confirm pairing and begin wireless charging.
› Recess: Efficient space conservation and quick access
› Input: DC 5V (with included AC power adapter), DC 9V, 1.67A (with optional QC 2.0 power adapter)
› Output: 5 watts Max. with DC 5V, 2A power adapter, 10 watts Max. with QC 2.0 power adapter
› Qi V1.2 compliant IC
› Charging distance: 6mm Max.

Available: All DARRAN collections

Cove power unit - non-linking

Style Number	List Price
	
PD-COVE PLUG	$600
Non-linking version	

Specifications

› Size 5.75”L x 2.5”W
› (2) 15 Amp Receptacles and (2) USB charging ports
› Surface Mount
› 108” Cord
› Standard Silver Finish, Available in White or Black Finish upon request
› ETL Listed

Available: All DARRAN collections

Cove power unit with daisylink

Style Number	List Price
STARTER UNITS	
COV-DCH HARDWIRED	$744
Includes (1) Cove unit with Hardwire Infeed - 120”	
COV-DCP PLUG	$872
Includes (1) Cove unit with Plug infeed - Includes 72” Cord and 32” Infeed Jumper for 104” total cord infeed	
ADDITIONAL LINKING UNITS	
COV-DCL	$627 EACH
Includes Linking Cove unit and Jumper up to 96”, cable length determined by the top size	

Specifications

› Size: 5.75”L x 2.5”W
› (2) 15 Amp Receptacles and (2) 2.1 Amp USB charging ports
› Surface Mount
› Max Daisy Chain - Hardwire - (9) units; Plug/Corded - (4) units
› Standard Silver Finish, Available in White or Black Finish upon request
› ETL Listed

Available: All DARRAN collections

Cove corded series

Style Number	List Price
PD-COVE-PKO	$872

Specifications

› Size 9.5”L x 2.5”W x 3.18”D
› When used with GROVE Tables an additional $350 LIST will apply for the special cutout requred.
› (2) Power Receptacles, (2) 2.1 Amp USB charging ports and (1) Telecom Plate Knockout
› Surface Mount
› 108” Cord
› Standard Silver Finish, Available in White or Black Finish upon request
› ETL Listed

Available: All DARRAN collections

Veneer
DARRAN only uses HPVA AA Grade Flat Cut Cherry and Walnut Veneers. All veneers are selected and matched for balance and consistency.

Veneer Tops
Prado veneer tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1-1/8" thick on MDF core comprised of 100% recycled and recovered wood fibers. All veneer tops are slipmatched and feature a 2mm external solid hardwood band or profile edge.

Laminate Tops
Prado high-pressure laminate tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1-1/8” thick on MDF core comprised of 100% recycled and recovered wood fibers. All high pressure laminate tops are available with a profile edge or 2mm PVC edge band. Laminates in wood grain patterns feature a fine grain texture that features the polish and luxe of a real wood veneer with a subtle narrow grain structure.

Cleaning wood & laminate
In addition to regular dusting, give your furniture an occasional cleaning in accordance with our cleaning instructions. DARRAN wood and laminate products can be cleaned with a soft cloth and a mild soap and water mixture. Use approximately 32 oz of water mixed with one tablespoon of dish soap, always wiping with the grain. Dry with a soft cloth, going with the grain, to avoid spotting or streaking.

Wood products should be waxed periodically using a non-wax liquid; please do not use any waxy polish or cleaner. Interior of drawers may also be cleaned with mild soap and water mixture, or any household cleaner that is not petroleum or thinner-based.

Chassis & pedestal
Chassis components are ¾” thick core of particle board or MDF rated EPP/SCS/CARB-II material with 3-ply balanced construction. Pedestal and Cabinets feature dowel construction reinforced with steel bracket plates, wood cleats, screws, and glue. All units are standard with 1” adjustable glides that allow for leveling of units that are secured in solid wood glide blocks to prevent tear out.

Overhead cabinet construction Freestanding & wall mount
Freestanding Overhead storage cabinets are constructed of 1” and 3/4" thick core of particle board or MDF rated EPP/SCS/CARB-II material with 3-ply balanced construction. Panels are attached with cam fasteners in conjunction with dowels securely adhered with glue. All surface mount cabinets connect to work surface with anti-slip tape. Wall mount cabinets are mounted to the wall with steel “z” bracket attachment method using 5mm euro screws to attach to the back of the cabinet. All units ship with a steel “z” bracket. This bracket is mounted to the wall by field installers. Installers are responsible for selecting and supplying appropriate fasteners for wall conditions.

Bookcase construction
All chassis (sides, back, top and bottom panels) are constructed with 3/4" thick core of particle board or MDF rated EPP/SCS/CARB-II material with 3-ply balanced construction. Panels are attached with cam-lock fasteners in conjunction with dowels securely adhered with glue. Shelves on all units are 3/4" thick balance 3 ply panels. Optional heavy duty shelves are 1” thick lumber core balanced 5 ply construction.

Tackboards
Wall mount tackboards are constructed of .75” thick fiberboard. The fabric is precisely aligned and fitted to the tackboard with a sock on cover. Overhead storage tackboards are constructed of .75” thick fiberboard. The fabric is precisely aligned and fitted to the tackboard and adhered to the rigid hardboard with staples. Wall mount cabinets are mounted to the wall with steel “z” bracket attachment method using 5mm euro screws to attach to the back of the cabinet. All units ship with a steel “z” bracket. This bracket is mounted to the wall by field installers. Installers are responsible for selecting and supplying appropriate fasteners for wall conditions.

Adjustable glides
Glides provide 1" of vertical leveling adjustment. Glide bottom is durable metal. Glides are secured in solid wood blocks that are screwed and glued for durability.

