

NOTICE TO AUTHORIZED USERS OF AWARD #23295 - Furniture, All Types (Except Hospital Room and Patient Handling)

This pricelist/catalog may contain items that are not within the Scope of the Contract Award and/or not within this Contractors approved furniture Categories. All Authorized Users are strongly encouraged to review the Scope of the Award and the Contractors Category Matrix prior to selecting items for purchase under the Contract. Per Solicitation Section 4.5 (D) - Procurement Instructions for Authorized Users: When placing orders under this Award, the Authorized User should follow and be familiar with the terms and conditions governing the Contract and are responsible for determining that the product(s) they intend to purchase fit within the scope of the Award.

References to other government contracts that may be included in a Contractor's pricelist/catalog, including any additional terms or conditions, are void under the OGS Award and should be disregarded. Only OGS' Terms and Conditions, including those within a Contractor's posted Contractor Information and Supplemental Information sheet, are valid under the Contract.

Additionally, Authorized Users are reminded that where discrepancies exist between Price List documents, the lowest price shall prevail (see Section 5.3 Price).

All orders must be placed with the Contractor, or the Contractor's OGS approved Authorized Reseller listed on the OGS website under the Award. Orders placed with a reseller not approved by OGS are not considered contract orders and therefore are not subject to the same terms and conditions of the OGS Award.

Authorized Users should contact the OGS Contract Manager listed on the Award with any questions pertaining to this pricelist/catalog.

U.S. QUICK SHIP GUIDE

Pricing Effective May 2024

function
simplicity
longevity

QUICK SHIP PROGRAM

Humanscale offers a Quick Ship program across our key product categories to provide you and your customers faster lead times on specific model configurations. Please refer to the product page headers in the guide for the lead times available for each category. Aforementioned lead time is honored once order has been confirmed.

Quick Ship lead times are as stated for each product category once the order has been booked. Please allow for 24-48 hour order processing time prior to being booked, as well as delivery transit time from factory. Always refer to your order acknowledgment for the estimated ship date assigned to each order. Please contact your local Humanscale representative for project pricing and demos.

With an innovative recline mechanism that provides constant support and a pivoting backrest that automatically adjusts to the needs of the spine, the Freedom chair delivers exceptional comfort and promotes movement throughout the day. Its refined and sculpted cushions were designed to mimic the body’s natural contours and decrease pressure point loads for premium comfort. Like all Humanscale chairs, the Freedom chair was designed to look and function like new after years of consistent use.

Diffrient World is Humanscale's first foray into all-mesh task seating. Designer Niels Diffrient wanted to create the most minimal, full-function task chair ever made. With an innovative tri-panel mesh backrest that provides custom back and lumbar support and a lightweight design, Diffrient World is, like all of Humanscale's products, simple, beautiful and functional. The design eliminates the need for traditional mechanisms, instead using the laws of physics and the sitter's body weight to offer perfect recline for each individual sitter. Diffrient World offers the ultimate user-friendly sitting experience.

- Accommodates work surfaces up to 1.18" thick

FREEDOM

With Freedom, the knobs, levers and locks of current-generation task chairs have been replaced by intelligent mechanisms that automatically support the body as it moves from task to task. By minimizing the need for manual controls, Freedom maximizes natural, spontaneous movement, which is essential for a healthy body and a comfortable day's work. Freedom's many features can be enjoyed with virtually no effort.

FREEDOM Features & Characteristics

DYNAMIC HEADREST

- Position-sensitive headrest moves into place when you recline and out of the way when you sit upright
- 5" vertical adjustment to fit all users
- Moves in the natural arc of head/neck for perfect support through range of recline
- Contoured to cradle the head and neck in comfort

SELF-ADJUSTING RECLINE

- Intelligent counter-balance recline mechanism automatically provides the right amount of support through the full range of recline motion, regardless of user size and weight
- No tension springs to adjust
- No recline locks to set / release
- During recline, the angle between torso and legs opens up for better body function
- User maintains near-constant eye level during recline

PIVOTING BACKREST

- Extra motion of the backrest during recline automatically adjusts to the changing needs of the spine
- Provides up to 1" additional lumbar support when needed

SYNCHRONOUS ARMRESTS

- Revolutionary armrests move in tandem to eliminate uneven arm positioning
- Natural lift and release action for immediate repositioning without buttons or locks
- 6" range of vertical motion to accommodate all users and tasks
- Can be positioned below thigh level for close to table or desk work
- Attached to backrest so arms stay in same relation to body during recline
- Duron arm pad for durability and comfort

