Environmental Statement

Environmental Statement

At Intellicare we strive to be a good steward of our natural resources. Our efforts to reduce the environmental impact of our manufacturing processes are seen in many areas, most notably in the following:

Wood Components:
Material is supplied by a FSC accredited vendor, meaing that wood is sourced from sustainable forests. Waste is shredded and used for animal bedding in the agricultural sector. All boards are made from as much as 70% recycled materials.

Metal Components:
All metal waste is recycled for re-use. The recyclable steel frames are finished in a lead free powder coat with zero VOC and solvents. Excess powder is reclaimed and re-used.

Foam:
There are no CFC's, adhesives or formaldehyde used in any of our polyurethane foam products including our renewable resource foam which is based on an agriculturally derived Polyol at 20% concentration. Intellicare primarily uses molded foam, virtually eliminating waste. Molded foam is created using a chemical reaction temperature as opposed to an external heat source. Waste from molded foam is supplied to a local pillow-stuffer, diverting it from a landfill site. Where cut foam is used, waste is sent back to the supplier who then recycles and converts it into carpet underlay.

Upholstery:
Intellicare promotes upholstery products that are produced from 100% recycled fibre, bio-based fibre or natural, compostable fibre upholstery.

Glue:
Intellicare only uses water-based adhesives that conform to environmental regulations.

Intellicare continues to explore new environmentally friendly initiatives and pledge to constantly strive to better our manufacturing processes whenever possible.