Drawers
All drawers are constructed of four sides and a bottom, which are attached to a drawer front with screws for easy removal. Drawer fronts are vertically matched in balanced sets. Pencil trays are standard in all box drawers. Drawers are constructed of maple veneer 1/2” thick material for drawer sides, fronts and backs with a UV finish for maximum durability. Drawer bottoms are 3/16” thick 3-ply maple veneer. Drawer boxes are assembled at each corner with dowel joinery for maximum drawer strength. Lifetime free replacement warranty.

Drawer Fronts
Drawer fronts are vertically matched in balanced sets. Doors feature vertical veneer bookmatched horizontally in sets of 2, 4, and 6 doors. All tower fronts matched in vertical sets.

Standard Wood Drawers
Optional hardwood veneer plywood drawers feature banded top and bottom edges for smoothness. Drawers are dowel joint construction with a UV cured finish over maple veneers, plus a lifetime free replacement guarantee.

Suspensions

All casegoods utilize cold rolled steel zinc plated high-grade drawer suspensions. Box and File drawers are full extension, featuring steel ball bearings for a smoother quieter range of motion with soft close operation and are rated at 100lbs. Lateral file drawers are a progressive action full extension suspension with the soft close operation and are rated at 150lbs. Lateral files include anti-tip mechanism that will allow only one drawer at a time to be opened. All suspensions are soft close and are warranted for the lifetime of the product.

Hinges

Units with doors include 95 degree swing hinges.

Filing

Prado features metal file frames around the perimeter of the drawers with cross bars secured to the drawer sides to support hanging files. A metal adjustable cross bar is standard with all file drawers to support letter/legal filing front to back or side to side. File drawers have one adjustable cross bar and lateral files have two adjustable cross bars. See filing reference for details.

Locks

Locks are Standard on all drawers below the worksurface. Random lock cores are installed at the factory. Some units may be shipped with the same key number. Locks are Silver, Black or Bronze and match pull finish unless otherwise specified.

DARRAN will also send lock cores separately to the dealer at your request. These units will be send with an empty lock core and the Dealer will receive a shipment of the requested lock core/keys.

Keying

Keying is available either factory or field installed. Factory installed keying is random.

Wire management

Wire management capabilities include standard and optional worksurface grommets. Specify W-1 under surface wire channels for organization and management of all communication wires and cords. Horizontal J-Channel wire management (Sku: W-1) is sold separately to conceal wire under worksurfaces.

Grommets

Metal grommets are provided to match the drawer pull selection. Grommet is available in black, silver, white or antique brass. Specify standard or non-standard location. Black plastic grommets are available as an option for vertical applications.

Powerports

A large selection of power pods are available and handle power, data, docking stations and communication. See options section for selection.

LED tasklights

LED task lighting provides high efficiency, low energy lighting with a long life. Surface mounted light is encased in silver aluminum channel with milk lense and rounded end caps. Lights are field installed.

Product specifications listed below:

- Diffuser creates a softer light and eliminates hot spots
- Touch dimmer switch
- Can be “daisy chained” up to 90W
- 4.6 watts per foot
- 120 LEDs per meter
- Certification: UL Listed
- 50,000 hour life span.

Color Temp is 4000K

Ganging – Flush Cut Modification

30”H Casegood Worksurface & Base Ganging Modifications

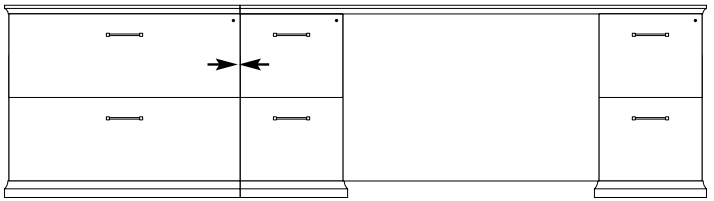

To gang two casegood units, each unit end to be ganged must be flush cut modified for gapless surfaces and cabinet chassis.

Order Option:
- FC-B: Flush Unit Both Sides (Facing) for Ganging - $100
- FC-L: Flush Unit Left (Facing) for Ganging - $100
- FC-R: Flush Unit Right (Facing) for Ganging - $100

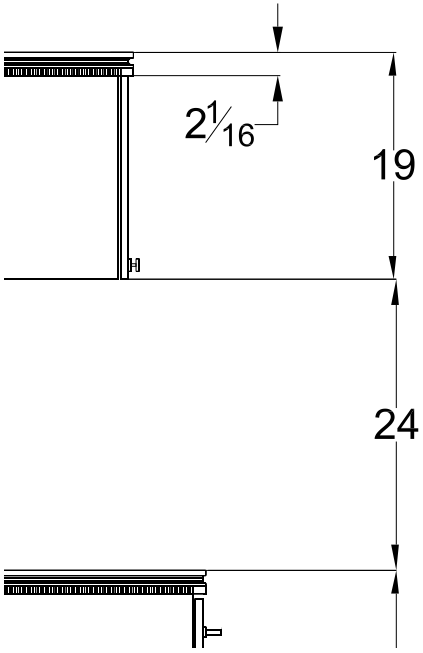

Flush cut modification per unit includes all modifications to gang to one end or both ends when units are ganged. Modification includes tops, base and molding.

Modification reduces width size approximately 1” per end.