CUSHIONS

- Carefully sculpted to match body contours
- Increased contact area reduces pressure points
- Modular for easy replacement
- Molded polyurethane foam cushions
- Optional arm pads and seat have top layer of Technogel®
- Upholstered with a variety of materials customized to the unique form of the cushion

GEL SEAT CUSHION

- Non-degradable, non-compressible Technogel® layer on top of foam core
- Provides maximum pressure distribution
- Offers unmatched, long-term comfort

CYLINDER OPTIONS

- Provides seat height range that accommodates 95% of the population
- Low cylinder for small users
- Tall cylinder for very tall users
- High cylinder with foot ring
- Extra-high cylinder with foot ring (Saddle seat only)

External Frame and OPTIONAL Base UPGRADE

- Die-cast aluminum with fused plastic coating or polished aluminum finish

CASTER OPTIONS

- 2.5" soft double-wheel casters for hard floors
- Non-rolling glides for fixed-location use
- 2.5" locking casters

DIFFRIENT SMART

Ideal for any designed environment, Diffrient Smart features aesthetics that are as minimal visually as the chair is functional. And, with its signature weight-sensitive recline, body-fitting Form-Sensing Mesh Technology and unique tri-panel backrest, Diffrient Smart adapts to every user, every time. Diffrient Smart is also available in the Plus version for a wider seat and with support for up to 400lbs.

DIFFRIENT SMART Features & Characteristics

BODY FIT

Size adjustable to fit more than 95% of the population

CUSHION PAN, BACK FRAME, FIVE-ARM BASE

Injection-molded, structural, integral color plastics

EXTERNAL FRAME

Die-cast aluminum with powder coating

FIREPROOFING

CAL 133-approved: optional fireproof barrier between textile and foam

SELF-ADJUSTING RECLINE

- Intelligent counter-balance recline mechanism automatically provides the right amount of support through the full range of recline motion, regardless of user size and weight
- No tension springs to adjust
- No recline locks to set/release
- During recline, the angle between torso and legs opens up for better body function
- User maintains near-constant eye level during recline

PIVOTING BACKREST

- Extra motion of the backrest during recline automatically adjusts to the changing needs of the spine
- Provides additional lumbar support as needed

FORM-SENSING MESH

- Tri-panel, non-stretch mesh construction creates body-fitting contours and self-adjusting lumbar support for a customized fit
- No external lumbar devices to adjust, break or lose
- Low-abrasion mesh protects clothing
- Modular for easy replacement

ARMREST OPTIONS

- Armless
- Fixed armrests
- Height-adjustable armrests with 5" range of adjustment
- 4D height-adjustable armrests with adjustable armpads (standard on Diffrient Smart Plus)

CONTOURED CUSHIONS

- Carefully sculpted to match body contours
- Increased contact area reduces pressure points
- Modular for easy replacement
- 2" thick cushions on Diffrient Smart with a 19.25" seat width
- 3" thick cushions on Diffrient Smart Plus with a 22" seat width
- Glueless cushions mean less usage of materials for a more environmentally friendly solution

CYLINDER

- Standard cylinder provides seat height range that accommodates 95% of the population
- Optional low cylinder for small users
- Optional high cylinder for very tall users

BASE

- Plastic base (standard on Diffrient Smart)
- Aluminum base (standard on Diffrient Smart Plus)

CASTER OPTIONS

- Standard 3" casters for carpeted floors
- Optional soft casters for hard floors

LIBERTY

Liberty, with Form-Sensing Mesh Technology, is unlike any mesh chair you've seen or experienced. With its tri-panel construction, Liberty has the body-fitting contours that single-panel stretch mesh chairs simply can't achieve. And it offers perfect lumbar support for everyone, without external devices or manual adjustments. Liberty's mesh back is formed by combining three panels of non-stretch mesh in the same way a tailor combines multiple pieces of material to form a shirt. So its contours are custom-made to both fit and support the human body in unprecedented comfort.

LIBERTY Features & Characteristics

BODY FIT

Size adjustable to fit more than 95% of the population

CUSHION PAN, BACK FRAME, FIVE-ARM BASE

Injection-molded, structural, integral color plastics.

