2. TIPS, TRICKS, & RECOMMENDATIONS:

1. A How to Use the Vehicle Marketplace flowchart for **Executive Agencies** is available at https://ogs.ny.gov/nysvehiclemarketplace (scroll down to the Flowcharts: How to Use the Vehicle Marketplace section).
2. A How to Use the Vehicle Marketplace flowchart for **Non-Executive Agencies** is available at https://ogs.ny.gov/nysvehiclemarketplace (scroll down to the Flowcharts: How to Use the Vehicle Marketplace section).

3. **Research** the industry to see what vehicles and configurations are available to meet your needs.
    a. This includes but is not limited to visiting the websites or reaching out the Contractors (dealerships) and/or the Original Equipment Manufacturer. Researching will help in areas such as:
        i. Determining if a **Zero Emission Vehicle** (ZEV) can meet your needs
        ii. Understanding what specifications come standard
        iii. Help ensure that bid criteria is reflective of available models
        iv. **Build Out Dates** / Understanding the dates orders need to be placed by in order to secure the product you wish to purchase
4. Review the **Buyer's Guide** at https://ogs.ny.gov/system/files/documents/2023/10/award-23166-buyer-guide.pdf as it contains best practices and guidelines for evaluating and awarding a Mini-Bid.

5. When applicable, Authorized Users are recommended consider releasing broader required specifications
    a. This could lead to Mini-Bid responses from more dealers and better pricing
6. We recommend Authorized Users review the examples for each of the 3 From A types
    a. Visit https://ogs.ny.gov/vehicle-buyers, scroll down to the Vehicle Request Forms section, then click on "View Example" which is at the end of the description of each version of the Form A.
7. Authorized Users are reminded to work with Contractors to ensure the vehicle specifications are fully understood
8. We recommend Authorized Users consult with OGS Procurement Services in advance of releasing a large bid.
    a. You can call the Contract Manager by telephone or by emailing nysvehiclemarketplace@ogs.ny.gov.
9. The **Distribution Tool** is located at https://ogs.ny.gov/vehicle-buyers (scroll down to the Mini-Bid Distribution section).
    a. This document contains information such as the **Contractors (dealerships)** who hold a contract for this award and the **Original Equipment Manufacturers** they are authorized to sell products for under this award.
    b. **ALWAYS DOWNLOAD A NEW DISTRIBUTION TOOL EACH TIME A MINI-BID IS RELEASED.**
    c. **INCLUDE ALL CONTRACTORS THAT MIGHT BE ABLE TO PROVIDE THE PRODUCT YOU WOULD LIKE TO PURCHASE.**
        i. Authorized Users are NOT permitted to target Contractors based on their location. Nor can Authorized Users arbitrarily pick and choose which Contractors they wish to send their Mini-Bids to. See the Mini-Bid Distribution Tool's Buyer Instructions worksheet for details.

Language regarding the Advance Clean Trucks (ACT) Regulation has been inserted as # 5 of the How to Use document.

For your information, in December 2021, New York State adopted the California Air Resources Board's Advanced Clean Trucks (ACT) Regulation (6 NYCRR Subpart 218-4). ACT applies to medium- and heavy-duty vehicles (M/HDVs), defined as on-road vehicles with a gross vehicle weight rating (GVWR) greater than 8,500 pounds. The regulation consists of two sections: the first (6 NYCRR 218-4.1) is specific to M/HDV manufacturers only, while the second (6 NYCRR 218-4.2) is specific to public or large private fleet owners or brokers which operated or dispatched M/HDVs under their common ownership or control in New York State. The ACT regulation requires applicable M/HD vehicle manufacturers to sell a percentage of their total sales in New York State as zero-emission vehicles (ZEV).

Essentially, manufacturers of these vehicles earn credits for each Zero Emission Vehicle (ZEV) of theirs that is sold and registered in New York State. Manufacturers can then apply the credits they earn for sold ZEVs towards vehicles that are sold with internal combustion engines (ICE). If a manufacturer does not make ZEVs or does not have enough credits to counteract the sale of ICE vehicles the manufacturer can either purchase credits or pay penalties. While purchasers are instrumental to the success of this regulation, the ACT regulatory compliance applies to the manufacturer - not the purchaser.

The New York State Department of Environmental Conservation is responsible for identifying which M/HDVs can be exempt from the ACT regulations.