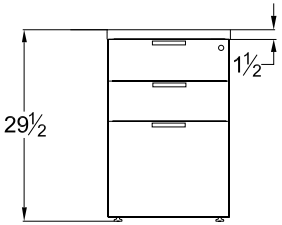

Overhead consoles and towers are offered freestanding and ganging – inclusive of flush cut modifications.
Example:
PRA3024CA104W Two Drawer Lateral File (Left) Flush Cut Right – FC-R...$100
PRA7124CA054W Kneespace Credenza (Right) Flush Cut Left – FC-L...$100

DK-125 Antique Pewter
DK-126 Antique English
DK-127 Matte Black

Product Features

- 2" Top cornice frame with dentil moldings on 3 sides
- Interior cabinet depth 12"
- Prices include ganging mitre fit as specified
- Wall mount rail included

Notes

- The DARRAN wall mounted cabinet (or shelf) must be hung on a weight-bearing wall. The suitability of the wall supporting the wall mounted cabinet, and the installation and maintenance of the wall-mounted cabinet, is the sole responsibility of the customer. Failure to correctly install and/or exceed the loaded weight capacity of this product may cause it to fall, resulting in damage to the product, adjacent property, and/or bodily injury.
- Can only gang with other wall cabinets. Cannot gang with overheads or towers.

Options

Door

- D2: Door lock - $100 per door set
- D6: Delete door - n/c

- Non-slip Neoprene pad

WIRE MANAGEMENT
horizontal j-channel wire management raceway

Style Number	List Price
W1	80 Per 4' section

Specifications

- 4' section for field installation.
- The "J" shape black thermoplastic wire raceway may be added to specified worksurface tops to provide concealed channeling of wires to and from worksurface grommets. For use in open kneespace areas, raceway is attachable to top of back panel with pan head screws. Interior dimensions are 1" x 1-1/2" providing ample storage for multiple wires and excess cable. Front of raceway flexes out for easy cord insertion.

Notes
- Units w/ Wire Channel Standard.
- Field Installation

WIRE MANAGEMENT
horizontal wire management raceway

Style Number	List Price
W21	95

Specifications

- 10"W x 1.5"D x 1.25"H
- Grey Wire Manager (10.5")
- Power and data cables can be discretely housed and managed with the W21 Gray Wire Manager. This can be mounted in any location to metal frame or underside of conference tables and runs cables through a 1" channel from power module to hollow steel legs. This keeps cables organized under the table top. Release clips make it simple to snap on and off the Wire Manager for easy organization and access after attached to the table

Notes
- Field installed

WIRE MANAGEMENT
horizontal u-channel wire management raceway

Style Number	List Price
W2A	80 Per 4' section

Specifications

- 4' section for field installation.

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

DARRAN

Quinn Fabric & Leather Program

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing limitations

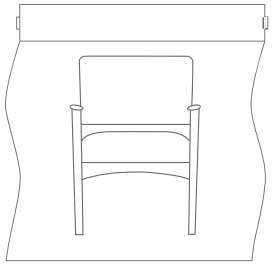

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

Veneer
DARRAN only uses HPVA AA Grade Flat Cut Cherry and Walnut Veneers. All veneers are selected and matched for balance and consistency.

Veneer tops
Richmond Park veneer tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1-1/8” thick on MDF core comprised of 100% recycled and recovered wood fibers. All veneer tops are slipmatched and feature a 2mm external solid hardwood band or profile edge.

Laminate tops
Richmond Park high-pressure laminate tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1-1/8” thick on MDF core comprised of 100% recycled and recovered wood fibers. All high pressure laminate tops are available with a profile edge or 2mm PVC edge band. Laminates in wood grain patterns feature a fine grain texture that features the polish and luxe of a real wood veneer with a subtle narrow grain structure.

Cleaning wood & laminate
In addition to regular dusting, give your furniture an occasional cleaning in accordance with our cleaning instructions. DARRAN wood and laminate products can be cleaned with a soft cloth and a mild soap and water mixture. Use approximately 32 oz of water mixed with one tablespoon of dish soap, always wiping with the grain. Dry with a soft cloth, going with the grain, to avoid spotting or streaking.

Wood products should be waxed periodically using a non-wax liquid; please do not use any waxy polish or cleaner. Interior of drawers may also be cleaned with mild soap and water mixture, or any household cleaner that is not petroleum or thinner-based.

Chassis & pedestal
Chassis components are ¾” thick core of particle board or MDF rated EPP/SCS/CARB-II material with 3-ply balanced construction. Pedestals and Cabinets feature dowel construction reinforced with steel bracket plates, wood cleats, screws, and glue. All units are standard with 1” adjustable glides that allow for leveling of units that are secured in solid wood glide blocks to prevent tearout.

Overhead cabinet construction Freestanding & wall mount
Freestanding Overhead storage cabinets are constructed of 1” and 3/4" thick core of particle board or MDF rated EPP/SCS/CARB-II material with 3-ply balanced construction. Panels are attached with cam fasteners in conjunction with dowels securely adhered with glue. All surface mount cabinets connect to work surface with anti-slip tape. Wall mount cabinets are mounted to the wall with steel “z” bracket attachment method using 5mm euro screws to attach to the back of the cabinet. All units ship with a steel “z” bracket. This bracket is mounted to the wall by field installers. Installers are responsible for selecting and supplying appropriate fasteners for wall conditions.

Bookcase Construction
All chassis (sides, back, top, and bottom panels) are constructed with 3/4" thick core of prticle board or MDF rated EPP/SCS/CARB-II material with 3-ply balanced construction. Panels are attached with cam-lock fasteners in conjunction with dowels securely adhered with glue. Shelves on all units are 3/4" thick balance 3 ply panels. Optional heavy-duty shelves are 1” thick lumber core balanced 5 ply construction.