Optional stainless steel caps on base

EXTERNAL FRAME

Die-cast aluminum with fused plastic coating or polished aluminum finish

FIREPROOFING

CAL 133-approved: optional fireproof barrier between textile and foam

SELF-ADJUSTING RECLINE

- Intelligent counter-balance recline mechanism automatically provides the right amount of support through the full range of recline motion, regardless of user size and weight
- No tension springs to adjust
- No recline locks to set/release
- During recline, the angle between torso and legs opens up for better body function
- User maintains near-constant eye level during recline

PIVOTING BACKREST

- Extra motion of the backrest during recline automatically adjusts to the changing needs of the spine
- Provides additional lumbar support as needed

ARMREST OPTIONS

- Armless
- Fixed armrests
- Height-adjustable armrests with 5" range of adjustment
- Armpad Options: Standard Flexible Duron or Duron with Gel for optimal comfort

FORM-SENSING MESH

- Tri-panel, non-stretch mesh construction creates body-fitting contours and self-adjusting lumbar support for a customized fit
- No external lumbar devices to adjust, break or lose
- Low-abrasion mesh protects clothing
- Modular for easy replacement

CONTOURED CUSHIONS

- Carefully sculpted to match body contours
- Increased contact area reduces pressure points
- Modular for easy replacement
- Glueless cushions mean less usage of materials for a more environmentally friendly solution

CYLINDER

- Standard cylinder provides seat height range that accommodates 95% of the population
- Optional low cylinder for small users
- Optional tall cylinder for very tall users
- Optional high cylinder with foot ring

OPTIONAL FOOT RING

- Polished finish
- Height-adjustable

CASTER OPTIONS

- Standard 3" casters for carpeted floors
- Optional soft casters for hard floors
- Optional non-rolling glides for fixed location use

PATH

Path builds on Humanscale's 25 years of innovative engineering, developing products that are simple to use, encourage movement and healthy postures, and function and look as new after years of use.

Designed in collaboration with Todd Bracher Studio, our design goal was to create a task chair that is simple, beautiful and challenges our industry standard of complex mechanisms that require manual adjustment.

PATH Features & Characteristics

BODY FIT

- Size adjustable to fit more than 95% of the population

CUSHION PAN, BACK FRAME, FIVE-ARM BASE

- Injection-molded, structural, integral color plastics

EXTERNAL FRAME

- Die-cast aluminum with powder coating

SELF-ADJUSTING RECLINE

- Gravity Mechanism™ provides automatic support by using the sitter weight to counter recline force, resulting in a custom sitting experience for each user regardless of their size and weight
- No tension springs to adjust
- No recline locks to set/release
- During recline, the angle between torso and legs opens up for better body function
- User maintains near-constant eye level during recline

FORMSENSE ECO KNIT™

- FormSense Eco Knit™ instantly conforms to the shape of sitter's back, providing self-adjusting lumbar support that is tailored fit to any user
- No external lumbar devices to adjust, break or lose
- Modular for easy replacement

ARMREST OPTIONS

- Armless
- Fixed armrests
- Height-adjustable armrests

CONTOURED CUSHIONS

- Carefully sculpted to match body contours
- Increased contact area reduces pressure points
- Modular for easy replacement
- Glueless cushions mean less usage of materials for a more environmentally friendly solution

CYLINDER

- Standard cylinder provides seat height range that accommodates 95% of the population
- Optional low cylinder for small users

BASE

- Standard base to match frame
- Polished Aluminum Base on Black or Light Gray Frame

CASTER OPTIONS

- Standard casters for carpeted floors
- Optional soft casters for hard floors

DIFFRIENT WORLD

Diffrient World marks Humanscale's first foray into all-mesh task seating. Like its mesh-backed forerunner, Liberty, Diffrient World's tri-panel backrest hugs the body to provide tailor-made lumbar support, while its mesh seat eliminates contact stress under the thighs. But Diffrient World's major innovation is its mechanism-free recline action, which leverages two parts of the chair's frame, the user's body weight, and the laws of physics to provide automatic and balanced support throughout the full range of recline. No chair is more intuitive, creating the ultimate user-friendly sitting experience.

