NOTE TO AUTHORIZED USERS:

When placing purchase orders under the contract(s), the authorized user should be familiar with and follow the terms and conditions governing its use which usually appears at the end of this document. The authorized user is accountable and responsible for compliance with the requirements of public procurement processes. The authorized user must periodically sample the results of its procurements to determine its compliance. In sampling its procurements, an authorized user should test for reasonableness of results to ensure that such results can withstand public scrutiny.

The authorized user, when purchasing from OGS contracts, should hold the contractor accountable for contract compliance and meeting the contract terms, conditions, specifications, and other requirements. Also, in recognition of market fluctuations over time, authorized users are encouraged to seek improved pricing whenever possible.

Authorized users have the responsibility to document purchases, particularly when using OGS multiple award contracts for the same or similar product(s)/service(s), which should include:

- a statement of need and associated requirements,
- a summary of the contract alternatives considered for the purchase,
- the reason(s) supporting the resulting purchase (e.g., show the basis for the selection among multiple contracts at the time of purchase was the most practical and economical alternative and was in the best interests of the State).

PURCHASING ORDER OF PRECEDENCE:

To meet their varying needs and their form, function and utility requirements, authorized users must follow the following order of precedence when choosing the proper procurement vehicle:

1. Preferred source offerings;
2. OGS centralized commodity contracts including this contract and other OGS contracts listed in the Overlapping Contract Items clause;
3. Agency or multi-agency established contracts; and
4. OGS centralized service or technology contracts or an “open market” procurement that can either be discretionary or result from a formal, competitive bidding process based on the total value of the procurement.

Further details on the procurement process can be located at: <http://www.ogs.state.ny.us/procurecounc/pdfdoc/guidelines.pdf>

PREFERRED SOURCE PRODUCTS:

Section 162 of the New York State Finance Law requires that New York State agencies afford first priority to the products of preferred source suppliers, such as Correctional Industries (Corcraft), Industries for the Blind of NYS, and NYS Industries for the Disabled, when such products meet the form, function and utility of the agency. Some products in the Master Contract and the resultant New York State Contract may be available from one or more preferred sources. Contractor understands and agrees that such products must be purchased from a preferred source in accordance with New York State Law.

NEW YORK STATE’S EXECUTIVE ORDER NO 4:

EO 4 requires every State agency and authority to develop and implement a Sustainability and Environmental Stewardship Program, which must include projects, programs and policies designed to reduce the public health and environmental impacts of their operations, such as reduction or elimination of the use and generation of toxic substances, pollution and waste. OGS considers the continuation and enhancement of agency green cleaning programs to be part and parcel of compliance with EO 4. For these reasons, it is the opinion of OGS, those agencies and authorities must utilize green cleaning practices in complying with EO 4.

Pursuant to EO 4, janitorial paper and other paper supplies purchased by each State agency or authority shall be composed of 100% post-consumer recycled content to the maximum extent practicable and all copy paper and janitorial paper shall be process chlorine free to the extent practicable, unless such products do not meet required form, function or utility, or the cost of the product is not competitive.