Tackboards
Wall mount tackboards are constructed of .75” thick fiberboard. The fabric is precisely aligned and fitted to the tackboard with a sock on cover. Overhead storage tackboards are constructed of .75” thick fiberboard. The fabric is precisely aligned and fitted to the tackboard and adhered to the rigid hardboard with staples. Wall mount cabinets are mounted to the wall with steel “z” bracket attachment method using 5mm euro screws to attach to the back of the cabinet. All units ship with a steel “z” bracket. This bracket is mounted to the wall by field installers. Installers are responsible for selecting and supplying appropriate fasteners for wall conditions.

Adjustable glides
Glides provide 1" of vertical leveling adjustment. Glide bottom is durable metal. Glides are secured in solid wood blocks that are screwed and glued for durability.

Drawers
All drawers are constructed with mitre joint/dowel construction in a natural maple finish with four sides and a bottom, which are attached to a drawer front with screws for easy removal. Drawer fronts are vertically matched in balanced sets. Pencil trays are standard in all box drawers. Drawers are constructed of 1/2” thick wood grained wrapped 5 sided miter-folded construction with 1/4” thick hardboard bottoms reinforced for heavy weight capacity. Drawers have been tested and pass BIFMA 50,000 cycle test. All drawers are guaranteed lifetime with free replacement warranty.

Drawer fronts
Drawer fronts are vertically matched in balanced sets. Doors feature vertical veneer bookmatched horizontally in sets of 2, 4, and 6 doors. All tower fronts matched in vertical sets.

Optional wood drawers
Optional hardwood veneer plywood drawers feature banded top and bottom edges for smoothness. Drawers are dowel joint construction with a UV cured finish over maple veneers, plus a lifetime free replacement guarantee.
Optional Wood Drawer (Any Size) – Option Code P33...$45 List Price Per Drawer

Suspensions

All casegoods utilize cold rolled steel zinc plated high-grade drawer suspensions. Box and File drawers are full extension, featuring steel ball bearings for a smoother quieter range of motion with soft close operation and are rated at 100lbs. Lateral file drawers are a progressive action full extension suspension with the soft close operation and is rated at 150lbs. Lateral files include anti-tip mechanism that will allow only one drawer at a time to be opened. All suspensions are soft close and are warranted for the lifetime of the product.

Hinges

Units with doors include 95 degree swing hinges.

Filing

Richmond Park features a highly durable black plastic extrusion that is securely fastened into a route on top of the drawer to support hanging files. An adjustable crossbar is provided for all file drawers that enables legal/letter filing front to back or side-to-side based on the drawer size.

Locks

Locks are standard on all drawers below the worksurface. Random lock cores are installed at the factory. Some units may be shipped with the same key number. Locks are Silver, Black or Bronze and match pull finish unless otherwise specified.

DARRAN will also send lock cores separately to the dealer at your request. These units will be sent with an empty lock core and the Dealer will receive a shipment of the requested lock core/keys.

Keying

Keying is available either factory or field installed. Factory installed keying is random.

Wire management

Wire management capabilities include standard and optional worksurface grommets. Specify W-1 under surface wire channels for organization and management of all communication wires and cords. Horizontal J-Channel wire management (Sku: W-1) is sold separately to conceal wire under worksurfaces.

Grommets

Metal grommets are provided to match the drawer pull selection. Grommet is available in black, silver, white or antique brass. Must specify standard or non-standard location. Black plastic grommets are available as an option for vertical applications.

Powerports

A large selection of power pods are available and handle power, data, docking stations and communication. See options section for selection.

LED tasklights

LED task lighting provides high efficiency, low energy lighting with a long life. Surface mounted light is encased in silver aluminum channel with milk lense and rounded end caps. Lights are field installed. Product specifications listed below:

- Diffuser creates a softer light and eliminates hot spots
- Touch dimmer switch
- Can be “daisy chained” up to 90W
- 4.6 watts per foot
- 120 LEDs per meter
- Certification: UL Listed
- 50,000 hour life span.

Color Temp is 4000K

Ganging – Flush Cut Modification

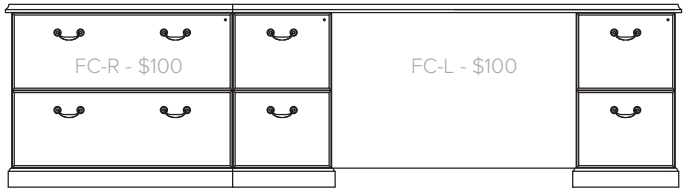

30”H Casegood Worksurface & Base Ganging Modifications

To gang two casegood units, each unit end to be ganged must be flush cut modified for gapless surfaces and cabinet chassis.

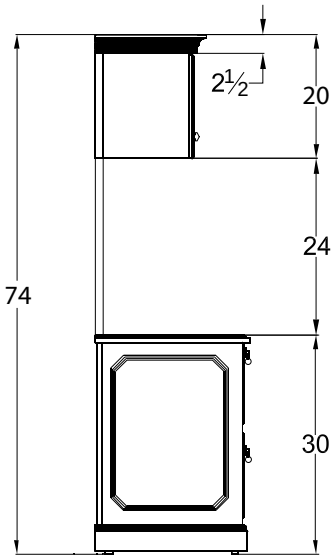

Order Option:
- FC-B: Flush Unit Both Sides(Facing) for Ganging - $100
- FC-L: Flush Unit Left (Facing) for Ganging - $100
- FC-R: Flush Unit Right (Facing) for Ganging - $100

Flush cut modification per unit includes all modifications to gang to one end or both ends when units are ganged. Modification includes tops, base, and molding. Modification reduces width size approximately 1” per end.