DIFFRIENT WORLD Features & Characteristics

BODY FIT

Size adjustable to fit more than 95% of the population

CUSHION PAN, BACK FRAME, FIVE-ARM BASE

Non-stretch, tri-panel mesh back. Non-stretch mesh seat. Optional upholstered polyurethane foam seat cushion

EXTERNAL FRAME

Injection-molded, structural, integral color glass-filled Nylon 6

FIREPROOFING

CAL 133-approved option available

SELF-ADJUSTING RECLINE

- Intelligent counter-balance recline mechanism automatically provides the right amount of support through the full range of recline motion, regardless of user size and weight
- No tension springs to adjust
- No recline locks to set/release
- During recline, the angle between torso and legs opens up for better body function
- User maintains near-constant eye level during recline

PIVOTING BACKREST

- Extra motion of the backrest during recline automatically adjusts to the changing needs of the spine
- Provides additional lumbar support as needed

ARMREST OPTIONS

- Armless, Fixed armrests or Height-adjustable armrests with 3.2" range of adjustment

ARM PAD OPTIONS

- Flexible Duron or Matching textile-covered arm pad

FORM-SENSING MESH

- Tri-panel, non-stretch mesh construction creates body-fitting contours and self-adjusting lumbar support for a customized fit
- No external lumbar devices to adjust, break or lose
- Low-abrasion mesh protects clothing
- Modular for easy replacement

NON-STRETCH MESH SEAT

- Automatically sculpts to match body contours
- Cradles the body in flexible, breathable mesh
- Frameless front edge eliminates contact stress under the thighs

CYLINDER

- Standard cylinder provides seat height range that accommodates 95% of users
- Optional low cylinder for small users
- Optional tall cylinder for very tall users
- Optional high cylinder with foot ring

CASTER OPTIONS

- Standard 3" (76mm) hard casters
- Optional non-rolling glides for fixed location use
- Optional soft casters for hard floors

SMART CONFERENCE

Adapted from iconic industrial designer Niels Diffrient's original Smart chair, Smart Conference takes intuitive comfort to a new level of luxury suitable for any meeting space. Smart Conference shares the same intuitive, ergonomic, and sustainable design as our award-winning Smart chair. It adjusts instantly to the user's body, providing a perfectly tailored sitting experience for all. No matter their shape or size, each sitter enjoys the same comfort, support, and movement in a chair that feels made just for them.

SUMMA

Designed specifically with executive boardrooms and offices in mind, Summa's enveloping shape and sculpted materials converge for a truly harmonious design that exudes luxury in every detail. Utilizing only one discreet height adjustment lever, Summa features a weight-compensating recline mechanism and integrated armrests for exceptional ergonomic comfort and support.

SUMMA Features & Characteristics

Walnut Wood Finish

Ebony Wood Finish

Anegre Wood Finish

Features

- Built-in armrests attached to the back to move with the user, supporting the sitter in every posture
- Simple and discreet height-adjustment lever seamlessly integrated into the seat
- Sitter’s own weight automatically sets the recline tension
- Chair back is available in three rich wood finishes or 7 upholstery options with matching box-stitching
- Supports users up to 300 lbs in weight and 6’4” in height
- Warranty: 10-year on components; 5-year on upholstery and wood

DIFFRIENT OCCASIONAL

Diffrient Occasional is a stackable multipurpose chair that is suitable for a variety of office and group settings. A strong, linear backrest made with proprietary non-stretch mesh creates a three-dimensional form – fitting the user like a perfectly tailored shirt. As with all of our mesh chairs, Occasional has a minimalist aesthetic and is supportive in all positions for long-term comfort.

- The lightweight chairs can be stacked up to five high for easy storage
- Long-lasting frame and durable urethane arms resist damage, even when moved and stacked
- Mesh pattern can be configured to match our Diffrient World task chair for a consistent aesthetic

BALLO

A fun sitting solution, Ballo is a multipurpose stool that is ideal for a wide range of environments. Designed by Don Chadwick, it reinvents the exercise ball, with a design that is appropriate for workplace settings while offering easier storage. Promoting short-term, active sitting, Ballo also encourages low intensity physical activity and helps to reduce sedentary behavior.

BALLO Features & Specifications

WEIGHT
• 13.5 lbs.
NOTE: ALL DIMENSIONS MEASURED AT .35 PSI ON EACH DOME

AIR-FILLED TOP AND BOTTOM DOMES

- The top and bottom non-slip, dimpled air domes are made from a thermoplastic vulcanizate (TPV) material, rather than PVC that is the industry standard and can off-gas.

LIGHTWEIGHT

- Lightweight at just 13.5 pounds and with cleverly designed hand holds, Ballo can be easily moved from space to space.

HANDLE HOLDS

- Ballo comes with handle holds for easy portability.

