10-7551-0000	Intelitek - Chess Set Project - Students create all the pieces for a full chess set using CAD, CAM, and CNC technologies. Includes consumables for 1 Chess set (7000/9000)	\$636.00	2.00%	\$623.28	
CNC-PROJ-4CAV	Intelitek - 4-Cavity Mold Project - Students create a 4 cavity mold using CAD, CAM, and CNC technologies based on a rough dimensioned, concept drawing for the prototype. This mold has a three plate concept and the students goal is to machine this mold prototype as quickly and efficiently as possible. Includes LearnMate e-Learning Content Four Cavity Mold project with teacher supplement and one complete documented solution. (Does not include stock or tooling) (6000/8000)	\$206.70	2.00%	\$202.57	
CNC-PROJ-PLAN	Intelitek - Planetary Gearbox Project - Students create a Planetary gearbox using CAD, CAM, and CNC technologies based on a rough dimensioned, concept drawing for the prototype. This fully functional gearbox consists of 5 meshing gears within a multi-pieced housing. The students goal is to machine this gearbox prototype as quickly and efficiently as possible. Includes LearnMate e-Learning Content Planetary Gear Box project with teacher supplement and one complete documented solution. (Does not include stock or tooling) (6000/8000)	\$413.40	2.00%	\$405.13

Intelitek - Foundations Skills Curriculum - Requires LMS 77-1201-0000				
77-3109-0000	Intelitek - Virtual. Intro to Lean Manufacturing - 15 hours of virtual instruction. Lean Manufacturing explores the principles and techniques involved in lean manufacturing including minimizing waste in production, improving work flow in industrial processes. LM7 content.	\$2,644.70	2.00%	\$2,591.81
77-LOTO-0000	Intelitek - Virtual. Lock Out Tag Out - 15 hours of virtual instruction. Industrial Safety : Lock Out Tag Out delivers critical skills for creating and maintaining a safe work environment. LM7 content.	\$2,644.70	2.00%	\$2,591.81
77-BA01A-0001	Intelitek - Virtual. Math for Technicians I - 15 hours of virtual instruction. Mathematics for Technicians I conveys skills-based math curriculum through nine virtual activities. Students gain the fundamental math skills needed for working in a variety of career and industrial environment. LM7 content.	\$2,644.70	2.00%	\$2,591.81
77-BA01B-0001	Intelitek - Virtual. Math For Technicians II - 15 hours of virtual content. Mathematics for Technicians 2 applies advanced mathematics concepts to everyday tasks. Through interactive activities students, learn about drive ratios, Ohm's Law mechanical principles, and how these concepts apply in the engineering and industrial environment. LM7 content.	\$2,644.70	2.00%	\$2,591.81
77-BA03-0001	Intelitek - Virtual. Lubrication for Technicians - 15 hours of virtual instruction. Lubrication for Technicians conveys skills based curriculum through virtual activities. LM7 content.	\$2,644.70	2.00%	\$2,591.81
77-BA02-0001	Intelitek - Virtual., Blueprint Reading - 15 hours of virtual instruction. Through virtual activities, students learn all aspects of reading and interpreting blueprints in industrial environments. LM7 content.	\$2,644.70	2.00%	\$2,591.81
77-BA05-0001	Intelitek - Lab/Virtual, Hand Tools - 15 hours of Lab and virtual instruction. May be taught as a virtual course or as a lab course with both virtual and hardware-based activities (Optional accessories for the lab course-Hand Tools Lab Accessories Set 10-BA05-0000). LM7 content.	\$2,644.70	2.00%	\$2,591.81
77-BA06-0001	Intelitek - Lab/Virtual, Power Tools - 15 hours of lab and virtual instruction. Power Tools delivers twelve skills-based activities, in which students learn all aspects of using power tools, and the role they play in the everyday tasks of skilled professionals. (Optional accessories for the lab course-Power Tools Lab Accessories Set 10-BA06-0000). LM7 content.	\$2,644.70	2.00%	\$2,591.81
77-8014-0002	Intelitek - Lab/Virtual, Mechanical Measurement & Quality Control (M) - Metric Version. 15 hours of lab and virtual instruction. Mechanical Measurement and Quality Control delivers a solid foundation in precision measuring principles and statistical analysis. (Optional accessories for the lab course-Mechanical Measurement & Quality Control Lab Accessories Set 10-9410-0000). LM7 content.	\$2,644.70	2.00%	\$2,591.81

77-BA04-0001	Intelitek - Mechanical Fasteners - 15 hours of virtual instruction. Fasteners play a key role in countless industries. Through virtual and hands-on activities, students identify and work with the many types of fasteners used in industrial environments. Mechanical Fasteners features skills-based curriculum (Optional accessories for the lab course: 10-BA04-0000)	\$2,644.70	2.00%	\$2,591.81
77-3202-0000	Intelitek - Safety Fundamentals (NEW) - 15 hours of virtual instruction. Covers one of the most important aspects of an industrial training program. This dedicated safety module explores all aspects of manufacturing and workplace safety with the objective of educating students about safety norms, procedures and laws. Students will have a high level of regard for safety practices after completing this course.	\$2,644.70	2.00%	\$2,591.81
77-3097-0000	Intelitek - Career Skills/Employability - 15 hours of virtual instruction. The course delivers 21st Century career skills that ensure success in the workforce. Students develop essential qualities such as a positive attitude, communication skills, leadership skills and work ethics. The Career Skills Education Program is designed to ensure students obtain these essential personal and employability skills.	\$2,644.70	2.00%	\$2,591.81
77-8014-0001	Intelitek - Mechanical Measurement & Quality Control (Imperial) - Imperial Version.15 hours of lab and virtual instruction. Mechanical Measurement and Quality Control delivers a solid foundation in precision measuring principles and statistical analysis. Students gain proficiency in reading mechanical drawings, in selecting the proper tools for inspecting parts and in preparing quality control/inspection reports.(Optional accessories for the lab course: 10-9410-0000).	\$2,644.70	2.00%	\$2,591.81
77-3096-0000	Intelitek - Intro to Manufacturing - 15 hours of virtual instruction. The course provides students with a comprehensive overview of principles, processes and career choices in manufacturing. Students learn about the structure of a manufacturing company, computer-aided design (CAD), rapid prototyping, and concurrent engineering. Projects include planning a manufacturing company and designing prototypes and products and manufacturing parts.	\$2,644.70	2.00%	\$2,591.81
77-3022-0000	Intelitek - FMS Curriculum - 15 hours of virtual instruction in Flexible Manufacturing Systems including virtual experience with robots and CNC machines. The course exposes students to automation and industrial applications. Students develop and edit programs,record precise robotic positions, accurately mill parts, and synchronize mill and robot operation. Students gain "virtual hands-on" experience in CNC and robot programming, especially in I/O commands.	\$3,174.70	2.00%	\$3,111.21