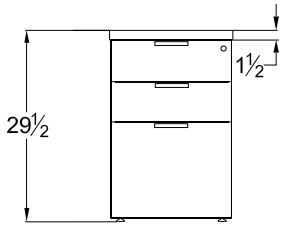

Overhead consoles and towers are offered freestanding and ganging – inclusive of flush cut modifications.
Example:
RPC3121100W Two Drawer Lateral File (Left) Flush Cut Right – FC-R...$100
RPC7221054 Kneespace Credenza (Right) Flush Cut Left – FC-L...$100

DK-114 Brushed Pewter

DK-4 Antique Brass

Product Features

- 2.5" Cornice top
- Door fronts w/ profile edges
- Interior cabinet depth 12"
- Mounting wall rail included
- Top profile shaped 3 sides

Notes

- The DARRAN wall mounted cabinet(or shelf) must be hung on a weight-bearing wall. The suitability of the wall supporting the wall mounted cabinet, and the installation and maintenance of the wall-mounted cabinet, is the sole responsibility of the customer. Failure to correctly install and/or exceed the loaded weight capacity of this product may cause it to fall, resulting in damage to the product, adjacent property and/or bodily injury.

WIRE MANAGEMENT
horizontal j-channel wire management raceway

Style Number	List Price
W1	75 Per 4' section

Specifications
- 4' section for field installation.
- The "J" shape black thermoplastic wire raceway may be added to specified worksurface tops to provide concealed channeling of wires to and from worksurface grommets. For use in open kneespace areas, raceway is attachable to top of back panel with pan head screws. Interior dimensions are 1" x 1- 1/2" providing ample storage for multiple wires and excess cable. Front of raceway flexes out for easy cord insertion.

Notes
- Units w/ Wire Channel Standard.
- Field Installation

Specifications
- 10"W x 1.5"D x 1.25"H
- Grey Wire Manager (10.5")
- Power and data cables can be discretely housed and managed with the W21 Gray Wire Manager. This can be mounted in any location to metal frame or underside of conference tables and runs cables through a 1" channel from power module to hollow steel legs. This keeps cables organized under the table top. Release clips make it simple to snap on and off the Wire Manager for easy organization and access after attached to the table

Notes
- Field installed

Veneer tops

Veneer tops and high-pressure laminate tops feature a 45-pound density substrate with balanced 3-ply construction. Primary surface tops are 1-5/16” thick, bench credenzas, towers and overhead tops are ¾” thick. Rift collection features double cut reconstituted walnut and oak veneer. Veneer tops feature a 2mm external solid hardwood band; HPL tops feature a 2mm flat PVC band. Some collections feature double cut reconstituted walnut and oak veneers.

Cleaning wood & laminate

In addition to regular dusting, give your furniture an occasional cleaning in accordance with our cleaning instructions. DARRAN wood and laminate products can be cleaned with a soft cloth and a mild soap and water mixture. Use approximately 32 oz of water mixed with one tablespoon of dish soap, always wiping with the grain. Dry with a soft cloth, going with the grain, to avoid spotting or streaking.

Wood products should be waxed periodically using a non-wax liquid; please do not use any waxy polish or cleaner. Interior of drawers may also be cleaned with mild soap and water mixture, or any household cleaner that is not petroleum or thinner-based.

Chassis & pedestal

All pedestals and chassis are constructed with 3/4” thick balanced 3-ply panels. Panels are securely fastened together using rails that are bored and doweled, glued, metal reinforcement brackets and wood cleat construction. Thick end panels are pre-bored to accept a tee nut for the adjustable glide and are reinforced with pvc banding to prevent glide tear out. Glue blocks are used where 3/4” thick panels are joined, bored for tee nut to accept adjustable glide.

Overhead cabinet construction Freestanding & wall mount

Freestanding Overhead storage cabinets are constructed of 1” and 3/4" thick core of particle board or MDF rated EPP/SCS/CARB-II material with 3-ply balanced construction. Panels are attached with cam fasteners in conjunction with dowels securely adhered with glue. All surface mount cabinets connect to work surface with anti-slip tape. Wall mount cabinets are mounted to the wall with steel “z” bracket attachment method using 5mm euro screws to attach to the back of the cabinet. All units ship with a steel “z” bracket. This bracket is mounted to the wall by field installers. Installers are responsible for selecting and supplying appropriate fasteners for wall conditions.

Bookcase Construction

All chassis (sides, back, top and bottom panels) are constructed with 3/4" thick core of particle board or MDF rated EPP/SCS/CARB-II material with 3-ply balanced construction. Panels are attached with cam-lock fasteners in conjunction with dowels securely adhered with glue. Shelves on all units are 3/4" thick balance 3 ply panels. Optional heavy duty shelves are 1” thick lumber core balanced 5 ply construction.

Tackboards

Wall mount tackboards are constructed of .75” thick fiberboard. The fabric is precisely aligned and fitted to the tackboard with a sock on cover. Overhead storage tackboards are constructed of .75” thick fiberboard. The fabric is precisely aligned and fitted to the tackboard and adhered to the rigid hardboard with staples. Wall mount cabinets are mounted to the wall with steel “z” bracket attachment method using 5mm euro screws to attach to the back of the cabinet. All units ship with a steel “z” bracket. This bracket is mounted to the wall by field installers. Installers are responsible for selecting and supplying appropriate fasteners for wall conditions.

Adjustable glides

Glides provide 1" of vertical leveling adjustment. Glide bottom is durable metal. Glides are secured in solid wood blocks that are screwed and glued for durability.