CENTRAL COLUMN

- Ballo's cone and spool column made out of polypropylene

BODY FIT

- Air-filled, non-slip dimpled domes shape to the body and provide a comfortable sitting experience.

SAFE AND COMPACT

- Counterweighted base ensures Ballo remains upright for stable movement and convenient storage.

DURABLE AND ECO-FRIENDLY

- Ballo is made from eco-friendly, easy-clean and durable TPV materials which can be configured in various hues to add color to any space.
- Innovative spool-shaped central column is made from strong, long-lasting polypropylene and designed with clean lines to offer a modern aesthetic.

CINTO

Appropriate for a wide range of commercial and residential environments, Cinto sets a new standard for ergonomic stackable seating through unique design and manufacturing innovations. Spanish for "belt," Cinto features a floating backrest that is attached to the chair's frame via a flexible belt, allowing it to move with the body to provide recline and automatic lumbar support. For cool seated comfort, air vents on the backrest and seat pan enable air circulation.

CINTO Features & Specifications

BACKREST HANDLE

- Provides easy transport

FLEXIBLE BACKREST

- Attached to the chair’s frame via a flexible belt, the floating backrest bends and adjusts with the sitter
- Flexibility of backrest creates virtual pivot point for automatic lumbar support
- No adjustments required

ARMREST OPTIONS

- Armless
- Fixed arms

VENTED SEAT PAN AND BACKREST

- Promotes air circulation and prevents “hot spots”

STACKABILITY

- Freestanding Cintos stack six chairs high
- Up to 15 chairs can be stacked on the optional Cinto Dolly

BASE OPTIONS

- Four legs on glides
- Four legs on casters

Textiles

The cushions on all Humanscale chairs utilize advanced technology developed primarily for the sportswear and sporting goods industries. In a single step, a high-tech molding process combines the textile, foam or Technogel®, and plastic support shell into a single, modular unit which can be attached to our seating with four screws. Because of this advanced process, the textiles used on the cushions are as unique as the rest of the chair, and satisfy requirements more demanding than typical upholstery textiles.

TEXTILES

*Living Product Challenge Approved

LOTUS*		Code	Color
Textile Code: K	Textile Grade: 1	101	Black
Water repellant and easy to clean, Lotus is an ideal textile for the healthcare and hospitality environments. Its polyurethane finish with nylon backing boasts a soft texture that is pleasant to the touch while offering exceptional durability.		128	White

*For users in the United Kingdom, chairs configured with Kvadrat Reflect may only be sold and/or used for contract, commercial, or office building purposes. Because Humanscale aims to manufacture without toxic ingredients, our chairs do not contain the fire retardants required to comply with UK laws for residential settings. Chairs configured with Kvadrat Reflect may not be sold or used in residential or home settings under any circumstances and such a sale or use will void the warranty.

TEXTILES: KVADRAT

HALLINGDAL 65

Textile Code: HL Textile Grade: 3

Kvadrat's first textile, Hallingdal, is the archetype of woolen textiles. Its strong upholstery fabric is made of wool and viscose, providing excellent durability and flexibility. Both materials are dyed before they are spun, which highlights the rich texture of the fabric.

Available in 58 colors

MESH

All Mesh Options are Living Product Challenge Approved

MONOFILAMENT STRIPE

Mesh Code: M

Using only monofilament yarns that are thin and strong, a simple but classic stripe pattern is achieved through weave structure and yarn placement. This pattern has slight elasticity but terrific memory.

Code	Color
10	Black
11	Carbon
14	Platinum
41	Green
51	Atlantic
81	Amber

SILVER CHECK

Mesh Code: C

This unique translucent pattern is achieved using monofilament and a silver-plated yarn spun with polyester at its core. More than simply an aesthetic choice, the silver-plated yarn gives the textile flexibility and strength.

Code	Color
12	Alloy
32	Topaz

PINSTRIPLE

Mesh Code: N

Designed specifically to work with the Diffrient World Chair, this lightweight fabric provides the strength and support of a much heavier mesh by using two different monofilament stretch yarns to provide proper support.

Code	Color
01	White
02	Silver
03	Graphite
10	Black
34	Cadmium Yellow
43	Citron
58	Cyan
74	Crimson

TEXTILE PURCHASE PROGRAM

All Humanscale textiles (with the exception of Leather) are available for purchase by the linear yard. The prices below are net (standard discounts do not apply). A \$20 cut charge will apply to each order. Please see your Humanscale representative for more information.

