The utmost care is used in packaging and shipping. Cabot Wrenn liability ceases when the carrier issues a clear receipt to Cabot Wrenn, which is an acknowledgment by the transportation company that the shipment has been received by them in good condition. It is the obligation of the consignee to count and examine the condition of the shipper's containers at the time of delivery. It is the consignee's responsibility to file claims for damage or loss with the transportation company as soon as possible after receipt of merchandise. You should expect yield losses of between 30% to 40% depending on product and color.

How To Order Leather

Leathers can be purchased by the hide, half hide, or on a square footage basis.

For leather cut to size, we will compute the square footage and double the square footage price to account for the leather yield loss. Please contact customer service for leather requirements if the approximate average hide size is less than 10 square feet.

We will try to accommodate specific footage requests, but hide sizes vary and you will be billed for actual square footage.

To achieve this distinctive look, the hide is first dyed a light base color; then a darker color is hand wiped across the surface. This creates highlights and emphasizes the natural grain. Finally a glaze is applied which gives it a bright, shiny finish. Glazed is, by far, the finest of its type available.

Gunner - (Protected) - Class I: Gunner is a top grain leather with an excellent hand and a two-tone effect. Gunner has a protective finish.

Holman - (Protected) - Class I: Holman is a top grain leather from South America with a protective finish. Holman is very serviceable and great for high traffic areas in your home.

Hutton - (Protected) - Class I: Hutton is a top grain leather with an excellent hand and a two-tone effect. Hutton has a protective finish.

Hyde Park - (Unprotected) - Class IV: Hyde Park is a leather with a hand that feels almost like lambskin gloves and is known for its decadent coloring. Hyde Park will show distinguishing marks and patina with age. Hyde Park has no protective finish.

Juno - (Protected) - Class II: Juno is a top grain leather with a subtle two-tone effect. Juno has a soft, almost aniline touch. Juno has a protective finish.

Kip - (Protected) - Class I: Kip is a top grain leather with an extensive color line of today's fashion colors. Kip has a two-tone effect and an excellent hand. Kip has a protective finish.

Lyric - (Protected) - Class II: Lyric is a protected leather that gives the appearance of a distressed wax pull-up. Lyric will have almost none of the expected of a pull-up, yet has the "broken up" look. Lyric has a protective finish.

Mario - (Protected) - Class I: Mario is a top grain leather tanned and finished in Italy on European hides. Mario has a tight grain structure with an excellent hand and a modern color palette. Mario has a protective finish.

Nirvana - (Protected) - Class II: Nirvana is a top grain leather that has a matte finish. Nirvana has a feel coat to represent a naked aniline leather. Nirvana has an excellent hand and a protective finish.

Silas - (Protected) - Class I: Silas is a 1.2mm heavy weight, top grain leather from South America. Silas has an excellent hand with a protective top coat.

Sonoma - (Unprotected) - Class III: Sonoma is a sueded leather from heavy native steer hides.

Spirit - (Protected) - Class II: Spirit is a top grain leather produced in Italy on South American hides. Spirit is a slightly heavier weight leather to accentuate the grain and has a slight two-tone effect. Spirit has a light sheen and an excellent hand. Spirit has a protective finish.

Tiburon - (Unprotected) - Class IV: Tiburon is a waxed full grain "pull-up" leather that will show finish breaks to give the appearance of an antique leather. Scars and natural markings will be visible.

Williamsburg - (Protected) - Class III: This leather has been developed under the auspices of Colonial Williamsburg and the Williamsburg Foundation. Through extensive research, the colors have been developed by using formulas similar to those in the 18th century; today color is achieved with aniline dyes followed by a protective finish. Williamsburg is an authentic reproduction, and Cabot Wrenn is pleased to be one of the companies authorized to feature it.

CLEANING INSTRUCTIONS.

Cleaning Instructions for Leather

General Care Tips

Try to maintain at least two feet between your furniture and heating sources. Avoid placing your furniture in direct sunlight. All materials will fade over time when exposed to sunlight.

Natural Markings

Each piece of leather has unique marks and a personality all its own. These distinctive marks are barbed wire nicks, brands, and nature's hallmarks. Only true leather can boast these marks, and pride of ownership is enhanced due to this individuality. Please note these marks are not defects but characteristics of full top grain leathers.

Protected Leather

No upholstery material is easier to care for than genuine top grain leather. Dust frequently with a clean dry cloth. Wipe occasionally with a mild Ivory soap and water solution on a clean damp cloth. Repeat with a clean damp cloth and dry with a clean cloth to restore the beautiful patina of the leather. DO NOT use saddle soap, polish, wax or any cleaning agents other than a mild Ivory soap and water solution. The use of any cleaning substance other than a mild Ivory soap and water solution will negate any warranties from the leather tannery.

Unprotected Leather

This is a natural leather that cannot be cleaned because it does not have a protective coating. Dust frequently with a clean dry cloth. This leather will fade if exposed to direct sunlight. Leather Solutions has products available that may help the performance of this leather.

You may contact Leather Solutions for assistance at (336) 629 - 4998.

Cleaning Instructions for Fabric

Code S

To prevent overall soil and to remove dust and grime, frequent vacuuming or light brushing is recommended. Spot clean using a mild water-free solvent or dry cleaning product. Clean only in a well ventilated room and avoid any product containing Carbon Tetrachloride or other toxic materials. Pretest a small area before proceeding. Cleaning by a professional furniture cleaning service only is recommended. Caution: Never remove cushion covers for separate dry cleaning or washing, even though they do have zippers. Do not use bleach at any time. The use of steam, water or water based cleaners may cause excessive shrinking or staining of this particular fabric. Do not use any tumble method cleaning service, as this may destroy the backing of the fabric, shrink or otherwise damage the upholstery fabric.

Code W

To prevent overall soil and to remove dust and grime, frequent vacuuming or light brushing is recommended. Spot clean using the foam only from a water-based cleaning agent, such as a mild detergent or non-solvent upholstery shampoo product. Apply foam with a soft brush in a circular motion. Vacuum when dry. Pretest a small area before proceeding. Use a professional furniture cleaning service when an overall soiled condition has been reached. Caution: Never remove cushion covers for separate dry cleaning or washing, even though they do have zippers. Do not use bleach or any tumble method cleaning service, as this may destroy the backing of the fabric, shrink or otherwise damage the upholstery fabric.

Wood owes its inherent beauty to variations in color, grain and texture. As a result, there may be minor variations from one piece of furniture to the next even though they are finished at the same time. Exposure to light and the aging process will cause a darkening of natural wood products. For these reasons, Cabot Wrenn does not guarantee the exact matching of grain, pattern and color.

Special Finishes for Seating