Drawers

All drawers are constructed of four sides and a bottom, which are attached to a drawer front with screws for easy removal. Drawer fronts are vertically matched in balanced sets. Pencil trays are standard in all box drawers. Drawers are constructed of maple veneer 1/2” thick material for drawer sides, fronts and backs with a UV finish for maximum durability. Drawer bottoms are 3/16” thick 3-ply maple veneer. Drawer boxes are assembled at each corner with dowel joinery for maximum drawer strength. Lifetime free replacement warranty.

Drawer fronts

Drawer fronts are vertically matched in balanced sets. Doors feature vertical veneer bookmatched horizontally in sets of 2, 4, and 6 doors. All drawers and doors have traditional scallop profile edge shape. All tower fronts matched in vertical sets.

Standard wood drawers

Optional hardwood veneer plywood drawers feature banded top and bottom edges for smoothness. Drawers are dowel joint construction with a UV cured finish over maple veneers, plus a lifetime free replacement guarantee.

Suspensions

All casegoods utilize cold rolled steel zinc plated high-grade drawer suspensions. Box and File drawers are full extension, featuring steel ball bearings for a smoother, quieter range of motion with soft close operation and are rated at 100 lbs. Lateral file drawers are a progressive action full extension suspension with the soft close operation and are rated at 150 lbs. Lateral files include anti-tip mechanism that will allow only one drawer at a time to be opened. All suspensions are soft close and are warranted for the lifetime of the product.

Hinges

Units with doors include 95 degree swing hinges.

Filing
Rift features metal file frames around the perimeter of the drawers with cross bars secured to the drawer sides to support hanging files. A metal adjustable cross bar is standard with all file drawers to support letter/legal filing front to back or side to side. File drawers have one adjustable cross bar and lateral files have two adjustable cross bars. See filing reference for details.

Locks
Locks are standard on all drawers below the worksurface. Random lock cores are installed at the factory. Some units may be shipped with the same key number. Locks are Silver, Black or Bronze and match pull finish unless otherwise specified.

DARRAN will also send lock cores separately to the dealer at your request. These units will be send with an empty lock core and the Dealer will receive a shipment of the requested lock core/keys.

Keying
Keying is available either factory or field installed. Factory installed keying is random.

Wire management
Wire management capabilities include standard and optional worksurface grommets. Specify W-1 under surface wire channels for organization and management of all communication wires and cords. Horizontal J-Channel wire management (Sku: W-1) is sold separately to conceal wire under worksurfaces.

Grommets
Metal grommets are provided to match the drawer pull selection. Grommets are available in black, silver or white. Must specify standard or non-standard location. Black plastic grommets are available as an option for vertical applications.

Powerports
A large selection of power pods are available and handle power, data, docking stations, and communication. See options section for selection.

LED tasklights
LED task lighting provides high efficiency, low energy lighting with a long life. Surface mounted light is encased in silver aluminum channel with milk lense and rounded end caps. Lights are field installed. Product specifications listed below:

- Diffuser creates a softer light and eliminates hot spots
- Touch dimmer switch
- Can be “daisy chained” up to 90W
- 4.6 watts per foot
- 120 LEDs per meter
- Certification: UL Listed
- 50,000 hour life span.

Product Features

- Finished top
- Interior cabinet depth 12"
- Touch latch

Notes

- The DARRAN wall mounted cabinet (or shelf) must be hung on a weight-bearing wall. The suitability of the wall supporting the wall mounted cabinet, and the installation and maintenance of the wall-mounted cabinet, is the sole responsibility of the customer. Failure to correctly install and/or exceed the loaded weight capacity of this product may cause it to fall, resulting in damage to the product, adjacent property, and/or bodily injury.

Options

Door

- D2: Wood Door Lock - $100 per door set
- D2-G: Door Lock for Glass Doors - $205 per door set (only when RF375AW is ordered)

Standard Features
- Veneer edges
- Vertical grain direction
- Vertical wire channels on back for task light cords
- Steel mounting wall channel is recessed for flush mounting
- Hung with included Z-Strip mounting system

Notes
- Can be used with or without overhead cabinet
- Required for other accessory panels
- Wall boards selected in veneer are not standard from the same flitch so grain pattern will vary. Light finishes may have some color variation.
- If matching panels are required, contact Customer Service for quote

Wall hung veneer panel
Half width veneer panels

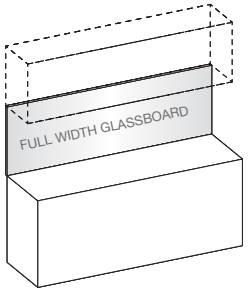

Product Width	Panel Dimension	SKU	List
96 Half Width	48 x .75 x 26	VPWH4826	572
90 Half Width	45 x .75 x 26	VPWH4526	537
84 Half Width	42 x .75 x 26	VPWH4226	501
72 Half Width	36 x .75 x 26	VPWH3626	429
66 Half Width	33 x .75 x 26	VPWH3326	393
60 Half Width	30 x .75 x 26	VPWH3026	359

Standard Features
- Veneer edges
- Vertical grain direction
- Vertical wire channels on back for task light cords
- Steel mounting wall channel is recessed for flush mounting
- Hung with included Z-Strip mounting system

Notes
- Half width veneer panels can be specified and combined with a tackboard, marker board, or glassboard. See "Half Width" items under product width.
- Specify right or left facing veneer panel
- Can be used with or without overhead cabinet
- Required for other accessory panels
- Wall boards selected in veneer are not standard from the same flitch so grain pattern will vary. Light finishes may have some color variation.
- If matching panels are required, contact Customer Service for quote