Monofilament Stripe	\$69/yd (50" width)
Silver Check	\$80/yd (53" width)
Lotus	\$41/yd (54" width)
Ginkgo	\$86/yd (51" width)
Dash	\$86/yd (48" width)
Pinstripe	\$74/yd (48" width)
Catena	\$69/yd (52" width)
Corde 4	\$52/yd (50" width)
Fourtis	\$46/yd (50" width)

CATENA

Mesh Code: J

Catena's dense and rich hues are inspired by the vibrant spice markets of India. When used as a backrest textile, this proprietary non-stretch mesh provides a customized lumbar support through its tri-panel patented design that fits the user like a tailored shirt.

Code	Color
10	Black
35	Bayberry
50	Cornflower
1A	Poppy Seed
1B	Caraway

DASH

Mesh Code: A

Designed to resemble embroidery floss, Dash is stronger, more responsive, lighter weight and uses less material than most mesh textiles. It gives the user support, comfort and ease of movement, while meeting Humanscale's seating requirements.

Code	Color
14	Platinum
19	Zinc

CUSTOM COLORS

Textiles:

Most Humanscale textiles are available in any customer-specified color. Delivery time frames for custom color orders will depend on color approval. A surcharge of \$50 per chair will apply to custom color orders. The minimum order quantity for these fabrics are as follows:

Lotus, Ginkgo:

Freedom Task + Headrest	200 chairs
Liberty Task	400 chairs
Diffrient Smart	400 chairs
Freedom Saddle	400 chairs
Freedom Pony Saddle	600 chairs

A Humanscale task lamp with a silver adjustable arm and a circular light head is positioned over an open book on a wooden desk. The lamp is illuminated, casting a warm glow on the book's pages. The book features a landscape photograph on the left page and a technical diagram with a grid of small circles on the right page. In the background, a portion of a grey office chair is visible.

Lighting

Task lighting is an integral part of the ergonomic workstation, and each of Humanscale's task lights provides exceptional levels of bright, comfortable light. Yielding both ergonomic and economic benefits, Humanscale's comprehensive lighting line fits any needs, whether you desire performance, efficiency, ease of use, or all of the above.

Sit-Stand

Recent research suggests that movement is vital to health. As the pioneer of a healthier, more active workplace, Humanscale has designed innovative sit/stand solutions that encourage users to alternate postures. Ultimately, these products allow users to adopt a healthy and balanced level of activity as they work.

FLOAT

Choosing A Worksurface

WORK SURFACE DIMENSIONS

Depth and width dimension is nominal. Depths are 1" less than stated to provide a 1" gap between the work surface and panel. Widths are 2" less than stated to provide a 1" gap on each side of the work surface. The gaps are to facilitate cable management, monitor arms and pinch points in either a panel or open plan work station environment.

1" gap behind work surface

Panel

Work Surface

Work Surface

1" gap on each side of work surface

LAMINATE WORK SURFACES

Our high pressure compact environmentally-friendly polypropylene laminate is laminated to either a 3/4" thick particleboard or a 3/4" MDF (medium-density-fibreboard) depending on the edge detail selected. Both work surfaces have a heavy duty back (bottom layer) which is a very thin layer of phenolic. This stops any potential warping. All of our work surfaces are **formaldehyde-free** and manufactured from **FSC (forest stewardship council) certified wood**.

QUICKSTAND Features & Product Configurations

MONITOR MOUNT

Choose between a single or dual monitor mount
It can accommodate a monitor up to 24"
The single/dual monitor mount has a height adjustment of 5"

COLOR

Choose between black with gray trim or white with gray trim to match QuickStand into any working environment

PLATFORM

The height adjustable platform is available in either a small or large platform for varying work surface depths
The size of the small platform is: 28" wide x 11" deep (for a 24" to 29" deep work surface)
The size of the large platform is: 28" wide x 17" deep (for a 30" to 36" deep work surface)
The small and large platforms both have a height adjustment of 18"

QUICKSTAND UNDER DESK

QuickStand Under Desk allows users to seamlessly alternate between sitting and standing postures without interrupting workflow. The continuous force mechanism is enclosed within a central column beneath the desk surface, so views are unobstructed in the sit position. Offering effortless functionality and a sleek, modern design, QuickStand Under Desk is an understated workspace wellness solution that blends into any environment.

- Main assembly holds single and dual monitors up to max total weight of 35 lbs.
- Designed to accommodate users of varying heights with 18" of work surface adjustment
- Minimal footprint allows for more use of the desktop area
- Provides built-in cable management
- Compatible with OfficeIQ – Humanscale’s innovative sit/stand alert software
- Compatible with Humanscale’s best-selling line of M2, M8 and M/Flex monitor arms.
- *Monitor arms are not included and may be ordered separately. QuickStand Under Desk may also be retrofitted to existing monitor arms.

Separation Panels

Studies show that constant peripheral interruptions in the workplace can have a negative effect on employee well-being and productivity. Humanscale's WellGuard Separation Panels offer the perfect balance of visual and acoustical privacy in collaborative open-office desking applications. Designed to accommodate a wide variety of environments, Humanscale's WellGuard Separation Panels are customizable, easy to install or uninstall when no longer required, and are highly durable over the course of time.

Ergo Tools

A key component of an ergonomic workstation, a well-designed articulating keyboard system works in conjunction with a monitor arm and task chair to promote healthy, comfortable posture. Humanscale keyboard supports literally bring the work to you, allowing you to sit back in your chair while providing serious protection from carpal tunnel syndrome, neck and back pain, and other musculoskeletal issues.

Build Your Keyboard System Product Code

STEP 1: MECHANISM OPTIONS

	6G (Black), 6GW (White) Humanscale's most advanced key-board mechanism to date, the 6G provides intuitive ergonomic adjustability and unmatched styling. 7" height adjustment (1.75" above track to 5.25" below track) Comes standard with 22" track	\$295			6GSM (Black) The 6G Short Mechanism provides 6G functionality with a shorter arm for small workstations and tight spaces. 4" height adjustment (0.5" above track to 3.5" below track) Comes standard with 18" track	\$312	
	6FB (Black), 6FW (White) Designed exclusively for the Float, the 6F incorporates simple dial-a-tilt adjustability and modern styling ideal for all height-adjustable tables. No height adjustment Only for use with height-adjustable tables	\$204			LS The Lateral Slider allows the platform to be adjusted left or right a total of 8" for optimal keyboard positioning. It can be ordered with any keyboard mechanism by indicating "LS" after the mechanism code (e.g., 6GLS or 6GWLS).	\$99

CPU HOLDERS

		LIST	
	CPU200 (Black)	\$208	
	CPU200W (White)	\$208	
	Fits CPUs 1" - 5" wide by 6" - 12" high Max CPU Weight: 15 lbs. Installed Dimensions: 6.7" Width, CPU Height + 3.8"		
	CPU600 (Black)	\$228	
	CPU600W (White)	\$228	
	Fits CPUs 3.5" to 9" wide by 12" to 20" high Max CPU Weight: 50 lbs. Installed Dimensions: 7" or CPU Width + 1.7" (whichever is greater), CPU Height + 3.6"		
	TCH - UNDERDESK	\$151	
	TCH - CROSSBEAM	\$182	
	Thin Client Holder accommodates 1"-2" thickness. Height: 2.3"-3.3" (58-84mm) Width: 5.5" (140mm) Depth: 4.8" (122mm) Weight Capacity: 5 lbs (2.27 kg)		

CPU MOUNTS

		LIST	
	11	11" Track	N/C
	16	16" Track	N/C
	22	22" Track	N/C
	STK14	Swivel Track Upgrade Kit for CPU450	\$45
	FCBS (Silver)	Float CPU Bracket	N/C
	FCBW (White)	Float CPU Bracket	N/C
	FCBB (Black)	Float CPU Bracket	N/C

CPU HOLDERS & REPLACEMENT PARTS

		LIST	
CPU ACCESSORIES			
	CPU555STOOL	\$35	
	Replacement Tool Kit for CPU555SEC (comes standard with CPU555SEC)		
	CPU555SECKIT	\$66	
	Retrofit Security Kit for CPU555 (comes standard with CPU555SEC)		
REPLACEMENT TRACKS WITH HARDWARE			
	RT11	11" Track	\$52
	RT16	16" Track	\$52
	RT22	22" Track	\$52
	STK14	Swivel Track Upgrade Kit for CPU450	\$45
REPLACEMENT BRACKET WITH HARDWARE			
	FCBS	Float CPU Bracket (Silver)	\$76
	FCBW	Float CPU Bracket (White)	\$76
	FCBB	Float CPU Bracket (Black)	\$76

Ergonomic Accessories