- 12"W x 10"D

TOOL CHANNEL ACCESSORIES
pencil pen holder

Style Number	List Price
ATB38	115

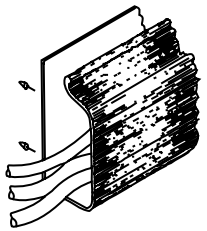

Specifications
- For Console/Wall Hung Back Panels With Optional Tool Bar
- 18 Gauge Steel - Stamp Formed
- Silver Powerdercoat Finish
- 5"H x 4"W x 4"D

TOOL CHANNEL ACCESSORIES
small shelf

Style Number	List Price
ATB36	110

Specifications
- 12"W x 6-3/4"D

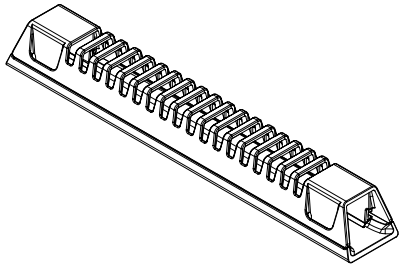

WIRE MANAGEMENT
horizontal j-channel wire management raceway

Style Number	List Price
W1	75 Per 4' section

Specifications
- 4' section for field installation.
- The "J" shape black thermoplastic wire raceway may be added to specified worksurface tops to provide concealed channeling of wires to and from worksurface grommets. For use in open kneespace areas, raceway is attachable to top of back panel with pan head screws. Interior dimensions are 1" x 1- 1/2" providing ample storage for multiple wires and excess cable. Front of raceway flexes out for easy cord insertion.

Notes
- Units w/ Wire Channel Standard.
- Field Installation

WIRE MANAGEMENT
horizontal wire management raceway

Style Number	List Price
W21	95

Specifications

- 10"W x 1.5"D x 1.25"H
- Grey Wire Manager (10.5")
- Power and data cables can be discretely housed and managed with the W21 Gray Wire Manager. This can be mounted in any location to metal frame or underside of conference tables and runs cables through a 1" channel from power module to hollow steel legs. This keeps cables organized under the table top. Release clips make it simple to snap on and off the Wire Manager for easy organization and access after attached to the table

Notes
- Field installed

WIRE MANAGEMENT
horizontal u-channel wire management raceway

Style Number	List Price
W2A	75 Per 4' section

Specifications

- 4' section for field installation.

Notes
- Units w/ Wire Channel Standard
- Field Installation

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

NOTE: Prior to completion of this form, please refer to our Graded In Materials Program for pre-approved fabrics/leathers.

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing limitations

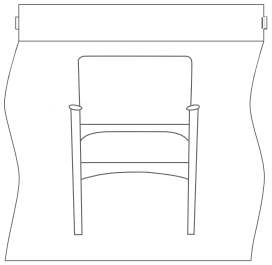

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

Six-t Table Specifications

Internal Bracketry is designed to be visible and available in 3 powdercoat colors. Brackets are mostly hidden on all tables except laptop, and provide a subtle accent color enhancing the design.

Precision molded bent plywood legs with veneer faces maximize strength and longevity.

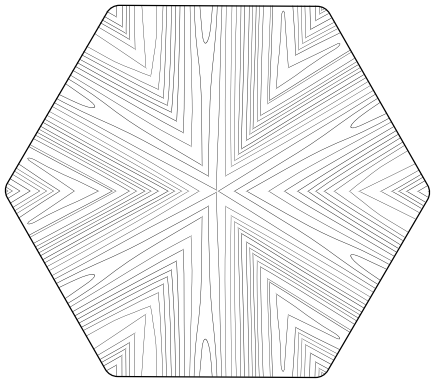

Veneer, Laminate, and Fenix Laminate tops are 1-1/8” with an Infinity Edge. Edge is stained to match top surface.

Multiple heights allow nesting, creating a landscape of tables in a space.

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

NOTE: Prior to completion of this form, please refer to our Graded In Materials Program for pre-approved fabrics/leathers.

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing limitations

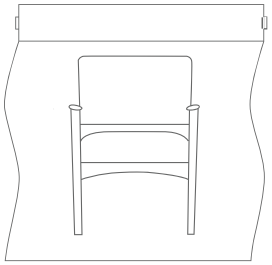

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

Seating Specifications

Seat cushions are made of high resiliency foam with proper density to give comfort and support.

Seat rails are reinforced with hardwood corner blocks and cleats attached with glue and wood screws.

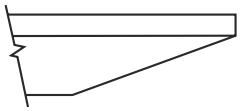

Frame is constructed of kiln-dried solid Ash or Walnut, perpetuating premium quality and durability.

Variety of textiles and back options offer customers flexibility in design and consistency within each office setting.

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

Spool Fabric & Leather Program

NOTE: Prior to completion of this form, please refer to our Graded In Materials Program for pre-approved fabrics/leathers.

ATTACH 6" X 6" FABRIC/LEATHER SAMPLE HERE

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing limitations

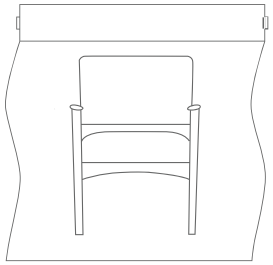

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

NOTE: Prior to completion of this form, please refer to our Graded In Materials Program for pre-approved fabrics/leathers.

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing limitations

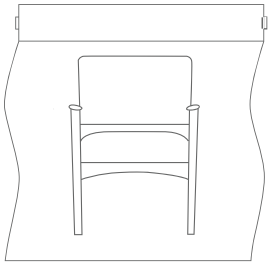

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric mustbe first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing limitations

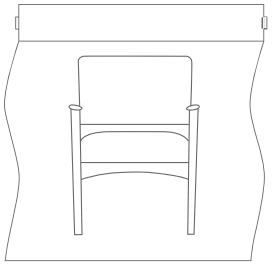

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

56” - 60”	3.25 yds.	3.25 yds.	1.75 yds.

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing/yardage requirements will be as shown in the above table.

- When combining two materials of the same grade, pricing will be specified grade + 5%
- If combining two materials of different grades or leather/fabric combination, use the highest grade/price + 5%
- If using COM or COL, pricing will be COM or COL + 5%.
- If both COM + COL are used in combination, use COL + 5%.

Product Features

- Seats sprung with 3” ultra high strength webbing
- High density resilient polyurethane foam used in seats and backs
- Frames contructed from CNC cut hardwood plywood
- Units can be ganged, unganged, and re-arranged

Notes

- Available in 1” increments
- For banquette units under 46”, two power ports are not recommended
- Optional Plateau power option can be daisy chained across multiple units

Options

Power Option

- PD-PLAT-2: Plateau - $691 each
- Plateau power unit comes standard in White
- Black and Gray available as premium colors options - add $95 each
- When specifying Plateau power, indicate Color (White/Black/Gray) and Location (Left Facing/Right Facing/Both)
- See Power & Data Options for further details

CAL 117-2013

All DARRAN seating products conform to California Technical Bulletin 117-2013 as a minimum standard.

ASTM E1537

Testing for ASTM E1537 is available for all DARRAN seating products If ASTM E1537 testing is required, please contact DARRAN customer service at 800.334.7891 for testing fees and considerations.

Combination fabrics

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing will be as follows:

- When combining two materials of the same grade, pricing will be specified grade + 5%.
- If combining two materials of different grades or leather/ fabric combination, use the highest grade/price + 5%.
- If using COM or COL, pricing will be COM or COL + 5%. If both COM + COL are used in combination, use COL + 5%

COM/COL ordering instructions

Please complete the COM Submission Form prior to ordering the fabric from the supplier. All COM fabrics must be approved prior to order submission. Please refer to our website or contact DARRAN Seating Customer Service for an updated list of preapproved COM fabrics. Application instructions must be specified on the purchase order or COM/COL approval form. In the absence of application instructions, DARRAN will apply materials in the best manner and cannot be held responsible for tailoring or application objections after upholstering. COM orders will be scheduled for production after receipt of the material. Packages must be clearly marked and the fabric must be first quality, continuous yardage.

COM/COL yardage requirements

The yardage requirements stated in this price list for each style are calculated using 54” wide, non-directional fabrics. For fabrics with a different width or for patterns with repeats, please refer to the below chart to calculate the additional percent of fabric required:

Fabric Width	Plain Fabric	2”- 14” Repeat	15”- 19”Repeat	20”- 27”Repeat	28”- 36” Repeat
54”	0	15%	20%	25%	30%
53”	6%	19%	24%	28%	36%
52”	13%	23%	28%	33%	38%
51”	19%	26%	31%	36%	41%
50”	25%	30%	35%	40%	45%
49”	30%	35%	40%	45%	50%
48”	35%	40%	45%	50%	55%
47”	45%	50%	55%	58%	65%

NOTE: Prior to completion of this form, please refer to our Graded In Materials Program for pre-approved fabrics/leathers.

NOTE
Actual Fabric/Leather samples needed instead of digital images. If digital images are sent in lieu of samples, DARRAN will only verify the pattern and will not take responsibility for color variances that cannot be verified due to printing limitations

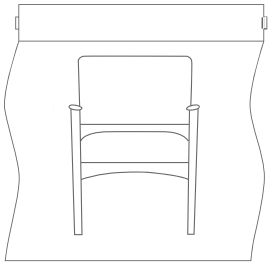

In the absence of application instructions, DARRAN will apply the material in the best manner and cannot be held responsible for tailoring or application objections after upholstering.

Unless otherwise instructed on the purchase order, excess COM materials will be recycled at the discretion of DARRAN after six months of the original product ship date.

The COM approval solely pertains to the application of the fabric onto the specified DARRAN seating product. DARRAN’s approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations, or colorfastness of the COM. It is the customer’s responsibility to ensure the COM meets CAL 117-2013 compliance and are first quality continuous goods.

3 Material Selections

DARRAN is pleased to offer customers the design freedom of combination fabrics. When using fabric, vinyl or leather combinations, pricing/yardage requirements will be as follows:

A Seat and Lower Arms 1.75 yds.
B Back and Upper Arms 2 yds.
* C Lower Stitch Color
* D Upper Stitch Color
* NOTE: C and D are optional, and require selection of CSH Contrast Stitch Option

- When combining two materials of the same grade, pricing will be specified grade + 5%
- If combining two materials of different grades or leather/fabric combination, use the highest grade/price + 5%
- If using COM or COL, pricing will be COM or COL + 5%.
- If both COM + COL are used in combination, use COL + 5%.

Product Features

- Overmolded steel frame
- High resilience molded foam
- Height adjustable swivel tilt mechanism

Notes

- Stitch color will match fabric color unless Contrast Stitch option is selected
- When choosing to powder coat the base, the height adjustable cylinder is black. When the standard polished aluminum base is selected, the height adjustable cylinder is chrome

Options

Casters
- Carpet casters standard
- CST20: hard surface casters - n/c

Contrast Stitching
- When selecting CSH Contrast Stitching with a single fabric option, one thread color will be used for all contrast stitching
- When selecting CSH Contrast Stitching with combination fabric, please specify both upper and lower stitch colors
- Available colors listed in the front of the price list
- CSH: Contrast stitching - $75

Premium Base Metal Finishes
- Polished aluminum base standard
- For optional premium colors, see front of Price List
- Specify metal finish color $135
